(3) Is for the purchase and/or lease of permanent general purpose equipment having an acquisition cost of $200 or more and having an expected service life of one year or more. For the purpose of this subparagraph (3), the term "general purpose equipment" means any items which are usable for activities of the contractor other than the furnishing of any of the work or services required by this Contract, such as office equipment and furnishings, air-conditioning, reproduction or printing equipment, or any automatic data processing equipment.

(4) Is for the purchase of materials or supplies in excess of $2,500 which are to be consumed or expended in the performance of this Contract.

(5) Is written on a cost-reimbursement, time and material, or labor-hour basis.

(6) If for the furnishing of any of the work or services required by this Contract.

CHAPTER 114—DEPARTMENT OF THE INTERIOR

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), Chapter 114, Title 41 of the Code of Federal Regulations, is amended as set forth below.

This amendment relates only to matters of internal Department practice. It is, therefore, determined that the public rulemaking procedure is unnecessary and this amendment shall become effective January 22, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

JANUARY 15, 1975.

PART 114–1—INTRODUCTION

Subpart 114–1.1—Regulation System

Section 114–1.109–50 is revised so the listing of offices will read as follows:

§ 114–1.109–50 Bureau and Office codification.

* * * * *

114A—Office of the Secretary.
114B—Office of Management Operations.
114C—Reserved.
114D—Fish and Wildlife Service.
114E—Bureau of Mines.
114F—Geological Survey.
114G—Office of Coal Research.
114H—Bureau of Indian Affairs.
114J—Bureau of Land Management.
114K—National Park Service.
114L—Office of Territorial Affairs.
114M—The Alaska Power Administration.
114N—Bureau of Outdoor Recreation.
114P—Mining Enforcement and Safety Administration.
114R—Office of Water Research and Technology.
114S—Bureau of Reclamation.
114T—Bonneville Power Administration.
114U—Southeastern Power Administration.
114W—Southwestern Power Administration.
114Z—Defense Electric Power Administration.

PART 114–3—ANNUAL REAL PROPERTY INVENTORIES

Subpart 114–3.1—General Provisions

Section 114–3.105 is amended to read as follows:

§ 114–3.105 Agency liaison.

The Director of Management Services (PM), Office of the Assistant Secretary-Management, is the designated agency representative for this Department for liaison with the General Services Administration on matters related to the owned real property inventories. Any questions concerning these inventories shall be referred to him for handling.

Subpart 114–3.2—Annual Report—Real Property Owned by the United States

Sections 114–3.205 and 114–3.206 are amended to read as follows:

§ 114–3.205 Optional reporting method.

Any Bureau or Office desiring to submit its real property inventory in the form of a machine listing supported by punch cards shall notify the Director of Management Services (PM) so that appropriate arrangements can be made with the central office of GSA.

§ 114–3.206 Preparation and due dates.

The annual inventory report on GSA Forms 1166 and 1209 shall be prepared as of June 30 each year and transmitted to reach the Director of Management Services (Attn: PM), Office of the Assistant Secretary-Management, by not later than August 21, in the number of copies indicated below:

GSA Form 1166—An original and one copy. A complete file of all current individual installation reports shall be maintained by the bureau headquarters office.

GSA Form 1209—An original and two copies and one copy to be retained by the bureau headquarters office.

Consolidated GSA Form 1166—An original only is required for retention and use by the Director of Management Services.

PART 114–25—GENERAL

Subpart 114–25.1—General Policies

The Table of Contents is amended by deleting the reference to § 114–25.104–2, Purchase of new filing cabinets, and § 114–25.104–2 is deleted in its entirety.

§ 114–25.104–2 [Deleted]

Subpart 114–25.3—Use Standards

The Table of Contents is amended by addition of the following:

114–25.302–3 Electric Typewriters.

Section 114–25.350, standard lettering for bench marks and corner markers, is amended so the last paragraph will read as follows:

§ 114–25.350 Standard lettering for bench marks and corner marks.

* * * * *

Exceptions to the use of the foregoing lettering will be granted only where special circumstances warrant exemption. Requests for such exemption shall be transmitted through Bureau channels to the Director of Management Services (PM), Office of the Assistant Secretary-Management.

PART 114–26—PROCUREMENT SOURCES AND PROGRAMS

Subpart 114–26.3—Procurement of GSA Stock Items

Section 114–26.308 is amended to read as follows:

§ 114–26.308 Obtaining filing cabinets.

New filing cabinets should not be acquired until maximum utilization of existing filing cabinets has been obtained through the actions prescribed in 41 CFR 101–25.302–2.

Subpart 114–26.4—Purchase of Items From Federal Supply Schedule Contracts

Section 114–26.406–2(d) is amended so the listing of offices will read as follows:

§ 114–26.406–2 Billing code.

* * * * *

(d) * * *

Southwestern Power Administration—000 through 009 inclusive.
Bonneville Power Administration—010 through 019 inclusive.
Geological Survey—020 through 029 inclusive.
Southeastern Power Administration—030 through 039 inclusive.
Fish and Wildlife Service—040 through 059 inclusive.
Bureau of Mines—060 through 099 inclusive.
Fish and Wildlife Service—100 through 199 inclusive.
Bureau of Reclamation—200 through 499 inclusive.
Bureau of Indian Affairs—500 through 549 inclusive.
National Park Service—550 through 569 inclusive.
Bureau of Land Management—570 through 599 inclusive.
Office of the Secretary—600 through 624 inclusive.
National Park Service—625 through 674 inclusive.
Reserved—675 through 699 inclusive.
Alaska Power Administration—700 through 704 inclusive.
Bureau of Indian Affairs—705 through 784 inclusive.
Office of Aircraft Services—785 through 799 inclusive.
Bureau of Land Management—800 through 864 inclusive.
Reserved—865 through 964 inclusive.
National Park Service—965 through 999 inclusive.

Subpart 114–26.6—Procurement Sources Other Than GSA

The Table of Contents is amended by deleting "114–26.600–51 Other Procurement from the Defense Supply Agency".

Subpart 114–26.6 is amended to read as follows:

§ 114–26.650 Procurement of tax-free alcohol.

(a) Regulatory requirement. Governmentwide regulations governing the procurement and use of tax-free alcohol are contained in Part 213 of Title 26, Code of Federal Regulations.

(b) Departmental policy. It is the policy of the Department of Interior to utilize tax-free ethyl alcohol and tax-free specially denatured alcohol only when no other acceptable commercial product exists or can be procured. To ensure that this policy is strictly enforced, an annual review shall be made to determine the availability of acceptable commercial products which may be substituted for tax-free alcohol without adversely affecting the quality of the work performed or the health or safety of employees.

(c) Tax-free permits. The Bureau of Alcohol, Tobacco and Firearms has issued permits for the purchase of tax-free alcohol and specially denatured

spirits for use in the United States and the Territories and possessions. The following is a list of the current permits and the names and addresses of the manufacturers from whom such items should be procured:

Manufacturer	*Tax-free Permit*
U.S. Industrial Chemicals, Inc., Division of National Distillers Products Corp., Industrial Alcohol Bonded Warehouse No. 112, Anaheim, Calif.	US–TF–136.
U.S. Industrial Chemicals, Inc., Division of National Distillers Products Corp., Industrial Alcohol Bonded Warehouse No. 7, Boston, Mass.	US–TF–137.
U.S. Industrial Chemicals, Inc., Division of National Distillers Products Corp., Industrial Alcohol Bonded Warehouse No. 2, New Orleans, La.	US–TF–138.
Publisher Industries, Inc., Industrial Alcohol Bonded Warehouse No. 160, Philadelphia, Pa.	US–TF–139.
Commercial Solvents Corp., Industrial Alcohol Bonded Warehouse No. 26, Agnew, Calif.	US–TF–140.
Shell Chemical Corp., Industrial Alcohol Bonded Warehouse No. 234, Culver City, Calif.	US–TF–141.
U.S. Industrial Chemicals Co., Division of National Distillers & Chemical Corp., Industrial Alcohol Bonded Warehouse No. 418, Tuscola, Ill.	US–TF–142.
U.S. Industrial Chemicals Co., Division of National Distillers Products Corp., Industrial Alcohol Bonded Warehouse No. 158, Newark, N.J.	US–TF–143.
Carbide & Carbon Chemicals Co., Industrial Alcohol Bonded Warehouse No. 218, Whiting, Ind.	US–TF–144.
California Packing Corp., Industrial Alcohol Bonded Warehouse No. 77, Honolulu, Hawaii.	US–TF–145.

Manufacturer	*Specially Denatured Permit*
U.S. Industrial Chemicals Co., Division of National Distillers Products Corp., Anaheim, Calif.	US–SDS–74.
Commercial Solvents Corp., Agnew, Calif.	US–SDS–75.
Commercial Solvents Corp., Terre Haute, Ind.	US–SDS–76.

Requests for any additional permits should be submitted through Bureau channels to the Director of Management Services (PM), Office of the Assistant Secretary-Management, for transmittal to the Bureau of Alcohol, Tobacco and Firearms.

PART 114–43—UTILIZATION OF PERSONAL PROPERTY

Subpart 114–43.4—Utilization of Abandoned and Forfeited Personal Property

Section 114–43.402 is amended by adding paragraph (c) as follows:

§ 114–43.402 Forfeited or voluntarily abandoned property.

§ 114–43.402–4 Retention by holding agency.

* * * * *

(c) Limousines, heavy sedans, and medium sedans may not be retained for use by a Bureau or Office of the Department of the Interior. Any request for exception to this rule shall be submitted to the Assistant Secretary-Management, accompanied by a justification showing the specific program need for a larger type vehicle, and then only when the proposed use is clearly authorized by the provisions of Federal Management Circular (FMC) 74–1.

[FR Doc.75-2014 Filed 1-21-75;8:45 am]

V 40 15 JAN 22 75 XUM

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

United States Customs Service

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Customs Region VIII Consolidating Customs Ports on Puget Sound, Washington, Into One Customs Port of Entry

In order to provide better Customs service to carriers, importers, and the public in the Seattle, Washington, Customs district (Region VIII), it is considered desirable to expand the port limits of the present Customs port of entry at Tacoma, Washington, and to consolidate that port and Bellingham, Friday Harbor, Anacortes, Everett, Seattle, Olympia, Port Townsend, Port Angeles, and Neah Bay, Washington, into one Customs port of entry to be known as the Puget Sound Customs port of entry.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 10 (40 FR 2216), it is hereby proposed to establish a consolidated Puget Sound Customs port of entry in the Seattle, Washington, Customs district (Region VIII).

The geographical limits of the proposed consolidated port of entry will encompass all of the area within the present port of entry limits of Seattle, Anacortes, Bellingham, Everett, Friday Harbor, Neah Bay, Olympia, Port Angeles, and Port Townsend, Washington, and the port of entry limits of Tacoma, Washington, as extended to include the following territory:

Beginning at the intersection of the westernmost city limits of Tacoma and The Narrows and proceeding in an easterly, then southerly, then easterly direction along the city limits of Tacoma to its intersection with Pacific Highway (U.S. Route 99), then proceeding in a southerly direction along Pacific Highway to its intersection with Union Avenue Extended and continuing in a southerly direction along Union Avenue Extended to its intersection with the northwest corner of McChord Air Force Base, then proceeding along the northern, then western, then southern boundary of McChord Air Force Base to its intersection, just west of Lake Mondress, with the northern boundary of the Fort Lewis Military Reservation, the proceeding in an easterly direction along the northern boundary of the Fort Lewis Military Reservation to its intersection with Pacific Avenue, then proceeding in a southerly direction along Pacific Avenue to its intersection with National Park Highway, then proceeding in a southeasterly direction along National Park Highway to its intersection with 224th Street, East, then proceeding in an easterly direction along 224th Street, East, to its intersection with Meridian Street, South, then proceeding in a northerly direction along Meridian Street to the northern boundary of Pierce County, Washington, then proceeding in a westerly direction along the northern boundary of Pierce County to its intersection with Puget Sound, then proceeding in a generally southwesterly direction along the banks of the East Passage of Pudget Sound, Commencement Bay, and The Narrows to the point of intersection with the westernmost city limits of Tacoma. The purposed port limits of the consolidated port of entry will also include all points and places on the southern boundary of the Juan de Fuca Strait from the eastern port limits of Neah Bay to the western port limits of Port Townsend, all points and places on the western boundary of Puget Sound, including Hood Canal, from the port limits of Port Townsend to the northern port limits of Olympia, all points and places on the southern boundary of Puget Sound from the port limits of Olympia to the western port limits of Tacoma, and all points and places on the eastern boundary of Puget Sound and contiguous waters from the proposed port limits of Tacoma north to the southern port limits of Bellingham.

Currrently, vessels arriving at any Customs port of entry on Puget Sound and subsequently moving to any other port of entry on Puget Sound are required to enter and clear at each port. The proposed amendment would permit vessels arriving within the new port limits to enter only at the first port area of arrival and clear only at the port area of departure. Entries for imported merchandise would continue to be accepted at Seattle, Anacortes, Bellingham, Everett, Friday Harbor, Neah Bay, Olympia, Port Angeles, Port Townsend, and Tacoma, and there would be no decrease in Customs services at any of these ports as a result of this consolidation. Each of the former ports of entry in the consolidated area will retain its port code.

Data, views or arguments with regard to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration of such communications, they must be received February 21, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)) at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

JANUARY 15, 1975.

[FR Doc.75-2040 Filed 1-21-75;8:45 am]

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

[7 CFR Part 210]

NATIONAL SCHOOL LUNCH PROGRAM

Notice of Proposed Rulemaking

Notice is hereby given that the Food and Nutrition Service intends to amend the regulations governing the National School Lunch Program in order to implement Federal Management Circular 74-7 (34 CFR Part 256, 39 FR 35787) which prescribes uniform administrative requirements for Federal grants-in-aid to State and local governments, and for other purposes. The background of the Circular is set forth in 34 CFR 256.3 as follows:

On March 27, 1969, the President ordered a 3-year effort to simplify, standardize, decentralize, and otherwise modernize the Federal grant machinery. The standards included in the attachments to this part replace the multitude of varying and oftentimes conflicting requirements in the same subject matter which have been burdensome to State and local governments. Inherent in the standardization process is the concept of placing greater reliance on State and local governments. In addition, the Intergovernmental Cooperation Act of 1968 was passed, in part, for the purpose of: (a) Achieving the fullest cooperation and coordination of activities among levels of Government, (b) improving the administration of grants-in-aid to the States, and (c) establishing coordinated intergovernmental policy and administration of federal assistance programs. * * *

A number of proposed changes to this part leave specific details of program administration to State agency discretion. The Department's role in these areas will be to provide guidance rather than to dictate procedures. In this connection, the requirements of the provisions now removed from these regulations may be viewed as acceptable practices which State agencies may modify to meet their own needs. Before making the proposed changes effective in fiscal year 1976, the Department will provide appropriate guidance materials to State agencies to aid them in developing their own procedures.

In order to implement Federal Management Circular 74-7, the changes listed below are proposed.

(1) State agencies will be responsible for prescribing the accounting records relating to their use of the Federal grants made to them under this part. These records must meet the general requirements of being accurate, current, and complete.

(2) The restrictions on advances of funds to School Food Authorities for April of each year will be dropped. The requirement that the amount of the advance is to be based on the reimbursement needed for 1 month's operations remains in effect.

(3) State agencies will specify the data items on the application form and on the Payment Voucher used to reimburse School Food Authorities.

(4) The requirements for the State Plan of Child Nutrition Operations will be modified to include a plan for monitoring program performance and measuring progress toward achieving program goals. The State Plan will also include plans for a State audit program which will provide for audits of State agencies and School Food Authorities at least once every two years.

(5) The provision dealing with the disqualification of State agencies and School Food Authorities from future participation is clairified by requiring FNS to provide written notice and justification when a Federal grant is terminated for cause.

(6) Record retention requirements are modified to permit State agencies to maintain records in their original form or on microfilm.

(7) State agencies will disallow any portion of a claim and recover any payment made to a School Food Authority that was not properly payable under this part. State agencies will use their own procedures to disallow claims and recover overpayments already made.

(8) FNS will prescribe procurement standards for State agencies. These procedures will be suitable for application at the School Food Authority level if State agencies desire to require them.

Although not required by Federal Management Circular 74-7, the regulations are being amended to give State Governors the opportunity to review and comment on State Plans of Child Nutrition Operations. A number of minor changes of a technical nature are also made.

Comments, suggestions, or objections are invited and in order to be sure of being considered should be delivered to William G. Boling, Director, Child Nutrition Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250, or submitted by mail postmarked not later than February 21, 1975. Communications should identify the regulations section and paragraph on which comments, etc., are offered. All comments, suggestions, or objections will be considered before the final amendments are published. All written submissions received pursuant to this notice will be made available for public inspection at the Office of the Director, Child Nutrition Division, during the regular business hours (8:30 a.m. to 5 p.m.) (7 CFR 1.27(b)).

1. The table of sections is amended by deleting the word "Reimbursement" in § 210.11, by deleting the phrase "for reimbursement" in § 210.12 and inserting in lieu thereof the phrase "of payments to School Food Authorities", by deleting the word "Reimbursement" in § 210.13 and inserting in leu thereof the word "Payment", by deleting the words "Administrative analyses" in § 210.17 and inserting in lieu thereof the words "Management evaluations", and adding a new § 210.19a entitled "Procurement standards."

2. In § 210.4a, paragraph (b) is amended by deleting the word "and" before item (5), deleting the period at the end of the paragraph and inserting in lieu thereof a semicolon, adding new items (6) and (7), and adding a new paragraph (f).

The added provisions read as follows:

§ 210.4a State Plan of Child Nutrition Operations.

* * * * *

(b) * * *; (6) a plan for audits to be made by the State agency which shall: (i) State the frequency of audits of State agency and School Food Authorities, (ii) Contain assurance of the independence of the audit organization, and (iii) Provide a systematic method to assure timely and appropriate resolution of audit findings and recommendations, and (7) a plan to monitor program performance and measure progress in achieving program goals.

* * * * *

(f) The State agency shall give the Governor, or his delegated agency, the opportunity to comment on the relationship of the State Plan to comprehensive and other State plans and programs and to those of affected areawide or local jurisdictions. A period of 45 days from the date of receipt of the State plan shall be afforded to make such comments.

3. § 210.5 is revised to read as follows:

§ 210.5 Method of payment to States.

(a) Funds to be paid to any State for general cash-for-food assistance or special cash assistance shall be made available by means of Letters of Credit issued by FNS in favor of the State agency. The State agency shall: (1) Obtain funds needed for payment or advance to School Food Authorities through presentation by designated State officials of a Payment Voucher on Letter of Credit in accordance with procedures prescribed by FNS and approved by the U.S. Treasury Department; (2) Draw only such funds as are needed to pay claims certified for payment or to make authorized advances; and (3) Use such funds without delay for the purpose for which withdrawn.

(b) The State agency shall release to FNS any Federal funds made available to it under the Program which are unobligated at the end of each fiscal year. Any such funds shall remain available to FNS for the purpose of the Program until expended. Release of funds by the State agency shall be made as soon as practicable but in any event not later than 30 days following demand by FNSRO and shall be reflected by a related adjustment in the State agency's Letter of Credit.

4. In § 210.7, paragraph (a) is revised to read as follows:

§ 210.7 Use of funds.

(a) Federal funds made available under the Program shall be used by State agencies, or FNSROs where applicable, to reimburse or make advance payment to School Food Authorities in connection with lunches served to children of high school grade or under in accordance with the provisions of this part: *Provided, however,* That, with the approval of FNS, any State agency, or FNSRO where applicable, may reserve for use in carrying out special developmental projects an amount up to 1 per centum of the funds earned in any fiscal year under the Program. Advance payments to School Food Authorities shall be made at such times and in such amounts as are necessary to meet current fiscal obligations.

* * * * *

5. § 210.8 is amended by deleting the phrase "close of the Federal fiscal year to which they pertain" in paragraph (d)(3) and inserting in lieu thereof the phrase "date of the submission of the final expenditure report", deleting the words "claim for reimbursement" in item (8) of paragraph (e) and inserting in lieu thereof the words "Payment Vouchers", revising paragraphs (b) and (d)(1), and by adding a new item (16) and revising the first sentence and item (13) of paragraph (e). The revised and added provisions read as follows:

§ 210.8 Requirements for participation.

(b) Applications shall include information in sufficient detail to enable the State agency to determine whether the School Food Authority is eligible to participate in the Program and extent of the need for Program payments.

* * * * *

(d)(1) The food service management company shall maintain such records (supported by invoices, receipts, or other evidence) as the School Food Authority will need to meet its responsibilities pertaining to the financial management system and any other requirements prescribed by the State agency;

* * * * *

(e) The State agency, or the Department through FNSRO where applicable, shall enter into a written agreement with each School Food Authority for schools approved for participation in the Program. * * * (13) Maintain a financial management system as prescribed by the State agency or FNSRO where applicable; * * * (16) Retain the individual applications for free and reduced price lunches submitted by families for a period of 3 years after the date of the submission of the final expenditure report.

* * * * *

6. In § 210.10, paragraph (a)(2) is revised to read as follows:

V40115 JAN22 75 XUM

§ 210.10 Requirements for lunches.

(a) • • •

(2) The kinds and amounts of foods specified in paragraph (a)(1) of this section are approximate amounts of foods to serve 10 to 12-year old boys and girls. If consistent with State policy, School Food Authorities may allow the younger children to be served lesser amounts of selected foods than are specified in paragraph (a)(1) of this section. School Food Authorities shall encourage the serving to older boys and girls of larger amounts of selected foods than are specified in paragraph (a)(1) of this section. The Department shall issue guidance materials for the use of State agencies and FNSROs on the amount of foods to be served children in the various age groups.

• • • • •

7. § 210.11 is amended by deleting the word "Reimbursement" from the title and by deleting the words "Reimbursement" and "reimbursement" wherever they appear and inserting in lieu thereof the words "Payment" or "payment".

8. Section 210.12 is revised to read as follows:

§ 210.12 Effective date of payments to School Food Authorities.

Payments shall be made only to School Food Authorities operating under an agreement with the State agency or the Department, and shall be made only after execution of the agreement. Such payments may be made in connection with lunches served in accordance with provisions of the Program in the calendar month preceding the calendar month in which the agreement is executed, provided that both months are in the same fiscal year.

9. Section 210.13 is revised by deleting the word "Reimbursement" from the title and inserting in lieu thereof the word "Payment"; by deleting the terms "reimbursement", "Claim for Reimbursement", "claims for reimbursement" and "claims and inserting in lieu thereof the terms "payment", "Payment Voucher", "Payment Vouchers", and "Payment Vouchers", respectively; by deleting the phrase "paragraphs (c) and (d)" in paragraph (a) and inserting in lieu thereof the phrase "paragraph (c)"; by deleting the phrase "paragraphs (b) and (d)" in paragraph (b–1) and inserting in lieu thereof the phrase "paragraph (b)"; by deleting paragraph (d); by deleting the last two sentences of paragraph (e); and by revising paragraph (b) to read as follows:

§ 210.13 Payment procedure.

• • • • •

(b) Payment Vouchers shall include data in sufficient detail to justify the payment claimed and to enable the State to provide the information for the monthly reports required under § 210.14 (c). Payment Vouchers shall be filed with the State agency, or FNSRO where applicable, by the 10th day of the month following the month covered. Not more than 10 days of the beginning or ending month of Program operations in a fiscal year may be combined on a Payment Voucher with the operations of the month immediately following the beginning month, or preceding the ending month. Payment Vouchers may not combine operations occurring during the ending month of a fiscal year with the beginning month of the next fiscal year.

• • • • •

10. § 210.14 is amended by deleting the phrase "under § 210.13 (c) and (d)" in paragraph (a–3) and inserting in lieu thereof the phrase "under § 210.13(c)"; by deleting the term "Claim for Reimbursement" in paragraph (a–2) and the term "Claims for Reimbursement" in paragraph (a–3) and inserting in lieu thereof the terms "Payment Voucher" and "Payment Vouchers", respectively; by deleting the phrase "end of the fiscal year to which they pertain" in paragraph (g)(1) and inserting in lieu thereof the phrase "date of the submission of the final expenditure report"; by deleting paragraphs (f) and (g)(2); by deleting the phrase "under § 210.13(d) and § 210.15a(d)" in paragraph (g)(4) and inserting in lieu thereof the phrase "under § 210.13(a) and § 210.15a(c)"; by revising paragraphs (a), (a–1), (b), (i), and adding a new paragraph (c) to read as follows:

§ 210.14 Special responsibilities of State agencies.

(a) Each State agency, or FNSRO where applicable, shall provide program assistance, as follows:

(1) Each State agency or FNSRO where applicable, shall provide personnel to administer and monitor program performance and to measure progress towards achieving program goals, as specified in the State Plan of Child Nutrition Operations, provided for under § 210.4a of this part.

(2) To meet the minimum criteria for approval, the portion of the State Plan which deals with program assistance must include: (i) Objectives, (ii) Reasons for the establishment of the objectives, (iii) Methods to be used to accomplish the objectives, (iv) Evaluation methods to be used in determining if the objectives are being met.

(3) Such assistance shall include visits to participating schools to ensure compliance with program regulations and with the Department's nondiscrimination regulations (Part 15 of this title), issued under Title VI of the Civil Rights Act of 1964.

(4) Documentation of such assistance shall be maintained on file by the State agency, or FNSRO where applicable.

(a–1) Each State agency shall establish a system of accounting under which School Food Authorities shall report the information required in § 210.13(b).

• • • • •

(b) Each State agency shall maintain current and complete accounting records of program operations in schools, supported by source documentation, which will adequately identify funds authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income. The records may be kept in their original form or on microfilm, and shall be retained for a period of three years after the date of the final expenditure report; except that, if audit findings have not been resolved, the records shall be retained beyond the three-year period as long as required for the resolution of the issues raised by the audit.

(c) Each State agency shall report information on the use of program funds quarterly and monthly to CND on a form provided by CND. Both reports shall continue to be submitted on a regular basis after the end of the fiscal year to which they pertain until all unpaid obligations have been liquidated at which time the next reports made should be marked "Final" and submission discontinued for that fiscal year.

• • • • •

(f) [Deleted]

• • • • •

(g)(2) [Deleted]

• • • • •

(i) State agencies shall require School Food Authorities to comply with applicable provisions of this part.

11. § 210.15 is revised to read as follows:

§ 210.15 Review of operating balances.

State agencies shall reduce or deny payments to School Food Authorities which have, in the judgment of the State agency, operating balances which exceed their operating needs.

12. § 210.15a is amended by deleting the term "(13)(ii)(b), (13)(iii) and (13)(iv)" in paragraph (b); by deleting the phrase "in paragraphs (c) and (d) of this section" in paragraph (c–1) and inserting in lieu thereof the phrase "in paragraph (c) of this section"; by deleting paragraph (d); and revising paragraph (c) to read as follows:

§ 210.15a Commodity only schools.

• • • • • •

(c) Each School Food Authority of a commodity only school shall report monthly to the State agency, or FNSRO where applicable, the following items: (i) The total number of free lunches served to children meeting the school's approved eligibility criteria for such lunches, and (ii) The total number of reduced-price lunches served to children meeting the school's approved eligibility criteria for such lunches. The reports for the months of October and March of each fiscal year shall be accompanied by an estimate of the number of children in each school that are eligible for free or reduced price lunches under the school's approved eligibility criteria for such lunches.

• • • • •

13. Section 210.16 is amended by deleting paragraph (b) and revising paragraphs (a) and (d) to read as follows:

§ 210.16 Claims against School Food Authorities.

(a) State agencies shall disallow any portion of a claim and recover any payment made to a School Food Authority that was not properly payable under this part. State agencies will use their own procedures to disallow claims and recover overpayments already made.

(b) [Deleted]

• • • • •

(d) The State agency shall maintain all records pertaining to action taken under this section. Such records shall be retained for a period of 3 years after the date of the submission of the final expenditure report.

• • • • •

14. Section 210.17 is revised to read as follows:

§ 210.17 Management evaluations and audits.

(a) In accordance with the plan submitted under § 210.4a(b)(6), the State agency shall provide for audits of the funds and operations of the Program covered by this part, at the State and School Food Authority levels to be made with reasonable frequency but not less frequently than once every two years. The audits shall determine the fiscal integrity of financial transactions and reports, and the compliance with applicable laws and regulations and with the administrative requirements set forth in Appendix G of 34 CFR Part 256. Audits may be made by State agency internal auditors, by State Auditors General, by State Controllers, or by other comparable State audit groups; or by Certified Public Accountants or State licensed public accountants.

(b) While OA shall rely to the fullest extent feasible upon State sponsored audits, it shall, whenever considered necessary, (1) make audits on a statewide basis, (2) perform on-site test audits, and (3) review audit reports and related working papers of audits performed by or for State agencies.

(c) Use of audit guides available from OA is encouraged. When these guides are utilized, OA will coordinate its audits with State sponsored audits to form a network of intergovernmental audit systems.

(d) FNS and OA shall review the program accomplishments and management control systems of State agencies. State agencies shall provide FNS and OA with full opportunity to conduct management evaluations (including visits to schools) and audits of all operations of the State agency under this part. Each State agency shall make available its records, including records of the receipt and expenditure of funds, upon a reasonable request by FNS or OA. OA shall also have the right to make audits of the records and operations of any school.

(e) In making management evaluations or audits for any fiscal year, the State agency, or OA, may disregard any overpayment which does not exceed $35 or, in the case of State agency administered programs, does not exceed the amount established under State law, regulations or procedure as a minimum amount for which claim will be made for State losses generally. No overpayment shall be disregarded, however, where there are unpaid claims of the same fiscal year from which the overpayment can be deducted or where there is substantial evidence of violation of criminal law or civil fraud statutes.

15. § 210.19 is amended by inserting the following sentence before the last sentence before the last sentence of paragraph (a): "FNS shall promptly notify the State agency or School Food Authority in writing of any determination made under this paragraph and explain the reasons for the determination."

16. A new § 210.19a is added to read as follows:

§ 21019a Procurement standards.

(a) *General purpose and scope.* This section provides standards for use by State agencies in establishing procedures for the procurement with Federal grant funds of supplies, equipment, and other services for use in public schools. These standards are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal Law and Executive Orders. State agencies may use their own procurement policies provided that procurement for public schools, whose cost is borne in whole or in part as a direct charge by the Federal Government, adheres to the standards set forth in this section.

(b) The standards contained in this section do not relieve the State agency of the responsibilities arising under its contracts. The State agency is the responsible authority regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of a grant. This includes, but is not limited to: disputes, claims, protests of award, source evaluation, or other matters of a contractual nature. Matters concerning violation of law are to be referred to the State or Federal authority that has proper jurisdiction.

(c) The State agency shall maintain a code or standard of conduct which shall govern the performance of its officers, employees, or agents in contracting with and expending Federal grant funds. The State agency's officers, employees, or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. To the extent permissible under State law, rules, or regulations, such standards shall provide for appropriate penalties, sanctions, or other disciplinary actions to be applied for violations of such standards either by the State agency's officers, employees, or agents, or by contractors or their agents.

(d) All procurement transactions of the State agency, regardless of whether negotiated or advertised and without regard to dollar value, shall be conducted in a manner so as to provide maximum open and free competition. The State agency should be alert to organizational conflicts of interest or noncompetitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade.

(e) The State agency shall establish procurement procedures which comply with the provisions of this section.

(f) Proposed procurement actions shall be reviewed by appropriate officials of the State agency to avoid purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(g) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement and, when so used, the specific features of the named brand which must be met by offerors should be clearly specified.

(h) Positive efforts shall be made by the State agency to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed with Federal grant funds.

(i) The type of procuring instruments used (e.g., fixed-price contracts, cost reimbursable contracts, purchase orders, incentive contracts, etc.) shall be appropriate for the particular procurement and for promoting the best interest of the Federal programs involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(j) Formal advertising, with adequate purchase description, sealed bids, and public openings shall be the required method of procurement unless negotiation pursuant to subparagraph 4 of this paragraph is necessary to accomplish sound procurement. However, procurements of $2,500 or less need not be so advertised unless otherwise required by State law or regulations. When formal advertising is employed:

(1) The awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the State agency, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid.

(2) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the State agency.

(3) Any or all bids may be rejected when it is in the State agency's interest to do so, and such rejections are in accordance with applicable State law, rules, and regulations.

(4) Procurements may be negotiated by the State agency if it is not practicable or feasible to use formal advertising. Not-

V 40 15 JAN 22 75 XUM

withstanding the existence of circumstances justifying negotiations, competition shall be obtained to the maximum extent practicable. Generally, procurements may be negotiated if one or more of the following conditions prevail:

(i) The public exigency will not permit the delay incident to advertising;

(ii) The material or service to be procured is available from only one person or firm; all contemplated sole source procurements where the aggregate expenditure is expected to exceed $5,000 shall be referred to the Department for prior approval;

(iii) The aggregate amount involved does not exceed $2,500;

(iv) The contract is for personal or professional services, or for any service to be rendered by a university, college, or other educational institution;

(v) No acceptable bids have been received after formal advertising;

(vi) The purchases are for highly perishable materials or medical supplies, for material or services where the prices are established by law, for technical items or equipment requiring standardization and inter-changeability of parts with existing equipment, for experimental, developmental or research work, for supplies purchased for authorized resale, and for technical or specialized supplies requiring substantial initial investment for manufacture; or

(vii) Negotiation is otherwise authorized by applicable Federal or State law, rules or regulations.

(k) Contracts shall be made by State agencies only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, and accessibility to other necessary resources.

(l) The procurement records or files of State agencies for negotiated purchases in amounts in excess of $2,500 shall provide at least the following pertinent information: (1) Justification for the use of negotiation in lieu of advertising, (2) Contractor selection, (3) The basis for the cost of price negotiated. Justification for the use of negotiation in lieu of advertising may be provided on a class basis or on an individual contract basis.

(m) A system for contract administration shall be maintained by the State agency to assure contractor compliance with terms, conditions, and specifications of the contract or order, and to assure adequate and timely follow-up of all purchases.

(n) The State agency shall include provisions to define a sound and complete agreement in all contracts which it awards when the contract costs are to be borne as a direct charge in whole or in part by Federal funds.

(o) In awarding contracts the State agency must comply with the following requirements:

(1) The State agency's contracts shall contain contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(2) All contracts awarded by State agencies in excess of $2,500 shall contain suitable provisions for termination by the State agency including the manner by which it will be affected and the basis for settlement. In addition, such contracts shall set forth the conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(3) Where applicable, all contracts awarded by State agencies in excess of $2,500 which involve the employment of mechanics or laborers shall include a provision for compliance with sections 103 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as supplemented by Department of Labor regulations (29 CFR, Part 5). Under section 103 of the act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work day of 8 hours and a standard work week of 40 hours. Work in excess of the standard work day or work week is permissible provided that the worker is compensated at a rate of not less than 1½ times the basic rate of pay for all hours worked in excess of 8 hours in any calendar day or 40 hours in the work week. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market or contracts for transportation.

(4) Contracts awarded by State agencies, the principal purpose of which is to create, develop, or improve products, processes or methods; or for exploration into fields which directly concern public health, safety, or welfare; or contracts in the field of science or technology in which there has been little significant experience outside of work funded by Federal assistance, shall contain a notice to the effect that matters regarding rights to inventions, and materials generated under the contract or agreement are subject to the regulations issued by the Federal grantor agency. The contractor shall be advised as to the source of additional information regarding these matters.

(5) All negotiated contracts (except those of $2,500 or less) awarded by State agencies shall include a provision to the effect that the State agency, the Federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the contractor which are directly pertinent to a specific grant program for the purpose of making audit, examination, excerpts, and transcriptions.

(6) Contracts in excess of $100,000 shall contain a provision which requires compliance with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970 as amended (42 U.S.C. 1857b, et seq.). Suspected violations shall be reported by the State agency in writing to the Regional Office of the United States Environmental Protection Agency, with a copy to the Department.

(p) State agencies shall observe their regular requirements and practices with respect to bonding and insurance.

NOTE.—The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.
(Catalog of Federal Domestic Assistance Program No. 10.555, National Archives Reference Services).

Dated: January 17, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

[FR Doc.75-2000 Filed 1-21-75;8:45 am]

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[49 CFR Part 7]

[OST Docket No. 2; Notice 75-1]

PUBLIC AVAILABILITY OF INFORMATION

Proposed Revision

Amendments (Pub. L. 93–579) to the Freedom of Information Act (5 U.S.C. 552) will be effective February 19, 1975. Notice is hereby given that the Department of Transportation proposes to revise its regulations implementing the Freedom of Information Act (49 CFR Part 7), Public Availability of Information, in accordance with the new amendments. Although Pub. L. 93–579 requires only that the schedule of fees for reproduction of requested material be published as a proposal with the opportunity for public comment, the Department believes it is in the public interest to invite comment on all of the implementing regulations. Significant proposed amendments to Part 7 are discussed below.

Section 7.43. Indexes of final opinions and orders made in the adjudication of cases, statements of policy and interpretations adopted by the Department and not published in the FEDERAL REGISTER and administrative staff manuals and instructions to staff that affect a member of the public and which are required to be made available will be published quarterly.

Section 7.53. Records requested to be made available must be "reasonably described" by the requestor. It is proposed to require that each request describe the record sought to the extent possible, including the subject matter of the record, the date when it was made, the place it was made and the originating person or office.

Section 7.95. A uniform fee schedule for recovery of the direct costs of document search and reproduction of records must be promulgated after publication for notice and comment. These fees must be waived or reduced when furnishing the information would be in the public interest. A provision for reduction or waiver of fees is contained in the Department's existing regulations and is continued unchanged in § 7.97 of the proposed regulations.

Section 7.21–7.25. A determination must be made within ten days after a request for a record has been received and a determination must be made within twenty days after receipt of an appeal of an initial denial of a request for records. Either of these time limits may be extended by not more than ten cumulative days under certain circumstances.

Section 7.63. Certain categories of records are exempted from the requirement of disclosure. Some of these exemptions have been modified by the 1974 amendments. The exemption for material classified in the interest of national defense has been amended to require the material to be classified under criteria established by an Executive Order.

Section 7.75. The exemption for investigatory records compiled for law enforcement purposes has been narrowed under the Act to apply only in six specific situations.

Section 7.15. Any reasonably segregable portion of a record otherwise exempt from the disclosure requirements must be made available. A provision for release of such segregable portions of otherwise exempt records is contained in the Department's existing regulations and is continued unchanged in the proposed rules.

Written data, views and comments on the proposed rules should identify the docket number and be submitted to the Docket Clerk, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590. Final rules must be published by February 19. Since it is necessary to allow adequate time to consider all comments, it is impracticable to allow thirty days for public comment. Therefore, comments received on or before February 10, 1975, will be considered in preparation of the final rules. Copies of all written comments received will be available for examination by interested persons during regular business hours at the above address both before and after February 10, 1975.

In consideration of the foregoing, it is proposed to revise Part 7 of Title 49, Code of Federal Regulations, to read as follows:

PART 7—PUBLIC AVAILABILITY OF INFORMATION

Subpart A—Applicability and Policy

Sec.
7.1 Applicability.
7.3 Policy.
7.5 Definitions.

Subpart B—General

7.11 Administration of part.
7.13 Deletion of identifying detail.
7.15 Records containing both available and unavailable information.
7.17 Protection of records.

Subpart C—Time Limits

7.21 Initial determination.
7.23 Final determination.
7.25 Extension.

Subpart D—Publication in Federal Register

7.31 Applicability.
7.33 Publication required.

Subpart E—Availability of Opinions, Orders, Staff Manuals, Statement of Policy, and Interpretations: Indexes

7.41 Applicability.
7.43 Access to materials and index.
7.45 Indexes of public materials.
7.47 Copies.

Subpart F—Availability of Reasonably Described Records

7.51 Applicability.
7.53 Public availability of records.
7.55 Request for records of concern to more than one Government organization.

Subpart G—Exemptions

7.61 Applicability.
7.63 Records relating to matters that are required by Executive Order to be kept secret.
7.65 Records related solely to internal personnel rules and practices.
7.67 Records exempted from disclosure by statute.
7.69 Trade secrets and commercial or financial information that is privileged or confidential.
7.71 Intragovernmental exchanges.
7.73 Protection of personal privacy.
7.75 Investigatory files compiled for law enforcement purposes.
7.77 Reports of financial institutions.
7.79 Geological and geophysical information.

Subpart H—Procedures for Reconsidering Decisions Not To Disclosure Records

7.81 General.

Subpart I—Fees

7.91 General.
7.93 Payment of fees.
7.95 Fee schedule.
7.97 Services performed without charge or at a reduced charge.
7.99 Transcripts.
7.101 Alternate sources of information.
Appendix A—Office of the Secretary.
Appendix B—United States Coast Guard.
Appendix C—Federal Aviation Administration.
Appendix D—Federal Highway Administration.
Appendix E—Federal Railroad Administration.
Appendix F—St. Lawrence Seaway Development Corporation.
Appendix G—Urban Mass Transportation Administration.
Appendix H—National Highway Safety Bureau.

AUTHORITY: Freedom of Information Act, Pub. L. 93–579, November 1974; 5 U.S.C. 552.

Subpart A—Applicability and Policy

§ 7.1 Applicability.

(a) This part implements section 552 of Title 5, United States Code, and prescribes rules governing the availability to the public of the records of the Department of Transportation.

(b) Subpart G of this part describes the records that are not required to be disclosed under this part.

(c) Appendices A through H to this part:

(1) Describe the places and times at which records will be available for inspection and copying;

(2) Define the kinds of records located at each facility;

(3) Identify the location of the indexes to such records; and

(4) Identify the officials having authority to deny requests for disclosure of records under this part.

(d) The Director of Public Affairs may amend Appendix A to this part to reflect any changes in the items covered by that appendix. The head of the operating administration concerned may amend the appendix applicable to that Administration to reflect any changes in the items covered by that appendix.

(e) This part applies only to records that exist at the time the request for the information is made. The Department is not required to compile or procure a record solely for the purpose of making it available under this part.

(f) Indexes are maintained to reflect all records subject to this part, and are available for public inspection and copying as provided in Appendices A through H to this part.

§ 7.3 Policy.

In implementing section 552 of Title 5, United States Code, it is the policy of the Department of Transportation to make information within the Deparment available to the public to the greatest extent possible in keeping with the spirit of that section. Therefore, all records of the Department, except those that the Department specifically determines must not be disclosed in the national interest, for the protection of private rights, or for the efficient conduct of public business to the extent permitted by the Freedom of Information Act, are reclared to be available for public inspection and copying as provided in this part. Each Officer and employee of the Department is directed to cooperate to this end and to make records available to the public promptly and to the fullest extent consistent with this policy. A record may not be withheld from the public solely because its release might suggest administrative error or embarrass an officer or employee of the Department.

§ 7.5 Definitions.

Unless the context requires otherwise, the following definitions apply in this part:

"Department" means the Department of Transportation, including the Office of the Secretary and the following operating administrations:

(a) The Coast Guard.

(b) The Federal Aviation Administration.

(c) The Federal Highway Administration.

(d) The Federal Railroad Administration.

(e) The National Highway Traffic Safety Administration.

(f) Urban Mass Transportation Administration.

(g) The St. Lawrence Seaway Development Corporation.

"He" includes she.

"Includes" means "includes but is not limited to."

V 40 15 JAN 22 75 XUM

"May" is used in a permissive sense to state authority or permission to do the act prescribed.

"Record" includes any writing, drawing, map, recording, tape, film, photograph, or other documentary material by which information is preserved.

"Secretary" means the Secretary of Transportation or any person to whom he has delegated his authority in the matter concerned.

Subpart B—General

§ 7.11 Administration of part.

Except as provided in Subpart H of this part, authority to administer this part in connection with the records in the Office of the Secretary is delegated to the Director of Public Affairs. Authority to administer this part in connection with records in each operating administration is delegated to the head of that administration. The head of any operating administration may redelegate to officers of that administration the authority to administer this part in connection with defined groups of records. However, the head of an operating administration may redelegate his duties under Subpart H of this part only to his deputy and to not more than one other officer who reports directly to the head and who is located at the headquarters of that administration.

§ 7.13 Deletion of identifying detail.

Whenever it is determined to be necessary to prevent a clearly unwarranted invasion of personal privacy, identifying details are deleted from any record covered by this part that is published or made available for inspection. A full explanation of the justification for the deletion is attached to the copy of the record published or made available for inspection.

§ 7.15 Records containing both available and unavailable information.

If a record contains information that the Department determines cannot be disclosed under this part, but also contains information that can be disclosed, the latter information will be provided for public inspection and copying unless—

(a) It is readily available from another source; and

(b) The other source is made known to the person desiring the record.

§ 7.17 Protection of records.

(a) No person may, without permission, remove any record made available to him for inspection or copying under this part, from the place where it is made available. In addition, no person may steal, alter, mutilate, obliterate, or destroy, in whole or in part, such a record.

(b) Section 641 of Title 18 of the United States Code provides, in pertinent part, as follows:

> Whoever • • • steals, purloins, or knowingly converts to his use or the use of another, or without authority, sells, conveys or disposes of any record • • • or thing of value of the United States or of any department or agency thereof • • • shall be fined not more than $10,000 or imprisoned not more than 10 years or both; but if the value of such property does not exceed the sum of $100, he shall be fined not more than $1,000 or imprisoned not more than one year or both. • • •

Section 2071 of Title 18 of the United States Code provides, in pertinent part, as follows:

> Whoever willfully and unlawfully conceals, removes, mutilates, obliterates, or destroys, or attempts to do so, or with intent to do so takes and carries away any record, proceeding, map, book, paper, document, or other thing, filed or deposited • • • in any public office, or with any • • • public officer of the United States, shall be fined not more than $2,000 or imprisoned not more than 3 years, or both.

Subpart C—Time Limits

§ 7.21 Initial determination.

An initial determination as to whether to release a record requested pursuant to Subpart F of this part shall be made within ten days (excepting Saturdays, Sundays, and legal public holidays) after the request is received in accordance with paragraph (a) of § 7.43 except that this time limit may be extended by up to ten working days in accordance with § 7.25. The person making the request will be notified immediately of such determination. If such determination is to release the requested record, such record shall be made promptly available. If such determination is not to release the record, the person making the request shall, at the same time he is notified of such determination, be notified of (a) the reason for the determination; (b) the right of such person to appeal the determination; and (c) the names and titles or positions of each person responsible for the denial of the request.

§ 7.23 Final determination.

A determination with respect to any appeal made pursuant to § 7.81 will be made within twenty days (excepting Saturdays, Sundays, and legal public holidays) after receipt of such appeal except that this time limit may be extended by up to ten working days in accordance with § 7.25.

§ 7.25 Extension.

In unusual circumstances as specified in this section, the time limits prescribed in either § 7.21 or § 7.23, but not both, may be extended by written notice to the person making a request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. Such notice shall not specify a date that would result in an extension for more than ten working days. As used in this subparagraph, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request—

(a) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(b) The need to search for, collect, and appropriately examine a voluminous amount of separate and district records which are demanded in a single request; or

(c) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

Subpart D—Publication in Federal Register

§ 7.31 Applicability.

This subpart implements section 552 (a)(1) of Title 5, United States Code, and prescribes rules governing the publication in the FEDERAL REGISTER of the following:

(a) Descriptions of the organization of the Department, including its operating administrations and the established places at which, the officers from whom, and the methods by which, the public (1) may secure information; and (2) make submittals or requests or obtain decisions.

(b) Statements of the general course and methods by which the Department's functions are channeled and determined, including the nature and requirements of all formal and informal procedures available.

(c) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports or examinations.

(d) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability adopted by the Department.

(e) Each amendment, or repeal of any material listed in paragraphs (a) through (d) of this section.

§ 7.33 Publication required.

(a) General. All material described in § 7.31 is published in the FEDERAL REGISTER. For the purposes of this paragraph, material that is reasonably available to the class of persons affected by it is considered to be published in the FEDERAL REGISTER if it has been incorporated by reference therein with the approval of the Director of the Federal Register.

(b) Effect of nonpublication. Except to the extent that a person has actual and timely notice of the terms thereof, no person may in any manner be required to resort to, or be adversely affected by, any procedure or matter required to be published in the FEDERAL REGISTER but not so published.

Subpart E—Availability of Opinions, Orders, Staff Manuals, Statements of Policy, and Interpretations: Indexes

§ 7.41 Applicability.

(a) This subpart implements section 552(a)(2) of Title 5, United States Code. It prescribes the rules governing the availability, for public inspection and copying, of the following:

(1) Any final opinion (including a concurring or dissenting opinion) or order made in the adjudication of a case.

(2) Any policy or interpretation that has been adopted under the authority of the Department, including any policy or interpretation concerning a particular factual situation, if that policy or interpretation can reasonably be expected to have precedential value in any case involving a member of the public in a similar situation.

(3) Any administrative staff manual or instruction to staff that affects any member of the public, including the prescribing of any standard, procedure, or policy that, when implemented, requires or limits any action of any member of the public or prescribes the manner of performance of any activity by any member of the public. However this does not include staff manuals or instructions to staff concerning internal operating rules, practices, guidelines and procedures for Departmental inspectors, investigators, examiners, auditors and negotiators, the release of which would substantially impair the effective performance of their duties.

In addition, this subpart provides for an index of the materials listed in this paragraph, as available.

(b) Any material listed in paragraph (a) of this section that is not made available for public inspection and copying, or that is not indexed as required by § 7.45, may not be cited, relied on, or used as precedent by the Department to adversely affect any member of the public unless the person against whom it is cited, relied on, or used has had actual and timely notice of that material.

(c) This subpart does not apply to material that is published in the FEDERAL REGISTER or is covered by Subpart F of this part.

§ 7.43 Access to materials and index.

(a) Except as provided in paragraph (b) of this section, material listed in § 7.41(a) is available for inspection and copying by any member of the public at document inspection facilities of the Department. The index of material available at each facility is published in the FEDERAL REGISTER quarterly and is also located at the facility. Information as to the kinds of materials available at each facility may be obtained from the facility or the headquarters of the operating administration of which it is a part.

(b) The material listed in § 7.41(a) that is published and offered for sale is indexed but is not required to be kept available for public inspection. Whenever practicable, however, it will be made available for public inspection at any document inspection facility maintained by the Office of the Secretary or an operating administration, whichever is concerned.

§ 7.45 Indexes of public materials.

The index of material subject to public inspection and copying under this subpart covers all material issued, adopted, or promulgated after July 4, 1967. However, earlier material may be included in the index to the extent practicable. Each index contains instructions on how to use it.

§ 7.47 Copies.

Copies of any material covered by this subpart that is not published and offered for sale may be ordered, upon payment of the appropriate fee, from the office indicated in § 7.53. Copies are certified upon request and payment of the prescribed fee.

Subpart F—Availability of Reasonably Described Records

§ 7.51 Applicability.

This subpart implements section 552(a)(3) of Title 5, United States Code, and prescribes the regulations governing public inspection and copying of reasonably described records. It does not apply, however, to material that is covered by Subpart D of this part, records determined under Subpart G of this part not to be available, and material that is offered for sale by the Government Printing Office.

§ 7.53 Public availability of records.

(a) Each person desiring access to a record covered by this subpart must comply with the following provisions:

(1) A written request must be made for the record.

(2) Such request must indicate that it is being made under the Freedom of Information Act.

(3) The envelope in which the request is sent must be prominently marked with the letters "FOIA".

(4) The request must be addressed to the appropriate office as set forth in paragraph (c) of this section.

(b) If the requirements of paragraph (a) of this section are not met, the ten day time limit described in § 7.21 will not begin to run until the request has been identified by an employee of the Department as a request under the Freedom of Information Act and has been received by the appropriate office.

(c) Each person desiring access to a record covered by this subpart that is located in the Office of the Secretary, or to obtain a copy of such a record, must make a written request to the Director of Public Affairs, 400 Seventh Street, SW., Washington, D.C. 20590. Each person desiring access to a record covered by this subpart that is located in an operating administration, or to obtain a copy of such a record, must make a written request to that administration at the address set forth in the appendix applicable to that administration. If the person making the request does not know where in the Department the record is located, he may make inquiry of the Director of Public Affairs as to its location.

(d) Each request should describe the particular record to the extent possible. The request should specify the subject matter of the record, the date when it was made, the place where it was made and the person or office that made it. If the description is insufficient, the officer handling the request will notify the person making the request and, to the extent possible, indicate the additional data required.

(e) Each record made available under this subpart is available for inspection and copying during regular working hours at the place where it is located or, upon reasonable notice, at the document inspection facilities of the Office of the Secretary or each administration as set forth in the appendix applicable to that office or administration. Original records may be copied but may not be released from custody. Upon payment of the appropriate fee, copies will be mailed to the requester.

(f) Except for services performed without charge or at a reduced charge pursuant to § 7.97, each request for a search of records or for a copy of a record must be accompanied by the fee prescribed in the applicable fee schedule. When the fee is not readily ascertainable without examination of the records, the officer or employee receiving the request will furnish an estimate of the fee to the person making the request or the fee may be collected after the records are made available. If a search is necessary the fee for a search is charged, regardless of whether it is successful.

(g) Notwithstanding paragraphs (a) through (f) of this section, informational material, such as press releases, pamphlets, and other material of that nature that is ordinarily made available to the public as a part of any information program of the Government is available upon oral or written request. There is no fee for individual copies of that material as long as it is in supply. In addition, the Department will continue to respond, without charge, to routine oral or written inquiries that do not involve the furnishing of records.

§ 7.55 Request for records of concern to more than one Government organization.

(a) If the release of a record covered by this subpart would be of concern to both this Department and another Federal agency, the record will be made available only after consultation with the other interested agency.

(b) If the release of a record covered by this subpart would be of concern to both this Department and a State or local government, or a foreign government, the record will be made available by the Department only after consultation with the other interested State or local government or foreign government.

Subpart G—Exemptions

§ 7.61 Applicability.

This subpart implements section 552 (b) of Title 5, United States Code: Section 552(b) exempts certain records from public inspection under section 552(a). The Department will, however, release a record authorized to be withheld under §§ 7.65 through 7.79 unless it determines that the release of that record would be inconsistent with a purpose of the section concerned. Examples given in §§ 7.65 through 7.79 of records included within

V40115 JAN22 75 XUM

a particular statutory exemption are not necessarily illustrative of all types of records covered by the exemption.

§ 7.63 Records relating to matters that are required by Executive Order to be kept secret.

Records relating to matters that are specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy include those within the scope of the following, and any further amendment of any of them, but only to the extent that the records are in fact properly classified pursuant to such Executive Order:

(a) Executive Order 11652 of March 8, 1972 (37 FR 5209, March 10, 1972).

(b) Executive Order 10865 of February 20, 1960 (3 CFR 1959–1963 Comp., p. 398); and

(c) Executive Order 10104 of February 1, 1950 (3 CFR 1949–1953 Comp., p. 298).

These records may not be made available for public inspection.

§ 7.65 Records related solely to internal personnel rules and practices.

(a) Records related solely to internal personal rules and practices that are within the statutory exemption include memoranda pertaining to personnel matters such as staffing policies and policies and procedures for the hiring, training, promotion, demotion, and discharge of employees, and management plans, records, or proposals related to labor-management relationships.

(b) The purpose of this section is to authorize the protection of any record related to internal personnel rules and practices dealing with the relations between the Department and its employees.

§ 7.67 Records exempted from disclosure by statute.

(a) Records relating to matters that are specifically exempted by statute from disclosure include those covered by the following:

(1) Section 1905 of Title 18, United States Code, protecting trade secrets, processes, and certain economic and other data obtained by examination or investigation, or from reports.

(2) Revised Statutes section 4448, as amended (46 U.S.C. 234) protecting the source of reports of defects and imperfections of vessels.

(3) Revised Statutes section 4551, as amended (46 U.S.C. 643) protecting the address, and next of kin of merchant seamen and entries made in records pertaining to merchant seamen.

(4) Pub. L. 86–660, as amended (23 U.S.C. 313 (note) protecting information in the register of persons whose license to operate a motor vehicle has been denied, terminated, or suspended.

(5) Section 106 of Pub. L. 89–564 (23 U.S.C. 313 (note)) so far as it relates to identification of individuals in reports on highway traffic accidents.

(6) Section 902(f) of the Federal Aviation Act of 1958 (49 U.S.C. 1472(f)) relating to information obtained by examining the accounts, records, or memoranda of an air carrier.

(7) Section 1001 of the Federal Aviation Act of 1958 (49 U.S.C. 1481) so far as it relates to the secrecy of acts and proceedings when requisite on grounds of national defense.

(8) Section 1104 of the Federal Aviation Act of 1958 (49 U.S.C. 1504) relating to the withholding, upon request, of information obtained under that Act.

(b) The purpose of this section is to preserve the effectiveness of statutes of the kind listed in paragraph (a) of this section, in accordance with their terms.

§ 7.69 Trade secrets and commercial or financial information that is privileged or confidential.

(a) Trade secrets and commercial or financial information that is privileged and for which confidentiality is requested by the person possessing such privilege are within the statutory exemption. This includes the following:

(1) Commercial or financial information not customarily released to the public, furnished and accepted in confidence.

(2) Statements of financial interests furnished by employees of the Department.

(3) Commercial, technical, and financial information furnished by any person in connection with an application for a loan or a loan guarantee.

(4) Commercial or financial information customarily subjected to an attorney-client or similar evidentiary privilege.

(5) Materials in which the Department has a property right such as designs, drawings, and other data and reports acquired in connection with any research project, inside or outside of the Department, or any grant or contract.

(6) Business records of the Alaska Railroad of the kind which are ordinarily treated by railroads as confidential.

(b) The purpose of this section is to authorize the protection of trade secrets and commercial or financial records that are customarily privileged or are appropriately given to the Department in confidence. It assures the confidentiality of trade secrets and commercial or financial information obtained by the Department through questionnaires and required reports to the extent that the information would not customarily be made public by the person from whom it was obtained. In any case in which the Department has obligated itself not to disclose trade secrets and commercial or financial information it receives, this section indicates the Department's intention to honor that obligation to the extent permitted by law. In addition, this section recognizes that certain materials, such as research data and materials, formulae, designs, and architectural drawings, have significance not as records but as items of property acquired, in many cases, at public expense. In any case in which similar proprietary material in private hands would be held in confidence, material covered by this section may be held in confidence.

§ 7.71 Intragovernmental exchanges.

(a) Any record prepared by a Government officer or employee (including those prepared by a consultant or advisory body) for internal Government use is within the statutory exemption to the extent that it contains—

(1) Opinions, advice, deliberations, or recommendations made in the course of developing official action by the Government, but not actually made a part of that official action, or

(2) Information concerning any pending proceeding or similar matter including any claim or other dispute to be resolved before a court of law, administrative board, hearing officer, or contracting officer.

(b) This section has two distinct purposes. One is to protect the full and frank exchange of ideas, views, and opinions necessary for the effective functioning of the Government and to afford this protection both before and after any action is taken. This judicially recognized privilege of protection against disclosure in litigation or elsewhere is intended to assure that these resources will be fully and readily available to those officials upon whom the responsibility rests to take official and final Department action. However, the action itself, any memoranda made part of that action, and the facts on which it is based are not within this protection. The other purpose is to protect against the premature disclosure of material that is in the development stage if premature disclosure would be detrimental to the authorized and appropriate purposes for which the material is being used, or if, because of its tentative nature, the material is likely to be revised or modified before it is officially presented to the public.

(c) Examples of records covered by this section include minutes, to the extent they contain matter described in paragraph (a) of this section; staff papers containing advice, opinions, suggestions, or exchanges of views, preliminary to final agency decision or action; budgetary planning and programing information; advance information on such things as proposed plans to procure, lease, or otherwise hire and dispose of materials, real estate, or facilities; documents exchanged preparatory to anticipated legal proceedings; material intended for public release at a specified future time, if premature disclosure would be detrimental to orderly processes of the Department; records of inspections, investigations, and surveys pertaining to internal management of the Department; and matters that would not be routinely disclosed under disclosure procedures in litigation and which are likely to be the subject of litigation. However, if such a record also contains factual information, that information must be made available under § 7.15, unless the facts are so inextricably intertwined with deliberative or policy-making processes, that they cannot be separated without disclosing those processes.

§ 7.73 Protection of personal privacy.

(a) Any of the following personnel, medical, or similar records is within the statutory exemption if its disclosure would harm the individual concerned or be a clearly unwarranted invasion of his personal privacy:

(1) Personnel and background records personal to any officer or employee of the Department, or other person, including his home address.

(2) Medical histories and medical records concerning individuals, including applicants for licenses.

(3) Any other detailed record containing personal information identifiable with a particular person.

(b) The purpose of this section is to provide a proper balance between the protection of personal privacy and the preservation of the public's rights to Department information by authorizing the protection of information that, if released, might unjustifiably invade an individual's personal privacy.

§ 7.75 Investigatory files compiled for law enforcement purposes.

(a) Files complied by the Department for law enforcement purposes, including the enforcement of the regulations of the Department, are within the statutory exemption to the extent that production of such records would (1) interfere with enforcement proceedings, (2) deprive a person of a right to a fair trial or an impartial adjudication, (3) constitute an unwarranted invasion of personal privacy, (4) disclose the identity of a confidential source and, in the case of a record complied by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (5) disclose investigative techniques and procedures, or (6) endanger the life or physical safety of law enforcement personnel.

(b) The purpose of this section is to protect from disclosure the law enforcement files of the Department, including files prepared in connection with related litigation and adjudicative proceedings. It includes the enforcement not only of criminal statutes but all kinds of laws.

§ 7.77 Reports of financial institutions.

Any material contained in or related to any examination, operating, or condition report prepared by, on behalf of, or for the use of, any agency responsible for the regulation or supervision of financial institutions is within the statutory exemption.

§ 7.79 Geological and geophysical information.

Any geological or geophysical information and data (including maps) concerning wells is within the statutory exemption.

Subpart H—Procedures for Reconsidering Decisions Not To Disclose Records

§ 7.81 General.

(a) Each officer or employee of the Department who, upon a request by a member of the public for a record under this part, makes a determination that the record is not to be disclosed, will give a written statement of his reasons for that determination to the person making the request; and indicate the names and titles or positions of each person responsible for the denial of such request, and the availability of an appeal within the Department.

(b) Any person to whom a record has not been made available within the time limits established by Subpart C and any person who has been given a determination pursuant to paragraph (a) of this section, that a record he has requested will not be disclosed, may apply to the head of the operating administration concerned, or in the case of the Office of the Secretary, to the General Counsel of the Department, for reconsideration of the request. A determination that a record will not be disclosed is not administratively final for the purposes of judicial review unless it was made by the head of the operating administration concerned (or his designee), or the General Counsel, as the case may be, unless the applicable time limit has passed without a determination of the appeal having been made.

(c) Each application for reconsideration must be made in writing within sixty days from the date of receipt of the original denial and must include all information and arguments relied upon by the person making the request. Such application must indicate that it is an appeal from a denial of a request made under the Freedom of Information Act. The envelope in which the application is sent must be prominently marked with the letters "FOIA". If these requirements are not met, the twenty day time limit described in §7.23 will not begin to run until the application has been identified by an employee of the Department as an application under the Freedom of Information Act and has been received by the appropriate office.

(e) Whenever the head of the operating administration concerned, or the General Counsel, as the case may be, determines it to be necessary, he may require the person making the request to furnish additional information, or proof of factual allegations, and may order other proceedings appropriate in the circumstances. The decision of the head of the operating administration concerned, or the General Counsel, as the case may be, as to the availability of the record is administratively final.

(f) The decision by the head of the operating administration concerned, or the General Counsel, as the case may be, not to disclose a record under this part is considered to be a withholding by the Secretary for the purposes of section 552(a)(3) of Title 5, United States Code.

(g) Any final decision by the head of an operating administration or his delegee identified in Appendices B through H of this part, not to disclose a record under this part is subject to concurrence by the Office of General Counsel, Office of the Secretary.

Subpart I—Fees

§ 7.91 General.

(a) This subpart prescribes fees for service performed for the public under Subparts E and F of this part by the Department of Transportation.

(b) This subpart does not apply to any special study, special statistical compilation, table or other record requested under section 9(n) of the Department of Transportation Act. The fee for the performance of such a service is the actual cost of the work involved in compiling the record. All moneys received by the Department in payment of the cost of the work are deposited in a separate account administered under the direction of the Secretary, and may be used for the ordinary expenses incidental to the work.

§ 7.93 Payment of fees.

The fees prescribed in this subpart may be paid by check, draft, or postal money order, payable to the Treasurer of the United States. Except as provided in § 7.53(f), the fees are payable in advance.

§ 7.95 Fee schedule.

(a) Except as provided in paragraph (j) of this section search for a record under Subpart F of this part, when required, including making it available for inspection	$2.00
(b) Copies of documents by photocopy or similar method:	
Each page not larger than 11 x 17 inches (first page)	.25
(Each additional page)	.05
(c) Copies of documents by typewriter, each page	2.00
(d) Certified copies of documments:	
(1) With Department of Transportation seal	3.00
(2) True copy, without seal	1.00
(e) Photographs:	
(1) Black and White print (with negative)	1.25
(2) Black and White print (without negative)	3.15
(3) Color print (with negative)	3.50
(4) Color print (without negative)	6.25
(f) Duplicate data tapes—each reel of tape or fraction thereof. The applicant must furnish the necessary number of blank magnetic tapes. The tapes must be compatible for use in the supplier's computer system, ½ inch wide and 2,400 feet long, and must be capable of recording data at a density of 556 or 800 characters per inch. Unless otherwise designated, the tapes will be recorded at 556 CPI density. The Department of Transportation is not responsible for damaged tape. However, if the applicant furnishes a replacement for a damaged tape, the duplication process is completed at no additional charge.	36.00
(g) Microreproduction fees are as follows:	
(1) Microfilm copies, each 100-foot roll or less	3.75
(2) Microfiche copies, each standard size sheet (4" x 6", containing up to 65 frames)	.15

V 40 15 JAN 22 75 XUM

(h) Data processed record, each 1,000 lines or fraction thereof 1.00
(i) Preprinted materials, shelf stock, one color standard sizes:
(1) Each page (excluding blanks) ..... .06
(2) Minimum charge 1.00
(j) Other records: The fee for a copy of a record not described in paragraph (b) through (i) of this section will be supplied on request. The amount of that fee will be the cost of producing and handling. The fee for a search and copy of any record where the cost will obviously be more than $2 will be determined in accordance with the policy of the Freedom of Information Act.

§ 7.97 Services performed without charge or at a reduced charge.

(a) No fee is charged for time spent in preparing correspondence related to a request and in making determinations pursuant to § 7.81.

(b) No fee is charged for documents furnished in response to:

(1) A request from an employee or former employee of the Department for copies of personnel records of the employee;

(2) A request from a member of Congress for his official use;

(3) A request from a State, territory, U.S. possession, county or municipal government, or an agency thereof;

(4) A request from a court that will serve as a substitute for the personal court appearance of an officer or employee of the Department;

(5) A request from a foreign government or an agency thereof, or an international organization.

(c) Documents will be furnished without charge or at a reduced charge, if the Director of Public Affairs, or the head of the operating administration concerned, as the case may be, determines that waiver or reduction of the fee is in the public interest, because furnishing the information can be considered as primarily benefiting the general public. Examples of requests that may fall within this paragraph are reasonable requests from groups engaged in a nonprofit activity designed for the public safety, health, or welfare; schools; and students engaged in study in the field of transportation.

§ 7.99 Transcripts.

Transcripts of hearings and oral argument are available for inspection. Where transcripts are prepared by a nongovernment contractor, and the contract permits the Department to handle the reproduction of further copies, the provisions of this Subpart I apply. Where the contract for transcription services reserves the sales privilege to the reporting service, any duplicate copies should be purchased directly from the reporting service.

§ 7.101 Alternate sources of information.

In the interest of making documents of general interest publicly available at as reasonable a cost as possible, alternate sources are arranged whenever practicable. In appropriate instances, material that is published and offered for sale may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; the Commerce Department's National Technical Information Service (NTIS), Springfield, Va. 22151; the National Audio-Visual Center, National Archives and Records Service, General Services Administration, Washington, D.C. 20405; or the Consumer Product Information Coordinating Center, General Services Administration, Washington, D.C. 20407. (Appendices A through H are continued unchanged.)

This notice of proposed rulemaking is issued under the authority of the Freedom of Information Act, 5 U.S.C. 552 and Pub. L. 93-579, November 1974.

Issued in Washington, D.C., on January 17, 1975.

CLAUDE S. BRINEGAR,
Secretary.

[FR Doc.75-1993 Filed 1-21-75;8:45 am]

ACTION

[45 CFR Part 1215]

INSPECTION AND COPYING OF RECORDS

Compliance With Public Information Act

The provisions of the Public Information Act, 5 U.S.C. 522, as amended, require that each agency of the Federal government make available to the public at established places any records reasonably described in a request therefor and other records therein specified.

On September 3, 1974, a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 31914) proposing to add a new part 1215 to Part 45, Code of Federal Regulations, to provide rules and regulations for the production, inspection, and copying of documents under the provisions of the aforesaid Public Information Act. On November 21, 1974, the Senate, overriding the President's veto, passed H.R. 12471 amending the Freedom of Information Act (Pub. L. 93-502, 93rd Congress, H.R. 12471, November 21, 1974). This Act made several important amendments to the Freedom of Information Act and in view of the consequent need of substantial revisions of the aforesaid proposed rules required by said amendments, the former notice of proposed rule making is hereby canceled and this notice substituted in its place and stead.

Notice is hereby given that the Director of ACTION proposes to amend Chapter XII of Title 45, Code of Federal Regulations, to add a new Part 1215 to provide for regulations permitting the inspection and copying of documents of the ACTION agency.

Inquiries may be addressed and comments or views concerning the new proposed subpart may be submitted to ACTION, 806 Connecticut Avenue NW., Washington, D.C. 20525, Attention: Deputy Director. All comments received on or before February 18, 1975, will be considered. All comments and responses to this proposal will be available for public inspection during normal business hours at the foregoing address.

It is therefore proposed to add a new Part 1215 to Chapter XII of Title 45 of the Code of Federal Regulations as follows:

PART 1215—INSPECTION AND COPYING OF RECORDS: RULES FOR COMPLIANCE OF PUBLIC INFORMATION ACT

Sec.
1215.1 Purpose.
1215.2 Definitions.
1215.3 Records generally available.
1215.4 Availability of records.
1215.5 Records which may be exempt from disclosure.
1215.6 Authority to release and certify records.
1215.7 Location of records.
1215.8 Identification of records.
1215.9 Manner of requesting records.
1215.10 Schedule of fees.

AUTHORITY: Sec. 412, Pub. L. 93-113, 87 Stat.; 5 U.S.C. 552.

§ 1215.1 Purpose.

The purpose of this part is to prescribe rules for the inspection and copying of opinions, policy statements, staff manuals, instructions, and other records of ACTION pursuant to 5 U.S.C. 552.

§ 1215.2 Definitions.

As used in this part, the following definitions shall apply:

(a) "The Agency" means ACTION.

(b) "Records" includes all books, papers, maps, photographs, or other documentary material or copies thereof, regardless of physical form or characteristics, made in or received by ACTION and preserved as evidence of its organization, functions, policies, decisions, procedures, operations or other activities, but does not include books, magazines, or other materials acquired solely for library purposes and available to any officially designated library of the agency.

(c) "Identifiable" means, in the context of a request for a record, one which is reasonably described in a manner sufficient to permit the location of the material requested.

(d) "Unit" means an office of the Agency headed by a senior official who shall be responsible for making determinations of availability of documents or records requested hereunder. The head of any such Unit may delegate his responsibility hereunder to his Deputy or some other official during any absence of such official. At present, the units of the Agency for the purposes hereof consist of, the Office of the Director; the Office of Domestic and Anti-Poverty Operations; the Office of International Operations; the Office of Policy and Planning; the Office of Administration and Finance; the Office of General Counsel; the Office of Congressional Affairs; the Office of Minority Affairs; and the Office of Recruitment and Communications, and the ten regional offices.

§ 1215.3 Records generally available.

The agency will make promptly available to any member of the public the following documents:

(a) All final opinions and orders made in the adjudication of cases;

(b) statements of policy and interpretation adopted by the office which have not been published in the FEDERAL REGISTER;

(c) administrative staff manuals and instructions to the staff which affect a member of the public;

(d) a current index, which shall be updated at least quarterly, covering so much of the foregoing materials as may have been issued, adopted or promulgated after July 4, 1967. The cost of such index or other material referred to in this paragraph shall not exceed the cost of publication or duplication, whichever is less.

(e) To the extent necessary to prevent a clearly unwarranted invasion of personal privacy, the Agency may delete identifying details from materials furnished under this section.

§ 1215.4 Availability of records.

All records of ACTION requested under 5 U.S.C. 552(a)(3) and reasonably described in any request therefor shall be made promptly available to the public for inspection or copying upon compliance with procedures established in this part, except to the extent that a determination is made, in accord with the procedures set forth herein, that a record is exempt from disclosure, and should be withheld in the public interest. All publications and other documents heretofore provided by ACTION in the normal course of business will continue to be made available upon request to the appropriate unit of the agency. No charge will be made for such documents unless necessary by reason of the fact that such document is no longer in print in which case the charge shall not exceed the cost of duplication as set forth herein.

§ 1215.5 Records which may be exempt from disclosure.

The following categories are examples of records maintained by ACTION which, under the provisions of 5 U.S.C. 552(b) may be exempted from disclosure:

(a) Records required to be withheld under criteria established by an executive order in the interest of national defense or foreign policy and which are in fact properly classified pursuant to any such executive order. Included in this category are records required by Executive Order No. 11652, as amended, to be classified in the interest of national defense or foreign policy.

(b) Records related solely to internal personnel rules and practices. Included in this category are internal rules and regulations relating to personnel management and operations which cannot be disclosed to the public without substantial prejudice to the effective performance of a significant function of the agency.

(c) Records specifically exempted from disclosure by statute.

(d) Information of a commercial or financial nature including trade secrets given in confidence. Included in this category are records containing commercial or financial information obtained from any person and customarily regarded as privileged and confidential by the person from whom they were obtained.

(e) Interagency or intra-agency memoranda or letters which would not ordinarily be available by law to a party in litigation with the agency. Included in this category are memoranda, letters, interagency and intra-agency communications and internal drafts, opinions and interpretations prepared by staff or consultants and records of deliberations of staff, ordinarily used in arriving at policy determinations and decisions.

(f) Personnel, medical and other files. Included in this category are personnel and medical information files of staff, volunteer applicants, former volunteers, and volunteers, lists of names and home addresses, and other files or material containing private or personal information, the public disclosure of which would violate a pledge of confidentiality and amount to a clearly unwarranted invasion of the privacy of any person to whom the information pertains.

(g) Investigatory files. Included in this category are files compiled for the enforcement of all laws, or prepared in connection with government litigation and adjudicative proceedings, provided however, that such records shall be made available to the extent that their production will not:

(1) Interfere with enforcement proceedings; (2) deprive a person of a right to a fair trial or an impartial adjudication; (3) constitute an unwarranted invasion of personal privacy; (4) disclose the identity of a confidential source, and in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful security intelligence investigation, confidential information furnished by a confidential source; (5) disclose investigative techniques and procedures; or (6) endanger the life or physical safety of law enforcement personnel.

(h) In the event any document or record requested hereunder shall contain material which is exempt from disclosure under this section, any reasonably segregable portion of such record shall, notwithstanding such fact, and to the extent feasible, be provided to any person requesting same, after deletion of the portions which are exempt under this section.

(i) Documents or records determined to be exempt from disclosure hereunder may nonetheless be provided upon request in the event it is determined that the provision of such document would not violate the public interest or the right of any person to whom such information might pertain, and that disclosure is not prohibited by law or Executive Order.

§ 1215.6 Authority to release and certify records.

(a) Authority is hereby delegated to the Chief of the Administrative Services Division, Office of Administration and Finance, to furnish, pursuant to these regulations, copies of records to any person entitled thereto, and upon request to provide certified copies thereof for use in judicial proceedings or other official matters as provided below.

(b) The Chief of the Administrative Services Division, and his deputy, are hereby designated to act as authentication officers. When the authentication officer is unavailable, any other person within such division delegated by the Director may act in his place and stead. The authentication officer is hereby authorized to sign and initial certificates of authentication for and in the name of the Director of ACTION. The form of authentication shall be as follows:

In testimony whereof, I _____, Director of ACTION, have hereunder caused my name to be subscribed by the authentication officer of said agency at _____ this _____ day of _____, 19 ____.

_____,
Direction of ACTION.

By _____,
Authentication Officer, ACTION.

(c) The authentication officer is also hereby authorized to issue such statements, certificates, or other documents as may be required in connection with judicial proceedings or other official matters to show that, after thorough search of ACTION records, a requested record has not been found (See Rule 44 (b), Federal Rules of Civil Procedure).

(d) Each Regional Director of ACTION shall designate a records officer who shall have the same authority as the Chief of Administrative Services with respect to documents and records kept and maintained in Regional or State offices. Such records officers shall be responsible to the Chief of Administrative Services for such reports as he may require with respect to the production and copying of records.

§ 1215.7 Location of records.

(a) The agency will maintain a central records room at its headquarters in Washington, D.C. The headquarters of ACTION is presently located at 806 Connecticut Avenue, NW., Washington, D.C. The specific location of the central records room shall be the ACTION library, the location of which may change from time to time. The specific location of the library may be determined by requesting such information from the ACTION receptionist in the Office of the Director of ACTION.

(b) The agency has regional offices in the following places:

Region I
John W. McCormack Federal Building
Room 1405
Boston, Massachusetts 02109

Region II
26 Federal Plaza
New York, New York 10007

V 40 15 JAN 22 75 XUM

Region III
1405 Locust Street
Philadelphia, Pennsylvania 19102
Region IV
730 Peachtree Street, NE.
Atlanta, Georgia 30308
Region V
1 North Wacker Drive
Chicago, Illinois 60606
Region VI
212 No. St. Paul Street
Dallas, Texas 75202
Region VII
Two Gateway Center
5th & State Street
Kansas City, Kansas 66101
Region IX
100 McAllister Street
San Francisco, California 94102
Region X
1602 Second Avenue
Seattle, Washington 98101

Although it may not always be feasible in these offices to set aside rooms for the exclusive or primary use of the public, every reasonable effort will be made to accommodate members of the public who wish to use regional office facilities for the purpose of inspecting and copying records. The office will also endeavor to maintain and have readily available in its regional offices materials generally available in the central records room. The Regional Records Officer shall receive and handle requests submitted pursuant to this part.

§ 1215.8 Identification of records.

(a) In order for the Agency to locate records and make them available it is necessary that it be able to identify the specific records sought. Persons wishing to inspect or secure copies of records should therefore seek to describe and identify them as fully and as accurately as possible. In cases where requests are submitted which are not sufficient to permit identification, the records officer receiving the request will endeavor to assist the person seeking the records in filling in necessary details.

(b) Among the kinds of information which a person seeking records should try to provide in order to permit an identification of a record are the following:

(1) The unit or program of the agency which may be responsible for or may have produced the record such as VISTA, Peace Corps, or UYA.

(2) The specific event or action, if any, and if known, to which the record refers.

(3) The date of the record or the period to which it refers or relates if known.

(4) The type of record, such as an application, a contract, a grant or a report.

(5) Personnel of the office who may have prepared or have knowledge of the record.

(6) Citation to newspapers or publications which are known to have referred to the record.

§ 1215.9 Manner of requesting records.

(a) Requests under the Freedom of Information Act (5 U.S.C. 552) for access to ACTION records may be filed in person or by mail with the Chief of Administrative Services of the aforesaid at ACTION headquarters, 806 Connecticut Avenue, NW., Washington, D.C. 20525. Requests for records of a Regional or State office may be filed in person or by mail with the records officer of the respective Regional Office. Personal requests will be received from between 10 a.m. and 4 p.m., Monday through Friday, except for official holidays.

(b) Requested records which are reasonably described shall either be made available within ten working days after receipt of any such request or a written notice that the request cannot be complied with shall be provided to the person making such request within such 10 day period. Any such notice of inability to comply shall specify the reasons for refusal and the right of the person making such request to appeal such adverse determination. In the event a request for a record or document is made to a Regional Records Officer of the Agency or to the Chief of Administrative Services, and such office does not have the requested material, the requestor shall be immediately so notified. Such notice shall specify the Regional or other office of the Agency where such material is to be found or where it is normally maintained. The requestor may then resubmit his request, or request the office which provides the notice to forward the original request to the proper Regional Office or the central office as may be appropriate. The request shall be deemed received when actually received by the appropriate office.

(c) Upon receipt of a notice of failure to comply, a person making a request for information, records, or documents may, within 15 calendar days from the receipt of such notice, appeal such adverse determination to the Deputy Director of ACTION. Such appeal shall be in writing and shall specify the date upon which the notice of failure or refusal to comply was received by the person making such request. The Deputy Director shall make determination with respect to such appeal within 20 working days after receipt of such appeal. Notice of such determination shall be provided to the person making the request in writing. If the original denial of the request for records is upheld in whole or in part, such notice shall include notification of the right of the person making such request to have judicial review of the denial and appeal as provided under the Freedom of Information Act (5 U.S.C. 552).

(d) The time limit specified above for initial compliance, and appeal from a refusal to comply, may be extended by the Agency upon written notice to the person making such request which notice shall set forth the reasons for such extension and the date upon which determination is expected. Such extension may be applied at either the initial stage or the appellate stage, or both, provided that the aggregate of such extensions shall not exceed ten working days. Circumstances justifying an extension shall include the following:

(i) Time necessary to search and collect requested records from segments of the agency separate from the office processing the request;

(ii) Time necessary to search, collect, and appropriately examine a voluminous number of records demanded in a single request; or

(iii) Time necessary for consultation with another agency having a substantial interest in the determination of the request, or among two or more components of the agency which have an interest in the subject matter of the request.

(e) The time limits provided in this section are mandatory and a person requesting records shall be deemed to have exhausted his administrative remedies with respect to such requests in the event the Agency fails to comply within the said applicable time limit provisions as extended in accord with this section. In unusual circumstances in which additional time is necessary to collect and review the records requested, the Act provides that a court of appropriate jurisdiction may allow the agency additional time for such purpose. Alternatively, the agency and the person making such request may agree as to a reasonable time for completion of agency work upon such request.

(f) Any notification of denial of any request for record under this subsection shall set forth the names and titles or positions of the person primarily responsible for the denial of such request.

(g) Upon receipt of a request for a record or document the Chief of the Office of Administrative Services or the Regional Records Officer will promptly make an initial determination as to whether the request for the record reasonably describes such record with sufficient specificity to determine the unit of the agency to which such request should be referred. Upon making such initial determination, he shall immediately refer such request to the head of the unit concerned. Upon receipt of the request the head of the unit shall promptly determine whether the description of the record contained in the request is sufficient to permit its identification and production.

(h) If the Chief of Administrative Services, the Regional Records Officer or the head of the unit concerned determines that the description contained in the request is not sufficient to reasonably describe the record requested, the requestor shall be so advised and shall be permitted to amend the request to provide any additional information which would better identify the record. The requestor shall be provided with appropriate assistance from the head of the unit concerned, the Chief of Administrative Services, the Regional Records Officer or any member of their staff. A request which is amended in accord herewith shall be deemed to have been received by the Agency on the date of receipt of the amended request.

(i) If the head of the unit concerned determines that the record requested is reasonably described so as to permit its identification, he shall make it available unless he determines, in consultation with the General Counsel, that (1) the record is exempt from disclosure and (2) it should be withheld in the public interest or to protect the rights of persons to whom the information pertains. When such a determination is made the requestor shall be immediately notified in writing as provided herein.

§ 1215.10 Schedule of fees.

(a) It is the policy of ACTION to encourage the widest possible distribution of information concerning programs under its jurisdiction. To the extent practicable, that policy will be applied under this part so as to permit requests for inspection or copies of records to be met without substantial cost to the person making the request. Where a request for information does not involve substantial search time or reproduction costs, the information will be furnished without charge as a service to the public.

(b) The following charges will be made for any copies requested by a requestor:

(1) Copies made by photostat or otherwise (per page)—$.10.

(2) Search services shall be charged for at the rate of $5.00 per hour. Such charge may be made whether or not the search is successful in producing the record requested.

(3) In the event a request for documents or records is received which does not state that the requestor will pay any and all reasonably necessary costs, or costs up to an amount specified in such request, and the head of the unit or the Chief of Administrative Services determines that the anticipated cost for search and duplication of the records requested will be in excess of $25.00, or in excess of the limit specified in the request, the Chief of Administrative Services shall so advise the requestor promptly after receipt of the initial request. Such notification shall specify the anticipated cost of search and reproduction of the records requested. The requestor may thereafter amend his request to specify fewer documents, or agree to accept the estimate of anticipated costs, in which case the request shall be deemed received by the agency upon the date of the requestor's response. A requestor may, prior to making a request, ask for an estimate of cost from the Chief of Administrative Services who shall promptly respond to such request.

(4) Payment shall be made to the Chief of the Administrative Services Division by cash or personal check, money order, etc., payable to ACTION. A receipt for any fees will be provided upon request.

(5) A requestor may ask in his original request, or subsequently, that documents requested be furnished without charge or at a reduced charge. Upon receipt of such request the Chief of Administrative Services Division shall refer such request to the Deputy Director who shall promptly determine whether such request should be complied with. Such request shall be complied with in the event that it is determined that a waiver or reduction of fees is in the public interest because the furnishing of the documents or records requested will primarily benefit the general public. When such a request has been included in a request for documents or records or has been made subsequent thereto, the request shall not be deemed to have been received until a determination on the question of waiver or reduction has been made, provided however, that such determination shall be made within five working days from the date of receipt of any such request. A request for waiver or reduction of fees shall specify the amount of reduction requested and the reasons which cause the requestor to feel that the public interest would be served by a waiver or reduction of fees.

Issued at Washington, D.C. on January 17, 1975.

JOHN L. GANLEY,
Deputy Director.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 323-7]

MASS TRANSIT PRIORITY INCENTIVES IN THE STATE OF NEW JERSEY

Action on Employer's Provisions

On November 13, 1973 (38 FR 31388), EPA published in the FEDERAL REGISTER a transportation control plan for the State of New Jersey. The plan included § 52.1590, Employer's provision for mass transit priority incentives. On December 7, 1973 (38 FR 33775), EPA published in the FEDERAL REGISTER proposed revisions to § 52.1590. Public hearings were held on the proposed revisions in Camden, Trenton, and Newark, New Jersey on January 10, 11, 12, 1974, respectively. On June 4, 1974 (39 FR 19779) a revised § 52.1590 was published.

The revised regulation requires each employer who maintains 400 or more employee parking spaces to submit an adequate transit incentive program designed to encourage the use of mass transit and carpooling by his employees. Submittal of the plans was required by July 1, 1974. As of December 4, 1974, 140 employer plans were submitted to EPA.

Of the 140 plans received, the Administrator is proposing to take approval action on 93. These plan actions are subject to the condition stated in the regulation that employers are utilizing, in fact, that mix of incentive and disincentive measures most likely to obtain maximum use of carpooling and mass transit. Though good faith efforts to comply with the regulations have been made by most employers, the Administrator hereby strongly reaffirms the need for continued investigation and use of all additional incentive and disincentive measures which may be available.

Proper evaluation of the full effectiveness of these approvable programs will not be possible until February 15, 1975 when semi-annual reports containing information pursuant to § 52.1590(e) are due to be submitted. Therefore, at this time, EPA must rely upon employer's good faith claims that the programs do utilize the maximum reasonable mix of carpooling and mass transit measures. If, after the Administrator has approved a transit incentive program, the Administrator finds from the semi-annual reports that a program is not providing adequate incentive or disincentive measures, the Administrator will require that additional measures be taken by the employer. In those cases where voluntary compliance is not obtained, EPA will prescribe a plan. These plans will be published in a future FEDERAL REGISTER.

The revised regulation lists the information which will be required in the semi-annual reports. That information includes (1) the number of employees at each of the employer's facilities; (2) the number of employees commuting to work by single passenger automobile, carpool, and mass transit; (3) an estimate of employee vehicle-miles-traveled before and after the program is in effect.

In addition the Administrator is requiring (as provided by 40 CFR 52.1590 (e)(4)), that the following additional information be supplied for the period required by the regulation:

1. The total number of employee automobiles used to commute to work at each affected facility (whether such autos park on the premises of the facility or not) on April 1, 1974 or any date before April 1, 1974 but not earlier than August 1, 1973 for which valid data or estimates are available, and as of the date of the report;

2. The VMT which is generated by single passenger automobiles at each affected facility on April 1, 1974 or any date before April 1, 1974 but not earlier than August 1, 1973 for which valid estimates or data are available, and as of the date of the report;

3. A description of the method by which VMT estimates are determined.

4. The number of parking spaces available for employee use; and,

5. A narrative describing the status of the employer's efforts towards promoting the use of mass transportation and carpooling. Examples of items which might be included are: the number of employee carpool promotion meetings; company sponsored improvements to mass transit facilities; efforts by the company to obtain improved mass transit schedules or facilities; and, other incentive or disincentive measures implemented by the employer.

If a particular facility has more than one work shift, applicable information should be given for each such work shift.

The Administrator is proposing to approve the following plans:

NEW JERSEY-NEW YORK-CONNECTICUT AQCR

1. Naval Ammunition Depot Earle, Colts Neck, New Jersey 07722.
2. State Farm Insurance Companies, One State Farm Plaza, Bloomington, Illinois (for Wayne, New Jersey).

This notice is issued to advise the public that comments may be submitted on whether the proposed approval/disapproval action should be approved or disapproved as required by section 110 of the Clean Air Act. Only comments received on or before February 21, 1975. The Administrator's decision to approve or disapprove the proposed approval/disapproval action is based on whether they meet the requirements of section 110(a)(2)(A)–(H) and EPA regulations in 40 CFR Part 51.

Copies of the employer plans proposed for approval/disapproval action are available for public inspection during normal business hours at the Office of Public Affairs, EPA, Region II, 26 Federal Plaza, New York, N.Y. 10007. Additional copies are available at the Freedom of Information Center, 401 M Street SW., Washington, D.C. 20460. All comments should be addressed to the Regional Administrator, Environmental Protection Agency, Region II, 26 Federal Plaza, New York, N.Y. 10007.

Dated: December 26, 1974.

G. M. HANSLER,
Regional Administrator,
Environmental Protection Agency.

PROPOSED NEW PORTABLE AIR COMPRESSOR NOISE EMISSION STANDARDS

Notice of Public Hearing

Pursuant to section 6 of the Noise Control Act of 1972 (86 Stat. 1234), the Environmental Protection Agency published a notice of proposed rulemaking, 39 FR 38186–38206 dated October 29, 1974, for newly manufactured portable air compressors. Docket No. ONAC 74–1 was established to afford interested persons the opportunity to submit written data, views, or arguments relative to the proposed regulation. This docket was established with a closing date of December 2, 1974, but was subsequently extended to December 31, 1974 (see 39 FR 42379 dated December 5, 1974).

Final regulation on noise emissions from new portable air compressors will be promulgated in the near future. Prior to such promulgation, it is desirable to ensure that all issues involved in the regulation have been resolved. After review of the extensive material submitted to the official docket for this regulation, the Agency believes there is a need for providing a means for public presentation of any additional substantive information pertinent to these issues. Accordingly, notice is hereby given of public hearings to be held regarding noise emission regulations for newly manufactured portable air compressors. The principal issues to be reviewed concern the enforcement program specified in the regulation, the lead-time set forth for manufacture compliance with the standard, and the projected economic impact of the regulation on manufacturers, users, the construction industry and the general public.

All interested parties are invited to attend these hearings which will be held in Arlington, Virginia, on Tuesday, February 18, 1975, beginning at 9:00 a.m. at the Crystal City Marriott Hotel, 1999 Jefferson Davis Highway; and in San Francisco, California, on Tuesday, February 25, 1975, beginning at 9 a.m. at the Hyatt Hotel, 345 Stockton Street.

Dr. Alvin F. Meyer has been designated as the Presiding Officer for the hearings. He will have the responsibility for maintaining order; excluding irrelevant or repetitious material; scheduling presentations; and, to the extent possible, notifying participants of the time at which they may appear. The hearings will be conducted informally. Technical rules of evidence will not apply.

All interested persons will be given an opportunity to make a statement at the hearings. Such persons should notify the Presiding Officer not later than February 14, 1975, of their intentions to make a statement, so that presentations may be scheduled. Persons who have not given such notice will be heard as time permits following the scheduled statements. It is requested that speakers submit, if practicable, five copies of their statement no later than the day on which they appear. All correspondence relative to the hearings should be addressed to the Presiding Officer, Office of Noise Abatement and Control (AW–571), Attention: Portable Air Compressor Hearing, U.S. Environmental Protection Agency, Washington, D.C. 20460.

The transcript of the hearings and any materials submitted for the record will become part of the official docket for the New Portable Air Compressor Regulation. Accordingly, the official docket reopened for these hearings, ONAC 74–1, will remain open for submission of official comments until close of business on March 10, 1975.

Dated: January 16, 1975.

PROPOSED NEW MEDIUM AND HEAVY DUTY TRUCKS NOISE EMISSION STANDARDS

Notice of Public Hearing

Pursuant to section 6 of the Noise Control Act of 1972 (86 Stat. 1234), the Environmental Protection Agency published a notice of proposed rulemaking, 39 FR 38338–38362 dated October 30, 1974, for newly manufactured medium and heavy duty trucks. Docket No. ONAC 74–1 was established to afford interested persons the opportunity to submit written data, views, or arguments relative to the proposed regulation. This docket was established with a closing date of December 16, 1974, but was subsequently extended to December 31, 1974 (see 39 FR 42379–42380 dated December 5, 1974).

Final regulation on noise emissions from new medium and heavy duty trucks will be promulgated in the near future. Prior to such promulgation, it is desirable to ensure that all issues involved in the regulation have been resolved. After review of the extensive material submitted to the official docket for this regulation, the Agency believes there is a need for providing a means for public presentation of any additional substantive information pertinent to these issues. Accordingly, notice is hereby given of public hearings to be held regarding noise emission regulations for newly manufactured medium and heavy duty trucks. The principal issues to be reviewed are matters relating to available technology to meet the regulation, economic impact of the regulation and the enforcement program specified in the regulation.

All interested parties are invited to attend these hearings which will be held in Arlington, Virginia, on Wednesday and Thursday, February 19 and 20, 1975, beginning at 9 a.m. at the Crystal City Marriott Hotel, 1999 Jefferson Davis Highway; and in San Francisco, California on Wednesday and Thursday, February 26 and 27, 1975, beginning at 9 a.m. at the Hyatt Hotel, 345 Stockton Street.

Dr. Alvin F. Meyer has been designated as the Presiding Officer for the hearings. He will have the responsibility for maintaining order; excluding irrelevant or repetitious material; scheduling presentations; and, to the extent possible, notifying participants of the time at which they may appear. The hearings will be conducted informally. Technical rules of evidence will not apply.

All interested persons will be given an opportunity to make a statement at the hearings. Such persons should notify the Presiding Officer not later than February 14, 1975, of their intentions to make a statement, so that presentations may be scheduled. Persons who have not given such notice will be heard as time permits following the scheduled statements. It is requested that speakers submit, if practicable, five copies of their statement not later than the day on which they appear. All correspondence relative to the hearings should be addressed to the Presiding Officer, Office of Noise Abatement and Control (AW–571), Attention: Medium and Heavy Duty Truck Hearing, U.S. Environmental Protection Agency, Washington, D.C. 20460.

The transcript of the hearings and any materials submitted for the record will become part of the official docket for the New Medium and Heavy Duty Truck Regulation. Accordingly, the official docket re-opened for these hearings, ONAC 74–1, will remain open for submission of official comments until close of business on March 10, 1975.

Dated: January 16, 1975.

ROGER STRELOW,
Assistant Administrator

FEDERAL ENERGY ADMINISTRATION

[10 CFR Parts 211, 212]

PROGRAM TO REDUCE IMPORTS OF FOREIGN CRUDE OIL AND PETROLEUM PRODUCTS

Proposed Rulemaking and Public Hearing

The Federal Energy Administration hereby gives notice of a proposal to amend Title 10, Parts 211 and 212, of the Code of Federal Regulations, to revise the Mandatory Petroleum Allocation Regulations and the Mandatory Petroleum Price Regulations. The FEA will receive written comments and hold a public hearing with respect to this proposal.

I. INTRODUCTION

The President has determined that it is in the national interest to achieve a reduction in demand for petroleum products, thereby to reduce the dependence of this country on imports of foreign crude oil and petroleum products. A program to achieve this objective has been announced that, as an initial step, provides for increased import fees on crude oil and petroleum products. The import fees on crude oil will be raised $1 per barrel in February, March and April, for a total increase of $3 per barrel. Import fees on petroleum products will also be increased, in lesser amounts.

The implementation of this program requires modifications to the FEA Old Oil Allocation Program and the FEA price regulations in order to mesh these regulations with the operation of the new program. Modifications in the FEA price regulations are also proposed in order to ensure that the burden of the increased import fees will be equitably distributed and appropriately reflected in the price

V40115 JAN22 75 XUM

of gasoline, the product for which demand appears to be most sensitive to price.

The basic modification proposed with respect to the Old Oil Allocation Program is the exclusion of imported products, since the entitlement benefits of that program, insofar as product imports are concerned, can be more efficiently and fairly provided through corresponding reductions in the increased import fees. A further modification in the entitlements program is proposed to help alleviate the impact on small refiners which are buyers of entitlements of the higher cost of entitlements, resulting from the increase of import fees.

With respect to the price regulations, the basic modification proposed is to limit generally the proportion of increased product costs, including increased import fees, that can be passed through and reflected in prices charged for the group of products, taken in the aggregate, consisting of all covered products other than No. 2 oils (No. 2 heating oil and No. 2–D diesel fuel), gasoline, and crude oil. Current regulations preclude a greater than proportionate pass-through of increased product costs for No. 2 oils and propane, and such limitations would be maintained. In addition, the current rule permitting reallocation of increased product costs from No. 2 oils and from covered products other than No. 2 oils, gasoline, and crude oil to gasoline would be maintained. A number of more technical modifications to the price regulations are also proposed.

II. Modifications to the Old Oil Allocation Regulations

A. *Elimination of imported product coverage.* FEA's Old Oil Allocation Program (the entitlements program) will operate to spread the burden of increased crude oil import fees across the nation and among all refiners in order to achieve equitable geographical distribution of these increased costs, to minimize economic distortion and to help maintain the competitive visability of small and independent refiners and marketers. However, due to the different product coverage and transactions affected by the import and entitlements program, very substantial administrative problems would be encountered if the entitlements program were to be used to alleviate the regional impact of the increased fees on product imports. For example, residual fuel oil and No. 2 heating oil are the only imported products currently subject to the entitlements program, while the import fee program is generally applicable to all products covered by FEA price regulations, except propane and butane. FEA proposes to eliminate most of these problems, and to cushion the impact of the higher import fees upon those marketers and regions relying heavily on imported products by excluding products from the Old Oil Allocation Program and reducing product import fees by an amount equivalent to the benefit that would have been provided under the entitlements program. This approach of providing a direct offset to the import fees, rather than an indirect benefit through the entitlements program, has the advantage of achieving the proper cost relationship between domestic and imported product, while at the same time reducing both the size and complexity of the Old Oil Allocation Program.

The current entitlements program results in a differential between imported and domestic product prices that is considered to be sufficiently narrow to maintain the competitive viability of petroleum marketers, and to facilitate the sharing of the burden of the higher imported product costs amoog all regions of the country, yet not so narrow as to eliminate incentives for crude importation and domestic refining.

To maintain this differential, FEA will first allow the current entitlements benefits of 60 cents per barrel of imported product (as compared with benefits of approximately $2.00 per barrel of imported crude oil), to be offset against the increased import fees. The increased fees on product imports will then be further reduced to equalize the impact of increased import fees on products with the impact of increased import fees on imported crude oil, taking into account also the corresponding increased prices of uncontrolled domestic crude oil.

The amount of this second reduction in the import fees for products will be determined as follows. Under the entitlements program, each refiner is allocated the equivalent of 40 percent of its crude oil runs as price controlled old oil. Therefore, for each dollar increase in crude oil import fees, with the accompanying increase in uncontrolled domestic oil prices, refiners will incur costs of 60 cents more per barrel of all crude oil runs, which can then be passed on to ports and domestically refined product, To maintain parity between product imports and domestically refined product, with respect to the effect of the import fee increase, each dollar increase in crude oil import fees will therefore be accompanied by only a 60 cent increase in the fee on product imports.

Thus, the offsetting reduction in fees to compensate for the elimination of product imports from the entitlements program will be 60 cents per barrel, and there will be an additional 40 cents per dollar reduction in the amount of increased import fees for products as compared with crude oil, in order to maintain the present relative difference in overall crude oil costs versus product import costs. For February 1975, therefore, no net product fee increase will occur; for March, the net increase will be 60 cents per barrel; and for April, $1.20 per barrel.

B. *Special Rule No. 4.* Also, with respect to the entitlements program, in order to alleviate the cash flow problems of small refiners that are buyers of entitlements, a phase-in of the higher cost of these entitlements, resulting from higher import fees is proposed. This treatment is simply an extension of the existing Special Rule No. 3 to the crude oil allocation regulations by which small refiners are now being phased into the entitlements program during its first three months of operation.

Special Rule No. 4 of Subpart C of Part 211 will operate in much the same way as Special Rule No. 3, in that small refiners that are buyers of entitlements will have specified exemptions from a portion of their entitlement purchase obligations effecting a phase-in of the full obligation over a three month period, beginning with April's equalization of February costs. The portion of the purchase obligation exempted would approximate the incremental rise in the price of the entitlement attributable to the increase in import fee. If the February entitlement price were set at $7, of which $1 was attributable to the increased import fee, FEA would set aside 1/7 of each small refiner's purchase obligation as to the first 30,000 barrels per day of its crude runs for that month. If the March and April entitlement prices exceeded the February price by $1 and $2, respectively, the exemption from the purchase requirements for March and April would be 1/8 and 1/9 respectively. For the month of May, small refiners would be required to meet the full purchase requirements of the program.

Cash flow problems for all refiners and resellers resulting from higher import fees will also be mitigated because, although import fees will be "incurred" for purposes of the price regulations when the crude oil or product is imported, actual payment of the fees will not be required under the import program until the close of the month following the month in which the import occurs.

III. Modifications to the Price Regulations

A. *Limitations on increased cost pass through.* In order to accomplish the modifications in the price regulations outlined above, to limit generally the amount of increased product costs allocable to products other than gasoline, the FEA is proposing to eliminate the provision of its regulations that now permits increased costs attributable to "special products" (No. 2 heating oil and No. 2–D diesel fuel, and gasoline) to be allocated instead to covered products other than "special products." It should be noted in this regard that there have been basic changes with respect to the manner in which No. 2 heating oil and No. 2–D diesel fuel and gasoline will be treated under the price regulations and that these products will therefore no longer be referred to as "special products."

The term "special products" initially signified No. 2 heating oil, No. 2–D diesel fuel, and gasoline, as to which not more than a proportionate share of increased costs could be assigned. Since, then, however, proportionate restraints on increased cost pass-through have been adopted for propane, while they have been eliminated for gasoline. Proportionate limitations are also now proposed for covered products other than "special products." The term "special product," as it might continue to be applied to No. 2 heating oil and No. 2–D diesel fuel, and gasoline, is therefore no longer meaningful insofar as restraints on cost pass-through are concerned. Accordingly, FEA proposes to eliminate the term "special products," and to substitute the terms gasoline and "No. 2 oils" (to refer to No. 2 heating oil and No. 2–D diesel fuel), and to use the term "general refinery products" to refer to all covered products other than gasoline, No. 2 oils and crude oil.

Under this revised price regulation, increased product costs would be calculated separately for No. 2 oils, for gasoline, and for general refinery products. Increased costs allocable to No. 2 oils or to general refinery products could be reallocated to gasoline. No increased costs could be reallocated to No. 2 oils or to the category general refinery products from any other category. Increased costs could continue to be allocated among the products within the category labelled general refinery products including residual fuel oil and aviation fuels, as determined by refiners. Conforming changes to the regulations reflecting the revisions in terminology will be published when the final regulation is published.

In this manner, general refinery products, including residual fuel oil and aviation fuels, would not be permitted to bear, overall, a disproportionate share of increased costs, while at the same time a measure of pricing flexibility among these products would be preserved.

B. *Corrective changes in the cost allocation regulations—Use of current sales volumes.* Increased product costs allocable to certain products or categories of products are determined under current regulations on the basis of the percentage of a refiner's three month average sales of that product or product category in the preceding year (the "V_{iP}" factor of the refiner's price formulae). This use of an historical sales volume to determine allocation of costs may be serving as a disincentive to the increased production of No. 2 oils by refiners, since an increase in percentage yield of this product results in a lesser increment of increased product cost being allocable to prices charged for the product. Accordingly, a revision in the regulations is proposed, to permit use of estimated current sales volumes, rather than historical sales volumes, for purposes of making allocations of increased costs under the refiner's cost formulae.

Equal application of increased product costs. FEA regulations require increased costs to be applied equally among classes of purchaser of a particular covered product. Currently for No. 2 oils and for gasoline, this requirement is met simply by operation of the refiner's "special products," cost allocation formula. With respect to covered products other than "special products," however, FEA has not previously specified what product or products constitute "a particular covered product" for purposes of compliance with the equal application of increased cost requirement. However, the FEA recently issued a clarifying amendment to its regulations which lists the categories of covered products with more specificity. Accordingly, a new regulation which specifies that each such product or category or products shall constitute "a particular covered product" is proposed. This proposal will ensure that all refiners interpret this aspect of the regulations in like manner, and will help to simplify FEA audit procedures.

C. *Import fees and duties.* A number of changes are proposed to make clear that increases in import fees and duties may be passed through as increased product costs when they are incurred by the purchaser. Recognition of import fees and duties as an element of cost is a technical correction to the regulations, and reflects the fact that such costs have always been regarded as a cost of product. A definition of "import fees and duties incurred" is being added to make clear that such fees are to be included as a cost of product only where they will ultimately be paid by the entity acquiring the product (and not, for example, where an entity is purchasing the product at a price which reflects the payment of the fees by another entity), and that the fees are "incurred" (for purposes of pass-through as increased product costs) when the product passes through United States customs, even though payment of the fees by the purchasing firm may be at a later date.

A proposed amendment to § 212.94(c) makes clear that, as has always been intended, the reference to "landed cost" is a reference to that term as it is defined in § 212.83.

D. *Modifications in the regulations governing the carry forward of unrecouped increased product costs.* Current regulations generally provide that increased product costs unrecouped in one month may be carried forward for recovery in a subsequent month. To the extent that there are initial restrictions on the application of increased costs to particular products, there are similar restrictions on the subsequent application of unrecouped increased product costs.

Since the regulations proposed today prevent the reallocation of increased costs from No. 2 oils and gasoline to general refinery products, a revised regulation on the carry-forward of unrecouped increased product costs is proposed, with reallocation of such unrecouped costs among product categories restricted in a manner that is analogous to the proposed restriction governing initial reallocation of increased costs among product categories.

A recent revision to the price regulations limited the extent to which unrecouped increased product costs could be used to increase prices in any single month. Although this provision remains generally desirable, the FEA proposes that this limitation be removed with respect to gasoline, as to which demand seems most responsive to price, in light of the overriding objectives of the program to reduce imports, and the effects of increased prices on demand that that program is intended to accomplish.

IV. General

A. *Effective dates.* The regulation changes proposed today will be effective, as finally adopted, March 1, 1975, except that the proposed revisions to § 211.62, § 211.67(a)(3), and § 211.67(i)(2) and (4) would be effective April 1, 1975, and the proposed revisions to § 211.66(i) and § 211.67(j) and (l) would be effective May 1, 1975.

B. *Procedures for written comments and public hearing.* Interested persons are invited to participate in this rule-making by submitting data, views, or arguments with respect to the proposed regulations set forth in this notice to Executive Communications, Room 3309, Federal Energy Administration, Box BW, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation "Program to Reduce Imports—Amended Regulations." Twenty-five copies should be submitted. All comments received by Tuesday, February 4, 1975 before 4:30 e.s.t. and all relevant information, will be considered by the Federal Energy Administration before final action is taken on the proposed regulations.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination. The public hearing in this proceeding will be held at 9:30 a.m. on February 6, 1975 and will be continued, if necessary, on February 7, 1975 at the Federal Building, Room 3000, 12th & Pennsylvania Avenue NW., Washington, D.C., in order to receive comments from interested persons on the matters set forth herein.

Any person who has an interest in the proposed amendments issued today, or who is a representative of a group or class of persons that has an interest in today's proposed amendments, may make a written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.s.t. on January 31, 1975. Such a request may be hand delivered to Room 3309, Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he is proper representative of a group or class of persons that has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he may be contacted through February 3, 1975. Each person selected to be heard will be so notified by the FEA before 4:30 p.m., e.s.t., February 3, 1975 and must submit 100 copies

V 4 0 1 5 JAN 22 75 XUM

of his statement to Executive Communications, FEA, Room 3309, Federal Building, Washington, D.C. 20461, before 4:30 p.m., e.s.t., on February 5, 1975.

The FEA reserves the right to select the persons to be heard at these hearings, to schedule their respective presentations and to establish the procedures governing the conduct of the hearings. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearings. These will not be judicial or evidentiary-type hearings. Questions may be asked only by those conducting the hearings, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearings will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearings, to Executive Communications, FEA, before 4:30 p.m., e.s.t. February 5, 1975. Any person who wishes to ask a question at the hearings may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearings, will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearings will be announced by the presiding officer.

A transcript of the hearings will be made and the entire record of the hearings, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area, Room 3400, Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

As required by section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments on this proposal.

The inflationary impact of this proposal has been considered by the FEA, consistent with Executive Order 11821, issued November 27, 1974.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, it is proposed to amend Parts 211 and 212, Chapter II of Title 10 Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., January 17, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

1. Section 211.62 is amended by deleting the definitions of "eligible firm," "eligible products," "No. 2 heating oil" and "No. 2-D diesel fuel" and is further amended in the definition of "adjusted national old oil supply ratio" to read as follows:

§ 211.62 Definitions.

* * * * *

"Adjusted national old oil supply ratio" means, for a particular month, the volume of old oil included in the aggregate adjusted crude oil receipts for all refiners, expressed as a percentage of the total volume of the crude oil runs to stills for all refiners for that month. Such volume of old oil shall be decreased by a number of barrels of old oil equal to the number of entitlements issuable to small refiners under § 211.67(e).

* * * * *

2. Section 211.66 is amended by deleting paragraphs (j) and (k) and is further amended by revising paragraph (i) to read as follows:

§ 211.66 Reporting requirements.

* * * * *

(i) *Monthly transaction report.* On or prior to the tenth day of each month, commencing with the month of February 1975, each refiner shall file with the FEA a report certifying its purchases and sales of entitlements for the third month prior to the month in which the report is filed.

(j) and (k) [Deleted].

3. Section 211.67 is amended by the deletion of subparagraph (3) of paragraph (a), and is further amended by revising paragraph (c), subparagraphs (2) and (4) of paragraph (i), paragraph (j), and paragraph (l) to read as follows:

§ 211.67 Allocation of old oil.

(a) * * *

(3) [Deleted]

* * * * *

(c) *Refiners with excess entitlements.* For each month, commencing with the month of November 1974, each refiner that has been issued a greater number of entitlements for that month than the number of barrels of old oil included in its adjusted crude oil receipts shall sell excess entitlements.

* * * * *

(i) *Issuance and transfer of entitlements.* * * *

(2) Each notice published by the FEA evidencing the issuance of entitlements under this section shall specify as to a particular month the adjusted national old oil supply ratio, the name of each refiner to which entitlements have been issued, the number of entitlements issued to each such refiner, the number of barrels of old oil included in each refiner's adjusted crude oil receipts and the price at which or price range within which entitlements shall be sold.

* * * * *

(4) The price at which entitlements shall be sold and purchased shall be fixed by the FEA for each month. Such price may be fixed in terms of a price range in which entitlement transactions shall be effected or in terms of a single price at which all entitlement transactions shall take place. Such price or price range shall be fixed by the FEA with reference to the differential between the weighted average costs to refiners of old oil and the weighted average costs to refiners of new and released crude petroleum, imported crude oil and crude oil produced from stripper wells.

(j) *Failure to consummate transactions.* The FEA may direct refiners that have not purchased the required number of entitlements under paragraph (b) of this section for a particular month to purchase such required number of entitlements at a price specified by the FEA from any refiner that has entitlements for such month available for sale. The FEA may direct refiners that have entitlements available for sale to sell such entitlements at a price specified by the FEA to refiners that have not purchased their required number of entitlements under paragraph (b) of this section.

* * * * *

(l) *Adjustments to crude oil costs*—(1) *Computations*—(i) *Entitlements purchased.* The cost of entitlements purchased in a particular month pursuant to this section by refiners shall be added to the cost of crude oil purchased or landed in that month (which is the period "*t*" (the month of measurement), for purposes of calculating the increased costs to be applied to product prices in the following month under the "*at*" factor of the general formulae of § 212.83(c)(2) of this chapter).

(ii) *Entitlements sold.* The sales revenues from entitlements sold in a particular month pursuant to this section by refiners shall be subtracted from the cost of crude oil purchsed or landed in that month (which is the period "*t*" (the month of measurement), for purposes of calculating the increased costs to be applied to product prices in the following month under the "*A*" factor of the general formulae of § 212.83(c)(2) of this chapter).

(2) *Timing.* The date of purchase or sale of entitlements for purposes of determining the date on which a cost or a cost reduction is incurred under § 212.83(c) of this chapter shall be the date on which the transaction is reported to have taken place on the monthly transaction report filed with the FEA under paragraph (l) of § 211.66.

* * * * *

4. The Appendix to Subpart C of Part 211 is amended by the addition of a Special Rule No. 4 to read as follows:

SPECIAL RULE NO. 4

1. *Scope.* This Special Rule provides for a reduction in the entitlement purchase requirements of § 211.67(b) for specified volumes of old oil included in the adjusted crude oil receipts of small refiners for the months of February, March and April, 1975.

2. *Reduction in entitlement purchase requirements for small refiners.* (a) Each small refiner with a volume of crude oil runs to stills of less than 30,000 barrels per day in the month concerned, that is required to purchase entitlements shall be exempted from the purchase requirements of § 211.67(b) as to one-seventh (1/7), one-eighth (1/8) and one-ninth (1/9), respectively, of the number of entitlements otherwise required to be purchased by that small refiner under § 211.67(b) for the months of February, March, and April 1975.

(b) Each small refiner with a volume of crude oil runs to stills in excess of 30,000 barrels per day in the month concerned, that is required to purchase entitlements, shall be exempted from the purchase requirements of § 211.67(b) as to a number of entitlements equal to one-seventh (1/7), one-eighth (1/8) and one-ninth (1/9), respectively, of the number of entitlements for the months of February, March, and April 1975, which is in the same proportion to the total number of entitlements otherwise required to be purchased by that small refiner under § 211.67(b) that 30,000 barrels per day is to the daily average volume of that small refiner's crude oil runs to stills for that month.

3. *Adjustment to number of entitlements issuable.* The total number of entitlements exempted from the purchase requirements of § 211.67(b) pursuant to paragraph 2 of this special rule shall be deducted on a pro-rata basis, from the number of entitlements otherwise issuable to and available for sale by each refiner which has entitlements available for sale in the month concerned.

4. *Provisions of Subpart C.* The provisions of Subpart C of Part 211 shall remain in full force and effect except as expressly modified by the provisions of this special rule.

5. Section 212.31 is revised by deleting the definition of "special products" and by adding, in the appropriate alphabetical order, definitions of "general refinery products" and "No. 2 oils" to read as follows:

§ 212.31 Definitions.

* * * * *

"General refinery products" means all covered products other than No. 2 oils, gasoline, and crude oil.

* * * * *

"No. 2 oils means No. 2 heating oil and No. 2-D diesel fuel.

* * * * *

6. Section 212.83 is amended in paragraph (b) by adding, in the appropriate alphabetical order, a definition of "import fees and duties incurred" and by revising the definition of "landed costs" and is further amended by revising paragraph (c), (d), and (e) to read as follows:

§ 212.83 Allocation of refiner's increased costs.

* * * * *

(b) *Definitions.* * * *

"Import fees and duties incurred" means only import fees and duties that are paid by or on behalf of the firm purchasing the product and which are in addition to the purchase price of the product, and does not include any import fees and duties paid by or on behalf of firms other than the purchasing firm, such as import fees and duties which are already reflected in the price charged for a product. Import fees and duties are "incurred" (for purposes of determining increased product costs) at the time the product is released from U.S. customs custody or entered into U.S. customs territory, or withdrawn from a bonded warehouse for consumption, whichever occurs first, even though payment of the fees or duties may be at a later date.

* * * * *

"Landed cost" means:

(1) For purposes of covered products purchased in complete arm's-length transactions, the purchase price at the point of origin, plus the actual transportation cost, plus import fees and duties incurred.

(2) For purposes of covered products purchased in arm's-length transactions and shipped pursuant to a transaction between affiliated entities, the purchase price at the point of origin, plus the transportation cost computed by use of the customary accounting procedures generally accepted and consistently and historically applied by the firm concerned, plus import fees and duties incurred.

(3) For purposes of covered products other than crude oil purchased in a transaction between affiliated entities and shipped pursuant to an arm's-length transaction, the cost of the product computed by use of the customary accounting procedures generally accepted and consistently and historically applied by the firm concerned, plus the actual transportation cost, plus import fees and duties incurred.

(4) For purposes of covered products other than crude oil purchased and shipped pursuant to a transaction between affiliated entities, the costs of the product and the transportation both computed by use of the customary accounting procedures generally accepted and consistently and historically applied by the firm concerned, plus import fees and duties incurred.

(5) For purposes of crude oil purchased in a transaction between affiliated entities and shipped pursuant to an arm's-length transaction, the cost of the crude oil computed pursuant to § 212.84, plus the actual transportation cost, plus import fees and duties incurred.

(6) For purposes of crude oil purchased and shipped pursuant to a transaction between affiliated entities, the cost of the crude oil computed pursuant to § 212.84, plus the transportation cost computed by use of the customary accounting procedures generally accepted and consistently and historically applied by the firm concerned, plus import fees and duties incurred.

* * * * *

(c) *Allocation of increased product costs*—(1) *General rule*—(i) *No. 2 oils and gasoline.* In computing base prices for sales of No. 2 oils and gasoline, a refiner may increase its May 15, 1973 selling price to each class of purchaser once each calendar month beginning with November 1973 by an amount to reflect the increased product costs attributable to sales of that covered product using the differential between the month of measurement and the month of May 1973: *Provided,* That the amount of increased costs used in computing a base price is calculated by use of the formula set forth in paragraph (c)(2)(i) of this section. The formula of paragraph (c)(2)(i) of this section must be computed separately for No. 2 oils and for gasoline, so that the amount of increased product costs included in computing base prices of No. 2 oils and of gasoline must be equally applied to each class of purchaser.

(ii) *General refinery products.* In computing base prices for a general refinery product, a refiner may increase its May 15, 1973 selling price to each class of purchaser each month beginning with November 1973 by an amount to reflect the increased product costs attributable to sales of general refinery products, using the differential between the month of measurement and the month of May 1973: *Provided,* That the amount of increased costs used in computing a base price is calculated by use of the formula set forth in paragraph (c)(2)(ii) of this section: *And provided,* That the amount of increased product costs included in computing base prices of a particular general refinery product must be equally applied to each class of purchaser. In apportioning the total amount of increased product costs allocable to general refinery products among particular general refinery products, a refiner may apportion amounts of increased product costs to a particular general refinery product in whatever amounts it deems appropriate. For purposes of this section, each of the following products or product categories shall constitute "a general refinery product": Aviation fuels, benzene, butane, gas oil, greases, hexane, kerosene, lubricant base oil stocks, lubricants, naphthas, natural gas liquids, natural gasoline, No. 1 heating oil and No. 1-D diesel fuel, No. 4 fuel oil and No. 4-D diesel fuel, propane, residual fuel oil, special naphthas (solvents), toluene, unfinished oils, xylene, and other finished products. A blend of two or more particular covered products is considered to be that particular covered product constituting the major proportion of the blend.

(iii) *Propane*—(A) *Special propane rule.* Notwithstanding the provisions of § 212.83(c)(1)(ii) and § 212.83(e), a refiner in computing base prices of propane for the twelve-month period of August 1, 1974 through July 31, 1975:

(*1*) may not apportion to propane a greater percentage of increased cost of crude oil purchased or landed in the twelve-month period July 1, 1974 through June 30, 1975 than the percentage that the volume of propane sold

V40115 JAN22 75 XUM

during the twelve-month period August 1, 1974 through July 31, 1975 which was produced by that refiner from crude oil is to the total volume of all products (including other than covered products) sold by it during the same twelve-month period, which were produced by that refiner from crude oil. Notwithstanding § 212.83(b), for purposes of this special propane rule, cost of crude oil shall not include the cost of natural gas liquids; and

(2) may apportion to propane the increased cost of propane purchased or landed in the twelve-month period of July 1, 1974 through June 30, 1975; and

(3) may apportion to propane the increased product costs attributable to propane produced from natural gas as determined pursuant to the provisions of § 212.146 of Subpart K of this part; and

(4) may not apportion to propane any increased product costs incurred prior to July 1, 1974 and not recovered through July 31, 1974.

(B) *Exception to equal application rule for propane.* Notwithstanding the provisions of paragraph (c)(1)(ii) of this section a refiner may comply with the provisions of that paragraph by applying unequal amounts of increased costs to the weighted average May 15, 1973 selling price of propane to classes of purchaser of propane: *Provided,* That the highest amount of increased cost applied to the weighted average May 15, 1973 selling price to any class of purchaser shall not exceed by more than 100 percent the amount of increased cost applied to the weighted average May 15, 1973 selling price to any other class of purchaser: *And, provided further,* That no greater amount of increased cost shall be applied to the weighted average May 15, 1973 selling price of propane in sales to any class of purchaser which includes either an independent marketer, as defined in § 211.51 of this chapter, or a purchaser that uses the product for residential use, as defined in § 211.51 of this chapter, than is applied to the weighted average May 15, 1973 selling price of propane in sales to any other class of purchaser.

(iv) *Reallocation of increased product costs among product categories.* Increased product costs allocable to No. 2 oils and gasoline pursuant to paragraph (c)(1)(i) of this section and to general refinery products pursuant to paragraph (c)(1)(ii) of this section may be reallocated among product categories each month only as follows:

(A) *General refinery products.* To the extent that a refiner does not allocate its increased product costs for general refinery products to base prices for such products, it may instead allocate that part of its increased product costs for general refinery products only to base prices for gasoline. No increased product costs for general refinery products may be reallocated to base prices for No. 2 oils.

(B) *No. 2 oils.* To the extent that a refiner does not allocate its increased product costs for No. 2 oils to base prices for No. 2 oils, it may instead allocate that part of its increased product costs for No. 2 oils only to base prices for gasoline. No increased product costs for No. 2 oils may be reallocated to base prices for general refinery products.

(C) *Gasoline.* No increased products costs for gasoline may be reallocated to base prices for general refinery products or No. 2 oils.

(2) *Formulae*—(i) *No. 2 oils and gasoline.* For No. 2 oils and gasoline ($i=1$ and $i=2$):

$$d_i{}^u = \frac{A^i\left(\frac{V_i{}^u}{V^u}\right) + B_i{}^i + G_i{}^i \pm H_i{}^u}{V_i{}^u}$$

(ii) *General refinery products.* For general refinery products ($i=3$):

$$D_i{}^i = A^i\left(\frac{V_i{}^u}{V^u}\right) + B_i{}^i + G_i{}^i - H^u$$

(iii) *Definitions.* For purposes of paragraphs (c)(2)(i) and (c)(2)(ii) of this section:

$d_i{}^u$ = The dollar increase that may be applied in the period "u" to the May 15, 1973 selling price of the covered product or products of the type "i" to each class of purchaser to compute the base price to each class of purchaser, except that the dollar increase that may be applied in the period "u" to the May 15, 1973, selling price of gasoline to compute the base prices to the classes of purchaser that purchase gasoline at retail from a refiner at service stations operated by employees of the refiner may be "$d_i u$" plus a maximum of $0.03 per gallon of gasoline, provided that, in computing "$d_i u$" for gasoline, the numerator of the formula in subdivision (i) of this subparagraph is reduced by an amount equal to the product of the actual amount of cents per gallon increase added to "$d_i u$" above multiplied by the estimated number of gallons of gasoline to be sold during the period "u" at retail through service stations operated by employees of the refiner. The formula for "$d_i u$" must be computed separately for $i=1$ and for $i=2$.

$D_i{}^u$ = The total dollar amount a refiner may apportion in the period "u" to general refinery products ($i=3$) in whatever amounts it deems appropriate to each particular general refinery product: *Provided,* That the total dollar amount shall be reduced by an amount equal to the total number of gallons of benzene and toluene sold by the refiner during the month of May 1973, multiplied by $0.20 and further multiplied by an amount equal to the total number of barrels of refinery input to crude oil distillation units processed during the month of measurement and measured in accordance with Bureau of Mines form 6-1300-M divided by the total number of such barrels processed during the month of May 1973. The formula for general refinery products shall only be computed for $i=3$ (all general refinery products).

$V_i{}^u$ = The total volume of all covered products (other than propane, which may be included only to the extent that it was refined by the refiner from crude oil) and all products refined from crude oil other than covered products estimated to be sold in the period "u".

$V_i{}^u$ = The total volume of a specific covered product or products of the type "i" (other than propane, which may be included only to the extent that it was refined by the refiner from crude oil sold during the month "u") estimated to be sold in the period "u".

$$A^i = Q^i\left(\frac{C^i}{Q^i} - \frac{C^o}{Q^o}\right)$$

"A^i" is the total increased cost of crude oil purchased or landed in the period "t" for refining by that refiner. The cost and quantity of crude oil that is consumed as refinery fuel or that is otherwise consumed or disposed of in the period "t" so as not to be available for that refiner's input to crude oil distillation units shall be excluded from this amount (except to the extent permitted with respect to crude oil sold under § 211.65 of this chapter pursuant to the definitions of Q^i and C^i).

Where:

Q^i = The total quantity or volume of crude oil purchased or landed in the period "t" for refining or for resale under § 211.65: *Provided, however,* That this amount shall be reduced by the quantity of crude oil sold under § 211.65 in the period "t".

Q^o = The total quantity or volume of crude oil purchased or landed in the period "o" for refining.

C^o = The total cost of crude oil purchased or landed in the period "o" for refining.

C^i = The total cost of crude oil purchased or landed in the period "t" for refining or for resale under § 211.65: *Provided, however,* That this amount shall be reduced by the revenues from sales of crude oil under § 211.65 made in the period "t", except for any transportation adjustment or the handling fee provided for by § 212.94(b).

$$B_i{}^i = c_i{}^i - c_i{}^o - Y_i\,(q_i{}^i - q_i{}^o)$$

"$B_i{}^i$" is the total increased cost of the specific covered product or products of the type "i" purchased or landed in the period "t". The cost of a specific covered product or products of the type "i" shall include the cost of a specific covered product or products not of the type "i" that are blended or further refined to produce the covered product or products of the type "i". The cost and quantity of covered products purchased or landed that are consumed as refinery fuel shall be excluded from this amount.

Where:

$c_i{}^i$ = The total cost of a covered product or products of the type "i" purchased or landed in the period "t".

$c_i{}^o$ = The total cost of a covered product or products of the type "i" purchased or landed in the period "o".

$q_i{}^i$ = The total quantity or volume of a covered product or products of the type "i" purchased or landed in the period "t".

$q_i{}^o$ = The total quantity or volume of a covered product or products of the type "i" purchased or landed in the period "o".

Y_i = The lowest price at or above which at least 10 percent of the product or products of type "i" were priced in transactions during the month of May 1973 or, if none occurred in that month, the month next preceding May 1973 in which such transactions occurred. Alternatively, the cost of the covered product or products concerned during the month of May 1973 may be used if computed by the use of accounting procedures generally accepted and consistently and historically applied by the firm concerned. *And provided,* That the FEA has approved in writing of the cost figures used.

$$G_i{}^i = J_i{}^i - K_i{}^i + L_i{}^i$$

"$G_i{}^i$" is either: (i) The total dollar amount of increased costs of the covered product or products of the type "i" to the period "t" not recovered in sales of that product through the period "t", that have been carried forward pursuant to paragraph (e) of this section; or (ii) the total dollar amount by which increased costs of the covered product or products of the type "i" to the period "t" have been over-recovered in sales of that product through the period "t", that must be subtracted pursuant to paragraph (e) of this section.

Where:

$J_i{}^i$ = The total dollar amount of increased product costs attributable to the covered product or products of the type "i" from August 1, 1973 to the period "t".

$K_i{}^i$ = The total dollar amount of increased product costs attributable to the covered product or products of the type "i" and recovered by sales through the period "t" by adjusting the May 15, 1973 selling prices pursuant to the provisions of this subpart.

$L_i{}^i$ = The total dollar amount of non-product costs attributable to includable amounts of commissions incurred during the period "t" beginning with June 1974 with respect to sales through consignee-agents of the covered product or products of the type "i". The includable amount of commission incurred with respect to each item sold through each consignee-agent is the dollar amount per unit of volume by which the commission in the period "t" exceeds the commission in effect on May 15, 1973, provided that the includable amount shall be an amount reasonably intended to cover increased non-product costs of the consignee-agent, and that it shall not exceed the amount of the non-product cost price increase that would be permitted if the consignee-agent took title to the product it distributes and were a seller subject to § 212.93(b) of this part.

And where:

$H_i{}^u$ = Either (A) the portion, if any, of the total dollar amount available in the period "u" for inclusion in price adjustments to general refinery products which pursuant to paragraph (c)(1)(iv) of this section the refiner elects to include in prices of gasoline for the period "u" (in which case $H_i{}^u$ shall be positive), or (B) the portion, if any, of the total dollar amount available in the period "u" for inclusion in price adjustments to No. 2 oils which pursuant to paragraph (c)(1)(iv) of this section the refiner elects to include in the price of gasoline for the period "u" (in which case $H_i{}^u$ shall be negative for No. 2 oils and positive for gasoline).

H^u = The portion, if any, of the dollar amounts available in the period "u" for inclusion in price adjustments to general refinery products which pursuant to paragraph (c)(1)(iv) of this section the refiner elects to include in calculating the base prices of gasoline for the period "u".

The type of covered product or products is referenced by the subscript i:

i = 1 represents No. 2 oils.

i = 2 represents gasoline.

i = 3 represents all general refinery products.

The time period for measurement is referenced in the superscript; where:

o = The month of May 1973.

t = The month of measurement (the month of measurement is the month preceding the current month).

u = The current month. Quantities calculated for the current month will be estimates which should be based on the best available data.

* * * * *

(e) *Carryover of costs*—(1) *Computation of amounts carried over*—(i) *For No. 2 oils and general refinery products*—(A) If in any month beginning with October 1973 a firm charges prices for No. 2 oils or for general refinery products that result in the recoupment of less than the total dollar amount of increased product costs calculated for that covered product pursuant to the general formula and allowable under paragraphs (c)(1) and (c)(2) of this section, and if that unrecouped amount of increased product costs is not used to increase May 15, 1973 selling prices of gasoline pursuant to paragraph (c)(1)(iv) of this section, that unrecouped amount of increased product costs may be added to the May 15, 1973 selling prices to compute the base prices for that covered product for a subsequent month.

(B) If in any month beginning with October 1973 a firm charges prices for No. 2 oils or for general refinery products that result in the recoupment of more than the total dollar amount of increased product costs calculated for that covered product pursuant to the general formula and allowable under paragraphs (c)(1) and (c)(2) of this section, the excess revenues received must be subtracted from the May 15, 1973 selling prices to compute base prices for that covered product in a subsequent month.

(ii) *For gasoline.* (A) If in any month beginning with October 1973 a firm charges prices for gasoline that result in the recoupment of less than the total dollar amount of increased product costs calculated for gasoline pursuant to the general formula and allowable under paragraphs (c)(1)(i), (c)(1)(iv), and (c)(2)(i) of this section, that unrecouped amount of increased product costs may be added to the May 15, 1973 selling prices to compute the base prices for gasoline for a subsequent month.

(B) If in any month beginning with October 1973 a firm charges prices for gasoline that result in the recoupment of more than the total dollar amount of increased product costs calculated for gasoline pursuant to the general formula and allowable under paragraphs (c)(1)(i), (c)(1)(iv), and (c)(2)(i) of this section, the excess revenues received must be subtracted from the May 15, 1973 selling prices to compute base prices for gasoline in a subsequent month.

(2) *Equal application among classes of purchaser.* With respect to each covered product other than crude oil, when a firm calculates the amount of increased product cost not recouped, which may be added to May 15, 1973 selling prices to compute base prices in a subsequent month, it shall calculate its revenues as though the greatest amount of increased product costs actually added to any May 15, 1973 selling price of that covered product and included in the price charged to any class of purchaser, had been added, in the same amount, to the May 15, 1973 selling prices of such product and included in the price charged to each class of purchaser; except that, where an equal amount of increased product cost is not included in the price charged to a purchaser because of a price term of a written contract covering the sale of such product which was entered into on or before September 1, 1974, that portion of the increased product costs not included in the price charged to such a purchaser need not be included in the calculation of revenues.

(3) *Reallocation of increased product costs.* The total amount allowable under this paragraph (e) for No. 2 oils and general refinery products may not include any amount represented by the symbol "H" in the formulae in paragraph (c)(2) of this section that the refiner has elected to include in a prior month in the calculation of the maximum permissible amount that may be used to adjust base prices pursuant to paragraph (c)(1)(iv) of this section.

(4) *Limitation on use of amounts carried over.* Notwithstanding the above provisions, the amount of unrecouped increased product costs calculated under the "$G_i{}^i$" factor of the general formulae of paragraph (c)(2) of this section and carried forward pursuant to this paragraph (e) that may be used to compute base prices for the covered product or products of the type "i", other than gasoline, in the current month shall be limited to not more than:

(i) An amount that when added to the increased product costs for the month of measurement, will provide for the same amount of increased product costs to be included in selling prices for the current month of the covered product or products of the type "i" as was included in the selling prices for the preceding month on a weighted average per unit basis, plus

(ii) An amount that is not more than 10 percent of the amount of unrecouped increased product costs calculated under the "$G_i{}^i$" factor of the general formulae of paragraph (c)(2) of this section and carried forward pursuant to this paragraph (e), as of October 31, 1974, or as of the end of any month thereafter.

(5) *Unrecouped increased non-product costs.* Increased non-product costs calculated pursuant to § 212.87 for the month of measurement that are not recouped in the current month (the month immediately succeeding the month of measurement) may not be carried forward for use in computing allowable prices in excess of base prices in any subsequent month. If the allowable prices in excess of base prices charged in a current month result in the recoupment of more than the total amount of increased non-product costs for the month of measurement (the month immediately preceding the current month), the amount of such over-recoupment shall be subtracted from the amount of increased product costs that would otherwise be available in the subsequent month for allocation to base prices of the product or products with respect to which the overrecoupment of increased non-product costs occurred.

* * * * *

7. Section 212.87 is amended to revise § 212.87(b)(1), to renumber the present § 212.87(c)(1) as § 212.87(c)(1)(i), and to add a new § 212.87(c)(1)(ii) to read as follows:

§ 212.87 Increased non-product costs.

* * * * *

(b) *General definition.* (1) Increased non-product costs are, for each month of measurement, the sum of refinery fuel cost increase, the labor cost increase, the additive cost increase, the marketing cost increase,

V 40 15 JAN 22 75 XUM

and the other allowed non-product cost increases, (as defined in this section) multiplied by

$$\left(\frac{V_i{}^u}{V^u}\right),$$

where:

where:

V^u=The total volume of all covered products (other than propane, which may be included only to the extent that it was refined by the refiner from crude oil) and all products refined from crude oil other than covered products estimated to be sold in the period "u".

$V_i{}^u$=The total volume of a specific covered product or products of the type "i" (other than propane, which may be included only to the extent that it was refined by the refiner from crude oil sold during the month "u") estimated to be sold in the period "u".

. . . . .

(c) *Defined categories of non-product costs*—(1) *Refinery fuel cost increase.*

* * *

(ii) Refiners shall maintain records of the volume and cost of covered products purchased or landed that are consumed as refinery fuel.

. . . . .

Section 212.93 is amended by revising paragraph (g) to read as follows:

§ 212.93 Price rule.

. . . . .

(g) *Special rule on addition to May 15, 1973 prices of unrecouped increased costs of a product in a subsequent month.* For covered products other than gasoline, the amount of unrecouped increased product costs calculated and carried forward under paragraph (e) of this section which may be added to the May 15, 1973, selling prices of that product shall be limited to an amount which is not more than:

(i) An amount which, when added to May 15, 1973 selling prices, will provide for the same selling prices for that product in the current month as prevailed at the close of the preceding month, plus

(ii) An amount which, based on estimated sales volumes for each product, will not result in the application to May 15, 1973 selling prices of more than 10 percent of the amount of unrecouped increased costs of product calculated and carried forward under paragraph (e) of this section, as of October 31, 1974, or as of the end of any month thereafter.

. . . . .

9. Section 212.94 is amended by revising paragraph (c) to read as follows:

§ 212.94 Allocated crude pricing.

. . . . .

(c) *Calculations.* For the purpose of calculating the weighted average price of all crude oil delivered to a refiner-seller during each month, a refiner-seller shall use, for domestic crude oil, the delivered cost of all domestic crude petroleum at the point of purchase, plus any gathering or trucking allowance, pipeline tariffs, water transportation costs, terminalling costs and exchange differentials paid to deliver such crude oil to the refiner-seller's refineries; and, for imported crude oil, the landed cost (as defined in § 212.83) plus any pipeline tariffs, water transportation costs, terminalling costs, exchange differentials, insurance, and taxes paid to deliver such crude oil to the refiner-seller's refineries for allocating to base prices of the covered product or products with respect to which the over-recoupment of increased non-product costs occurred.

. . . . .

[FR Doc.75-2038 Filed 1-17-75;4:27 pm]

FEDERAL RESERVE SYSTEM

[12 CFR Part 261]

RULES REGARDING AVAILABILITY OF INFORMATION

Proposed Fee Schedule

Pursuant to its authority under section (a)(4)(a) of the Freedom of Information Act (5 U.S.C. § 552), the Board of Governors proposes to amend § 261.4(d) of its rules regarding availability of information. The purpose of the proposed amendments is to specify a uniform schedule of fees applicable to all constituent units of the Board.

The present schedule of fees for services performed in response to requests for records under the Freedom of Information Act appears at section 261.4(d) of Part 261 of Title 12 of the Code of Federal Regulations.

The proposed amendments will set the cost of the duplication of available information at 10 cents per standard page. The cost for search time will be $10 per hour. Furthermore, the charge for the retrieval and production of information through computer and other information program systems will not exceed the direct and reasonable costs of such services. Detailed schedules of such costs will be available upon request from the Secretary of the Board. These detailed schedules are not included in this notice because of their detailed nature.

Finally, any or all of the above charges may be reduced or waived where the Secretary of the Board finds that the public interest will be benefited.

To aid in the consideration of this matter by the Board, interested persons are invited to submit relevant data, views, comments, or arguments. Any such material should be submitted in writing to the Secretary, Board of Govenors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 13, 1975.

The proposed amendment to the Board's rules regarding availability of information (12 CFR 261(d)) would read as follows:

§ 261.4 Records available to the public upon request.

. . . . .

(d) Obtaining access to records. Records of the Board subject to this section are available for inspection and copying during regular business hours at the offices of the Board of Governors of the Federal Reserve System, Federal Reserve Building, 20th and Constitution Avenue, Washington, D.C. 20551, or, in the case of records containing information required to be disclosed under section 12 of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78), at the offices of the Federal Deposit Insurance Corporation or at any Federal Reserve Bank. Every request for access to records of the Board, other than those containing information required under section 12 of the Securities Exchange Act, shall be submitted in writing to the Secretary of the Board, shall state the name and address of the person requesting access to such records, and shall describe such records in a manner reasonably sufficient to permit their identification without undue difficulty. A person requesting access to or copies of particular records shall pay the cost sof searching and copying such records at the rate of $10 per hour for searching and 10 cents per standard page for copying. With respect to information obtainable only by processing through a computer, or other information systems program, a person requesting such information shall pay a fee not to exceed the direct and reasonable cost of retrieval and production of the information requested. Detailed schedules of such charges are available upon request from the Secretary of the Board. Documents may be furnished without charge or at a reduced charge where the Secretary of the Board or such person as he may designate determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

. . . . .

By order of the Board of Governors, January 20, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

[41 CFR Part 105-61]

FEES FOR REPRODUCTION SERVICES: LOCATION OF RECORDS AND HOURS OF USE

Notice of Proposed Rulemaking

Recent amendments to the Freedom of Information Act (5 U.S.C. 552) require the publication of a uniform schedule of fees. This proposed schedule will be published in Subpart 105-61.52. It is also proposed to renumber, reorganize, and update Subpart 105-61.51—Location of Records and Hours of Use.

Interested persons may participate in the proposed rulemaking by submitting written data, views, or arguments in duplicate to the General Services Administration (NAPA), Washington, DC 20408. Comments received before February 19, 1975, will be considered before final action is taken on this proposal.

Copies of all written comments received will be available for examination by interested persons in the Central Research Room, National Archives Building, 8th and Pennsylvania Avenue, Washington, DC.

Dated: January 17, 1975.

JAMES B. RHOADS,
Archivist of the United States.

It is proposed to amend Chapter 105 of Title 41 of the Code of Federal Regulations, as follows:

PART 105-61—PUBLIC USE OF RECORDS, DONATED HISTORICAL MATERIALS, AND FACILITIES IN THE NATIONAL ARCHIVES AND RECORDS SERVICE

The table of contents for Part 105-61 is amended by adding or revising the following entries:

Subpart 105-61.4—105-61.50 (Reserved)

Subpart 105-61.51—Location of Records and Hours of Use

105-61.5100 Scope of subpart.
105-61.5101 Location of records and hours of use.
105-61.5101-1 National Archives Building.
105-61.5101-2 [Reserved]
105-61.5101-3 Presidential libraries.
105-61.5101-4 Washington National Records Center.
105-61.5101-5 National Personnel Records Center.
105-61.5101-6 Federal records centers.
105-61.5101-7 Federal archives and records centers.

Subpart 105-61.52 Fees

105-61.5201 Applicability.
105-61.5202 Exclusions.
105-61.5203 Color reproductions.
105-61.5204 Copy negatives.
105-61.5205 Mail orders.
105-61.5206 Fee schedule.
105-61.5207 Payment of fees.
105-61.5208 Effective date.

Subpart 105-61.48 is redesignated as Subpart 105-61.51 and revised as follows:

Subpart 105-61.51—Location of Records and Hours of Use

§ 105-61.5100 Scope of subpart.

This subpart illustrates exhibits previously referred to in this part.

§ 105-61.5101 Location of records and hours of use.

§ 105-61.5101-1 National Archives Building.

The National Archives Building, Eighth and Pennsylvania Avenue, NW., Washington, DC 20408. Hours: For the Central Research Room and Microfilm Research Room, 8:45 a.m. to 10 p.m., Monday through Friday, and 8:45 a.m. to 5:15 p.m. on Saturday. For other research rooms, 8:45 a.m. to 5 p.m., Monday through Friday. Records to be used on Friday after 5 p.m. or on Saturday must be requested by 3 p.m. Friday. Records to be used after 5 p.m., Monday through Thursday, must be requested by 4 p.m. of the day on which they are used.

§ 105-61.5101-2 [Reserved]

§ 105-61.5101-3 Presidential libraries.

(a) Herbert Hoover Library, South Downey Street, West Branch, IA 52358. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(b) Franklin D. Roosevelt Library, Albany Post Road, Hyde Park, NY 12538. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(c) Harry S. Truman Library, Highway 24 at Delaware Street, Independence, MO 64050. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(d) Dwight D. Eisenhower Library, South East Fourth Street, Abilene, KS 67410. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(e) John F. Kennedy Library, 380 Trapelo Road, Waltham, MA 02154. Hours: 8:30 a.m. to 5 p.m., Monday through Friday.

(f) Lyndon B. Johnson Library, 2313 Red River, Austin, TX 78705. Hours: 9 a.m. to 5 p.m., Monday through Friday.

§ 105-61.5101-4 Washington National Records Center.

Washington National Records Center, 4205 Suitland Road, Suitland, MD. Mailing address: General Services Administration, Washington National Records Center, Washington, DC 20409. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

§ 105-61.5101-5 National Personnel Records Center.

(a) National Personnel Records Center (military personnel records), 9700 Page Boulevard, St. Louis, MO 63132. Hours: 7:30 a.m. to 4 p.m., Monday through Friday.

(b) National Personnel Records Center (civilian personnel records), 111 Winnebago Street, St. Louis, MO 63118. Hours: 7:30 a.m. to 4 p.m., Monday through Friday.

§ 105-61.5101-6 Federal records centers.

(a) Naval Supply Depot, Building 308, Mechanicsburg, PA 17055. Hours: 7:30 a.m. to 4:30 p.m., Monday through Friday.

(b) 2400 West Dorothy Lane, Dayton, OH 45439. Hours: 7:30 a.m. to 4 p.m., Monday through Friday.

§ 105-61.5101-7 Federal archives and records centers.

(a) 380 Trapelo Road, Waltham, MA 02154. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(b) Military Ocean Terminal, Bldg. 22, Bayonne, NJ 07002. Hours: 8:30 a.m. to 5 p.m., Monday through Friday.

(c) 5000 Wissahickon Avenue, Philadelphia, PA 19144. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(d) 1557 St. Joseph Avenue, East Point, GA 30044. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(e) 7358 South Pulaski Road, Chicago, IL 60652. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(f) 2306 East Bannister Road, Kansas City, MO 64131. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(g) 4900 Hemphill Street, Fort Worth, TX 78115. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(h) Building 48, Denver Federal Center, Denver, CO 80225. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(i) 1000 Commodore Drive, San Bruno, CA 94066. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(j) 24000 Avila Road, Laguna Niguel, CA 92677. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(k) 6125 Sand Point Way, Seattle, WA 98115. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

New Subpart 105-61.52 is added as follows:

Subpart 105-61.52—Fees

§ 105-61.5201 Applicability.

(a) Except as otherwise provided in this section, fees for the reproduction of archives, donated historical materials, and records filed with the Office of the Federal Register are as set forth in § 105-61.5206.

(b) The fees set forth in § 105-61.5206 apply to reproductions of FRC records, except when NARS and the agency that transferred the records have agreed to apply that agency's fee schedule.

(c) The following categories are excluded from the fees set forth in § 105-61.5206.

(1) National Archives publications, including microfilm publications. Prices of publications are available from the Publications Sales Branch (NEPS), National Archives (GSA), Washington, DC 20408.

(2) Audiovisual materials sold by the National Audiovisual Center. Prices for these materials are available from the Distribution Branch (NACD), National Audiovisual Center (GSA), Washington, DC 20409.

(3) Historical photographs and sound recordings that are sold at prices listed in the General Information and Select Audiovisual Records leaflets available from the Publications Sales Branch (NEPS), National Archives (GSA), Washington, DC 20408.

(4) Census schedules (1790-1890). Reproduction of a census entry (i.e., a family unit or household)—$2.

(5) Military service files and pension files more than 75 years old. Reproduction of a military service file (or selected documents from the file if voluminous)—$2.

(6) Passenger lists more than 75 years old—$2.

(7) Orders requiring additional expense to meet unusual customer specifications such as the use of special techniques to make a photographic copy more legible than the original document, or unusual format or background requirement for negative microfilm. Fees for these orders are computed for each order.

V40N15 JAN22 75 XUM

§ 105–61.5202 Exclusions.

No fee is charged for reproduction or authentication in the following instances:

(a) Documents furnished to other elements of the Federal Government. However, a fee may be charged if the appropriate director determines that the service cannot be performed without reimbursement.

(b) When the purpose is to disseminate information about the activities of GSA to the general public through press, radio, television, and newsreel representatives;

(c) When the reproduction is to furnish the donor of a document or other gift with a copy of the original;

(d) When the reproduction is for individuals or associations having official voluntary or cooperative relations with GSA in its work;

(e) When the reproduction is for a foreign, State, or local government or an international agency and furnishing it without charge is an appropriate courtesy;

(f) When furnishing the service free conforms to generally established business custom, such as furnishing personal reference data to prospective employers of former Government employees;

(g) When the reproduction of not more than one copy of the document is required to obtain from the Government financial benefits to which the requesting person may be entitled (e.g., veterans or their dependents, employees with workmen's compensation claims, or persons insured by the Government);

(h) When the reproduction of not more than one copy of the transcript of a hearing or other formal proceeding involving security requirements for Federal employment is requested by a person directly concerned in the hearing or proceeding; and

(i) When the reproduction of not more than one copy of a document is for a person who has been required to furnish a personal document (e.g., birth certificate and retention by an agency of the Government).

§ 105–61.5203 Color reproductions.

Color reproductions are furnished to the public and the Government only on a fee basis.

§ 105–61.5204 Copy negatives.

Requests for photographs of materials for which no copy negative is on file are handled as follows:

(a) The cost of the negative shall be charged to the customer; except in cases where NARS wishes to retain the negative for its own use.

(b) When no fee is charged the negative becomes the property of NARS. When a fee is charged the negative becomes the property of the customer.

§ 105–61.5205 Mail orders.

The following fees apply only when reproductions are ordered by mail:

(a) Except for those processes showing a higher minimum in section 105–61.5206, a minimum fee of $2 per order is charged for reproductions ordered by mail.

(b) No additional fee is charged for postage and handling when reproductions are sent by surface mail at the lowest rate to domestic addresses.

(c) When a customer requests that reproductions be sent to a foreign address or requests airmail or priority shipment of special postal service to domestic addresses, the order is subject to a shipping fee in addition to the cost of the reproductions. The shipping fee is computed as a percentage of the cost of the items ordered plus a special shipping or postal service fee using the schedule in paragraph (d) or (e). However, no additional charge is made when the special shipping fee is less than $1.

(d) The following special shipping fees are computed as a percentage of the fee for the item ordered:

Type of reproduction	Shipping fee: Foreign surface or expedited domestic mail or freight or express	Shipping fee: Foreign airmail
	Percent	*Percent*
Electrostat	5	10
Photostat	10	30
Diazo	10	20
Copy negative	1	2
Slides (2" x 2")	2	4
Photographic prints (larger than 8" x 10")	10	20
Sound tapes	5	10
Motion pictures	3	6
Microfilm	3	6
Photographic prints (8" x 10" or smaller)	4	8

(e) The following fees for special postal service apply when the service is requested by the customer:

Insured mail	$0.40
Certified mail	.30
Return receipt	.15
Registered mail	.95

When packages are sent registered mail, both the shipping fee and the special postal service fee are charged since the U.S. Postal Service charges the airmail rate for registered mail.

§ 105–61.5206 Fee schedule.

(a) Authentication		$2.00
(b) Still photography (minimum order, $2):		
(1) Copy negatives (black and white):

1,800 feet (45 min)	9.55
2,400 (60 min 10½ inch reel)	14.25
(g) Machine-readable records:	
Tape to tape (per reel)	75.00
Card to card (per card; minimum order $10)	.02
Computer processing (per hour; minimum order $25)	200.00

	Regular	*Overtime*
(h) Technical services:		
(1) Projectionist (per hour)	$11.25	$15.50
(2) Photographer or other (per hour)	10.00	13.05

(1) *Unlisted processes*

Fees for reproduction work indicated in this section 105 or for processes not listed are computed upon request.

§ 105–61.5207 Payment of fees.

Fees may be paid in cash or by check or money order made payable to the National Archives Trust Fund. Remittances from outside the United States must be made by international money order or check drawn in U.S. dollars on a bank in the United States or one of its territories or possessions. Fees must be paid in advance except when the appropriate director approves a request for handling them on an account receivable basis. Accounts more than 90 days overdue are subject to late charges of 12 percent per year. Purchasers with special billing requirements must state them when placing orders and must complete special forms for NARS approval. When special billing forms are not submitted with the order or are completed by NARS there is an added $5 service charge.

§ 105–61.5208 Effective date.

The fees in § 105–61.5206 are effective beginning February 19, 1975, and ending on June 30, 1975. Orders received after June 30, 1975, will be subject to the fees in effect at that time.

[FR Doc.75–2150 Filed 1–21–75;8:45 am]

OFFICE OF MANAGEMENT AND BUDGET

[5 CFR Part 1302]

FREEDOM OF INFORMATION FEES

Notice of Proposed Rule Making

The Office of Management and Budget is considering publishing in Title 5, Chapter III of the Code of Federal Regulations the following regulations concerning the schedule of fees and method of payment for services rendered under the Freedom of Information Act, as amended (5 U.S.C. 552).

Interested persons may comment by submitting such written data, views, or arguments as they may desire. Communications should be submitted to the Assistant to the Director for Administration, Room 243, Executive Office Building, Office of Management and Budget, Washington, D.C. 20503. All communications received on or before February 16, 1975, will be considered before action is taken on the proposed regulations. No public hearing will be held. The proposal contained in this notice may be changed in the light of the comments received.

Comments received will be available for examination by contacting the Assistant to the Director for Administration at the address cited above.

The present schedule of fees for services performed in response to requests for records under the Freedom of Information Act was published in Volume 36, No. 26 of the FEDERAL REGISTER on February 6, 1971.

Section 1302.1 is proposed to be amended as follows.

§ 1302.1 Schedule of fees and method of payment for services rendered.

(a) Fees schedule for the search and reproduction of information available under the Freedom of Information Act (5 U.S.C. 552), as amended.

(1) Search for records—$5.00 per hour when the search is conducted by a clerical employee. $8.00 per hour when the search is conducted by a professional employee. No charge for searches of less than 1 hour.

(2) Duplication of records—Records will be duplicated at a rate of $.25 per page for all copying of 4 pages or more. There is no charge for duplicating 3 or less pages.

(3) Other—When no specific fee has been established for a service, or the request for a service does not fall under one of the above categories due to the amount or type thereof, the Assistant to the Director for Administration is authorized to establish an appropriate fee based on "direct costs" as provided in the Freedom of Information Act and in accordance with Office of Management and Budget Circular No. A–25. Examples of services covered by this provision include searches involving computer time or special travel, transportation, or communications costs.

(b) If records requested under this part are stored elsewhere than the headquarters of the Office of Management and Budget at Washington, D.C., the special costs of returning such records to the headquarters for review will be added to the search costs. Search costs are due and payable even if the record which was requested cannot be located after all reasonable efforts have been made, or if the Office determines that a record which has been requested, but which is exempt from disclosure under this part, is to be withheld.

(c) Where it is anticipated that the fees chargeable under this section will amount to more than $25, and the requester has not indicated in advance his willingness to pay fees as high as are anticipated, the requester shall be promptly notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In instances where the estimated fees will greatly exceed $25.00, an advance deposit may be required. The notice or request for an advance deposit shall extend an offer to the requester to consult with knowledgeable Office personnel in an attempt to reformulate the request in a manner which will reduce the fees and meet the needs of the requester. Dispatch of such a notice or request shall suspend the running of the period for response by the Office until a reply is received from the requester.

(d) Fees must be paid in full prior to issuance of requested copies. In the event the requester is in arrears for previous requests for which the Office was unable to find or provide the requested information (see b. above), copies of records will not be provided for any subsequent request until the arrears have been paid in full.

(e) Remittances shall be in the form either of a personal check or bank draft drawn on a bank in the United States, or a postal money order. Remittances shall be made payable to the order of the Treasurer of the United States and mailed to the Assistant to the Director for Administration, Office of Management and Budget, Washington, D.C. 20503.

(f) A receipt for fees paid will be given only upon request. Refund of fees paid for services actually rendered will not be made.

(g) The Assistant to the Director for Administration, or an officer designated by the Assistant to the Director for Administration may in accordance with the Freedom of Information Act, as amended, waive all or part of any fee provided for in this section when the Assistant to the Director for Administration or the designated officer deems it to be in either the Office's interest or in the general public's interest.

(5 U.S.C. 552 as amended by Pub. L. 93–502.)

For the Director of the Office of Management and Budget.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

JANUARY 17, 1975.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Legal Division Order No. 3]

ASSISTANT GENERAL COUNSELS

Delegation of Authority

DECEMBER 19, 1974.

Under the authority of 26 U.S.C. 7801 and 31 U.S.C. 1009, and Treasury Department Orders No. 120, No. 160 (Revised), No. 172, No. 175, and No. 190 (Revised), I hereby delegate to the Assistant General Counsels, other than the Assistant General Counsel who is the Chief Counsel of the Internal Revenue Service, the authority to perform the following functions, subject to the review prescribed by Legal Division Order No. 1:

1. To provide legal advice to the Assistant Secretaries and other officials in the Office of the Secretary to whom they are to provide legal assistance under Legal Division Order No. 1.

2. To supervise the legal activities of Chief Counsels and Legal Counsels and the legal functions of the Director of Practice, as designated in Legal Division Order No. 1.

3. To receive service of any subpoena, summons, or other judical process directed to an officer or employee of the Treasury Department in his official capacity in any litigation.

4. To originally classify national security information or material as CONFIDENTIAL and to downgrade and declassify such information or material and to classify official information under the legends LIMITED OFFICIAL USE or OFFICIAL USE ONLY or under existing legends recognized by that Order and to declassify such information.

In the performance of the foregoing responsibilities an Assistant General Counsel shall be responsible for the preparation of all necessary documents in accordance with relevant Legal Division Directives, but shall refer to another Assistant General Counsel, as appropriate, for guidance, action, or review matters of legislation, litigation, or administrative procedure within the special responsibility of that other Assistant General Counsel.

Each Assistant General Counsel may recommend personnel actions with respect to attorneys operating under his supervision in accordance with policies promulgated by the General Counsel and, with respect to nonattorney employees under his jurisdiction, in accordance with Office of the Secretary personnel policies, and may recommend the appointment of Deputy Assistant General Counsels with defined responsibilities. Each Assistant General Counsel shall be responsible for the maintenance by his legal staff of appropriate standards of practice.

An Assistant General Counsel may be designated by the General Counsel to serve as Acting Deputy General Counsel, Deputy General Counsel, or as Acting General Counsel, and may be assigned work within the area of another Assistant General Counsel as necessary.

General Counsel Orders No. 2 and No. 5 (Revision 2) are superseded by this Order.

Effective Date: January 1, 1975.

[SEAL] RICHARD R. ALBRECHT,
General Counsel.

[FR Doc.75-2017 Filed 1-21-75;8:45 am]

[Legal Division Order No. 4]

ASSISTANT GENERAL COUNSEL AND CHIEF COUNSEL, INTERNAL REVENUE SERVICE

Delegation of Authority

DECEMBER 19, 1974.

Under the authority of 26 U.S.C. 7801 and Treasury Department Orders No. 120, No. 125, No. 172, No. 175, No. 190 (Revised), and No. 231, and as set forth below, I hereby redelegate to the Chief Counsel for the Internal Revenue Service, subject to my review as occasion may require, the authority delegated to him by General Counsel Order No. 34, which was approved by the Secretary of the Treasury on December 29, 1964, and confirmed by Treasury Department Order 150-64 of December 29, 1964, and which, as modified by Supplement 1 (Revised) and Supplement 2, reads as follows:

1. The Chief Counsel shall be the legal advisor to the Commissioner of Internal Revenue and his officers and employees. In performing his assigned functions, the Chief Counsel shall consult with and assist the Commissioner of Internal Revenue with a view to furthering the policies and programs of the Treasury Department and the Internal Revenue Service. Also, where appropriate, the Chief Counsel will furnish assistance to the Office of the Secretary. It is understood that any legal matter involving Treasury policy about which the Commissioner disagrees with the advice given him by the Chief Counsel will be submitted by the Commissioner to the Secretary or the Deputy Secretary for resolution.

2. To furnish legal opinions, and to assist the Commissioner in the preparation and review of rulings, closing agreements, memorandums of technical advice, and revenue rulings and procedures and other proposed publications or releases, with respect to laws affecting the Internal Revenue Service.

3. To prepare, review, or assist in the preparation of proposed legislation, treaties, regulations, and Executive Orders relating to laws affecting the Internal Revenue Service.

4. To represent the Commissioner of Internal Revenue in cases pending in the Tax Court of the United States as prescribed in section 7452 of the Internal Revenue Code of 1954, and in such cases to exercise the function of decision whether and in what manner to defend, or to prosecute a claim, or to settle, or to abandon a claim or defense therein, subject to Chief Counsel Order 1958-5 (Commissioner Delegation Order No. 60); to acknowledge in the name of the Commissioner the receipt of Tax Court subpoenas served upon the Commissioner of Internal Revenue; to determine whether, and the extent to which, officers and employees of the Internal Revenue Service shall be permitted to disclose Internal Revenue records and information in response to a subpoena or other order of the Tax Court; to determine whether to acquiesce in the decisions of said Court; to file petitions for review of Tax Court decisions; and to enter into written stipulations of venue for review of Tax Court decisions by a United States Court of Appeals.

5. To determine what civil actions should be brought in the courts under the laws affecting the Internal Revenue Service and to prepare recommendations to the Department of Justice for the commencement of such actions and to authorize or sanction commencement of such actions.

6. To determine whether referred income and wagering tax cases should be prosecuted in the criminal courts, to make appropriate recommendations to the Department of Justice in the prosecution of such cases and to make a like determination and recommendation on any other case referred to the Chief Counsel by the Commissioner of Internal Revenue.

7. To determine how actions brought in the courts against the United States or officers or employees thereof should be conducted and to make recommendations to the Department of Justice with respect thereto.

8. To determine which court decisions should be appealed or further reviewed and to make recommendations to the Department of Justice with respect thereto.

9. To cooperate with and, at the request of the Department of Justice or of United States Attorneys, to assist in conducting litigation in the courts, both civil and criminal, and in preparing briefs and arguments with respect thereto.

10. To accept or reject, in my name, railroad reorganization plans, corporate reorganization plans, and real property arrangements (sections 77(e), 199, and 455 of the Bankruptcy Act), in cases wherein the claims of the United States consist solely of Internal Revenue taxes.

11. To review all cases within the provisions of section 6405 of the Internal Revenue Code of 1954 and to prepare and sign the reports required by that section to be submitted to the Joint Committee on Internal Revenue Taxation.

12. To perform the functions prescribed for the General Counsel by section 7122 of the Internal Revenue Code of 1954 and by section 3469 of the Revised Statutes (31 U.S.C. 194), with respect to compromise matters arising in the administration of the Internal Revenue laws.

13. To supervise and evaluate the work of all officers and employees in the Office of the Chief Counsel, and to take the necessary action in all personnel matters pertaining thereto, including those for the appointment, classification, promotion, demotion, reassignment, transfer or separation of such officers and employees, with the exceptions of appointments of attorneys above GS-11, and of promotions of attorneys to positions above GS-14.

14. To be responsible to me for the establishment and maintenance of appropriate standards of practice and for the professional competence, recruitment and evaluation of the work of the employees of his office.

15. Subject to my approval, to establish in the Office of the Chief Counsel such divisions and subdivisions as he may deem advisable and to designate the titles and duties of officers and employees in the Office, except that my approval shall not be required to designate the titles and duties of such officers and employees below the grade GS-16 level.

16. To redelegate any of the authority delegated in this Order to any officer or employee in the Office of the Chief Counsel, and to authorize further redelegation of such authority.

I hereby further delegate to the Chief Counsel, Internal Revenue Service, the following authority delegated to the Assistant General Counsels by General Counsel Orders No. 2 of March 27, 1953, and No. 5 (Revision 2) of November 13, 1972, and to the Chief Counsel for the Internal Revenue Service by General Counsel Order No. 34-1 of March 31, 1967, and Order No. 34-3 of November 15, 1974:

1. To receive service of any subpoena, summons, or other judicial process directed to an officer or employee of the Treasury Department in his official capacity in any litigation.

2. To originally classify national security information or material as CONFIDENTIAL and to downgrade and declassify such information or material and to classify official information under the legends LIMITED OFFICIAL USE or OFFICIAL USE ONLY or under existing legends recognized by that Order and to declassify such information.

3. To administer the oath of office required by 5 U.S.C. 3331 or any other oath required by law in connection with employment in the Federal service, and to redelegate this authority to any officer or employee in the Office of Chief Counsel, Internal Revenue Service.

4. To approve carry-over of annual leave in accordance with the requirements of Pub. L. 93-181, 5 U.S.C. 6304(d), and to redelegate this authority to his next subordinate management official at headquarters and to the Regional Counsels.

General Counsel Orders No. 8, No. 34, No. 34-1, and No. 34-3 are superseded by this Order. Order No. 34-2, delegating authority on economic stabilization functions, is obsolete as of December 31, 1974, and is revoked, effective on that date.

Effective Date: January 1, 1975.

[SEAL] RICHARD R. ALBRECHT,
General Counsel.

[Legal Division Order No. 6]

CHIEF COUNSELS FOR THE BUREAU OF ALCOHOL, TOBACCO AND FIREARMS AND FOR THE U.S. CUSTOMS SERVICE

Delegation of Authority

DECEMBER 19, 1974.

Under the authority of 26 U.S.C. 7801 and 31 U.S.C. 1009 and Treasury Department Orders No. 120, No. 125, No. 175, No. 190 (Revised), No. 221, and No. 231, I hereby delegate to the Chief Counsel for the Bureau of Alcohol, Tobacco and Firearms and to the Chief Counsel for the U.S. Customs Service the following authority, subject to the review prescribed herein and in Legal Division Order No. 1:

1. *Legal Advice.* (a) To serve as the legal advisor to the head of the bureau for which he is designated Chief Counsel and the officers and employees of that bureau. In fulfilling this function the Chief Counsel shall consult with and assist the head of the bureau and the officers and employees thereof with a view toward furthering the policies and programs of the Department of the Treasury.

(b) To furnish legal opinions and assist the head of the bureau and the officers and employees thereof in the preparation, review, and publication of rulings, memoranda of technical advice, and procedures with respect to the laws administered by the bureau.

(c) To prepare, review, or assist in the preparation of proposed legislation, regulations, proclamations, and executive orders relating to the laws which affect or are enforced by the bureau.

(d) To provide for the conduct of any administrative proceedings necessary in the administration of pertinent laws and regulations.

2. *Litigation.* (a) Subject to the limitations prescribed in (b) and such specific directions as the Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) may provide in specific cases or categories of cases:

(1) To determine what civil action should be brought in the courts under the laws affecting and administered by the bureau and to prepare recommendations to the Department of Justice for the commencement of such action and to authorize or sanction commencement of such actions.

(2) To make appropriate recommendations to the Department of Justice for the prosecution of cases referred to the Chief Counsel by an appropriate bureau officer.

(3) To determine how actions brought in the courts against the United States or officers or employees thereof should be conducted and make recommendations to the Department of Justice with respect thereto, pertaining to cases within the jurisdiction of the bureau.

(4) To make the initial determination as to which court decisions should be appealed or further reviewed and to prepare recommendations to the Department of Justice with respect thereto.

(5) To cooperate with the Department of Justice or the United States Attorneys, and at their request, assist in conducting litigation in the courts, both civil and criminal, and in preparing briefs and arguments with respect thereto.

(b) Notwithstanding the foregoing authority and excepting litigation in the U.S. Customs Court and the U.S. Court of Customs and Patent Appeals, correspondence with the Department of Justice shall be prepared for the signature of the Assistant General Counsel (EOTA) in the following circumstances:

(1) The litigation involves the merits of an action, ruling, or other decision made in the Office of the Secretary, or

(2) The decision of the case, in the judgment of the Chief Counsel, would affect the administration of a law or regulation by another bureau or office of the Department, or

(3) The litigation would establish a novel and significant precedent of law or policy, or

(4) The Department of Justice has requested the views of the bureau on a question of appeal, certiorari, settlement, compromise, or closing of litigation or claims.

3. *Compromise Authority.* To exercise the authority of the General Counsel to compromise a claim in favor of the United States under 31 U.S.C. 194 and 31 U.S.C. 952, as implemented by 31 CFR Part 5, and under any other specific authority provided in statutes applicable to the operations of the bureau; and only to the Chief Counsel, Bureau of Alcohol, Tobacco and Firearms, to perform the functions prescribed for the General Counsel by 26 U.S.C. 7122 with respect to matters arising under laws administered by the Bureau of Alcohol, Tobacco and Firearms.

4. *Personnel.* (a) To supervise and evaluate the work of all officers and employees of the Chief Counsel's office and to take necessary action in all personnel matters pertaining thereto, including the approval of the carry-over of annual leave under 5 U.S.C. 6304(d), in accord-

V40015 JAN22 75 XUM

ance with bureau or Legal Division directives, with the exception of (1) the appointment of attorneys above GS–11, (2) the promotion of attorneys to positions above GS–14, and (3) demotion or separation of attorneys.

(b) To be responsible to the General Counsel for the establishment and maintenance of appropriate standards of practice and for the professional competence, recruitment, and evaluation of the work of the attorneys in his office.

(c) To administer the oath of office required by 5 U.S.C. 3331 or any other oath required by law in connection with employment in the Federal service.

5. *Organization.* (a) Subject to approval of the General Counsel, to designate the titles and duties of officers and employees in the Chief Counsel's office and to establish in such office divisions and subdivisions and regions as may be advisable.

(b) Subject to approval of the General Counsel, to redelegate any of the authority delegated in this Order to any officer or employee and to authorize further delegation of such authority.

General Counsel Orders No. 46 and No. 47 are superseded by this Order.

Effective Date: January 1, 1975.

[SEAL] RICHARD R. ALBRECHT,
General Counsel.

[Legal Division Order No. 5]

CHIEF COUNSEL OF THE OFFICE OF THE COMPTROLLER OF THE CURRENCY

Delegation of Authority

DECEMBER 19, 1974.

Under the authority of 26 U.S.C. 7801 and 31 U.S.C. 1009, Treasury Department Circular No. 595, and Treasury Department Orders No. 120, No. 175, and No. 190 (Revised), I hereby delegate to the Chief Counsel of the Office of the Comptroller of the Currency the following authority, subject to my review as occasion may require:

1. *Legal Advice.* (a) To serve as the legal adviser to the Comptroller of the Currency and the officers and employees of the Comptroller's office.

(b) To furnish legal opinions and assist the Comptroller of the Currency and his officers and employees in the preparation, review, and publication of rulings, technical memoranda, procedures, charters, and other authorizations as required in the administration of the national banking laws.

(c) To prepare, review, or assist in the preparation of legislation, regulations, proclamations, and executive orders relating to the national banking laws.

(d) To provide for the conduct of any administrative proceedings necessary in the administration of the pertinent laws and regulations.

2. *Litigation.* To represent the Comptroller when he intervenes in bank merger suits brought by the Justice Department; to defend the office against lawsuits; and to assist the Justice Department in the development of cases and prosecution of possible criminal violations.

3. *Compromise Authority.* To exercise the authority of the General Counsel to compromise a claim in favor of the United States under 31 U.S.C. 194 and 31 U.S.C. 952, as implemented by 31 CFR Part 5, and under any other specific authority.

4. *Personnel.* (a) To supervise and evaluate the work of all officers and employees of the Chief Counsel's office and to take necessary action in all personnel matters pertaining thereto with the exception of appointments of attorneys above GS–11, and of promotion of attorneys to positions above GS–14.

(b) To be responsible to the General Counsel for the establishment and maintenance of appropriate standards of practice and for the professional competence, recruitment, and evaluation of the work of the employees in his bureau or office.

5. *Organization.* (a) Subject to approval of the General Counsel, to designate the titles and duties of officers and employees in the Chief Counsel's office and to establish in that office divisions and subdivisions and regions as may be advisable, except that such approval shall not be required to designate the title and duties of officers and employees below the GS–16 level.

(b) To redelegate any of the authority delegated in this Order to any officer or employee and to authorize further delegation of such authority.

Effective Date: January 1, 1975.

[Legal Division Order No. 7]

CHIEF COUNSELS FOR THE OFFICE OF FOREIGN ASSETS CONTROL, FOR THE BUREAU OF THE PUBLIC DEBT, AND FOR THE OFFICE OF REVENUE SHARING

Delegation of Authority

DECEMBER 19, 1974.

Under the authority of 26 U.S.C. 7801 and 31 U.S.C. 1009 and Treasury Department Orders No. 120, No. 175, and No. 190 (Revised), I hereby delegate to the Chief Counsel for the Office of Foreign Assets Control, the Chief Counsel for the Bureau of the Public Debt, and the Chief Counsel for the Office of Revenue Sharing the following authority, subject to the review prescribed herein and in Legal Division Order No. 1.

1. *Legal Advice.* (a) To serve as the legal adviser to the head of the bureau or office for which he is designated Chief Counsel and the officers and employees of that bureau or office. In fulfilling this function the Chief Counsel shall consult with and assist the head of the bureau or office and the officers and employees thereof with a view toward furthering the policies and programs of the Department of the Treasury.

(b) To furnish legal opinions and assist the head of the bureau or office and the officers and employees thereof in the preparation, review, and publication of rulings, interpretations, procedures, licenses, and other authorizations as required under the laws administered by such bureau or office.

(c) To prepare, review, or assist in the preparation of proposed legislation, regulations, proclamations, and executive orders relating to the laws which affect or are enforced by the bureau or office.

(d) To provide for the conduct of any administrative proceedings necessary in the administration of pertinent laws and regulations.

2. *Litigation.* (a) Subject to the limitations prescribed in (b) and such specific directions as the Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) may provide in specific cases or categories of cases:

(1) To determine what civil actions should be brought in the courts under the laws affecting and administered by the bureau or office and to prepare recommendations to the Department of Justice for the commencement of such action and to authorize or sanction commencement of such actions.

(2) To make appropriate recommendations to the Department of Justice for the prosecution of cases referred to the Chief Counsel by the head of the bureau or office.

(3) To determine how actions brought in the courts against the United States or officers or employees thereof should be conducted and make recommendations to the Department of Justice with respect thereto, pertaining to cases within the jurisdiction of the bureau or office.

(4) To make the initial determination as to which court decisions should be appealed or further reviewed and to prepare recommendations to the Department of Justice with respect thereto.

(5) To cooperate with the Department of Justice or the United States Attorneys, and at their request, assist in conducting litigation in the courts, both civil and criminal, and in preparing briefs and arguments with respect thereto.

(b) Notwithstanding the foregoing authority, correspondence with the Department of Justice shall be prepared for the signature of the Assistant General Counsel (EOTA) in the following circumstances:

(1) The litigation involves the merits of an action, ruling, or other decision made in the Office of the Secretary, or

(2) The decision of the case, in the judgment of the Chief Counsel, would affect the administration of a law or regulation by another bureau or office of the Department, or

(3) The litigation would establish a novel and significant precedent of law or policy, or

(4) The Department of Justice has requested the views of the bureau on a question of appeal, certiorari, settlement, compromise, or closing of litigation or claims.

3. *Compromise Authority.* To exercise the authority of the General Counsel to

compromise a claim in favor of the United States under 31 U.S.C. 194 and 31 U.S.C. 952, as implemented by 31 CFR Part 5, and under any other specific authority provided in statutes applicable to the operations of the bureau or office.

4. *Personnel.* (a) To supervise and evaluate the work of all officers and employees of the Chief Counsel's office and to take necessary action in all personnel matters pertaining thereto with the exception of (1) the appointment of attorneys, (2) the promotion of attorneys to positions above GS–12, and (3) demotion or separation of attorneys.

(b) To be responsible to the General Counsel for the establishment and maintenance of appropriate standards of practice and for the professional competence, recruitment and evaluation of the work of the attorneys in his office.

(c) To act under the appropriate personnel directives in conducting personnel actions with respect to employees other than attorneys.

5. *Organization.* (a) Subject to approval of the General Counsel, to designate the titles and duties of officers and employees in the Chief Counsel's office and to establish in such office divisions and subdivisions and regions as may be advisable.

(b) Subject to approval of the General Counsel, to redelegate any of the authority delegated in this Order to any officer or employee and to authorize further delegation of such authority.

Effective Date: January 1, 1975.

TUNERS (OF THE TYPE USED IN CONSUMER ELECTRONIC PRODUCTS) FROM JAPAN

Tentative Determination To Modify or Revoke Dumping Finding

A finding of dumping with respect to tuners (of the type used in consumer electronic products) from Japan was made in Treasury Decision 70–257 which was published in the FEDERAL REGISTER on December 12, 1970 (35 FR 18914).

After due investigation, it has been determined, tentatively, that tuners (of the type used in consumer electronic products) exported by Victor Company of Japan, Ltd. are not being, nor are likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.). The investigation indicated that no sales have been made at less than fair value by the above firm since the finding of dumping, and assurances have been given that future sales of such tuners to the United States will not be made at less than fair value.

Accordingly, notice is hereby given that the Department of the Treasury intends to modify the finding of dumping with respect to tuners (of the type used in consumer electronic products) from Japan to exclude the tuners sold by Victor Company of Japan, Ltd., from the finding.

In accordance with § 153.37, Customs Regulations (19 CFR 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street, NW., Washington, D.C. 20229, in time to be received by his office not later than February 3, 1975. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before February 21, 1975.

This notice is published pursuant to § 153.41(c) of the Customs Regulations (19 CFR 153.41(c)).

Dated: January 16, 1975.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of Treasury.

[Legal Division Order No. 2]

DEPUTY GENERAL COUNSEL

Delegation of Authority

DECEMBER 19, 1974.

Under the authority of 26 U.S.C. 7801 and 31 U.S.C. 1009, and Treasury Department Orders No. 120, No. 125, No. 175, and No. 190 (Revised), I hereby delegate to the Deputy General Counsel, in addition to the authority given to him as an Assistant General Counsel, and as my deputy under Treasury Department Orders No. 191 (Revised) and No. 215, the authority to perform the following functions, subject to my review as occasion may require:

1. To supervise the day-to-day operations of the Legal Division.

2. To assign legal problems referred at the General Counsel level to an Assistant General Counsel or to the Senior Counselor.

3. To act on personnel actions respecting attorneys in the Legal Division which are referred to the General Counsel, except actions respecting the Assistant General Counsels, the Chief Counsels, their deputies, the Legal Counsels, and the Director of Practice.

4. To represent the General Counsel in novel, significant, or disputed matters requiring contact with an agency outside the Department of the Treasury or involving a matter in dispute between bureaus or offices of the Department.

5. To administer the oath of office required by 5 U.S.C. 3331 or any other oath required by law in connection with employment in the Federal service.

6. To perform such other functions of the General Counsel as he may from time to time direct.

Effective Date: January 1, 1975.

- Chief, National Bank Examiners

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. I-9110]

IDAHO

Proposed Withdrawal and Reservation of Lands

JANUARY 15, 1975.

The Department of Agriculture has filed an application, Serial Number I-9110, for the withdrawal of lands described below from all location and entry under the mining laws but not the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for development of a ponderosa pine seed orchard in cooperation with other Federal, State and local agencies. The ultimate objective of the project will be to improve forest trees through development of superior seedling stock for reforestation.

On or before February 21, 1975, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal, may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 398, Federal Building, 550 W. Fort Street, P.O. Box 042, Boise, Idaho 83724.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources.

He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Department of Agriculture. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record. If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The lands involved in the application are:

BOISE MERIDIAN

PAYETTE NATIONAL FOREST

Lost Lake City Orchard

T. 19 N., R. 1 W.,
- Sec. 17, SW¼NW¼SW¼SW¼, NW¼SW¼SW¼SW¼, S½S½SW¼SW¼, S½SW¼SE¼SW¼;
- Sec. 18, S½NE¼SE¼SE¼, SE¼SE¼SE¼;
- Sec. 19, NE¼NE¼NE¼, E½NW¼NE¼NE¼, N½SE¼NE¼NE¼;
- Sec. 20, W½NE¼NE¼NW¼, W½NE¼NW¼, SE¼NE¼NW¼, NW¼NW¼, N½NE¼SW¼NW¼, N½N½SE¼NW¼.

The area described aggregates 145 acres in Adams County.

VINCENT S. STROBEL,
Chief, Branch of L&M Operations.

[FR Doc.75-1943 Filed 1-21-75;8:45 am]

[Wyoming 40108]

WYOMING

Application

JANUARY 14, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Western Oil Transportation Company, Incorporated has applied for an oil pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 45 N., R. 76 W.,
Sec. 8, NW¼SW¼ and S½SW¼.

The pipeline will be a part of the South Heldt Draw Gathering System in Johnson County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 2834, Casper, WY 82601.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

Agricultural Marketing Service

GRAIN STANDARDS

Louisiana Grain Inspection Points

Notice is hereby given pursuant to § 26.99 of the regulations (7 CFR 26.99) under the U.S. Grain Standards Act (7 U.S.C. 71 et seq.) that on December 6, 1974, there was published in the FEDERAL REGISTER (39 FR 42700) a notice announcing a request by the Louisiana Department of Agriculture that its assignment of inspection points be amended to add Kinder, Mermentau, and Opelousas, Louisiana, as designated inspection points. Interested persons were given until January 6, 1975, to submit written views and comments with respect to the proposed amendment of assignment.

No comments were received with respect to the December 6, 1974, notice in the FEDERAL REGISTER. After due consideration of market needs and circumstances and other material available to the Department, the assignment of the Louisiana Department of Agriculture is amended to add Kinder, Mermentau, and Opelousas, Louisiana, as designated inspection points.

(Sec. 7, 39 Stat. 482, as amended 82 Stat. 764; 7 U.S.C. 79(f); 37 FR 28464 and 28476)

Effective date. This notice shall become effective January 22, 1975.

Done in Washington, D.C. on: January 16, 1975.

E. L. PETERSON,
Administrator, Agricultural Marketing Service.

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following parishes in Louisiana:

Bossier Caddo

The Secretary has found that this need exists as a result of a natural disaster consisting of excessive rainfall in Bossier Parish from April 15 to May 15, 1974, and in Caddo Parish from June 1 to June 30, 1974. Both of these parishes suffered because of drought from July 15 to August 15, 1974, and additional excessive rainfall from August 16 to November 20, 1974. The latter rainfall, in both parishes, caused boll rot and insect control problems.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Edwin Edwards that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 14, 1975, for physical losses and October 14, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 15th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[Notice of Designation Number A123]

TEXAS

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in nine counties in Texas as a result of damages and losses caused by natural disasters. The attached chart lists the counties, the natural disasters and the dates during which the natural disasters occurred.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Dolph Briscoe that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 13, 1975, for physical losses and October 14, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 15th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Texas

County	Sandstorms	Hailstorms	Drought	Excessive rainfall	Freeze

[Notice of Designation Number A122]

WISCONSIN

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Wisconsin:

Calumet Walworth

The Secretary has found that this need exists as a result of a natural disaster consisting of frost in Calumet County September 21 and in Walworth County September 21 and 22, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Patrick J. Lucey that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 13, 1975, for physical losses and October 14, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 15th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Food and Nutrition Service

[FSP No. 1975-1.2; Amend No. 45]

FOOD STAMP PROGRAM

Purchase Requirements

Notice of proposed rulemaking was published in the FEDERAL REGISTER on December 6, 1974 (39 FR 47200) setting forth a proposal to amend the regulations governing the Food Stamp Program (7 CFR 271) to provide that, effective March 1, 1975, the amount each household will pay for its coupon allotment will be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made, except that one- and two-person households with net monthly income of less than $20 and all other households with net monthly income of less than $30 shall continue to receive their coupon allotments without paying anything.

Notice FSP No. 1975-1.1 currently provides that the percentage of income represented by the purchase requirements reflect historical differentials which show a wide variation of the percentage of income by household size and income. Additionally there are further distortions due to the use of income intervals which result in varying percentages of income within these intervals. Under the proposed amendment, these differentials and distortions would be removed, as every household with the same income will pay the same purchase requirement.

Interested persons were given 21 days in which to submit comments, suggestions, or objections to the proposed amendment. Comments on the proposed rulemaking were received from over 4,000 interested persons and organizations.

After consideration of all comments as presented by interested persons, the amendment so proposed to remove the current differentials and distortions is hereby adopted, subject to the following changes:

1. Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total monthly coupon allotment, and

2. The maximum amount that a household shall be required to pay shall be $1.00 less than its total monthly coupon allotment.

Thus, Notice FSP No. 1975-1.1 for the 48 States and the District of Columbia, issued pursuant to a part of Subchapter C—Food Stamp Program, under Title 7,

V40N15 JAN22 75 XUM

Chapter II, Code of Federal Regulations, is amended and superseded, by this Notice FSP No. 1975–1.2 to read as follows:

MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE:

48 STATES AND DISTRICT OF COLUMBIA

Housholds in which all members are included in the federally-aided public assistance grant, general assistance grant, or supplemental security income benefit shall be determined to be eligible to participate in the program while receiving such grants without regard to the income and resources of the household members.

The maximum allowable income standards for determining eligibility of all other applicant households, including those in which some members are recipients of federally-aided public assistance, general assistance, or supplemental security income benefit, in any State other than Alaska or Hawaii or in the District of Columbia, shall be the higher of:

(1) The maximum allowable monthly income standards for each household size which were in effect in such States or the District of Columbia, prior to July 29, 1971, or

(2) The following maximum allowable monthly income standards:

Household size:	
1	[1] $194
2	280
3	406
4	513
5	606
6	700
7	793
8	886
Each additional member	+73

[1] Poverty guideline.

"Income" as the term is used in the notice is as defined in paragraph (c) of § 271.3 of the Food Stamp Program Regulation.

Section 7(a) of the Food Stamp Act, as amended, requires that the value of the coupon allotment be adjusted semi-annually by the nearest increment that is a multiple of two to reflect changes in the prices of food published by the Bureau of Labor Statistics.

Prior to the amendment to the Act requiring semi-annual adjustment of the value of the coupon allotment, the adjustments were made at the beginning of each fiscal year; i.e., in July based on the cost of the economy food plan in the preceding December. With the enactment of the semi-annual adjustment, the law specified that the first adjustment be made in January 1974 to reflect changes in food prices through August 1973. A similar procedure was used for the July 1, 1974 adjustment and for the January 1, 1975 adjustment in the value of the coupon allotment which is based on the cost of the economy food plan in August 1974.

The total monthly coupon allotments for some households are not divisible by four. This results in total coupon allotments of uneven dollar amounts for those households which choose to purchase one-fourth or three-fourths of their total coupon allotment. For such households, the State agency shall round the face value of one-fourth or three-fourths of the total coupon allotment up to the next higher whole dollar amount and shall not change the purchase requirements for such allotments.

Pursuant to section 7(a) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91–671), the face value of the monthly coupon allotment which State agencies are authorized to issue to any household certified as eligible to participate in the Program in the 48 States and the District of Columbia is as follows:

MONTHLY COUPON ALLOTMENTS

Household size:	48 States and District of Columbia
1	$46
2	84
3	122
4	154
5	182
6	210
7	238
8	266
Each additional person	+22

PURCHASE REQUIREMENTS

Pursuant to section 7(b) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91–671), the amount that each household shall be required to pay for its total coupon allotment shall be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made; except that:

1. One- and two-person households with adjusted net income of less than $20 per month shall continue to receive their coupon allotments without paying anything; and

2. Households of three or more persons with adjusted net income of less than $30 per month shall continue to receive their coupon allotments without paying anything.

Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total coupon allotment. The maximum amount that a household shall be required to pay shall be $1.00 less than the total coupon allotment for each household size.

Effective date: This amendment shall become effective March 1, 1975.

(78 Stat. 703, as amended; 7 U.S.C. 2011–2026)

(Catalog of Federal Domestic Assistance Programs, No. 10.551, National Archives Reference Services)

Dated: January 17, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

Forest Service

GRAZING ADVISORY BOARD

Meeting

The San Juan Section of the San Juan National Forest Grazing Advisory Board will meet at 1:00 p.m. February 13, 1975, at the La Plata Electric Association building south of Durango, Colorado.

The purpose of this meeting is to give permittees an opportunity to advise the Forest Service in matters relating to grazing.

The meeting will be open to the public. Persons who wish to attend should notify Joe Hotter, telephone number 303–247–4179. Written statements may be filed with the committee before or after the meeting.

H. PETER WINGLE,
Forest Supervisor.

JANUARY 14, 1975.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

ELECTRONIC INSTRUMENTATION TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that a meeting of the Electronic Instrumentation Technical Advisory Committee will be held on Tuesday, February 25, 1975, Room 5230, 9:30 a.m., Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Committee was established to advise the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to electronic instrumentation, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has four parts:

GENERAL SESSION

(1) Opening remarks by the Chairman.
(2) Presentation of papers or comments by the public.
(3) Discussion and review of microwave instruments, oscilloscopes and spectrum analyzers.

EXECUTIVE SESSION

(4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available to the public. Written statements may be submitted at any time before or after the meeting.

On December 16, 1974, the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined, pursuant to section 10(d) of the Federal Advisory Committee Act, that those portions of the series of meetings of the Committee and of any subcommittees thereof that will involve discussions of matters listed in 5 U.S.C. 552(b)(1) and specifically authorized under criteria established by an executive order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such executive order, shall be exempt, for the period January 4, 1975 to October 22, 1975, from the provisions of section 10(a)(1) and (a)(3) of the Act, relating to open meetings and public participation therein.

Agenda item (4) will be devoted to the discussion of matters listed in 5 U.S.C. 552(b)(1) and properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto. Accordingly, pursuant to the aforementioned determination this portion of the meeting will be closed to the public. All Committee members have appropriate security clearances.

Minutes of the open portion of the meeting will be available upon written request addressed to the Central Reference and Records Inspection Facility, Room 7043, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Room 1620, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967–4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in "Aviation Consumer Action Project," et al., v. "C. Langhorne Washburn, et al.", September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838–73), the Complete Notice of Determination to close portions of the meetings of the Electronic Instrumentation Technical Advisory Committee and of any subcommittees thereof is hereby published.

Dated: January 13, 1974.

RAUER H. MEYER,
Acting Director,
Bureau of East-West Trade.

DEPARTMENT OF COMMERCE
Office of the Assistant Secretary for Administration
ELECTRONIC INSTRUMENTATION TECHNICAL ADVISORY COMMITTEE
Notice of Determination

In response to written requests of representatives of a substantial segment of the electronic industry, the Electronic Instrumentation Technical Advisory Committee was established by the Secretary of Commerce pursuant to Section 5(c)(1) of the Export Administration Act of 1969, 50 U.S.C. App. Section 2404(c)(1) (Supp. III, 1973), as amended, Pub. L. No. 93–500, Section 5(b) (October 29, 1974), to advise the Department of Commerce with respect to questions involving technical matters, world-wide availability, and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to electronic instrumentation, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee, which currently has eleven members representing industry and eight members representing government agencies, will terminate no later than January 3, 1977, unless extended by the Secretary of Commerce. All members of the Committee have the appropriate security clearance.

The Committee's activities are conducted in accordance with the provisions of section 5(c)(1) of the Export Administration Act of 1969, as amended, the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), and Office of Management and Budget Circular A–63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public, and to public participation, unless the head of the agency (or his delegate) to which the committee reports determines in writing that all, or some portion, of the agenda of the meeting of the committee is concerned with matters listed in section 552(b) of Title 5 of the United States Code.

Section 552(b)(1) of Title 5, United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy.

Notices of Determination authorizing the closing of meetings, or portions thereof, of the Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee and its formal subcommittees, dealing with security classified matters, were approved on June 18, 1973; on July 17, 1973 for the meeting of July 25, 1973; on August 21, 1973 for a series of meetings from August 21, 1973 through December 31, 1973; on December 26, 1973 covering a series of meetings for the period January 1, 1974 through April 30, 1974; and on May 16, 1974, covering a series of meetings from May 1, 1974 through January 3, 1975.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereof will continue to hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These meetings will include discussions of the COCOM control list as it relates to the commodities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to the U.S. Government's negotiating position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as proposed changes, is now or will be security classified for national security or foreign policy reasons, pursuant to Executive Order No. 11652, 3 C.F.R. 339 (1974). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the portions of the series of meetings of the Committee and of subcommittees thereof that will involve discussions of matters specifically authorized under criteria established by an executive order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, I hereby determine, pursuant to section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period January 4, 1975, to January 3, 1976, from the provisions of section 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the Committee and subcommittee discussions will be concerned with matters listed in section 552(b)(1) of Title 5, United States Code. The remaining portions of the meetings will be open to the public.

GUY W. CHAMBERLIN, JR.,
Assistant Secretary
for Administration.

Dated: December 12, 1974.

ALFRED MEISANER,
General Counsel.

Dated: December 12, 1974.

[FR Doc.75–1924 Filed 1–21–75;8:45 am]

V40N15 JAN 22 75 XUM

National Bureau of Standards

CUSTOMARY SYSTEM OF WEIGHTS AND MEASURES

Commercial Weights and Measures Units

In the FEDERAL REGISTER of July 27, 1968 (33 FR 10755), the National Bureau of Standards, in accordance with a recommendation of the House Committee on Science and Astronautics and pursuant to the responsibility of the National Bureau of Standards for "the custody, maintenance, and development of the national standards of measurements" (15 U.S.C. 272), published a listing of the common weights and measures used in normal commerce throughout the United States, and related them to the standards developed in accordance with existing law. In connection with the notice of July 27, 1968, the following explanatory material will assist in the proper interpretation and application of the data in column three under "Linear Measurement, U.S. Customary," and under "Area Measurement, U.S. Customary":

As the July 27, 1968 notice states, all U.S. Customary Units of linear and area measurement that will be found in ordinary commerce are derived from the yard. The yard was last defined in a notice in the Federal Register of July 1, 1959 (24 FR 5348), as being exactly equal to 0.9144 meter.

The foot defined by the equations

3 feet = 1 yard = 0.9144 meter, exactly
1 foot = 0.3048 meter, exactly

is known as the International Foot. In addition, the July 1, 1959 notice defines the U.S. Survey Foot as follows:

$$1 \text{ survey foot} = \frac{1200}{3937} \text{ meter, exactly}$$

or 1 survey foot = 0.304 800 61 meter approximately

Accordingly, it is necessary to differentiate between the international foot, used for engineering, and the U.S. survey foot, used for mapping and land measurement. The metric equivalents listed in the July 27, 1968 notice for land measurements: statute mile (U.S. survey mile), acre, square mile, section, and township are approximate; metric equivalents to more figures can be determined from the survey foot. For example, the U.S. Army survey mile equals 1.609 347 kilometers, approximately, whereas the international mile equals 1.609 344 kilometers, exactly. Metric equivalents of all surveyor's units, e.g., links, rods, and chains, are derived from the survey foot.

The relationship

1 international nautical mile = 1.852 kilometers

is exact, but the relationship

6 076.115 international feet = 1 international nautical mile

is not exact.

Dated: January 17, 1975.

RICHARD W. ROBERTS,
Director.

National Oceanic and Atmospheric Administration

MARINE PETROLEUM AND MINERALS ADVISORY COMMITTEE

Meeting Cancellation

The planned February 5, 1975 meeting of the Marine Petroleum and Minerals Advisory Committee's Working Group on International Ocean Investment, which was announced on January 3, 1975 in 40 FR 818 has been cancelled.

Dated: January 15, 1975.

R. L. CARNAHAN,
Acting Assistant Administrator for Administration, National Oceanic and Atmospheric Administration.

[FR Doc.75-2012 Filed 1-21-75;8:45 am]

MARINE PETROLEUM AND MINERALS ADVISORY COMMITTEE

Notice of Open Meeting

The Marine Petroleum and Minerals Advisory Committee (the "Committee") will meet from 9 a.m. until 4:30 p.m. on March 4, 1975 and from 9 a.m. until 12:30 p.m. on March 5, 1975 in Room 6802 of the Department of Commerce Building, 14th Street between E and Constitution Avenue, NW., Washington, D.C. The meeting will be open for public observation.

The Committee was established to advise the Secretary of Commerce on matters pertinent to the Department of Commerce's responsibilities related to marine petroleum and marine minerals resources, on means to facilitate cooperation between the private sectors and government in these matters, and on related Law of the Sea affairs. The members represent the industrial, labor, academic, legal, environmental, and economic sectors concerned with the management, use, conservation, and development of marine petroleum and marine mineral resources.

Included in the matters for Committee consideration and the approximate times for their consideration, at the meeting are the following:

MARCH 4, 1975

9 a.m.—Welcome and Opening Remarks.
9:15 a.m.—International Ocean Investment Conditions.
11:45 a.m.—Recess for Lunch.
1:30 p.m.—Regional Energy Planning.
4:30 p.m.—Adjourn for the Day.

MARCH 5, 1975

9 a.m.—Call to Order and Administrative Announcements.
9:10 a.m.—Programs in Marine Hard Minerals.
11:15 a.m.—Topics Suggested by Members and Plans for Future Agendas and Meetings.
12:30 p.m.—Adjourn.

Approximately 35 seats will be available for the public on a first-come, first-serve basis. Interested persons may submit written statements relevant to the Working Group's areas of interest before or after the meeting or by mailing such statements to: Executive Secretary, Marine Petroleum and Minerals Advisory Committee, National Oceanic and Atmospheric Administration (MR3), 6010 Executive Boulevard, Rockville, Maryland 20852.

Inquiries regarding the Committee or the meeting may be addressed to the Executive Secretary, Amor L. Lane, at the address above or by telephoning (301) 496-8518.

Dated: January 15, 1975.

R. L. CARNAHAN,
Acting Assistant Administrator for Administration, National Oceanic and Atmospheric Administration.

BOARD OF SCIENTIFIC COUNSELORS

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Board of Scientific Counselors, National Cancer Institute, March 25, 26, 27, 1975, Building 31-C, Conference Room 7, National Institutes of Health. This meeting will be open to the public on March 26, 1975, from 9 a.m. to 4 p.m. to discuss the scientific research program of the Laboratory of Theoretical Biology, Division of Cancer Biology and Diagnosis. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in section 552(b)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on March 25, 1975, from 7:30 p.m. to adjournment and on March 27, 1975, from 9 a.m. to adjournment for the review, discussion, and evaluation of individual programs and projects conducted by the National Institutes of Health, including consideration of personnel qualifications and performance, the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Nathaniel I. Berlin, Director, Division of Cancer Biology and Diagnosis, National Cancer Institute, Building 31, Room 3A03, National Institutes of Health, Bethesda, Maryland 20014 (301/496-4345) will furnish summaries of meetings, rosters of committee members, and substantive program information.

Dated: January 10, 1975.

SUZANNE L. FREMEAU,
Committee Management Officer, National Institutes of Health.

COMMITTEE TO COORDINATE TOXICOLOGY AND RELATED PROGRAMS

Notice of Meeting

A meeting will be held to discuss a working draft protocol developed for

V 4 0 1 5 JAN 22 75 XUM

the DHEW Committee to Coordinate Toxicology and Related Programs (composed wholly of full-time employees of HEW). The draft protocol describes a study to assess the carcinogenicity of orally ingested asbestos or asbestiform minerals. The entire meeting will be open to the public from 10 a.m. to adjournment on February 11 in Building 31, Conference Room 8, National Institutes of Health, Bethesda, Maryland, and will be devoted to answering any questions or receiving any comments regarding the draft protocol. Written comments will be accepted and must be received by February 14, 1975.

Since attendance by the public will be limited to space available, it is requested that individuals wishing to participate notify Mrs. Sandra Lange, National Institute of Environmental Health Sciences, Research Triangle Park, North Carolina 27709, telephone (919) 549–8411 ext. 3201 [FTS (919) 549–3201] in advance. Mrs. Lange will provide on request an advance copy of the draft protocol and any additional information necessary regarding the meeting.

Dated: January 16, 1975.

SUZANNE L. FREMEAU,
Committee Management Officer, National Institutes of Health.

NATIONAL ADVISORY COUNCIL ON AGING

Notice of Establishment

Pursuant to Pub. L. 93–296, signed into law on May 31, 1974, the National Institutes of Health announces the establishment on December 20, 1974, of the National Advisory Council on Aging.

Purpose: The National Institute on Aging was established to conduct and support biomedical, social, and behavioral research and training related to the aging process and the diseases and other special problems and needs of the aged as authorized by section 461 of the Public Health Service Act (42 U.S. Code 289k–2). The National Advisory Council on Aging shall advise, consult with, and make recommendations to the Secretary on programs relating to the aged which are administered by him and on those matters which relate to the Institute, as provided by section 462 of the Public Health Service Act (42 U.S. Code 289k–3).

Dated: January 15, 1975.

R. W. LAMONT-HAVERS,
Acting Director, National Institutes of Health.

RECOMBINANT DNA MOLECULE PROGRAM ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Recombinant DNA Molecule Program Advisory Committee on February 28, 1975, at the Bellevue Hotel, Capri Room, 505 Geary Street, San Francisco, California 94102.

The entire meeting will be open to the public from 9 a.m. to adjournment to discuss the role of the committee, the status of research in the field, research studies required, the mechanisms by which such studies should be supported, and the identification of facilities and resources needed in their performance. Attendance by the public will be limited to space available.

Dr. William J. Gartland, Executive Secretary, National Institutes of Health, Westwood Building, Room 920, Bethesda, Maryland 20014, telephone (301) 496–7714, will provide summaries of the meeting, rosters of committee members and substantive program information.

Dated: January 16, 1975.

SUZANNE L. FREMEAU,
Committee Management Officer.

Federal Railroad Administration

[FRA Waiver Petition Docket No. RSPC–74–20]

BUTTE, ANACONDA AND PACIFIC RAILWAY CO.

Waiver of Freight Car Safety Standards

The Butte, Anaconda and Pacific Railway Company (BA&P) has petitioned the Federal Railroad Administration (FRA) for exemption from § 215.223 of the FRA Freight Car Safety Standards in order to continue operating 295 freight cars. All of the cars are equipped with one or more components whose use was prohibited, effective January 1, 1975, under FRA regulations (49 CFR 215.223).

The BA&P has 95 freight cars which are more than 50 years old and which are equipped with AB-type brakes. These cars, which bear BA&P reporting marks, are primarily used between Anaconda and Butte, Montana, a distance of 25 miles. This group of 95 cars includes:

(1) 8 air dump cars of 40 ton capacity which bear BA&P reporting marks in the series between 951 and 963.

(2) 10 air dump cars of 50 ton capacity which bear BA&P reporting marks in the series between 931 and 949.

(3) 33 solid bottom ore cars of 50 ton capacity which bear BA&P reporting marks in the series between 1963 and 2503.

(4) 2 gondolas of 50 ton capacity which bear BA&P reporting marks 251 and 259.

(5) 6 tank cars with 50 ton capacity which bear BA&P reporting marks in the series between 1028 and 1033.

(6) 34 hopper bottom ore cars of 50 ton capacity which bear BA&P reporting marks in the series between 1981 and 3523.

(7) 2 wood frame cabooses which bear BA&P reporting marks 12 and 13.

Certain of the cars listed above, in addition to being equipped with the prohibited brake equipment, are equipped with cast iron wheels. All of the cars are equipped with one or more components whose use was restricted under FRA regulations (49 CFR 215.225). The restricted components with which these cars are equipped include arch bar trucks, D-type couplers, and key type yokes.

These cars are operated at speeds up to 30 miles per hour and are occasionally interchanged with the Burlington Northern at Butte, Montana. BA&P seeks a permanent exemption for these cars and asserts that the good safety record which it has maintained over a number of years supports the granting of this petition.

The petitioner also seeks to have a temporary exemption for 200 solid bottom ore cars. These cars which bear BA&P reporting marks are equipped with trucks that have Hyatt cyclindrical type bearings. These bearings are prohibited under FRA regulations. The petitioner has commenced a program to replace these bearings. None of these cars are interchanged and petitioner asserts that due to its low operating speeds and short operating distances no failure of this component has been experienced.

Interested persons are invited to participate in this proceeding by submitting written data, views, or comments. FRA does not anticipate scheduling an opportunity for oral comment on this petition since the facts do not appear to warrant it. An opportunity to present oral comments will be provided however, if requested by any interested person prior to February 10, 1975. All communications concerning this petition should identify the appropriate Docket Number (FRA Waiver Petition Docket Number RSPC–74–20) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590. Communications received before February 28, 1975, will be considered by the Federal Railroad Administration before final action is taken. Comments received after that date will be considered so far as practicable. All comments received will be available, both before and after the closing date for communications, for examination by interested persons during regular business hours in Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

(Sec. 202, 84 Stat. 971, 45 U.S.C. 431; and § 1.49(n) of the regulations of the Office of the Secretary of Transportation, 40 CFR 1.49 (n).)

Issued in Washington, D.C. on January 15, 1975.

DONALD W. BENNETT,
Chief Counsel.

[FR Doc.75-1992 Filed 1-21-75;8:45 am]

ACTION

NATIONAL VOLUNTARY SERVICE ADVISORY COUNCIL

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Council meeting:

Name: National Voluntary Service Advisory Council.

Date: February 12 and 13, 1975.

Place: ACTION, 806 Connecticut Avenue, NW., Washington, D.C. Room 522.

Time: 1 p.m., Wednesday, February 12, 1975; 9 a.m., Thursday, February 13, 1975.

Purpose of the meeting: To discuss the work of each of the Council's committees and to chart the work of the Council for the coming year.

Meeting of the Advisory Council is open to the public. Public attendance depending on available space, may be limited to those persons who have notified the Advisory Council Executive Officer in writing at least five days prior to the meeting, of their intention to attend the meeting.

Any member of the public may file a written statement with the Council before, during, or after the meeting. To the extent that time permits, the Council Executive Officer may allow public presentation of oral statements at the meeting.

All communications regarding this Advisory Council should be addressed to Ms. Elizabeth Allemang, Advisory Council Executive Officer, 806 Connecticut Avenue, NW., Washington, D.C. 20525.

ELIZABETH ALLEMANG,
Staff Assistant, Office of the Director.

[FR Doc.75-1980 Filed 1-21-75;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket 27416; Order 75–1–72]

AMERICAN AIRLINES, INC., ET AL.

Excursion Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of January, 1975.

American Airlines, Inc. (American), United Air Lines, Inc. (United), Trans World Airlines, Inc. (TWA), and Northwest Airlines, Inc. (Northwest)[1] have filed major excursion-fare proposals[2] in domestic air transportation that would offer discounts during the daytime of 20 percent during the peak season and 25 percent during the off-peak travel period.[3] American also proposes to establish a discount from night coach fares of 6.25 percent during the peak season and 12.5 percent during the off-peak travel period. Appendix A[4] contains a complete listing of the different proposals and the various terms and conditions of travel for each.

In support of their proposals, the carriers assert that during the past year the airline industry has been faced with tremendous fuel-cost increases and general inflation which have been offset only by necessary increases in basic fares. Simultaneously, the personal/pleasure traveler has been faced with the discontinuance of several major discount fares and thus this segment of the overall air market has been faced with even greater cost increases than the increases in the general fare level. The carriers allege that the instant filings are designed to fill this void now prevalent in the overall fare structure in an effort to regain some of the personal/pleasure passengers who can no longer afford to fly. A complete summary of the carriers' justifications appears in Appendix B.[5] A summary of complaints and answers thereto appears in Appendix C.[6]

Upon consideration of the tariff proposals, the complaints and answers[7] thereto, and all other relevant matters, the Board finds that the day coach excursion fares proposed by Northwest, TWA, and United, and the night coach excursion fares proposed by American may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board has also concluded to suspend the tariffs pending investigation. With respect to the day excursion fares proposed by American, the Board finds that the complaints do not set forth sufficient facts to warrant investigation of the proposal, and the requests therefor and consequently the requests for suspension will be denied and the complaints dismissed.

In Phase 5 of the Domestic Passenger-Fare Investigation (DPFI) the Board found that "all of the discount fares burden the fare level when viewed over the long run." The carriers were required to phase out youth and family fares, and they chose not to continue Discover America fares beyond June 1974. The carriers now argue that, because of current economic conditions, they now forecast very little, if any, growth in traffic in 1975 unless something is done to alter the current pattern of airline fares. They are apprehensive that the personal/pleasure traveler will be "squeezed out" of the air travel market altogether, thereby resulting in even lower load factors and poorer financial results in the future, and so propose the instant new major discount-fare programs as an incentive to travel by air.

[1] Tariff revisions to Airlines Tariff Publishers, Inc., Agent C.A.B. Nos. 142 and 202.

[2] Peak travel season: June 15–September 15 (same year)—Off-peak season: September 16 (one year)–June 14 (next year).

[3] Filed as part of the original document.

[4] Appendices and corrections filed as part of the original document.

[5] The Honorable John E. Moss, et al., Members of Congress, (MOC) have filed a late complaint, accompanied by an appropriate motion which will be granted, requesting that the Board suspend the various proposals should it not intend to eliminate the impact of these fares in making fare-level determinations. Since the Board does intend to do this, as hereinafter discussed, MOC's complaint need not be dealt with further.

[6] The Department of Transportation (DOT) has filed a petition, stated to be neither a complaint nor an answer, in which it argues that the proposed fares are unreasonable and unjustly discriminatory. Nevertheless, it urges that the Board should permit the fares for a short period of time, but only if the Board takes immediate steps to require an across-the-board fare reduction of 10 percent. To the extent DOT would have the Board require that the tariffs expire prior to the proposed expiration dates, the document constitutes a complaint not timely filed against the tariffs, and in the absence of justification for the late filing it will not be considered. The Board intends promptly to establish procedural dates for response to the remainder of DOT's request, which will be disposed of subsequently.

V40N15 JAN 22 75 XUM

The Board recognized in Phase 5 that excess capacity can and will exist in the short run, and that adjustments in capacity level cannot be accomplished during the same short periods of time in which demand fluctuates. In this regard, the domestic trunkline carriers' load factor dropped 10 points in November from that a year earlier. Since air traffic has historically reflected the ups and downs of the general economy, we believe that some credence can be accorded carrier forecasts in the present situation and that, in these circumstances, a properly constructed discount fare would be consistent with the Board's Phase 5 decision.

The various arguments raised in support of or in opposition to the proposed fares can be condensed into a few basic issues; (a) whether the fares should be offered in all markets or limited to those of 1,500 miles or more; (b) the method of blacking out peak holiday travel or peak times during the week; (c) whether a discount fare should also be offered on night coach services; (d) whether the advance-purchase requirement should be seven or 14 days; and (e) whether the maximum length of stay should be 21 or 30 days.

With respect to market applicability, United argues that the general economic circumstances which necessitate its proposed fares are equally applicable in short-haul as well as longer-haul markets, and that the higher fares in short-haul markets resulting from implementation of Phase 9 are likely to have an adverse impact upon traffic, particularly in light of recent increases in the discount fares which remain in the structure. The Board did not find it necessary to reach a decision in the DPFI as to the generative ability of Discover America fares in short-haul markets since they had previously been canceled in markets under 1,500 miles. Nevertheless, evidence adduced in that proceeding suggests that discount fares are significantly less generative in shorter-haul markets. The various examples of generation/diversion cited by United in its justification are all limited to experience in longer-haul markets or represent average experience over all stage lengths and, accordingly, do not provide a basis upon which to conclude otherwise. By this we do not mean to imply that the 1,500-mile cutoff proposed by some carriers is necessarily the only acceptable market availability for a fare of this sort. To the contrary, in view of the changes in the discount-fare structure and the present economic climate, it is quite possible that such fares could be productively generative in the medium-haul markets, e.g., in the 1,000 and 750 mileage range, and we note in this connection that a 1,500-mile cutoff effectively precludes availability to many persons located in the central states of the country and in the north-south markets.

A significant factor with respect to TWA's proposal is the total lack of specified blackout dates and time periods. In the alternative, TWA proposes to retain the prerogative of blacking out any flight that advance reservations indicate will be heavily booked. While we do not necessarily dispute the advantages of such an approach, TWA is not specific as to its implementation and we believe there is a clear likelihood that the end result might be a virtual lack of effective blackouts. The Board has on numerous occasions expressed the conviction that appropriate blackout periods are essential to the economics of discount fares and we are unable to conclude that TWA's approach represents an adequate alternative to traditional blackout provisions.

The various carrier proponents differ with respect to whether the advance-ticketing requirement should be 7 or 14 days and whether the maximum permissible stay should be 21 or 30 days. None, however, contend that restrictions of this sort are not necessary, and we agree. By the same token, none has advanced persuasive argument in favor of one and not the other, although American has provided some survey information which suggests that a 14-day advance-ticketing requirement would serve to protect diversion without significantly affecting the generative capability of the fare. In any event, we do not believe disposition of the tariff proposals before us turns on these two questions. Both are reasonably restrictive, although we incline to the view that traffic truly generated by the fares could readily meet the 14-day ticketing rule and arrange travel plans to fall within the 21-day stay limit.

In addition to the daytime excursion fares, American also provision to establish discounts of 6.25 percent and 12.50 percent from night coach fares for the peak and off-peak seasons respectively. The alleged purpose is to "protect the viability" of its night coach.[6] American contends that, if its proposed daytime fares are implemented, they will equal or be less than the night coach fare, and that passengers now willing to travel at night will obviously prefer to travel during the daytime if they achieve comparable savings. In other words, the thrust of American's justification is that night coach excursion fares are necessary to protect its night coach services.[7] The Board has many years recognized the value of night coach service, as a means of enhancing aircraft utilization and gaining better use of capacity operated primarily for purposes other than passenger transportation. However, American has not made a convincing showing that the day excursion fares approved herein, restricted as they are, will be likely to divert sufficient traffic from American's existing night coach services (which in many markets are operating at very high load factors) to render the latter uneconomic. If such serious diversion subsequently occurs, it will be open to American to bring this fact to the Board's attention for further consideration of the matter. Moreover, night coach service has ramified during the past several years into what must be considered a significant if not major component of the overall transportation service pattern. It is for this reason that the Board has set down an investigation of the economics of this service, and intends to move forward promptly with that proceeding. The growth of night coach service in volume and its expansion to many new markets in the last two years raises basic questions as to the present economics of the service and the appropriate policy to be pursued. This must await evidence adduced in the proceeding shortly to be activated. In the meantime, we would be most reluctant to permit carriers to offer a fare, in effect a discount on a discount, essentially to promote an increasing volume of night coach service pending completion of the formal investigation.

Eastern has complained against all three excursion fare proposals, alleging that the daytime fares do not show a positive profit impact under the standards set forth in the Board's Phase 5 decision. It may very well be that the carriers have not included a full amount of added costs. On the other hand, we believe the generation/diversion estimates may be conservative given the present economic climate, combined with increases in normal fare levels. There is some reason to believe that elasticity of demand for discretionary travel may be higher under present conditions than it was when the Board reached its decision in Phase 5 of the DPFI.[8] Only a period of experimentation with these fares can provide any basis for conclusion. We give considerable weight to the fact that all the major transcontinental carriers are in general agreement that these fares will have a favorable profit impact and that, based on the limited number of complaints filed, there seems to be a fairly strong consensus in the domestic industry.

However, to ensure that the overall fare level is not burdened by traffic moving on these excursion fares, the Board has decided to include the traffic in its Phase 5 (DPFI) discount-fare adjustment in future evaluation of the industry's revenue need. Accordingly, we will require that the carriers specifically isolate the traffic, adult and children, in their discount-fare traffic submissions pursuant to Phase 5. Additionally we will require the carriers to submit separate monthly reports containing similar data by mileage block in increments of 100 miles, *e.g.*, 1,450 to 1,549 miles, 1,550 to 1,649 miles, etc. We will also require each

[6] American contends that the night coach excursion fares will generate 15 percent more traffic, but provides no support for this estimate.

[7] United disputes this contention, pointing out that night coach services have existed for years in markets where a plethora of daytime discount fares were simultaneously provided.

[8] In this regard, the Discover America fares had a generation factor of 26.2 percent when available in markets of all stage lengths, and it would seem altogether reasonable to expect a better result in longer haul markets, even without the impetus added by the inflationary state of the economy.

carrier providing these or similar fares to submit a full appraisal to the Board within two months after the expiration date, regardless of whether or not they elect to continue the fares. The appraisal should include a profit-impact test, including detailed support, and a separate analysis of generation and diversion. The impact of the fares by market distance should be included. We leave to the discretion of individual carriers an evaluation of the generative impact of the fares—through survey techniques, traffic analysis, etc. However, we expect a more definitive analysis than a purely judgment estimate.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That: 1. An investigation be instituted to determine whether the fares and provisions described in Appendix D attached hereto, and rules, regulations and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix D hereto are suspended and their use deferred to and including April 18, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The motion by the Honorable John E. Moss, et al., Members of Congress, for leave to file a late document is hereby granted;

4. Except to the extent granted herein, Dockets 27273, 27274, 27275, 27276, 27277, 27280, 27326, 27335, 27337, and 27338 are hereby dismissed;

5. The investigation ordered herein be assigned before an Administrative Law Judge at a time and place hereafter to be designated;

6. All carriers providing the fares authorized by this order (or similar type fares) are hereby required to isolate this category of traffic, adult and children, in their discount fare submissions in Phase 5 of the Domestic Passenger-Fare Investigation.[9] Additionally, carriers are required to submit separate monthly reports to the Director, Bureau of Economics, containing similar data by mileage block in increments of 100 miles. These carriers will also submit a full appraisal to the Director, Bureau of Economics, within two months after the expiration date of the fares, including a profit-impact test with detailed support, and a separate analysis of generation/diversion, and an evaluation of the generative ability of the fares by market distance.

7. A copy of this order be served upon Allegheny Airlines, Inc., American Airlines, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., the Honorable John E. Moss, *et al*, Members of Congress, and the Port Authority of New York and New Jersey, which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board: Timm, member concurring.[10]

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[Docket 23060-2; Order 75-1-76]

PRIORITY AND NONPRIORITY DOMESTIC SERVICE MAIL RATES—PHASE 2

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of January, 1975.

By Order 74-1-89, dated January 16, 1974, the Board established temporary domestic service mail rates for sack mail and standard and daylight container mail, container minimum chargeable weights, and pickup and delivery charges to be effective on and after March 28, 1973.

Pan American World Airways, Inc. (Pan American), has filed a petition requesting the Board to amend the foregoing order so as to establish a minimum chargeable weight and pickup and delivery charges for the LD-9 container. In support of this request, the carrier states that it has introduced the LD-9 container within its system and wishes to insure that any mail services furnished with the new container type are compensated at the temporary rates established in Order 74-1-89. Pan American further requests the LD-9 container be assigned the same minimum chargeable weight and pickup and delivery charges presently applicable to the A-1 container group.

The Postal Service has filed an answer supporting the petition except for the proposed minimum chargeable weight. Based on available volume, it believes the pivot weight for the LD-9 should be fixed at 5550 pounds, or about 99 percent of the current A-1 weight minimum of 5600 pounds.

On the basis of these pleadings and other information, we proposed to modify Order 74-1-89 to incorporate the LD-9 container but at the minimum chargeable weight urged by the Postal Service. Although similar in internal cube, the LD-9 is not quite as spacious as the basic A-1 container in terms of overall carrying capacity. For this reason, a minimum chargeable weight of 5550 pounds appears more reasonable for the LD-9 than the A-1 weight minimum proposed by Pan American. On the other hand, we propose to establish the same pickup and delivery charges for both container types. We tentatively find these proposals to be fair and reasonable for the purpose of establishing temporary rates in this proceeding.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and the regulations promulgated in 14 CFR Part 302,

It is ordered, That: 1. All interested persons, and particularly Airlift International, Inc., Alaska Airlines, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., The Flying Tiger Line, Inc., Frontier Airlines, Inc., Hughes Air Corp., National Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Pan American World Airways, Inc., Piedmont Aviation, Inc., Seaboard World Airlines, Inc., Southern Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., and the Postmaster General are directed to show cause why the Board should not adopt the foregoing findings and conclusions and fix the temporary rates and charges specified herein by amending subparagraphs (e) and (g) of Ordering Paragraph 3 of Order 74-1-89, January 16, 1974, as follows:

(a) In subparagraph (e), insert "LD-9" and "5550" in the columns headed "Container Type" and "Minimum Charge Weight" after "LD-W" and "800", respectively.

(b) In subparagraph (g) change "A-1, A-2, A-3, and LD-7" to "A-1, A-2, A-3, LD-7, and LD-9" in the column headed "Container Type."

2. Further procedures herein shall be in accordance with the rules of practice, 14 CFR Part 302, and, if there is any objection to the findings and conclusions proposed herein, notice thereof shall be filed within 8 days, and, if notice is filed, written answer and supporting documents shall be filed within 15 days, after date of service of this order.

3. If notice of objection is not filed within 8 days, or if notice is filed and answer is not filed within 15 days, after service of this order, or if an answer timely filed raises no material issue of fact, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fixing the temporary rates and charges herein specified.

4. This order shall be served upon the parties listed in paragraph 1 above.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FRL 324-3]

CHEMAGRO DIVISION OF MOBAY CHEMICAL CORP.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U.S.C. 346a(d) (1)), notice is given that a petition (PP 5F1577) has been filed by Chemagro Division of Mobay Chemical Corp., Post Office Box 4913, Kansas City, MO 64120, proposing establishment of tolerances (40 CFR Part 180) for negligible residues of the fungicide and insecticide 6-methyl-2,3-quinoxalinedithiol cyclic *S,S*-dithiocarbonate in or on the raw agricultural commodities apples and pears at 0.05 part per million.

The analytical method proposed in the petition for determining residues of the herbicide is a gas chromatography procedure using electron capture detection.

Dated: Janutry 8, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

CHEVRON CHEMICAL CO.

Filing of Pesticide and Food Additive Petitions

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 408(d) (1), 409(b) (5), 68 Stat. 512; 72 Stat. 1786; 21 U.S.C. 346a(d) (1), 348(b) (5)), notice is given that a pesticide petition (PP 5F1571) has been filed by Chevron Chemical Co., 940 Hensley Street, Richmond, CA 94804, proposing an increase in the established tolerances (40 CFR Part 180) for residues of the insecticide *O,S*-dimethyl phosphoramidothioate in or on the raw agricultural commodities cauliflower, lettuce, and tomatoes from 1 part per million to 2 parts per million.

Notice is also given that the same firm has filed a related food additive petition (FAP 5H5071) proposing establishment of food additive tolerances (21 CFR Part 121) for residues of the insecticide in tomato pomace at 5 parts per million and cottonseed hulls at 3 parts per million, resulting from application of the insecticide to growing tomatoes and cotton.

The analytical method proposed in the peseticide petition for determining residues of the insecticide is a gas chromatographic procedure using a cesium bromide thermionic detector.

Dated: January 8, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

PENNWALT CORP.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U.S.C. 346a(d) (1)), notice is given that a petition (PP 5F1573) has been filed by Pennwalt Corp., P.O. Box 1297, Tacoma, WA, proposing establishment of tolerances (40 CFR Part 180) for combined residues of the fungicide thiophanate-methyl (dimethyl [(1,2-phenylene) bis(imino carbonothioyl)] bis[carbamate]) and its meabolite methyl 2-benzimidazolecarbamate (calculated as the fungicide) resulting from preharvest and/or postharvest application in or on apricots, cherries, nectarines, peaches, plums, and prunes at 15 parts per million and from preharvest application in or on strawberries at 5 parts per million.

The analytical method proposed in the petition for determining residues of the fungicide and its metabolite is a procedure in which the residue is converted to methyl 2-benzimidazolecarbamate by a reaction with acetic acid and cupric acetate. This product is analyzed with a recording UV spectrophotometer scanning from 240 to 300 nanometers.

Dated: JANUARY 8, 1975.

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington DC 20460.

On or before March 24, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c) (1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a mimimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures: Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after March 24, 1975.

APPLICATIONS RECEIVED

VINYL CHLORIDE

Pesticide Products Containing Vinyl Chloride

On April 26, 1974, an emergency suspension order concerning registrations for certain indoor aerosol products containing vinyl chloride and a notice of intent to cancel registrations was published in the FEDERAL REGISTER (39 FR 14753). On July 19, 1974, an amendment to the notice was published (39 FR 26480); this amendment listed additional products for which the Agency gave notice of intention to cancel. All registrants were individually notified of the emergency suspension order and notice of intent to cancel by means of PR Notice 74–5, dated April 30, 1974.

In accordance with section 6(b) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973) and the Notice of Intent to Cancel, the products listed below were cancelled. Unless an affected party requested a hearing, cancellation of these products was effective 30 days from the receipt of notice by the registrant or publication of the notice in the FEDERAL REGISTER, whichever occurred later.

The following is a list of the registrants involved and the products cancelled.

Dated: January 16, 1975.

JAMES L. AGEE,
Assistant Administrator for
Water and Hazardous Materials.

INDOOR AEROSOL PRODUCTS AFFECTED

Reg. No.	Product	Company
4206–25	Barcolene Spray Disinfectant.	The Barcolene Co.
7572–4	Blue White Ant & Roach Killer.	Blue White Chemical Co.
4–12	Bonide Household Flea Killer Spray.	Bonide Chemical Co.
106–19	Brulin Bug Bomb	Brulin & Co.
2382–53	Clipper Mate Lubricates, Sanitizes, Cools.	Carson Chemicals, Inc.
2382–33	Fogging Dispenser	Do.
2382–30	Lice and Mite Spray	Do.
2382–47	Parasidе with Sevin	Do.

[FRL 302–6]

MOTOR VEHICLE EXHAUST EMISSION RETROFIT DEVICES

Voluntary Retrofit Evaluation Program

Notice is hereby given of the establishment of a voluntary motor vehicle exhaust emission retrofit device evaluation program. The purpose of the program is to provide a standardized and centralized evaluation program to compile technical data on various exhaust emission retrofit devices which might be considered as possible candidates for implementation in one of the several areas for which retrofit control strategies have been promulgated pursuant to section 110 of the Clean Air Act.

The program was first proposed for public comment in the FEDERAL REGISTER on March 27, 1974 (39 FR 11334) and written comments on the proposed retrofit program were subsequently received from 20 organizations. Principally, the respondents were automobile manufacturers, retrofit device developers, and state air pollution agencies. Analysis of the substantive comments along with a discussion of technical changes to the program is provided below.

Several commenters suggested expanding the program to obtain test data on the retrofit device under a wider range of ambient conditions. In particular, it was suggested that emission and driveability tests be required at high altitudes and low ambient temperatures, in addition to the normal low altitude (sea level) conditions and the specified 63°F to 86°F and 60°F to 86°F temperature ranges for emission tests and driveability tests, respectively. It was also suggested that the impact of high and low temperature and dusty environments on the deterioration with mileage accumulation of the retrofit devices' performance be determined by requiring that some of the durability vehicles accumulate mileage under these conditions.

If all of these suggestions were adopted, the cost of participation in the program would be significantly increased. The concern expressed by a number of potential applicants about the current cost of this voluntary program causes EPA to be cautious about significantly increasing the program cost especially since its workability, to a large degree, lies in its acceptability to the potential applicants. However, EPA also recognizes the validity of the need for these data by those States which have such ambient conditions.

There are four major considerations regarding the suggested inclusion of high altitude testing in the program: (1) Most of the areas in which retrofit strategies are to be implemented are not at high altitude; (2) forcing those applicants who have no intention of selling devices for these high altitude areas to spend a considerable amount of money on evaluation of their device at high altitude would be wasteful and decrease the acceptability of the program to those applicants; (3) since the impact of high altitude on the performance of retrofit devices may be significant, there is a genuine need to quantify this affect for each device being considered for installation by those several areas at high altitude; and (4) the collection of high altitude data as an integrated part of this program would likely result in significantly less cost to both the device manufacturers and the State, at little additional cost to EPA, than if each state with high altitude problems initiated a separate evaluation. To balance considerations, emission and driveability testing at high altitude is made an optional part of the program. Applicants may elect to collect high altitude data in accordance with the procedure outlined and EPA will provide overview, verification, and dissemination to the states.

The majority of the states which plan to implement retrofit strategies experience cold temperature (i.e., 0–20°F) during some part of each year. Thus, there is justification to making some testing at low temperatures a program requirement. Accordingly, driveability testing at low temperatures for two of the ten durability vehicles prior to mileage accumulation is made an additional requirement in this publication. The two tests are sufficient to indicate if there is a problem and, at the same time, will keep the additional costs to a minimum.

Emission testing at low temperature, however, is not made a part of the program since currently there are no Federal test procedures for testing at low temperatures and, more importantly, there are no known commercial test facilities available to conduct such evaluations. However, the results of several investigations into this area in the near future are expected to allow EPA to make an engineering analysis of the potential effectiveness of retrofits at low ambient temperatures. Accordingly, EPA plans to provide this type of analysis of the applicants' retrofit devices to the states.

The need to determine the deterioration of retrofit devices due to mileage accumulation in hot, cold, or dusty environments is largely dependent upon the particular states in which the applicant wishes to sell his device. Thus, as for high altitude evaluation, this testing is made an optional part of the program. In particular, mileage accumulation under such environmental conditions is made optional on up to two of the ten durability vehicles.

The Administrator recognizes that some retrofit device developers may intend to only market their device in one or two states where high altitude or other special ambient conditions are present. Although this program provides for optional testing at high altitude and at ambient conditions other than those specified in the Federal Emission Test Procedure, such device developers may not wish to also participate in testing their devices at low altitude and the other specified ambient conditions required by these protocols. For this case, it is recommended that the device developer make direct arrangements with that particular state for a device evaluation program (which of course could be structured along the same lines as this program with modifications as needed). Since the developer only intends to seek approval of his device from one or two states, he will not encounter the potentially numerous widely varying state requirements that this program was developed to preclude.

Commenters on the proposed program suggested that the short cycle idle test and loaded-mode emission test (which are identified in the states' Transportation Control Plans for use in inspection/maintenance programs to determine periodically if motor vehicles require maintenance to reduce their emissions) be conducted in the retrofit evaluation program concurrent with the other emission testing. The purpose of doing such tests concurrently would be to establish the emission levels on these test procedures above which retrofitted vehicles would be required to have maintenance performed. Since the costs of adding these tests is very small while the benefit is significant, the requirements that these tests be conducted along with the other emission tests is incorporated in this publication.

V40I15 JAN22 75 XUM

Comments received also suggested that, in addition to calculation of fuel economy over the city driving cycle used in the Federal Emission Test Procedure, fuel economy be measured over the newly developed Federal Highway Fuel Economy Test Procedure (39 FR 36847; October 15, 1974). Since testing on the highway cycle thus far has not revealed wide divergence in the relative or ranked fuel economy performance of vehicles from the city driving cycle, such an evaluation is not made mandatory but is added as an optional procedure.

Several of the comments received state that 15,000 miles was too short an interval to determine the deterioration of the retrofit devices' effectiveness in reducing emissions or the mechanical integrity of a retrofitted vehicle. One comment suggested mileage accumulation rates in proportion to the expected remaining useful life; another suggested fewer cars but greater mileage.

The following considerations are relevant to those comments: (1) Durability analysis is the single most expensive evaluation component in the proposed program; and (2) it is not feasible to design a program of reasonable cost which will provide a full evaluation and regorous statistical analysis of the effects of mileage accumulation on retrofitted vehicles. Rather, the durability testing program is designed to allow a reasonable engineering analysis of the effects of mileage accumulation on the mechanical integrity of the retrofitted vehicle while, at the same time, producing quantitative values by which the deterioration in initial emission reduction associated with the different devices can be compared. Adjusting the mileage accumulation for each vehicle up or down from the proposed 15,000 miles based upon the remaining useful life of the model year vehicles on which the device is to be installed or allowing fewer than the proposed ten durability vehicles to accumulate greater mileages would increase the difficulty of comparing the durability data for the different devices. Due to these considerations, the proposed mileage accumulation specifications have not been changed.

Comments received included suggestions that in order to minimize the cost of the evaluation program, credit should be given for emissions data previously generated. Much of this data has been generated using test procedures other than the 1975 Federal Test Procedure (FTP) which was the required emission test procedure in the proposed program. Thus, for previous data to be suitable for inclusion in these evaluations, it must have either been generated by the FTP or, through the development of a suitable correlation factors, be relatable to the 1975 FTP within an acceptable statistical confidence interval. Accordingly, a procedure by which previously acquired emissions data may be qualified is added to the program.

The qualification of previously acquired data raised the issue of using the Federal Emission Test Procedure with a hot (rather than cold) engine startup as a method of effecting a cost reduction for emission testing. One of the comments received carried the issue one step further, requesting that even those applicants who have no previous data be allowed to utilize a hot Federal Emission Test Procedure also. EPA considers this to be a reasonable request. Therefore, testing over the hot Federal Emission Test Procedure is made optional for the collection of new emission data if, through the development of a suitable correlation factor, it is relatable to the 1975 FTP within an acceptable statistical confidence interval.

It should be noted, however, that the number of additional cars necessary to be tested with hot start testing may negate any potential savings attributable to hot start testing. However, this trade-off is highly dependent on the correlation shown by a retrofit system between the hot start test and the FTP. The manufacturer will have to make the judgement on which of the test procedures he wishes to follow. It is felt that EPA can allow latitude to the manufacturer in selecting either of these test procedures since the procedural guidelines are rigorously constructed to ensure protection of air quality while allowing test cost savings.

The proposed program provided for the evaluation of retrofit devices on, in addition to light duty vehicles, motor vehicles with gross vehicle weights between 6,000 and 10,000 pounds. The testing provision for these vehicles was included since some states are contemplating retrofit for vehicles in this general weight range. However, the agency's position, policies, and technical approach to regulation of emissions from these vehicles are presently undergoing review. In the near future, regulations covering the test procedures and allowable emission levels for these vehicles are planned to be promulgated. To avoid the confusion that would be caused by the publication of one set of test procedures for these vehicles with this voluntary program followed shortly by publication of possibly different emission test procedures for these vehicles in the form of proposed regulations, the test procedures in this program for this category of vehicles is withdrawn. EPA will, at a future date, include in this program those test procedures necessary to determine the effectiveness of retrofit devices in nonpassenger vehicle applications.

Several automobile manufacturers indicated that they wish to comment on the applicability of specific devices to their vehicles prior to the initiation of device testing. Although such comments might be useful, their solicitation prior to completion of device testing would also create difficulties. First, EPA is not in a position to release information about the applicant's devices prior to completion of the program and then, only that information which the applicant has not shown to be a trade secret. Secondly, an attempt to solicit and respond to manufacturers' comments between receipt of application and approval of the test program would either require considerably greater expenditures of EPA manpower or cause significant delays to initiation of testing.

However, it is reasonable to obtain the motor vehicle manufacturers' comments after testing is completed. Accordingly, EPA will announce in the FEDERAL REGISTER the completion of each device evaluation and solicit comments from the vehicle manufacturers and other interested parties. Upon receipt of these comments, the retrofit device developer will be given an opportunity to respond to the comments received by EPA on his device. A synopsis and engineering analysis of the vehicle manufacturers' comments and the responses of the retrofit device developers to those comments will then be incorporated into the final report that will be provided to the States.

One automobile manufacturer's comments raised the issue of who is legally liable for adverse effects (e.g., engine failure or unsafe operation) of retrofit devices. The manufacturer's comment was to the effect that a vehicle manufacturer must have an opportunity to approve the use of any retrofit device on his vehicles or, in the alternative, that state law must specifically relieve the manufacturer of any responsibility.

The suggestion that the installation of retrofit devices be made to depend upon automobile manufacturers' approval must be rejected because it is always to the automobile manufacturer's disadvantage to assume liability for engine failure or unsafe operation caused by retrofit devices not of their manufacture. Also, under traditional principles of tort liability, the vehicle manufacturers would not be held liable for damages or injuries caused by use of a device which he did not offer for use or approve, thereby obviating the need to protect the automobile manufacturer through granting him veto power over installation of retrofit devices or by specifically disengaging him from responsibility for adverse effects of retrofit devices through state law.

It is legally sound and advisable for the states to require retrofit device manufacturers to warrant against engine damage and excessive emissions, the latter being similar to Congress's actions under § 207 of the Clean Air Act. EPA encourages the states to take this action where state law does not already so provide.

Other changes from the proposal include changes to the maintenance allowed during mileage accumulation on the durability fleet and a change in the method of calculating the deterioration factor.

Tuneup during the 15,000 miles to be accumulated on durability vehicles will not be allowed unless poor vehicle operation has been noticed by the driver of the vehicle and EPA approval of the tune-up is obtained. Also, no maintenance of the retrofit device during mileage accumulation will be allowed. This change has been made to increase the meaningfulness and comparability of the durability data. The 15,000 miles approximates an annual accumulation rate. Since annual inspection/maintenance will be coupled with retrofit implementation, it is expected that the need for tuneup and retrofit maintenance will be identified and performed only annually for the average vehicle.

The emissions deterioration factor in the proposed program was expressed as the fractional change per mile in the initial emission level after installation of the retrofit device. A more useful way to express deterioration is as the percentage change in the initial emissions reduction at 15,000 miles. Thereby, if the deterioration of a device was said to be 60 percent at 15,000 miles, it would mean that 15,000 miles after installation the device had lost 60 percent of its initial emissions reduction, or, in other words, 60 percent of its initial effectiveness. Thus, a deterioration factor of 0 percent indicates that the device is as effective after 15,000 miles as it was on the first mile. A deterioration factor of 100 percent indicates the device has lost all of its effectiveness after 15,000 miles. This means of expressing deterioration is adopted in this publication.

On May 7, 1974, the Environmental Protection Agency published in the FEDERAL REGISTER a statement of policy on environmental impact statements. Briefly, that policy is that the Agency will prepare environmental impact statements on its most significant regulatory actions, although not required by law to do so. Since this voluntary retrofit evaluation program is not a regulatory action, no environmental impact statement has been prepared.

The voluntary retrofit device evaluation program is set forth below and is operational immediately.

Dated: January 14, 1975.

RUSSELL E. TRAIN,
Administrator.

1.0 *General provisions.*

1.1 *Program goals.* The purpose of this program is to provide a standardized and centralized evaluation program to compile technical data on various exhaust emission retrofit devices applicable to light duty vehicles. The program does not include test procedures suitable for the evaluation of fuels, fuel additives, refueling loss retrofit devices, or evaporative emission control retrofit devices.

Data generated under this program will be evaluated by the Administrator of the Environmental Protection Agency (EPA) and published for use by those authorities, state and local, responsible for the implementation of transportation controls to assist in the achievement of ambient air quality goals. It should be stressed that the role of this program will be the generation, analysis and dissemination of technical data, and not one of approval or certification of retrofit devices.

The program will primarily address the emission control potential, durability, driveability, and fuel consumption effects of specific retrofit devices presented for evaluation. Multiple vehicle testing will allow statistical analysis of the test results. Testing is intended to be performed at independent testing laboratories, and will be subject to monitoring and inspection by the Administrator. All costs incurred in the evaluation other than those of the EPA's participation will be the responsibility of the applicant for evaluation.

1.2 *Eligibility for participation.* Participation in this evaluation program will be available to any individual or company who agrees to follow the procedures set forth in these protocols. Failure to conform to any aspect of these protocols, without the approval of the Administrator may be interpreted as withdrawal from participation in the program.

1.3 *Applicant's responsibilities.* Each applicant for evaluation under this program will be responsible for the following:

(a) Submission of an application, of specified format, to the Administrator prior to initiation of the evaluation. Each application shall include summaries of any information available to the applicant concerning:

(i) Whether or not the device or system in its operation or function causes a motor vehicle equipped with that device or system to emit into the ambient air any substance (other than hydrocarbons, carbon monoxide, oxides of nitrogen, or normal atmospheric constituents such as oxygen, nitrogen, or water vapor) in a quantity differing from that emitted in the operation of the motor vehicle without such device or system, and

(ii) Whether or not the device or system in its operation or function or malfunction results in any unsafe condition endangering the motor vehicle or its occupants or persons or property in close proximity to the vehicle.

(b) Arrangement with independent testing laboratories for testing necessary for all phases of the evaluation.

(c) Payment of all costs incurred in the evaluation, including the costs of shipping vehicles to the EPA's Motor Vehicle Emissions Laboratory in Ann Arbor, Michigan, when required, except for the costs of the EPA participation.

(d) Submission of progress reports and notifications to the Administrator as specified in these protocols.

(e) Submission of a final report, of specified format, to the Administrator promptly after completion of the evaluation (details in section 8.2).

1.4 *Definitions:* (a) Except as specifically defined below, all terms used in these protocols which are defined in the Clean Air Act (42 U.S.C. 1857, F–1 through F–7, as amended by Pub. L. 91–604) or Subpart A of Title 40, Part 85 of the Code of Federal Regulations shall have the meanings provided therein.

(b) "Retrofit" means the addition of a new item, modification or the removal of an existing item of equipment beyond that of regular maintenance, which is made to a motor vehicle after its initial manufacture for the purpose of reducing emissions.

(c) "Light duty vehicle" means a passenger car or passenger car derivative capable of seating 12 passengers or less.

(d) "Baseline configuration" means the unretrofitted test configuration after the vehicle manufacturer's specified tune-up maintenance has been performed.

(e) "Parametrically adjusted configuration" means the test configuration after adjustment of engine parameters to the retrofit specifications, but excluding retrofit hardware installation.

(f) "Retrofitted configuration" means the test configuration after adjustment of engine parameters to the retrofit specifications and after all retrofit hardware has been installed.

(g) "Zero device-miles" means that period of time between retrofit installation and the accumulation of 50 miles of vehicle operation after installation.

(h) "Emission data fleet" means a fleet of vehicles tested at 'zero device miles' in 'baseline configuration', the 'retrofitted configuration', and in some cases, the 'parametrically adjusted configuration' in order to determine the average emission reduction of the 'retrofitted configuration' and where applicable the 'parametrically adjusted configuration' as compared to that of the 'baseline configuration".

(i) "Durability fleet" means a fleet of vehicles operated for mileage accumulation used to assess deterioration effects associated with the retrofit device.

(j) "Federal emission test procedures" means the test procedures specified in §§ 85.075–7 through 85.075–27 of Title 40, Chapter I, Part 85 of the Code of Federal Regulations in effect on the date of adoption of these protocols, except as those procedures are modified in these protocols.

(k) "Hot Federal emission test procedure" means the operation of the vehicle through one (1) EPA Urban Dynamometer Driving Schedule, a 10-minute soak, followed by an additional operation of the vehicle through another EPA Urban Dynamometer Driving Schedule. An exhaust sample is continuously collected during the second EPA Urban Dynamometer Driving Schedule for subsequent emission analysis.

(l) "Preconditioning" means the operation of the vehicle through one (1) EPA Urban Dynamometer Driving Schedule.

(m) "Independent laboratory" means a test facility operated independently of any motor vehicle, motor vehicle engine, or retrofit device manufacturer for the purpose of performing retrofit device evaluation emissions tests. Additionally, the laboratory shall have no financial interests in the outcome of these tests other than a fixed fee charged for each test performed.

2.0 *Vehicle fleet selection.*

2.1 *Emission data fleet.* In order to compile data on the effectiveness of specific devices which will ultimately allow state authorities to make realistic device approval decisions, the following statistical goals have been established for this

V 40 15 JAN 22 75 XUM

program. It is desired that the experiment allow determination of the mean percent reduction (or increase) of hydrocarbons, carbon monoxide, and oxides of nitrogen within a band of ±5% with 90 percent confidence. For example, the results of a particular evaluation might state that the mean hydrocarbon reduction associated with the device is a measured reduction of 25 percent within a band of 20 to 30 percent with 90 percent confidence.

An analysis of the variance experienced in various device evaluations previously performed by the Administrator indicates that a maximum sample size of 113 vehicles should be needed to obtain the desired statistical assurance.

To determine the sample size required for a particular device evaluation, two approaches are available to the applicant. First, the applicant may elect to use a sample size of 113 vehicles. Alternatively, the applicant may conduct a preliminary device evaluation using a 10-vehicle fleet approved by the Administrator. The preliminary test data will be analyzed for variance by the Administrator and a new sample size will be determined which could be 113 or fewer vehicles. The data from the 10 vehicles can be included in the overall analysis. Discussion of the statistical test to be used for fleet sizing can be found in Appendix A.

Once the sample size has been determined, the Administrator will specify the test fleet makeup by model, model year, engine displacement and transmission type. The sample of vehicles to be tested will be representative of the distribution of vehicles in the national population to which the device applies. Because of their limited availability and relatively small impact on air quality, no vehicles more than ten years old will be selected for evaluation. As appropriate, the oldest model year represented will be weighted to account for those older vehicles still in use.

2.2 *Durability fleet.* A fleet of ten vehicles whose composition has been selected by the Administrator using the same criteria as for the emission data fleet, shall be operated and tested through 15,000 miles of device operation.

In order to maximize the potential analysis and interpretation of the information obtained from the durability portion of the program, and to ascertain durability vehicles' engine condition, it is required that each vehicle to be included in the mileage accumulation portions of the program be subjected to engine diagnostic tests prior to and immediately following mileage accumulation (the vehicle to be in the baseline configuration). While certain diagnostic tests will be specified relative to the specific retrofit device under evaluation, the following tests will be performed, analyzed, and reported for each vehicle (tests to be performed as specified by the vehicle manufacturers' shop service manual):

(a) Engine parameters—timing, dwell, idle speed, idle mixture, idle vacuum.
(b) Cylinder compression.
(c) PCV flow.
(d) Plug voltage and ignition wire inspection.
(e) Cylinder leak down.

2.3 *Test vehicle tune-up.* All vehicles employed in evaluations within this program will be adjusted to the vehicle manufacturer's specifications prior to conducting baseline testing. The following items may be replaced as necessary with OEM or equivalent replacements:

(a) Oil.
(b) Oil filter.
(c) Air cleaner element.
(d) Spark plugs.
(e) Condenser.
(f) Distributor rotor.
(g) Distributor points.
(h) Ignition wires.
(i) Distributor cap.
(j) PCV valve.

No adjustments or replacements can be made to any internal engine component. Exhaust systems must be repaired to provide a leak-free system. A close visual scrutiny of each vehicle in the program must be made to assure this leak-free condition. OEM or equivalent parts will be used for replacement of exhaust system components. At least 50 miles of break-in shall be run to provide for removal of drawing oil residue on the replacement parts before beginning the specified tests.

2.4 *Vehicle rejection.* No vehicle within the confines of the selection criteria may be rejected from the program once it has been received by the independent laboratory unless such gross mechanical defects are exhibited as would severely threaten its ability to complete the testing sequence. While diagnostic or inspection tests may be conducted, vehicles will not be rejected due to the results of engine diagnostic tests or inability to adjust engine parameters to the automobile manufacturer's or retrofit installation specifications.

3.0 *Emission test procedures.*

3.1 *Light duty vehicle emission testing.* For the purpose of evaluation under these protocols, testing will utilize the Federal emission test procedure (at altitudes under 549 meters (1,800 feet) except as provided under section 5.4 and 5.5). However, the following modifications will be allowable to the Federal emission test procedures for evaluation of light duty vehicles under these protocols:

(a) No evaporative emission loss, as specified by the Code of Federal Regulations, Part 85, § 85.075–13, need be measured (with the exception of systems modifying or disconnecting existing evaporative control devices or systems in such a manner as would be expected to adversely affect their evaporative emission control performance).

(b) Vehicle preconditioning shall consist of operation of the vehicle through one EPA Urban Dynamometer Driving Schedule. This preconditioning must be done at least 12 hours before, but no earlier than 24 hours before the emission test.

(c) While the test fuel must meet the specifications outlined in the Code of Federal Regulations, Part 85, § 85.075–10, fuel conditioning as specified for evaporative emission test procedures is not required.

(d) Hot Federal emission test procedure testing will be allowed if an adequate correlation can be established between the hot Federal emission test procedure and the Federal emission test procedure. An adequate correlation exists if the sample size required to bracket the percent reduction estimate is considered satisfactory to the applicant upon solution of Equation (B4) found in Appendix B. The general approach presented in Appendix B, Qualification of Previous Data, can be applied to the collection of new data by the hot Federal Emission Test Procedure with the intention of putting a fixed width confidence interval around the mean percent reduction of each pollutant measured by the Federal Emission Test Procedure. The applicant will be required to test the initial sample of ten vehicles by the Federal Emission Test Procedure. For each vehicle, a mean percent reduction in emissions would be calculated. In addition, the results of bags two and three (the cold stabilized bag and the hot transient bag) would be used to calculate an equivalent hot Federal emission test procedure mean percent reduction. Based on these results, a measurement of the correlation, r, is computed. The width of the confidence interval can be set equal to 5 percent in order to solve for n', the size of the hot Federal emission test procedure data base which would be required. Confidence width: $5=(1.833)\sqrt{V(\bar{y}_i)}$, where $V(\bar{y}_i)$ is defined in equation (B–2) Appendix B. The manufacturer would then be allowed to test n' additional vehicles selected by the fleet selection procedure in order to establish an estimate of the mean percent reduction with a confidence of ±5 percent. The applicant should realize that this procedure will result in more total emission data fleet tests than the Cox tow sample procedure which is based on all 1975 Federal emission test procedure testing (see Appendix A). In choosing a procedure, the applicant can trade-off the reduced cost of hot Federal emission test procedure testing against the increased number of hot Federal emission test procedure tests required to achieve the same confidence level. Once the initial ten vehicles have been tested, the applicant will be required to commit himself to one of the two specified procedures.

An example is given to illustrate the trade-offs which exist between number of tests and cost of test. The following set of data can be considered as representing the reduction of an initial set of ten vehicles.

SAMPLE DATA ON 10 VEHICLES

Cold Federal emission test procedure	*Hot Federal emission test procedure*
10	20
25	40
30	40
25	35
15	10
20	20
25	20
35	40
30	40
50	40

The number of additional vehicles needed to place a ±5% confidence interval around the mean percent reduction can be computed. If the additional vehicles are to be tested by the hot Federal emission test procedure, an additional 8 vehicles would be needed. This number is arrived at by solving for n' in equation (B–4) Appendix B. If the additional vehicles are to be tested by the 1975 Federal emission test procedure, an additional 2 vehicles would be needed. This number of 2 is based on the solution of equation (A–5) found in Appendix A.

3.2 [Reserved]

3.3 *Emission test configurations.* In order to measure the effectiveness (at zero device-miles) of a retrofit device or system, at least two, and in some cases three, vehicle configurations will be tested.

The first test configuration is a baseline test. In this test the baseline or unretrofitted vehicle emissions will be measured.

The second test may be required at the discretion of the Administrator for the following reason: If a device concept uses both hardware and engine parameter monifications jointly to achieve emission control, it is necessary to distinguish the hardware effects from the parameter adjustments effects. If, in the Administrator's judgement, based on a review of the application for evaluation, the combined effects of retrofit hardware installation and parametric adjustment could be substantially duplicated by parametric adjustment alone, then the Administrator may specify a second test, defined as the parametrically adjusted configuration, to evaluate such adjustment exclusive of the retrofit hardware.

The third test will evaluate the full retrofit system installed on the vehicle.

4.0 *Durability test procedures.*

4.1 *Test configuration.* Vehicles included in the durability fleet will be subjected, at zero device-miles, to the same test sequence as is specified in Section 3.3, with the exception that the baseline tests will be done in duplicate. Subsequently, they will be tested at 3,000 device-mile intervals, up to and including the final mileage point of 15,000 device-miles. Testing at these mileage points will be performed with the vehicle equipped with the full retrofit system.

Subsequent to the 15,000-mile test the vehicle will be tuned as necessary and the retrofit adjusted to the applicant's specifications. The fully restored retrofitted configuration will then be tested. The retrofit system will then be removed from the vehicle and the vehicle set to vehicle manufacturer's specifications. A tuned baseline test will then be conducted in duplicate.

4.2 *Mileage accumulation procedure.* Mileage accumulation procedures shall follow those outlined in the Code of Federal Regulations, Part 85, § 85.075–7, except as amended by these protocols. The light duty mileage accumulation schedule or a suitable alternate procedure approved by the Administrator will be used. An alternate mileage accumulation procedure has been approved by the Administrator and is detailed in MSAPC Advisory Circular No. 37 dated December 20, 1973. This Advisory Circular reflects the reduction to 55 mph of the maximum speed limits on public roads.

Fuel used in the mileage accumulation shall be a commercial fuel available in the retail market and conform to the requirements of § 85.075–10(b). The fuel specifications of the commercial fuel utilized will be reported to the Administrator in the final report.

4.3 *Maintenance.* Maintenance during the durability portion of this evaluation can best be considered in three separate categories:

(a) Normal scheduled vehicle maintenance.
(b) Unscheduled vehicle maintenance.
(c) Retrofit maintenance.

Normal scheduled vehicle maintenance can be defined as those periodic services specified in the original owner's manual supplied to the owner at the time of new vehicle purchase. Normal periodic engine oil changes, vehicle lubrication, and oil filter changes, as specified in the original owner's manual, will be allowed during durability mileage accumulation. However, for purposes of these protocols, the following items of normally scheduled vehicle maintenance will not be allowed during the durability mileage accumulation of 15,000 miles:

(a) Normal tune-up items:
(i) Spark plugs.
(ii) Condenser.
(iii) Rotor.
(iv) Distributor contact points.
(b) Air cleaner element.
(c) Inspect PCV.
(d) Dwell and timing check.
(e) Charging circuit check.

Periodic maintenance items, other than those listed above that are specified in the original owner's manual may be performed upon approval of the Administrator. Notification shall be made to the Administrator of the intent to perform such additional periodic maintenance. The notification shall detail both the nature and frequency of the additional planned maintenance in accordance with the recommendations in the original owner's manual. No such maintenance will be performed without the approval of the Administrator.

Because the vehicles used for durability evaluation in this program will probably have considerable mileage accumulation and unknown maintenance prior to inclusion in the program, it can be anticipated that certain vehicle and engine failures may occur. These failures may be unrelated to the retrofit device. Unscheduled maintenance will be allowed only in those cases where a significant driveability problem has been indicated by the driver of the vehicle. With the exception of the following, the Administrator shall be notified of the failure and must approve the maintenance prior to correction of the problem:

(a) Tire replacement (same size).
(b) Vehicle body repairs (remote from engine and retrofit).
(c) Windshield wipers.
(d) Fluid levels unrelated to retrofit.
(e) Brakes.
(f) Hoses unrelated to retrofit.
(g) Belts unrelated to retrofit.
(h) Suspension failures.
(i) Wheel alignment.
(j) Steering.
(k) Wheel bearings.
(l) Non engine electrical system.
(m) Drivetrain components (U-joints, axles, transmission adjustments, etc.).

No other unscheduled maintenance of the engine or drivetrain may be made without the prior approval of the Administrator. Upon notification of a need for unscheduled maintenance, the Administrator may decide that before and after maintenance emission tests are required. If any questionable failure occurs, a general rule to notify the Administrator prior to performance or corrective maintenance will be the safest course of action.

Certain retrofit devices may require periodic maintenance. These maintenance requirements shall be detailed in the application to the Administrator. However, maintenance of the retrofit device shall not be performed during the accumulation of durability mileage of 15,000 miles.

A log of all maintenance shall be kept for every vehicle. These logs will be summarized and reported to the Administrator in the final report.

5.0 *Other test procedures.*

5.1 *Driveability effects.* It is important to assess the impact which installation of a specific retrofit device may have on vehicle driveability. Driveability assessment (at normal ambient temperatures) of the baseline configuration, of the parametric adjustment configuration (if required), and of the fully retrofitted configuration shall be conducted at zero device-miles for all vehicles included in the durability fleet, and at approximately zero device-miles for two (2) of these vehicles at low ambient temperatures (0°F–20°F). Driveability evaluation procedures to be used are presented in Appendix C.

5.2 *Fuel consumption effects.* Part of the cost or benefit of a retrofit system can stem from that system's effect on fuel consumption. Carbon balance fuel consumption shall be calculated for all emission tests in all configurations during the evaluation program. Details of the carbon balance calculation are presented in Appendix D.

V 40 15 JAN 22 75 XUM

The applicant may use, in addition to, but not in place of, the conventional carbon balance measurement, a gravimetric analysis of fuel consumption and/or the recently developed Environmental Protection Agency's Fuel Economy Highway Driving cycle, (39 FR 36847; October 15, 1974). If the applicant utilizes either of these techniques, the results shall be reported in the final report to the Administrator.

5.3 *Specialized testing (required by the Administrator).* Many of the ultimate users of the data generated by these protocols are contemplating inspection procedures incorporating either an idle mode and/or the loaded mode test. Therefore, both of these tests will be performed whenever the Federal test procedure is performed.

Idle-mode test. The Idle-mode test is conducted by measuring two emission samples from each exhaust outlet. The first emission sample is collected with the vehicle's transmission in neutral and the engine operating at 2250 rpm. The second sample is collected with the vehicle's transmission in the position recommended by the manufacturer for adjusting the idle speed, and the engine idling. An engine speed indicator with a graduated scale from zero to at least 2500 rpm is used for this test.

Loaded-mode test. The Loaded-mode test for the first two phases of the driving cycle described in Table I is conducted by measuring the levels of emission concentrations from each exhaust outlet of a motor vehicle operated on a chassis dynamometer, with the vehicle's transmission in the setting recommended by the vehicle manufacturer for the speed-load combination being tested. For the idle phase, vehicles with automatic transmissions are tested in drive, and vehicles with standard transmissions are tested in neutral.

TABLE I.—*Driving cycle (speed-load combinations)*

Curb weight plus 300 lb	1st phase—high cruise	2d phase—low cruise	3d phase—Idle
3,801 lb and up	48 to 50 mi/h at 27 to 30 hp	32 to 35 mi/h at 10 to 12 hp	At idle.
2,801 to 3,800 lb	44 to 46 mi/h at 21 to 24 hp	29 to 32 mi/h at 8 to 10 hp	Do.
2,000 to 2,800 lb	36 to 38 mi/h at 13 to 15 hp	22 to 25 mi/h at 4 to 6 hp	Do.

Both the Idle-mode and Loaded-mode tests are conducted with the vehicle engine at its normal operating temperature, as specified by the vehicle manufacturer.

The equipment used for analyzing the emission concentration levels by either test procedure shall have the following characteristics:

(a) A warm-up period not to exceed 30 minutes;

(b) An ability to withstand sustained periods of continuous use;

(c) A direct and continuous meter readout that allows readings for concentration levels of carbon monoxide (CO) from 0–10%, and of hydrocarbon (HC) from 0–2000 ppm hexane; and, if used for the loaded-mode inspection, at least one additional expanded direct and continuous readout for concentration levels of carbon monoxide and of hydrocarbon, such as from 0–5% and from 0–1000 ppm hexane, respectively;

(d) An accuracy of better than ±5% of the full scale reading for each concentration range;

(e) An ability to be read for each emission concentration level, within 10 seconds after the emission sample has been taken, that is not less than 90 percent of the final reading; and

(f) A calibration system using a standard gas, or an equivalent mechanical or electrical calibration system which itself is based on a standard gas.

5.4 *Specialized testing (Administrator's discretion).* Certain individual retrofit devices, due to their specific characteristics, may change engine operation in such a way as to potentially impact engine durability or cause potentially hazardous operational characteristics. It can be visualized, for instance, that dangerous cooling system temperature conditions, high exhaust valve temperatures, excessive noise levels or increased octane requirements may be encountered for certain devices. Evaluation of these problem areas will be a part of the retrofit evaluation program. In general, these specific evaluations will be limited to the durability fleet vehicles. The Administrator may specify any additional evaluations required for a particular device subsequent to the receipt of the retrofit evaluation application. These evaluations will be based on a technical review of the operation principles of the specific device. For example, these discretionary specialized tests might include emission and driveability testing under high altitude conditions (84.38 kPa (24.72 inches Hg) plus or minus 2.77 kPa (0.82 inches Hg)).

Upon notification from the Administrator that additional specialized tests are required, the applicant will submit a detailed test program for the Administrator's approval, outlining the testing procedures and test location before initiating specialized testing.

5.5 *Specialized testing (applicant's option).* The Administrator recognizes that some applicants may be desirous of accumulating additional test data at optional test conditions other than those test conditions specified in the 1975 Federal Emission Test Procedure. The Administrator will accept emissions and/or driveability test data generated under the aforementioned high altitude conditions, at high ambient temperatures (90–110°F), at low ambient temperatures (0–20°F) or in dusty environments, for inclusion in the final technical report. *Provided,* The data are generated on no fewer than five vehicles which are similar to those vehicles selected by the Administrator for the emissions or durability test fleets. The five vehicles will be tested in the baseline, parametrically adjusted (if necessary) and the retrofitted configuration utilizing the cold start 1975 Federal Emission Test Procedure at the optional test condition.

If the applicant wishes to submit previously accumulated data generated under the aforementioned optional test conditions on any test procedure (7 mode, hot start, etc.) other than the 1975 Federal Emission Test Procedure, it will be accepted provided correlation data are submitted on a minimum of five vehicles. Each correlation vehicle will be tested in the baseline, parametrically adjusted (if necessary) and the retrofitted configuration utilizing both the other test procedure and the 1975 Federal Emission Test Procedure at the same optional test condition. For example, both sets of tests would be performed at 100° F on the same vehicles. These data along with any additional data collected at optional conditions will be used to establish the correlation coefficient and confidence interval around the comparable 1975 Federal Test Procedure reduction.

The Administrator will comment in the final technical report about the statistical confidence, applicability, and technical merits of the optional test condition data submitted by the applicant.

6.0 *Use of previously accumulated test data.* The administrator is cognizant of the fact that prior to issuance of this protocol, some applicants may have accumulated emission and durability test data for their retrofit devices using test procedures other than the Federal emission test procedure. Rather than burden these applicants with repetitious testing, the Administrator has formulated a procedure for qualification of previous data. This procedure is outlined in Appendix B. If previous data are submitted for qualification, it will include all previous emission and durability data collected on those vehicles equipped with the retrofit devices as described in the application for evaluation.

The following general guidelines will be followed in the Administrator's analysis of the suitability of previous data:

(a) Data must have been compiled on a form of the retrofit system which is identical to that currently being evaluated.

(b) The vehicles used for testing must have been substantially identical to those which would be specified in this program, thus, the Administrator is forced to drastically limit the use of the California controlled cars in this evaluation (no more than 10 percent, roughly corresponding to the national distribution).

(c) A correlation factor must be developed which results in a confidence interval within the bounds specified in Appendix B.

(d) The previous testing must have reasonably corresponded to the general procedural conditions specified in this

evaluation; e.g., vehicle tune-up procedures, exhaust system repair, etc.

Qualification of previously acquired durability data will follow the same guidelines with the additional requirements that mileage accumulation procedures and maintenance practices must be reasonably comparable to those specified in this program.

7.0 *Device installation.* In order to assess the requirements for proper device installation through this evaluation, the following procedures should be followed:

(a) Installers will be selected by the testing laboratory who have had no previous experience with installation of the specific system under evaluation.

(b) The applicant will design and conduct necessary training sessions and supply printed instructions to the installers.

(c) The applicant will not directly participate in the installation task.

(d) Anomalies encountered during installation will be corrected. Details on the problem and actions required to avoid the problem in future installations will be submited in the final report.

(e) Accurate records of the time required for installation and tools or equipment used for installation must be kept.

8.0 *Program Administration.*

8.1 *Application format.* In order to compile relevant data on specific retrofit control techniques and to allow timely response by the Administrator to requests for evaluation, a standard application format should be used. Submissions should be made to:

Director, Emission Control Technology Division
Environmental Protection Agency
2565 Plymouth Road
Ann Arbor, Michigan 48105
ATTN: Retrofit Evaluation

Four weeks should be allowed for analysis of the submission and response. As indicated in other sections of this document, evaluation may not proceed prior to the Administrator's approval of test fleets, specification of necessary parametric testing and other testing requirements, and approval of proposed maintenance.

To facilitate rapid response by the Administrator, the application should concisely and yet fully detail the following: (It is recommended that the topics be organized in the same manner as the following outline).

APPLICATION FORMAT

I. DEVICE OR CONTROL TECHNIQUE DESCRIPTION

A. Operational theory.
B. Hardware description.
1. Component description.
2. Connections and interfaces to vehicle and/or engine.
3. Sensors or modulators and calibration and trigger points.
4. Materials used in device construction.
5. Parametric adjustments.
C. Pictorials showing installation.
D. Retail cost estimate (device cost and installation cost).
E. Useful life (method of testing and data).

II. DEVICE APPLICABILITY

A. Applicability to vehicle population.
1. By make and model.
2. By model year.
3. By engine.
B. Exceptions (e.g., multiple carburetion, fuel injection, 4-cylinder engines, trailer towing, high speed, etc.).

III. INSTALLATION REQUIREMENTS

A. Printed installation instructions.
B. Mechanic training required.
C. Tools and/or equipment required.
D. Estimated installation time.
E. Parametric engine adjustments.
F. Diagnostic procedures (special equipment).

IV. DEVICE MAINTENANCE

A. Frequency.
B. Maintenance description.
C. Time required.
D. Tools, equipment, materials.
E. Estimated cost to consumer.
F. Diagnostic procedures.

V. EXISTING TEST DATA (INCLUDING INFORMATION REQUIRED BY SECTIONS 3.1(D) AND 6.0 OF THESE PROTOCOLS.

VI. PROPOSED TESTING LABORATORY

A. Facility description.
B. Capabilities.
C. Calibration and maintenance procedures.

8.2 *Reporting format.* In order for the Administrator to quickly analyze and disseminate the results of retrofit evaluations, the following report format should be employed and submitted to:

Director, Emission Control Technology Division
Environmental Protection Agency
2565 Plymouth Road
Ann Arbor, Michigan 48105
ATTN: Retrofit Evaluation

REPORT FORMAT

I. RETROFIT DEVICE EFFECTIVENESS DATA (DATA FLEET)

A. Summary.
1. Applicability (device).
2. Observed mean percent reduction (see Appendix A).
B. Test Fleet Description (tabular).
1. Make and model.
2. Model year.
3. Engine (CID).
4. Carburetion.
5. Transmission.
6. Odometer mileage.
7. Program car number.
8. Vehicle serial number.
C. Emission Data.
1. Program car number.
2. Baseline, HC, CO, CO_2, NO_x, fuel consumption.
3. Parametric HC, CO, CO_2, NO_x, fuel consumption (if required).
4. Retrofitted HC, CO, CO_2, NO_x, fuel consumption.
D. Discussion of Statistical Analysis (see Appendix A).

II. DURABILITY RESULTS (DURABILITY FLEET)

A. Summary.
1. Individual plots of HC, CO, CO_2, NO_x and fuel consumption vs. mileage for the retrofitted vehicles.
2. Device deterioration factors for individual vehicles and fleet average (see analysis technique in Appendix A).
3. Percent return in effectiveness of the fully retrofitted configuration due to the 15,000-mile tune-up as compared to the untuned baseline for individual vehicles and fleet average.
B. Test Fleet Description (tabular).
1. Make and model.
2. Model year.
3. Engine (CID).
4. Carburetion.
5. Transmission.
6. Odometer mileage (beginning and ending).
7. Program car number.
8. Vehicle serial number.
C. Emission Data versus Mileage (tabular).
1. Program car number.
2. Retrofitted configuration HC, CO, CO_2, NO_x and fuel consumption vs. mileage.
D. Vehicle and Device Installation and Maintenance.
1. Detailed description of all maintenance performed.
2. Emission test results, where requested, before and after maintenance.
3. Installation time requirements.

III. RESULTS OF OTHER TESTING

A. Driveability.
B. Special tests.
C. Idle and loaded mode tests.

8.3 *Environmental Protection Agency Monitoring.* In addition to those aspects of normal contact with the applicant discussed in previous sections, the Administrator will, to the extent possible, monitor the progress and execution of the retrofit evaluations. This monitoring may include announced and unannounced visits to testing sites, checks of raw data files, and limited correlation and/or confirmatory testing in the Environmental Protection Agency's Ann Arbor Laboratory (vehicle to be shipped to Ann Arbor at applicant's expense if required by the Administrator).

Deficiencies will be reported to both the laboratory and to the applicant in order to facilitate correction. If necessary, caveats concerning the validity of the test results will be added to the test report by the Environmental Protection Agency prior to dissemination.

8.4 *Laboratory qualifications.* In order to qualify as a testing laboratory for this program, a facility must be so equipped as to be capable of conducting emission tests according to the Federal test procedures as specified in these protocols. In addition, the test facility should have the capabilities required for device installation, vehicle maintenance, and other testing as discussed in previous sections. Finally, the testing laboratory must meet the definition of independent laboratory as defined in Section 1.4.

APPENDIX A—STATISTICAL PROCEDURES

I. *Determination of emission data fleet size.* Under these protocols, the applicant will elect to use either a one-stage or a two-stage sampling procedure for determining the size of the emission data fleet. The two-stage procedure requires a separate initial testing program and additional statistical analysis, but may result in a smaller total testing requirement than the one-stage procedure.

A. *One-stage sampling procedure.* If the applicant elects the one-stage sampling procedure, the size of the emission data fleet is automatically set at 113 vehicles. This number has been determined by the Administrator based upon the desired statistical confidence in the mean emission reduction

V 40115 JAN 22 75 XUM

for the emission data fleet and the variability observed in previous device evaluations conducted by the Environmental Protection Agency. The composition of the fleet in terms of models, model years, engine displacements, and transmission types to be included will be specified by the Administrator considering the applicability of the device specified in the application for evaluation.

B. *Two-stage sampling procedure.* If the applicant elects to employ the two-stage sampling procedure, he will be required to arrange initially for emission data (zero device-mile) testing of a 10 vehicle fleet. The composition of the initial fleet will be specified by the Administrator after review of the application for evaluation.

Based upon the results of such testing, the applicant will be required to report to the Administrator separately for each pollutant (HC, CO, and NOx) and fuel consumption, the individual vehicle test results, the sample mean percent reduction ($\bar{p}$), and the sample variance (s^2). (See equations (A-2) and (A-3), below.)

$$P_i = \frac{Y_{i1} - Y_{i2}}{Y_{i1}} \times 100\% \qquad \text{(A-1)}$$

P_i = percent reduction (increase) in emissions or fuel consumption for the ith vehicle,

Y_{i1} = baseline emissions in grams/mile or fuel consumption in gallons/mile for the ith vehicle, and

Y_{i2} = emissions in grams/mile or fuel consumption in gallons/mile for the ith metrically adjusted) configuration. vehicle in the retrofitted (or para-

$$\bar{p} = \frac{\sum_{i=1}^{n} p_i}{n} \qquad \text{(A-2)}$$

where:

$\bar{p}$ = sample mean percent reduction of the retrofitted (or parametrically adjusted) configuration relative to the baseline configuration, and

n = total number of vehicles in the sample.

$$s^2 = \frac{\sum_{i=1}^{n} (P_i - \bar{p})^2}{n-1} \qquad \text{(A-3)}$$

where:

s^2 = sample variance.

The required size of the second sample (the remainder of the emission data fleet which will be required to be tested) will be determined by the Administrator using the data submitted for the initial fleet. The total size of the emission data fleet will be selected to provide assurance that the mean percent reduction of each pollutant can be bracketed within a band of at most plus or minus five percent with 90% confidence. The procedure which will be used to size the second sample is discussed in "Estimation by Double Sampling", by W. R. Cox (Biometrica, 1952, Vol. 39). The sample size is given by:

$$n = \frac{4 s_1^2}{\Delta^2} \left(1 + \frac{2}{N}\right) g_a^2 \qquad \text{(A-4)}$$

where:

n = size of total test sample,

s_1^2 = variance of first sample,

Δ = full width of desired confidence interval expressed as a fraction,

N = sample size of first sample, and

g_a = the normal deviate exceeded with probability α.

In this case, $N=10$, and $\Delta=0.10$ and $g_a=1.645$ to achieve the desired confidence intervals. Thus, equation (A-4) reduces to:

$$n = 1298.9(s_1^2) \qquad \text{(A-5)}$$

where:

s_1^2 is expressed in decimal fractions and n, the total sample size, is taken to the next higher integer.

Thus, the Administrator will use formula (A-5) and the results of the initial fleet test to determine the total size of the emission data fleet. The total sample size will be the largest of the three values of "n" calculated from equation (A-5) for the three pollutants, but in no case will the total sample size be selected at a value greater than 113 vehicles. The initial fleet of 10 vehicles will be counted as part of the total emission data fleet, and the Administrator will specify the composition of the remainder of the fleet.

II. *Statistical analysis of test results for reporting*—A. *Emission data fleet*—1. *Calculation of mean percent reductions.* For each pollutant and for fuel consumption, the mean percent reduction ($\bar{p}$) will be calculated according to equation (A-2). Data from all emission data vehicles tested, including the initial 10 vehicle fleet for the two-stage sampling procedure, will be used.

2. *Calculations of confidence intervals.* For each pollutant and for fuel consumption, the 90 percent confidence interval around $\bar{p}$ will be calculated as follows:

$$90\% \text{ confidence interval} = \bar{p} \pm (1.645)\frac{s}{\sqrt{n}} \qquad \text{(A-6)}$$

Where:

s = the standard deviation, the square root of the variance, and

n = the size of the total emission data fleet.

3. *Calculation of the median.* The median is the point on the scale of observations on each side of which there are equal areas under the frequency distribution, the 50th percentile point. Thus, the median is the middle observation if there are an odd number of observations. The median is the mean of the two central observations if there are an even number of cases. For each pollutant and for fuel consumption, the median will be computed.

4. *Outlier analysis.* An outlier is defined as any observation which is greater than $\bar{p}+3s$ or less than $\bar{p}-3s$ where $\bar{p}$ is the sample mean percent reduction and s is the sample standard deviation. For each pollutant and for fuel consumption, all outliers will be listed along with an explanation of possible causes.

5. *Histograms.* For each pollutant and for fuel consumption, a histogram will be calculated. The histogram should contain approximately $\sqrt{n}$ subdivision where n is the total sample size.

6. *Ranked list of observations.* For each pollutant and for fuel consumption, a separate ranked list of test results will be prepared listing all results in order of decreasing percent reduction. These lists will be used by the Administrator to extract any patterns which are present in the data. Each list should present for all three pollutants and fuel consumption the percent reduction, baseline, and retrofitted (or parametrically adjusted) values, and the car number, make, model year, and engine displacement.

B. *Durability fleet*—1. *Graphical presentation of data.* Individual plots will be prepared for each vehicle for each pollutant and for fuel consumption showing the observed absolute emission or fuel consumption levels at each mileage test point for the fully retrofitted configuration. The mean of the tuned vehicle results prior to applying the retrofit device and the mean of the vehicle test results after completion of durability testing and the removal of the device should appear on the same plot.

2. *Calculation of deterioration factors.* For each pollutant and for fuel consumption, separate linear regression equations will be fitted for each vehicle using a least-squares regression procedure. The model to be used in the regression fit is:

$$e = ax + b \qquad \text{(A-7)}$$

where:

e = emission or fuel consumption level as a function of mileage,

x = mileage, and

a, b = constants determined through least-squares regression.

Deterioration factor. For each vehicle, a deterioration factor (di) will be calculated for each pollutant and/or fuel consumption as follows:

$$di = \frac{r_{e,i} - r_{15,000,i}}{r_{e,i}} \times 100\% \qquad \text{(A-8)}$$

where:

$r_{e,i}$ = the percent reduction at zero miles for the ith vehicle for a given pollutant or fuel consumption,

$r_{15,000,i}$ = the percent reduction at 15,000 miles for the ith vehicle for a given pollutant or fuel consumption.

where $r_{e,i}$ and $r_{15,000,i}$ are calculated as in equation A-1.

The estimate of y_{i1} is obtained by using the mean of the emission tests with the retrofit device disconnected at either the zero or the 15,000 mileage point. The estimate of y_{i2} is obtained by using the regression equation (A-7) with $x=0$ or 15,000 miles.

The mean deterioration factor for each pollutant and for fuel consumption will then be calculated as follows:

$$d = \frac{\sum_{i=1}^{10} d_i}{10} \qquad \text{(A-9)}$$

and will represent the best estimate of the percent reduction in effectiveness of the retrofit device after a mileage accumulation of 15,000 miles. A deterioration factor 0 percent indicates the device is as effective after a mileage accumulation of 15,000 miles as it was prior to mileage accumulation. A deterioration factor of 100 percent indicates the device has lost all of its effectiveness after a mileage accumulation of 15,000 miles. A negative deterioration factor indicated device performance has improved over 15,000 miles while a deterioration factor of greater than 100 percent indicated a device which at 15,000 miles causes the vehicle to emit more emissions than if the device were not on it.

Assuming linear deterioration, these deterioration values (di) can be translated to annual deterioration rates by multiplying the deterioration factor for each of the ith vehicles by the ratio of the average annual mileage for that vehicle in any given calendar year to 15,000 miles. The d can be recalculated to give the average annual deterioration factor.

An example showing the calculation of a deterioration factor (di) is as follows: Assume a retrofit device at zero device miles has a percent reduction of 50 percent, and a 20 percent reduction at 15,000 device miles. What is its deterioration factor at 8,000 device miles?

$$\text{At } 15{,}000 \text{ miles } di = \frac{50-20}{50} \times 100\% = 60\%$$

The deterioration factor is 60 percent at 15,000 device miles or, in other words, the retrofit device is 40 percent [(1−0.6) x 100%], as effective as it was at zero device miles. To determine its effectiveness at 8,000 device miles, we would calculate as follows:

$$\text{At } 8{,}000 \text{ miles } di = di_{\text{at } 15{,}000} \times \frac{8{,}000}{15{,}000}$$

$$= 60\% \times \frac{8}{15} = 32\%$$

At 8,000 miles, the device has a deterioration factor of 32 percent, or it is 68 percent as effective as it was at zero device miles.

In order to assess the percent return in effectiveness of the retrofit device due to the 15,000 mile tuneup, the above analysis will be repeated, except that y_{i2} for the 15,000-mile point will use the mean of the emission tests with the retrofit device attached and the vehicle retuned. The difference between this value and the value calculated above is the percent return in effectiveness produced by the 15,000 mile tuneup.

APPENDIX B—QUALIFICATION OF PREVIOUS DATA

Any applicant who requests to use previously obtained data (7 mode, cold start 1972 FTP hot start 1972 FTP) will be required to test an initial sample of ten vehicles selected by the Administrator. These vehicles will be tested by both the Federal emission test procedure and the previously utilized test procedure. Appropriate preconditioning procedures will be used for each of these tests. In particular, the previously utilized emission test procedure tests will use the same pre-conditioning used for the previously obtained data. This preconditioning procedure will be reported to the Administrator. Based on the results of these tests, a measurement of the correlation between the previously utilized emission test procedure and the Federal emission test procedure will be calculated as given in equation (B-1).

$$r = \frac{\sum X_i Y_i - [(\sum X_i \sum Y_i)/n]}{(n-1) S_x S_y} \qquad \text{(B-1)}$$

Where r is the correlation coefficient for the two test procedures for the sample of ten vehicles,

X_i is the percent reduction in emissions from vehicle i as determined using the previously utilized emission test procedure,

Y_i is the percent reduction in emissions from vehicle i as determined using the Federal emission test procedure,

S_x is the standard deviation of the emissions for the sample of ten vehicles as measured using the previously utilized test procedure,

S_y is the standard deviation of the emissions for the sample of ten vehicles as measured using the Federal emission test procedure, and

n is the number (10) of vehicles in the sample tested by both procedures.

Using the estimate of correlation calculated above and the applicant's additional previously utilized emission test procedure data, the applicant will calculate the 90% confidence interval around the mean Federal emission test procedure reduction and submit this calculation along with the raw data to the Administrator.

The 90% confidence interval is defined in (B-2) for a sample of 10 vehicles.

$$\bar{y}_1 \pm 1.833 \sqrt{V(\bar{y}_1)} \qquad \text{(B-2)}$$

Where $\bar{y}_1$ is defined as the sample estimate of the mean reduction in emissions as determined using the Federal emission test procedure,

1.833 is the two sided t value for nine degrees of freedom and 90% confidence, and

$V(\bar{y}_1)$ is the mean square error of $\bar{y}_1$.

The estimate of the mean reduction in emissions ($\bar{y}_1$) is calculated using equation (B-3).

$$\bar{y}_1 = \bar{y} + b(\bar{x}' - \bar{x}) \qquad \text{(B-3)}$$

Where $\bar{x}'$ is the mean emission level as measured using the previously utilized test procedure for a sample of size n',

$\bar{x}$ is the mean emission level as measured using the previously utilized procedure for a sample of size n (10),

$\bar{y}$ is the mean emission level as measured using the Federal emission test procedure for a sample of size n (10),

b is the least squares regression coefficient of Y_i on x_i computed from the sample of size n (10).

The mean square error ($V(\bar{y}_1)$) of the estimate of the mean reduction in emissions is calculated from equation (B-4).

$$V(\bar{y}_1) = \frac{S_y^2(1-r^2)}{n}\left[1 + \frac{(n+n')}{n'}\left(\frac{1}{n-3}\right)\right] + \frac{r^2 S_y^2}{n} \qquad \text{(B-4)}$$

Where $V(\bar{y}_1)$ is the mean square error of $\bar{y}_1$,

n' is the number of vehicles tested previously by the previously utilized emission test procedure.

If the confidence interval, $\pm 1.833\ V(\bar{y}_1)$, around the mean percent reduction, $\bar{y}_1$, has a width which does not exceed $\pm 5\%$, and if the Administrator determines that the vehicle fleet, upon which the previously utilized test procedure data was obtained, adequately represents the population of vehicles to which the device will apply, then it will not be necessary to test any additional vehicles for the emission data fleet.

If the previously collected data does not result in an acceptable confidence interval, the applicant will be required to follow the EPA guidelines on the selection and testing of vehicles by the Federal emission test procedure.

An example of the procedure is presented as follows for the case where it has been assumed that data was previously obtained using the hot Federal Emission Test Procedure:

Assume ten vehicles are tested by the Federal emission test procedure and by the hot Federal emission test procedure. The percent CO reductions are given in the following table for each of the ten vehicles. In addition, assume hot Federal emission test procedure tests were previously conducted on 100 other vehicles and the mean emission reduction measured during the 100 tests results in $\bar{x}=32.0$.

Sample data on 10 vehicles

Federal emission test procedure (y_i)	Hot Federal emission test procedure (x_i)
15	17
25	20
35	40
25	30
25	35
40	35
25	30
20	30
30	40

$b=.66$

$r=.71$

$S_y^2=51.1\%^2$

$\bar{y}=27.0\%$

$\bar{x}=30.8\%$

$\bar{y}_1=27.8\%$

$n=10$

$n'=100$

$$V(y_1) = \frac{51.1\ (1-.5)}{10}\ 1 + \frac{110}{100} \cdot \frac{1}{7} + \frac{.5\ (51.1)}{100}$$

$V(\bar{y}_1)=3.2\%^2$

$\bar{y}_1 \pm 1.833 \sqrt{V(\bar{y}_1)} = 27.8\% \pm 3.3\%$

The 90 percent confidence interval has a width of less than $\pm 5\%$ and, therefore, the previously collected hot start data would be sufficient to establish the mean percent reduction in emissions as measured by the Federal emission test procedure.

APPENDIX C—DRIVEABILITY EVALUATION PROCEDURES

1. *General provisions*—A. *Background*—In addition to its ability to reduce emissions, the effect of a retrofit device on vehicle driveability is an important consideration. Since the term driveability encompasses a large number of different characteristics of the way in which a vehicle responds to different actions by the driver, it is necessary to employ a standardized driveability test procedure if comparisons between vehicles with and without retrofit devices and among different retrofit devices are to be meaningful. This Appendix C presents standard driveability test procedures which are to be used in performing all driveability evalautions required under these protocols.

B. *Definitions of driveability terms*—1. *Road load.* A fixed throttle position which maintains a constant vehicle speed on a level road. Wind effects must be compensated, where possible, by two-way vehicle operation, except where excessive wind (15–20 mph) causes cancellation of the tests.

2. *Wide Open Throttle (WOT) Acceleration.* An acceleration made entirely at wide open throttle (from any speed).

3. *Part Throttle (PT) Acceleration.* An acceleration made at any throttle position less than WOT.

4. *Light Throttle Acceleration.* A part throttle acceleration made at a constant throttle position of approximately one-fourth of full throttle (WOT) opening.

5. *Detent.* That point in throttle opening immediately preceding the point at which the transmission kickdown function of an automatic transmission is energized. (For manual transmission vehicles, wide open throttle will be used in place of detent position).

6. *Tip-In.* A maneuver to evaluate vehicle response (up to two seconds in duration) to the initial opening of the throttle.

7. *Crowd.* An acceleration made at a constant intake vacuum just prior to power enrichment (continually increasing throttle opening). However, this crowd condition does not occur at the same manifold vacuum for all engines.

8. *Idle Quality.* An evaluation of vehicle smoothness with the engine idling, as judged from the driver's seat. The vehicle will be idled in gear in the case of an automatic transmission, and in neutral for a standard transmission vehicle. The air conditioner will be on to maximum setting if vehicle is so equipped.

9. *Backfire.* An explosion in the induction or exhaust system.

10. *Hesitation.* A temporary lack of initial response in acceleration rate to throttle opening.

11. *Stumble.* A short, sharp reduction in acceleration rate.

12. *Stretchiness.* A lack of anticipated response to throttle movement. This may occur on slight throttle movement from road load or during light to moderate accelerations.

13. *Surge.* A continued condition of short, sharp fluctuations in power, such as would be caused by overlean carburetor mixtures. These may be cyclic or random and can occur at any speed and/or load.

14. *Trace.* Rating of a malfunction that is just discernable to a test driver.

15. *Moderate.* Rating of a malfunction that is judged to be probably noticeable to the average driver.

V40115 JAN 22 75 XUM

16. *Heavy*. Rating of a malfunction that is pronounced and judged to be obvious to any driver.

II. *Test procedures*—A. *General considerations*—1. *Types of testing required*. Each driveability test consists of two parts, a cold driveability portion and a hot driveability portion. The cold portion of the test evaluates the starting characteristics of the vehicle, idle quality when cold, and driveability during a sequence of acceleration, low speed cruise, and idle modes as the engine warms up. The hot portion of the test evaluates the vehicle's driveability in a fully warmed-up condition during a series of cruise modes of different speeds, during various types of acceleration modes, and during idle. Evaluation of engine shut-down (for dieseling) and hot restart are also made. The cold start testing is performed after an overnight soak at moderate ambient temperatures (all comparative tests to be conducted within a ±5° F temperature band); no evaluation need be made of vehicle starting or warm-up characteristics which would be encountered after overnight soak at low ambient temperatures.

2. *Test drivers*. A full driveability sequence (cold and hot portions) shall be performed on each vehicle configuration by each of three different test drivers. This is done to minimize the effect on the driveability rating given a vehicle configuration of the different subjective judgments made by different drivers. The same three experienced or trained drivers should be used to evaluate the baseline, retrofitted, and parametrically adjusted (if required) configurations of a given vehicle. The drivers shall not be informed as to what alterations or additions, if any, have been made to the vehicle. If possible, driver and observer teams should be used for the evaluations.

3. *Test facilities*. Driveability testing must be performed on a dry, level, smooth-surfaced track or highway. If a highway is used, care should be taken to eliminate any traffic interference, as well as any traffic-induced effects.

4. *Data recording*. Data should be recorded during the course of each portion of the driveability test, either by the observer, or by the driver at an appropriate portion of the driving sequence. Recommended formats for the data recording sheets are shown in Figures C–1 through C–4.

5. *Driveability test fuel*. The test fuel must meet the specifications outlined in the Code of Federal Regulations, Part 85, § 85.075–10.

B. *Cold driveability portion*. 1. Prior to initiating the cold driveability portion of the test, the vehicle shall have been allowed to "soak" without having been operated for a period of at least 12 hours in an area where the ambient temperature is maintained between 60°F and 86°F, except in the case of the two vehicles used for cold ambient driveability which are maintained between 0–20°F.

2. Record all necessary vehicle and test information as indicated on data sheet 1 (Figure C–1).

3. Start engine per owner's manual procedure and record start time.

4. Record engine speed and idle quality in neutral or park immediately after start, with foot removed from throttle pedal (fast idle cam).

5. If engine stalls, repeat steps 3 and 4.

6. After 10 seconds from start, accelerate engine briefly, and again release throttle; record engine speed, idle quality, and/or number of stalls. If engine stalls, repeat steps 3 through 6.

7. After 15 seconds from start, apply brakes, shift to normal drive range, and record engine speed, idle quality, and stalls. (This step may be omitted for vehicles equipped with manual transmissions).

8. After 20 seconds from start, make a light throttle acceleration to 25 mph at a constant throttle opening. (Use manufacturer's recommended shift points for manual transmission). Cruise at 25 mph for 0.1 mile (to check for choke loading), open throttle to detent and accelerate from 25 to 35 mph at constant throttle in top gear. Decelerate to a stop and accelerate WOT to 35 mph. (For manual transmission vehicles, accelerate WOT from 20 to 35 mph in gear recommended by manufacturer for this speed range). Decelerate to 10 mph and accelerate 10 to 25 mph at constant light throttle.

9. Observe and record any malfunctions such as the following:
   a. Hesitations.
   b. Stumbles.
   c. Surge.
   d. Stalls.
   e. Backfires.

10. At 0.5 miles from start, brake moderately to a stop. Idle for 30 seconds in drive range (neutral for manual transmission) and record engine speed, intake vacuum, and idle quality.

11. Repeat steps 8, 9, and 10 through 1.5 miles from start (3 cycles).

12. Make a light throttle acceleration to 45 mph at constant vacuum (crowd condition to check lean operating with choke off). (For manual transmission vehicles, make constant vacuum acceleration in high gear from lowest speed attainable in that gear to 45 mph). Decelerate 45 to 25 mph, open throttle to detent and accelerate from 25 to 35 mph at constant throttle in top gear. Decelerate to a stop and accelerate WOT to 35 mph. (For manual transmission vehicles, accelerate WOT from 20 to 35 mph in gear recommended by manufacturer for that speed range). Decelerate to 10 mph and accelerate 10 to 25 mph at constant light throttle. Repeat steps 9 and 10 above.

13. Repeat step 12 through 1.6 miles from start (3 cycles).

C. *Hot driveability portion*. 1. Warm-up vehicle for about 25 miles at 55 mph.

2. Evaluate curb idle in neutral and drive (automatic transmission only) range. Record engine speed, intake vacuum and idle quality.

3. Cruise at road load from 20 through 50 mph at 10 mph increments, and record stretchiness and range.

4. Accelerate WOT from 0 to 30 mph at sudden, moderate and slow throttle opening rates. (For manual transmission, accelerate WOT from 20 to 30 mph in gear recommended by manufacturer for this speed range). Record hesitation, stumble, and surge.

5. Accelerate PT from 0 to 30 mph (20 to 30 mph for manual transmission) at constant throttle positions of ¼, ½, and ¾ throttle. Record hesitation, stumble, and surge.

6. Evaluate part throttle crowds in high gear at constant vacuum from the minimum speed attainable in high gear to 55 mph (or the maximum speed at each vacuum if less than 55 mph). Several runs are to be made at different vacuums to determine the worst surge condition. Also record hesitations and stumbles.

7. Evaluate "tip-in" characteristics by making several PT accelerations in high gear from 20 to 30 mph. Do not accelerate at a throttle opening which will cause the automatic transmission to downshift. Record hesitations and stumbles.

8. Accelerate WOT from 0 to 55 mph and record acceleration time. Drive 5 miles at 55 mph and brake moderately to stop. Idle for 30 seconds, shut off engine, and soak for 15 minutes.

9. After hot soak, restart engine according to manufacturer's hot-start procedure (record start time and number of attempts). Return to idle, and maintain idle for 60 seconds in drive with air conditioning turned on to maximum setting if vehicle is so equipped (record engine speed, intake vacuum, and idle quality). If engine stalls during the 60 second idle, repeat this hot-start and idle procedure.

III. *Data analysis and reporting*. In evaluating the effectiveness of a retrofit device, the difference in scores for the vehicle with and without the device is important, rather than the absolute value of either score. Thus, variations in the severity of different drivers' evaluations will be nullified. The final rating assigned to a vehicle configuration will be the average of the three drivers' scores.

Driveability demerits to be used in scoring the results of driveability evaluations are given in the table below:

Demerit summary schedule

Function rated	Demerits				Weighting factor	Weighted demerits			
	T	*M*	*H*	*Ys*		*T*	*M*	*H*	*Ys*
Idle roughness	1	2	4	--------	1	1	2	4	--------
Hesitation	1	2	4	--------	6	6	12	24	--------
Stumble	1	2	4	--------	6	6	12	24	--------
Surge	1	2	4	--------	4	4	8	16	--------
Stall at start									5
Stall, driving									32
Backfire	1	2	4	--------	6	6	12	24	--------
Stretchiness	1	2	4	--------	1	1	2	4	--------
Starting time									(1)

[1] Starting time demerits computed as (seconds—2.0)×1.0.

The purpose of the weighting factor is to assign relative importance to the malfunctions encountered; i.e., a driving stall is more significant to vehicle operational safety than idle roughness. As can be seen, stalls are given only a weighted demerit. When compiling demerits for any maneuver only the most severe malfunction is considered. For example, if during an acceleration a trace hesitation, heavy stumble, and moderate surge were all encountered, the demerits assigned would be based on the heavy stumble. The weighted demerits for the maneuver would be 4x6, or 24 demerits. After each mode of operation has been thus evaluated, a total weighted demerit rating (TWD) can be assigned to a vehicle. Where the driveability test sequence calls for repetition of a given sequence of operating modes, each repetition is scored separately and included in the total rating.

The results of the driveability tests shall be submitted with the final retrofit evaluation report. The results are to be in tabular form showing the total demerits associated with each test configuration and the difference in demerits between the baseline and the parametric and retrofit test configurations. Results are to be reported both for each individual durability test vehicle and for the average of all durability vehicles.

APPENDIX D—CALCULATION OF FUEL CONSUMPTION DATA

Fuel consumption over the 1975 Federal emission test procedure will be calculated for each vehicle emission test performed as part of a retrofit evaluation. Fuel consumption will be calculated from the emission test results using the carbon balance technique which is based on the fact that the total mass of carbon (in the form of unburned hydrocarbons, carbon monoxide, and carbon dioxide) emitted by the vehicle per mile of travel provides a measure of the fuel consumed by the vehicle over that distance.

Fuel consumption will be calculated according to the following equations:

$$\text{mi/gal} = \frac{\text{grams of carbon/gallon of fuel}}{\text{grams of carbon in exhaust/mile}}$$

$$= \frac{(K_1)\ (\text{grams/gallon})}{(K_1)\ (\text{grams HC/mi}) + (K_2)\ (\text{grams CO/mi}) + (K_3)\ (\text{grams } CO_2\text{/mi})} \quad \text{(I)}$$

Where:

K_1 = carbon weight fraction of gasoline or unburned HC, (mol. wt. C)/(mol. wt. $CH_{1.85}$) = 0.866

K_2 = carbon weight fraction of CO, (mol. wt. C)/(mol. wt. CO) = 0.429

K_3 = carbon weight fraction of CO_2, (mol. wt. C)/(mol. wt. CO_2) = 0.273

grams/gallon = mean density of Indolene 30 test fuel = 2798

grams HC/mi = weighted average gm/mi of HC over the 1975 Federal test procedures as calculated according to 40 CFR 85.075–26, and similarly for grams CO/mi and grams CO_2/mi

$$\text{Fuel consumption} = \frac{1}{\text{mi/gal}} \quad \text{(II)}$$

In calculating mean fuel consumption figures for purposes of reporting data on retrofit evaluations, it is necessary to average the fuel consumption values calculated according to equation (II), rather than averaging the mpg figures calculated according to equation (I).

FEDERAL MARITIME COMMISSION

INDEPENDENT OCEAN FREIGHT FORWARDER LICENSE

Applicants

Notice is hereby given that the following applicants have filed with the Federal Maritime Commission applications for licenses as independent ocean freight forwarders pursuant to section 44 (a) of the Shipping Act, 1916, (75 Stat. 522 and 46 U.S.C. 841(b)).

Persons knowing of any reason why any of the following applicants should not receive a license are requested to communicate with the Director, Bureau of Certification and Licensing, Federal Maritime Commission, Washington, D.C. 20573.

Amerpol International, Inc., 15 East 26th Street, New York, New York 10010.
Officers: Hermann Nohturft, President/Treasurer, Wlodzimerz Swieszewsky, Exec. Vice-President/Secretary, Wladimir Korotkiewicz, Vice President.

Richard Macchione, 131 State Street, Boston, Massachusetts 02109.

Latinvan, Inc., 7301 "a" N.W. 41st Street, Miami, Florida 33166.
Officers: Manuel E. Rojas, President, Libia B. Rojas, Secretary/Treasurer.

Port Service, Inc., 47–49 Parker Street, Gloucester, Massachusetts 01930.
Officers: Joseph D. Elliott, President/Treasurer, Francis J. Elliott, Director, Frederic A. Elliott, Director.

R. L. Swerer Company, Inc., P.O. Box 1351, Pittsburgh, Pennsylvania 15230.
Officers: William J. Twigger, President, Charles M. Watson, Vice President, David T. Arth, Treasurer, Martha Lee, Secretary.

By the Federal Maritime Commission.

Dated: January 17, 1975.

FRANCIS C. HURNEY,
Secretary.

INDEPENDENT OCEAN FREIGHT FORWARDER LICENSE NO. 980; EASTERN CARGO FORWARDERS, INC.

Order of Revocation

By letter dated December 9, 1974, Eastern Cargo Forwarders, Inc., 149 Madison Avenue, New York, New York 10016 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 980 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before January 1, 1975.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Eastern Cargo Forwarders, Inc. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated 9/15/73);

It is ordered, That Independent Ocean Freight Forwarder License No. 980 of Eastern Cargo Forwarders, Inc. be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 980 be and is hereby revoked effective January 1, 1975.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Eastern Cargo Forwarders, Inc.

WM. JARREL SMITH, Jr.,
Deputy Managing Director.

MEDITERRANEAN DISCUSSION AGREEMENT

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New

V40115 JAN2275 XUM

York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission. Washington, D.C. 20573, by February 3, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

A. Birnbaum, Chairman, P.T.
Zim Container Service
One World Trade Center
Suite 2969
New York, New York 10048

Agreement No. 9972–4 among the members of the Mediterranean Discussion Agreement is an application for a two-year extension of the period of approval.

It further modifies the organic agreement by deleting the proviso limiting applications for renewal to six-month periods in favor of a proviso permitting applications for such periods as the signatories may agree and the Commission approve.

By Order of the Federal Maritime Commission.

Dated: January 15, 1975.

FRANCIS C. HURNEY,
Secretary.

[FR Doc. 75–2031 Filed 1–21–75;8:45 am]

TRANS-PACIFIC FREIGHT CONFERENCE OF JAPAN/KOREA

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, by February 11, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Charles F. Warren, Esq.
1100 Connecticut Avenue, NW.
Washington, D.C. 20036

Agreement No. 150–60 expands the Trans-Pacific Freight Conference's (Japan/Korea) authority to regulate the transportation of cargoes transshipped at ports "without" the geographic scope of the agreement as well as those within the trade from Japan and Korea to ports and/or points in the United States.

By Order of the Federal Maritime Commission.

Dated: January 14, 1975.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E–9206]

APPALACHIAN RESEARCH AND DEFENSE FUND, INC.

Filing of Complaint

JANUARY 16, 1975.

Pursuant to the authority of the Federal Power Act, particularly section 306 thereof, and § 2.1(a) (1) of the Commission's general policy and interpretations, notice is hereby given that a letter from the Appalachian Research and Defense Fund, Inc., dated October 25, 1974, which we are treating as a complaint in the above captioned docket concerning certain practices of Appalachian Power Company which may be contrary to the Federal Power Act, was forwarded to this Commission by letter dated November 6, 1974, by the office of the subcommittee on Budget, Management, and Expenditures of the Senate Committee on Government Operations. We have forwarded this date a copy of the complaint to Appalachian Power Company who shall answer it in writing within thirty days.

We shall direct the Secretary to publish a copy of this complaint together with this notice in the FEDERAL REGISTER.

Any person wishing to do so may submit written comments concerning the above referenced complaint on or before January 28, 1975, to the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. All comments submitted will be considered by the Commission in determining the appropriate action to be taken.

KENNETH F. PLUMB,
Secretary.

OCTOBER 25, 1974.

Hon. LEE METCALF,
Senate Office Building,
Washington, D.C.

DEAR SENATOR: I am writing to you because of your long standing interest in the problems associated with the Electric utility industry.

As a staff attorney with the Appalachian Research and Defense Fund in Charleston, I have, in the last year, been involved in several cases dealing with Appalachian Power Co., a wholly-owned subsidiary of American Electric Power Co. These include: (1) The licensing of the Blue Ridge Project on the New River, (2) a general rate case before the West Virginia Public Service Commission, (3) a case before the EPA pursuant to the Governor's request for a one year postponement of clean air standards, and (4) a hearing before the Public Service Commission involving automatic fuel adjustment clauses.

Through my involvement in these cases, it has become clear to me that an attack on the practices of Appalachian Power is merely an attack on the symptoms and not on the root cause of environmental and rate problems associated with Appalachian. Rather, the problem lies with AEP, the parent corporation.

To illustrate this point, consider the following: The West Virginia Public Service Commission has charged that in the first nine months of this year Appalachian Power collected 2½ million dollars in revenue by "repricing captive coal. That is, if the average price of coal purchased on the open market in one month was $25 per ton and the cost of coal during that same period produced at a captive mine was $10 per ton, Appalachian charged its customers through the Fuel Adjustment Clause as though the average of all coal purchased during that month was $25 per ton. This practice is exacerbated by the fact that much of the coal burned by Appalachian is purchased on the spot market at inflated prices and imported into West Virginia while coal produced at mines owned by Appalachian Power has been delivered to plants owned by Indiana & Michigan Power Company at a fraction of the cost West Virginians have paid.

Because of the size of AEP and its numerous operating companies, coal is shifted from one area to another without regard to the effect such moves will have on the customer.

Another aspect of AEP's coal manipulation is, in my belief, very closely related to its recent advertising campaign attacking the EPA and Congressional efforts at strip mine regulation. According to AEP's fuel expert, AEP owns more than 1.5 billion tons of coal. Of that figure, less than 10% of their coal is low sulfur coal. Thus, under present Clean Air Act Standards, the vast majority of their coal cannot be used without stack gas desulfurization technology or coal liquefaction. This situation has led AEP to avoid long term contracts for Eastern low sulfur coal in the expectation that in the not very distant future they will be able to burn their own high sulfur coal either as a result of relaxations in the Clean Air Act or through the installation of sulfur removal technology.

As a result, the majority of Appalachian's low sulfur coal purchases are made on the spot market at prices reportedly ranging to $100 per ton. Because their fuel adjustment clause allows a direct pass through of fuel costs, there is no incentive on AEP's part to bargain for lower prices. It is my belief that this practice is being followed by AEP for one of two purposes or both: (1) To boost the price of low sulfur coal to high prices and thereby rally citizen support for relaxation of the Clean Air Act, or (2) to boost the price of low sulfur Eastern coal to make the cost of coal produced in the West and delivered under long term contracts to Midwest and Eastern power plants more attractive. This point is further emphasized by the fact that AEP has entered into several 20–30 year contracts with Western coal suppliers and has not entered into contracts exceeding 3–5 years for Eastern low sulfur coal.

Regardless of the reason for these practices, the results, if they are successful in either area, would be very devastating. The provisions of the Clean Air Act, while somewhat onerous, are vitally important, and the possible effect on Eastern coal suppliers if a Western coal shift is accomplished would add terrifically to the many burdens residents of Appalachia already bear.

To make an already lengthy story somewhat shorter, I would like to see an investigation launched on the practices of AEP. I have some information of my own but feel that research of this nature requires a coordination of efforts among individuals in all areas served by AEP and in New York and Washington. Could you provide additional information on AEP, recommended people to contact, or suggest possible funding sources for such an investigation?

Any assistance which you may be willing to lend in this regard would be quite helpful.

Thank you for your time.

Sincerely,

ROBERT R. RODECKER,
Staff Attorney.

[Docket No. F–9195]

CENTRAL TELEPHONE AND UTILITIES CORP.

Filing of Addendum to Contract

JANUARY 15, 1975.

Take notice that on December 27, 1974, Central Telephone and Utilities Corporation (Central) tendered for filing a proposed addendum to their contract with the N.C.K. Electric Cooperation, Inc. Central requests that the addendum be accepted for filing with the original contract.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–1954 Filed 1–21–75;8:45 am]

[Docket No. DA–219–Washington]

CHARLES AND BARBARA MILLER

Lands Withdrawn in Power Site

JANUARY 13, 1975.

Application has been filed by Charles and Barbara Miller of Brewster, Washington, with the Bureau of Land Management, Department of the Interior, for the revocation of the waterpower withdrawals affecting the following described land, thereby requiring Commission consideration under section 24 of the Federal Power Act:

WILLAMETTE MERIDIAN, WASHINGTON

T. 30 N., R. 24 E.,
Sec. 21, That part of lot 5 lying outside the boundary of Project No. 2149 as licensed as shown on revised map Exhibit K, sheet 12 (FPC No. 2149–137) filed in the Office of the Federal Power Commission on March 8, 1971. (Approximately 1.5 acres.)

In a letter transmitting the Millers' application, the Bureau of Land Management requested revocation of the withdrawals and/or a determination with respect to all of lot 5 (approximately 4.30 acres) to enable disposal of the entire lot at public sale.

Lot 5 lies along the Columbia River and is partially inundated by Wells Reservoir, a unit of licensed Project No. 2149, owned by Public Utility District No. 1 of Douglas County, Washington. The land is withdrawn in Power Site Classification No. 349, dated June 22, 1944, and pursuant to the filings on December 23, 1953, and January 12, 1954, of applications for preliminary permit for Project Nos. 2148 and 2149, respectively. All of these withdrawals were made to protect the Wells site which is now adequately protected by the withdrawal for Project No. 2149. The application for Project No. 2148 was denied by Commission order issued September 22, 1954, (13 FPC 1402), upon issuance of a preliminary permit for competing Project No. 2149, (13 FPC 1403).

A notice of land withdrawal for Project No. 2149 was issued by the Commission on April 8, 1971. This notice covers the United States lands lying within the boundary of the Wells Dam and Reservoir unit of the project as shown on approved Exhibit K sheets 1 through 39 (FPC Nos. 2149–126 through –164) filed in the office of the Federal Power Commission on February 2, 1970, and March 8, 1971. A notice of land withdrawal has not yet been issued for the United States lands lying within the boundary of the constructed transmission line unit of Project No. 2149 shown on Transmission Line Exhibit K sheets 1 through 57 (FPC Nos. 2149–225 through –281) filed December 30, 1971. However, a notice will be issued in the near future.

The application for preliminary permit for Project No. 2149 included certain United States lands which lie beyond the limits of the project as shown on said maps. All of these excess lands lie adjacent to Wells Reservoir. Inasmuch as the Wells Reservoir fully develops this reach of the Columbia River, retention of these excess lands in power withdrawal no longer serves a useful purpose.

A determination with respect to that part of said lot 5 lying within the boundary of Project No. 2149 as licensed, to permit its disposal at public sale, is not warranted.

The Commission finds. It has no objection to the cancellation of Power Site Classification No. 349 insofar as it pertains to lot 5 of sec. 21, T. 30 N., R. 24 E., Willamette Meridian, Washington.

The Commission orders. (1) The withdrawal pursuant to the application for Project No. 2148 is hereby vacated in its entirety.

(2) The withdrawal for Project No. 2149, insofar as it pertains to lands lying beyond the limits of the project as shown on Exhibit K sheets 1 through 39 (FPC Nos. 2149–126 through –164) and Transmission Line Exhibit K sheets 1 through 57 (FPC Nos. 2149–225 through –281), is hereby vacated.

(3) The request for a determination under section 24 of the Federal Power Act with respect to that portion of lot 5 of sec. 21, T. 30 N., R. 24 E., Willamette Meridian, Washington, lying within the boundary of Project No. 2149 as licensed is hereby denied.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75–1967 Filed 1–21–75;8:45 am]

[Docket No. RP75–47–3]

COLUMBIA GAS TRANSMISSION CORP.

Petition for Emergency Relief

JANUARY 15, 1975.

Take notice that on December 27, 1974, as supplemented January 6, 1975, Teledyne Ohio Steel (Petitioner), Lima, Ohio, filed a petition, pursuant to § 1.7 (b) of the Commission's rules of practice and procedure and Commission Order No. 467–C, seeking relief from the currently effective curtailment procedures of Columbia Gas Transmission Corporation (Columbia) and an emergency priority allocation of natural gas to become effective at the earliest possible date and to remain in effect until June 1, 1975. The emergency priority allocation requested consists of the following: December 1974, 86,104 Mcf; January 1975, 98,608 Mcf; February 1975, 103,074 Mcf; March 1975, 112,050 Mcf; April 1975, 89,475 Mcf; and May 1975, 82,388 Mcf.

In support of its petition for an emergency allocation of natural gas, Peti-

V40N15 JAN22 75 XUM

tioner states that it is engaged in the manufacture of rolls for rolling mills in the steel and nonferrous industries and sells its product to more than 150 plants located throughout the United States. At its Lima facility it operates approximately 100 or more gas furnaces in the production of rolling mill rolls in a continuous process for a period of time ranging up to four and one-half weeks. Petitioner claims that it has no realistic alternative fuel supply available for the vast majority of the furnaces now being supplied by natural gas.

West Ohio Gas Company, which receives its principal volume of gas from Columbia, has advised petitioner that effective December 20, 1974, it will sustain a fifty percent curtailment of its natural gas allocation. Petitioner claims that it cannot continue operations at that curtailment level, and that without the requested emergency priority allocation, its Lima facility will be closed on January 31, 1975.

On December 18, 1974, petitioner requested an emergency priority allocation of natural gas from the Public Utilities Commission of Ohio, but no action has been taken upon that request.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before January 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1955 Filed 1-21-75;8:45 am]

[Docket No. RP73-115]

CONSOLIDATED NATURAL GAS CO.

Order Accepting for Filing and Suspending Proposed Revised Tariff Sheets and Establishing Procedures

JANUARY 15, 1975.

On December 16, 1974, Consolidated Gas Supply Corporation (Consolidated) tendered for filing Second Revised Sheet No. 51-A, Second Revised Sheet No. 51-B, and Second Revised Sheet No. 51-C to its FPC Gas Tariff, First Revised Volume No. 1 to be effective as of December 15, 1975. Notice of these filings was issued on December 31, 1974.

Consolidated's Tariff Sheets now in effect provide for curtailment of certain partial requirements customers of Consolidated on a pro rata basis and that the gas shortage curtailment provisions in the revised Tariff Sheets provide for end use curtailment.

Additionally, the Tariff Sheets now in effect provide for the determination of industrial requirements on the basis of the highest twelve consecutive calendar months in the most recent twenty-four month period for which data is available. The revised Tariff Sheets will provide for the curtailment of industrial requirements on the basis of data for the twelve month period ended September 30, 1974.

The Revised Tariff Sheets would also permit the filing of petitions for extraordinary relief by any Buyer, including the Hope Natural Division, on behalf of any consumer.

Consolidated requests that the Tariff Sheets be made effective as of December 15, 1974, without suspension or with suspension for only one day to facilitate the orderly implementation of curtailment.

After reviewing the proposed revised tariff sheets, we believe that they may possibly be unjust, unreasonable, unduly discriminatory or otherwise unlawful. This conclusion is founded primarily on the fact that Consolidated's current curtailment tariff is pending before a Presiding Administrative Law Judge for decision thereon. Accordingly, we shall accept Consolidated's proposed tariff revisions for filing and suspend them for one day until January 17, 1975, when they shall be permitted to take effect. In view of the fact that the hearings in Docket No. RP73-115, et al., have been completed and briefs have been filed by the parties, it would appear that a reopening of the record is in order for the purpose of receiving evidence in connection with Consolidated's revised tariff sheets. Additionally, with the proposed imposition of curtailment on the Consolidated system as of February 1, 1975, we believe that the record should include end use data with respect to the base periods that will actually be employed. To the extent that there is any change in this regard from the end use and curtailment implementation data currently in the record, we believe that Consolidated should present supplementary evidence reflecting such changes.

We shall therefore direct the Presiding Administrative Law Judge in these proceedings to convene a formal conference for the purpose of determining the scheduling of dates for the further evidentiary hearings.

Finally, we note, as in the curtailment filings of Transcontinental Gas Pipe Line Corporation (Transco) that Consolidated's curtailment sheets here under consideration and those currently in effect have a compensation feature for a customer company releasing exemption gas which we have found to be ineffective lacking a proper section 7 certification. Therefore, for the reasons stated in our Transcontinental order[1] pending hearing and final decision, no change in Consolidated's rates shall be effective, nor any transfer of entitlements among Consolidated's customers be effectuated unless and until appropriate certificate and rate filings have been made and approved in accord with sections 4 and 7 of the Act.

The Commission finds. (1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that the Revised Tariff Sheets herein described and submitted by Consolidated on December 16, 1974, be accepted for filing, suspended for one day and permitted to become effective January 17, 1975, subject to the terms and conditions of this order.

(2) It is necessary and appropriate that the Presiding Administrative Law Judge be directed to convene a formal conference for the purpose of determining the scheduling of dates for the further evidentiary hearings.

The Commission orders. (A) Consolidated's filing of December 16, 1974, is hereby accepted for filing, suspended for one day and permitted to become effective January 17, 1975, pursuant to § 154.-67(a) of the Commission's regulations and pending further Commission order or opinion in this docket.

(B) The Presiding Administrative Law Judge in these proceedings is hereby directed to convene a formal conference on or before February 28, 1975. In conformance with this order, the purpose of such formal conference shall be to determine the scheduling of dates for the further evidentiary hearings.

By the Commission. Commissioner Brooke, dissenting in part, filed a separate statement appended hereto.[2]

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1956 Filed 1-21-75;8:45 am]

[CP73-132, etc.]

DISTRIGAS CORPORATION, ET AL.

Long-Term Staten Island Applications, Long-Term Everett

JANUARY 15, 1975.

On December 16, 1974, Distrigas Corporation (Distrigas), Distrigas of New York Corporation, Distrigas of Massachusetts Corporation (DOMAC), and Distrigas Pipeline Corporation (Applicants) filed a response to our order conditionally granting motion for further extension of time issued November 14, 1974, in certain of the above dockets.[1]

Applicants' response outlines the current status of contract negotiations with Sonatrach, and requests (1) the opportunity to report further on the status of the "Ben Franklin" supply contract following the meeting now scheduled for January 6, 1974; (2) that the Commission allow hearings on the long-term Staten Island import and related applications to resume according to scheduling to be set by the Presiding Administrative Law Judge (Judge); (3) that the Commission direct the Judge to fix a date for Applicants to file the balance of their direct evidence on their Everett terminal and sales to be made therefrom; and (4) the relief requested be made applicable to intervenors supporting Applicants.

In light of the apparently active pendency of contract negotiations, and the January 6, 1974, date for further meetings, it is reasonable to allow Applicants to update its reply to our November 14, 1974, order following the January 6, 1974 meeting, as request in Applicants' response.

Concerning the second request, it appears that except for dates certain set for the filing and cross-examination of answering cases to Staff's environmental presentation, no date certain has been set for the resumption of the "Staten Island" hearings. We shall not direct the Judge to set any further specific dates at this time, and instruct him not to do so until Applicants' next report on the status of contract negotiations, at which time Applicants may renew, if appropriate their request to us that hearing and filing dates be set by the Judge. Deferring a ruling until after Applicants' next report will allow time for clarification of need for further hearings, without precluding the possibility of their prompt resumption if appropriate.

The third request, which asks that dates be set for the filing and hearing of evidence relating to Applicants' Everett facility and its operations, is apparently not affected by the forthcoming "Ben Franklin" contract negotiations.[2] In light of the pendency of hearing on the Everett proposal, however Applicants' request for dates should be addressed to the Judge, and is therefore denied without prejudice to its renewal in the proper forum.

The fourth item of relief requested need not be addressed by us at this time.

Wherefore, for the reasons outlined above,

The Commission orders. (A) Applicants are, as requested, allowed to update their response to our November 14, 1974, order following the contract negotiation meeting scheduled for January 6, 1974 in Algeria.

(B) Applicants' requests for specific hearing and filing dates on their long-term import applications are denied without prejudice to their renewal as indicated in the body hereof.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1957 Filed 1-21-75;8:45 am]

[Docket No. CP75-20; Docket No. CI75-116]

FLORIDA GAS TRANSMISSION CO. AND PETROLEUM MANAGEMENT, INC.

Extension of Time

JANUARY 15, 1975.

On January 14, 1975, Petroleum Management, Inc. (PMI) filed a motion to extend the date for filing evidence fixed by order issued December 23, 1974, as most recently modified by notice issued January 3, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the date for filing direct evidence in the above matter is extended to January 31, 1975. The hearing date will remain as scheduled, February 11, 1975, at 10 a.m. (e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1958; Filed 1-21-75;8:45 am]

[Docket No. G-2801]

GETTY OIL CO.

Notice of Application

JANUARY 14, 1975.

Take notice that on January 6, 1975, Getty Oil Company (Applicant), P.O. Box 1404, Houston, Texas 77001, filed in Docket No. G-2801 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas in interstate commerce to Columbia Gas Transmission Corporation (Columbia) from its working interest in gas produced from the Erath Unit located in the Erath Field, Vermillion Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that by order issued in Docket No. G-2801 on October 28, 1954, the Commission granted Applicant's predecessor in interest a certificate of public convenience and necessity authorizing the sale under contract dated September 11, 1952, between Tidewater Associated Oil Company (Applicant's predecessor) and Columbia of gas produced from the Erath Unit and accepted for filing said gas sales contract as its FPC Gas Rate Schedule No. 26. The application states that the September 11, 1952, contract provides for a term of twenty years and as the initial delivery of gas under said contract occurred November 1, 1954, said term expired November 1, 1974.[1]

The application states further that Applicant, as seller, and Transcontinental Gas Pipe Line Corporation (Transco), as buyer, are parties to a gas sales contract dated July 12, 1971, which provides for the commitment of Applicant's interests in the surplus gas in and under certain lands and leases. Surplus gas is stated as defined in said July 1971 agreement to mean that quantity of gas available to Applicant for sale to Transco over and above the quantities Applicant is obligated to deliver to Columbia under the September 11, 1952, contract. Applicant states that its certificate application dated July 22, 1971,[2] contains the statement, "The properties committed under this contract consist of Seller's surplus gas to be produced from the Erath Unit, Vermilion Parish, Louisiana."

Applicant asserts that since it has performed under the September 11, 1952, contract with Columbia the service required of it and in view of the fact that Applicant's July 12, 1971, contract with Transco dedicates to Transco surplus gas defined to include all gas over and above the quantities Applicant was obligated to deliver to Columbia under the 1952 agreement, it is appropriate to terminate service to Columbia under said contract effective November 1, 1974, the expiration date of the September 11, 1952, contract. The application states that there will be no decrease (except for the declining delivery capacity of wells) of deliveries of natural gas for sale or resale in interstate commerce because all of Applicant's working interest gas in the Erath Unit will continue to be delivered into the interstate market under Applicant's FPC Gas Rate Schedule No. 192 which covers Applicant's deliveries to Transco under their contract dated July 12, 1971.

Applicant states that it will continue deliveries to Columbia from its other working interest properties in the Erath, North Erath, and Erath Shallow Fields which sales are covered by Applicant's contract with Columbia dated November 1, 1956, as replaced by a contract dated October 24, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 5, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to

[1] "Order Granting Rehearing in Part, Denying Rehearing in Part, and Requiring Environmental Impact Statement," issued January 10, 1975, "Transcontinental Gas Pipe Line Corporation, et al.," Docket No. RP72-99, et al.

[2] Dissenting statement filed as part of the original document.

[1] On December 24, 1974, Brooklyn Union Gas Company filed comments in support of Distrigas' response to our order, and on December 27, 1974, Congressman Murphy filed a detailed reply to Distrigas. Distrigas on January 6, 1975, filed an answer to reply to response. Although none of these described pleadings are provided for by our rules, we have considered them in our order here.

[2] Applicants' response advises that deliveries by the Ben Franklin to Everett are no longer contemplated.

[1] The current effective rate for the sale of gas proposed to be abandoned is stated to be 26.9875 cents per Mcf including tax reimbursement at 15.025 psia.

[2] Apparently a reference to its application filed July 23, 1971, in Docket No. CI72-50.

V40 15 JAN 22 75 XUM

become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1959 Filed 1-21-75;8:45 am]

[Docket No. RP73-23; PGA 75-2(a)]

LAWRENCEBURG GAS TRANSMISSION CORP.

Filing of Substitute Gas Tariff Sheets

JANUARY 15, 1975.

Take notice that on January 2, 1975, Lawrenceburg Gas Transmission Corporation (Lawrenceburg) tendered for filing two substitute gas tariff sheets to its FPC Gas Tariff, Original Volume No. 1, designated as Substitute Eighth Revised Sheet No. 3–A (superseding Seventh Revised Sheet No. 3–A) and Substitute Eighth Revised Sheet No. 18–B (superseding Seventh Revised Sheet No. 18–B).

The proposed changes contained therein would increase revenues from jurisdictional sales by $289,156 as compared to revenues at the current rates in effect since August 1, 1974, based on the 12 months ending November 30, 1974.

Lawrenceburg states that, pursuant to the purchased gas adjustment (PGA) provision in its FPC Gas Tariff, Original Volume No. 1, it filed by letter dated December 19, 1974, Eighth Revised Sheets Nos. 3–A and 18–B in order to track a proposed increase in its cost of gas purchased from Texas Gas Transmission Corporation (Texas Gas), filed December 16, 1974 and proposed to become effective February 1, 1975. By letter dated December 19, 1974, Texas Gas revised its December 16, 1974 filing in order to reflect additional increases by its suppliers, thereby prompting Lawrenceburg to file substitute tariff sheets as noticed herein.

Lawrenceburg requests waiver of the Commission's regulations to permit its substitute tariff sheets to become effective February 1, 1975; and Lawrenceburg states that copies of its filing have been mailed to its two wholesale customers, Lawrenceburg Gas Company and The Cincinnati Gas & Electric Company, and also to the two interested state commissions, Public Service Commission of Indiana and The Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 28, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1960 Filed 1-21-75;8:45 am]

[Docket No. CP75-198]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

JANUARY 15, 1975.

Take notice that on January 3, 1975, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP75-198 an application pursuant to section 7 of the Natural Gas Act.

(a) For a certificate of public convenience and necessity authorizing Applicant to continue, as a successor in interest to Texaco Inc. (Texaco), a sale of natural gas of the type usually made by an independent producer;

(b) For permission and approval to abandon certain sales of natural gas to H. L. Hunt, et al. (Hunt), and to Arkansas Louisiana Gas Company (Arkla);

(c) For a certificate of public convenience and necessity authorizing a sale to Arkla, over a defined period of time, of a specified total quantity of natural gas, which sale is to be made under a new special rate schedule and in substitution of those sales to Arkla with respect to which Applicant requests abandonment authorization; and

(d) For a certificate of public convenience and necessity authorizing the construction and operation of the facilities necessary to the substitute sale,

all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that the instant application relates to Applicant's plans to develop an underground geological formation in the nearly depleted North Lansing Field, Harrison County, Texas, as an underground natural gas storage reservoir. Applicant, states it has acquired all known producer interests at the North Lansing Field and requests certificate authorization to continue, as a successor in interest, the only known producer sale in the field not yet certificated to Applicant. Applicant states that said sale has previously been made by Texaco to Arkla under a certificate granted in Docket No. G-7062.

In order to facilitate the conversion of the North Lansing Field to a storage reservoir, Applicant proposes to discontinue production in the field and to abandon all the sales of gas from the field. The sales which Applicant proposes to abandon are the following:

Purchaser	Authorized in Docket No.	Applicant's rate schedule
Hunt	CP73-183	OSS-2
Do	CP73-194	OSS-6
Do	CP73-202	OSS-9
Do	CP73-214	OSS-16

Do	CP73-280	OSS-29
Do	(1)	(2)

[1] Texaco received certificate authorization to make this sale to Arkla in Docket No. G-7062. Applicant requests permission and approval to abandon this sale as a successor to Texaco.

[2] This sale is currently made under Texaco's FPC Rate Schedule No. 264.

Applicant further states that all of Applicant's current production from the North Lansing Field is being sold to Arkla, Hunt having previously discontinued purchases from Applicant because declining deliveries had rendered Hunt's operations uneconomical. Applicant has entered into an agreement with Arkla whereby Arkla would surrender its right to purchase the remaining economically recoverable gas reserves in the Field in exchange for Applicant's execution of an agreement covering the sale of equivalent volumes of gas to Arkla. Applicant thus requests a limited-term certificate authorizing the substitute sale to Arkla in an aggregate quantity of gas equal to the estimated economically recoverable gas reserves remaining in the Field at the time of discontinuance of production and abandonment. Applicant relates that it has agreed with Arkla that said reserves are 3.2 million Mcf as of January 1, 1973. Applicant estimates the reserves to be 1.2 million Mcf as of December 31, 1974. Applicant proposes to deliver said quantity to Arkla at an average rate of 3,000 Mcf per day. The price for substitute sale, estimated by Applicant to be approximately 19 cents per Mcf, represents a weighted average of the prices for the several sales to Arkla which Applicant proposes to abandon from the North Lansing Field.

Applicant also requests permanent certificate authorization to construct and operate the facilities necessary to the substitute sale. Applicant proposes the construction of approximately 500 feet of 4½-inch pipeline and certain measuring facilities, including a meter station and a 3-inch side tap. The total cost of such facilities is estimated by Applicant to be $25,400, which will be met with funds on hand.

Applicant proposes to construct the subject facilities from a 30-inch pipeline, which it proposes in its application in Docket No. CP74-286 to connect Applicant's Gulf Coast Main transmission system with the North Lansing Field, to Arkla's 8-inch pipeline in Harrison County. Applicant requests authorization to continue to operate the facilities proposed in the instant application after termination of the substitute sale to Arkla because the facilities may be useful after said termination.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-48; PGA75-3]

NORTHERN NATURAL GAS CO.

Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

JANUARY 15, 1975.

Take notice that Northern Natural Gas Company on December 9, 1974 tendered for filing Seventh Revised Sheet No. 3a of its FPC Gas Tariff, Volume No. 4. The proposed change to become effective January 1, 1975 would increase the rate per Mcf to jurisdictional customers by .62¢ per Mcf. This amount results from a PGA increase filed by Colorado Interstate to become effective January 1, 1975. Colorado Interstate is the pipeline supplier to Northern for sales made under Volume No. 4.

Copies of the filing were served upon the Gas Utility Customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 29, 1974. All such petitions or protests will be considered in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-301]

SOUTHWEST GAS CORP.

Withdrawal and Cancellation of Hearing

JANUARY 15, 1975.

On December 27, 1974, Southwest Gas Corporation filed a withdrawal of its application in the above-designated matter which was set for hearing by order issued November 14, 1974.

Notice is hereby given that pursuant to § 1.11(d) of the Commission's rules and regulations the withdrawal of the above application shall become effective January 27, 1975. The hearing scheduled for January 23, 1975 is cancelled.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI75-99]

TEXAS PACIFIC OIL CO., INC.

Petition for Special Relief

JANUARY 15, 1975.

Take notice that on December 16, 1974, Texas Pacific Oil Company, Inc., (Petitioner), 1700 One Main Place, Dallas, Texas 75250, filed a petition for special relief in Docket No. RI75-99, seeking a rate above the applicable area ceiling under Opinion No. 607. Petitioner seeks a price of 32 cents per Mcf for the sale of gas to Arkansas Louisiana Gas Company from the Federal King No. 1 Well, Kinta Field, Haskell County, Oklahoma. The petition is based on the workover of the well and installation of compression equipment.

Any person desiring to be heard or to make any protest with reference to said petition should on or before January 27, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9191]

UTAH POWER & LIGHT CO.

Notice of Application

JANUARY 15, 1975.

Take notice that on December 23, 1974, Utah Power & Light Company (Applicant) tendered for filing pursuant to section 205 of the Federal Power Act and Part 35 of the regulations issued thereunder, an October 22, 1974, Supplement to the Interconnection and Transmission Service Contract with the United States Bureau of Reclamation (USBR), dated May 17, 1962 and designated Rate Schedule FPC No. 98, which provides for Applicant's wheeling of power and energy from the USBR Colorado River Storage Project pursuant to Contract No. 14-06-400-2436. The Supplement permits a ratio of other than one-for-one within the interchange energy account, revises standard provisions N, O, and P relating to power factor deviations, working hours and employment, and adds a new provision GG which only applies when electric service involves multiple points of delivery from both direct and wheeled points. Applicant requests that the Supplement be accepted for filing as of October 22, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 30, 1975, file with the Federal Power Commission, Washington, D.C., 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests

V40I15 JAN22 75 XUM

filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 75-1966 Filed 1-21-75;8:45 am]

[Docket No. RP74-91-18]

TENNESSEE GAS PIPELINE CO.

Petition for Extraordinary Relief

JANUARY 16, 1975.

On January 10, 1975, Pennsylvania Gas and Water Company (Penn Gas) filed a petition for extraordinary relief pursuant to section 4 of the Natural Gas Act and § 2.78 of the Commission's General Policy and Interpretations (18 CFR 2.78) from curtailment by Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee). Penn Gas requests that the Commission issue an order directing Tennessee to deliver to Penn Gas 2,507,676 Mcf of natural gas during the period from January 1, 1975, through March 31, 1975. Penn Gas further requests, in view of the alleged disastrous and irreparable impact of Tennessee's announced level of the curtailment of Penn Gas' supply and the short-term duration of the relief requested herein, that Tennessee be directed to provide interim relief for said amount of gas pending evidentiary proof by Penn Gas of entitlement to such relief and subject to a payback condition in the event of a failure on the part of Penn Gas to prove its entitlement to relief. Penn Gas states that in filing this petition it does not concede the propriety or legal validity of Tennessee's announced curtailment implementation but reaffirms its position taken in the complaint filed by Penn Gas in Docket No. RP75-50 that Tennessee's current implementation of its curtailment plan is unreasonable, preferential, discriminatory and unlawful. Penn Gas states further that if the interim relief prayed for by Penn Gas in its complaint in Docket No. RP75-50 is granted, Penn Gas will probably not require the extraordinary relief requested in the insant petition and that this petition is filed as a protective measure to preserve Penn Gas' legitimate rights in the event timely relief is not granted in Docket No. RP75-50. Penn Gas' petition is on file with the Commission and open to public inspection.

Penn Gas is a public utility corporation engaged in the supply and distribution of water and natural gas within the Commonwealth of Pennsylvania. Natural gas service is said to be provided by Penn Gas to the public in parts of the following Pennsylvania counties: Lackawanna, Wyoming, Luzerne, Columbia, Northumberland, Snyder, Montour, Union and Lycoming. Penn Gas states that its market is mostly residential, commercial and small process-use industrial and that it does not meet the needs of large interruptible or boiler fuel consumers.

Penn Gas states that it obtains its natural gas supply from three interstate pipeline suppliers: Tennessee, Columbia Gas Transmission Corporation (Columbia) and Transcontinental Gas Pipe Line Corporation (Transco). Penn Gas is said to have no other source of gas supply.[1]

The petition states that Penn Gas has not increased its demand entitlement from Columbia since 1971 nor has Tennessee increased its delivery obligations to Penn Gas since 1968. Penn Gas states that while it was able to contract with Transco for increased contract demand in 1969 and 1970 such increases were for only a portion of Penn Gas' requirements and that the last year in which Penn Gas was able to contract with Transco for the full volumetric level of its requirements was 1968.

Penn Gas asserts that for 4½ years it has had a very restrictive load attachment policy in effect. The petition indicates that since August 1970 no new commercial or industrial attachment commitments have been made (not even in replacement for customers lost as result of business closings) and no additional delivery commitments have been made to existing commercial and industrial customers. The petition further indicates that since October 1970 residential load growth has been prohibited, and only a portion of lost residential service has been replaced by the incurring of new delivery obligations to domestic consumers. Penn Gas states that it was unable to obtain an adequate gas supply even before the instant curtailment and since it has long practiced energy conservation in its service area additional conservation possibilities are not available. The petition asserts that Penn Gas' position is even more critical since Penn Gas has not had dump gas for sale for inferior uses which could now be curtailed to conserve gas supplies for more superior requirements.

The petition alleges that until December 13, 1974, Penn Gas believed, on advice by Tennessee that Tennessee would be curtailing deliveries to Penn Gas at the rate of 5.1 percent of Penn Gas' requirements (on a Tennessee system curtailment rate of about 7 percent). Petitioner states that on December 13, 1974, Penn Gas received a telephone call from Tennessee advising that during the period December 16, 1974, through March 31, 1975, Tennessee's system curtailment rate would be raised to 14 percent (later stated by Tennessee at 17.2 percent) and that curtailment of Penn Gas' supply would be increased from 5.1 percent to 45.11 percent.

Penn Gas states that this announced 45 percent curtailment of Penn Gas' supply from Tennessee was totally unexpected and unforeseeable. Penn Gas alleges that Tennessee has in the past advised its customers that its gas reserves were adequate to support full system deliverability and in fact at the hearing in its curtailment proceeding in Docket No. RP74-24, Tennessee's witness testified that full deliverability would be maintained at least until January 1976 at the level of requirements estimated for 1974. Penn Gas states that curtailments were announced by Tennessee earlier in 1974 which were said to have been necessitated, first, by a system capacity insufficiency, and then, later by conditions of the force majeure type but were not heralded as a basic revision in deliverability projections related to the availability of gas reserves. Penn Gas states that, until December 13, 1974, Penn Gas had no basis for believing, in its most pessimistic view, that an increase in the Tennessee system curtailment rate from 7 percent to 17 percent could possibly effect an increased in the curtailment of deliveries to Penn Gas from the rate of 5.1 percent to 45 percent of requirements. Penn Gas alleges Tennessee has not honored its request for the underlying end-use data on which Tennessee is implementing curtailment at the present time and that the validity and appropriateness of this underlying data are in issue in the complaint filed by Penn Gas in Docket No. RP75-50.

Penn Gas states that prior to its receipt of advice by Tennessee of a 45 percent winter curtailment, Penn Gas notified all its interruptible customers that Penn Gas would be unable to sell any interruptible gas during the 1974-75 winter. Penn Gas states it took this action believing that a complete curtailment of interruptible requirements would be necessary to assure its ability to meet the needs of firm customers without alternative capabilities. Until December 13, 1974, Penn Gas states, it considered its winter gas supply adequate for all firm requirements; however, as a result of the announced 45 percent curtailment by Tennessee, Penn Gas has informed all of its larger firm industrial customers that these firm deliveries would be curtailed during the current winter. Penn Gas states it informed them that their deliveries will be curtailed at the rate of 25 percent through January 19, 1975, and at a rate of 58 percent from January 20 through March 31, 1975. The petition states the foregoing staggered curtailment rate is to allow Penn Gas' customers a brief period for evaluation and planning and to enable plants to remain open until such time as Penn Gas is able to seek appropriate relief from the Commission.

[1] The uncurtailed volumes that would be deliverable to Penn Gas during the period from January 1 through March 31, 1975, for which extraordinary relief is requested is

Supplier	Thousand cubic feet at 14.73 lb/in²a	Percent
Tennessee	4,904,562	35.42
Columbia	2,732,094	19.73
Transco	6,210,447	44.85
Total	13,847,103	100.00

The affected customers of Penn Gas and their minimum requirements are set forth in the appendix below.

Penn Gas alleges that curtailment by Penn Gas of firm industrial deliveries in the magnitude it has ordered as a result of Tennessee's announced curtailment of deliveries to Penn Gas would utterly devastate the already sorely depressed economy of northeast Pennsylvania. Petitioner states there is little in place capability on the part of its firm industrial customers to conduct their operations on the burning of fuels alternative to gas. The petition states that while these consumers had no reasonable expectation of such drastic levels of curtailment upon notice by Penn Gas, these industrial concerns have set out on crash programs to accelerate plans for the conversion of production equipment to alternate capabilities, to the extent that conversion is technologically feasible. Penn Gas states that it does not seek extraordinary relief for the benefit of any consumer that can continue operating in the absence of such relief, or any end-use that can be met by existing, in place, alternative fuel capabilities; or for any such capability that can be installed during the present winter.[2] The petition states further that none of the firm customers on whose behalf Penn Gas seeks extraordinary relief has any other source of natural gas supply. Penn Gas states it has requested from Tennessee relief for its firm industrial customers and that Tennessee has informed Penn Gas relief must be sought from the Commission. Penn Gas, therefore, requests the Commission issue an order directing Tennessee to deliver to Penn Gas 2,507,676 Mcf of gas during this winter curtailment period and that such relief be granted on an interim basis pending a hearing on the issues raised in this petition.

It appears reasonable and consistent with the public interest in this case to provide a shortened period for the filing of petitions to intervene and protests. Therefore, any person desiring to be heard or to make any protest with reference to said petition should on or before January 31, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

APPENDIX.—*Requirements for period Jan. 1 through Mar. 31, 1975*

[Thousand cubic feet]

Customer	Minimum requirements	Current allocation by Penn Gas	Extraordinary relief required
Ceco Corp.	10,701	5,590	5,111

Total	2,146,584	1,302,164	844,420

NOTE.—Tennessee's announced allocation to Penn Gas for the period Dec. 16, 1974, through Mar. 31, 1975, is 1,970,259 Mcf, representing 1,663,256 Mcf for the period Jan. 1 through Mar. 31, 1975, the period for which extraordinary relief is requested herein. The allocation sought by Penn Gas in this petition is 2,507,676 Mcf, representing an increase of 844,420 above the allocation announced by Tennessee.

[FR Doc.75-1879 Filed 1-16-75;2:36 am]

[2] Penn Gas states that it does not request relief for industrial uses that can be met with existing alternate fuel capability or with alternate capabilities convertible during this winter except for Glen-Gery Corporation whose alternative fuel is a unique type of coal in extremely short supply. Penn Gas is seeking extraordinary relief only for the 50 percent of its fuel needs for which coal capability exists and states that any excess gas not required by Glen-Gery as a result of its commitment to obtain adequate coal supplies will not be taken from Tennessee by Penn Gas.

FEDERAL RESERVE SYSTEM

FIRST COMMERCIAL BANKS, INC.

Proposed Acquisition of FCB Life Insurance, Ltd.

First Commercial Banks, Inc., Albany, New York, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of FCB Life Insurance, Ltd., Phoenix, Arizona. Notice of the application was published in newspapers of general circulation in the communities to be served: Sayville, Albany, Kingston, and Syracuse (Homer), all in New York.

Applicant states that the proposed subsidiary would engage in the activities of underwriting, as reinsurer, credit life and credit accident and health insurance which is directly related to extensions of credit by the subsidiaries of the Applicant. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 13, 1975.

Board of Governors of the Federal Reserve System, January 14, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-1936 Filed 1-21-75;8:45 am]

TIPTON INSURANCE AGENCY, INC.

Formation of Bank Holding Co.

Tipton Insurance Agency, Inc., Tipton, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of all of the voting shares (less directors' qualifying shares) of The Tipton State Bank, Tipton, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Tipton Insurance Agency, Inc. has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire the Tipton Insurance Agency, Tipton, Kansas. Notice of the application was published on October 24, 1974 in The Cawker City Ledger, a newspaper circulated in Tipton, Kansas.

Applicant states that the proposed subsidiary would engage in general insurance agency activities, including the sale of fire, casualty, accident, health and life insurance, and credit life and credit accident and health insurance directly related to extensions of credit by The Tipton State Bank. Such activities will be conducted from the premises of The Tipton State Bank in a community having a population of less than 5,000 persons. Applicant states that such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals

V40 I15 JAN 22 75 XUM

in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 13, 1975.

Board of Governors of the Federal Reserve System, January 14, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

WESTERN CORP.

Acquisition of Bank

Western Corporation, Rapid City, South Dakota, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of The First National Bank of Chugwater, Chugwater, Wyoming. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Western Corporation, Rapid City, South Dakota, has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Chugwater Insurance Agency, Chugwater, Wyoming, and to retain Newcastle Insurance Agency, Newcastle, Wyoming. Notice of the applications was published on October 25, 1974, in The Platte County Record-Times, a newspaper circulated in Wheatland, Wyoming, and November 14, 1974, in the News Letter Journal, circulated in Newcastle, Wyoming, respectively.

Applicant states that these susbidiaries would engage in the following activities: sale of fire and casualty, auto, and life insurance. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposals can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secertary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 13, 1975.

Board of Governors of the Federal Reserve System, January 14, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

IMPLEMENTATION OF PAY SYSTEM

Notice of Committee Meetings

Pursuant to the provisions of section 10 of Pub. L. 92-463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, February 6, 1975.
Thursday, February 13, 1975.
Thursday, February 20, 1975.

The meetings will convene at 10 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street NW., Washington, D.C.

The committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Pub. L. 92-392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public on the basis of a determination under section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C., section 552(b)(2), that the closing is necessary in order to provide the members with the opportunity to advance proposals and counter-proposals in meaningful debate on issues related solely to the Federal Wage System with the view toward ultimately formulating advisory policy recommendations for the consideration of the Civil Service Commission.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5451, 1900 E Street, NW., Washington, D.C. 20415.

DAVID T. ROADLEY,
Chairman, Federal Prevailing Rate Advisory Committee.

JANUARY 16, 1975.

GENERAL SERVICES ADMINISTRATION

FEDERAL PROPERTY MANAGEMENT REGULATIONS; TEMPORARY REGULATION F-325

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in intrastate rate proceedings.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Arizona Corporation Commission (Docket No. U-1345) involving the application of Arizona Public Service Company for general increases in its rates for electrical and natural gas service.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

Dated: January 13, 1975.

ARTHUR F. SAMPSON,
Administrator of General Services.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

ELECTRIC FACE EQUIPMENT STANDARD

Applications for Renewal Permits

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

ICP Docket No. 4201-000, LANE HOLLOW COAL COMPANY, Mine No. 21, Mine ID No. 44 02258 0, Maxie, Virginia.
ICP Permit No. 4201-002 (Mescher HD12 Rubber Tired Tractor, Ser. No. 240),
ICP Permit No. 4201-003 (Mescher HD12 Rubber Tired Tractor, Ser. No. 288),
ICP Permit No. 4201-004 (Mescher HD12 Rubber Tired Tractor, Ser. No. 367),
ICP Permit No. 4201-005 (Mescher ED120 Rubber Tired Tractor, Ser. No. 390).

In accordance with the provisions of § 504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that requests for public hearing as to an application for a renewal permit may be filed on or before February 6, 1975. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request.

A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street, NW., Washington, D.C. 20006.

GEORGE A. HORNBECK,
Chairman, Interim Compliance Panel.

JANUARY 16, 1975.

INTERNATIONAL TRADE COMMISSION

[TA—131(b)-1]

PRESIDENT'S LIST OF ARTICLES WHICH MAY BE AFFECTED BY INTERNATIONAL TRADE NEGOTIATIONS

Investigation and Hearings

On January 14, 1975, the President, pursuant to section 131(a) of the Trade Act of 1974 (hereinafter referred to as "the Act"), furnished the United States International Trade Commission (hereinafter referred to as "the Commission") a list of articles (hereinafter referred to as the "President's list") to be considered in international trade negotiations to be conducted under authority of section 101 of the Act. The President's list is published in paragraph 11-B of his "Notice of International Trade Negotiations and of Articles which may be Affected by such Negotiations" (40 FR 2659).

I. *Investigation instituted.* In accordance with the President's request and section 131 of the Act, the Commission has instituted an investigation for the purpose of obtaining, to the extent practicable, information of the kind described in section 131(d) of the Act for use in connection with the preparation of advice to the President required by section 131(b) of the Act. This advice will be the Commission's judgment, with respect to each article included in the President's list, as to the probable economic effect of the continuance, elimination, or reduction of United States duties, or continuance of United States duty-free or excise treatment, on industries producing like or directly competitive articles and on consumers.

II. *Procedure for conduct of hearings and submission of written views.*

A. Public hearings in connection with the investigation will be held in the following cities commencing at 10 a.m. on the dates indicated:

Cities	Dates[1] (1975)
Washington, D.C.	Feb. 25 to 27.
New Orleans, La.	Mar. 4.
Atlanta, Ga.	Mar. 6.
Phoenix, Ariz.	Mar. 11.
San Francisco, Calif.	Mar. 13
Minneapolis, Minn.	Mar. 18.
Portland, Oreg.	Mar. 20.
New York, N.Y.	Apr. 1.
Boston, Mass.	Apr. 3.
Chicago, Ill.	Apr. 8.
Washington, D.C.	Apr. 8.
Cleveland, Ohio	Apr. 10.
Denver, Colo.	Apr. 14.
Omaha, Nebr.	Apr. 16.
Kansas City, Mo.	Apr. 18.

[1] The hearings in Washington, D.C. scheduled to begin February 25 will conclude on February 27; those scheduled to begin April 8 will continue until all interested parties have been heard. The hearings scheduled in cities other than Washington, D.C., will continue until all interested parties have been heard.

Further notice will be published in the FEDERAL REGISTER as to the names and locations of the hearing rooms in cities other than Washington. The public hearings in Washington, D.C., will be held in the hearing room of the U.S. International Trade Commission, 8th & E Streets, NW., Washington, D.C., commencing at 10 a.m. on the dates indicated.

1. Requests to appear at the public hearings shall be filed in writing with the Secretary of the Commission at least two weeks prior to the commencing date of the hearing in the city at which the appearance is to be made. Such requests shall contain the following information:

a. A description of the article or articles on which testimony will be presented, including, if possible, the item number or numbers in the Tariff Schedules of the United States[2] covering the article or articles.

b. The name and organization of the witness or witnesses who will testify, and the name, address, telephone number, and organization of the person filing the request.

c. A statement indicating whether the testimony to be presented will be on behalf of importers, domestic producers, consumers, or other interests.

d. A careful estimate of the aggregate time desired for presentation of oral testimony by all witnesses for whose appearances the request is filed.

[2] The Tariff Schedules of the United States Annotated (1975) is for sale by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402; and is also available for inspection without charge at any field office of the U.S. Customs Service or the Department of Commerce and at depository libraries.

2. Allotment of time: Because of the extensive scope of the President's list, limitation of time for the presentation of oral testimony is in the public interest. Accordingly, in scheduling appearances at the hearing the time to be allotted to witnesses for the presentation of oral testimony will be limited as circumstances require. Supplemental written statements will be allowed in all cases, and should be submitted at the time of presentation of oral testimony.

3. Notification of date of appearance: Persons who have properly filed requests to appear will be individually notified in advance of the date on which they will be scheduled to present oral testimony and of the time allotted for presentation of such testimony.

4. Order of hearings: To the extent practicable the hearings at each city will follow the order of the Tariff Schedules of the United States, beginning with Schedule I, Animal and Vegetable Products.

5. Questioning of witnesses will be limited to members of the Commission and its staff.

B. *Written information and views in lieu of appearances at the public hearings may be submitted by interested persons.* A signed original and nineteen true copies of such statements shall be submitted. Business data which it is desired shall be treated as confidential shall be submitted on separate sheets, each clearly marked at the top "Business Confidential." All written statements, except for confidential business data, will be made available for inspection by interested persons. To be assured of consideration by the Commission, written statements in lieu of appearances should be submitted at the earliest practicable date, but not later than the date of the closing of the public hearings.

III. *Communications to be addressed to Secretary.* All communications regarding the Commission's investigation should be addressed to the Secretary, United States International Trade Commission, Washington, D.C. 20436.

By direction of the United States International Trade Commission.

Issued: January 20, 1975.

KENNETH R. MASON,
Secretary.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

MANAGEMENT OF COASTAL ZONE AND OFFSHORE RESOURCES

Open Meeting

JANUARY 17, 1975.

The National Advisory Committee on Oceans and Atmosphere (NACOA) will hold a meeting Thursday and Friday, February 20 and 21, 1975. Both sessions will be open to the public and will be held in Room 6802 of the U.S. Department of Commerce Building, 15th and Constitution Avenue, NW., Washington, D.C., beginning at 9 a.m.

V40115 JAN 22 75 XUM

The Committee, consisting of 25 non-Federal members appointed by the President from State and local governments, industry, science, and other appropriate areas, was established by Congress by Pub. L. 92–125, on August 16, 1971. Its duties are to: (1) undertake a continuing review of the progress of the marine and atmospheric science and service programs of the United States, (2) submit a comprehensive annual report to the President and to the Congress setting forth an overall assessment of the status of the Nation's marine and atmospheric activities on or before June 30 of each year, and (3) advise the Secretary of Commerce with respect to the carrying out of the purposes of the National Oceanic and Atmospheric Administration.

The agenda will consist of briefings and discussion organized around the following topics:

THURSDAY, FEBRUARY 20

Developmental and regulatory issues in the management of coastal zone and offshore resources.

9 a.m. to noon—case studies by industry representatives on offshore oil and gas, nuclear power plant siting, and coastal recreation.

1:30 to 5 p.m.—views of representatives of the Departments of the Interior, Commerce, Transportation, and the Council on Environmental Quality.

FRIDAY, FEBRUARY 21

9 a.m. to 3 p.m.—progress reports from NACOA ad hoc working groups on information needs of coastal zone management, the future of the International Decade of Ocean Exploration, and material for the next NACOA annual report.

The public is welcome and will be admitted to the limit of the seating available. Persons wishing to make formal statements should notify the Chairman in advance of the meeting. The Chairman retains the prerogative to place limits on the duration of oral statements and discussion. Written statements may be submitted at any time.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. Telephone: (202) 967–3343.

DOUGLAS L. BROOKS,
Executive Director.

[FR Doc.75–2053 Filed 1–21–75;8:45 am]

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL COUNCIL ON THE ARTS

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that a meeting of the National Council on the Arts will be held at 9 a.m.–5 p.m. on February 7, 1975; 9 a.m.–5 p.m. on February 8, 1975; 9:15 a.m.–2 p.m. on February 9, 1975 in the Shoreham Building, 1st floor conference room, 806 15th Street, NW., Washington, D.C.

A portion of this meeting will be open to the public on February 7 from 9 a.m.–12 noon on a space available basis. Accommodations are limited. During the open session the following topics will be discussed: Preliminary Matters; Bicentennial Discussion; Public Works/Public Service Employment; Cultural Advisory Service; Report Re Reorganization Matters.

The remaining sessions of this meeting, February 7 from 12:30 p.m.–5 p.m., February 8 from 9 a.m.–5 p.m., and February 9 from 9:15 a.m.–2 p.m. are for the purpose of Council review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these sessions, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b) (4), and (5), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

[FR Doc.75–2023 Filed 1–21–75;8:45 am]

NATIONAL SCIENCE FOUNDATION

COMMITTEE MANAGEMENT

Establishment of Utility Advisory Panel

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), it is hereby determined that the establishment of a Utility Advisory Panel, as hereinafter identified, is necessary, appropriate, and in the public interest in connection with the performance of duties imposed upon the National Science Foundation by the National Science Foundation Act of 1950, as amended, and other applicable laws. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to section 9. (a)(2) of the Federal Advisory Committee Act and OMB Circular No. A–63, Revised.

1. *Name of panel.* Utility Advisory Panel.

2. *Purpose.* To review the assumptions made by, and the results of, the Energy Conservation Alternatives Study which is supported by the National Science Foundation, the National Aeronautics and Space Administration and the Department of Interior's Office of Coal Research. As the aim of the study is to evaluate candidate coal energy conversion systems for application to electric power generation, it is necessary to ensure that the results are applicable to electric utilities. This panel will provide advice to the Interagency Steering Committee, which is comprised of two members from each of the supporting agencies, on the compatibility of the assumptions and results with utility operation.

3. *Effective date of establishment and duration.* The Utility Advisory Panel is established, effective 15 days after publication of this notice and after the charter has been filed with the standing committees of Congress having legislative jurisdiction of the National Science Foundation. The panel shall be operative for one year from the date of the filing of the charter.

4. *Membership.* The membership of the Utility Advisory Panel shall be fairly balanced in terms of the points of view represented and the panel's function. Appointments shall be made by the Interagency Steering Committee from representatives of publicly- and privately-owned utilities. Persons with backgrounds in research and in operation will be sought. Approximately seven individuals will be selected to serve. There will be no discrimination on the basis of race, color, national origin, religion or sex.

5. *Panel operation.* The panel will operate in accordance with provisions of the Federal Advisory Committee Act (Pub. L. 92–463), Foundation policy and procedures, OMB Circular No. A–63, Revised and other directives and instructions issued in implementation of the Act.

LOWELL J. PAIGE,
Acting Director.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–516A and 50–517A]

LONG ISLAND LIGHTING CO.

Receipt of Attorney General's Advice and Time for Filing of Petitions To Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c. of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated January 7, 1975 a copy of which is attached as Appendix A below.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's rules of practice, 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by February 21, 1975, either (1) by delivery to the NRC Public Docketing and Service Section at 1717 H Street, NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, Nuclear Regulatory Commission, Washington, D.C. 20545, ATTN: Docketing and Service Section.

For the Nuclear Regulatory Commission.

JEROME SALTZMAN,
Deputy Chief, Office of Antitrust and Indemnity, Directorate of Licensing.

APPENDIX A

LONG ISLAND LIGHTING COMPANY; JAMESPORT NUCLEAR POWER STATION, UNITS 1 AND 2; NRC DOCKET NOS. STN 50–516 AND STN 50–517; DEPARTMENT OF JUSTICE FILE 60–415–99

JANUARY 7, 1975.

You have requested our advice pursuant to the provisions of section 105 of the Atomic Energy Act of 1954, 68 Stat. 919, 42 U.S.C. 2011–2296, as amended by Pub. L. 91–560, 84 Stat. 1472, in regard to the above-cited application.

Introduction. Long Island Lighting Co. (LILCO) has applied for a permit to construct its second nuclear facility, consisting of two 1,150 MW units at Jamesport, New York. These units are scheduled for completion, at the earliest, in May, 1981 and May, 1983. It is presently estimated that the plant construction costs will be about $1,525,000,000, station switchyard and transmission costs about $28,000,000 and nuclear fuel inventory costs for the first cores in both units about $75,000,000, for a grand total estimated cost of $1,630,000,000. Applicant intends to finance these costs from internal sources, short-term borrowings and the sale of stock and debt obligations.

The applicant. LILCO is a combination gas-electric utility on Long Island, New York. Its service area covers almost all of Long Island east of New York City, plus an isolated strip of the Borough of Queens within that City. In 1973 electric revenues accounted for $338.6 million of the company's total revenues of $432.6 million.

In its electric operations the Applicant is a fully-integrated electric utility. Aside from the Shoreham nuclear facility, a fossil fueled steam unit and various gas turbine units now under construction, it operates five oil-fired steam electric generating stations and various gas turbine and diesel auxiliary generating units which have a present dependable peak capacity of 3,459 MW. In addition, LILCO and six other New York electric utilities have entered into a non-binding memorandum of understanding with respect to the formation of a jointly-owned generating company to build and operate major generating facilities to be placed in service in the 1980's. Its transmission network includes over 1000 circuit miles with lines ranging up to 138 kv capacity. And its distribution system has almost 47,000 conductor miles of distribution lines to serve its 1230 square mile franchise area, which includes an estimated population exceeding 2.8 million persons, greater than that in each of 25 states.

Relations with other utilities. By its geography LILCO is physically a comparatively isolated major electric utility. It is near only two private utilities, Consolidated Edison Co. in adjacent New York City and Connecticut Light and Power Co., and is interconnected with both, the latter via a submarine cable across Long Island Sound. These interconnections make possible a wide range of contractual relations assuring LILCO the cost and reliability benefits available from reserve sharing and coordinated planning and operation.

For example, LILCO is a member of the New York Power Pool. Other participating members, in addition to Consolidated Edison, are Central Hudson Gas & Electric Corp., New York State Electric and Gas Corp., Niagara Mohawk Power Corp., Orange and Rockland Utilities, Inc., the Power Authority of the State of New York (PASNY), and Rochester Gas and Electric Corp. As a pool member LILCO has the obligation to deliver and the right to receive emergency power, supplemental power and economy power. The Applicant also has coordinating arrangements for emergency and economy power with the Nepool Companies, a group of 31 companies in New England including Connecticut Light and Power Co.

Within LILCO's service area there are the three comparatively small municipal utilities of the Villages of Rockville Center, Freeport and Greenport. The latter has its own generation, with capacity of 7,600 kw to meet its maximum load in 1973 of 2,700 kw. It operates completely isolated, and has had no interconnections with the Applicant since 1964.

The Village of Rockville Center has been interconnected with LILCO since 1937. Discussions are presently under way between the parties to increase the interconnection capability. Since 1960 they have been operating under a contract covering the exchange of emergency power and energy when necessary. This municipal system has its own generation capacity of 35,000 kw to meet its current load of 31,000 kw. However, it has purchased deficient reserve capacity from LILCO, as well as emergency power and energy from time to time, while the latter made one purchase under the contract in 1965.

Freeport has been interconnected with the Applicant since 1954. It has generating facilities of 50,000 kw and a current maximum load of 37,200 kw. Since 1966, it has operated under a contract with LILCO covering exchange of emergency power and on and off peak firm power. Under this arrangement the municipal has continuously purchased a portion of its bulk power requirements from LILCO, while the latter purchased a small amount of power and energy in 1973 from Freeport.

Conclusions. On August 4, 1971, we rendered antitrust advice with respect to LILCO's application to construct its Shoreham nuclear power station, Unit 1. It was concluded that the activities under the license would not create or maintain a situation inconsistent with the antitrust laws. No intervening circumstances have appeared to warrant a reversal of that conclusion.

The Applicant's rather isolated location on Long Island severely curtails any potential scope for widespread competitive impact from its operations. The only serious possibility involves the three municipal systems located within its franchise area. None of these has indicated to us any interest in opposing this application, nor in seeking to obtain by purchase or unit power contract a share in the Jamesport station.

The principal concern of Rockville Center and Freeport with LILCO, indeed, is with its willingness to wheel outside power to to them. In order to obtain supplemental power to meet load growth, both systems are negotiating with the Power Authority of the State of New York to secure blocks of available PASNY generation as preference municipal customers. This will require arrangements by PASNY with the New York Power Pool companies to wheel the power to them. However, LILCO has assured the municipals of its agreement in principle to transmit this purchased power at reasonable rates, and is presently discussing the terms and conditions with PASNY.

Accordingly, from the information available to us at this time we conclude that no antitrust hearing by the Atomic Energy Commission will be required with respect to this application.

[FR Doc.75–1825 Filed 1–21–75;8:45 am]

[Docket Nos. 50–496A and 50–497A]

NORTHEAST NUCLEAR ENERGY CO. ET AL.

Receipt of Attorney General's Advice and Time for Filing of Petitions To Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c. of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated January 8, 1975 a copy of which is attached as Appendix A below.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's rules of practice, 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by February 21, 1975 either (1) by delivery to the NRC Public Docketing and Service Section at 1717 H Street NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, Nuclear Regulatory Commission, Washington, D.C. 20545, ATTN: Docketing and Service Section.

For the Nuclear Regulatory Commission.

JEROME SALTZMAN,
Deputy Chief, Office of Antitrust and Indemnity Directorate of Licensing.

APPENDIX A

MONTAGUE NUCLEAR POWER STATION, UNITS 1 AND 2; NORTHEAST NUCLEAR ENERGY COMPANY, ET AL.; NRC DOCKET NOS. 50–496A AND 50–497A

JANUARY 8, 1975.

You have requested our advice pursuant to the provisions of section 105 of the Atomic Energy Act, as amended, in regard to the above-cited application.

Montague Nuclear Power Station, Units 1 and 2, will consist of two 1150 megawatt units located in the Town of Montague in northern Massachusetts. The estimated cost of the units at completion is approximately $1,841 million. Unit 1 is scheduled to go into commercial operation between November 1980 and May 1982; Unit 2, between August 1982 and February 1984.

I. *The applicants.* The Montague Nuclear Power Station is being constructed as part of an overall generation expansion program for utilities participating in the New England Power Pool and for other New England utilities. The units are to be jointly owned by a minimum of nine and a maximum of twenty-nine of the below-named applicants. Nine applicants which are committed to become owners of the units are privately-owned utilities; the maximum percentage of ownership of each is as follows:

	Percent
Northeast Utilities (NU)	75.00
The Connecticut Light & Power Co. (CL&P)	39.75
The Hartford Electric Light Co. (HELCO)	21.00
Western Massachusetts Electric Co. (WMEC)	14.25
New England Power Co.	13.00
Central Maine Power Co.	3.00
New Bedford Gas & Electric Light Co.	4.50

V 40 15 JAN 22 75 XUM

	Percent
Montaup Electric Co.	2.00
Central Vermont Public Service Corp. (CVPSC)	1.74
Fitchburg Gas and Electric Light Co.	0.76

Twenty municipal-owned systems may exercise their respective options to acquire portions of the ownership interests which the aforementioned nine applicants are committed to acquire. Those consumer-owned systems and the maximum ownership interests which they may respectively acquire are: Burlington Electric Department (0.22 percent); Town of Reading Municipal Light Department (0.29 percent); City of Chicopee Municipal Lighting Plant (0.26 percent); City of Holyoke Gas and Electric Department (0.16 percent); Peabody Electric Department (0.16 percent); City of Westfield Gas and Electric Light Department (0.16 percent); Town of Shrewsbury Municipal Light Department (0.12 percent); Town of Wakefield Municipal Light Department (0.11 percent); Town of South Hadley Electric Light Department (0.09 percent); Town of Hudson Light and Power Department (0.06 percent); Marblehead Municipal Light Department (0.07 percent); North Attleborough Electric Department (0.07 percent); Holden Municipal Light Department (0.06 percent); Town of Littleton Electric Light and Water Department (0.6 percent); Town of West Boylston Municipal Lighting Plant (0.04 percent); Ashburnham Municipal Light Plant (0.02 percent); Town of Boylston Municipal Light Department (0.02 percent); Parton Municipal Light Department (0.02 percent); Sterling Municipal Electric Light Department (0.02 percent); Templeton Municipal Light Plant (0.02 percent).

The Montague units will be constructed and operated by the Applicant Northeast Nuclear Energy Company ("Northeast"), an affiliate of NU. Northeast will have no ownership interest in the units.

II. *Background.* As we have previously indicated in our advice letter concerning the Boston Edison Company application for the Pilgrim Nuclear Power Station, Unit No. 1 (AEC Docket No. 50-293A), dated August 2, 1971, there have been allegations of anti-competitive behavior by the privately-owned electric utilities against various municipal electric systems in New England, particularly in Massachusetts, during the past 10-12 years. In that letter, we indicated that various privately-owned utilities appeared to have been precluding municipal utility systems in New England from gaining access to bulk power supply on the same basis as investor-owned utilities. We concluded that many of the antitrust allegations advanced by Massachusetts municipal utilities raised substantial questions under the antitrust laws with respect to the collective activities of the utilities in New England. We therefore recommended that the Commission hold a hearing on antitrust issues relating to that application.

In the period since the Attorney General's advice on Pilgrim Unit No. 1 was published (36 F.R. 17880-81, September 4, 1971) until the present, various municipal utilities have been engaged in negotiations with privately-owned utilities in New England which would allow the former to secure access to various sources of large scale, relatively low-cost generation, as well as necessary transmission service. Although the parties have reached agreement on the principal points, these negotiations have not yet been wholly concluded. Accordingly, the Department will not, at this time, comment upon or supplement its advice with respect to Pilgrim Unit No. 1.

III. *Competitive considerations.* Our inquiries of various New England utilities concerning the instant application generated responses which appear to indicate that the adverse effects of the situation outlined in the Department's advice on Pilgrim Unit No. 1 have been, in large part, alleviated. The number of municipal-owned utilities which have become members of the New England Power Pool and which have acquired options to participate in the Montague units would tend to buttress this conclusion. In no case was the Department informed that a utility would seek to prevent the unconditioned granting of a license for these units.

One cooperative system, noting that CVPSC is the dominant factor in transmission in its region, complained that its transmission rates are too high due, in part, to allegedly unreasonable cost allocations by the Company. However, there is no allegation that CVPSC has refused or is refusing to wheel power; hence there is no fact situation comparable to that found to constitute an antitrust violation in "Otter Tail Power Co. v. United States," 410 U.S. 366 (1973). In our judgment, the complaints which have been made about CVPSC's wheeling rates can be more appropriately determined by the Federal Power Commission which has jurisdiction over, and is presently examining, the rates in question.

On February 13, 1973, a group of six municipal systems in Connecticut[1] filed an antitrust suit against CL&P, HELCO and NU seeking an injunction and treble damages. The plaintiffs have been wholesale customers of CL&P for many years. The defendants have filed an antitrust counterclaim, and the case is pending. The pendency of the antitrust suit prompted the six municipal systems to refuse to participate in the negotiations which are providing smaller utilities in New England with access to the benefits of large-scale generation and transmission. The six municipal systems do not, however, oppose the unconditioned grant of a license for the Montague units. We do not think it appropriate to pass judgment upon the allegations in the antitrust complaint, which have been denied by defendants. We note, however, that plaintiff's antitrust allegations are focussed upon the rates, terms, and conditions of CL&P's wholesale service to them. Several of the allegations as to restrictive contract and rate schedule provisions appear to relate to provisions previously, but no longer, in effect. (Provisions embodying a potential restraint on the resale of bulk power were eliminated at the Department's request during the course of our review of the Application for Millstone Nuclear Power Station, Unit No. 3 (AEC Docket No. 50-423A)).

IV. *Conclusion.* The demonstrated commitment of the investor-owned Applicants to allowing municipal-owned utilities in New England to gain access to bulk power from the Montague units and other large-scale generation in New England on the same basis as is available to investor-owned utilities appears to represent a significant step toward improving the competitive structure of the New England utility industry. Under these circumstances, it is our opinion that an antitrust hearing will not be necessary with respect to the instant application.

[FR Doc. 75-1826 Filed 1-21-75;8:45 am]

[Docket No. P-505-A]

PUBLIC SERVICE COMPANY OF INDIANA, INC.

Notice of Receipt of Partial Application for Construction Permits and Facility Licenses; Time for Submission of Views on Antitrust Matters

Public Service Company of Indiana, Inc. (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated December 13, 1974, and docketed December 24, 1974, in connection with its plans to construct and operate two pressurized water reactors in Saluda Township, Jefferson County, Indiana. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portions of the application, including the Preliminary Safety Analysis Report and the Environmental Report, are to be submitted for review in early summer 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission, including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Docket No. P-505-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 17, 1975.

Dated at Bethesda, Maryland, this 8th day of January, 1975.

For the Nuclear Regulatory Commission.

D. B. VASSALLO,
Chief, Light Water Reactors, Project Branch 1-1, Directorate of Licensing.

[FR Doc.75-1176 Filed 1-14-75;8:45 am]

TRANSITION ORGANIZATION

Location of Offices

The Nuclear Regulatory Commission (NRC) was established by the Energy Reorganization Act of 1974, 88 Stat. 1233, effective January 19, 1975 (E.O. 11834).

The major program and staff components of the Nuclear Regulatory Commission (NRC) are organized for transitional purposes as described in this notice. The organizational requirements of NRC are currently undergoing intensive review by the Commission and further refinements are expected in due course. All appointments are effective January 19, 1975.

PROGRAM COMPONENTS

The major program components of the Commission are composed of the Office of Nuclear Reactor Regulation, the Office of Nuclear Material Safety and Safeguards, and the Office of Nuclear Regulatory Research, which were created by the Energy Reorganization Act of 1974, plus the Commission-created Office of Standards Development, and Office of Inspection and Enforcement.

EXECUTIVE DIRECTOR FOR OPERATIONS

The Executive Director for Operations is the coordinating and directive agent below the Commission for the effective performance of the Commission's day-to-day operational and administrative activities. He will coordinate and direct the operating and administrative units in behalf of the Commission. He will further be responsible for coordinating the development of policy options generated by the directors of the program offices. Lee V. Gossick is designated Acting Executive Director for Operations.

OFFICE OF NUCLEAR REACTOR REGULATION

The Office of Nuclear Reactor Regulation is responsible for the principal licensing and regulation involving all facilities and materials licensed under the Atomic Energy Act of 1954, as amended, associated with the construction and operation of nuclear reactors licensed under the Atomic Energy Act of 1954, as amended; reviewing the safety and safeguards of all such facilities, materials, and activities; for recommending research necessary for the discharge of those functions of the Commission; and, for developing policy options for Commission consideration. Edson G. Case is designated Acting Director, Office of Nuclear Reactor Regulation. The Office has two principal divisions: the Division of Reactor Licensing, which encompasses the functions of, and replaces the previous sub-directorate of Reactor Projects, and the Division of Technical Review, which encompasses the functions of, and replaces the previous sub-directorate of Technical Review. Angelo Giambusso is appointed Director, Division of Reactor Licensing. Frank Schroeder is designated Acting Director, Division of Technical Review.

OFFICE OF NUCLEAR MATERIAL SAFETY AND SAFEGUARDS

The Office of Nuclear Material Safety and Safeguards is responsible for the principal licensing and regulation involving all facilities and materials licensed under the Atomic Energy Act of 1954, as amended, associated with processing, transport, and handling of nuclear materials, including the provision and maintenance of safeguards against threat, thefts, and sabotage of such licensed facilities and materials; for reviewing the safety and safeguards of all such facilities and materials; for recommending research necessary for the discharge of these functions by the commission; and for developing policy options for Commission consideration. Howard J. Larson is designated Acting Director, Office of Nuclear Material Safety and Safeguards.

The initial organization of the Office includes two principal divisions: the Division of Materials and Fuel Cycle Facility Licensing, which encompasses the functions of, and replaces the previous sub-directorate of Fuels and Materials except for its safeguards related functions; and the Division of Safeguards, which will encompass these functions. Howard J. Larson is appointed Director, Division of Materials and Fuel Cycle Facility Licensing. Ralph G. Page is designated Acting Director, Division of Safeguards.

The organizational arrangements shown for this Office are interim in nature, with more detailed study by the Commission required to establish a permanent organization. When such permanent arrangements are made, the Office will be further responsible for supervision of the security agency study required by section 204 of the Energy Reorganization Act. This function is presently assigned to the Office of Special Studies.

OFFICE OF NUCLEAR REGULATORY RESEARCH

The Office of Nuclear Regulatory Research is responsible for developing recommendations for research that the Commission deems necessary for performance of its licensing and related regulatory functions, for planning and implementing such research and for developing policy options for Commission consideration. Herbert J. C. Kouts is appointed Director, Office of Nuclear Regulatory Research.

OFFICE OF STANDARDS DEVELOPMENT

The Office of Standards Development is responsible for the development of regulations, criteria, guides, standards, and codes pertaining to (a) nuclear health and safety and environmental protection in the siting, design, construction, and operation of nuclear reactors and other production and utilization facilities, and facilities for the storage, processing, and use of nuclear materials licensed under the Atomic Energy Act of 1954, as amended, and (b) the management and utilization of nuclear materials held by NRC licensees; for recommending research necessary for the discharge of these functions by the Commission; and for developing policy options for Commission consideration. Robert B. Minogue is designated Acting Director, Office of Standards Development.

OFFICE OF INSPECTION AND ENFORCEMENT

The Office of Inspection and Enforcement is responsible for the development and administration of programs and policies for (a) inspections and investigations necessary to determine whether licensees are complying with license provisions and rules, and to ascertain whether licensed operations are being conducted safely; (b) establishment of bases for the issuance of denial of a construction permit or license; (c) investigation of accidents, incidents, and theft or diversion of special nuclear materials; (d) enforcement actions; and (e) evaluation of licensed operations as a basis for recommending changes to standards and license conditions and for issuance of reports to the nuclear industry and the public, for recommending research for the discharge of these functions by the Commission; for developing policy options for Commission consideration; and for providing management and direction of NRC Regional Offices. Donald F. Knuth is appointed Director, Office of Inspection and Enforcement. The relationship of safety and safeguards inspection and enforcement will be under study along with the detailed organization and duties of the Office of Nuclear Material Safety and Safeguards.

STAFF COMPONENTS REPORTING TO THE COMMISSION

The following major staff components will report directly to the Commission:

The Atomic Safety and Licensing Board Panel, from whose members Boards are appointed to conduct such hearings and make such decisions as the Commission may authorize or direct in licensing proceedings. Nathaniel H. Goodrich is appointed Chairman of the Atomic Safety and Licensing Appeal Panel.

The Atomic Safety and Licensing Appeal Panel, from whose members Appeal Boards are appointed by the Commission in particular proceedings. Alan S. Rosenthal is appointed Chairman of the Atomic Safety and Licensing Appeal Panel.

The Office of the Secretary encompasses the functions of the previous Office of the Secretary of the Atomic Energy Commission except those connected with administrative and logistical support of the Commission and with administration of the Public Document Room in Washington, D.C., which are transferred to the Office of Administration. The Secretary will also serve as the NRC Advisory Committee Management Officer. John C. Hoyle is designated Acting Secretary of the Nuclear Regulatory Commission.

The Office of the Agency Inspector and Auditor performs investigations of possible irregularities or misconduct on the part of Commission employees and reports the results of such investigations; directs the activities of the NRC internal audit function, coordinates audit results with appropriate officials and maintains audit liaison with the GAO.

The General Counsel of the NRC is the principal legal advisor to the Commission on all matters except for those specifically assigned to the Solicitor. Howard K. Shapar is designated Acting General Counsel of the NRC.

The Solicitor is responsible for providing the Commission with legal advice and related services in connection with the Commission's adjudicatory and litigation functions. Raymond M. Zimmet is being designated Acting Solicitor.

The Office of Public Affairs is responsible for informing the public of NRC policies, programs, and activities, as appropriate, and for informing NRC management of media coverage of activities of interest to the Commission. John A. Harris is appointed Director, Office of Public Affairs.

The Office of Congressional Liaison is responsible for assisting the Commission in its relationships with Congress.

STAFF COMPONENTS REPORTING TO THE EXECUTIVE DIRECTOR FOR OPERATIONS

The following major staff components will report to the Executive Director for Operations:

The Office of Administration is responsible for administration of (a) the agency personnel management program in accordance with applicable laws, Civil Service regulations

[1] Groton, Norwich, Jewett City, Wallingford and the Second and Third Taxing Districts of Norwalk.

V 40 15 JAN 22 75 XUM

where applicable, and NRC policies; (b) the NRC security and classification programs; (c) the Commission's facilities and materials license fee programs; (d) the Commission's contracting activities; (e) NRC activities resulting from the Freedom of Information Act; and (f) activities of the Public Document Room. Extensive efforts will be made to upgrade the activities of the Public Document Room in the near future. The Office is additionally responsible for directing the activities of management and administrative support programs, and for developing policy options for Commission consideration. Daniel J. Donoghue is appointed Director, Office of Administration.

The Office of Equal Employment Opportunity is responsible for the development and coordination of the NRC Equal Employment Opportunity Program for the Commission. Edward E. Tucker is appointed Director, Office of Equal Employment Opportunity.

The Office of the Controller is responsible for performance of duties related to NRC financial matters, including those relating to budgeting and accounting. Andrew W. Jackson, Jr. is designated Acting Controller of the NRC.

The Office of Planning and Analysis is responsible for providing for an overall independent analysis of programs, issues, policy options and alternatives. Edwin G. Triner is designated Acting Director, Office of Planning and Analysis.

The Office of International and State Programs encompasses the functions of, and replaces the previous Office of Government Liaison of the Atomic Energy Commission. Herbert H. Brown is appointed Director, Office of International and State Programs.

The Office of the Executive Legal Director is responsible for providing legal advice and related services to the Executive Director for Operations and the organizational components of NRC reporting to that official. Howard K. Shapar is appointed Executive Legal Director.

The Office of Management Information and Program Control is responsible for the design, development, and implementation of management information and control systems for schedules, manpower, budgets and processes of program offices, and the evaluation of program performance. William G. McDonald is appointed Director, Office of Management Information and Program Control.

The Office of Special Studies presently has staff responsibility for conducting the nuclear energy center site survey provided for by Section 207 of the Energy Reorganization Act of 1974; for conducting the study provided for by Section 204 of the Energy Reorganization Act of 1974 to assess the need for, and the feasibility of establishing a security agency within the Office of Nuclear Safety and Safeguards for the performance of safeguards functions, and for conducting a study of the safeguards aspects relating to the decision to be made by the Commission on the use of mixed oxide fuels in light water reactors. Seymour H. Smiley is appointed Director of the Office of Special Studies. As indicated in the description of the functions of the Office of Nuclear Material Safety and Safeguards, the security agency feasibility study will be transferred to the supervision of that Office when its permanent organizational details are completed.

The statutory Advisory Committee on Reactor Safeguards was transferred intact to the Nuclear Regulatory Commission (NRC) by the Energy Reorganization Act of 1974. Its functions and staffing are continued without change. William Kerr is Chairman, Advisory Committee on Reactor Safeguards.

LOCATION OF OFFICES

(1) The principal NRC Offices are maintained within the District of Columbia at 1717 H Street NW., and at 7920 Norfolk Avenue, Bethesda, Maryland. The mail address is Washington, D.C. 20555.

(2) The Regional Offices of the Office of Inspection and Enforcement are as follows:

Region I, 631 Park Avenue, King of Prussia, Pa. 19406.
Region II, Suite 818, 230 Peachtree Street, NW., Atlanta, Ga. 30303.
Region III, 799 Roosevelt Road, Glen Ellyn, Ill. 60137.
Region IV, P.O. Box 5039, White Settlement, Tex. 76108.
Region V, 1990 N. California Blvd., Suite 202, Walnut Creek, Calif. 94596.

Copies of delegations of authority by the NRC are available for public inspection and copying at the Public Document Room, 1717 H Street NW., Washington, D.C.

(5 U.S.C. 552)

For the Nuclear Regulatory Commission.

Dated at Bethesda, Maryland this 20th day of January, 1975.

JOHN C. HOYLE,
Acting Secretary
of the Commission.

[FR Doc.75-2198 Filed 1-21-75;10:03 am]

SECURITIES AND EXCHANGE COMMISSION

MIDDLE SOUTH UTILITIES, INC.

Notice of Proposed Exceptions From Tax Allocation Provisions

Notice is hereby given, That Middle South Utilities, Inc., ("Middle South"), a registered holding company, and its wholly-owned subsidiary companies, System Fuels, Inc., and Middle South Energy, Inc., together with Middle South's other subsidiary companies, have filed a declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 12(b) and 12(f) of the Act and Rule 45(b)(6) promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

Middle South and its subsidiary companies join annually in the filing of consolidated Federal income tax returns. By Order dated May 23, 1963 (Holding Company Act Release No. 14877), the Commission granted an exception from the tax-allocation provisions of Rule 45(b)(6) whereby each of the companies included in the consolidated tax returns of the Middle South System would be given full investment tax credit contributed by it to the total investment credit allowed in the consolidated returns. Since the date of that Order, Middle South has acquired or created several additional subsidiaries, including System Fuels, Inc., and Middle South Energy, Inc. With respect to these two subsidiaries, the present filing seeks authorization to put into effect certain additional exceptions from the tax allocation requirements of Rule 45(b)(6).

System Fuels, Inc. ("SFI"). SFI was organized on January 3, 1972. It functions as the System's central vehicle for planning and implementing programs for the procurement, storage and transportation of fuel supplies for the electric generating units of the System's operating companies. Those functions include prospecting for, acquiring and developing oil, gas and coal reserves. (See Holding Company Act Release No. 18221, December 17, 1973.) Beginning with the year 1972, SFI has joined in the System's consolidated Federal income tax returns, and it is stated that the procedure as to investment tax credits authorized by the Order of May 23, 1963 has been applied to SFI as a member of the consolidated tax return group. SFI states that tax reductions arising from SFI's qualified asset investments are accounted for on its books by crediting the tax reductions to a deferred credit account and amortizing the amount in such account over the lives of the related assets; and that such annual amortization is credited to expense and thus operates to reduce the price of fuel sold by SFI to the System's operating companies.

Further exceptions from the tax-allocation provisions of Rule 45(b)(6) are now requested for SFI in respect of consolidated tax savings arising from (1) percentage depletion and (2) exploration and development costs, as follows:

(1) SFI's gas exploration program has resulted in six producing natural gas wells as of October 9, 1974, and current estimates are that total natural gas reserves from these fields will approximate 42 million mcf. It is stated that the development of these reserves, and the possibility of developing oil reserves, may give rise to a deduction by SFI for percentage depletion allowances in the consolidated Federal income tax returns filed by the Middle South System. Under the tax-allocation provisions of Rule 45(b)(6), the reduction of consolidated taxes resulting from such depletion allowances would be allocated among the other subsidiaries of Middle South in proportion to the taxable net income of each. Since SFI supplies varying volumes of fuel to the System operating companies at cost, it is stated that a more equitable procedure would be to allocate such tax savings in the first instance to SFI. The latter would account for the tax savings by crediting an equal amount to the cost of natural gas sold by SFI to the System's operating companies, resulting in a commensurate reduction of the unit sales price, in accordance with the full-cost concept of accounting for the sale of natural gas reserves.

(2) Expenditures by SFI in connection with its gas and oil exploration and development program, associated with projects which may or may not lead to successful production, are capitalized on SFI's books but deducted for tax purposes on the System's consolidated tax returns. It is estimated that, in 1974, such expenditures resulted in a tax loss of about $9,500,000 and a commensurate reduction in the consolidated tax liability (about $4,750,000 at a 50 percent tax rate). As discovered oil and gas reserves are subsequently produced and sold, the capitalized costs are amortized by charges to income on a unit-of-production basis. It is stated that under Rule 45(b)(6) the reduction in consolidated taxes resulting from such tax loses is allocable to the other subsidiary companies; and as the capitalized costs are thereafter amortized and reflected in the price of fuel sold to the operating companies, taxable income is thereby realized by SFI with resulting tax liability which must be absorbed by the operating companies in the price of fuel purchased from SFI. To enable SFI to sell fuel to the operating companies at its cost price unaffected by fluctuations in tax components in the price caused by timing variations between book and tax treatment of the capitalized costs, it is proposed, beginning with the tax year 1974:

(a) that the consolidated Federal income taxes be allocated among the members of the consolidated group without taking into account reductions of the consolidated tax resulting from inclusion of SFI's exploration and development costs in the consolidated returns;

(b) that such tax reductions be allocated in their entirety to SFI;

(c) that SFI will account for tax reductions so allocated to it by crediting a deferred income tax account, against which will be charged taxes subsequently payable to SFI on taxable income arising from recovery of its exploration and development costs in fuel billings to the operating companies; and

(d) that in years when SFI has taxable income and may be entitled to tax credits under the operating loss carryback and carryover provisions of Section 172(b) of the 1954 Internal Revenue Code, in order to comply with the separate return limitations required by Rule 45(b)(6); any tax credits remitted to SFI as a result of the exceptions from the rule herein requested shall be applied to reduce any credits in future years to which SFI may otherwise be entitled under the separate return limitations of Rule 45(b)(6).

It is further stated that the requested exceptions from Rule 45(b)(6) would augment SFI's cash flow by an amount equal to the annual net accruals to the deferred Federal income tax account, to be used by SFI in furtherance of its oil and gas exploration program, thus decreasing its reliance on other sources of capital including borrowings from its parent operating companies.

Middle South Energy, Inc. ("MSE"). MSE was organized in 1974 to function as the future central generating company for the Middle South System, and as a first step in the exercise of that function, it acquired the Grand Gulf Nuclear Electric Station Project ("Project") from an associate company, Mississippi Power & Light Company. Construction of the Project, the first and second units of which are scheduled for completion in 1980 and 1982, respectively, is estimated to cost $1,227 million. As the initial phase of financing the Project, MSE has heretofore been authorized to issue and sell $40,000,000 common stock to Middle South and to borrow up to $308,500,000 from a group of commercial banks (HCAR No. 18437, June 4, 1974). It is stated that during the period of construction MSE will have substantial interest expenses on borrowed funds and that during that period, as well as in the early years of operating the Project, it will incur substantial tax losses. Over the period 1975 through 1982 these tax losses, which will be included in the System's consolidated tax returns, are estimated to range annually from $5,597,000 to $51,046,000, and commensurately to reduce the System's annual consolidated tax liabilities.

As a further exception from the tax-allocation prescription of Rule 45(b)(6), it is proposed that, beginning with the tax year 1974, the reductions in the consolidated tax liabilities arising from any net operating losses contributed to the consolidated tax returns by MSE be allocated in their entirety to MSE, which will apply these funds to finance in part the large capital requirements of the Project; that such tax credits to MSE would be used to reduce any loss carryovers in future years to which MSE might otherwise be entitled under the separate return limitations of Rule 45(b)(6); and that in no event will the tax allocated to any other subsidiary company of the Middle South System exceed the amount of tax of such company based upon a separate return computed as if such company had always filed its return on a separate return basis.

When the first unit of the Project commences commercial operation (presently scheduled for 1980) MSE will also contribute to the consolidated tax return a tax reduction attributable to investment tax credit arising from qualified investments of MSE. Under the exception to Rule 45(b)(6) authorized by the Order May 23, 1963 (HCAR No. 14877), the method of allocating consolidated taxes in respect of investment tax credits will be applied to MSE. The latter will account for investment tax credits applicable to it by crediting a deferred account and amortizing the tax credits recorded therein over the lives of the related assets. The amortization amounts will be concurrently credited to operating expense, resulting in reduced costs of power sold to the associated operating companies.

It is stated that no Federal or State commission, other than this Commission, has jurisdiction over the proposed transactions. No special fees or expenses are to be incurred in connection with the proposed transactions except for the charges for administrative services, at cost, of Middle South Services, Inc., estimated at $500.

Notice is further given, That any interested person may, not later than February 10, 1975 request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rule 20(a) and 100 thereof or take such further action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75-1926 Filed 1-21-75;8:45 am]

SEC REPORT COORDINATING GROUP (ADVISORY)

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770, the Securities and Exchange Commission announces a public advisory committee meeting.

The Commission's Report Coordinating Group (Advisory), will hold a meeting on February 14, 1975 at the Securities and Exchange Commission, 500 North Capitol Street, Room 876, Washington, D.C. The meeting will commence at 10:00 a.m. local time and will be for the purpose of discussing the FOCUS Report of financial and operational information and development of simplified assessment and trading forms.

The Group's meetings are open to the public. Any interested person may attend and appear before or file statements with the advisory committee. Said statements, if in written form, may be filed before or after the meeting. Oral statements shall be made at the time and

V40115 JAN22 75 XUM

in the manner permitted by the Report Coordinating Group.

The Report Coordinating Group was formed to assist the Commission in developing a coherent, industry-wide, coordinated reporting system. In carrying out this objective, the Report Coordinating Group is to review all reports, forms and similar materials required of broker-dealers by the Commission, the self-regulatory community and others. The Group is expected to advise the Commission on such matters as eliminating unnecessary duplication in reporting, reducing reporting requirements where feasible, and developing the FOCUS Report of financial and operational information. (Securities Exchange Act Release No. 10612; Securities Exchange Act Release No. 10959; Securities Exchange Act Release No. 11440.)

Information concerning the meeting, including the procedures for submitting statements to the Group, may be obtained by contacting: Mr. Daniel J. Pilliero II, Secretary, SEC Report Coordinating Group, Securities and Exchange Commission, Washington, D.C. 20549.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

JANUARY 15, 1975.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area 1110]

VIRGINIA

Declaration of Disaster Loan Area

Whereas, It has been reported that during the months of November and December, because of the effects of a certain disaster, damage resulted to property located in the State of Virginia;

Whereas, The Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, After reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended:

Now, therefore, As Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in King George, Prince William and Westmoreland Counties, and adjacent affected areas, suffered damage or destruction resulting from severe storms, high winds, and abnormally high tides occurring on or about November 30–December 1, 1974. Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines.

Office: Small Business Administration
District Office
Federal Building—Room 3015
400 North Eighth Street
Richmond, Virginia 23240

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to March 17, 1975. EIDL applications will not be accepted subsequent to October 17, 1975.

Dated: January 14, 1975.

THOMAS S. KLEPPE,
Administrator.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

ADVISORY COMMITTEE ON CONSTRUCTION SAFETY AND HEALTH

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Advisory Committee on Construction Safety and Health, established under section 107(e)(1) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) and section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on Wednesday, February 5, and Thursday, February 6, 1975. The meeting will begin at 9 a.m. in Conference Room B of the Interdepartmental Auditorium, located on Constitution Avenue between 12th and 14th Streets, Northwest, Washington, D.C. This meeting will be open to the public, and all interested parties are encouraged to attend.

The proposed agenda for the ensuing meeting calls for the Committee to continue its consideration of the recommendations of the 1926/1910 Project Subcommittee. The recommendations are oriented toward selected items in Part 1910 of 29 CFR which the Subcommittee deemed applicable to Part 1926 of 29 CFR.

Any member of the public wishing to submit written presentations and/or recommendations to the Committee may do so by filing such a statement, together with 20 duplicate copies with the Committee Management Officer by January 31, 1975. Such submissions will be provided to the members of the Committee and will be included in the record of the meeting.

The Committee Chairman may permit oral statements before the Committee by interested persons. Consequently, persons desiring to make an oral presentation should submit a written request to be heard to the Committee Management Officer by January 31, 1975. The request must bear the name and address of the person wishing to appear, the capacity in which he will appear, a short summary of the intended presentation, and the approximate amount of time required for his presentation. Such submissions will be provided to the Chairman for his consideration.

All materials which have been submitted to or developed by the Committee as well as the official record of all Committee proceedings are available for public inspection and copying at the Committee Management Office. Any copying will be done at the cost of 20¢ per page. However, it should be understood that no arrangement will be made to supply Committee materials to the public at any meeting site.

Any communications relating to Committee activities or requests for copies of materials utilized by the Committee should be addressed to:

Nancy Hucke, Committee Management Officer, Occupational Safety and Health Administration, U.S. Department of Labor, 1726 M Street, Northwest, Washington, D.C. 20210. Phone: (202) 961-2248, 3181.

Signed at Washington, D.C. this day of January, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

Office of the Secretary

EMERGENCY UNEMPLOYMENT COMPENSATION

Notice of Availability

Unemployment Compensation in the States of

California	New York
Connecticut	Oregon
Massachusetts	Pennsylvania
Michigan	Rhode Island
Nevada	Vermont
New Jersey	Washington

The Emergency Unemployment Compensation Act of 1974, Pub. L. 93-572, approved December 31, 1974, creates a new temporary unemployment compensation program to furnish up to thirteen additional weeks of Federal supplemental benefits to individuals who remain unemployed and unable to obtain work, after exhausting their rights to regular and extended unemployment compensation.

Federal supplemental benefits are payable in a State which has entered into an agreement with the Secretary of Labor of the United States. The benefits are payable during a Federal Supplemental Benefit Period which begins in a State with the third week after the week in which there is an "on" indicator in the State. A benefit period in a State will last for a minimum period of 26 weeks. Benefits are payable under the Act commencing with the first week which begins after December 31, 1974, or the week which begins after the week in which the State has entered into an agreement under the Act, whichever is the later week.

I have determined that there was an "on" indicator in each of the States named above for the week which began on December 15, 1974. Accordingly, a Federal Supplemental Benefit Period will commence in each of those States with the week beginning on January 5, 1975, and payments of Federal supplemental benefits may begin with that week.

The supplemental benefits are payable during a benefit period in each State to individuals who have exhausted their rights to regular and extended unemployment compensation under the unemployment compensation law of that State. Former Federal employees, and ex-servicemen and ex-servicewomen, who have exhausted their rights to regular and extended unemployment compensation pursuant to the unemployment compensation law of any of the States in which there is a benefit period in effect will have the same rights as State claimants to supplemental benefits.

Persons who believe they may be entitled to Federal supplemental benefits under the new law, or wish to inquire about their rights, should contact promptly the State employment security office or unemployment insurance claims office in their locality.

Signed at Washington, D.C., this 16th day of January 1975.

PETER J. BRENNAN,
Secretary of Labor.

[FR Doc.75-1998 Filed 1-21-75;8:45 am]

SPECIAL UNEMPLOYMENT ASSISTANCE IN ALL AREAS OF ALL STATES OF THE UNITED STATES AND PUERTO RICO, AND IN THE DISTRICT OF COLUMBIA AND THE VIRGIN ISLANDS

Notice of Availability

Title II of the Emergency Jobs and Unemployment Assistance Act of 1974, Pub. L. 93-567, approved December 31, 1974, creates a new, temporary unemployment compensation program for the payment of up to 26 weeks of unemployment benefits to unemployed individuals who are not covered by the established State and Federal unemployment compensation laws, and who have no rights to assistance or allowances with respect to their unemployment under other Federal laws.

Special Unemployment Assistance authorized by the new law is payable in a State which has entered into an agreement with the Secretary of Labor of the United States, in areas of the State served by an entity which is eligible to be a prime sponsor under section 102(a) of the Comprehensive Employment and Training Act of 1973. The benefits are payable during a Special Unemployment Assistance Period which begins in an area (as defined in the Act) with the third week after the week in which there is an "on" indicator in the area. A Special Unemployment Assistance Period will last for a minimum period of 13 weeks.

I have determined that there was an "on" indicator for all areas of all States and Puerto Rico, and for the District of Columbia and the Virgin Islands, for the week beginning on December 1, 1974, because the rate of national unemployment (seasonally adjusted) averaged 6 per centum or more for the three calendar months preceding that week. Accordingly, Special Unemployment Assistance shall be payable in all areas of all States and in the District of Columbia and the Virgin Islands, commencing with the week beginning on December 22, 1974, provided that an agreement is entered into under the Act.

Because the "on" indicator in this instance is applicable throughout all States, and the District of Columbia, Puerto Rico, and the Virgin Islands, it is not essential at this time to designate "areas" for the purposes of the Act.

Persons who believe they may be entitled to Special Unemployment Assistance under the new law, or wish to inquire about their rights, should contact promptly the State employment security office or unemployment insurance claims office in their locality.

Signed at Washington, D.C., this 16th day of January, 1975.

PETER J. BRENNAN,
Secretary of Labor.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-2045 Filed 1-21-75;8:45 am]

[Finance Docket No. 26983]

BALTIMORE AND OHIO RAILROAD CO.

Abandonment of Lines

JANUARY 17, 1975.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et eq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Marshall County, West Virginia, on or before January 21, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 6th day of January 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

The Interstate Commerce Commission hereby gives notice that by order dated January 6, 1975, it has been determined that the proposed abandonment by the Baltimore and Ohio Railroad Company between Moundsville and Board Tree in Marshall County, W. Va., a distance of 26.78 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed action are not considered significant because no major ecological impacts are involved. In addition, the small amount of traffic involved could be adequately handled by the area's highways without major complications resulting. It should also be noted that in order to provide future rail transportation to the involved area, B&O intends to retain ownership of the right-of-way, so that it can have the option of reinstating rail service should future coal mining operations be developed.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before February 5, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-2046 Filed 1-21-75;8:45 am]

[Docket No. AB-6; Sub-No. 7;
Finance Docket Nos. 27638, 27635]

BURLINGTON NORTHERN, INC. AND MONTANA CENTRAL RAILROAD AND RECREATION CO.

Abandonment and Acquisition of Lines, Stock Issuance

JANUARY 17, 1975.

Upon consideration of the record in the above-entitled proceeding, including the petition of Montana Central Railroad and Recreation Company seeking (1) consolidation of the above-entitled proceedings, (2) an order from the Commission directing an appraisal to determine the fair market value of the above-mentioned railroad line; (3) Commission approval of the above-described abandonment application; and (4) Commission approval of the applications in Finance Docket Nos. 27635 and 27638.

It appearing, that concurrent handling and disposition of the above-entitled proceedings would not facilitate and expedite disposition of the issues;

It further appearing, that the relief sought in the balance of the instant petition is relief that is beyond the Commission's power to grant;

It further appearing, that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969:

It is further ordered, That the petition be, and it is hereby, denied.

Dated at Washington, D.C., this 8th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-2050 Filed 1-21-75;8:45 am]

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY ELIMINATION OF GATEWAY APPLICATIONS

JANUARY 16, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of verified statements in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in Gateway Elimination, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 8958 (Sub-No. 28G), filed June 4, 1974. Applicant: THE YOUNGSTOWN CARTAGE CO., 825 West Federal Street, Youngstown, Ohio 44501. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles of the kind used in construction and manufacture*, between points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, West Virginia, the District of Columbia, and points in Maryland on and east of U.S. Highway 15, on the one hand, and, on the other, points in Lake and Porter Counties, Ind., which are on and north of U.S. Highway 30, Chicago, Illinois, and points within 25 miles thereof; points in Cook County, Illinois which are on and south of U.S. Highway 34; points in Cook, McHenry, DuPage, Lake, DeKalb, Grundy, Kane, Kendall, and Will Counties, Illinois; points in LaSalle County, Illinois, which are within 50 miles of Oswego, Illinois; Libertyville, Grayslake and Belvidere, Illinois, and points in Kenosha and Walworth Counties, Wisconsin. The purpose of this filing is to eliminate the gateways at all points in New York State; all points in Pennsylvania and Maryland on and east of U.S. 15; Niles, Ohio, Indiana Toll Road Interchange No. 12 and Chicago, Ill.

(2) *Iron and steel articles of the kind used in construction and manufacture*, from points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, West Virginia, the District of Columbia, and points in Maryland on and east of U.S. Highway 15, to points in that part of Michigan east of U.S. Highway 27 and on and south of Michigan Highway 20 and south of Saginaw Bay. The purpose of this filing is to eliminate the gateways at all points in New York State, all points in Pennsylvania and Maryland on and east of U.S. Highway 15, and Niles, Ohio.

(3) *Iron and steel articles of the kind used in construction and manufacture* from Monroe, Michigan, and points in Wayne County, Michigan, to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, West Virginia, the District of Columbia, and those in Maryland on and east of U.S. Highway 15. The purpose of this filing is to eliminate the gateways at Niles, Ohio, all points in New York State, and all points in Pennsylvania and Maryland on and east of U.S. 15.

(4) *Metal, metal products, contractors' equipment, and machinery* from points in Ohio to points in Michigan east of U.S. Highway 27 and on and south of Michigan Highway 20 and south of Saginaw Bay. The purpose of this filing is to eliminate the gateways at Niles, Ohio.

(5) *Metal, metal products, contractors' equipment, and machinery* from Monroe, Michigan, and points in Wayne County, Michigan, to points in Ohio. The purpose of this filing is to eliminate the gateways at Niles, Ohio.

(6) *Metal, metal products, asphalt, roofing cement, and prepared roofing materials*, between points in Ohio, on the one hand, and, on the other, points in Lake and Porter Counties, Indiana, which are on and north of U.S. Highway 30; Chicago, Illinois, and points within 25 miles thereof; points in Cook, McHenry, DuPage, Lake, DeKalb, Grundy, Kane, Kendall, and Will Counties, Illinois; points in La Salle County, Illinois, which are within 50 miles of Oswego, Illinois; Libertyville, Grayslake, and Belvidere, Illinois, and points in Kenosha and Walworth Counties, Wisconsin. The purpose of this filing is to eliminate the gateways at Niles, Ohio, Indiana Toll Road Interchange No. 12, and Chicago, Ill.

(7) *Contractors' equipment and machinery, and iron and steel articles of a kind used in construction and manufacture*, between points in Ohio, on the one hand, and, on the other, those in that part of Michigan on and south of Michigan Highway 21 and on and east of U.S. Highway 27. The purpose of this filing is to eliminate the gateways at Niles, Ohio.

(8) *Contractors' equipment and machinery, and iron and steel articles of a kind used in construction and manufacture*, between all points in Ohio, on the one hand, and, on the other, points in Lake and Porter Counties, Indiana, which are on and north of U.S. Highway 30; Chicago, Illinois, and points within 25 miles thereof; points in Cook, McHenry, Du Page, Lake, De Kalb, Grundy, Kane, Kendall, and Will Counties, Illinois; points in La Salle County, Illinois, which are within 50 miles of Oswego, Illinois; Libertyville, Grayslake, and Belvidere, Illinois; and points in Kenosha and Walworth Counties, Wisconsin, on the one hand, and, on the other, all points in that part of Michigan on and south of a line beginning at Detroit and extending along Michigan Highway 14 to Ann Arbor, thence along Interstate Highway 94 to Marshall, thence along Michigan Highway 96 through Battle Creek to Kalamazoo, and thence along Interstate Highway 94 through Benton Harbor to the Michigan-Indiana State line (formerly shown as points in Michigan on and south of U.S. Highway 12). The purpose of this filing is to eliminate the gateways at Chicago, Ill.

(9) *Iron and steel articles of the kind used in construction and manufacture, contractors' equipment and machinery*, between points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, West Virginia, the District of Columbia, and points in Maryland on and east of U.S. Highway 15, on the one hand, and, on the other, all points in Ohio. The purpose of this filing is to eliminate the gateways at all points in New York State, all points in Pennsylvania and Maryland on and east of U.S. 15, and Niles, Ohio.

(10) *General commodities*, except those of unusual value, livestock, Classes A and B explosives, and household goods defined by the Commission, between all points in Lake and Porter Counties, Indiana, which are on and north of U.S. Highway 30; Chicago, Illinois, and points within 25 miles thereof; points in Cook, McHenry, Du Page, Lake, De Kalb, Grundy, Kane, Kendall, and Will Counties, Illinois; points in La Salle County, Illinois, which are within 50 miles of Oswego, Illinois; Libertyville, Grayslake, and Belvidere, Illinois; and points in Kenosha and Wal-

V40115 JAN 22 75 XUM

worth Counties, Wisconsin; to points in that part of Michigan east of U.S. Highway 27 and on and south of Michigan Highway 20 and south of Saginaw Bay, and junction Interstate Highways 80 and 90 with U.S. Highway 27, also known as Indiana Toll Road Interchange No. 12. The purpose of this filing is to eliminate the gateways at Chicago, Ill., Indiana Toll Road Interchange No. 12, and Toledo, Ohio.

(12) *Iron and steel articles of the kind used in construction and manufacture* from the plant site of Jones & Laughlin Steel Corporation located in Putnam County, Illinois, to points in Ohio, West Virginia, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, the District of Columbia, and points in Maryland on and east of U.S. Highway 15. The purpose of this filing is to eliminate the gateways at Lake County, Ind., Indiana Toll Road Interchange No. 12, Youngstown, Ohio, all points in New York State, and all points in Pennsylvania and Maryland on and east of U.S. 15.

(13) *Iron and steel articles used in the manufacture and processing of iron and steel articles* from Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Pennsylvania, West Virginia, the District of Columbia, and points in Maryland on and east of U.S. Highway 15 to the plant site of Jones & Laughlin Steel Corporation located in Putnam County, Illinois. The purpose of this filing is to eliminate the gateways at all points in New York State, all points in Pennsylvania and Maryland on and east of U.S. 15, Niles, Ohio, Interstate Toll Road Interchange No. 12, and Lake County, Indiana.

(14) *Materials, equipment and supplies, and metal products, used in the manufacture and processing of iron and steel* articles from points in Ohio to plant site of Jones & Laughlin Steel Corporation located in Putnam County, Illinois. The purpose of this filing is to eliminate the gateways at Niles, Ohio, Indiana Toll Road Interchange No. 12, and Lake County, Ind.

No. MC 78228 (Sub-No. 50G), filed June 4, 1974. Applicant: J MILLER EXPRESS, INC., 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pig iron*, in dump vehicles, from points in Ohio, those in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence. along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky., to points in New Jersey, that part of Pennsylvania east of U.S. Highway 219 and that part of West Virginia south of U.S. Highway 50. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y.

(2) *Scrap metal*, in dump vehicles, between points in Ohio, those in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky., on the one hand, and, on the other, points in Pennsylvania, West Virginia, Ohio, Kentucky, Indiana, Illinois, Michigan, New Jersey (except points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties), Maryland, Delaware, and Virginia, restricted against the transportation of traffic originating at or destined to points in Canada. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

(3) *Scrap carbon, furnace lining, and carbon butts*, in bulk, in dump vehicles, from points in Ohio, those in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky., to points in Pennsylvania, Ohio, and West Virginia. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

(4) *Alloys and ores*, in dump vehicles, from Philadelphia, Pa., to points in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State Line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky. The purpose of this filing is to eliminate the gateways at points in Ohio and those points in West Virginia on and north of U.S. Highway 50.

(5) *Metals, metal alloys, sand, ores, and limestone*, in dump vehicles, from points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey (except points in Gloucester and Cumberland Counties and the city of Mount Hope, N.J., and points in its commercial zone), New York, Pennsylvania (except points in Adams County, Pa., and points in Pennsylvania west of U.S. Highway 15), Vermont, Virginia, and West Virginia (except points in Jefferson and Berkeley Counties and Martinsburg, Millville, and Bakerton, W. Va., and points in their commercial zones), to points in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky. The purpose of this filing is to eliminate the gateways at points in Ohio and those points in West Virginia on and north of U.S. Highway 50.

(6) *Ferro alloys, pig iron, and scrap metals*, in dump vehicles, between points in Vermont and New Hampshire, on the one hand, and, on the other, points in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky. The purpose of this filing is to eliminate the gateways of Graham, W. Va., and Vancoram, Ohio.

gateways of Braddock, Pa., and East Liverpool, Ohio.

(7) *Ferro alloys, pig iron, and scrap metals*, in dump vehicles, between points in Connecticut, Massachusetts, Rhode Island, Vermont, and New Hampshire, on the one hand, and, on the other, points in that part of Pennsylvania on and west of U.S. Highway 219 and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and Ashland, Ky. The purpose of this filing is to eliminate the gateways of Graham, W.Va., and Vancoram and Vanadis, Ohio.

(8) *Ferro Alloys, silicon metal, and manganese metal*, in dump vehicles, from points in Ohio and Ashland, Ky., to points in Kentucky (except Marshall County, Ky.), Illinois, Indiana, Missouri, Ohio (except Cuyahoga, Geauga, Lorain, Portage, and Washington Counties, Ohio), and Iowa. The purpose of this filing is to eliminate the gateways of Graham, W. Va., and Vancoram and Vanadis, Ohio.

(9) *Coke*, from points in Ohio, those in that part of New York, west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky., to points in Pennsylvania. The purpose of this filing is to eliminate the gateways of Harriett (Tonawanda Township), Erie County, Pa.

(10) *Scrap metal*, in dump vehicles, from Poughkeepsie, Binghamton, and Endicott, N.Y., to points in Ohio, those in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky. The purpose of this filing is to eliminate the gateways at points in Ohio, and those points in Pennsylvania on and west of U.S. Highway 219.

(11) *Pig iron*, from points in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50 from the Maryland-West Virginia State line to the West Virginia-Ohio State line, and Ashland, Ky., to points in Pennsylvania. The purpose of this filing is to eliminate the gateways of Graham, W.Va., and Vancoram and Vanadis, Ohio.

(12) *Coke*, from points in that part of New York west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line, including points on the indicated portions of the highways specified, those in that part of Pennsylvania on and west of U.S. Highway 219, to points in Connecticut, Indiana, Maine, Maryland, Massachusetts, Michigan, New Jersey (except points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties), New York, Ohio (except points on and east of U.S. Highway 21, and points in Cuyahoga and Lorain Counties west of U.S. Highway 21), Rhode Island, Virginia, and West Virginia (except points in Brooke, Hancock, Marshall, and Ohio Counties). The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

(13) *Pig iron*, in dump vehicles, from points in Connecticut, Massachusetts, Rhode Island, Vermont, and New Hampshire, to points in Illinois, Indiana, Kentucky, and Michigan. The purpose of this filing is to eliminate the gateways of Niagara Falls and Buffalo, N.Y.

(14) *Pig iron*, in dump vehicles, from points in Connecticut, Massachusetts, Rhode Island, Vermont, and New Hampshire, to points in Maryland, Indiana, Michigan, Ohio (except points on and east of U.S. Highway 21, and points in Cuyahoga and Lorain Counties west of U.S. Highway 21), and West Virginia (except points in Brooke, Hancock, Marshall, and Ohio Counties). The purpose of this filing is to eliminate the gateways of Niagara Falls, N.Y., and Pittsburgh, Pa.

(15) *Pig iron and coke*, from points in Ohio, to points in West Virginia on and south of U.S. Highway 50. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y.

(16) *Ferro alloys, silicon metal and manganese metal*, in dump vehicles, from points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey (except points in Gloucester and Cumberland Counties and Mt. Hope, N.Y., and points in its commercial zone), New York, Pennsylvania (except points in Adams County, Pa., and points in Pennsylvania west of U.S. Highway 15), Vermont, Virginia, and West Virginia (except points in Jefferson and Berkeley Counties and Martinsburg, Millville, and Bakerton, W. Va., and points in their commercial zones), to points in Ohio (except Cuyahoga, Geauga, Lorain, Portage, and Washington Counties, Ohio), Illinois, Indiana, and Iowa. The purpose of this filing is to eliminate the gateways of Graham, W. Va., and Vancoram, Ohio.

No. MC 113843 (Sub-No. 209G), filed June 4, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Francis P. Barrett, P.O. Box 238, 60 Adams St., Milton, Mass. 02187. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Canned foodstuffs*, from Baltimore and Havre de Grace, Md., and points in that part of Delaware, Maryland, and Virginia on and south of U.S. Highway 40 and east of the Susquehanna River and Chesapeake Bay: (1) to points in Connecticut, Massachusetts, and Rhode Island. The purpose of this filing is to eliminate the gateway of Dunkirk, N.Y., and Binghamton, N.Y. (2) to points in Illinois, Indiana, Michigan, and Kentucky. The purpose of this filing is to eliminate the gateway of Hamlin, Holley, or Williamson, N.Y. (A) (3) to points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin. The purpose of this filing is to eliminate the gateway of Hamlin, Holley, or Williamson, N.Y. (A) (4) to points in Vermont, New Hampshire, and Maine. The purpose of this filing is to eliminate the gateway of Syracuse, N.Y.

(B) *Fresh and frozen poultry, fresh and frozen seafood, and frozen fruits and vegetables*, from points in Delaware, Maryland, Virginia east of the Chesapeake Bay and south of the Chesapeake and Delaware Canal, Baltimore, Md., the District of Columbia, Hampton and Richmond, Va., and Huntington, W. Va.; (B) (1) to points in Arkansas, Colorado, Kansas, Minnesota, Nebraska, and Oklahoma. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. (B) (2) to points in Kentucky, Maine, Connecticut, Pennsylvania, Massachusetts, Vermont, Rhode Island, New York, and New Hampshire. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (B) (3) to points in Ohio, Pennsylvania, Indiana, Illinois, Mis-

V40N15 JAN22 75 XUM

souri, and Michigan. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (B)(4) to points in Colorado, Iowa, Minnesota, Nebraska, and Wisconsin. The purpose of this filing is to eliminate the gateway of Brockport, Morton, or LeRoy, N.Y. (B)(5) to points in Arkansas, Colorado, Iowa, Kansas, Kentucky, Minnesota, Missouri, Nebraska, Oklahoma, Texas, and Wisconsin. The purpose of this filing is to eliminate the gateway of Geneva, Westfield, or Penn Yan, N.Y. (B)(6) to points in West Virginia. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (B)(7) to points in Arkansas, Colorado, Iowa, Kansas, Minnesota, Nebraska, Oklahoma, Texas, and Wisconsin. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (B)(8) to points in Iowa, Kentucky, Missouri, Texas, and Wisconsin. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. (B)(9) to points in Tennessee. The purpose of this filing is to eliminate the gateways of Elmira, N.Y., and Detroit, Mich. (B)(10) to points in North Dakota and South Dakota. The purpose of this filing is to eliminate the gateway of Dundee, N.Y.

(C) *Frozen foods*, (1) from Pocomoke City, Cambridge, Crisfield, Md., to: (C)(1)(a) points in Missouri and Pennsylvania. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (C)(1)(b) to points in Minnesota, Arkansas, Colorado, Kansas, and Oklahoma. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. (C)(1)(c) to Maine, Massachusetts, New Hampshire, Connecticut, Rhode Island, New York, and Vermont. The purpose of this filing is to eliminate the gateways at Elmira, N.Y. (C)(11)(d) to Grand Forks, N. Dak., and Sioux Falls, S. Dak. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. (C)(1)(e) to points in Tennessee. The purpose of this filing is to eliminate the gateway of Elmira, N.Y., and Detroit, Mich. (C)(2) from Baltimore, Md., the District of Columbia, Hampton and Richmond, Va., and Huntington, W. Va., to: (C)(2)(a) to points in Arkansas, Colorado, Kansas, Minnesota, Nebraska, and Oklahoma. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. (C)(2)(b) to points in Connecticut, Kentucky, Maine, Massachusetts, New Hampshire, New York, Pennsylvania, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (C)(2)(c) to points in Illinois, Indiana, Michigan, Missouri, Ohio, and Pennsylvania. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (C)(2)(d) to points in Iowa and Wisconsin. The purpose of this filing is to eliminate the gateway of Brockport, Morton, or LeRoy, N.Y. (C)(2)(e) to Grand Forks, N. Dak., and Sioux Falls, S. Dak. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. (C)(2)(f) to points in Tennessee. The purpose of this filing is to eliminate the gateways of Elmira, N.Y., and Detroit, Mich. (C)(2)(g) to points in West Virginia. The purpose of this filing is to eliminate the gateway of Elmira or Buffalo, N.Y.

No. MC 125708 (Sub-No. 137G), filed June 4, 1974. Applicant: THUNDERBIRD MOTOR FREIGHT LINES, INC., Highway 32 East, P.O. Box 192, Crawfordsville, Ind. 47933. Applicant's representative: Anthony C. Vance, 1111 E Street NW., Suite 501, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Grain products*, dry (except in bulk, in tank vehicles), and *grain*, when moving in the same vehicle and at the same time as grain products, dry, (a) from Buffalo, N.Y., Hastings, Minn., Superior, Wis., and Dallas, Tex., to points in Alabama, Arkansas, Florida, Georgia, Indiana, Louisiana, Mississippi, Missouri, and Ohio; and (b) from points in Alabama, Arkansas, Florida, Georgia, Indiana, Louisiana, Mississippi, Missouri (except St. Louis), and Ohio to Kansas, Kentucky, Michigan, Minnesota, New Jersey, New York, Oklahoma, Pennsylvania, Tennessee, Texas, West Virginia, Virginia, and Wisconsin. The purpose of this filing in (1) above is to eliminate the gateway of Alton, Ill.

(2) *Processed and canned foodstuffs* (except apple cider and vinegar), restricted to transportation in vehicles other than those equipped with mechanical refrigeration, (a) between points in Arkansas, Kansas, Missouri, and Oklahoma, on the one hand, and, on the other, points in Illinois (except between Chicago, Ill., on the one hand, and, on the other, points in Arkansas); and (b) from Mount Summit, Ind., to points in Arkansas, Kansas, Missouri, and Oklahoma.

(3) *Processed and canned foodstuffs* (except apple cider and vinegar), between Arkansas, Kansas, Missouri, and Oklahoma, on the one hand, and, on the other, Tennessee (except Memphis, Tenn., and points in the Memphis, Tenn. Commercial Zone, as defined by the Commission).

(4) *Processed and canned foodstuffs*, between points in Illinois, on the one hand, and, on the other, points in Tennessee (except Memphis, Tenn., and points in the Memphis, Tenn., Commercial Zone as defined by the Commission).

(5) *Processed and canned foodstuffs* (except commodities in bulk, in tank vehicles, and frozen foods, apple cider, and vinegar), (a) between points in Mississippi and Louisiana, on the one hand, and, on the other, points in Arkansas, Kansas, Missouri, Oklahoma, Illinois, and Tennessee (except Memphis, Tenn., and points in the Memphis, Tenn., Commercial zone as defined by the Commission); (b) from Mount Summit, Ind., to points in Illinois, Iowa, and points in Tennessee (except Memphis and points in the Memphis Commercial zone as defined by the Commission); and (c) from points in Mississippi and Louisiana to points in Iowa. The purpose of this filing in (2) through (5) above, inclusive, is to eliminate the gateway of Collinsville, Ill.

(6) *Steel, and materials and supplies* used in the manufacture of steel grinding balls (except such building materials as are included within the commodity description "iron and steel articles"), from points in Missouri, New York, Ohio, and Pennsylvania to points in Illinois (except points in the Chicago, Ill., Commercial Zone as defined by the Commission). The purpose of this filing in (6) above is to eliminate the gateway of Greenville, Ill.

(7) *Steel* (except such building materials as are included within the commodity description "iron and steel articles"), (a) from points in Missouri, New York, Ohio, and Pennsylvania to points in Missouri (except Louisiana, Mo.); and (b) from points in Minnesota, Tennessee, Florida, that part of Indiana in the Chicago, Ill., Commercial Zone as defined by the Commission, and Kentucky (except that part of Kentucky north of U.S. Highway 460), to points in Illinois (except points in the Chicago, Ill., Commercial Zone as defined by the Commission), and Missouri. The purpose of this filing in (7) above is to eliminate the gateways of Greenville and Carlinville, Ill.

(8) *Steel* (except commodities which because of size or weight require special handling or the use of special equipment, and except such building materials as are included within the commodity description "iron and steel articles"), (a) from points in North Carolina, North Dakota, South Carolina, South Dakota, Virginia, West Virginia, and Indiana (except points in Indiana located within the Chicago, Ill., Commercial Zone as defined by the Commission), to points in Illinois (except points in the Chicago, Ill., Commercial Zone as defined by the Commission). The purpose of this filing in (8)(a) above is to eliminate the gateway of Greenville, Ill. (b) from points in Indiana (except points in Indiana located within the Chicago, Ill., Commercial Zone as defined by the Commission), North Carolina, North Dakota, South Carolina, South Dakota, Virginia, and West Virginia to points in Missouri (except Louisiana, Mo.). The purpose of this filing in (8)(b) above is to eliminate the gateways of Greenville and Carlinville, Ill. (c) from points in Minnesota, Kentucky (except that part of Kentucky north of U.S. Highway 460), Tennessee, Florida, and that part of Indiana in the Chicago, Ill., Commercial Zone, as defined by the Commission, to points in Kansas, New Jersey, New York, Oklahoma, Pennsylvania, Texas, Michigan, Jefferson County, Ala., Louisiana, Virginia, West Virginia, and Missouri. The purpose of this filing in (8)(c) above is to eliminate the gateways of Greenville, Centralia, Carlinville, Irvington, Ill.

(9) *Steel articles* (except water well casing, pipe, tubing, pipe fittings and protectors and sheet steel), from points in Louisiana and Oklahoma to points in that part of Missouri on and east of U.S. Highway 67.

(10) *Steel articles*, from points in Alabama, Arkansas, that part of Indiana south of U.S. Highway 40, Iowa, Kansas, Kentucky (except Boyd County), Mississippi, Minnesota, Missouri, Tennessee, Texas, Wisconsin, Michigan, Pennsylvania, and that part of Ohio south of U.S. Highway 40 (except Scioto and Lawrence Counties), to points in that part of Missouri on and east of U.S. Highway 67.

(11) *Iron and steel articles* (except scrap, water well pipe and casing, pipe fittings and protectors, and sheet steel), from points in Macoupin County, Ill. (except Carlinville and points in its commercial zone as defined by the Commission) to points in Arkansas, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Ohio, Oklahoma, Pennsylvania, Tennessee (except Shelby County), Texas, Wisconsin, and Jefferson County, Ala.

(12) *Iron and steel articles* (except scrap), from points in Macoupin County, Ill. (except Carlinville and points in its commercial zones, as defined by the Commission), to points in Alabama (except Jefferson County), Louisiana, Missouri, Mississippi, and Shelby County, Tenn.

(13 *Iron and steel articles*, (a) from points in Alabama, Arkansas, that part of Indiana south of U.S. Highway 40, Iowa, Kansas, Kentucky (except Boyd County), Mississippi, Minnesota, Missouri, Tennessee, Texas, Wisconsin, Michigan, Pennsylvania, and that part of Ohio south of U.S. Highway 40 (except Scioto and Lawrence Counties), to points in Arkansas, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Ohio, Oklahoma, Pennsylvania, Tennessee (except Shelby County), Texas, Wisconsin, Louisiana, Alabama, Missouri, Mississippi, and Shelby County, Tenn.; and (b) from points in Louisiana and Oklahoma to points in Arkansas, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Wisconsin, Alabama, Louisiana, Missouri, and Mississippi. The purpose of this filing in (9) through (13) above, inclusive, is to eliminate the gateway of Carlinville, Ind.

(14) *Steel grinding balls*, in the rough, in bulk, from Kansas City, Mo., to points in Arkansas, Georgia, Iowa, Kentucky, Missouri, Texas, New Jersey, Minnesota, and Florida.

(15) *Steel grinding balls*, in the rough, in bulk (except commodities which because of size or weight require special handling or the use of special equipment), from Kansas City, Mo., to points in Louisiana, Mississippi, New York, North Carolina, North Dakota, South Carolina, South Dakota, Virginia, and West Virginia. The purpose of this filing in (14) and (15) above is to eliminate the gateway of Greenville, Ill.

(16) *Steel tubing, conduit, pipe, and sheet steel* (except such commodities which because of their size or weight require the use of special equipment), (a) from Waukegan, Rockford, Schaumburg, Aurora, Freeport, Peoria, Sterling, Galesburg, Olney, Salem, Evanston (restricted to points within the corporate limits of Evanston), East St. Louis, and the plant sites and warehouse facilities of International Tube, Inc., International Conduit Corporation, and Continental Tube Company, at Chicago, Ill., to points in Alabama, Florida, Georgia, Maryland, Michigan, North Carolina, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, South Carolina, and Mississippi. The purpose of this filing in (16)(a) above is to eliminate the gateway of Fairbury (Livingston County), Ill. (b) from points in Indiana (except Kokomo), Missouri, New York, Ohio, North Carolina, North Dakota, South Carolina, South Dakota, Virginia, West Virginia, Minnesota, Kentucky (except that part of Kentucky north of U.S. Highway 460), Tennessee, Florida, and Pennsylvania to points in Alabama, Florida, Georgia, Maryland, Michigan, North Carolina, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, South Carolina, and Mississippi. The purpose of this filing in (16)(b) above is to eliminate the gateways of Greenville, Carlinville, and Fairbury, Ill.

(17) *Steel water well pipe and casing, pipe fittings and protectors, and sheet steel*, (a) from points in Missouri, New York, Ohio, and Pennsylvania to points in Wisconsin, Indiana, Minnesota, Iowa, Kentucky, Ohio, Tennessee (except Shelby County), Arkansas, and Nebraska. The purpose of this filing in (17)(a) above is to eliminate the gateways of Greenville and Centralia, Ill. (b) from points in Minnesota, Kentucky (except that part of Kentucky north of U.S. Highway 460), Tennessee, Florida, and that part of Indiana in the Chicago, Ill., Commercial Zone as defined by the Commission, to points in Wisconsin, Indiana, Minnesota, Iowa, Kentucky, Ohio, Tennessee (except Shelby County), Arkansas and Nebraska. The purpose of this filing in (17)(b) above is to eliminate the gateways of Greenville, Centralia, and Carlinville, Ill. (c) from points in Indiana (except points in Indiana located within the Chicago, Ill., Commercial Zone, as defined by the Commission), North Carolina, North Dakota, South Carolina, South Dakota, Virginia, and West Virginia to points in Wisconsin, Iowa, Minnesota, Indiana, Kentucky, Ohio, Tennessee (except Shelby County), Arkansas, Nebraska, Kansas, New York, New Jersey, Pennsylvania, Texas, Michigan, Louisiana, Virginia, West Virginia, and Jefferson County, Ala. The purpose of this filing in (17)(c) above is to eliminate the gateways of Greenville, Centralia, Carlinville, and Irvington, Ill.

(18) *Steel water well casing, pipe, tubing, pipe fittings, and protectors, and sheet steel* (except commodities which because of size or weight require special handling or the use of special equipment), from points in Missouri, New York, Ohio, and Pennsylvania, to points in Kansas, New Jersey, New York, Oklahoma, Pennsylvania, Texas, Michigan, Jefferson County, Ala., Louisiana, Virginia, and West Virginia. The purpose of this filing in (18) above is to eliminate the gateways of Greenville, Centralia, Carlinville, and Irvington, Ill.

(19) *Steel*, (a) from points in Missouri, New York, Ohio, and Pennsylvania to points in Missouri (except Louisiana, Missouri, and points in that part of Missouri east of U.S. Highway 67 extending from Crystal City to the Missouri-Arkansas state line). The purpose of this filing in (19)(a) above is to eliminate the gateway of Greenville, Ill. (b) from points in Illinois to points in Arkansas, Indiana, Iowa, Kansas, Kentucky, Michigan, Nebraska, Minnesota, Ohio, Oklahoma, Pennsylvania, Tennessee (except Shelby County), Texas, Wisconsin, and Jefferson County, Ala. The purpose of this filing in (19)(b) above is to eliminate the gateways of Greenville and Carlinville, Ill., and points in Missouri.

(20) *Water well casing, pipe, tubing, pipe fittings, and protectors, and sheet steel* (except commodities which because of size or weight require special handling or the use of special equipment), from Warren, Ohio, and points in that part of Ohio south of U.S. Highway 40, points in Oklahoma, and St. Louis and Louisiana, Mo., to points in Arkansas, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Nebraska, New York, Ohio, Pennsylvania, Tennessee, Texas, Wisconsin, Virginia, and West Virginia. The purpose of this filing in (20) above is to eliminate the gateways of Centralia, Ill., and Louisiana, Mo.

(21) *Steel tubing, water well casing, water pipe* (except commodities which because of size or weight require special handling or the use of special equipment), from Warren, Ohio, and points in that part of Ohio south of U.S. Highway 40, points in Oklahoma, and St. Louis and Louisiana, Mo., to points in Alabama, Florida, Georgia, Maryland, Michigan, North Carolina, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, South Carolina, and Mississippi. The purpose of this filing in (21) above is to eliminate the gateways of Centralia and Fairbury, Ill.

(22) *Steel*, from points in Illinois to points in Alabama (except Jefferson County), Louisiana, Missouri, Mississippi, and Shelby County, Tenn. The purpose of this filing in (22) above is to eliminate the gateways of Greenville and Carlinville, Ill., and points in Missouri.

(23) *Wooden posts, poles, beams, and pillars, and lumber*, not included in the preceding commodities, from points in Arkansas to points in Wisconsin, Iowa, Indiana, Minnesota, Missouri, Kentucky, Ohio, and Arkansas. The purpose of this filing in (23) above is to eliminate the gateway of Granite City, Ill.

(24) *Water well casing, pipe, tubing, pipe fittings, and protectors, and sheet steel* (except commodities which because of size or weight require special handling or the use of special equipment), from Warren, Ohio, and points in that part of Ohio south of U.S. Highway 40, points in Oklahoma and St. Louis and Louisiana, Mo. to points in Louisiana. The purpose of this filing in (24) above is to eliminate the gateways of Centralia and Irvington, Ill.

(25) *Iron and steel articles* (except commodities which because of size or weight require special handling or the use of special equipment), from points

V 4015 JAN 22 75 XUM

in Alabama, Arkansas, that part of Indiana south of U.S. Highway 40, Iowa, Kansas, Kentucky (except Boyd County), Mississippi, Minnesota, Missouri, Tennessee, Texas, Wisconsin, Michigan, Pennsylvania, and that part of Ohio south of U.S. Highway 40 (except Scioto and Lawrence Counties) to points in Illinois. The purpose of this filing in (25) above is to eliminate the gateways of Carlinville, Ill., and Louisiana, Mo.

JANUARY 15, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission within 10 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number

No. MC 5470 (Sub-No. E52), (Correction), filed May 29, 1974, published in the FEDERAL REGISTER September 26, 1974. Applicant: TAJON, INC., R.D. 5, Box 146, Mercer, Pa. 16137. Applicant's representative: Patrick McElight, 918 Sixteenth St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in bulk, in dump vehicles, from Erie, Pa., to points in Maryland and Virginia. The purpose of this filing is to eliminate the gateway of points in Ashtabula County, Ohio, and New Kensington, Pa. The purpose of this correction is to correct the gateway.

No. MC 31462 (Sub-No. E51), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Arkansas, on the one hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateways of (1) points in Missouri within 25 miles of Cairo, Ill., (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof, and (3) Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E120), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in South Dakota. The purpose of this filing is to eliminate the gateways of (1) Alden, Minn., or any point in Minnesota within 35 miles thereof; (2) Burlington, Iowa, or any point within 50 miles thereof; (3) any point in Missouri within 25 miles of Cairo, Ill.; and (4) Gulfport, Miss., or any point within 35 miles thereof.

No. MC 31462 (Sub-No. E121), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Wisconsin, on the one hand, and, on the other, points in that part of Florida east of a line beginning at the Alabama-Florida State line, thence along U.S. Highway 231 to Panama City, Fla. The purpose of this filing is to eliminate the gateways of (1) any point in Georgia; (2) any point in Tennessee; (3) any point in Missouri within 25 miles of Cairo, Ill.; and (4) Burlington, Iowa, or any point in Iowa within 50 miles thereof.

No. MC 31462 (Sub-No. E122), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Florida on and east of a line beginning at the Florida-Alabama State line, thence along U.S. Highway 231 to Panama City, Fla., on the one hand, and, on the other, points in that part of the Upper Peninsula of Michigan on and west of a line beginning at Escanoba, Mich., thence along U.S. Highway 41 to Marquette, Mich. The purpose of this filing is to eliminate the gateways of (1) Gulfport, Miss., or any point within 35 miles thereof, (2) any point in Missouri within 25 miles of Cairo, Ill., and (3) Burlington, Iowa, or any point in Iowa within 50 miles thereof.

No. MC 31462 (Sub-No. E123), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in Minnesota. The purpose of this filing is to eliminate the gateways of (1) Gulfport, Miss., or any point within 34 miles thereof, (2) any point in Missouri within 25 miles of Cairo, Ill., and (3) Burlington, Iowa, or any point in Iowa within 50 miles thereof.

No. MC 31462 (Sub-No. E124), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 31462 (Sub-No. E125), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in Georgia. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 31462 (Sub-No. E126), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 31462 (Sub-No. E127), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Tennessee, on the one hand, and, on the other, points in that part of Florida on and east of a line beginning at the Alabama-Florida State line, thence along U.S. Highway 31 to Panama City, Fla. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 31462 (Sub-No. E128), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in North Dakota. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof, and (2) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to

junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E168), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof; and (3) Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E169), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in New Hampshire. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof; and (3) Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E170), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Vermont. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof, and (3) Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E172), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Iowa to points in Kentucky. The purpose of this filing is to eliminate the gateway of (1) any point in Illinois, and (2) Clinton, Ind.

No. MC 31462 (Sub-No. E175), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E357), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Nebraska, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof, and (2) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E394), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Oklahoma on, west, and south of a line beginning at the Oklahoma-Kansas State line, thence along Oklahoma Highway 99 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Oklahoma Highway 9, thence along Oklahoma Highway 9 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Arkansas State line, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Oklahoma State line, thence along Interstate Highway 35 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 81, thence along U.S. Highway 81 to the International Boundary line between the United States and Mexico. The purpose of this filing is to eliminate the gateway of any point in Okmulgee County, Okla.

No. MC 31462 (Sub-No. E395), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma, on the one hand, and, on the other, points in that part of Virginia east of a line beginning at the Tennessee-Virginia State line, thence along U.S. Highway 11 to junction Virginia Highway 16, thence along Virginia Highway 16 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of (1) any point in Georgia; (2) any point in Tennessee; and (3) any points in Missouri within 25 miles of Cairo, Ill.

No. MC 107515 (Sub-No. E499), (Correction), filed October 3, 1974, published in the FEDERAL REGISTER January 2, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Edible meats and meat products* (except commodities in bulk, hides, and skins), in vehicles equipped with mechanical refrigeration, (b) from the plant site of Swift Fresh Meat Co., at Clovis, N. Mex., to Chicago, Ill., and to points in Ohio, Indiana, and the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Gatesville, N.C. The purpose of this partial correction is to include the destination point of Chicago, Ill., in (1)(b) above. The remainder of this letter-notice remains as previously published.

No. MC 111320 (Sub-No. E98), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled road building equipment*, and *parts* thereof, in driveaway and truckaway service, from points in New Jersey to points in that part of Ohio, on and west of a line beginning at Lake Erie, thence along Interstate Highway 77 to junction Interstate Highway 271, thence along Interstate Highway 271 to junction Interstate Highway 71, thence along Interstate Highway 71 to junction Ohio Highway 3, thence along Ohio Highway 3 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line. The purpose of this filing is to eliminate the gateway of Lorain, Ohio.

No. MC 111320 (Sub-No. E100), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used, damaged, rejected, or defective self-propelled road building and contractor's vehicles or machinery*, in driveaway and truckaway service, from points in that part of New York, on and west of a line beginning at Lake Ontario, thence along New York Highway 98 to junction New York Highway 63, thence along New York Highway 63 to junction U.S. Alternate Highway 20,

V401575 JAN 22 75 XUM

thence along U.S. Alternate Highway 20 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 14, thence along New York Highway 14 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E101), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used, damaged, rejected, or defective self-propelled road building and contractor's vehicles or machinery*, in driveaway and truckaway service, from points in that part of New York, on and east of a line beginning at Lake Ontario, thence along New York Highway 98, to junction New York Highway 63, thence along New York Highway 63 to junction New York Highway 19, thence along New York Highway 19 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E106), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used, damaged, rejected, or defective self-propelled road building and contractor's vehicle or machinery*, in driveaway and truckaway service, from points in that part of New York, on and east of a line beginning at Lake Ontario, thence along New York Highway 57 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 38, thence along New York Highway 38 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 282, thence along New York Highway 282 to the New York-Pennsylvania State line, and to points in that part of Ohio, on and west of a line beginning at Lake Erie, thence along Interstate Highway 77 to the Ohio-West Virginia State line. The purpose of this filing is to elminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E122), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New self-propelled road building equipment*, and *parts* thereof, in driveaway and truckaway service, from points in Nevada, to points in that part of Kentucky on and east of a line beginning at the Ohio-Kentucky State line, thence along Interstate Highway 75 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E123), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New self-propelled road building equipment*, and *parts* thereof, in driveaway and truckaway service, from points in Oregon to points in that part of Indiana on and east of a line beginning at the Indiana-Michigan State line, thence along U.S. Highway 31 to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateway of Lorain, Ohio.

No. MC 111320 (Sub-No. E124), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New self-propelled road building equipment*, and *parts* thereof, in driveaway and truckaway service from points in Oregon to points in that part of Kentucky on and east of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 31W to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of Lorain, Ohio.

No. MC 111320 (Sub-No. E125), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New self-propelled road-building equipment*, and *parts* thereof, in driveaway and truckaway service, from points in Oregon to points in that part of Florida on and east of a line beginning at the Florida-Georgia State line, thence along U.S. Highway 319 to Lanark, Fla. The purpose of this filing is to eliminate the gateway of Lorain, Ohio.

No. MC 111320 (Sub-No. E126), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New self-propelled road building equipment*, and *parts* thereof, in driveaway and truckaway service, from points in Washington, to points in that part of Indiana on and east of a line beginning at the Indiana-Michigan State line, thence along U.S. Highway 31 to junction Indiana Highway 37, thence along Indiana Highway 37 to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateway of Lorain, Ohio.

No. MC 113459 (Sub-No. E55), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment, (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; (a) between points in that part of Iowa on and east of U.S. Highway 61, on the one hand, and, on the other, points in that part of Utah on and south of a line beginning at the Utah-Nevada State line and extending along U.S. Highway 50 to its junction with Utah Highway 26, thence along Utah Highway 26 to its junction with U.S. Highway 91, thence along U.S. Highway 91 to its junction with Utah Highway 26, thence along Utah Highway 26 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Utah-Colorado State line (points in Oklahoma and Illinois)*; (b) between points in that part of Wisconsin on and south of a line beginning at the Wisconsin-Illinois State line and extending along U.S. Highway 51 to its junction with Wisconsin Highway 26, thence along Wisconsin Highway 26 to its junction with Wisconsin Highway 59, thence along Wisconsin Highway 59 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to Lake Michigan, on the one hand, and, on the other, points in North Dakota (points in Illinois)*; and (c) between points in that part of Minnesota on and east of a line beginning at the Minnesota-Iowa State line and extending along Interstate Highway 35 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, on the one hand, and, on the other, points in that part of Missouri on and south of a line beginning at the Missouri-Illinois State line and extending along Interstate Highway 70 to its junction with Interstate Highway 244, thence along Interstate Highway 244 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to the Missouri-Arkansas State line (points in Illinois)*; (3) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment, between points in that part of Iowa on and east of Interstate Highway 35, on the one hand, and, on the other, points in Alaska (points in Illinois)*. Restriction: The operations authorized in (1), (2), and (3) above are restricted against the transportation of agricultural machinery and agricultural tractors, the operations in (2) above are restricted to commodities which are transported on trailers, and the operations authorized in (1) (a) and (b) above are restricted against the transportation of those commodities used in, or in connection with, the construction, operation, repair, servicing,

maintenance, and dismantling of main or trunk pipelines. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 114211 (Sub-No. E302), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth D. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from points in that part of Minnesota on and west of a line beginning at the Minnesota-Wisconsin State line, thence along Interstate Highway 94 to junction Minnesota Highway 3, thence along Minnesota Highway 3 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 218, thence along U.S. Highway 218 to the Minnesota-Iowa State line and from points in that part of Minnesota bounded on the north by the Wisconsin-Minnesota State line, thence along Interstate Highway 94 to junction Minnesota Highway 3, thence along Minnesota Highway 3 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 218, thence along U.S. Highway 218 to the Minnesota-Iowa State line, thence along the Minnesota-Iowa State line to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Minnesota Highway 109, thence along Minnesota Highway 109 to junction Minnesota Highway 22, thence along Minnesota Highway 22 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Interstate Highway 494, thence along Interstate Highway 494 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of Stinar Corp., in Minneapolis, Minn.

No. MC 114211 (Sub-No. E392), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and northwest of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line to points in that portions of New York on and east of a line beginning at Oswego, N.Y., thence along New York Highway 57 to Interstate Highway 81, thence along Interstate Highway 81 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 14, thence along New York Highway 14 to the New York-Pennsylvania State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of Stinar Corp. in Minneapolis, Minn.

No. MC 114211 (Sub-No. E412), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pipe and fittings therefor*, from points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 154, thence along Texas Highway 154 to junction Texas Highway 37, thence along Texas Highway 37 to junction U.S. Highway 69, thence along U.S. Highway 69 to Port Arthur, Tex., and from points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 75 to junction Indian Nation Turnpike, thence along Indian Nation Turnpike to junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Texas State line to points in Wisconsin and the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., at Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E415), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from points in that part of Iowa on and northwest of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line to points in Maine, Vermont, New Hampshire, Rhode Island, and to points in that part of Florida on and south of a line beginning at Daytona Beach, Fla., thence along U.S. Highway 92 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction Florida Highway 40, thence along Florida Highway 40 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Alternate U.S. Highway 27, thence along Alternate U.S. Highway 27 to junction Florida Highway 345, thence along Florida Highway 345 to junction Florida Highway 24, thence along Florida Highway 24 to Lukens, Fla., and to points in that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line, thence along U.S. Highway 12 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Kewanee, Wis., with no transportation for compensation on return except as otherwise authorized, restricted against the transportation of agricultural implements and machinery as defined in Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 292. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E417), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, parts, and supplies* moving in connection therewith (not including tractors with vehicle beds, bed frames, or fifth wheels, nor any of the above-specified commodities which, because of their size or weight, require the use of special equipment), from points in Missouri to points in the Upper Peninsula of Michigan and to points in that part of Wisconsin on and northwest of a line beginning at the Illinois-Wisconsin State line, thence along Wisconsin Highway 104 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction Wisconsin Highway 19, thence along Wisconsin Highway 19 to junction Wisconsin Highway 109, thence along Wisconsin Highway 109 to junction Wisconsin Highway 60, thence along Wisconsin Highway 60 to Port Washington, Wis., restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 114211 (Sub-No. E418), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, between points in that part of Missouri bounded on the north by the Iowa-Missouri State line, thence along U.S. Highway 63 to the Arkansas-Missouri State line, thence along the Arkansas-Missouri State line to the Oklahoma-Missouri State line, thence along the Oklahoma-Missouri State line to the Kansas-Missouri State line, thence along the Kansas-Missouri State line to Interstate Highway 35, thence along Interstate Highway 35 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Iowa-Missouri State line, on the one hand, and, on the other, points

V40N15 JAN 22 75 XUM

in that part of South Dakota on and northwest of a line beginning at the Iowa-South Dakota State line, thence along Interstate Highway 90 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction South Dakota Highway 44, thence along South Dakota Highway 44 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to the South Dakota-Nebraska State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E420), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from points in that part of Iowa on and northwest of a line beginning at the South Dakota-Iowa State line, thence along U.S. Highway 20 to junction Iowa Highway 31, thence along Iowa Highway 31 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 4, thence along Iowa Highway 4 to the Iowa-Minnesota State line to points in that part of Wisconsin on and northeast of a line beginning at the Minnesota-Wisconsin State line, thence along U.S. Highway 8 to junction Wisconsin Highway 79, thence along Wisconsin Highway 79 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Lake Michigan, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 117574 (Sub-No. E1), (Correction), filed May 2, 1974, re-published in the FEDERAL REGISTER, July 10, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as by reason of their size or weight require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, not including boilers, heaters, and castings), between points in Connecticut and Massachusetts, on the one hand, and, on the other, points in Florida, Georgia, Illinois, Indiana, Kentucky, Michigan, Minnesota, South Carolina, Wisconsin, and North Carolina (except points in Gates, Hertford, Currituck, Camden, Pasquotank, Perquimans, Chowan, Bertie, Martin, Washington, Tyrell, Dare, Hyde, Pitt, Beaufort, Craven, Jones, Onslow, Carteret, and Pamlico Counties, N.C.). The purpose of this filing is to eliminate the gateway points in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line, and extending along U.S. Highway 219, to the junction with U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, to Lewistown, thence along U.S. Highway 522 to Selingsgrove, and thence on and west of U.S. Highway 11 to the New York-Pennsylvania State line. The purpose of this correction is to clarify the exception.

No. MC 119934 (Sub-No. E2), filed May 12, 1974. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Laser II, 320 N. Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn products*, dry and in bulk, from Danville, Ill., to points in Connecticut, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, West Virginia, and that part of Tennessee on and east of a line beginning at the Tennessee-Kentucky State line, thence along Interstate Highway 65 to the Tennessee-Alabama State line. The purpose of this filing is to eliminate the gateway of Indianapolis, Ind.

No. MC 119934 (Sub-No. E6), filed May 12, 1974. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Laser II, 320 N. Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid alum*, in bulk, in tank vehicles, from Middletown, Ohio to points in Illinois. The purpose of this filing is to eliminate the gateway of Anderson, Ind.

No. MC 119767 (Sub-No. E4), filed June 4, 1974. Applicant: BEAVER TRANSPORT, CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: David A. Petersen (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A–1) *Frozen foods*, from points in Minnesota to points in Indiana, Ohio, St. Louis, Mo., Louisville, Ky., Pittsburgh, Pa., and points in Michigan on and south of Michigan Highway 21, points in Illinois on and west of a line beginning at the Wisconsin-Illinois State line and extending along U.S. Highway 51 to its junction with U.S. Highway 66 to the Illinois-Missouri State line. (Darien, Wis.) *; (A–2) *Frozen foods* from points in Illinois on and south of U.S. Highway 24 and on and east of U.S. Highway 51 to points in Minnesota, Upper Michigan, and points in the Lower Peninsula of Michigan on and north of Michigan Highway 68, and points in Iowa on and east of U.S. Highway 52. (Darien, Wis.) *; (A–3) *Frozen foods*, from points in Illinois on and south of U.S. Highway 36 to points in the Upper Peninsula of Michigan on and north of Michigan Highway 68, points in the Lower Peninsula of Michigan on and north of Michigan Highway 68, points in Minnesota on and east of Interstate Highway 35 and on and north of U.S. Highway 14, points in Iowa on and east of U.S. Highway 52. (Darien, Wis.) *; (A–4) Frozen foods, from points in Illinois on and north of U.S. Highway 51, points in Michigan, Ohio, Louisville, Kentucky, Pittsburgh, Pa., and points in Minnesota on and north of U.S. Highway 2, points in Indiana on and south of U.S. Highway 24 and on and east of U.S. Highway 421. (Darien, Wis.) *; (A–5) *Frozen foods*, from points in Illinois on and north of U.S. Highway 24 and on and east of U.S. Highway 51 to points in Minnesota, the Upper Peninsula of Michigan, and points in Iowa on and east of U.S. Highway 52 (Darien, Wis.) *; (A–6) *Frozen foods*, from points in Indiana to points in Minnesota, the Upper Peninsula of Michigan, and points in Iowa on and east of U.S. Highway 52. (Darien, Wis.) *;

(B) *Frozen foods*, from points in Wisconsin on and south of Wisconsin Highway 20 and on and east of Wisconsin Highway 67, to points in North Dakota and South Dakota. (Belvidere, Ill.) *; (C–1) *Food and food products* from points in Minnesota to points in Kentucky. (Burlington, Minn.) *; (C–2) *Food and food products*, from points in Illinois on and north of Interstate Highway 80 and on and west of U.S. Highway 51, to points in Kentucky. (Burlington, Wis.) *; (D–1) *Frozen foods*, from points in Wisconsin on and south of Wisconsin Highway 20 and on and east of Wisconsin Highway 67, to points in Kentucky on and south of Kentucky Highway 80 (points in Coles County, Ill.) *; (D–2) *Frozen foods*, from points in Wisconsin on and west of U.S. Highway 51 and on and north of Wisconsin Highway 33 to points in Kentucky (except Louisville and Paducah). (Coles County, Ill.) *; (E) *Canned and prepared foodstuffs*, from points in Wisconsin to points in Kentucky. (Bellwood, Ill.) *; (F–1) *Foodstuffs* (except commodities in bulk in tank vehicles), from points in Minnesota, to points in the Lower Peninsula of Michigan. (Douglas, Bayfield, Ashland, Iron, Sawyer, Washburn, and Burnett Counties, Wis.) *; (E–2) *Foodstuffs* (except commodities in bulk in tank vehicles), from points in Minnesota to points in the Lower Peninsula of Michigan (except points in Emmet, Cheboygan, Presque Isle, and Charlevoix Counties, Mich.) (points in Walworth, Racine, and Kenosha Counties, Wis.) *; (E–3) *Foodstuffs* (except commodities in bulk in tank vehicles), from points in Minnesota north of U.S. Highway 14 to points in the Lower Peninsula of Michigan on and north of Michigan Highway 10 (points in Vilas, Oneida, Lincoln, Langlade, Oconto, Marinette, Florence, and Forest Counties, Wis) *; (F–4) *Foodstuffs* (except commodities in bulk in tank vehicles), from points in Minnesota on and south of Minnesota Highway 14, to points in the Lower Peninsula of Michigan on and north of Michigan Highway 10 (points in Vilas, Oneida, Lincoln, Langlade, Oconto, Marinette, Florence, and Forest Counties, Wis.) *;

(F–5) *Foodstuffs* (except commodities in bulk in tank vehicles), from points in Minnesota on and south of Minnesota Highway 12, to points in the Lower Peninsula of Michigan (points in Wisconsin on and south of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 10 to its junction with U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line) *; (F–6) *Foodstuffs* (except commodities in bulk in tank vehicles), from points in Minnesota on and south of U.S. Highway 2 to points in The Lower Peninsula of Michigan (points in Wisconsin on and south of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 10 to its junction with U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line) *; (F–7) *Foodstuffs* (except commodities in bulk in tank vehicles), from points in Illinois and points in Knox, Davies, Martin, Dubois, Pike, Bibson, Posey, Vanderburgh, Spencer, and Perry Counties, Ind., to points in Emmet, Cheboygan, Presque Isle and Charlevoix Counties, Mich. (points in Wisconsin on and east of a line beginning at the Wisconsin-Michigan State line and extending along U.S. Highway 141 to its junction with U.S. Highway 41, thence along U.S. Highway 41 to its junction with U.S. Highway 26, thence along U.S. Highway 26 to its junction with U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line) *; (G) *Prepared food products and dairy products and by-products*, from points in Minnesota to Chicago and Elgin, Ill. (Whitewater, Wis.) *;

(H) *Prepared food and beverages*, from points in Wisconsin to Cincinnati, Ohio (Muster, Ind.) *; (I–1) *Foodstuffs* (except dairy products, frozen fruit, frozen vegetables, frozen berries and commodities, in bulk, in tank vehicles), from points in Minnesota on and north of U.S. Highway 2 to points in Missouri on and east of U.S. Highway 67 (except points in Mercer, Putnam, Sullivan, Grundy, Livingston, and Linn Counties) (points in Wisconsin west of U.S. Highway 51) *; (I–2) *Foodstuffs* (except dairy products, frozen fruit, frozen vegetables, frozen berries, and commodities in bulk, in tank vehicles), from points in Minnesota on and north of U.S. Highway 12 to points in Bollinger, Cape Girardeau, Wayne, Butler, Stoddard, Scott, Mississippi, New Madrid, Dunklin, and Pemiscot Counties, Mo. (points in Wisconsin) *; (II) (A–1) *Frozen foods*, from Fort Dodge, Iowa, to points in Indiana (points in Walworth, Kenosha, and Racine Counties, Wis.) *; (A–2) *Frozen foods*, from Des Moines, Iowa, to points in Indiana on and east of a line beginning at the Indiana-Michigan State line and extending along U.S. Highway 421 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with U.S. Highway 231, thence along U.S. Highway 231 to the Indiana-Kentucky State line (points in Vernon, Crawford, Richland, Grant, Iowa, and Lafayette Counties, Wis.) *. The purpose of this filing is to eliminate the gateway indicated by asterisks above.

No. MC 123407 (Sub-No. E174), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board, materials* and *accessories* used in the installation of the commodities above (except lumber and commodities in bulk) from Roaring River, N.C., to points in Colorado and the Counties of San Juan, Rio Arriba, Taos, and Colfax, New Mexico. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 5]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JANUARY 17, 1975.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application) are governed by the new special rule § 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

Special notice. The publications hereinafter set forth reflect the scope of the applications *as filed* by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 129660 (Sub-No. 5) (Corrected republication), filed May 8, 1973, and published in the FEDERAL REGISTER issues of June 28, 1973, and October 10, 1974, and republished as corrected this issue. Applicant: MALLETTE BROS. TRUCK LINE, INC., Route 2, Box 243, Gautier, Miss. 39553. Applicant's representative: Donald B. Morrison, 717 Deposit Guaranty Bank Building, P.O. Box 22628, Jackson, Miss. 39205. A Report and Order of the Commission, decided September 5, 1974, and served September 27, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, (1) of *iron and steel articles* (a) from the facilities of Southern Metal Service, Inc., at Gulfport, Miss., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Tennessee, and Texas, and (b) from Gulfport, Miss., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Tennessee, and Texas, restricted in both (a) and (b) to the transportation of shipments destined to points in the named States, and further restricted in (b) to the transportation of shipments having an immediately prior movement by water in foreign commerce, and (2) of *ferrous scrap*, from points in Mississippi to Gulfport, Miss., restricted to the transportation of shipments originating in Mississippi and having a subsequent movement by rail or water; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this corrected republication is to add the state of Tennessee, to 1(b) above. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 41064 (Sub-No. 4) (Notice of filing of petition to modify a commodity description), filed January 2, 1975. Petitioner: KENT EXPRESS, INC., P.O. Box 60, Railroad & Gaff, Aurora, Ind. 47001. Petitioner's Representative: Howard C. Sauser (Same address as petitioner). Petitioner holds a motor *common carrier* certificate in No. MC 41064 (Sub-No. 4), issued May 10, 1974, authorizing transportation, over regular routes, of *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Batesville, Ind., and Cincinnati, Ohio, serving all intermediate points, and off-route points within 5 miles of the route specified below: From Batesville over Indiana Highway 46 to Penntown, Ind., thence over Indiana Highway 1 to Sunman, Ind., thence over unnumbered highways via New Alsace, Yorkville, and Guilford, Ind., to junction Indiana Highway 56, thence over

V40I15 JAN22 75 XUM

Indiana Highway 56 to junction U.S. Highway 50 to Cincinnati, and return over the same route; and over irregular routes, of *Household goods, farm products, and farm supplies*, between Batesville, Ind., Cincinnati, Ohio, and the above-specified intermediate and off-route points, on the one hand, and, on the other, points in that part of Ohio and Kentucky within 100 miles of Batesville, Ind. By the instant petition, petitioner seeks to modify the above irregular route commodity description so as to read, *Household goods*, as defined by the Commission, and *General Commodities*, except those of unusual value and Classes A and B explosives. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 90870 (Notice of filing of petition to modify a certificate), filed December 30, 1974. Petitioner: GLENN R. RIECHMANN, doing business as RIECHMANN TRUCK SERVICE, Route 2, Box 137, Alhambra, Ill. 62001. Petitioner's representative: Glenn R. Riechmann (same address as Petitioner). Petitioner holds a motor *common carrier* certificate in No. MC 90870, issued August 13, 1969, authorizing transportation, as pertinent, over irregular routes, of *General commodities*, From St. Louis, Mo., to Pierron, Ill., with no transportation for compensation on return except as otherwise authorized. Restriction: The service authorized herein is subject to the following conditions: The operating rights authorized herein shall be conducted separately from carrier's operations as a private carrier; a separate and distinct accounting system shall be maintained for each; and carrier shall not transport property both as a for-hire and as a private carrier in the same vehicle at the same time. By the instant petition, petitioner seeks to modify the above territorial description so as to read: General commodities, between St. Louis, Mo., on the one hand, and, on the other, Pierron, Ill. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 115212 (Sub-Nos. 1, 2, 4, 10, 11, 12, 14, 16, 17, and 22) (Notice of filing of petition for modification of permits), filed December 19, 1974. Petitioner: H. H. H. MOTOR SERVICE, Route 130, Cranbury, N.J. 08512. Petitioner's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds a motor *contract carrier* permit in No. MC 115212 (Sub-Nos. 1, 2, 4, 10, 11, 12, 14, 16, 17, and 22), issued June 12, 1958, April 30, 1958, July 29 1963, February 3, 1965, May 5, 1965, February 2, 1967, March 17, 1967, November 21, 1968, September 15, 1970, and October 26, 1972, respectively, authorizing transportation, as pertinent, over irregular routes, in Sub-No. 1 of *Such commodities* as are dealt in by retail women's and children's ready-to-wear apparel stores, and, in connection therewith, *supplies and equipment* used in the conduct of such businesses, between New York, N.Y., on the one hand, and, on the other, points in Indiana, Ohio, Michigan, Wisconsin, and Illinois, under a continuing contract, or contracts, with Diana Stores Corporation, New York, N.Y., in Sub-No. 2 of *women's and children's wearing apparel* (except millinery and shoes), and *supplies and equipment* used in retail women's and children's ready-to-wear apparel stores, between New York, N.Y., on the one hand, and, on the other, points in Kentucky, Tennessee, and West Virginia, under a continuing contract, or contracts, with Diana Stores Corporation of New York, N.Y., in Sub-No. 4 of *such commodities* as are dealt in by retail women's and children's ready-to-wear apparel stores, and in connection therewith, *supplies and equipment* used in the conduct of such businesses, between New York, N.Y., on the one hand, and, on the other, points in Mississippi, under a continuing contract, or contracts, with Diana Stores Corporation, of New York, N.Y.

In Sub-No. 10 of *such commodities* as are dealt in by retail women's and children's ready-to-wear apparel stores, and in connection therewith *supplies and equipment*, used in the conduct of such business, between North Bergen, N.J., on the one hand, and, on the other, points in Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Kentucky, Tennessee, West Virginia, Indiana, Ohio, Michigan, Wisconsin, and Illinois, under a continuing contract, or contracts with Diana Stores Corporation, of New York, N.Y., in Sub-No. 11, of *such commodities* as are dealt in by retail women's and children's ready-to-wear apparel stores, and in connection therewith *supplies and equipment* used in the conduct of such businesses, between North Bergen, N.J., on the one hand, and, on the other, Elmont, N.Y., under a continuing contract, or contracts, with Diana Stores Corporation, of New York, N.Y., in Sub-No. 12, of *such commodities* as are dealt in by women's and children's ready-to-wear apparel retail stores, and in connection therewith, *equipment and supplies* used in the conduct of such business, between North Bergen, N.J., on the one hand, and, on the other, points in Pennsylvania, under a continuing contract, or contracts, with Diana Stores Corporation, of New York, N.Y., in Sub-No. 14, of *such commodities* as are dealt in by women's and children's ready-to-wear retail apparel stores, and in connection therewith *supplies and equipment* used in the conduct of such business, between North Bergen, N.J., on the one hand, and, on the other, points in Minnesota, under a continuing contract, or contracts, with Diana Stores Corporation, of New York, N.Y., in Sub-No. 16 of *such commodities* as are dealt in by retail women's and children's ready-to-wear retail apparel stores, and in connection therewith *supplies and equipment* used in the conduct of such businesses, between North Bergen, N.J., on the one hand, and, on the other, points in Nebraska, under a continuing contract, or contracts, with Diana Stores Corp., of North Bergen, N.J.

In Sub-No. 17 of *such commodities* as are dealt in by women's and children's ready-to-wear retail apparel stores, and in connection therewith *supplies and equipment* used in the conduct of such business, between North Bergen, N.J., on the one hand, and, on the other, points in Oklahoma, Texas, Louisiana, and New Mexico, under a continuing contract, or contracts with Diana Stores Corporation of North Bergen, N.J., and in Sub-No. 22 of *such commodities* as are dealt in by women's and children's ready-to-wear retail apparel stores, and in connection therewith *supplies and equipment* used in the conduct of such business, between North Bergen, N.J., on the one hand, and, on the other, points in Arizona, Arkansas, California, Colorado, Idaho, Iowa, Kansas, Maryland, Missouri, Montana, Nevada, North Dakota, Oregon, South Dakota, Washington, and Wyoming, under a continuing contract or contracts, with Diana Stores Corporation, of North Bergen, N.J. By the instant petition, petitioner seeks to add Daylin, Inc., as a contracting shipper to the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 115331 (Sub-No. 366) (Petition to extend explosive authority expiration date), filed January 2, 1975. Petitioner: TRUCK TRANSPORT, INCORPORATED, 230 Saint Clair Avenue, East Saint Louis, 62201. Petitioner's Representative: J. R. Ferris (Same address as petitioner). Petitioner has acquired a motor *common carrier* certificate pursuant to No. MC–F–11797, approved June 15, 1973, and consummated July 1, 1973, which was previously held by Robert Bernard Schilli, Trustee under the last will of Bernard Raymond Schilli, deceased, doing business as Schilli Transportation in No. MC 129162 (Sub-No. 5), issued April 14, 1971, to expire November 12, 1973, which is to be issued to petitioner in No. MC 115331 (Sub-No. 366), authorizing transportation, over irregular routes, of *Nitro-carbonitrate:* (1) from the plantsite of Monsanto Company near Midland, Ind., to the plantsite of Monsanto Company near Central City, Ky.; and (2) from the plantsite of Monsanto Company near Pyatts, Ill., to points in Indiana, Kentucky, and Missouri. By the instant petition, petitioner seeks to extend the expiration date of the above granted authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 118570 (Sub-No. 4) (Notice of filing of petition to modify a commodity description), filed December 30, 1974. Petitioner. DEFAZIO EXPRESS, INC., 1028 Springbrook Ave., Moosic, Pa. 18507. Petitioner's representative: Kenneth R. Davis, 999 Union Street, Taylor, Pa. 18517. Petitioner holds a motor *contract carrier*, permit No. MC 118570 (Sub-No. 4), issued March 8, 1972, authorizing transportation, over irregular routes, of *Coconut oil, coconut oil products, lard substitutes or compounds, cooking oils, glycerine, sterine, toilet preparations, soap, soap powder, soap products, premiums and advertising matter* pertaining to these products and groceries (except commodities in bulk), from the plant sites and storage facilities of The Procter & Gamble Distributing Co., and the Procter & Gamble Manufacturing Co., at points in Bronx, Kings, Nassau, New York, Queens, Richmond (except Clifton and Port Ivory), Rockland, and Westchester Counties, N.Y., Bergen, Essex (except Port Newark), Hudson (except Kearny), Middlesex, Morris, Passaic, Somerset, and Union Counties, N.J., to points in Berks, Carbon, Columbia, Lackawanna, Lehigh, Luzerne, Monroe, Montour, Northampton, Northumberland, Pike, Schuylkill, Snyder, Susquehanna, Union, Wayne, and Wyoming Counties, Pa., and points in Sussex, Warren, and Hunterdon Counties, N.J., under a continuing contract or contracts with the Procter & Gamble Distributing Co., Cincinnati, Ohio. By the instant petition, petitioner seeks to modify the above commodity description so as to read, *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses (except commodities in bulk). Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 22278 (Sub-No. 48), filed December 26, 1974. Applicant: TAKIN BROS. FREIGHT LINE, INC., 2125 Commercial Street, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), (A) Regular routes: (1) Between Stromsburg, Nebr., and Omaha, Nebr., serving all intermediate points: From Stromsburg over U.S. Highway 81 to junction U.S. Nebraska Highway 92 (formerly U.S. Highway 30A), thence over Nebraska Highway 92 to Omaha, Nebr., and return over the same route; and (2) between Stromsburg, Nebr., and Lincoln, Nebr., serving all intermediate points: From Stromsburg over U.S. Highway 81 to junction Nebraska Highway 2, thence over Highway 2 to Lincoln, and return over the same route; and (B) Irregular routes: Between Stromsburg, Nebr., and ten miles thereof, on the one hand, and, on the other, points in Nebraska on and east of Nebraska Highway 61, restricted against the transportation of meat and packing house products originating in Nebraska when destined to points west of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas.

NOTE.—Common control may be involved. Applicant states the requested authority can be joined with other authority held in Docket MC 22278 at Omaha, Nebr., or Sioux City, Nebr., to provide service between Chicago, Quad Cities, Ill., and points in Iowa on U.S. Highways 34, 6, 30, and 218 between Mt. Pleasant and Charles City, Iowa, Iowa Highway 64 between Des Moines, and Council Bluffs, Iowa, U.S. Highway 75 between Omaha, Nebr., and Sioux City, Iowa, Forest City as an off-route point. By this application, applicant seeks to acquire by purchase the intra- and interstate certificates held by Stromsberg Motor Freight, Inc., in MC 120483. This is a matter directly related to the Section 5 proceeding in MC–F–12404 published in the FEDERAL REGISTER issue of January 15, 1975. If a hearing is deemed necessary, the applicant requests it be held at either Omaha, Nebr., or Waterloo, Iowa.

No. MC 140504, filed December 16, 1974. Applicant: NATIONAL MACHINERY HAULERS, INC., 9050 Pershall Road, Hazelwood, Mo. 63042. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, machinery parts, agricultural implements, farm machinery and farm tractors, iron and steel products, and building materials*, between points in Illinois.

NOTE.—Common control may be involved. Applicant seeks authority to acquire the Certificate of Registration of Larry L. Fenner Transport, Inc., and convert the authority transferred from a Certificate of Registration to a Certificate of Public Convenience and Necessity. This is a matter directly related to the Section 5 proceeding in MC–F–12343 published in the FEDERAL REGISTER issue of October 31, 1974. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC–F–12407. Authority sought for control by THE EDWARD CORPORATION, 3893 Market St. NE., Warren, OH 44484, of BELLEVUE TRUCKING COMPANY, 1250 Medina Rd., Akron (Sharon Center), OH 44274, and for acquisition by ORIN S. NEIMAN also of Warren, OH 44484, of control of BELLEVUE TRUCKING COMPANY, through the acquisition by THE EDWARD CORPORATION. Applicants' attorneys: Paul F. Beery, 8 E. Broad St., 9th Floor, Columbus, OH 43215, and John Glenn, 1 Cascade Plaza, Akron, OH 44308. Operating rights sought to be controlled: *Machines* and *commodities*, the transportation of which because of size or weight requires the use of special equipment (except boats), as a *common carrier* over irregular routes, between points in New Jersey, New York, and Pennsylvania, within 200 miles of Newark, N.J., between Newark, N.J., and points in Connecticut, Rhode Island, Massachusetts, Delaware, and Maryland, within 200 miles of Newark, N.J., with restrictions. THE EDWARD CORPORATION holds no authority from this Commission. However, it is affiliated with OHIO FAST FREIGHT, INC., which is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC–F–12408. Authority sought for control and merger by LEMMON TRANSPORT COMPANY, INCORPORATED, P.O. Box 580, Marion, VA 24354, of the operating rights and property of C. L. WRIGHT TRUCKING, INC., 954 Montrose Drive, So. Charleston, W VA 25303, and for acquisition by GUY N. BUSHNELL, also of Marion, VA 24354, of control of such rights and property through the transaction. Applicants' attorney, and representative: Frank B. Hand, Jr., P.O. Box 187, Berryville, VA 22611, and Daryl J. Henry, P.O. Box 580, Marion, VA 24354. Operating rights sought to be controlled and merged: *Oxygen hydrogen, acetylene, acetic acid, virylite caustic, fluxes*, and *related products*, as a *common carrier* over irregular routes, from Charleston, W. Va., and points within 8 miles of Charleston, to Covington and Roanoke, Va., Charlotte, N. C., Kingsport, Tenn., Ashland, Ky., Portsmouth, Ohio, and points in that part of Ohio on and east of Interstate Highway 77 and Ohio Highway 21 (both formerly U.S. Highway 21), and those in that part of Pennsylvania on and west of U.S. Highway 219, from Pittsburgh, Johnstown, and Verona, Pa., and Cincinnati, Ohio, to Charleston, W. Va., and points within 8 miles of Charleston; and return with empty containers; *brick*, from Portsmouth, Ohio, to Charleston, W. Va., and points within 8 miles of Charleston; *barytes ore* and *sulphur*, in bulk, from Spring Hill, W. Va., to South Charleston, W. Va. LEMMON TRANSPORT COMPANY, INCORPORATED, is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC–F–12409. Authority sought for purchase by CARDINAL FREIGHT SYSTEM, INC., 22½ N. Madison St., Wau-

V 40 15 JAN 22 75 XUM

pun, WI 53963, of a portion of the operating rights of BIRD TRUCKING COMPANY, INC., Fond du Lac St., Waupun, WI 53963, and for acquisition by RAYMOND AND WILBERT JEFFORDS, both of Route 1, Waupun, WI 53963, BERNARD HAFEMANN, Route 2, Waupun, WI 53963, and DONALD F. CRAIN, 215 Howard Drive, Waupun, WI 53963, of control of such rights through the purchase. Applicants' attorney: Allan B. Torhorst, 217 E. Jefferson St., Burlington, WI 53105. Operating rights sought to be transferred: *Canned goods, frozen foods, dairy products and confectionary ingredients, food and foodstuffs*, and *foodstuffs*, as a *common carrier* over irregular routes, between specified origins in Wisconsin and Illinois, to points in Wisconsin, Illinois, Michigan, Indiana, and Minnesota. Vendee holds no authority from this Commission. However, it is affiliated with JEFF'S TRUCKING, INC., 408½ Main St., E. Waupun, WI 53963, which is authorized to operate as a *common carrier* in Wisconsin, Illinois, Minnesota, Iowa, Indiana, and Michigan. Application has not been filed for temporary authority under section 210a (b).

No. MC–F–12410. Authority sought for purchase by GEORGE B. KING, doing business as KING TRANSFER, 714 Pearl St., Onawa, IA 51040, of a portion of the operating rights of ALL-AMERICAN, INC., 900 W. Delaware, Sioux Falls, SD 57101. Applicants' attorney: Carl L. Steiner, 39 S. LaSalle St., Chicago, IL 60603. Operating rights sought to be transferred: *General commodities*, except household goods, as a *common carrier* over regular routes, between Sioux City, Iowa, and Omaha, Nebr., serving all intermediate points on the described highways. Vendee is authorized to operate as a *common carrier* in Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Tennessee, Wisconsin, and Wyoming. Application has not been filed for temporary authority under section 210a(b).

NOTE.—MC 127745 (Sub-No. 3), is a matter directly related.

No. MC–F–12411. Authority sought for control by NOEL TRANSFER, INC., 550 E. 5th St., South St. Paul, MN 55075, of DAKOTA EXPRESS, INC., P.O. Box 1252, Sioux Falls, SD 57101, and for acquisition by MICHAEL J. NOEL, also of S. St. Paul, MN 55075, of control of DAKOTA EXPRESS, INC., through the acquisition by NOEL TRANSFER, INC. Applicants' attorney: Donald L. Stern, Suite 530 Univac Bldg., 7100 W. Center Rd., Omaha, NE 68106. Operating rights sought to be controlled: *General commodities*, with certain specified exceptions, and numerous other specified commodities, as a *common carrier*, over regular and irregular routes, from, to, and between specified points in the States of South Dakota, Minnesota, Nebraska, Iowa, Wisconsin, North Dakota, Illinois, Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, Virginia, Indiana, Kansas, Missouri, Nevada, Oklahoma, Colorado, Wyoming, and the District of Columbia, with certain restrictions, serving various intermediate and offroute points, over one alternate route for operating convenience only, as more specifically described in Docket No. MC 83217 and Subnumbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. NOEL TRANSFER, INC., holds no authority from this Commission. However, it is affiliated with AJAX TRANSFER COMPANY, 550 E. 5th St., South St. Paul, MN 55075, which is authorized to operate as a *contract carrier* in Minnesota, Wisconsin, Iowa, Michigan, Illinois, North Dakota, and South Dakota, and LTL PERISHABLES, INC., P.O. Box 37468, Omaha, NE 68152, which is authorized to operate as a *common carrier* in Iowa, Nebraska, South Dakota, Illinois, Indiana, Minnesota, North Dakota, Wisconsin, Kansas, and Missouri. Application has been filed for temporary authority under section 210a (b).

No. MC–F–12413. Authority sought for purchase by FROZEN OVERLAND EXPRESS, 125 University Ave., Berkeley, CA 94710, of the operating rights of AMERICAN TRANSPORT SYSTEM, INC., 871 Charter St., Redwood City, CA 94063, and for acquisition by GENE OSBORNE, also of Berkeley, CA 94710, of control of such rights through the purchase. Applicants' attorneys: Martin J. Rosen, 140 Montgomery St., San Francisco, CA 94104, and Daniel Baker, 100 Pine St., Suite 2550, San Francisco, CA 94111. Operating rights sought to be transferred: *Bananas*, as a *common carrier* over irregular routes, from points in the Los Angeles Harbor, Calif., Commercial Zone as defined by the Commission, to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming; *frozen meats*, in vehicles equipped with mechanical refrigeration, from San Francisco and Oakland, Calif., to points in Alameda, Monterey, Sacramento, San Francisco, San Benito, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Stanislaus, Sonoma, Yolo, Merced, Contra Costa, Napa, and Solano Counties, Calif., between San Francisco and Oakland, Calif., on the one hand, and, on the other, points in California, from points in San Francisco, San Mateo, Alameda, Santa Clara, Santa Cruz, Monterey, Stanislaus, and San Joaquin Counties, Calif., to points in Maricopa, Pima, and Pinal Counties, Ariz., with restrictions. Vendee holds no authority from this Commission. However, it is affiliated with OSBORNE HIGHWAY EXPRESS, also of Berkeley, CA 94710, which is authorized to operate as a common carrier in Nevada, Arizona, California, Colorado, Idaho, Montana, New Mexico, Oregon, Utah, Washington, and Wyoming. Application has been filed for temporary authority under section 210a(b).

No. MC–F–12414. Authority sought for control and merger by STONY'S TRUCKING CO., 11550 Mahoning Ave., North Jackson, OH 44451, of the operating rights and property of MISSISSIPPI-EAST, INC., P.O. Box 769, Clairton, PA 15025, and for acquisition by BUCKEYE TRANSFER CO., and A. POLICASTRO, both of North Jackson, OH 44451, of control of such rights and property through the transaction. Applicants' attorney: A. Charles Tell, 100 E. Broad St., Columbus, OH 43215. Operating rights sought to be controlled and merged: *Machinery, equipment, materials*, and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by products, *coal-stripping machinery*, and *construction machinery*, as a *common carrier* over irregular routes, between points in Washington, Fayette, and Greene Counties, Pa., on the one hand, and, on the other, points in West Virginia on and north of U.S. Highway 60, and those in Ohio on and east of U.S. Highway 23; *glass-making machinery*, between Washington, Pa., and points within two miles thereof, on the one hand, and, on the other, points in the above-described territory in West Virginia and Ohio; *such commodities as contractors' equipment, heavy and bulky articles, machinery and machine parts*, and *articles*, requiring specialized handling or rigging because of size or weight, between points in Allegheny, Westmoreland, Fayette, Washington, and Greene Counties, Pa., between points in that part of Ohio on and east of U.S. Highway 21, between points in West Virginia, between points in the above-specified Pennsylvania territory, on the one hand, and, on the other, points in West Virginia and that part of Ohio on and east of U.S. Highway 21. STONY'S TRUCKING CO., is authorized to operate as a *common carrier* in Illinois, Indiana, Kentucky, Maryland, Michigan, Missouri, New York, Ohio, Pennsylvania, and West Virginia. Application has been filed for temporary authority under section 210a(b).

Grand Trunk Western Railroad Co. hereby gives notice that on the 8th day of October, 1974, it filed with the Interstate Commerce Commission, at Washington, D.C., an application F.D. 27778 requesting permission to alter its present point of interchange for international rail traffic at Detroit, Michigan, and Windsor, Ontario, between the applicant and the Canadian National Railways, and have approved the execution of a joint track agreement with the Penn Central Transportation Company whereupon the same service will be performed, to and across international waters at Detroit, Michigan, and Windsor, Ontario, by utilizing the Penn Central Transportation Company's trackage and tunnel facilities in lieu of the present connections via the Canadian National Railways car ferry service.

The applicant is a carrier by rail, subject to part I of the Interstate Commerce Act and therefore prays to the Interstate Commerce Commission for permission to have joint use of a section of railroad line owned and operated by the Penn Central Transportation Company, extending from West Detroit, Michigan, and through the tunnel to the Essex Terminal in Windsor, Ontario, all within the cities of Detroit, Michigan, and Windsor, Ontario, a distance of 5.2 miles.

In the opinion of the Applicant, the relief sought by this Application is not a major Federal action significantly affecting the quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation — National Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factor set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)–(5), 340 I.C.C. 431, 461. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than thirty (30) days from the date of first publication in the FEDERAL REGISTER.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75–2047 Filed 1–21–75;8:45 am]

MOTOR CARRIER INTRASTATE APPLICATIONS

JANUARY 17, 1975.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a) (6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by special rule § 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed, and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 55416, filed December 26, 1974. Applicant: GRILEY FREIGHTLINES, 2350 Dominguez Street, Long Beach, Calif. 90801. Applicant's representative: Carl H. Fritze, 1545 Wilshire Boulevard, Los Angeles, Calif. 90017. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities*, between the points hereinafter designated: (1) all points and places in the designated "Los Angeles area", including all points and places, within, and three miles laterally of the following boundary line: Beginning at the intersection of State Highway No. 27 and State Highway No. 1, northerly on State Highway No. 27 to a point where the city limits of the City of Los Angeles is intersected thereby, westerly, northerly, and easterly along said city limits of Los Angeles to its intersection with the southerly boundary of the Angeles National Forest at a point approximately 1.2 miles east of the joinder of Interstate Highway No. 5 and State Highway No. 14, southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest boundary to the county road known as Mill Creek Road, westerly along Mill Creek Road to the county road 3.8 miles north of Yucaipa, southerly along said county road to and including the unincorporated community of Yucaipa, westerly along Redlands Boulevard to Interstate Highway No. 10, northwesterly along Interstate Highway No. 10 to and including the City of Redlands, westerly along Interstate Highway No. 10 to Interstate Highway No. 15, southerly along Interstate Highway No. 15 to Alessandro, westerly along unnamed county road to State Highway No. 91 in Arlington, westerly along State Highway No. 91 to State Highway No. 55, southerly on State Highway No. 55 to the Pacific Ocean, westerly and northerly along the shore line of the Pacific Ocean to a point directly south of the intersection of State Highway No. 27 and State Highway No. 1, thence northerly along an imaginary line to point of beginning; and (2) between all points and places on and within 25 miles laterally of the following described routes subject to the restrictions hereinafter noted:

(a) Between San Ysidro and Paso Robles over Interstate Highway 5, U.S. Highway 101, and State Highway 1. (b) Between Ventura and Fresno over State Highway 33 to State Highway 41, thence over State Highway 41 to Fresno. (c) Between Paso Robles and Famoso over State Highway 46. (d) Between Los Angeles and Fresno over Interstate Highway 5 and State Highway 99. (See Restriction 1 hereof.) (e) Between Ford City and Greenfield over State Highway 119. (f) Between junction State Highway 99 (near Oildale) and Fresno via State Highways 65, 63, Orosi, Cutler, Dinuba, Kingsburg, and Sanger. (g) Between San Diego and San Bernardino via Interstate Highway 15. (h) Between Riverside and Colton, on the one hand, and Calexico, on the other hand, via Interstate Highway 10 and State Highways 60, 86, and 111. (See Restriction 2 hereof.) (i) Between San Diego and junction State Highway 86 near El Centro via Interstate Highway 8. (j) Between the northerly boundary line of the country of San Luis Obispo and San Francisco over U.S. Highways 101 and 101 By-pass. (k) Between the northerly boundary line of Fresno County and Sacramento over State Highway 99. (l) Between San Francisco and Sacramento over Interstate Highway 80. (m) Between San Francisco and Stockton over State Highway 17, Interstate Highways 580, 205, and 5. (n) Between Manteca and junction Interstate Highway 5 over State Highway 120. (o) Between Gilroy and Califa over State Highway 152; and (p) Between McKittrick and Tracy over State Highway 33. Applicant may make use of any street, road, highway, ferry, or toll bridge necessary or convenient for the purpose of performing the service herein authorized. Through routes and rates may be established between any and all points specified hereinabove.

Restrictions: The lateral 25 mile authority hereinabove set forth shall not include the right to serve: (1) Any point which is located both east of State Highway 99 (not including points on State Highway 99) and north of the Los Angeles Area between Los Angeles and Bakersfield; and (2) Any point on State Highway 62 connecting Interstate Highway 10 and the community of Twentynine Palms. Applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10–C of Minimum Rate Tariff No. 4–A. (2) Automobiles, trucks, and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses, and bus chassis. (Provided that this exception to general commodities shall not apply to service between the City of Los Angeles and Goleta and intermediate points on U.S. Highways 101 and 101 Alternate, and further provided that special equipment shall not be used in the transportation of any of the commodities listed in this paragraph 2.) (3) Livestock, viz.: Bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep-camp outfits, sows, steers, stags, or swine. (4) Liquids, compressed gases, commodities in semiplastic form, and commodities in suspension in liquids in bulk in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit; and (7) Logs. Intrastate, interstate, and foreign commerce authority sought.

HEARING: Date, time, and place not yet fixed. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Franscisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

JANUARY 17, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission within 10 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 5470 (Sub-No. E54), (Correction), filed May 29, 1974, published in the FEDERAL REGISTER September 26, 1974. Applicant: TAJON, INC., R.D. 5, Box 146, Mercer, Pa. 16137. Applicant's representative: Patrick McEligot, 918 Sixteenth St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in bulk, in dump vehicles, from Cleveland, Ohio, to points in Maryland and Virginia. The purpose of this filing is to eliminate the gateway of points in Trumbull County, Ohio, and New Kensington, Pa. The purpose of this correction is to correct the gateway points.

No. MC 31462 (Sub-No. E131), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in South Dakota. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any point within 50 miles thereof; and (2) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi river thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E171), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in that part of Michigan, on the Lower Peninsula, on, east, and south of a line beginning at the Michigan-Indiana State line, thence along Interstate Highway 69 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Michigan Highway 72, thence along Michigan Highway 72 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 32, thence along Michigan Highway 32 to Alpena, Mich., to points in Iowa. The purpose of this filing is to eliminate the gateway of Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E173), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Iowa on and east of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 169 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line, on the one hand, and, on the other, points in that part of South Dakota on and north of a line beginning at the Iowa-South Dakota State line, thence along U.S. Highway 18 to junction U.S. Highway 183, thence along U.S. Highway 183 to the South Dakota-Nebraska State line. The purpose of this filing is to eliminate the gateway of any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E174), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in North Dakota, on the one hand, and, on the other, points in that part of Iowa on and east of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 71 to the Iowa-Missouri State line. The purpose of this filing is to eliminate the gateway of any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E176), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E177), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, the District of Columbia. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E178), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E179), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E180), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E181), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E182), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point in Iowa within 50 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E183), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Iowa on and east of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 59 to the Iowa-Missouri State line, on the one hand, and, on the other, points in that part of Montana on, east, and north of a line beginning at the International Boundary line between the United States and Canada, thence along U.S. highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, Mont., thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Montana-Wyoming State line, thence along the Montana-Wyoming State line to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-North Dakota State line. The purpose of this filing is to eliminate the gateways of (1) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River; and (2) any point in North Dakota within 200 miles of Williston, N. Dak.

No. MC 31462 (Sub-No. E184), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Mississippi. The purpose of this filing is to eliminate the gateway of Cairo, Ill., or any point in Illinois within 25 miles thereof.

No. MC 35890 (Sub-No. E8) (Correction), filed May 3, 1974, republished in the FEDERAL REGISTER October 8, 1974. Applicant: BLODGETT FURNITURE SERVICE, INC., 3801 36th St. SE., Grand Rapids, Mich. 49508. Applicant's representative: John J. Freel (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, uncrated, (e) between points in that part of North Carolina on, north, and east of a line beginning at the North Carolina-Tennessee State line and extending along U.S. Highway 421 to junction North Carolina Highway 115, thence along North Carolina Highway 115 to junction U.S. Highway 21, thence along U.S. Highway 21 to the North Carolina-South Carolina State line, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of Grand Rapids, Mich. The purpose of this partial correction is to include those proposals inadvertently omitted from the previous publication. The remainder of this letter-notice remains as previously published.

No. MC 73828 (Sub-No. E1), filed July 8, 1974. Applicant: D & R MOVING & TRUCKING, INC., Suite 1515, One LeFrak City Plaza, Flushing, N.Y. 11368. Applicant's representative: Daniel Vollkemmer, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (I) *Household goods*, between points in Connecticut, Massachusetts, Rhode Island, New Jersey, and Pennsylvania, on the one hand, and, on the other, points in Nassau and Suffolk Counties, N.Y.; (II) *Household goods*, between points in Maryland, Virginia, and the District of Columbia, and that part of Pennsylvania on and west of U.S. Highway 219, on the one hand, and, on the other, points within 100 miles of Columbus Circle, New York, N.Y., in the counties of Bergen, Passaic, Essex, Hudson, and Union, N.J. The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC 107064 (Sub-No. E143), filed May 21, 1974. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in El Paso and Potter Counties, Tex., to points in Washington on and west of U.S. Highway 97. The purpose of this filing is to eliminate the gateway of Ector County, Tex.

No. MC 107403 (Sub-No. E88), filed May 29, 1974. Applicant: MATLACK, INC., 10 W. Baltimore, Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *liquid chemicals*, in bulk (except petroleum products and coal tar products), from points in Maryland (within 100 miles of Philadelphia, Pa.), to points in Alabama, Georgia, Mississippi, Tennessee, West Virginia, South Carolina, North Carolina, and Virginia west of U.S. Highway 220. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 107403 (Sub-No. E611), filed May 29, 1974. Applicant: MATLACK, INC., 10 W. Baltimore, Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products, coal tar products, and liquid fuel solvents*, in bulk, in tank vehicles, from Baltimore, Md., to those points in Pennsylvania and West Virginia. The purpose of this filing is to eliminate the gateway of Gettysburg, Pa.

No. MC 107403 (Sub-No. E455), filed May 29, 1974. Applicant: MATLACK, INC., 10 West Baltimore Ave., Landsdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *sand*, in bulk, in tank or hopper type vehicles, from Knox and Perry Counties, Ohio, to points in Connecticut, Delaware, Maine, Maryland (except points within 150 miles of Monongahela, Pa.), Massachusetts, New Hampshire, New Jersey, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Spring City, Pa.

No. MC 107478 (Sub-No. E12), filed June 4, 1974. Applicant: OLD DOMINION FREIGHT LINE, P.O. Drawer 2006, High Point, N.C. 27261. Applicant's representative: John T. Coon (same as

V 40 15 JAN 22 75 XUM

above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and tubing and fittings* therefor, from those points in North Carolina and South Carolina, north and east of a line beginning at the North Carolina-Tennessee State line and extending along Interstate Highway 40 to its junction with U.S. Highway 74, thence along U.S. Highway 74 to its junction with U.S. Highway 221, thence along U.S. Highway 221 to its junction with South Carolina Highway 97, thence along South Carolina Highway 97 to its junction with U.S. Highway 521, thence along U.S. Highway 521 to its junction with U.S. Highway 52, thence along U.S. Highway 52 to the Atlantic Ocean, to those points in Florida south and east of a line beginning at the Gulf of Mexico and extending along Florida Highway 60 to its junction with Interstate Highway 75, thence along Interstate Highway 75 to its junction with U.S. Highway 301, thence along U.S. Highway 301 to the Georgia-Florida State line. The purpose of this filing is to eliminate the gateway of Charleston, S.C.

No. MC 108207 (Sub-No. E41), filed May 31, 1974. Applicant: FROZEN FOOD EXPRESS, INC., P.O. Box 5888, Dallas, Tex. 75222. Applicant's representative: Mike Smith (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Condensed milk, cream, and cheese*, from points in Wisconsin on and south of U.S. Highway 8 to points in New Mexico, Louisiana, Arizona, and those points in California on, south, and west of a line beginning at the Pacific Ocean and extending along California Highway 299 to its junction with Interstate Highway 5, thence along Interstate Highway 5 to its junction with California Highway 99, thence along California Highway 99 to its junction with California Highway 65, thence along California Highway 65 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with California Highway 49, thence along California Highway 49 to its junction with California Highway 120, thence along California Highway 120 to the California-Nevada State line. The purpose of this filing is to eliminate the gateways of points in Texas.

No. MC 109478 (Sub-No. E7), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa., 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned grape juice, tomato juice, james, jellies*, and *preserves*, other than frozen or in bulk, in tank vehicles, from Geneva, Ohio, to points in Connecticut, Delaware, Illinois, Indiana, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, the District of Columbia, and those points in Maine, on and south of a line beginning at the Maine-New Hampshire State line, extending along U.S. Highway 2 to junction U.S. Highway 1 Alternate, thence along U.S. Highway 1 Alternate to junction Maine Highway 3, thence along Maine Highway 3 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Chautaugua County, N.Y., North East, Pa.

No. MC 109478 (Sub-No. E10), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs, cooking oil, and shortening* (except commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from Toledo, Ohio, to points in New York. The purpose of this filing is to eliminate the gateway of Crawford and Erie Counties, Pa.

No. MC 109478 (Sub-No. E17), filed May 15, 1974. Applicant: WORSTER MOTOR LINES INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Preserved foodstuffs* (except frozen food), in bulk, in tank vehicles, from Lawton, Mich., to Baltimore, Md., Fall River, Boston, New Bedford and Taunton, Mass., Jersey City, N.J., and those points in New Jersey within 25 miles thereof, Swedesboro, N.J., Providence, R.I., the District of Columbia, points in New York, Philadelphia, Pa., and those points in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line, extending along U.S. Highway 15 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of Brocton, Mt. Morris, Oakfield, Westfield, LeRoy, and points within 50 miles thereof, Monroe County and Genesee County, N.Y., Geneva, Ohio, and North East, Pa.

No. MC 109478 (Sub-No. E18), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods, fresh preserved and prepared foodstuffs, fruits, and vegetables*, from Boston, and Waban, Mass., Jersey City, N.J., and points in New Jersey within 25 miles thereof, points in New York, Philadelphia, Geneva, Ohio, Pa., and Erie County, Pa., to points in the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Genesee County, Monroe County, Brocton, Westfield, Leroy, N.Y., and points within 50 miles thereof, and points on south and west of a line beginning at Lake Ontario extending along New York Highway 13 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line, and Erie County and North East, Pa.

No. MC 109478 (Sub-No. E25), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Grape juice and tomato juice*, from Boston and Waban, Mass., Jersey City, N.J., and points in New Jersey within 25 miles thereof, Erie County, and Philadelphia, Pa., and New York, to points in Illinois, Indiana, and Ohio. The purpose of this filing is to eliminate the gateways of Brocton, Silver Creek, Westfield, Chautauqua County, Erie County, Genesee County, and Monroe County, N.Y., and Erie County and North East, Pa.

No. MC 109478 (Sub-No. E30), filed May 15, 1974. Applicant: WORCESTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grape juice*, in bulk, in tank vehicles, from Geneva, Ohio, to points in Connecticut, Delaware, Massachusetts, Rhode Island, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Westfield, N.Y.

No. MC 109478 (Sub-No. E31), filed May 15, 1974. Applicant: WORCESTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grape juice*, from Chautauqua and Erie Counties, N.Y., and Erie County, Pa., to points in Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, West Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Brocton and Westfield, N.Y., and North East, Pa.

No. MC 109478 (Sub-No. E32), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wine*, in bulk, in tank vehicles, from Chicago, Ill., to points in Massachusetts, Connecticut, Rhode Island, New York (except New York City), New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia. Restriction: The operating rights granted herein shall be subject to the

restriction that such rights which are in any way duplicative of the operating rights of James H. Powers, Inc., shall be cancelled in the event the latter carrier, or any portion of its operating rights which duplicate those of the above-named carrier, should subsequently come under the control of any person or corporation other than Worster-Iowa, or persons in control of the latter. The purpose of this filing is to eliminate the gateway of Westfield, N.Y.

No. MC 109478 (Sub-No. E33), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wine*, in bulk, in tank vehicles, from Boston and Waban, Mass., Jersey City, N.J., and points in New Jersey within 25 miles thereof, those points in New York on, south, and west of a line beginning at Lake Ontario extending along New York Highway 13 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line, and Geneva, Ohio, and Philadelphia, Pa., to St. Paul, Minn. The purpose of this filing is to eliminate the gateway of those points in New York on, south, and west of a line beginning at Lake Ontario, extending along New York Highway 13 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line.

No. MC 110525 (Sub-No. E1101), filed May 20, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, in foreign commerce only, (1) from Akron, Ohio, and points in West Virginia, New Jersey, Pennsylvania, and Maryland, to ports of entry between the United States and Canada located on the Niagara River (Niagara Falls, N.Y.)*; (2) from points in Georgia, North Carolina, South Carolina, Virginia, and that part of Tennessee on and east of U.S. Highway 27, to ports of entry between the United States and Canada located on the Niagara River (points in West Virginia and Niagara Falls, N.Y.)*; (3) from points in Alabama (except Anniston), Mississippi, Texas (except Fort Worth, Velasco, and points in Harris and Jefferson Counties), Florida, and Louisiana, to ports of entry between the United States and Canada (points in Kanawha County, W. Va., and Niagara Falls, N.Y.)*; (4) from Chicago, Chicago Heights, and Henry, Ill., the District of Columbia, and points in Delaware, Indiana, and Kentucky, to ports of entry between the United States and Canada located on the Niagara River [(a) Kobuta or Pittsburgh, Pa., and (b) Niagara Falls, N.Y.]*; (5) points in Connecticut and Rhode Island, to ports of entry between the United States and Canada located on the Niagara River (Carteret, N.J., and Niagara Falls, N.Y.)*; (6) from points in that part of California in and south of Santa Cruz, Santa Clara, Merced, Mariposa, Madera, and Mono Counties, to ports of entry between the United States and Canada located on the Niagara River (Houston, Tex., Akron, Ohio, and Niagara Falls, N.Y.)*; and (7) from points in Erie and Oneida Counties, N.Y., to ports of entry between the United States and Canada located on the Niagara River (North Tonawanda, N.Y.)*; restricted in (2) above against the transportation of bituminous products and materials, and restricted in (4) above against the transportation of liquefied petroleum gases from Chicago, Ill. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 111320 (Sub-No. E102), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used, damaged, rejected, or defective self-propelled road building and contractors' vehicles or machinery*, in driveaway and truckaway service, from points in that part of New York, on and east of a line beginning at Lake Ontario, thence along New York Highway 19 to the New York-Pennsylvania State line, and to points in Iowa (except Cedar Rapids, Iowa). The purpose of this filing is to eliminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E103), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used, damaged, rejected, or defective self-propelled road building and contractors' vehicles or machinery*, in driveaway and truckaway service, from points in that part of New York on and east of a line beginning at Lake Erie, thence along New York Highway 319 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line, and to points in North Dakota. The purpose of this filing is to eliminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E104), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used, damaged, rejected, or defective self-propelled road building and contractors' vehicles or machinery*, from points in that part of New York on and east of a line beginning at Lake Erie, thence along New York Highway 319 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line, and to points Louisiana and Colorado. The purpose of this filing is to eliminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E105), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used, damaged, rejected, or defective self-propelled road building and contractors' vehicles or machinery*, from points in that part of New York on and east of a line beginning at Lake Erie, thence along U.S. Highway 319 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line, and to points in that part of Mississippi on and south-west of a line beginnnig at the Mississippi-Tennessee State line, thence along U.S. Highway 51 to junction Mississippi Highway 16, thence along Mississippi Highway 16 to the Mississippi-Alabama State line. The purpose of this filing is to eliminate the gateway of Elmira Heights, N.Y.

No. MC 111320 (Sub-No. E107), filed May 31, 1974. Applicant: KEEN TRANSPORT, INC., P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: L. E. Gresh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled road building equipment, and parts thereof*, in driveaway and truckaway service, from points in that part of New York north of a line beginning at the Pennsylvania-New York State line, thence along New York Highway 17 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 23, thence along New York Highway 23 to the New York-Massachusetts State line, and to points in that part of Tennessee on and west of a line beginning at the Kentucky-Tennessee State line, thence along Interstate Highway 75 to junction U.S. Highway 129, thence along U.S. Highway 129 to the Tennessee-North Carolina State line. The purpose of this filing is to eliminate the gateway of Lorain, Ohio.

No. MC 113459 (Sub-No. E65), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment, between points in Indiana, on the one hand, and, on the other, points in Alaska (points in Illinois)*; and (B) (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Parts of commodities*, which, by reason of size or weight, require the use of special equipment, either when incidental to the transportation of such commodities, or when transported as separate and unrestricted shipments; (3) *Self-propelled*

V 40 15 JAN 22 75 XUM

articles, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; (4) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products (except the stringing and picking up of pipe in connection with main or trunk pipelines); (5) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and byproducts, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (6) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in that part of Kansas on and south of a line beginning at the Kansas-Colorado State line and extending along U.S. Highway 50 to its junction with U.S. Highway 156, thence along U.S. Highway 156 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to its junction with Kansas Highway 18, thence along Kansas Highway 18 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with U.S. Highway 59, thence along U.S. Highway 59 to the Kansas-Missouri State line, on the one hand, and, on the other, points in Utah (points in Oklahoma)*; and between points in Kansas, on the one hand, and, on the other, points in Nevada (points in Colorado)*. Restriction: The operations authorized in (A) above are restricted against the transportation of agricultural machinery and agricultural tractors, the operations authorized in (B)(1) and (2) above are restricted against the transportation of those commodities used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of main or trunk pipelines and against the transportation of farm machinery, and the operations authorized in (B)(3) above are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113459 (Sub-No. E66), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINES, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, (except in connection with main or trunk pipelines), and *machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipeline (except in connection with main or trunk pipeline); between points in Nevada, on the one hand, and, on the other, points in South Dakota on and west of a line beginning at the Wyoming-South Dakota State line extending along U.S. Highway 14 to the Missouri River, thence along the Missouri River to the North Dakota-South Dakota State line (points in Colorado)*; and between points in Nebraska, on the one hand, and, on the other, points in that part of Montana on and east of a line beginning at the Wyoming-Montana State line and extending along U.S. Highway 212 to its junction with U.S. Highway 312, thence along U.S. Highway 312 to its junction with Montana Highway 22, thence along Montana Highway 22 to Jordan, Mt., thence in a northwesterly direction in a straight line to Montana Highway 19 at Malta, Mt., thence along Montana Highway 19 to the United States-Canada International Boundary line (points in Nebraska west of U.S. Highway 83)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113459 (Sub-No. E67), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, (except in connection with main or trunk pipelines), and *machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipeline (except in connection with main or trunk pipeline); between points in Kansas, on the one hand, and, on the other, points in that part of Montana on and east of a line beginning at the Wyoming-Montana State line and extending along U.S. Highway 212 to its junction with U.S. Highway 312, thence along U.S. Highway 312 to its junction with Montana Highway 22, thence along Montana Highway 22 to Jordan, Mont., thence along a straight line to Montana Highway 19 at Malta, Mont., thence along Montana Highway 19 to the United States-Canada International Boundary line. The purpose of this filing is to eliminate the gateway of points in Colorado east of U.S. Highway 87.

No. MC 113459 (Sub-No. E90), filed June 4, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A)(1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more; and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in that part of Missouri on and south of a line beginning at the Missouri-Kansas State line and extending along U.S. Highway 54 to its junction with Missouri Highway 5, thence along Missouri Highway 5 to its junction with Missouri Highway 7, thence along Missouri Highway 7 to its junction with Interstate Highway 44, thence along Interstate Highway 44 to the Missouri-Illinois State line, on the one hand, and, on the other, points in that part of South Dakota on and west of a line beginning at the South Dakota-North Dakota State line and extending along U.S. Highway 281 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to the South Dakota-Nebraska State line (points in Oklahoma)*; (B)(1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in Missouri, on the one hand, and, on the other, points in Wyoming and Colorado (points in Kansas)*; (C)(1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in that part of Minnesota on and east of a line beginning at the Minnesota-Wisconsin State line and extending along U.S. Highway 53 to its junction with U.S. Highway 61, thence along U.S. Highway 61 to its junction with Minnesota Highway 23, thence along Minnesota Highway 23 to its junction with Minnesota Highway 65, thence along Minnesota Highway 65 to its junction with U.S. Highway 218, thence along U.S. Highway 218 to the Minnesota-Iowa State line, on the one hand, and, on the other, points in that part of Texas on and south of a line beginning at the Texas-Louisiana State line and extending along U.S. Highway 80 to its junction with U.S. Highway 259, thence along U.S. Highway 259 to its junction with Texas Highway 31, thence along Texas Highway 31 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction

with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Texas Highway 176, thence along Texas Highway 176 to the Texas-New Mexico State line (points in Illinois)*; and (D)(1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; (3) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; (4) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; and (5) *Parts of commodities*, which, by reason of size or weight, require the use of special equipment, either when incidental to the transportation of such commodities, or when transported as separate and unrestricted shipments; between points in that part of Arkansas on and east of a line beginning at the Arkansas-Missouri State line and extending along Arkansas Highway 115 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to its junction with Arkansas Highway 14, thence along Arkansas Highway 14 to its junction with U.S. Highway 63, thence along U.S. Highway 63 to its junction with Arkansas Highway 135, thence along Arkansas Highway 135 to its junction with Arkansas Highway 118, thence along Arkansas Highway 118 to the Arkansas-Tennessee State line, on the one hand, and, on the other, points in that part of Louisiana on and west of a line beginning at the Louisiana-Arkansas State line and extending along U.S. Highway 71 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to its junction with Louisiana Highway 82, thence along Louisiana Highway 82 to its junction with Louisiana Highway 333, thence along Louisiana Highway 333 to the Gulf of Mexico (points in Texas)*. Restriction: The operations authorized in (A)(1) above are restricted against the transportation of those commodities used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of main or trunk pipelines and against the transportation of farm machinery, the operations authorized in (C) are restricted against the transportation of agricultural machinery and agricultural tractors, and the operations authorized in 9(A)(2), (B)(2), (C)(2), and (D)(2) above are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 114019 (Sub-No. E404), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, other than cut, glass containers, common or parts thereof, viz., *bottles* (except siphon bottles and bottles fitted with siphons), *jars and packing glasses*, not exceeding 5 gallons in capacity, with or without their equipment of caps, covers, or stoppers, caps, covers, or tops (other than display), *glassware, or jars*, not otherwise indexed by name and paper shipping cartons, from South Connellsville, Pa., to points in Montana, Wyoming, Colorado, North Dakota, South Dakota, Nebraska, Minnesota, Wisconsin, Iowa, and points in that part of Missouri on, north, and west of a line beginning at the Illinois-Missouri State line and extending along Missouri Highway 16 to its junction with Missouri Highway 6, thence along Missouri Highway 6 to its junction with Missouri Highway 11, thence along Missouri Highway 11 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with Missouri Highway 131, thence along Missouri Highway 131 to its junction with Missouri Highway 2, thence along Missouri Highway 2 to the Missouri-Kansas State line. The purpose of this filing is to eliminate the gateway of Gurnee, Ill.

No. MC 114019 (Sub-No. E407), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Packinghouse products and by-products*, edible, (a) between Kansas City and Wichita, Kans., Kansas City, St. Joseph, South St. Joseph, and St. Louis, Mo., Des Moines and Sioux City, Iowa, and Omaha and South Omaha, Nebr., on the one hand, and, on the other, Detroit and Grand Rapids, Mich., Cleveland, Akron, Canton, and Toledo, Ohio, Pittsburgh, Pa., and Ft. Wayne, Ind., (b) between Des Moines and Sioux City, Iowa, and Omaha and South Omaha, Nebr., on the one hand, and, on the other, Evansville and Indianapolis, Ind., Columbus, Dayton and Cincinnati, Ohio, Louisville, Bellevue, and Covington, Ky., and (c) between Wichita, Kans., and St. Louis, Mo., on the one hand, and, on the other, Madison, Wis. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 114019 (Sub-No. E409), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt, fibreboard, pulpboard, wallboard, strawboard, tin roofing, caps, roofing, cement, metal clamps and fasteners, roof coating with asbestos, pitch, tar or rosin base, creasote, roofing felt, insulating material, nails, coal tar, and asphaltum paint, building, roofing, and sheathing paper, roofing pitch, composition or prepared roofing, asphalt siding, asphalt, asbestos or composition shingles, sheathing, tin straps with fasteners, and roofing tar*, from Wilmington, Ill., to points in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, New Jersey, Delaware, points in that part of New York on and east of a line beginning at the Pennsylvania-New York State line and extending along New York Highway 14 to its junction with New York Highway 13, thence along New York Highway 13 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with New York Highway 13, thence along New York Highway 13 to the U.S.-Canada International Boundary line, points in that part of Maryland, Virginia, and North Carolina, on and east of a line beginning at the Pennsylvania-Maryland State line and extending along U.S. Highway 11 to its junction with U.S. Highway 522, thence along U.S. Highway 522 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to its junction with U.S. Highway 95, thence along U.S. Highway 95 to its junction with North Carolina Highway 58, thence along North Carolina Highway 58 to Onslow Bay, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Sunbury, Pa.

No. MC 114019 (Sub-No. E411), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen fruit juices*, in vehicles equipped with mechanical refrigeration, from points in Van Buren, Berrien, Cass, Kalamazoo, and St. Joseph Counties, Mich., to points in Minnesota, Kansas, and those points in Arkansas on, south, and west of a line beginning at the Missouri-Arkansas State line and extending along U.S. Highway 167 to its junction with Arkansas Highway 14, thence along Arkansas Highway 14 to its junction with Arkansas Highway 140, thence along Arkansas Highway 140 to the Arkansas-Tennessee State line. The purpose of this filing is to eliminate the gateway of Darien, Wis.

No. MC 114019 (Sub-No. E413), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to

V4015 JAN22 75 XUM

operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, packinghouse products and commodities used by packinghouses*, as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (a) from St. Louis, Mo., to points in Connecticut, Massachusetts, New Hampshire, and Rhode Island, (b) from Kansas City and Wichita, Kans., Kansas City, St. Joseph, and South St. Joseph, Mo.; Des Moines and Sioux City, Iowa; Omaha and South Omaha, Nebr.; to points in Connecticut, Delaware, Maryland (except Baltimore), Massachusetts, New Jersey, New Hampshire, and Rhode Island. The purpose of this filing is to eliminate the gateways of Chicago, Ill., and Indianapolis, Ind.

No. MC 114211 (Sub-No. E394), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight require the use of special equipment and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from points in Kansas to points in Florida, and to points in that part of Louisiana on and southeast of a line beginning at the Gulf of Mexico, thence along Louisiana Highway 27 to junction Louisiana Highway 14, thence along Louisiana Highway 14 to junction U.S. Highway 165, thence along U.S. Highway 165 to junction Interstate Highway 20, thence along Interstate Highway 20 to the Louisiana-Mississippi State line, and to points in that part of Mississippi on and south of a line beginning at the Mississippi-Louisiana State line, thence along Interstate Highway 20 to the Mississippi-Alabama State line, and to points in that part of Alabama on and south of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 80 to the Alabama-Georgia State line, and to points in that part of Georgia on and south of a line beginning at the Georgia-Alabama State line, thence along U.S. Highway 80 to junction Georgia Highway 49, thence along Georgia Highway 49 to junction Georgia Highway 22, thence along Georgia Highway 22 to junction Georgia Highway 16, thence along Georgia Highway 16 to junction U.S. Highway 78, thence along U.S. Highway 78 to the Georgia-South Carolina State line, and to points in that part of South Carolina on and south of a line beginning at the Georgia-South Carolina State line, thence along Interstate Highway 20 to junction U.S. Highway 378, thence along U.S. Highway 378 to junction U.S. Highway 501, thence along U.S. Highway 501 to junction U.S. Highway 17, thence along U.S. Highway 17 to Myrtle Beach, S.C. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E396), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420 Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts for water systems, towers, and parts for agricultural implements, and pumps*, the transportation of which, because of size or weight, requires special equipment, from points in Nebraska to points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 30, thence along Texas Highway 30 to junction Texas Highway 6, thence along Texas Highway 6 to junction Texas Highway 159, thence along Texas Highway 159 to junction Texas Highway 36, thence along Texas Highway 36 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Texas Highway 71, thence along Texas Highway 71 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 285, thence along Texas Highway 285 to junction U.S. Highway 281, thence along U.S. Highway 281 to McAllen, Tex., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E403), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hod buggies and self-propelled sweepers* from points in that part of Iowa on and northwest of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line to points in Delaware, New Jersey, Massachusetts, Connecticut, and to points in that part of Virginia on and east of a line beginning at the Virginia-West Virgina State line, thence along Interstate Highway 81 to junction Virginia Highway 8, thence along Virginia Highway 8 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Virginia-North Carolina State line, and to points in that part of Maryland on and east of a line beginning at the Pennsylvania-Maryland State line, thence along Interstate Highway 81 to the Maryland-West Virginia State line, and to points in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line, thence along Pennsylvania Highway 14 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction Interstate Highway 81, thence along Interstate Highway 81 to the Pennsylvania-Maryland State line, and to points in that part of New York on and east of a line beginning at Oswego, N.Y., thence along New York Highway 57 to junction Interstate Highway 81, thence along Interstate Highway 81 to New York Highway 13, thence along New York Highway 13 to junction New York Highway 14, thence along New York Highway 14 to the New York-Pennsylvania State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E405), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from that part of Minnesota on and east of a line beginning at the Minnesota-Canada International Boundary line, thence along U.S. Highway 71 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to juction Minnesota Highway 18, thence along Minnesota Highway 18 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line to points in Oregon, California, Nevada, Utah, Arizona, New Mexico, Colorado, Texas, Oklahoma, Kansas, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Alabama, Florida, Georgia, South Carolina, North Carolina, Kentucky, Ohio, Indiana, Illinois, Vermont, New Hampshire, Maine, West Virginia, Nebraska, Tennessee, and to points in that part of Washington on and west of a line beginning at the Washington-Idaho State line, thence along Interstate Highway 90 to junction U.S. Highway 395, thence along U.S. Highway 395 to the Washington-Canada International Boundary line, and to points in that part of Idaho on and south of a line beginning at the Idaho-Montana State line, thence along Interstate Highway 90 to the Idaho-Washington State line, and to points in that part of Montana on and west of a line beginning at the Montana-Wyoming State line, thence along U.S. Highway 287 to junction Interstate Highway 90, thence along Interstate Highway 90 to the Montana-Idaho State line, and to points in that part of Wyoming on and southwest of a line beginning at the Wyoming-Montana State line, thence along U.S. Highway 287 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Wyoming-Nebraska State line, and to points in that part of Wisconsin on and southeast of a line beginning at the Wisconsin-Illinois State line, thence along Wisconsin Highway 15 to Lake Michigan, and to points in that part of Michigan on and south of a line beginning at Muskegon, Mich., thence along Interstate Highway 96 to the Michigan-Canada International Boundary line, restricted against the transportation to points in Maine, New Hampshire, Rhode Island, and Vermont of agricultural implements and machinery as defined in Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, 292, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E408), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), and *contractors' equipment and supplies* which are designed for use in conjunction with tractors, from points in that part of Minnesota on and north of a line beginning at the North Dakota-Minnesota State line, thence along U.S. Highway 10 to junction Minnesota Highway 34, thence along Minnesota Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Minnesota-Canada International Boundary line to points in Virginia, Pennsylvania, New York, Maine, Connecticut, Massachusetts, Rhode Island, Delaware, New Jersey, New Hampshire, Vermont, Maryland, and West Virginia, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of that part of the Fargo, N. Dak., commercial zone, located in the state of Minnesota.

No. MC 114211 (Sub-No. E410), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories, and attachments*, between points in that part of Iowa on and west of a line beginning at the Minnesota-Iowa State line, thence along Iowa Highway 4 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction Iowa Highway 39, thence along Iowa Highway 39 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 37, thence along Iowa Highway 37 to junction Iowa Highway 191, thence along Iowa Highway 191 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Iowa Highway 2, thence along Iowa Highway 2 to the Nebraska-Iowa State line, on the one hand, and, on the other, to points in Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, Maine, and to points in that part of New York on and east of a line beginning at the New York-Canada International Boundary line, thence along New York Highway 30 to junction New York Highway 86, thence along New York Highway 86 to junction New York Highway 73, thence along New York Highway 73 to junction Interstate Highway 87, thence along Interstate Highway 87 to New York, N.Y. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E413), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, the transportation of which because of size or weight requires special equipment from points in that part of Missouri on and southeast of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 24 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 15, thence along Missouri Highway 15 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Missouri State line to points in Washington, North Dakota, and to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Montana Highway 41, thence along Montana Highway 41 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction Beaverhead County Highway 324, thence along Beaverhead County Highway 324 to the Montana-Idaho State line, and to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line, thence along southern boundary of Idaho County to the Idaho-Oregon State line, and to points in that part of Oregon on and northwest of a line beginning at the Oregon-Washington State line, thence along Oregon Highway 11 to junction Interstate Highway 80, thence along Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 126, thence along Oregon Highway 126 to Florence, Oreg., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn., and Waterloo, Iowa.

No. MC 119934 (Sub-No. E3), filed May 12, 1974. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Loser II, 320 N. Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Flour*, in bulk, from Decatur, Ill., to points in Ohio, and that part of Kentucky on and east of a line beginning at the Kentucky-Ohio State line, thence along U.S. Highway 27 to the Kentucky-Tennessee State line; (B) *Flour*, in bulk, from Decatur, Ill., to points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 30 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Pennsylvania State line, and to points in that part of Michigan on the Lower Peninsula, on and east of a line beginning at Makinaw City, Mich., thence along Interstate Highway 75 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Michigan-Ohio State line. The purpose of this filing is to eliminate the gateway of Fort Wayne, Ind.

No. MC 119988 (Sub-No. E48), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO. INC., P.O. Box 1384, Lufkin, Texas 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Texas 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *Newspaper supplements* otherwise exempt from economic regulation under section 203(b)(7) of the Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to points in Louisiana. The purpose of this filing is to eliminate the gateway of that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico.

No. MC 119988 (Sub-No. E49), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Texas 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Texas 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements*, otherwise exempt from economic regulation under section 203(B)(7) of the Act, when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla. to that part of Missouri on and south of a line beginning at the Mississippi-Arkansas State line and extending along Mississippi Highway 8 to junction U.S. Highway 278, thence along U.S. Highway 278 to the Mississippi-Alabama State line. The purpose of this filing is to eliminate the gateway of that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico.

No. MC 119988 (Sub-No. E51), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO. INC., P.O. Box

V401S JAN 22 75 XUM

1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Texas 75208. Authority sought to operate as a *common carrier, by* motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter* and (2) *newspaper supplements*, otherwise exempt from economic regulation under section 203(b)(7) of the Act when transported in mixed loads with printed advertising matter, from the plant site and storage facilities of Allied Printers and Publishers at or near Tulsa, Okla., to points in Florida (except points in Escambia and Santa Rosa Counties, Fla.). The purpose of this filing is to eliminate the gateway of that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico.

No. MC 127651 (Sub-No. E1), filed June 4, 1974. Applicant: EVERETT G. ROEHL, INC., 201 W. Upham St., Marshfield, Wis. 54449. Applicant's representative: Nancy Johnson, Suite 100, 4506 Regent St., Madison Wis. 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (I) *Lumber;* (a) from those points in Minnesota on and north of U.S. Highway 12 to points in Illinois on and south of U.S. Highway 66 (Quincy, Wis.)*; (b) from points in Minnesota on and south of a line beginning at the Minnesota-North Dakota State line and extending along U.S. Highway 10 to its junction with Minnesota Highway 95 and thence along Minnesota Highway 95 to the Minnesota-Wisconsin State line, to points in the Southern Peninsula of Michigan (Quincy, Wis.)*; (c) from those points in Minnesota north of a line beginning at the Minnesota-North Dakota State line and extending along U.S. Highway 10 to its junction with Minnesota Highway 95, and thence east along Minnesota Highway 95 to the Minnesota-Wisconsin State line, to points in Michigan on and south of Michigan Highway 21 (Onalaska, Wis.)*; and (d) from points in Minnesota, to points in Indiana (Quincy, Wis.)*; (II) *Lumber* (except plywood and veneer); (a) from points in Minnesota to points in Kentucky (Quincy, Wis.)*; and (b) from those points in Minnesota on and east of U.S. Highway 63 and that portion on, north, and east of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 71 to its junction with Minnesota Highway 6, thence along Minnesota Highway 6 to its junction with Minnesota Highway 38, thence along Minnesota Highway 38 to its junction with U.S. Highway 169, thence along U.S. Highway 169 to its junction with Minnesota Highway 210, thence along Minnesota Highway 210 to the Minnesota-Wisconsin State line, to Falls City, Nebr. (Dorchester and Onalaska, Wis.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY ELIMINATION OF GATEWAY APPLICATIONS

JANUARY 17, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065 (d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of verified statements in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in Gateway Elimination, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 107515 (Sub-No. 902–G), filed June 4, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., 3901 Jonesboro Road, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats, and dairy products*, as described in the Appendix to the report in Modification of Permits-Packing House Products, 48 MCC 628, (a) between all points in Florida, on the one hand, and, on the other, points in North Carolina, South Carolina, Alabama, Mississippi and Louisiana; (b) between points in Mississippi, on the one hand, and, on the other, points in Louisiana and Alabama; (c) from points in Louisiana, Mississippi, Alabama, Florida, North Carolina and South Carolina to points in Tennessee; (d) from points in Tennessee (except McMinnville, Tenn. and those points in Davidson County, Tennessee formerly known as Nashville, Tenn.), to points in Louisiana, Mississippi, Alabama, Florida, North Carolina and South Carolina; (e) between points in Louisiana, on the one hand, and, on the other, points in Florida, North Carolina, and South Carolina; and (f) between points in Alabama, on the one hand, and, on the other, points in North Carolina, South Carolina, and Florida. The purpose of this filing is to eliminate the gateways at points in Georgia.

No. MC 113908 (Sub-No. 320G), filed June 4, 1974. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans., 66604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid animal and poultry feed supplements*, in bulk, in tank vehicles, from Verona, Mo., to points in Washington, Nevada, California, Montana, Wyoming, North Dakota, South Dakota, Colorado, New Mexico, Arizona, Oregon, Missouri, and Wisconsin. The purpose of this filing is to eliminate the gateway of Mapleton, Ill.

(2) *Wine vinegar* (advanced fermented wine), in bulk, in tank vehicles, from Lake Alfred, Fla., to points in California. The purpose of this filing is to eliminate the gateway of Austin, Minn.

(3) *Animal fats and animal oils*, in bulk, in tank vehicles, from Cherokee, Iowa, to points in California, Idaho, Oregon, Utah, Washington and Phoenix, Ariz. The purpose of this filing is to eliminate the gateway of Huron, S. Dak.

(4) *Corn syrup and blends of corn syrup and liquid sugar* (used as animal and poultry feed ingredients) in bulk, in tank vehicles, from Springdale, Ark., to West Alexandria, Ohio. The purpose of this filing is to eliminate the gateway of Verona, Mo.

(5) *Condensed milk and cream*, in bulk, in tank vehicles, from Evansville, Ind., to points in Arkansas, Oklahoma, Louisiana, Texas, Georgia and Alabama. The purpose of this filing is to eliminate the gateway of Springfield, Mo.

(6) *Vinegar*, in bulk, in tank vehicles, (a) from Rodgers, Ark., to points in Illinois, Michigan, California; (b) from Nixa, Mo., to points in Michigan, Minnesota, Tennessee and California; and (c) from Marionville, Mo., to points in California and Texas. The purpose of this filing is to eliminate the gateways of Joplin and Nixa, Mo., and Amarillo, Tex. in (a) above; Miami, Okla.; Rogers and Fayetteville, Ark.; Denver, Colo.; and Amarillo, Tex. in (b) above, and Nixa, Mo. in (c) above.

(7) *Vinegar stock and apple juice*, in bulk, in tank vehicles, from Corpus Christi, Tex. and points in Starr, Hildago, Willacy, and Cameron Counties, Tex., to points in Kentucky, Tennessee, Delaware, and Maryland. The purpose of this filing is to eliminate the gateway of Beiding, Mich.

(8) *Wine vinegar*, in bulk, in tank vehicles, from Canadalgua, N.Y., to points in California. The purpose of this filing is to eliminate the gateway of Dallas, Tex.

(9) *Alcoholic liquors, neutral spirits, distilled alcohol*, in bulk, in tank vehicles, from Springfield and Verona, Mo., to Helena, Mont. The purpose of this filing is to eliminate the gateway of Atchison, Kans.

(10) *Glycerine*, in bulk, in tank vehicles, from Springfield and Verona, Mo., to Des Moines and Madrid, Iowa. The purpose of this filing is to eliminate the gateway of Kansas City, Kans.

(11) *Synthetic resins (chemicals)*, in bulk, in tank vehicles, from Springfield and Verona, Mo., to points in Alabama. The purpose of this filing is to eliminate the gateway of Kansas City, Kans.

(12) *Nitrogen fertilizer solutions*, in bulk, in tank vehicles, from Springfield and Verona, Mo., to points in Mississippi, Illinois, and Tennessee. The purpose of this filing is to eliminate the gateway of Blytheville, Ark.

(13) *Vinegar and vinegar stock*, in bulk, in tank vehicles, from points in Florida, to points in Minnesota, Iowa, Missouri, Kansas, Nebraska, and Colorado. The purpose of this filing is to eliminate the gateway of Belding, Mich.

(14) *Liquid fertilizer*, in bulk, in tank vehicles, from Nebraska City, Nebr., to points in Arizona, Arkansas, California, Colorado, Kansas, Missouri, Nevada, New Mexico, Oklahoma, Texas, Utah, and Washington. The purpose of this filing is to eliminate the gateway of Springfield, Mo.

(15) *Glycerine, soap stock, liquid soap and fatty acids*, in bulk, in tank vehicles, from Aurora, Ill., to points in Alabama, Arkansas, Delaware, Georgia, Illinois, Iowa, Kansas, Kentucky, Louisiana, Mississippi, New York, South Carolina, Tennessee, California, Arizona, Colorado, Missouri, Nevada, New Mexico, Oklahoma, Texas, Utah, and Washington. The purpose of this filing is to eliminate the gateways of Springfield, Mo.; West Alexandria, Ohio; and Verona, Mo.

(16) *Glycerine, soap stock, fatty acids, inedible tallow*, in bulk, in tank vehicles, from Cherokee, Iowa, to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Aurora, Ill.

(17) *Animal fats and animal oil*, in bulk, in tank vehicles, from Cherokee, Iowa, to points in Alabama, Delaware, Georgia, Kentucky, Mississippi, South Carolina, and Tennessee. The purpose of this filing is to eliminate the gateway of Springfield, Mo.

(18) *Vinegar, vinegar stock*, in bulk, in tank vehicles, from New York City, N.Y., to points in Oklahoma, Texas, Arkansas, Mississippi, Louisiana, Alabama, Georgia, and California. The purpose of this filing is to eliminate the gateway of Silica, Mich.

(19) *Animal and poultry feed and animal and poultry feed ingredients*, in bulk, in tank vehicles (except animal fats, animal oils, vegetables oils and blends thereof), from Verona, Mo., to points in Indiana, Ohio, New York, Pennsylvania, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, New Jersey, Maryland, West Virginia, Virginia, Delaware, Kentucky, Tennessee, North Carolina, Mississippi, Alabama, Georgia, South Carolina and Florida. The purpose of this filing is to eliminate the gateway of West Alexandria, Ohio.

(20) *Vinegar and vinegar stock*, in bulk, in tank vehicles, from points in Michigan, to points in Missouri, California, Colorado, Arizona, Nevada, New Mexico, Utah, Washington and Lake Wales, Fla. The purpose of this filing is to eliminate the gateways of Dalhart, Tex.; Miami, Okla.; Rogers, Ark.; Austin, Minn.; Nashville, Tenn.; Wichita, Kans.; and Springfield, Nixa, and Marionville, Mo.

(21) *Nitrogen fertilizer solutions*, in bulk, in tank vehicles, from Blytheville, Ark., to points in Washington, Nevada, California, Montana, Wyoming, North Dakota, South Dakota, Colorado, Kansas, New Mexico, Arizona, Oregon, Nebraska, Missouri, Wisconsin and Oklahoma, Texas and Utah. The purpose of this filing is to eliminate the gateways of Mapleton, Ill. and Springfield, Mo.

(22) *Wine vinegar and vinegar stock*, in bulk, in tank vehicles, from Lake Alfred, Fla., to points in Minnesota, Iowa, Missouri, Kansas, and Colorado. The purpose of this filing is to eliminate the gateway of Cicero, Ill.

(23) *Vinegar*, in bulk, in tank or hopper vehicles, from Chicago, Ill., to points in Oklahoma, Louisiana, Mississippi, Colorado, Arkansas, Texas (except points in Harris County), and California. The purpose of this filing is to eliminate the gateway of Nixa, Mo.

(24) *Liquid animal and poultry feed supplements*, in bulk, in tank vehicles (except animal fats, animal oils, vegetable oils, and blends thereof), from Springfield and Verona, Mo., to points in Indiana, Ohio, New York, Pennsylvania, Vermont, New Jersey, Maryland, West Virginia, Virginia, Delaware, Kentucky, Tennessee, North Carolina, Mississippi, Alabama, Georgia, South Carolina and Florida. The purpose of this filing is to eliminate the gateway of West Alexandria, Ohio and Chattanooga, Tenn.

(25) *Alcoholic liquors (except brandy) and neutral spirits*, in bulk, in tank vehicles, from Auburndale and Lake Alfred, Fla., to points in Washington, Nevada, California, Montana, Wyoming, North Dakota, South Dakota, Colorado, Kansas, Oklahoma, Texas, New Mexico, Arizona, Oregon, Nebraska, Missouri, Wisconsin, Iowa, and Minnesota. The purpose of this filing is to eliminate the gateways of Belding, Mich. and Mapleton, Ill.

(26) *Wine vinegar*, in bulk, in tank vehicles, from Lake Alfred, Fla., to points in California and Washington. The purpose of this filing is to eliminate the gateway of Chicago, Ill. and Grand Beach, Mich.

(27) *Synthetic resins (chemicals)*, in bulk, in tank vehicles, from Kansas City, Mo., to points in Arizona, California, Colorado, Kansas, Missouri, Oklahoma, Oregon, Texas, Washington, and Wisconsin. The purpose of this filing is to eliminate the gateway of Mapleton, Ill.

(28) *Choline chloride*, in bulk, in tank vehicles, from Mapleton, Ill., to Springdale, Ark.; Jackson, Miss.; Ft. Worth, Tex.; and points in Alabama. The purpose of this filing is to eliminate the gateway of Kansas City, Kans.

(29) *Vinegar*, in bulk, in tank vehicles, from North Rose, N.Y., to points in California. The purpose of this filing is to eliminate the gateways of Memphis, Tenn. and St. Paul, Minn.

(30) *Liquid chemicals*, in bulk, in tank vehicles, from Mapleton, Ill., to points in Arkansas and Utah. The purpose of this filing is to eliminate the gateway of Springfield, Mo.

(31) *Choline chloride*, in bulk, in tank vehicles, from Kansas City, Kans., to points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, Virginia, West Virginia, New Jersey, Maryland, Delaware, North Carolina, South Carolina, Georgia, Florida, Alabama, Kentucky, Indiana, Ohio, Mississippi, Texas, Arkansas, Oklahoma, Arizona, California, Colorado, Nevada, New Mexico, Utah, and Washington. The purpose of this filing is to eliminate the gateways of Chattanooga, Tenn. and Springfield, Mo.

(32) *Fruit juice and fruit juice concentrates*, in bulk, in tank vehicles, from points in Texas, to Lawton, Mich.; Brocton, Watkins Glen and Westfield, N.Y.; North East, Pa.; points in Ohio, Kentucky, Tennessee, Delaware, and Maryland. The purpose of this filing is to eliminate the gateways of Springdale, Ark. and Belding, Mich.

(33) *Vinegar stock and vinegar*, in bulk, in tank vehicles, from points in California and Washington, to points in Oklahoma, Kansas, Arkansas, Iowa, Ohio, Indiana, Louisiana, Mississippi, Colorado, Texas, Illinois, Michigan, Missouri, Alabama, Florida, Georgia, South Carolina, North Carolina, Tennessee, Kentucky, West Virginia, Pennsylvania, New York, Virginia, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine, New Jersey, District of Columbia, Maryland and Delaware. The purpose of this filing is to eliminate the gateways of Harlingen, Amarillo, Dallas, Dalhart, and Weslaco, Tex.; Marionville and Nixa, Mo.; Springdale, Rogers, and Texarkana, Ark.

(34) *Apple juice*, in bulk, in tank vehicles, from points in Wayne County, N.Y., to points in Minnesota, Iowa, Missouri, Kansas, Nebraska, Colorado, Oklahoma, Texas, Arkansas, Mississippi, Louisiana, Alabama, and Georgia. The purpose of this filing is to eliminate the gateway of Belding, Mich.

(35) *Wine and wine products*, in bulk, in tank vehicles, from points in California, to points in Mississippi, Louisiana, Alabama, Georgia, Arkansas, and Lakeland, Fla. The purpose of this filing is to eliminate the gateways of Detroit, Mich. and the Clermont and Covington, Ky. Commercial Zone.

(36) *Formaldehyde*, in bulk, in tank vehicles, from Demopolis, Ala., to points in Arizona, Arkansas, California, Colorado, Kansas, Missouri (except east of Missouri Highways 15 and 19), Nevada, New Mexico, Oklahoma, Texas (except Harris County, Tex.), Utah and Washington. The purpose of this filing is to eliminate the gateway of Springfield, Mo.

(37) *Condensed cream and milk*, in bulk, in tank vehicles, from Dallas, Tex., to points in Tennessee, Kentucky, and Missouri. The purpose of this filing is to eliminate the gateway of Little Rock, Ark.

(38) *Condensed milk and cream*, in bulk, in tank vehicles, from Kansas City,

V40115 JAN22 75 XUM

Mo., to points in Tennessee and Kentucky. The purpose of this filing is to eliminate the gateway of Little Rock, Ark.

(39) *Liquid sugar*, in bulk, in tank vehicles, from Grimes, Iowa, to points in Kansas (except Kansas City, Mo./Kans.); Missouri, South Dakota, Chattanooga, Tenn.; Colorado, Oklahoma, Oregon, Texas, Washington, and Wisconsin. The purpose of this filing is to eliminate the gateways of Lincoln and Omaha, Nebr. and Mapleton, Ill.

(40) *Vinegar*, in bulk, in tank vehicles, from Hutchinson and Wichita, Kans., to points in California, Michigan, Ohio, Indiana, Louisiana, and Mississippi. The purpose of this filing is to eliminate the gateways of Dalhart, Tex.; Guyman, Okla.; La Junta, Colo.; Navada and Nixa, Mo.

(41) *Glycerine, fatty acids and inedible tallow*, in bulk, in tank vehicles, from Springfield and Verona, Mo., to points in Pennsylvania and Wisconsin. The purpose of this filing is to eliminate the gateway of Aurora, Ill.

No. MC 135648 (Sub-No. 2G), filed May 31, 1974. Applicant: ACKERMAN MOTOR LINES, INC., P.O. Box 4, Hackettstown, N.J. 07840. Applicant's representative: Herbert Burstein, One World Trade Center, Suite 2373, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Warren and Hunterton Counties, N.J., on the one hand, and, on the other, points in Pennsylvania on and north of a line beginning at the Pennsylvania-New Jersey State line at or near Yardley, Pa., and extending west along Pennsylvania Highway 332 to Newton, Pa., thence over Pennsylvania Highway 413 to its junction with U.S. Highway 202 at or near Buckingham, Pa., thence southwest on U.S. Highway 202 to Montgomeryville, Pa., thence northeast over Pennsylvania Highway 463 to Hatfield, Pa., thence southwest over unnumbered highway to intersection with a line between Lansdale and Allentown, Pa., thence north through Allentown, Martin's Creek, Stroudsburg, to Pennsylvania-New Jersey State line, near Portland, Pa., including points on the indicated portions of the highways specified. The purpose of this filing is to eliminate the gateway of New York, N.Y.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

Title 3—The President

PROCLAMATION 4340

National Jaycee Week, 1975

By the President of the United States of America

A Proclamation

To lead and to serve are the twin ideals of the United States Jaycees. By bringing together outstanding young members of communities throughout America, the Jaycees provide a reservoir and a forum for potential national leaders; by directing their energy and skills to a wide variety of humanitarian projects, the Jaycees serve our country and mankind.

For more than half a century, the United States Jaycees have strengthened our life as a democratic society. They belong to a cherished tradition going back to our country's very beginnings when community leaders from throughout the 13 colonies—many of them young men like the Jaycees—banded together with vision and talent to forge a free nation.

Today, in more than 7,000 chapters in each of the 50 states and the Nation's capital, some 300,000 Jaycees serve this time-honored ideal in a modern setting, dedicating their free time to faith, brotherhood, freedom and the service of their fellow man.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate the week beginning January 19, 1975, as National Jaycee Week—a time for the expression of America's gratitude for the many significant contributions of the United States Jaycees.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-second day of January, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER H—AIR FORCE RESERVE OFFICERS' TRAINING CORPS

PART 870—AIR FORCE RESERVE

This revision allows use of the title AFROTC Detachment Commander in lieu of Professor of Aerospace Studies in military channels (§ 870.2(s)); restates the AFROTC mission and objectives to accommodate recruiting functions and production for the Reserve Forces (§ 870.6); notes separation of area commandants from the AFROTC central staff (§ 870.8); provides expanded and revised guidance for establishing and continuing AFROTC units (§ 870.10); expands to the explanation of the College Scholarship Program (§ 870.12(a)(3)); adds provisions for processing nurse candidates (§ 870.22(d); § 870.72(b); § 870.-84, note 11; § 870.86, note 7), physician scholarship candidates (§ 870.22(d); § 870.72(a); § 870.86, notes 5 and 8), and candidates for Air National Guard/United States Air Force Reserve appointment (§ 870.32(b) and § 870.84, line 10); deletes obsolete Department of Defense Form 98, Armed Forces Security Questionnaire (§ 870.22 and § 870.84); requires completion of DD Form 398, Statement of Personal History, for Professional Officer Course and College Scholarship Program membership (§ 870.22(h)(2)); clarifies discharge and reenlistment requirements (§ 870.28(d) and § 870.58); expands authority for completed cadet status (§ 870.36); deletes former attachments of joint service ROTC agreements and adds essential portion to the text (§ 870.62(a)); specifies that disenrollment may occur for declining to accept a commission (§ 870.64(a)(5)); deletes requirements for an investigation when disenrolling most General Military Course cadets (§ 870.64(c)); establishes 17 as minimum age for FT, POC, and CSP for both males and females (§ 870.84, line 8); modifies requirement for Air Force Military Personnel Center approval of graduate students (§ 870.84, note 12a); specifies that GMC scholarship cadets need not demonstrate academic proficiency at the time of POC entry (§ 870.84, note 13); allows commissioning up to age 32 for certain prior active enlisted or warrant personnel (§ 870.86, line 11); allows Air University to determine eligibility of certain former service academy cadets (§ 870.86, note 3); specifies the period CSP cadets may be academically deficient (§ 870.86, note 8); deletes use of "he" and "his" except in cases that apply to males only; updates office symbols and references; and makes minor changes in wording to increase clarity.

Part 870, Subchapter H of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Sec.
870.0 Purpose.

Subpart A—Background and Organization

870.2 Definitions.
870.4 AFROTC officer procurement.
870.6 AFROTC mission and objectives.
870.8 AFROTC organization.
870.10 Establishment and continuation of AFROTC units at educational institutions.
870.12 The training program.
870.14 Responsibilities of the Commander, AU.
870.16 Major Command functions.
870.18 Administrative services and supplies.

Subpart B—AFROTC Membership and Retention

870.20 Basic membership requirements.
870.22 Other membership requirements.
870.24 Conditional membership.
870.26 Concurrent enrollment in Aerospace Studies.
870.28 Who may not be AFROTC members.
870.30 Investigative requirements.
870.32 Contract cadets.
870.34 In-phase admission to the POC.
870.36 Completed cadet status.
870.38 Alien students.

Subpart C—Selective Service Deferment of AFROTC Members and Designated Applicants

870.40 Military colleges participating in the AFROTC program.
870.42 Deferment selection criteria.
870.44 Delay of induction
870.46 Length of deferment.
870.48 Actions required for deferment.
870.50 Notifying Board of deferments and transfers.
870.52 Notifying Board of change of deferment status.
870.54 Transfer procedures.

Subpart D—Special Procedures

870.56 Participation and assignment in the Reserve establishment or National Guard.
870.58 Enlistment of a reservist of another service.
870.60 Credit for previous education, training, and experience.
870.62 Transfer of ROTC cadets.

Subpart E—Disenrollment and Discharge

870.64 Disenrollment of member from the AFROTC program.
870.66 Discharge from the United States Air Force Reserve.
870.68 Notifying ARPC of disenrollments.

Subpart F—Readmission

870.70 Readmission.

Subpart G—Appointment and Assignment of Graduates

870.72 Appointment of graduates.
870.74 Extended active duty for AFROTC graduates.
870.76 Distinguished graduates.
870.78 Release of AFROTC graduates for appointment in another service.
870.80 Air Force appointment of ROTC graduates from another service.

Subpart H—Tables

870.82 Eligibility criteria for establishment of an AFROTC unit.
870.84 Eligibility requirements for admission to membership in AFROTC.
870.86 Individuals who require a waiver and waiver granting authority.
870.88 Credit for previous education, training, and military experience.

AUTHORITY: 10 U.S.C. 8012; 10 U.S.C. Chapter 103; Military Selective Service Act of 1967, Section 6 (50 U.S.C. App. 456), except as otherwise noted.

§ 870.0 Purpose.

(a) This part explains the organization, administration, and operation of the Senior Reserve Officers' Training Corps. It applies to major commands, AFROTC (Maxwell Air Force Base, Alabama), ARPC, and AFROTC detachments.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

Subpart A—Background and Organization

§ 870.2 Definitions.

(a) *Academic year* (AY). Consists of two semesters three quarters, or the equivalent combination of trimesters or other terms.

(b) *Aerospace Studies* (*AS*). The official designation of the Air Force Reserve Officers' Training Corps (AFROTC) program of instruction.

(c) *AFROTC detachment.* An Air Force organization manned by active duty Air Force personnel assigned to AFROTC, with duty station at a civilian educational institution. The AFROTC detachment is an integral academic subdivision of the educational institution and, with concurrence of the institution, has the academic title "Department of Aerospace Studies." The AFROTC detachment conducts all AFROTC activities at the institution as stipulated in the joint contract between the host institution and the Air Force.

(d) *AFROTC graduate.* A contract cadet who has successfully completed the academic and military requirements of the AFROTC Professional Officer Course (POC), including prescribed field training, and has been awarded at least a bachelor's degree.

(e) *Alien student.* A Foreign National eligible to participate in the AFROTC

V 40 16 JAN 23 75 XUM

program under the provisions of this part and 10 U.S.C. 2103(b).

(f) *Cadet.* The term cadet as used in this part is synonymous with member.

(g) *Completed cadet.* A contract cadet who has successfully completed the academic and military requirements of the program of advanced training, including field training, and Flight Instruction Program is applicable, but has not been commissioned.

(h) *Conditional cadet.* A contract cadet who has been advised by the Professor of Aerospace Studies (PAS), either upon initial enrollment or during the program, of placement in a probationary status to correct a deficiency (academic or otherwise) within a specified period of time to preclude disenrollment from the program, or AFROTC scholarship termination. A conditional cadet is a member of the AFROTC program.

(i) *Consortium arrangement.* An agreement between a host institution and one or more nonhost institutions, which exists for the mutual benefit of the schools and which permits cross enrollment of students. AFROTC, as a department of the host institution, shares as a beneficiary of the larger agreement and may participate, on the same basis as any other department of the host institution, in enrolling students from the consortium nonhost schools. The consortium agreement may be a written agreement. Students at a nonhost institution may enroll in the AFROTC program under this type of arrangement provided:

(1) The nonhost institution is an accredited baccalaureate degree granting, or 2-year nonbaccalaureate degree granting, institution.

(2) The nonhost institution agrees to award appropriate academic credit applicable toward graduation for the successful completion of courses offered by the Department of Aerospace Studies.

(j) *Contract cadet.* An AFROTC cadet who:

(1) Executed AF Form 1056, Air Force Reserve Officers' Training Corps Contract, or AF Form 1448, Air Force Reserve Officers' Training Corps Contract for Air National Guard/Air Force Reserve, and

(2) Enlisted in the United States Air Force Reserve (USAFR) (Obligated Reserve Section (ORS)) under the provisions of 10 U.S.C. 2104 or 2107, and

(3) Is a member of the POC and/or the College Scholarship Program (CSP).

(k) *Cross-town agreement.* An agreement among AFROTC, a host institution, and a nonhost institution which either is accredited and grants bachelor's degrees or is a 2-year institution not authorized to grant bachelor's degrees. The agreement permits students from the nonhost institution to enroll in the AFROTC program conducted by the host institution.

(l) *Designated applicant.* An individual who applies in writing and is tentatively accepted by the Professor of Aerospace Studies (PAS) as a candidate for entry in the POC or for CSP membership.

(m) *Enrollment.* Admission of a student into an Aerospace Studies course for academic credit, which in itself entitles individuals to neither AFROTC membership nor subsistence allowance.

(n) *Full-time student.* An individual enrolled in other than correspondence courses who is taking at least the minimum credit hours specified in the institutional catalog for designation as a full-time student. If the institution does not specify a minimum criterion, a student enrolled in at least the minimum number of credit hours prescribed by the Professor of Aerospace Studies.

(o) *Host institution.* An educational institution that sponsors an AFROTC unit.

(p) *Member.* A student who meets and completes the applicable eligibility requirements of § 870.84 and is admitted to the General Military Course (GMC) or POC. Members must maintain retention standards prescribed by the Commandant, AFROTC.

(q) *Officer type training programs.* Any training received in any U.S. Armed Force, Coast Guard, or Merchant Marine program, completion of which may result in a tender of appointment as a commissioned officer (includes service academy preparatory schools).

(r) *Probation (academic).* Scholastic probation, warning, suspension, or any other terminology utilized by an institution to indicate that a student is academically deficient.

(s) *Professor of Aerospace Studies (PAS).* The senior Air Force commissioned officer assigned to command an AFROTC detachment. Normally, this title is used when the position is referred to in an institutional context. The title "AFROTC Detachment Commander" is sometimes used in military channels.

(t) *Pursuing student.* A designated applicant for POC membership who is temporarily ineligible for enlistment. These students are not members of the POC or the CSP.

(u) *Special student.* A nonmember student who is enrolled in AFROTC courses and/or corps training.

§ 870.4 AFROTC officer procurement.

AFROTC is a major active duty officer procurement program of the Air Force. It is conducted jointly with the cooperating educational institutions, as outlined in this part. AFROTC will continue to operate as the officer training program conducted at colleges and universities during a national emergency or war.

§ 870.6 AFROTC mission and objectives.

(a) The AFROTC mission is to recruit, educate, and commission officer candidates through a college campus program in response to Air Force requirements.

NOTE: AFROTC is also responsible for conducting an Air Force Junior ROTC (AFJROTC) program at selected secondary schools nationwide under Part 872 of this chapter.

(b) The AFROTC objectives are to:

(1) Recruit, select, and retain officer candidates until they are commissioned as second lieutenants in the U.S. Air Force.

(2) Provide college-level education that qualifies cadets for commissioning in the U.S. Air Force.

(3) Strengthen each cadet's sense of personal integrity, honor, and individual responsibility; enhance knowledge of how the U.S. Air Force serves the national interest; increase understanding of officer professionalism in the U.S. Air Force; and develop potential as a leader and manager.

§ 870.8 AFROTC organization.

The Department of the Air Force establishes policies and develops plans for the conduct of the AFROTC program. AFROTC is organized as a subordinate unit of AU and consists of a central staff, area commandants, and detachments.

§ 870.10 Establishment and continuation of AFROTC units at educational institutions.

An AFROTC detachment is established or disestablished only by direction of the Secretary of the Air Force.

(a) *Establishment of AFROTC units.* To receive consideration for establishment of an AFROTC unit, an educational institution must meet the standards specified in § 870.82 of this part. The fact that an institution meets all criteria does not, however, imply that a unit will be authorized. New units are established, after consideration of all factors, only as the Air Force determines a need for additional units. Educational institutions interested in hosting an AFROTC unit should write to the Commandant, AFROTC, Maxwell Air Force Base, Alabama 36112. AFROTC evaluates applications and forwards recommendations when directed to do so by Headquarters, USAF, or Air University.

(b) *Establishment restrictions.* Normally, an AFROTC unit will not be established at an educational institution if:

(1) An AFROTC unit exists within 15 minutes driving time of the applicant institution, and the institution that hosts the existing unit is willing to accommodate AFROTC cross-enrollees from the applicant institution.

(2) An ROTC unit of another service exists on the applicant campus, and the Secretary of that service does not agree to collocation with an AFROTC unit.

(c) *AF Form 1268.* AF Form 1268, Application and Agreement for the Establishment of Senior Air Force Reserve Officers' Training Corps Unit, must be signed after establishment has been approved by the Secretary of the Air Force.

(d) *Continuation of AFROTC units.* An AFROTC unit normally is not maintained at an educational institution if the institution fails:

(1) To comply with the contractual terms of AF Form 1269 (or any other properly constituted contract or ensuing memoranda of agreement). The minimum standards of § 870.82 apply. AF

ROTC reviews contract compliance at each unit annually. Institutions are notified of deviations and requested to take corrective action. Uncorrected deviations will be reported to Air University. AU considers those deviations in taking action under paragraph (e) of this section.

(2) To meet the enrollment standards prescribed in paragraph (e) of this section.

(e) *Disestablishment of AFROTC units.* The annual projected officer production from each AFROTC unit must be adequate to justify the investment of Air Force resources.

(1) A unit is considered marginal when its first year POC enrollment as of October 31 is below:

(i) Seventeen cadets where the institution prescribes a 4-year or combination 4- and 2-year program.

(ii) Twelve cadets where the institution prescribes a 2-year only program.

(2) AFROTC reviews the enrollment in the first year of the POC for each AFROTC unit to identify units which do not meet the enrollment criteria in paragraph (e)(1) of this section. Air University takes action by December 15 each year to:

(i) Forward letters to appropriate host institution presidents to place newly identified marginal units in probationary status for a 1-year school period. (New AFROTC units offering the 4-year program are exempt from consideration until their third year of existence; new units offering only the 2-year program are exempt from consideration until their second year of existence.)

(ii) Forward letters to appropriate host institution presidents to release from probation those units which meet or exceed the 17/12 enrollment criteria.

(iii) Forward a summary of the actions prescribed under paragraphs (e)(2)(i) and (ii) of this section to HQ, USAF/DPPE, Washington, D.C. 20330, with recommendations to disestablish or continue on probation those units which did not meet the 17/12 enrollment criteria by the end of the 1-year probationary period. Also provide HQ, USAF/DPPE with proposed draft letters for signature by the Commander, AU, to appropriate host institution presidents, as well as a data sheet for each unit to support disestablishment or continued probation. Continued probation should be limited to those units where enrollment trends or projected enrollment indicate that this action is in the best interest of AFROTC and the Air Force.

(3) Approved letters for disestablishment or continued probation are forwarded to the Professor of Aerospace Studies for personal delivery to the host institution president (or other designated representative of the host institution) at a time prearranged between AU and HQ, USAF/DPPE.

(4) AFROTC:

(i) Insures that the president of each host institution is aware of the 17/12 enrollment criteria.

(ii) Forwards a letter expressing concern to the president of each host institution where the October 31 enrollment in the first year of the POC falls below 20 at schools which prescribe a 4-year or combination 4- and 2-year program, or below 15 at schools which prescribe a 2-year only program, unless enrollment limitations established by AFROTC preclude such enrollment.

(iii) Works closely with any institution, where the AFROTC enrollment falls below the required standard for any year, to seek measures which will increase enrollment to the required level and make the unit fully productive. These efforts must be substantiated in writing.

(5) Units being disestablished are normally phased out with sufficient time to permit contract cadets to complete the program or allow them a practical alternative for earning commissions. Phase out is accomplished within the shortest practical period, to conserve expenditure of Air Force resources.

§ 870.12 The training program.

The training program includes two phases—the institutional phase and the field training phase. Successful completion of academic and military requirements in both phases is a prerequisite for appointment as an officer in the U.S. Air Force.

(a) *The institutional phase.* This phase consists of GMC (AS 100 and AJ 200), the POC (AS 300 and AS 400), and Corps Training (AS 100 through AS 400). Corps Training is an integral and mandatory portion of each Aerospace Studies year. The GMC and POC are each normally two academic years in length (four semesters, six quarters, or an equivalent number of trimesters or terms). Completion of the GMC, its equivalent, or the 6-week field training session is a statutory prerequisite for, but does not guarantee, entrance into the POC.

(1) The 4-year program consists of the GMC, POC, Corps Training, and a 4-week field training session.

(2) The 2-year program consists of the 6-week field training, the POC, and the last 2 years of Corps Training.

(3) The College Scholarship Program (CSP) provides educational financial assistance for selected undergraduate or graduate cadets. Candidates for entry into the 2- and 4-year programs, and members of the 4-year program, are eligible to compete for scholarships provided they have the requisite number of academic years remaining.

(i) Air Force is authorized by 10 U.S.C. 2107 to have 6,500 AFROTC scholarships in effect at any time. No more than 20 percent of the scholarship cadets may be in the 2-year AFROTC program, and at least 50 percent of the scholarship cadets who are enrolled in public institutions must qualify for in-state tuition rates.

(ii) A subsistence allowance is paid to scholarship students as specified in Part 874 of this chapter and in addition:

(A) All tuition, fees, books, and laboratory expenses will be paid for required (as opposed to elective) courses.

(B) All tuition, fees, books, and laboratory expenses will be paid for elective courses, except that AFROTC may disapprove costs of any effective course which is more expensive than the normal tuition and fees incurred by a student who does not elect to take such a course.

(iii) Scholarships are offered in conjunction with participation in all four years of AFROTC, the last three years, and the last two years.

(A) Four-year scholarships are limited to candidates interested in and qualified to attend pilot or navigator training after being commissioned through AFROTC. Applications and details may be obtained from AFROTC/SDR, Maxwell Air Force Base, Alabama 36112.

(B) Three-year scholarships are available to students who can complete the GMC within one academic year; these scholarships are limited to potential pilots and navigators, and to students enrolled in specified scientific and engineering curriculums. Two-year scholarships are available to cadets entering the POC and are limited to potential pilots and navigators, potential missile launch officers, students enrolled in specified scientific and engineering curriculums, and potential physicians. Applications for 3-year and 2-year scholarships are made through the Professor of Aerospace Studies at the AFROTC detachment, except as indicated in paragraph (a)(3)(v) of this section.

(iv) Active duty airmen may apply for AFROTC scholarships through their Base Education Services Office in accordance with AFR 53–20, Airman Commissioning Programs.

(v) Selection for a scholarship is on a competitive basis. Recipients will be centrally selected by Air University/AFROTC.

(b) *The field training phase.* The 6- and 4-week field training phases are conducted at Air Force bases as prescribed by AFR 45–3, Air Force ROTC Field Training Program. Two-year program applicants must successfully complete the 6-week field training session prior to admission to the POC. This prerequisite is a statutory requirement, but does not guarantee membership in the 2-year program. Cadets in the 4-year program normally attend the 4-week field training session after successful completion of AS 200.

(c) *Curriculum and course support materials.*—(1) *Curriculum.* The Commander, AU, develops and maintains the AFROTC education program according to the mission, objectives, and policies prescribed by the Chief of Staff, USAF.

(2) *Academic credit.* AFROTC courses should be reviewed for credit on the same basis as other courses at the institution. Maximum credit should be granted. If credit is questioned, the institution should recommend changes which would make the courses credit worthy, but denial of degree credit would not, in itself, necessarily mean withdrawal of the unit. Regardless of the amount of credit granted, AFROTC course grades should appear on students' transcripts.

(3) *Course substitution.* Guest lecturers may provide specific hours of instruc-

V40I16 JAN23 75 XUM

tion in areas where they are academically qualified, provided the institution approves of the practice. Institutionally taught courses, or courses taught jointly by both civilian and military faculties, may be used when these courses satisfy the objectives of the AFROTC curriculum and exist or can be developed by the institution. These provisions shall not be used as a device to reduce the required minimum military contact hours of the AFROTC curriculum.

(4) *Drill.* Standards of performance in military drill will be prescribed by AU. The PAS determines the specific amount of drill needed to obtain the prescribed standards.

§ 870.14 Responsibilities of the Commander, AU.

The Commander, AU:

(a) During any period of full-scale mobilization, conducts an accelerated AFROTC program as directed by HQ, USAF.

(b) Insures that all Applicants enlisted as POC or CSP members, and all AFROTC graduates appointed as commissioned officers, meet Air Force personnel procurement standards.

§ 870.16 Major Command functions.

(a) Each MAJCOM must:

(1) Provide designated applicants for membership in the AFROTC program with:

(i) Subsistence, quarters, and necessary medical care while they are processing at Air Force installations. (Service charges for subsistence and quarters provided must be kept to a minimum.)

(ii) On-base transportation to and from examining centers and medical facilities. (Off-base transportation may be provided to the nearest commercial transportation facility.)

(2) Provide for the administration of medical examination and the Air Force Officer Qualifying Test (AFOQT) to designated finalists competing in the 4-year College Scholarship Program. (The provisions of paragraph (a)(1) of this section apply. Authority to arrange for scheduling of medical examinations and the AFOQT may be delegated to base commanders and AFROTC.)

(3) Insure that adequate personnel and facilities are available to process AFROTC applicants so that a favorable and professional impression of the base and the military will be conveyed.

(4) Provide base facilities, personnel, and airlift in support of the AFROTC base visit and orientation program.

(b) After coordinating with the Commander, AU, major commands may communicate directly with the detachments on AFROTC matters.

§ 870.18 Administrative services and supplies.

(a) *Uniforms.* The Commandant, AFROTC, prescribes the uniform, uniform devices, and manner of wear of the uniform by students, designated applicants, and cadets. Uniforms will be worn for drill and at other times prescribed by AFROTC.

(b) *Monetary allowances.* Policies governing subsistence allowance and commutation in lieu of uniforms are prescribed by the Commandant, AFROTC, consistent with Part 874 of this chapter.

Subpart B—AFROTC Membership and Retention

§ 870.20 Basic membership requirements.

Title 10 U.S.C., chapter 103, requires that, at institutions hosting ROTC detachments, membership in the GMC is elective or compulsory as provided by state law or the authorities of the institutions concerned. Except where GMC membership is compulsory, as many qualified students may be enrolled in the GMC of each AFROTC detachment as are necessary to meet production quotas established by HQ, USAF. Entry into the POC is not subject to institutional jurisdiction, but is limited by production goals set by HQ, USAF for the graduating class in which cadets will be appointed. Each cadet or applicant desiring membership in the POC (and/or the CSP) must apply and compete with other cadets and applicants for membership. HQ, USAF establishes AFROTC eligibility requirements. For students meeting these requirements, the Commandant, AFROTC, prescribes admission and retention standards.

(a) *GMC membership.* An eligible student accepted by the PAS becomes a member on the first day of attending Aerospace Studies classes. The student remains a member until completing the GMC unless disenrolled sooner, except GMC members tentatively accepted as designated applicants for the POC who remain members until they are disenrolled from the GMC or fail to be selected for the POC. The PAS must counsel each GMC cadet that acceptance for GMC training is not a guarantee of later admission into the CSP or POC.

NOTE: An individual accepted for membership, who because of accreditation of a portion of the GMC by virtue of equivalent training is excused from attending classes and corps training, is considered a cadet effective the date the membership application is accepted by the PAS.

(b) *POC membership.* An eligible student accepted by the PAS becomes a member on the date of becoming fully qualified under current Air Force and AFROTC directives, enlisting or reenlisting in the USAFR (ORS) according to Part 888d of this chapter, and enrolling in courses of the POC. The student remains a member until disenrolled from membership or commissioned.

(c) *Designated applicant.* Once accepted as a designated applicant by the PAS, the individual remains a designated applicant until enrolled as a contract cadet or advised by the PAS of release from further consideration. Normally designated applicant status will not exceed a 12-month period. (Subpart C tells how to notify a Selective Service board of an individual's designated applicant status.) At time of admission to membership in the POC, a designated applicant must have two academic years remaining at a host, crosstown, or consortium institution offering the AFROTC program (§ 870.84, note 12). A designated applicant who completed the GMC, its equivalent, or the 6-week field training prior to enrollment in pursuing status, and is thereafter to be accepted as a contract cadet, meets this requirement if two academic years remained at the time of enrollment in pursuing status. A designated applicant who is on academic probation or not in good academic standing at the institution normally is not admitted to membership in the POC. Upon favorable recommendation from the Commandant, AFROTC, AU may grant a waiver (§ 870.86).

(d) *Nonmembers.* Pursuing and special students may be enrolled for academic credit although they are not members of the program. Nonmembers are not entitled to subsistence, a uniform allowance, or a uniform. If otherwise authorized, while in nonmember enrollment status, a special student may purchase a uniform at personal expense and wear it as authorized by the PAS. A pursuing student may be loaned a uniform at the discretion of the PAS and with concurrence of the institution. § 870.22 (h) applies to wearing of the uniform by special and pursuing students. Equipment will not be purchased for the benefit of enrolled nonmembers. Special and pursuing students must acknowledge in writing understanding of their status in the AFROTC program.

§ 870.22 Other membership requirements.

For selection or retention in the AFROTC program, a student must meet and maintain the following standards as well as the requirements in § 870.84:

(a) *Moral character.* Good moral character is a prerequisite for membership and continuance in the AFROTC program. For purpose of membership in the GMC, admission to the institution is presumptive evidence of good character.

(b) *Military or civil offenses.* AFROTC is exempt from the requirement for the police record check required for enlistment in the United States Air Force Reserve. The Commandant, AFROTC, establishes procedures for verification of other than minor traffic violations which, together with the investigative actions inherent in the National Agency Check (NAC) or Background Investigation (BI), insure proper review of involvements of each contract cadet. A student who has been convicted by a court-martial or civilian court for any offense will not be accepted for CSP/POC membership without a waiver (§ 870.86).

(c) *Medical qualification.* As provided in AFM 160–1, Medical Examinations and Medical Standards, except for GMC cadets (§ 870.84).

(d) *Academic requirements.* For CSP and POC membership, a student must meet and maintain minimum requirements for good academic standing in the institution. Nurse candidates must also meet and maintain a minimum 2.5 cumulative grade point average on the scale A=4.0. Physician candidate must also meet and maintain a minimum 3.65 cumulative grade point average on the scale A=4.0. (§ 870.86 contains waiver authority.)

(e) *Enrollment.* A member must maintain full-time enrollment in an AFROTC host institution or an institution having an approved agreement with an institution hosting AFROTC. Enrollment with less than the normal number of credit hours can be approved by the Commandant, AFROTC (§ 870.86). Undergraduate students will not be denied the opportunity to enroll in AFROTC solely because of their major course of study.

(f) *Elimination from service academies or other officer training programs.* Students who attended officer commissioning programs must be granted a waiver before entering AFROTC (§ 870.86). Applicants may be enrolled in nonmembership (pursuing or special student) status pending waiver determinations. Pending waiver evaluation, 2-year program designated applicants may attend 6-week field training if recommended for further officer training on DD Form 785, Record of Disenrollment from Officer Candidate Type Training.

(g) *Ineligibility for reenlistment.* A former serviceman whose DD Form 214, Report of Separation from Active Duty, for the last period of service contains entries which render him ineligible to enlist in the Regular Air Force (Part 888 of this chapter) is not eligible for membership in the POC or CSP.

(h) *Loyalty requirements.* No U.S. citizen may be accepted as a member of AFROTC or wear the AFROTC uniform who fails to fulfill the following:

(1) *For GMC, CSP, and POC.* Be administered and sign the Oath of Allegiance. The student must be administered and sign the following certificate which becomes part of the individual's record (the student may because of conscientious scruple, substitute "affirm" for "swear"):

I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign or domestic; that I will bear true faith and allegiance to the same; and that I take this obligation freely, without any mental reservations or purpose of evasion.

(2) *For CSP and POC.* Complete and submit DD Form 398, Statement of Personal History, in accordance with AFR 205–32, USAF Personnel Security Program.

(i) The student must file the DD Form 398 in advance of scheduled membership or attendance at 6-week field training, whichever occurs earlier.

(ii) If an applicant for the POC or CSP fails or refuses, after instruction, to fill out DD Form 398 in its entirety, the PAS denies the applicant membership as a contract cadet. Also, if an individual makes entries on this form which provide reason to believe that enrollment is not clearly consistent with the interests of national security, the PAS denies the individual membership or appointment until a full and complete investigation discloses that membership or appointment is not prejudicial to the national interest.

(i) *Illegal or improper use of drugs.* Prior to enlistment for entry into the CSP or POC each applicant executes AF Form 2061, USAF Drug Abuse Certificate (Appointment/Officer Training Applicants Only). AF Form 2031, Drug Abuse Circumstances, must be accomplished if the applicant fails to certify to no prior drug abuse on AF Form 2061. The PAS will discuss these forms with the applicant and explain the specific meaning of the terms used.

(j) *Assignment restrictions.* The PAS counsels each POC and CSP applicant regarding the possibility that future duty with the Air Force may involve being associated with nuclear weapons systems. Applicants whose convictions do not allow them to accept such assignments or to accept worldwide assignment, including combat duty, are identified, if possible, and denied membership.

§ 870.24 Conditional membership.

The Commandant, AFROTC, prescribes procedures which allow the PAS to place a student in conditional membership either upon initial enrollment in the POC or during tenure as a POC or CSP cadet when full membership is not possible. This conditional status is designed to permit correction of deficiencies (academic or otherwise) within a specified period of time to preclude disenrollment from the program. Each conditional cadet acknowledges in writing understanding of the restrictions and requirements of conditional cadet status. Normally, this status is authorized only when the circumstances dictating conditional status will be removed in one academic term (semester, trimester, quarter, term). An individual who is on academic probation or not in good standing in the institution normally will not be designated as a conditional member for initial enrollment in contract cadet status; however, upon favorable recommendation from AFROTC, AU may grant a waiver in appropriate cases (§ 870.86, line 5).

§ 870.26 Concurrent enrollment in aerospace studies.

(a) *General Military Course (GMC).* The PAS may concurrently enroll a cadet in two GMC courses for a period not to exceed one academic year provided he obtains the same number of classroom and corps training hours as other GMC cadets at the same institution.

(b) *Professional Officer Course (POC):*

(1) The PAS may authorize concurrent enrollment provided the cadet's tenure will not be reduced to less than two years, for cadets who:

(i) During portions of the program, are absent from campus because of institutional, State Department, industry, or other approved programs;

(ii) Are enrolled in an AFROTC (officer-taught) POC course and a civilian-taught course approved under an alternate curriculum arrangement.

(2) The Commandant, AFROTC, may authorize concurrent enrollment as specified in § 870.86.

§ 870.28 Who may not be AFROTC members.

(a) Commissioned officers (present or former) of any component of the Army, Navy, Air Force, Marine Corps, Coast Guard, or Merchant Marine.

(b) Officers of the Public Health Service.

(c) Members of the National Oceanic and Atmospheric Administration (NOAA).

(d) Members on active duty in any military service. (Air Force enlisted members with a minimum of one year of active duty are eligible to compete for AFROTC scholarships. If selected, they are discharged from active duty and enlisted in the Air Force Reserve.)

(e) Conscientious objectors.

§ 870.30 Investigative requirements.

The Commandant, AFROTC, establishes procedures to insure that all contract cadets meet the following investigative requirements:

(a) An NAC is requested during the first academic term of membership as a contract cadet. NACs will not be requested on cadets who have previous investigations which are current as defined in AFR 205–32, USAF Personnel Security Program, nor will NACs be requested on cadets who are required to have a BI under the provisions of paragraph (b) of this section.

(b) A BI must be completed and a favorable decision rendered before any designated applicant or CSP designee of the GMC may be enlisted if the individual has:

(1) Traveled or resided in one or more communist or communist-oriented countries listed in AFR 205–32, attachment 6, for more than 30 consecutive days, not under the auspices of the U.S. Government.

(2) A spouse, parent, brother, sister, or offspring currently residing in any country listed in AFR 205–32, attachment 6.

(3) Made entries or deletions on DD Form 398 indicating that enlistment may not be clearly consistent with the interests of national security. (AFR 205–32, attachment 4).

NOTE: The PAS may permit 2-year program designated applicants to attend 6-week field training pending completion of a BI.

§ 870.32 Contract cadets.

The Commandant, AFROTC, establishes procedures for classifying contract cadets according to Air Force requirements, qualifications of the individuals, and the cadets' desires.

(a) *Classification of contract cadets—*(1) *Category I.* Cadets who qualify and volunteer for flying training or missile launch officer duty.

(i) *IP—Pilot Candidate.* A candidate may not be classified IP if he has ever

V 40 16 JAN 23 75 XUM

been eliminated from a military pilot training course or the Flight Instruction Program of the Army, Navy, or Air Force.

(ii) *IN—Navigator Candidate.* A candidate may not be classified IN if he has ever been eliminated from a military navigator-type training course.

(iii) *IM—Missile Duty Candidate.* A male cadet not in category IP or IN who volunteers to be assigned to missile launch officer duty upon entry on active duty.

(2) *Category II.* Cadets not in Category I who are enrolled in a college program leading to at least a bachelor's degree with an academic major in specified scientific or engineering curriculums.

(3) *Category III.* Cadets not in Category I who are enrolled in a college program leading to at least a bachelor's degree with an academic major in other than those scientific or engineering curriculums specified in Category II.

(b) *AF Form 1056 and AF Form 1448.* Each contract cadet is required to sign four copies of an AF Form 1056 or AF Form 1448, as appropriate, which becomes effective upon the member's enlistment in the USAFR (ORS). The PAS insures that each cadet fully understands the terms of the contract. Disposition of the copies is as follows:

(1) Two copies are retained by the PAS and later forwarded to the Air Reserve Personnel Center through AFROTC as an attachment to the individual's application for appointment. Upon appointment, one copy is placed in the officer's Master Personnel Record (MPerR) and one in the Unit Personnel Record Group (UPRGp). If the cadet is disenrolled from AFROTC for any reason before commissioning, these copies may be used as supporting documents to the disenrollment investigation, if conducted, or retained for a specified period.

(2) One copy is furnished the member.

(3) The remaining copy is filed in the individual's AFROTC Cadet Record.

(c) *Acceptance of educational delay.* Cadets granted educational delays according to Part 875 of this chapter must, if they have not already done so, sign an AF Form 1056 specifying a date of separation (DOS).

§ 870.34 In-phase admission to the POC.

Admission to the POC is normally phased so that completion of the POC does not occur before completion of the requirements for a bachelor's degree. The Commandant, AFROTC, may prescribe exceptions to this policy (§ 870.84, note 12).

§ 870.36 Completed cadet status.

Completed cadet status is authorized for contract cadets who will complete bachelor's degree requirements within 12 months after completion of the AFROTC program. This status is authorized for contract cadets who have completed the AFROTC program and have been awarded a bachelor's degree but are temporarily ineligible for a commission due to involvement with civil authorities (§ 870.72(e)), medical disqualification including pregnancy, or other cogent reasons. Students who have completed the AFROTC program and have been awarded a bachelor's degree or who require completed status in excess of 12 months are not retained in completed status without appropriate waiver (§ 870.86 gives waiver authority).

§ 870.38 Alien students.

(a) *Who may participate in AFROTC.* Aliens as defined in paragraphs (a)(1) through (3) of this section, are authorized to participate in the GMC and POC provided they are enrolled full time at a school hosting an AFROTC program or having a cross-town agreement or consortium arrangement.

(1) Immigrants, regardless of their country of origin, who have been lawfully admitted for permanent residence in the United States and have in their possession Immigration Form I–151, Alien Registration Receipt Card.

(2) Refugees still in a parole, conditional entry, or indefinite voluntary departure status, regardless of their country of origin, and:

(i) They have in their possession Immigration Form I–94, Arrival/Departure Record, bearing an Immigration and Naturalization Service stamp reading, Refugee-Conditional Entry, or,

(ii) They are Cuban nationals who have in their possession Immigration Form I–94 endorsed by the Immigration and Naturalization Service to reflect either that they have been paroled into the United States for an indefinite period or have been granted "voluntary departure" for an indefinite period; or.

(iii) The Immigration and Naturalization Service has confirmed in writing that the alien is a refugee.

NOTE: A refugee is classified as an immigrant once he has been accepted for permanent residence and is issued an Immigration Form I–151.

(3) Nonimmigrant aliens, from countries shown on the list of countries approved by the Department of State whose citizens are eligible, may participate in the Senior ROTC program. An individual in this status has acknowledged that he does not intend to apply for U.S. citizenship. (The Commandant, AFROTC, is furnished and retains custody of the list of countries approved by the Department of State. This list is distributed on a "need-to-know" basis only.) The individual must:

(i) Have an Immigration Form I–94.

(ii) Present to the Commandant, AFROTC, certification that his government has no objection to his receiving AFROTC training, or have in his possession Immigration Form I–94 stamped "paroled indefinitely" or "indefinite voluntary departure."

(b) *Enrollment limitations:*

(1) HQ, USAF may limit alien enrollments of other than nonimmigrant aliens.

(2) Active recruiting of nonimmigrant alien students for the AFROTC program is prohibited.

(3) Alien students are eligible for enrollment in both the 2- and 4-year programs, and may be extended the advantages of membership thereof, except that they:

(i) May not receive a Selective Service deferment.

(ii) Will not be enlisted in the United States Air Force Reserve.

(iii) Will not be administered the Oath of Allegiance.

(iv) Are ineligible for monetary assistance under the CSP.

(v) Will not be paid subsistence allowance prescribed by 37 U.S.C. 209(a).

(vi) Are ineligible for U.S. Air Force commissioning through the AFROTC program while still in alien status. (The Commandant, AFROTC, establishes procedures to insure that each alien student understands and acknowledges that participation in and completion of AFROTC will not result in appointment as a Regular or Reserve officer of the United States Air Force.)

(4) Alien students will not be charged against the AFROTC enrollment limitations prescribed by HQ, USAF.

(c) *Entitlements.* Alien students participating in AFROTC are entitled to:

(1) Wear the uniform. Institutions may be provided commutation funds at the rates prescribed by Part 874 of this chapter in lieu of issue-in-kind uniforms. The student must return uniform items to the institution upon completing the program or withdrawing from it.

(2) The same subsistence-in-kind furnished other enrollees as prescribed by 10 U.S.C. 2110(c).

(3) The same subsistence, transportation, medical attention, uniform clothing, and equipment furnished other enrollees while participating in field training (10 U.S.C. 2109(b)).

(4) Pay at the rate prescribed for cadets at the U.S. Air Force Academy (37 U.S.C. 209(c)), when participating in field training.

(d) *Attendance at field training:*

(1) Immigrants participating in the 4-year program are permitted to attend 4-week field training only if they are admitted to membership.

(2) Immigrants who apply for entry into the 2-year program are permitted to attend 6-week field training provided it can be reasonably assumed that they will qualify for membership prior to completion of the POC.

(3) Nonimmigrant aliens may attend either 4- or 6-week field training as normally scheduled.

(e) *Eligibility for membership.* Immigrants who become naturalized citizens of the United States may compete for GMC, POC, or CSP membership in the same manner as any other applicant and may request accreditation of successfully completed course work and corps training while in alien student status, in accordance with § 870.86, line 7. They are not authorized retroactive subsistence pay for any period of participation in the POC before attaining membership.

Subpart C—Selective Service Deferment of AFROTC Members and Designated Applicants

§ 870.40 Military colleges participating in the AFROTC program.

A member of an officer procurement program at a military college is not required to register under the Military Selective Service Act of 1967. Moreover, he is relieved from liability for training and service and, therefore, need not execute AF Form 1041, Deferment Agreement. The curriculum of the military college the student attends must be approved by the Secretary of Defense. Virginia Military Institute, The Citadel, and Norwich University, approved and designated as military colleges by the Secretary of Defense, participate in the AFROTC program. Membership in the AFROTC program at these institutions serves as the basis for ID classification.

§ 870.42 Deferment selection criteria.

The PAS at other than military colleges (§ 870.40) selects individuals for a deferment as follows:

(a) All members who have registered with Selective Service, have not completed their Military Service Obligation, and who are admitted to the:

(1) GMC as nonscholarship cadets are given a deferment at the time of enrollment in their first Aerospace Studies Course, if they so elect, or any time thereafter at the cadets' requests so long as they remain members of the GMC.

(2) POC under 10 U.S.C. 2104 or the CSP under 10 U.S.C. 2107 are given a deferment or have it continued if one is in force at the time the AFROTC Category Agreement becomes effective.

(b) All other male members who are not of draft age and who are:

(1) Scholarship cadets or nonscholarship POC cadets are given a deferment at the time they register with Selective Service.

(2) Nonscholarship GMC cadets are given a deferment at the time they register with Selective Service, if they so elect, or any time thereafter at the cadets' requests so long as they remain members of the GMC.

(c) Pursuing students may be deferred.

(d) GMC cadets who are members of a Reserve or National Guard unit need not be deferred, but are reported according to § 870.56.

§ 870.44 Delay of induction.

(a) Designated applicants and 4-year CSP designees may not be deferred; however, their Selective Service boards may be requested to delay their induction pending enrollment as follows:

(1) *Designated applicants.* A letter is sent once the individual is selected by the PAS as a designated applicant, but no earlier than the beginning of the spring term prior to the individual's scheduled enrollment in the POC.

(2) *Four-year CSP designees.* The PAS notifies the Selective Service board once it is determined that the individual requires a letter to permit his enrollment.

(b) If the designated applicant or CSP designee withdraws from consideration, the PAS must notify the board accordingly, by letter.

(c) If the individual's board fails to honor the letter, the PAS may report the fact to AFROTC, who will in turn contact AFMPC if additional action is required.

§ 870.46 Length of deferment.

An individual's deferment normally remains in effect until he successfully completes the AFROTC program and accepts a commission. If he is disenrolled from AFROTC membership, his deferment is terminated immediately unless he is recommended for involuntary call to extended active duty (EAD) in his enlisted grade.

§ 870.48 Actions required for deferment.

(a) The PAS (or designated representative) will explain the following to the member:

(1) His military service obligation.

(2) The contractual obligation he assumes by signing AF Form 1041. Specifically, he agrees to accept an appointment, if offered, as a commissioned officer in the Air Force, and if:

(i) His services are required at the time of his appointment, he will serve on active duty for a minimum of two years and remain a member of a Regular or Reserve component until the sixth anniversary of his commission. (The 6-year requirement applies notwithstanding the fact that the individual may have fulfilled the military service obligation specified in 10 U.S.C. 651.) Also, the active duty service commitment indicated in his AF Form 1056 takes precedence over the 2-year minimum prescribed by the Military Selective Service Act of 1967.

(ii) His services are not needed on active duty when he is appointed, he will serve on active duty for training for a period of three to six months and remain a member of a Reserve component until the eighth anniversary of his commission.

(3) That if his ID classification is changed by his local Selective Service board, he must immediately:

(i) Notify the PAS.

(ii) Submit a written appeal of his classification to his local Selective Service board.

(b) The member certifies that he:

(1) Agrees to the provisions of AF Form 1041 by signing it.

(2) Understands that signing the AF Form 1041 does not relieve him of his obligation of keeping his local Selective Service board informed of his status.

§ 870.50 Notifying Board of deferments and transfers.

(a) After the individual has completed and signed the AF Form 1041, the PAS will notify the local Selective Service Board when the individual:

(1) Enrolls in the GMC.

(2) Enrolls in the POC in pursuing student status.

(3) Is enlisted in the USAFR (ORS).

(4) Is gained through transfer.

(b) If the individual's board fails to honor the DD Form 44, the PAS will report the facts to AFROTC, who contacts AFMPC if additional action is required.

§ 870.52 Notifying Board of change of deferment status.

If there is a change in an individual's deferment status:

(a) The PAS is responsible for notifying the Selective Service System of changes of deferment status of all individuals who are disenrolled from membership for reasons other than commissioning.

(b) ARPC is responsible for advising Selective Service boards as follows:

(1) *AFROTC graduates.* A revised DD Form 44 will be forwarded to the AFROTC graduate's local Selective Service board immediately after appointment as a Reserve officer, indicating the date the registrant was commissioned.

(2) *Former AFROTC contract cadets awaiting orders to involuntary EAD in their enlisted grade.* Individual will be retained in a deferred status until ordered to EAD in his enlisted grade. DD Form 44 will be prepared and forwarded as prescribed by AFR 35–41, Participation and Assignment Within the Reserve Component, for other members of the Air Reserve Forces who are serving in a draft deferred status (obligors who have not served on active duty other than for training for at least one year). If the individual is discharged from the Reserves before his EAD date for medical reasons, the DD Form 44 will be attached to a copy of the SF 88 serving as the basis for the medical disqualification.

(3) *Members disenrolled from AFROTC and approved for discharge.* A revised DD Form 44 will be forwarded to the individual's local Selective Service board immediately after discharge, indicating the effective date the registrant was discharged. For a nonprior service cadet, the statement, "Individual is eligible for service under appropriate Selective Service directives. He has no prior active military service.", will be included.

§ 870.54 Transfer procedures.

On transfer of a member to another institution and enrollment into the AFROTC, the gaining PAS will prepare a revised DD Form 44, entering the member's new unit and location, and forward it to the local Selective Service board with which the member is registered, requesting that the previously submitted form be rescinded.

Subpart D—Special Procedures

§ 870.56 Participation and assignment in the Reserve establishment or National Guard.

(a) Members of the GMC who are not members of the CSP may participate in any element of the Reserve establishment or National Guard. At the end of each calendar year the PAS furnishes the cadet's unit of assignment a statement

V40-16 JAN 23 75 XUM

that participation in the AFROTC program has been satisfactory or unsatisfactory.

(b) If a member of the Reserve ceases to participate in AFROTC or is disenrolled from GMC membership, the PAS notifies the cadet's unit of assignment.

§ 870.58 Enlistment of a reservist from another service.

For a reservist of another armed service (including the Air National Guard), the PAS will:

(a) Request the individual's Reserve unit of assignment to grant a conditional release as a prerequisite to enlistment in the United States Air Force Reserve (USAFR) (ORS) and admission to membership in the CSP/POC.

(b) Upon receipt of the conditional release, enlist the individual under Part 888d of this chapter, and assign him to ARPC (ORS) (AFROTC) and attach him to the AFROTC detachment concerned.

(c) Forward the cadet's records to ARPC.

(d) Notify the releasing service that the individual is enlisted.

§ 870.60 Credit for previous education, training, and experience.

(a) A cadet may be credited with a portion or portions of the GMC or POC as shown in § 870.88.

(b) Credit may not be granted for ROTC training received at any institution that did not have a commissioned officer of the military forces (active or retired) assigned by orders of a military department as a Professor of Military Science, Professor of Naval Science, or Professor of Aerospace Studies.

§ 870.62 Transfer of ROTC cadets.

(a) Interservice transfer between Army ROTC and Air Force ROTC is authorized under the conditions in paragraphs (a) (1) and (2) and this section.

(1) Students may transfer between the Army ROTC and the Air Force ROTC at any time prior to admission to the advanced course with the approval of the Professor of Military Science (PMS) and the PAS concerned.

(2) Students who are enrolled in the advanced course are permitted to enter the advanced course of the other service subject to the approval of the PMS, PAS, army commander and the Commandant, AFROTC, if fully qualified in accordance with the standards and requirements of the service to which they desire to transfer.

(b) Transfer of AFROTC cadets between detachments is authorized. When a contract cadet transfers to another detachment, the PAS of the losing detachment will publish a Reserve Order confirming the transfer and provides a copy to ARPC.

(c) There is no formal agreement between the Air Force and the Navy regarding transfer of contract cadets; each such case is submitted to AFROTC for individual evaluation.

Subpart E—Disenrollment and Discharge

§ 870.64 Disenrollment of member from the AFROTC program.

(a) The Commandant, AFROTC, may disenroll a cadet from the GMC (with the concurrence of institutional authorities if required), disenroll a POC cadet from membership, or withdraw a cadet from the CSP for any of the reasons in paragraphs (a) (1) through (5) of this section:

(1) Inability, without discredit, to continue regular enrollment in the institution.

(2) Failure to remain medically qualified for commissioning.

(3) Failure to maintain acceptable retention standards under the prescribed competitive criteria.

(4) Individual's request for release for justifiable reasons.

(5) Inaptitude, indifference to training, breach or anticipatory breach of the terms of the category agreement, disciplinary reasons, reasons involving undesirable traits of character, or declining to accept a commission.

(b) The Commandant, AFROTC, may delegate to the PAS the authority to disenroll cadets and/or withdraw them from the CSP.

(c) When the PAS initiates a disenrollment action on a contract cadet for any of the reasons in paragraph (a) (3) through (5) of this section, the PAS appoints a commissioned officer (on active duty) to investigate the case and submit a written report. When the investigation is conducted because the student may be found to be in violation of the category agreement, at least one university official (an administrator or faculty member appointed by the institution) is permitted to observe the investigation or consult in the review if the university desires.

(EXCEPTIONS. Appointment of an investigating officer and a written report are not required: (1) In disenrollment actions taken under paragraph (a) (3) of this section, where failure to maintain academic retention standards is documented and the individual is on academic/scholastic probation for consecutive academic terms, or when the individual is forced to leave school because of academic suspension; (2) When HQ, USAF, AU, or the Commandant, AFROTC, reviews a cadet's records and directs disenrollment; (3) When a GMC member of the CSP is disenrolled and the individual did not receive a scholarship through the competition open to active duty airmen.)

§ 870.66 Discharge from the United States Air Force Reserve.

Cadets disenrolled from the CSP/POC will be discharged from the USAFR (ORS) unless reported for involuntary call to extended active duty under Part 888d of this chapter.

§ 870.68 Notifying ARPC of disenrollments.

A roster of cadets and disenrolled cadets qualified for discharge under Part 888d of this chapter is submitted by the Commandant, AFROTC, to ARPC/DPAAD at least once a week. The Commandant, AFROTC, determines if disenrollment was the result of indifference to training, disciplinary reasons, breach or anticipatory breach of the terms of the category agreement, or declining to accept a commission; the names of such individuals are reported to ARPC/DPRP for involuntary order to active duty, as prescribed in Part 888d of this chapter.

Subpart F—Readmission

§ 870.70 Readmission.

The Commandant, AFROTC, prescribes policy and procedures for readmitting individuals for program completion and commissioning in the U.S. Air Force. This readmission is restricted to persons disenrolled for the reasons stated in paragraph (a) (1) through (4) of § 870.64. A cadet is disenrolled for any of the reasons in paragraph (a) (5) of § 870.64 is ineligible to reenroll in any Air Force officer procurement program or to be appointed in any Air Force component unless waiver is authorized (§ 870.86).

Subpart G—Appointment and Assignment of Graduates

§ 870.72 Appointment of graduates.

Membership in the program in itself does not constitute a right to a commission in any Air Force component. The Commandant, AFROTC, shall appoint as a second lieutenant a contract cadet who has successfully completed the military and academic requirements of the program once the cadet has received a bachelor's degree or an authorized institutional official certifies that the individual has qualified for a degree which will be conferred at a later date, provided the cadet is otherwise qualified and is not to be released to another service under § 870.78.

(a) Cadets granted scholarships as physician candidates are tendered a line appointment upon successful completion of AFROTC and academic requirements. Reappointment in the Medical Service Corps will be accomplished upon entering a medical school acceptable to the Surgeon General. If such a scholarship cadet is admitted into an acceptable medical school prior to completing undergraduate degree and/or AFROTC requirements, the individual will be disenrolled under the provisions of paragraph (a) (4) of § 870.64 effective the day prior to appointment in the Medical Service Corps. In any event, failure to become enrolled in an acceptable medical school within one year of graduation will result in the officer retaining a line appointment and serving on active duty in an appropriate Air Force specialty.

(b) Nurse candidates are not tendered a line appointment. Upon completion of nurse licensing requirements, each nurse is tendered an appointment in the USAF Nurse Corps.

(c) The date of rank of May and June appointees in any year is the same as the graduates of the United States Air Force Academy.

(d) The Commandant, AFROTC, may not commission in the Reserve of the Air Force without a waiver from HQ, USAF, a former Service Academy cadet (including Coast Guard and Merchant Marine) prior to the commissioning date of his Service Academy ex-classmates (§ 870.86).

(e) If a student becomes involved with civil authorities, and criminal charges (except minor traffic violations) are filed or pending, the student must not be commissioned until final disposition of the case is made. If criminal charges are not expected to be disposed of within 120 days after the cadet's scheduled commissioning date, a complete case file will be forwarded to AFMPC for waiver determination.

(f) Each POC cadet must recertify the AF Form 2061 as prescribed in AFR 30–19, Illegal or Improper Use of Drugs, before appointment.

§ 870.74 Extended active duty for AFROTC graduates.

A contract cadet receiving an Air Force commission normally enters active duty within one year of graduation, unless a delay is approved under Part 875 of this chapter or the cadet has contracted for service in the Reserve Forces. A graduate must serve the period specified on the AF Form 1056 under which originally appointed, even though the individual may be reappointed later (such as a commissioned officer in the Medical Corps, Nurse Corps, Medical Service Corps, or Biomedical Sciences Corps). This part is authority for ordering AFROTC graduates to initial active duty. AFR 45–26, Voluntary Entry on Extended Active Duty (EAD) of Commissioned Officers of the Reserve Forces, authorizes higher temporary grades in which certain officers may be entitled to enter active duty.

§ 870.76 Distinguished graduates.

The Commandant, AFROTC, may designate up to 20 percent of the best qualified AFROTC graduates as Distinguished Graduates (DGs) during each fiscal year provided the quality of the student body is sufficiently high. To insure that only the highest quality students in the entire program are designated as DGs, the percentage of graduates from each school may vary. However, the total number of graduates designated during any fiscal year may be no more than 20 percent of the combined total number of graduates of that year.

§ 870.78 Release of AFROTC graduates for appointment in another service.

An AFROTC graduate who meets eligibility requirements listed in this section may be released from the Air Force to accept an appointment as a commissioned officer in the Army or the Marine Corps. The Navy does not offer direct appointments to ROTC graduates of another service.

(a) *Eligibility.* In addition to meeting normal eligibility requirements for an Air Force commission, a cadet must either have served one year on active duty in the service in which an appointment is desired, or the cadet's parent must be an active or retired member of that service (or have died while an active or retired member). Except in unusual cases, the Marine Corps approves only applications from distinguished cadets or distinguished graduates who have reached their 20th birthday, but not their 25th birthday as of July 1 of the calendar year in which they are to be appointed.

(b) *Application procedures:*

(1) Applications will be submitted to the PAS and will include:

(i) Reason for requesting selected service.

(ii) Reasonable proof that applicant meets eligibility requirements.

(iii) College transcripts.

(iv) Full length photograph of the applicant in uniform without a cap.

(v) Results of physical examination (SFs 88 and 93).

(2) The Commandant, AFROTC, may grant a conditional release to eligible applicants. The release and the applications are forwarded to the Department of the Army, The Adjutant General, or to the Commandant of the Marine Corps, as appropriate.

§ 870.80 Air Force appointment of ROTC graduates from another service.

An ROTC graduate of another service may be appointed as a commissioned officer in the Air Force, provided the individual meets eligibility requirements listed in this section and is granted a conditional release from the releasing service. Approved applicants are ordered to active military service with the Air Force as Reserve of the Air Force officers and are required to serve at least four years of active service before becoming eligible for separation or release from active duty. Applicants for flying training are required to serve five years of active service after award of aeronautical rating.

(a) *Eligibility.* An applicant must meet minimum AFROTC eligibility requirements for an Air Force commission as outlined in Part 881d of this chapter and this part. Applicant must either have served one year on active duty in the Air Force or the applicant's parent must be an active or retired member of the Air Force (or have died while an active or retired member).

(b) *Application procedures.* A cadet who desires appointment in the Air Force must apply, using regulations of the releasing service. However, the Air Force requires before commissioning and entry on active duty:

(1) Reasonable proof that applicant has served one year on active duty in the Air Force or that the applicant's parent is or has been a career active duty member of the Air Force. If applicant has prior active military service in the Air Force, a copy of DD Form 214, Report of Separation from Active Duty, is required.

(2) An AF Form 24, Application for Appointment as Reserves of the Air Force or USAF Without Component, in duplicate.

(3) AF 88 and SF 93, in duplicate. Flying training applicants must be administered a flight physical by an Air Force Flight Surgeon or Flight Medical Officer (class I for pilot—class IA for navigator).

(4) The results of the Air Force Officer Qualifying Test (any Air Force recruiter will schedule testing).

(5) A DD Form 398, in duplicate.

(6) Transcripts of college work, as evidence of the applicant's educational level.

(7) Evidence of favorable completion of a BI or NAC, date completed, and location filed.

(8) Men applicants who have not attained their 26th birthday and who have had no prior military status, must submit statement required by Part 881 of this chapter.

(9) An applicant who is not a citizen of the U.S. by birth must submit statement required by Part 881 of this chapter.

(10) Recommendation of the Professor of Military or Naval Science.

(11) An Active Duty Service Commitment Statement of Understanding, dated and signed by the applicant.

(12) An AF Form 2061 and, if required, AF Form 2031.

Subpart H—Tables

§ 870.82 Eligibility criteria for establishment of an AFROTC unit.

Line	An educational institution must—	And meet the following minimum standard—
1	Apply in writing to the Commandant, AFROTC, Maxwell Air Force Base, Ala. 36112.	
2	Be fully accredited by the appropriate regional authority.	
3	Agree to establish a Department of Aerospace Studies as an integral academic and administrative department of the institution.	As a descriptive term for the ROTC educational activity on campus, the word "Program" is acceptable instead of "Department" provided no extracurricular connotation is involved. The term "Program," in this sense, would be applied to AFROTC in the same manner as other academic programs within the institution.
4	Agree to provide adequate physical facilities	Make available to the Department of Aerospace Studies the necessary classrooms administrative offices, storage space, Government vehicle parking areas, staff parking areas and other required facilities in the same manner and at the same level as is provided to other departments of the institution. Parking space for Government vehicles will be provided without charge.
5	Agree to provide adequate administrative support.	Provide adequate secretarial, janitorial, and telephone services to the Department of Aerospace Studies on the same basis as is provided to other departments within the institution.

V40-16 JAN 23 75 XUM

Line	An educational institution must—	And meet the following minimum standard—
6	Confer academic rank on AFROTC personnel.	Give the senior commissioned officer of the AFROTC unit the academic rank of professor, including appropriate prerogatives and prerequisites (except tenure) associated with the position of a professor as head of a department or program at the institution. (Other AFROTC officers will be evaluated by the host institution for appropriate academic rank using procedures comparable to those used for their civilian faculty colleagues.) As an alternative to the title of professor for the senior commissioned officer of the AFROTC unit, the most complimentary title is the officer's military title. Other titles, such as Visiting Professor, are acceptable provided the prerogatives and prerequisites of professorial rank (excluding tenure) accompany the position, and the title is not demeaning or indicative of some lesser status.
7	Adopt as part of its curriculum a 4-year course of military instruction or a 2-year course of advanced military instruction, or both, which the Secretary of the Air Force prescribes and conducts. Student enrollment shall be elective or compulsory as provided by state law or the institution.	Require each student enrolled in any of the programs to devote the number of class hours to Aerospace Studies prescribed by the Secretary of the Air Force. (See note.)
8	Arrange for the scheduling of Aerospace Studies classes to make it equally convenient for students to participate in the academic offerings of the Air Force Reserve Officers' Training Corps program as in other courses at the same educational level.	
9	Grant appropriate academic credit applicable toward graduation for the successful completion of courses offered by the Department of Aerospace Studies.	The amount of credit should be determined by the institution on a basis equitable with the award of credit for other institutional courses requiring similar expenditures of student time and effort. Such credit should apply toward graduation requirements, as elective or required course credit, and be included in the computation of the grade-point-average.
10	Be capable of producing a sufficient number of officers to justify Department of Defense resources invested, considering (among other factors) the number of students enrolled who are prospective officer candidates and the proportion of each entering academic class that normally receives degrees from the institution.	First year POC enrollment in AFROTC courses (AS 300) should be at the following level, as a minimum: 17 cadets by the fall of the unit's third year of existence, where the institution prescribes a 4-year or combination 4- and 2-year program. 12 cadets by the fall of the unit's second year of existence, where the institution prescribes a 2-year only program.
11	Certify that it does not discriminate with respect to admission or subsequent treatment of students on the basis of race, creed, sex or national origin.	Warrant and represent that it does not, and will not discriminate in any way with respect to the admission or subsequent treatment of students on the basis of sex (except religion-sponsored institutions), race, color, or national origin. It is further mutually agreed that a violation of this covenant, as determined by the Secretary (or appropriate designee), may be regarded as a breach of the AFROTC contractual agreement, justifying termination thereof, at no cost to the Government, by the Secretary (or designee).

NOTE: The Air Force will cooperate with institutional standing committees on ROTC to develop a program of instruction consistent with the goals of both parties, but cannot accept changes inconsistent with the law of Department of Defense policies.

§ 870.84 Eligibility requirements for admission to membership in AFROTC.

Line	An individual must—	If he desires to participate in— GMC (AS 100 AS 200)	FT	POC (Note 1) (AS 300 AS 400)	CSP (Notes 1 and 2)
1	Be a full time student	X		X	X.
2	Be of good moral character and be medically qualified under AFM 160-1, "Medical Exams and Medical Standards."	(Note 3)	X	X	X.
3	Execute the Oath of Allegiance	X	X	X	X.
4	Be a U.S. citizen	X	X (note 4)	X	X.
5	Enlist in the USAFR (note 5)			X	X.
6	Not be a conscientious objector	X (note 6)	X	X (note 6)	X.
7	Have attained age of 14	X			
8	Have attained age of 17		X (note 7)	X (note 8)	X (note 9).
9	Sign Deferment Agreement (Military colleges and women excepted).	(Note 10)	X	X	X.
10	Execute AFROTC contract (AF Form 1056/AF Form 1448), with parental consent if under 21 years of age.		X	X	X.
11	Be enrolled in the 4-year program	X			
12	Successfully complete any preselection survey, procedure, or screening device prescribed for entry into the desired category.		X (note 11)	X (note 11)	X (note 11).
13	Meet the 2 academic years remaining requirement at time of enrollment.			X (note 12)	
14	Be in good academic standing and not be on academic probation.		X	X (note 13)	X.
15	Successfully complete or receive credit for the GMC or successfully complete 6-week FT.			X	
16	Execute USAF Drug Abuse Certificate (note 14)		X	X	X.

NOTES 1. A former member of a service academy (including Coast Guard and Merchant Marine Academies) is ineligible unless a waiver is granted per § 870.86. He may be enrolled as a pursuing student and be deferred subject to the restriction of § 870.86, line 2.

2. Cadets in the 2- and 4-year programs are eligible for membership in the CSP. Cadets initially becoming scholarship recipients at the AS 300 level must have completed the GMC, received GMC credit under § 870.86, or completed the 6-week field training. Cadets initially becoming scholarship recipients at the AS 200 level must be capable of completing the GMC before entry into the POC. Students enrolled in law school are prohibited from the CSP by the Defense Appropriation Act.

3. For GMC cadets, enrollment in the institution is considered as evidence of good moral character. Medical qualification is determined by authorities of the institution for GMC cadets.

4. See § 870.38(d) for exceptions.

5. If already a member of any Reserve component of any military department, including the USAFR, must be discharged and reenlist in the USAFR (ORS) or transfer to the USAFR (ORS).

6. An individual who claims to be a conscientious objector will be denied membership, but may participate as a special student.

7. Individuals may attend field training if they will attain the age of enlistment before entry into the POC.

8. Must be able to complete all requirements for appointment by age 26½ if a Category IP or IN and by age 30, if Category IM, II, or III. The Commandant, AFROTC, may waive the maximum age restriction for outstanding and deserving cadets, provided the Category IP or IN cadet is commissioned and entered into flying training by age 27½; may also waive the maximum age restriction for Category IM, II, or III cadets who were scheduled for commissioning by age 30 but because of unusual circumstances were not appointed. Commissioning must occur before a cadet attains the age of 32.

9. Must be able to complete all Aerospace Studies courses, prescribed field training, and degree requirements and not have reached 25th birthday by June 30 of the calendar year in which eligible for appointment. (This requirement is statutory and cannot be waived.)

10. Provisions for deferments for GMC members are stated in § 870.42.

11. Applicants for the POC or CSP are administered the AFOQT and their scores are evaluated as part of the selection process. Category IP and IN applicants must attain qualifying scores as prescribed by AFR 51-4, "Application Procedures for Undergraduate Pilot Training (UPT) and Undergraduate Navigator Training (UNT)". Nurse candidates for participation in FT or the POC are also required to submit recommendations from the Dean (or other designated official) of the nursing school, two faculty members (nursing faculty preferred), and a nurse coordinator for the geographic area in which the school is located.

12. Undergraduate students having less than two academic years remaining before graduation and graduate students may be selected for the POC if they have two academic years remaining on campus. However:

(a) Approval of AFMPC must be obtained before selection of students who will require an educational delay (Part 875 of this chapter) of more than 12 months to complete the advanced degree program in which they will be enrolled at the time of commissioning.

(b) Applicants must sign a statement acknowledging that the needs of the Air Force are paramount and no guarantee of assignment in or related to any academic discipline can be given.

(c) Applicants who will be studying law upon commissioning must sign a statement of understanding that completion of legal licensing requirements in no way constitutes a guarantee of assignment to judge advocate duties.

13. A student with an AFROTC scholarship that was activated while the student was a GMC cadet need not demonstrate academic proficiency again at the time of admission to the POC.

14. If applicant fails to certify to no prior drug abuse on AF Form 2061, AF Form 2031 must be accomplished as outlined in AFR 30-19.

§ 870.86 Individuals who require a waiver and waiver granting authority.

Line	A: If an individual requires a waiver for retention in or admittance to the AFROTC program, and is—	B: Then a waiver must be obtained prior to commissioning or prior to entry into the program, and waiver authority is— AFMPC	AU	AFROTC
1	A POC/CSP cadet or applicant who was a former service academy cadet and who will complete commissioning requirements before his ex-academy classmates.	X		
2	Any applicant for membership who was previously eliminated from an officer-type training program because of military inaptitude, indifference to training, major honor violations, undesirable traits of character, disciplinary reasons, or who resigned in the face of impending charges. (The applicant will not be enrolled or granted a Selective Service deferment until waiver is approved.)	X (note 1)	X (note 2)	
3	A POC/CSP applicant who has previously attended a service academy (including the Coast Guard and Merchant Marine Academies).	X (note 3)		
4	A POC/CSP applicant who attended but did not complete a service academy preparatory school or who has been a member of any officer program except a service academy.		X	(Note 4.)
5	A POC/CSP applicant who is on academic probation or not in good academic standing.		X (note 5)	X (note 6).
6	A POC applicant who requires more than one academic term in pursuing status to become eligible for membership.			X.
7	An individual who, to qualify for membership, requires accreditation of successfully completed Aerospace Studies course work and training while in special or alien student status.			X.
8	A POC cadet who will require completed cadet status in excess of 12 months or who will require retention in completed status after award of baccalaureate degree.			X (note 7).
9	A cadet who had two academic years remaining when admitted to the POC but who, by virtue of superior performance or unusual circumstances, is eligible for earlier graduation and commissioning. (This includes concurrent enrollment required by school disestablishment action.)			X.
10	A cadet who requires relief from normal retention standards (academic or disciplinary). PAS may waive less than full-time student status for nonscholarship GMC cadets, and for POC members for the last academic term provided the cadet is enrolled in at least one course in addition to Aerospace Studies, or during the last academic term a cadet is in completed status.)			X (note 8).
11	A category IP/IN POC cadet or applicant who would exceed age 26½ at time of commissioning (may be waived if individual can be commissioned and entered into flying training by age 27½); a category IM/II/III POC cadet who would exceed age 30 at time of commissioning (may be waived to age 32 if the cadet was scheduled for commissioning but because of unusual circumstances was not appointed, or if the cadet has prior active enlisted or warrant officer service).			X.
12	A POC/CSP applicant or cadet who has been convicted by a court-martial or a civil court for any offense other than that which is minor.		X (note 9)	X (note 9).
13	A POC/CSP applicant or cadet who has had minor civil or military convictions which would not be prejudicial to performance of duty as an Air Force officer and which do not indicate unacceptable traits of character.			X.
14	A POC/CSP applicant or cadet who has committed an offense resulting in less than a conviction.			X (note 10).
15	In a condition which requires a waiver for a reason for which waiver authority is not specified.	X		

NOTES. 1. Former service academy cadets only.

2. AU determines eligibility in all cases not involving former service academy cadets.

3. If DD Form 785, Section IV, is marked in block 1, 2, or 4, and the form contains no derogatory information, AU determines eligibility.

4. AFROTC may approve the readmission of certain former AFROTC cadets (§ 870.70).

5. To activate a scholarship a student must be in good academic standing or, if not in good academic standing, have both a cumulative grade point average (GPA) and preceding term GPA of at least 2.0 on the scale A is equal to 4.0. Additionally, a physician candidate must have at least a 3.65 cumulative GPA to activate a scholarship.

6. AFROTC may prescribe procedures for attendance at the 6-week field training and enrollment in pursuing status.

7. Not applicable to nurse candidates.

8. Cadets may not be retained in scholarship status for more than one academic term during which they are not in good academic standing unless they have a cumulative and a term GPA of at least 2.0 on the scale A=4.0. Additionally, students granted scholarships as physician candidates may not be retained in scholarship status if their term or cumulative GPA remains below 3.65 on the scale A=4.0 for more than one academic term.

9. AU may approve or disapprove; AFROTC may disapprove only.

10. Involvements which do not result in a conviction (such as deferred prosecution or nonjudicial punishment under the UCMJ)

V40-16 JAN23 75 XUM

may indicate unacceptable traits of character or be prejudicial to an applicant or member's performance of duty as an Air Force officer. The Commandant, AFROTC, has authority to evaluate the circumstances of such involvements and grant or deny a waiver.

§ 870.88 Credit for previous education, training, and military experience.

Line	A If the applicant has successfully completed—	B Then the PAS may credit—	C And, additionally, the Commandant, AFROTC, may credit—
1	A U.S. Armed Forces, Coast Guard or Merchant Marine Academy preparatory school, or portions of the first two years at a U.S. Armed Forces, Coast Guard, or Merchant Marine Academy (note 1).	Up to, but not exceeding an equivalent portion of the GMC.	
2	The basic course or portions of the basic course while a member of Army, Navy, or Air Force ROTC.		
3	At least two years of junior level (high school) ROTC, or equivalent training in the Civil Air Patrol.	One academic term (semester, trimester, or quarter) of the GMC.	
4	Three years of junior level (high school) ROTC or equivalent training in the Civil Air Patrol (note 2).	One year of the GMC (note 3).	
5	Four years of junior level ROTC (high school) at a military school or academy.	The GMC or a portion of it (note 4).	
6	More than 60 days of active duty or active duty for training in any U.S. military department.	The GMC or portion of it as prescribed by the Commandant, AFROTC (note 5).	(Note 6.)
7	Portions of the last two years at a U.S. Armed Forces, Coast Guard, or Merchant Marine Academy.	Portions of the POC on a term-for-term/academic year basis (2d classman-AS 300) not to exceed one year.	One additional term of the POC if the ex-academy cadet was disenrolled from the academy after successful completion of the first half of his senior year (note 1).
8	Portions of the last two years of advanced training and/or field training of the Army or Navy ROTC.	Portions of the POC on a term-for-term/academic year basis not to exceed one year and field training.	One additional term of the POC if the former ROTC cadet was disenrolled from Senior ROTC after successful completion of at least one academic term of the last year (note 7).

NOTES. 1. Refer to § 870.88 to determine required waiver action.

2. CAP cadets who earned the Carl A. Spaatz Award may be credited with 75% of the GMC.

3. Students presenting evidence of successful completion of a junior ROTC program are entitled to one year's credit in the GMC upon their request.

4. Rather than waive the entire GMC, consider requiring the cadet to complete at least one quarter or semester to give a basis on which to evaluate him for entrance into the POC.

5. The entire GMC will not be waived for cadets with less than 180 days of active duty or active duty for training.

6. The Commandant, AFROTC, may establish requirements and procedures for accrediting 4-week field training on the basis of previous military training and experience.

7. An additional term or terms may be credited by AU.

By order of the Secretary of the Air Force.

STANLEY L. ROBERTS,
Colonel, USAF Chief, Legislative Division Office of The Judge Advocate General.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 313-5]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Missouri: Approval and Disapproval of Compliance Schedules

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of State plans for implementation of the national ambient air quality standards.

The State of Missouri submitted to the Environmental Protection Agency compliance schedules to be considered as proposed revisions to the approved plan pursuant to 40 CFR 51.6. These schedules were adopted by the State and submitted to the Environmental Protection Agency for review after notice and public hearings. The public hearings were held in accordance with the procedural requirements of 40 CFR 51.4 and 51.6 and the substantive requirements of 40 CFR 51.15 pertaining to compliance schedules. The approvable compliance schedules have been reviewed and determined to be consistent with the approved control strategies of Missouri.

Accordingly, the Administrator proposed approval and disapproval of these schedules on September 23, 1974, in the FEDERAL REGISTER at 39 FR 34066 and 39 FR 34068 in two separate schedules. The proposed approval and disapproval of these schedules published in the September 23, 1974, FEDERAL REGISTER provided for a 30-day comment period. No comments concerning these schedules were received. Set forth below are specific compliance schedules which the Administrator approves and disapproves pursuant to 40 CFR 51.8.

Due to an oversight, many of the sources published in each of these two separate schedules were duplications. These two schedules are therefore combined in this promulgation of final approval.

Disapproval of the Union Electric Labadie and Portage des Sioux schedules is due to failure to comply with the substantive requirements relating to compliance schedules in 40 CFR 51.15. These schedules do not contain increments of progress or firm compliance dates as required by § 51.15(a). These air pollution sources continue to remain subject to the immediately-effective compliance date set by applicable State regulations in the federally-approved State Implementation Plan.

The following sources have been revised and will be reproposed in a later publication: A. P. Green, Mexico; Allied Chemicals, Owensville; Kaiser Refractories, Rotary Kiln #2, Mexico; Missouri Power and Light, Jefferson City; Gardner-Denver, LaGrange.

ADM Milling, North Kansas City, source 03 Mixers and Bulk Plant Suction has been eliminated.

Kansas City Power and Light, Kansas City, was proposed as disapproved on September 23, 1974. This source is now approvable and is being reproposed in a separate FEDERAL REGISTER publication.

Each approved revision establishes a new date by which the individual source must comply with the applicable emission limitation in the federally approved State Implementation Plan. This date is indicated in the table below, under the heading "Final Compliance Date." In all cases, the schedules include incremental steps toward compliance with the applicable emission limitations. While the tables below do not include these interim dates, the actual compliance schedules do. The Effective Date column in the table refers to the date the compliance schedule becomes effective for purposes of Federal enforcement.

In the indication of approval of individual compliance schedules, the individual schedules are included by reference only. In addition, since the large number of compliance schedules preclude setting forth detailed reasons for approval of each individual schedule in the FEDERAL REGISTER, an evaluation report has been prepared for each individual compliance schedule. These evaluation reports are available for public inspection at the Environmental Protection Agency Regional Office, 1735 Baltimore, Kansas City, Missouri. The compliance schedules and the State Implementation Plans are available for public inspection at the Environmental Protection Agency Regional Office; the Environmental Protection Agency, Division of Stationary Source Enforcement, 401 M Street, Washington, D.C.; and the Missouri Department of Natural Resources, State Office Building, Jefferson City, Missouri.

This rulemaking will become effective immediately upon publication. The Agency finds that good cause exists for not deferring the effective date of this rulemaking because the compliance schedules are already in effect under State law and federal approval imposes no new burdens.

This rulemaking is promulgated pursuant to the authority of Section 110 of the Clean Air Act of 1970, as amended, 42 U.S.C. 1857c-5.

Dated: January 15, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart AA—Missouri

1. In § 52.1335 the table in paragraph (a) is amended by adding the following:

§ 52.1335 Compliance schedules.

[FRL 312-1]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

South Carolina: Approval of Compliance Schedules

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51 require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all sources must be in compliance with any applicable requirements of the plan.

On February 10, 1973, pursuant to 40 CFR 51.6, the State of South Carolina submitted for the Environmental Protection Agency's approval revisions to the compliance schedule portion of the plan. The compliance schedules submitted by South Carolina were reviewed by the Agency to verify adherence to the requirements of 40 CFR Part 51 pertaining to public hearings, plan revisions, and compliance schedules, as well as consistency with the control strategies of the South Carolina implementation plan. The schedules which met these criteria were published in the FEDERAL REGISTER as proposed rulemaking on January 11, 1974 (39 FR 1641). Copies were made available for public inspection at the Agency's Region IV office in Atlanta, and the office of the Bureau of Air Quality Control, South Carolina Department of Health and Environmental Control in Columbia. All interested parties were invited to submit written comments on the proposed compliance schedules.

No comments were received from the general public or from the affected sources. The State had recodified and revised its air pollution regulations subsequent to the Administrator's initial proposal and the citing of regulations has been changed to reflect their present order.

Each of the schedules given in the table below establishes a date by which an individual air pollution source must attain compliance with the emission limitations of the State implementation plan. This date is indicated in the succeeding table under the heading "final Compliance Date." In many cases the schedule includes incremental steps toward compliance, with specific dates set for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. The entry "Immediately" under the heading "Effective Date" means that the schedule becomes Federally enforceable immediately upon its approval by the Administrator. Copies of the schedules and the South Carolina plan are available for public inspection at the following locations:

Air Programs Office
Environmental Protection Agency
1421 Peachtree Street, N.E.
Atlanta, Georgia 30309

Bureau of Air Quality Control
South Carolina Department of Health and Environmental Control
2600 Bull Street
Columbia, South Carolina 29201

Freedom of Information Center
Environmental Protection Agency
401 M Street, S.W.
Washington, D.C. 20460

An evaluation of any of the schedules can be obtained by consulting the staff of the Agency's Region IV Air Programs Office at the Atlanta address given above.

The Administrator has determined that all the schedules given here satisfy the requirements of 40 CFR Part 51 pertaining to plan revisions and compliance schedules, and that their approval will not hinder the attainment and maintenance of the national ambient air quality standards. Accordingly, they are hereby approved.

This action is effective immediately. The Administrator finds that good cause exists for making this approval action immediately effective since these schedules are already in effect under State law in South Carolina and the Agency's action imposes no additional regulatory burden on affected facilities.

(Section 110(a) of the Clean Air Act (42 U.S.C. 1857c-5(a)))

Dated: January 15, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart PP—South Carolina

Section 52.2123 is amended by inserting "§ 51.6 and" immediately before "§ 51.15" in the first sentence of paragraph (b) and by inserting additional lines in the table of paragraph (b) as follows:

PART 52—APPROVAL AND PROMULGATION OF STATE IMPLEMENTATION PLANS

West Virginia: Approval of Compliance Schedules

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51, require each State to submit a plan which provides for attainment, maintenance, and enforcement of the national ambient air quality standards throughout the State. Each plan is to contain legally enforceable compliance schedules setting forth the dates by which all stationary and mobile sources must be in compliance with any applicable requirement of the plan.

On May 31, 1972 (37 FR 10899), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved West Virginia's State Implementation Plan.

A total of one hundred and three (103) compliance schedules have been submitted by the State of West Virginia for the Environmental Protection Agency's approval. Of these, twenty-six (26) were approved in the FEDERAL REGISTER on September 9, 1974 (39 FR 32559), and twenty-one (21) were proposed in the FEDERAL REGISTER on July 24, 1974 (39 FR 26916) and August 12, 1974 (39 FR 28906). The remaining fifty-six (56) schedules submitted by the State have not been proposed for approval either because the Environmental Protection Agency is still negotiating with the State and the source to correct deficiencies appearing in the schedules, the source is involved in a proceeding under section 110(f) of the Clean Air Act, or the final compliance date for the particular source has elapsed.

The Administrator received comments from the West Virginia Air Pollution Control Commission, Monsanto Chemicals Company, PPG Industries, Inc., and FMC Corporation pointing out errors in the table of schedules published in the July 24, 1974, and August 12, 1974 FEDERAL REGISTER. The table of schedules appearing in this publication has been corrected in accordance with these comments.

The Administrator will take no action with regard to the schedule for the E.I. duPont de Nemours and Company, Incorporated, because its final compliance date has elapsed. Furthermore, the Administrator will take no action with regard to the schedules for the Wheeling-Pittsburgh Steel Corporation because the State and the source have indicated that an amended schedule is currently being negotiated.

Each revision and schedule establishes a date by which an individual air pollution source must attain compliance with an emission limitation specified by the State Implementation Plan. This date is indicated in the table below under the heading "Final compliance date." In most cases, the schedules include incremental steps toward compliance with interim dates for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. All the compliance schedules listed here are available for public inspection at the following locations:

Environmental Protection Agency
Region III
Curtis Building
Sixth and Walnut Streets
Philadelphia, Pennsylvania 19106

West Virginia Air Pollution Control Commission
1558 Washington Street, East
Charleston, West Virginia 25311

Freedom of Information Center
Environmental Protection Agency
401 M Street SW.
Washington, D.C. 20460

In addition, evaluation reports for each schedule are available for public inspection at the Environmental Protection Agency, Region III.

Each revision and compliance schedule listed below has been adopted by the West Virginia Air Pollution Control Commission and submitted to the Environmental Protection Agency after notice and public hearing in accordance with the procedural requirements of 40 CFR Part 51. In addition, the substantive and procedural requirements of 40 CFR 51.6 and 51.15 have been satisfied. Accordingly, pursuant to 40 CFR 51.8, the Administrator approves the compliance schedules listed below.

These compliance schedules will become part of the State Implementation Plan thirty days after the date of this publication in the FEDERAL REGISTER.

(42 U.S.C. 1857c-5)

Dated: January 15, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart XX—West Virginia

Section 52.2524(c) is amended by adding the following schedules:

[FRL 311-8]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Tennessee: Approval of Compliance Schedules

On September 3, 1974 (39 FR 31918), the Administrator proposed the approval of a number of individual compliance schedules submitted by the State of Tennessee pursuant to the requirements of 40 CFR 51.6 and 51.15 pertaining respectively to plan revisions and compliance schedules. These schedules had been adopted by the Tennessee Air Pollution Control Board after notice and public hearing before being submitted for the Agency's approval on October 16 and December 26, 1973, and on February 20, 1974. Each establishes a date by which an individual air pollution source must attain compliance with the emission limitations of the State implementation plan. This date is indicated in the succeeding table under the heading "Final Compliance Date." In many cases the schedules include incremental steps toward compliance, with specific dates set for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. The entry "Immediately" under the heading "Effective Date" means that the schedule becomes enforceable by the Federal government immediately upon its approval by the Administrator.

Copies of the proposed schedules were made available for public inspection at the Agency's Region IV office in Atlanta, Georgia and at the office of the Tennessee Division of Air Poliution Control in Nashville. Written comments were solicited from the public, and one response was received, pointing out a typographical error. The State offered a number of minor corrections to be made also. The listing given below has been corrected accordingly. In addition, the schedule for Penn Dixie Cement Corporation in Richard City has been deleted at the State's request since a new schedule has been negotiated.

An evaluation of the remaining schedules may be obtained by consulting personnel of the Agency's Region IV Air Programs Office, 1421 Peachtree Street, N.E., Atlanta, Georgia. Copies of the schedules, together with the Tennessee plan, are available for public inspection at the Atlanta office and also at the Division of Stationary Source Enforcement, 401 M Street, SW., Washington, D.C. 20460 and at the office of the Tennessee Division of Air Pollution Control.

The Administrator has determined that al lthe schedules given here satisfy the requirements of 40 CFR Part 51 pertaining to compliance schedules and plan revisions, and that their approval will not hinder the attainment and maintenance of the national ambient air quality standards.

This action is effective immediately. The Administrator finds that good cause exists for making his action immediately effective since these schedules are already in effect under Tennessee law, and the Agency's action imposes no additional regulatory burden on affected facilities.

(Section 110 of the Clean Air Act (41 U.S.C. 1857c-5))

Dated: January 15, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart RR—Tennessee

1. Section 52.2220 is amended by inserting in proper chronological order in paragraph (c)(4) the dates October 16, December 26 (1973) and February 20 (1974).

2. Section 52.2223 is amended by adding new lines to the table of paragraph (e)(1) as follows:

§ 52.2223 Compliance Schedules.

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Certain Inert Ingredients in Pesticide Formulations

In response to the notice published by the Environmental Protection Agency in the FEDERAL REGISTER of November 18, 1974 (39 FR 40512), proposing establishment of exemptions from tolerance requirements under provisions of section 408 of the Federal Food, Drug, and Cosmetic Act for 14 inert (or occasionally active) ingredients in pesticide formulations, no comments or requests for referral to an advisory committee were received.

It is concluded that:

1. The items "Ethylenediamine * * *", "Polyamide polymer * * *", and "Terephthalic acid * * *" in § 180.1001(e) should be combined into one item as listed below.

2. The proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e)), 68 Stat. 514; (21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), § 180.1001 is amended by (1) revising the item "α-Stearoyl-*omega*- * * *" in paragraphs (c) and (e), (2) revising the item "Ethylene glycol monomethyl ether" in paragraph (d), and (3) alphabetically inserting new items in paragraphs (c), (d), and (e), as follows:

§ 180.1001 Exemption from the requirement of a tolerance.

* * * * *

(c) * * *

Inert ingredients	Limits	Uses
* * * * *		
Aluminum stearate		Surfactant.

Any person who will be adversely affected by the foregoing order may at any time on or before February 24, 1975, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on January 23, 1975.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a (e)))

Dated: January 17, 1975.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.75-2063 Filed 1-22-75;8:45 am]

Title 6—Economic Stabilization

CHAPTER VI—ASSISTANT SECRETARY FOR ADMINISTRATION, DEPARTMENT OF THE TREASURY

ESTABLISHMENT OF PART

In order to complete the orderly termination of the Economic Stabilization Program and to insure its integrity, the Department of the Treasury finds it necessary to establish a new Part 602 in Title 6 of the Code of Federal Regulations. The new part contains no substantive regulations but adopts the Economic Stabilization Regulations, in 6 CFR Chapters I, V, and VI, in effect on December 31, 1974, with respect to prices charged, and wages paid for work performed, prior to May 1, 1974. The only other effect of the new Part 602, is to amend the addresses in Chapters I, V, and VI, to which reports, forms, requests and other documents are required to be submitted.

The Department further finds that notice and public procedure, regarding the establishment of Part 602, in Chapter VI of Title 6 of the Code of Federal Regulations, is impracticable, in view of the need to provide immediate continuing guidance to interested persons, and that accordingly, good cause exists for making these regulations effective with their publication. Interested persons may, however, submit comments, regarding this Part, on or before February 24, 1975. Such comments shall be addressed to the Assistant Secretary for Administration, Department of the Treasury, 1500 Pennsylvania Avenue NW., Washington, D.C. 20220, and they shall be available to the public, upon request therefor, unless confidential status for the submission has been requested and approved, 31 CFR 1.4(b), 36 FR 13835.

Therefore, in consideration of the aforegoing and by virtue of the authority vested in me by Treasury Department Order No. 233 (Revision, No. 1), 39 FR 45302, Title 6 of the Code of Federal Regulations is amended by retitling the heading of Chapter VI to read as set forth above, and by adding a new Part 602 thereto to read as follows:

PART 602—ADOPTION, AND CONTINUATION IN EFFECT, OF CHAPTERS I, V AND VI

Sec.
602.1 Scope.
602.2 Designated officials.
602.3 Addresses.
602.4 Forms.

AUTHORITY: Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11788 (38 FR 22113); Treasury Department Order No. 233 (Revision No. 1), (39 FR 45302, December 31, 1974).

§ 602.1 Scope.

(a) Except as otherwise provided in this part, the provisions of Chapters I, V and VI of this title, in effect on December 31, 1974, are adopted as the rules, policies, and regulations of the Department of the Treasury, and shall continue in effect on and after January 1, 1975.

(b) Authority under this part shall be exercised only with respect to prices charged prior May 1, 1974, and wages paid with respect to work performed prior to that date.

§ 602.2 Designated officials.

All references in Chapters I, V and VI of this title to the Cost of Living Council, the Council, the Chairman or Director of the Council, the Construction Industry Stabilization Committee, any other official or agency exercising authority delegated by the Council, or the Office of Economic Stabilization or its Director shall for procedural purposes be deemed to refer to the Assistant Secretary for Administration. Thus, for example, reports previously required to be submitted to the Office of Economic Stabilization shall, on and after January 1, 1975, be submitted to the Assistant Secretary for Administration.

§ 602.3 Addresses.

(a) Except as otherwise provided in this section material previously submitted to the Office of Economic Stabilization, 2000 M Street, NW, Washington, D.C. 20508, shall be submitted to the Assistant Secretary for Administration, Department of the Treasury, 1500 Pennsylvania Avenue, NW, Washington, D.C. 20220.

(b) Material previously submitted to the Chief Counsel, Office of Economic Stabilization shall be submitted to the Assistant General Counsel (Administration, Legislation and Fiscal Operations), Department of the Treasury, 1500 Pennsylvania Avenue, NW, Washington, D.C. 20220.

(c) Material previously submitted to the Associate Director for Wages, Office of Economic Stabilization, Department of the Treasury, at the post office box address specified in parts 152 and 153, of this Title, shall be submitted to the Assistant General Counsel (Administration, Legislation and Fiscal Operations), Department of the Treasury, at the address in paragraph (b) above.

§ 602.4 Forms.

Submissions on and after January 1, 1975, with respect to price or wage matters shall be made on forms prescribed by and pursuant to instructions issued by the Cost of Lving Council, as in effect on June 30, 1974.

Dated: January 16, 1975.

WARREN F. BRECHT,
Assistant Secretary for Administration.

[FR Doc.75-1947 Filed 1-22-75;8:45 am]

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Delegation of Authority to the Deputy Assistant Secretary for Marketing and Consumer Services

Part 2, Subtitle A, Title 7, Code of Federal Regulations is amended to provide a delegation of authority to the Deputy Assistant Secretary for Marketing and Consumer Services, as follows:

A new § 2.49 is added to read as follows:

§ 2.49 Deputy Assistant Secretary for Marketing and Consumer Services.

(a) Delegations. Pursuant to § 2.17, subject to reservations in § 2.18, and subject to policy guidance and direction by the Assistant Secretary, the following delegation of authority is made by the Assistant Secretary for Marketing and Consumer Services to the Deputy Assistant Secretary for Marketing and Consumer Services, to be exercised only during the absence or unavailability of the Assistant Secretary:

(1) Perform all the duties and exercise all the powers which are now or which may hereafter be delegated to

the Assistant Secretary for Marketing and Consumer Services.

Effective date: January 23, 1975.

Dated: January 17, 1975.

RICHARD L. FELTNER,
Assistant Secretary for Marketing and Consumer Services.

SUBCHAPTER A—SCHOOL LUNCH PROGRAM

PART 246—SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS AND CHILDREN

Corrections

In FR Doc. 74-30190 appearing at page 44728 in the issue for Friday, December 27, 1974, please make the following changes:

1. In Preamble, Number 4, change the word "funds," which appears in the fifth line, to "foods."

2. In § 246.2(p)(1)(iii) change "high rates or prematurity" to "high rates of prematurity."

3. In § 246.2(v) change the word "are" which appears in the fifth line, to "area."

4. In § 246.3(b) change the word "safeguards," which appears in the eleventh line, to "safeguards."

5. In § 246.3(b) change the word "capability," which appears in line fifteen, to "capability."

6. In § 246.4(b) change the word "condition," which is the last word in the third line, to "conditions."

7. In § 246.4(b)(2) on line five, the misplaced parenthesis should be around "(exclusive of clinic evaluation costs)."

8. In § 246.12(b) change the word "least," which appears in the second line, to "less."

9. In § 246.13(a)(1)(i) *Substitutes* change the phrase "vitamin A," appearing in the fourth line to "vitamin D."

10. In § 246.13(a)(2)(i) change the phrase "vitamin C," appearing in the second line, to "vitamin D."

11. In § 246.14(g) change the word "decisin," which appears in the fourth line, to "decision."

12. Section 246.16(a): the last sentence should read "The State agency shall have full opportunity to submit evidence, explanation, or information concerning alleged instances of noncompliance or diversion before a final determination is made in such cases."

Dated: January 17, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 336]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 24-30, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.636 Navel Orange Regulation 336.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges is active.

Prices f.o.b. averaged $3.37 per carton on a reported sales volume of 991 carlots last week, compared with an average f.o.b. price of $3.41 per carton and sales of 928 carlots a week earlier. Track and rolling supplies at 364 cars were down 4 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time this regulation must become effective in order to effectuate the declared policy of the act is

V40I16 JAN23 75 XUM

insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 21, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period January 24, 1975, through January 30, 1975, are hereby fixed as follows:

(i) District 1: 1,161,000 cartons;

(ii) District 2: 162,000 cartons;

(iii) District 3: 27,000 cartons."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 22, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-2298 Filed 1-22-75;11:47 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 73—SCABIES IN CATTLE

Areas Quarantined or Released

These amendments quarantine a portion of Childress County, a portion of Swisher County, and a portion of Hansford County in Texas because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the areas quarantined.

The amendments release a portion of El Paso County in Texas from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, will not apply to the excluded area, but the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 will apply to the excluded area.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

In § 73.1a, paragraph (a) relating to the State of Texas is amended to read:

§ 73.1a Notice of quarantine.

(a) Notice is hereby given that cattle in certain portions of the State of Texas are affected with scabies, a contagious, infectious, and communicable disease; and, therefore, the following areas in such State are hereby quarantined because of said disease:

(1) That portion of Cochran County comprised of Greer County school land league 85–6, secs. 3, 4, 21 and 22.

(2) That portion of Moore County comprised of secs. 321 and 322, Block 44, H & TC Railway Survey.

(3) That portion of Childress County comprised of secs. 616, 625, 627, 652, 653, and 654, Block H.

(4) That portion of Swisher County comprised of sec. 99, Block M–9.

(5) That portion of Hansford County comprised of sec. 313, Block 2, GH & H Railroad Survey.

* * * * * *

(Sec. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3, and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141)

Effective date. The foregoing amendments shall become effective January 20, 1975.

Insofar as the amendments impose certain further restrictions necessary to prevent the interstate spread of cattle scabies, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as the amendments relieve restrictions, they are no longer deemed necessary to prevent the spread of cattle scabies and they should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 20th day of January, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.75-2170 Filed 1-22-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74-WE-56-AD; Amdt. 39-2075]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Models DC-8F-54, DC-8F-55, -61F, -62F, -63F Series Airplanes

There has been a malfunction of the main cargo door hydraulic control valve and mislocation of the main cargo door control valve shaft push-down plate on a DC-8F airplane that could result in the inadvertent opening of the main cargo door. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection, and corrective action, if necessary, to insure that the main cargo door hydraulic control valve shaft operates freely, and that the main cargo door hydraulic control valve shaft push down plate on the access door is installed and correctly located directly above the control valve shaft on McDonnell Douglas DC-8F-54, DC-8F-55, -61F, -62F, and -63F airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure thereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), section 39.13 of part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

McDONNELL DOUGLAS. Applies to DC-8F-54, DC-8F-55, -61F, -62F, -63F series airplanes, certificated in all categories, which incorporate the main cargo door hydraulic system components specified in items (1) afid (2) in this A.D.

Compliance required within the next 300 hours time in service after the effective date of this A.D., unless already accomplished.

To prevent inadvertent opening of the main cargo door, accomplish the following:

(1) Verify that the main cargo door hydraulic control valve shaft push down plate, Douglas P/N 5777814-55 is installed in a position on the bottom of the main cargo door hydraulic control valve access door, Douglas P/N 5777814-33 such that, when the access door is closed and secured, the push-down plate is located directly above the main cargo door hydraulic control valve shaft, Douglas P/N 3777875-1. Reposition the plate if it is found to be mislocated and/or replace if the push-down plate is damaged. Install the plate if found to be missing.

(2) Verify that the main cargo door hydraulic control valve shaft operates freely, without binding, between the operate neutral and neutral lock positions. This shall be accomplished by opening the main cargo door hydraulic control valve access door; raising the "T" handle, Douglas P/N 4777888-1; and pulling the "T" handle vertically upward to its maximum travel (operate neutral position). When the vertical force on the "T" handle is relieved, the main cargo door hydraulic control valve shaft should return to the neutral lock (down) position without binding. Replace the main cargo door hydraulic control valve, Douglas P/N 5777869-5001 or 5919985-5001, if valve shaft does not return freely to the neutral lock position.

(3) Alternate procedures or other modifications approved by the Chief, Aircraft Engineering Division, FAA Western Region may be substituted for items (1) and (2) above.

(4) Airplanes may be flown to a service base for performance of maintenance required by this AD per FAR's 21.197 and 21.199.

This amendment becomes effective January 27, 1975.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on January 13, 1975.

LYNN L. HINK,
Acting Director, FAA Western Region.

[FR Doc.75-2065 Filed 1-22-75;8:45 am]

[Airworthiness Docket No. 74-WE-56-AD; Amdt. 39-2076]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Models DC-9-15F, -32F, and -33F Series Airplanes

There has been a malfunction of the main cargo door hydraulic control valve and mislocation of the main cargo door hydraulic control valve shaft push-down spacer (plate) on a DC-8F airplane having similar main cargo door hydraulic systems that could result in the inadvertent opening of the main cargo door. Since this condition is likely to exist or develop in other airplanes having the same hydraulic system design, an airworthiness directive is being issued to require inspection, and corrective action if necessary, to insure that the main cargo door hydraulic control valve shaft operates freely, and that the main cargo door hydaulic control valve shaft push-down spacer on the access door is correctly located directly above the main cargo door hydraulic control valve shaft on McDonnell Douglas DC-9-15F, -32F, and -33F series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure thereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), section 39.13 of part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

McDONNELL DOUGLAS. Applies to DC-9-15F, -32F, and -33F series airplanes, certificated in all categories, which incorporate the main cargo door hydraulic system components listed in the tabulation in this A.D.

Compliance required within the next 300 hours time in service after the effective date of this A.D. unless already accomplished.

To prevent inadvertent opening of the main cargo door, accomplish the following:

Douglas part descriptions	*Douglas part numbers*
Main cargo door hydraulic control valve access door.	9922100–27.
Main cargo door hydraulic control valve shaft push down spacer (listed as "BLOCK") P/N.	9922100–55.
Main cargo door hydraulic control valve access door.	9957809–145.
Main cargo door hydraulic control valve shaft push down spacer.	"HAT section"—Integral part of access door.
Main cargo door hydraulic control valve access door.	9957809–155.
Main cargo door hydraulic control valve shaft push down spacer.	9957809–105.
Main cargo door hydraulic control valve.	5919985–5001.
Main cargo door hydraulic control valve shaft.	3777875–1.
Main cargo door hydraulic control valve "T" handle.	4777888–1.

(1) Verify that the main cargo door hydraulic control valve shaft push-down spacer (see tabulation), is installed in a position on the bottom of the main cargo door hydraulic control valve access door (see tabulation), such that when the access door is closed and secured, the push-down spacer is located directly above the main cargo door hydraulic control valve shaft Douglas P/N 3777875–1. Reposition the spacer if it is found to be mislocated and/or replace if the push-down spacer is damaged. Install the spacer if found to be missing.

(2) Verify that the main cargo door hydraulic control valve shaft operates freely, without binding, between the operate neutral and neutral lock positions. This shall be accomplished by opening the main cargo door hydraulic control valve access door; raising the "T" handle Douglas P/N 4777888–1, and pulling the "T" handle vertically upward to its maximum travel (operate neutral position). When the vertical force on the "T" handle is relieved, the main cargo door hydraulic control valve shaft should return to the neutral lock (down) position without binding. Replace the main cargo door hydraulic control valve Douglas P/N 5919985–5001, if valve shaft does not return freely to the neutral lock position.

(3) Alternate procedures or other modifications approved by the Chief, Aircraft Engineering Division, FAA Western Region may be substituted for items (1) and (2) above.

(4) Airplanes may be flown to a service base for performance of maintenance required by this AD, per FAR's 21.197 and 21.199.

This amendment becomes effective January 27, 1975.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on January 13, 1975.

LYNN L. HINK,
Acting Director, FAA Western Region.

[Airspace Docket No. 74-EA-78]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Designation of Transition Area

On page 42376 of the FEDERAL REGISTER for December 5, 1974, the Federal Aviation Administration published a proposed rule which would alter the Hudson, N.Y., Transition Area.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 g.m.t. March 13, 1975.

Section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; (49 U.S.C. 1348)], and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on January 13, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

1. Amend § 71.181 of Part 71, Federal Aviation Regulations by adding the following 700-foot floor transition area:

HUDSON, NEW YORK

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the center, lat. 42°17'35" N., long. 73°42'38" W. of Columbia County Airport, Hudson, N.Y.; within a 17-mile radius of the center of the airport extending clockwise from a 025° bearing to a 180° bearing from the airport; within 3.5 miles each side of a 191° bearing from the Philmont, N.Y. radio beacon (lat. 42°16'08" N., long. 73°43'24" W.) extending from the 8-mile radius area to 11.5 miles south of the RBN.

[FR Doc.75-2067 Filed 1-22-75;8:45 am]

[Airspace Docket No. 74-EA-77]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 42376 of the FEDERAL REGISTER for December 5, 1974, the Federal Aviation Administration published a proposed rule which would alter the Danville, Va. Control Zone (39 FR 374) and Transition Area (39 FR 478).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 GMT March 27, 1975.

Section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; (49 U.S.C. 1348)], and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on January 13, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the description of the Danville, Va. Control Zone by adding, "; within 1.5 miles each side of a 017° bearing from a point 36°34'48" N., 79°20'08" W., ex-

V40N16 JAN23 75 XUM

tending from said point to 5 miles north." following "southwest of the VOR".

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the description of the Danville, Va. Transition Area by adding the following, "; within 2.5 miles each side of a 017° bearing from a point 36°34'48" N., 79°20'08" W., extending form the 8-mile radius area to 11.5 miles north of said point."

[FR Doc.75-2068 Filed 1-22-75;8:45 am]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 14290; Amdt. 95-256]

PART 95—IFR ALTITUDES

Miscellaneous Changes

The purpose of this amendment to Part 95 of the Federal Aviation Regulations is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current changeover points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 FR 5662), Part 95 of the Federal Aviation Regulations is amended, effective February 27, 1975, as follows:

By amending Subpart C as follows:

Section 95.48 *Green Federal Airway 8*, is amended to read in part:

From, to, and MEA

Mordi INT, Alaska; *Cold Bay, Alaska, LOM; 6,000. *5,300—MCA Cold Bay LOM, Southwest-bound. (8,000 MEA required without HF airborne communication equipment).
Cold Bay, Alaska, LOM; Depth INT, Alaska; 4,500.
Depth INT, Alaska; Crack INT, Alaska; 3,000. (5,000—MEA required without HF airborne communication equipment).
Crack INT, Alaska; King Salmon, Alaska, LOM; 3,000. (9,000 MEA required without HF airbornes communication equipment).
King Salmon, Alaska, LOM; Big Mountain, Alaska, LF/RBN; 4,500.

Section 95.627 *Blue Federal Airway 27*, is amended to read:

Woody Island, Alaska, LF/RBN; King Salmon, Alaska, LOM; 10,000.
King Salmon, Alaska, LOM; Oscarville, Alaska, LF/RBN; 7,500.
Oscarville, Alaska, LF/RBN; Ft. Davis, Alaska, LF/RBN; 4,000.
Ft. Davis, Alaska, LF/RBN; Kotzbue, Alaska, LF/RBN; 6,000.

Section 95.1001 *Direct routes—U.S.*, is amended to delete:

*Richfield INT, Idaho; Burley, Idaho, VOR; 7,000. *9,500—MCA Richfield INT, westbound.

Section 95.1001 *Direct routes—U.S.*, is amended by adding:

Mormon Mesa, Nev., VORTAC; Wilson Creek, Nev., VORTAC; 18,000.
Wilson Creek, Nev., VORTAC; Elko, Nev., VORTAC; 20,000.
Elko, Nev., VORTAC; Boise, Idaho, VORTAC; 18,000.

Section 95.1001 *Direct routes—U.S.*, is amended to read in part:

[Docket No. 14238; Amdt. No. 951]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impractcable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective February 27, 1975.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-896; Amdt. 36]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Miscellaneous Amendments

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., January 17, 1975.

On July 25, 1974, by notice of proposed rule making, Docket 26899, EDR-278 (39 FR 27694), the Board proposed to amend Part 288 of its economic regulations (14 CFR Part 288) by adopting increased minimum rates for Category B international planeload charter services performed by air carriers for the Department of Defense (DOD) to be effective prospectively from the date adopted. In addition, the Board proposed to eliminate the rates for piston and CL-44 aircraft, and to increase the rates for other turboprop aircraft; to establish a conversion charge for the mixed Coral Sea operation; to increase the seat conversion charge, and to provide a minimum advance notification time if conversion rates are to apply; to revise the provisions for computing pay miles for trans-Pacific routings; and to eliminate the monthly review of commercial fuel prices and retroactive rate adjustments to reflect price changes. The notice also indicated that in view of an on-going reexamination of the economic bases for Category A and Z services, revised rates for these services would be considered in a separate rule making. The Board did state, however, that in the event the Category A and Z proposals were not finalized prior to completion of the present full-scale review, it intended to adjust the A and Z rates to the level of the Category B one-way charter rates adopted herein.

Comments in response to the notice were filed by six individual carriers,[1] by nine carriers jointly,[2] and by the DOD. Reply comments were filed by the joint carriers, the DOD, and Trans World Airlines, Inc. Upon consideration, we have determined to adopt the proposed amendments as revised below. All comments and supporting material have been carefully considered, and all contentions not otherwise disposed of herein are rejected.

The rates proposed in the notice were predicated on carrier and DOD forecasts and submissions, screened and adjusted in the light of (1) cost data furnished by the carriers for the fiscal year ended June 30, 1973, which was used as the base period, (2) other reported data, and (3) those price or wage increases actually experienced subsequent to the base period or to be experienced during fiscal year 1974, as evidenced by existing contracts or similar documentation. In accordance with established practice, the Board refused to recognize in its proposed rate any anticipatory cost increases or any price or wage increases which were not adequately supported. We have adhered to that policy in establishing the final minimum rates for MAC services adopted herein. However, where adequate justification has been provided for cost increases during fiscal year 1975, these cost increases are reflected in the final rates.

For final rate purposes, the Board has reviewed the carrier and DOD comments, and adjusted the costs computed in the notice where supporting detail was furnished concerning increases in salaries and wages, and other items of expense since the issuance of the notice. Adequate documentation of such increases was provided by four carriers, and the adjustments to their costs are shown in the attached appendices. With these and other changes discussed below or in the appendices, the rates we are establishing herein will provide an increase of approximately 13.55 percent above the current yield from MAC services for FY 1975.[3]

As proposed, we have eliminated the rates for piston and CL-44 aircraft and increased the rates for other turboprop aircraft performing short-range services. We have also established a conversion

[1] Northwest Airlines, Inc., Pan American World Airways, Inc., The Flying Tiger Line Inc., Trans International Airlines, Inc., Trans World Airlines, Inc., and World Airways, Inc.

[2] Airlift International, Inc., Capitol International Airways, Inc., The Flying Tiger Line Inc., Overseas National Airways, Inc., Pan American World Airways, Inc., Saturn Airways, Inc., Seaboard World Airlines, Inc., Trans International Airlines, Inc., and World Airways, Inc. (referred to herein as the joint carriers).

[3] As compared to the rates established in ER-879 including the fuel surcharges provided by ER-881. See Appendix N. (Appendices A-R filed as part of the original document.)

charge of $207 per pallet for the mixed Coral Sea operation. As discussed below, we have changed the proposed minimum notification time by MAC if conversion rates are to apply from that set forth in the notice. The proposed changes in the routing provisions for computing the pay miles in Category B services have been revised from those proposed. We have adjusted the rates herein to reflect commercial fuel prices as of October 1, 1974. In addition, we have eliminated the automatic fuel adjustment clause for fuel purchased from DOD and have included fuel purchased from both the Air Force and the Navy at the October 1, 1974 prices [4] charged by the Defense Supply Agency. We have also amended § 288.8 of the economic regulations-minimum aircraft loads—to provide for 16 pallets instead of 12 on the stretched DC-8-61-63 jets. With these general comments, we turn now to consideration of the rates adopted and the principal issues raised in the comments.

[4] The price per gallon for fuel purchased at military bases on this date was 35.4¢ for JP4 type and 34.0¢ for JP5.

CATEGORY B MINIMUM RATES FOR LARGE TURBOJET AIRCRAFT.

The existing minimum rates for Category B charters, those proposed in the notice, and the revised minimum fair and reasonable rates adopted herein for large turbojet aircraft are set forth below. Also shown, are the percentage differences between the current rates and the rates adopted.

	Current [1]	Proposed	Adopted	Percent Increase (decrease) from Current
Passengers (cents per passenger-mile)				
Round-trip	2.462	2.460	2.848	15.68
One-way	4.632	4.546	5.119	10.51
Cargo (cents per ton-mile)				
Round-trip	9.714	9.117	10.966	12.89
One-way	18.727	14.032	[2] 16.504	(11.87)

[1] Effective Oct. 29, 1974, ER-879 and reflects the fuel surcharge of 6.09 percent adopted by ER-881, Dec. 31, 1974.
[2] This decrease is primarily due to the heavier impact for increased commercial backhauls.

Rate of return. The proposed rates were based upon a return on recognized investment of 10.5 percent. The joint carriers, supported by Trans World Airlines in its reply comment, argue for an increase in the rate of return to 12 percent. They contend that continuing the return on investment for MAC services 1.5 percentage points below that found reasonable for domestic scheduled services is no longer justifiable. They urge a re-examination of this policy, and attempt to refute each of the arguments given in explanation of the present differential in ER-733, May 11, 1972. In general, the carriers' position is that whereas the Board has sought to justify the differential primarily on the basis of a greater stability for MAC than commercial services, the risks for MAC services are actually greater, and that MAC operations are subject to larger volume fluctuations than scheduled services. Thus, the carriers argue that while commercial rates subject to tariffs can be increased as need arises, MAC rates normally remain in effect unchanged for extended periods, and that this creates a substantial risk during a period of rapid inflation such as we are currently experiencing. The carriers argue further that although MAC services involve guaranteed contracts for the "fixed buy" portion of the military's transportation needs, this fact overstates the stability of the operation vis-a-vis domestic scheduled services. While the carriers concede that the planeload charter aspect of the Category B service eliminates the risk of fluctuating load factors, which is inherent in scheduled operations, they argue that this factor is already fully provided for in the lower rate level applicable to Category B services. Finally, the carriers contend that it is no answer to argue that participation in the MAC procurement is voluntary and that no carrier is obligated to participate if it considers the risk too great, since the entire program is designed to serve important national defense objectives.

Rates of return are established and used for rate-making purposes to provide efficient carriers an opportunity to earn profits which approximate their cost of capital over reasonable periods of time and thus enable them to attract the investment necessary to perform required services. Notwithstanding the arguments put forth by the carriers, we continue to believe that MAC contract operations entail a lesser risk than is found in commercial services and that the cost of attracting capital for such operations is therefore less.

To begin with, there are substantial long-term commitments involved in the fixed-buy portion of the MAC contracts which are not present in scheduled services, and which reduce the uncertainties inherent in the MAC program vis-a-vis scheduled services. Secondly, the planeload charter aspect of the Category B service eliminates for the MAC carriers the load-factor risks inherent in scheduled services, and contrary to the joint carriers' assertions, this factor is not fully reflected in the lower rate for MAC services. The lower rate merely reflects the lower costs associated with planeload operations, and in no way is intended to reflect elimination of the load-factor risks. Furthermore, the return differential reflects the fact that MAC operations are essentially noncompetitive with the business divided among the participating carriers on the basis of objective criteria by the DOD. Thus, all of the vicissitudes of operating in the competitive marketplace are absent. Finally, we note that participation in the MAC program is not required, and there is no basis upon which we could conclude that the minimum rates adopted herein, based as they are on a return on recognized investment of 10.5 percent, will result in a reduction in the number of carriers participating in the program to an unacceptable level. Although it is true that over the past several years a number of carriers have terminated their participation in the MAC procurement, there is no reason to believe that this is the result of an inadequate return from the MAC services as opposed to simply a reflection of the decreased volume of MAC business. Of course, we do not deny that there are risks in performing MAC contract services. However, we continue to believe that the present return of 10.5 percent adequately compensates the carriers for these factors.[5]

Fuel costs. The rates proposed in the notice were based upon commercial fuel prices as of February 1, 1974, and military fuel prices at the base level fixed in the price adjustment clause adopted August 28, 1973, by ER-819. The notice indicated that the rates finally adopted would be revised to reflect the latest available commercial fuel prices. No provision was made in the notice for continuation of the commercial fuel surcharge since it appeared that fuel price increases were leveling off.

Both the carriers and DOD argue for continuation of the fuel surcharge. In general, the carriers' position is that in view of continued uncertainty regarding the future course of the fuel situation, the time is not yet ripe for abandonment of the monthly fuel surcharge procedure.

The DOD position is that the minimum rates adopted should be set at a level that excludes a portion of past fuel price increases so that a surcharge would be in effect from the date the final rates are adopted. The Department contends that such a procedure is necessary to protect it from overpaying the carriers should fuel prices drop suddenly after adoption of the final rates. The DOD believes, however, that sufficient stability in fuel prices does exist to permit quarterly review of the surcharge rate on a prospective basis as opposed to the present monthly review and retroactive adjustment. In addition, the Department urges the elimination of the military fuel price adjustment clause, upward adjustment of the minimum rates to reflect current prices for military-supplied fuel, and reflection of price changes for military fuel in the surcharge adjustment.[6]

[5] The return on the carriers' actual investment is of course greater than 10.5 percent because, as discussed *infra*, to the extent the 10.5 percent rate of return fails to include a profit element for the increased risk of operating with leased aircraft, we have provided an additional return for such risk.

[6] The request is in a letter dated October 2, 1974, from Mr. Arthur Purkel, Directorate of Procurement, Headquarters, Military Airlift Command, addressed to the Deputy Director of the Bureau of Economics.

V40116 JAN2375 XUM

This would be in lieu of the current procedure which provides for MAC to compensate the carriers for military fuel purchased at prices above certain base levels. The DOD contends that the present practice contains a potential for abuse and is inconsistent with traditional MAC rate-making principles.

The minimum rates adopted herein are based upon commercial fuel prices furnished by the carriers and military fuel prices supplied by the Defense Supply Agency in effect as of October 1, 1974. In view of the continued uncertainty surrounding fuel prices and availability, we have determined to continue the monthly surcharge procedure, and will hereafter include in the review all fuel including that purchased from military sources.[7] This will permit elimination of the automatic military fuel price adjustment clause as requested by the DOD. However, we have determined to eliminate the retroactive application of the surcharge adjustments. We have made this change because the rapid escalation in fuel prices which originally prompted introduction of the fuel surcharge has slowed, and we no longer believe the MAC carriers require protection from continued fuel price escalation on a retroactive basis. Accordingly, future surcharge adjustments based upon our monthly review of reported fuel price changes shall be effective prospectively only.[8] Thus, December 1, 1974, reported fuel price changes are the basis for the surcharge rates adopted herein; and price changes reported as of January 1, 1975, will be the basis for a rate adjustment effective prospectively on or about February 1, 1975.

In addition, as discussed hereafter, we have revised the procedure used to determine the surcharge rate. The average per gallon cost of fuel from both military and commercial sources, reflected in the final rates for international MAC services, are set out for each carrier and group in Appendix Q. The ratio of fuel costs to total economic costs, including return and tax provision, are set forth in Appendix R. Each month, the current average fuel cost per gallon will be determined for military fuel by reference to the Defense Supply Agency, and for commercial fuel from the carriers' first-of-the-month fuel price reports, using the "active stations" methodology for commercial fuel prices at each station.[9] The variations in current average fuel cost from that reflected for each carrier in the rate base [10] will then be translated into a total economic cost impact which when weighted for each carrier in the group, at the same weighting reflected in computing the final rate base, produces the net rate impact for the current fuel price changes.[11] Upon receipt and processing of January 1, 1975, fuel price data, surcharge determinations will be made for effectiveness on or about February 1, 1975, and the procedure shall be repeated each month for as long as it is deemed necessary to maintain this factor in the rate.

As set out in Appendix O, the fuel surcharges for December 1, 1974, prices are computed at 1.30, 1.66 and 1.59 percent for long-range, Pacific interisland and "other" short-range MAC services, respectively. These surcharges are primarily the result fo the four to five percent increase in military fuel prices, representing approximately 60 percent of fuel consumption in MAC operations.

Interrupted-trip expense. The notice proposed to disallow interrupted-trip expense as not applicable to MAC operations. Two carriers [12] oppose this disallowance on the ground that such costs are in fact incurred, and are specifically covered by the MAC contracts. It appears that where the interrupted trip is caused by MAC, the contracts permit the carriers to bill MAC separately for the added costs. On the other hand, if the cause of the interrupted trip is beyond the control of either party then such costs are to be borne by the carrier. On this basis, we have included interrupted-trip expense as an allowable cost as indicated in Appendix M.

Leased aircraft. As indicated in the notice, leased equipment costs have been included in conformance with § 399.43 of the Board's policy statements, which sets forth the Board's treatment of leased aircraft for rate-making purposes. That section provides that for rate-making purposes the Board will recognize only actual rental expense. However, in unusual circumstances, a profit element may be added to reflect the additional risks of operations with leased aircraft that are not compensated for by the return on investment. In the final rate determination, in addition to recognizing actual rental expense, we have included a profit element on leased aircraft in those cases where the ratio of the value of the carrier's leased aircraft to the total value of the carrier's fleet assigned to MAC international operation exceeds 40 percent. In our view, such a ratio is sufficiently in excess of the 25.5 percent ratio for the aggregate of MAC carriers as to warrant the inclusion of a profit element for leased aircraft as shown in Appendix L. However, in two instances (Airlift DC–8–63 and Overseas National DC–8–61/63) the projected rental expense plus the allowable profit exceeded depreciation plus return on investment computed as if the aircraft had been owned by the carrier. Therefore, in accord with Board policy, the amounts recognized were adjusted downward to conform with the depreciation and return which would have been allowed if the aircraft had been owned. In addition, as was pointed out in the notice, recognized rental expense is reflected in the determination of burden ratios, general burden, and the cash operating expenses allowed as working capital.

In both its comment and its reply, Trans World Airlines (TWA) argues against this method of applying the policy statement on leased aircraft. The carrier's position is that by its terms the policy statement provides for a return on leased equipment where the ratio of a carrier's leased to owned aircraft exceeds the ratio for the aggregate of domestic trunkline and local service carriers, and that the Board should have used those carrier groups in computing the industry average rather than the aggregate of MAC carriers. TWA points out that this was the technique used by the Board in past MAC rate reviews, and argues that no logical reason exists for treating leased aircraft differently in the present review. In addition, the carrier contends that the leased equipment ratio has not been computed on the basis of the latest available information which it believes the Board is obligated to use. TWA also contends that, whereas the policy statement provides for recognition of a profit element when the carrier's ratio of leased aircraft value to net book value of owned aircraft is significantly in excess of the ratio for the aggregate of domestic trunkline and local service carriers, the Board has improperly determined the need for a profit element by employing the carrier's ratio of leased aircraft value to leased plus owned aircraft value.[13]

Upon consideration, we find that we agree in principle with TWA's contention that the appropriate comparison should be with the aggregate of domestic trunkline and local service carriers' fleets, rather than that of the MAC carriers. Hereafter, for MAC rate purposes, we will compute any recognized return for operations with leased aircraft on that basis rather than on the basis relied upon herein. However, we are not persuaded to re-compute the return recognized in the present proceeding. To revise the calculations would delay finalization of the rule, a result which all of the carriers have sought to avoid, but would produce what we believe would be only a de minimis change in the final rate.[14] We

[7] As a consequence, the carriers should continue to supply the monthly and quarterly fuel reports to the Government Rates Division.

[8] Experience has shown that these computations can be completed on or before the end of the month. Therefore, absent unusual circumstances, we expect the monthly determinations to become effective on the first day of the following month.

[9] Keyed to current fuel consumption reported, by station, for the latest available quarter's station activity.

[10] Computations for fuel costs reflected in the base rate and as at December 1, 1974, are set out in Appendices P and O.

[11] See Appendix O for computation of the surcharges applicable to the base rates established herein, based on military and commercial fuel prices effective as at December 1, 1974.

[12] Northwest Airlines and Trans International Airlines.

[13] The carrier is correct in its assertion. However, TWA has not shown how it is prejudiced by the method employed, and we are not persuaded to determine the need for a profit element on the basis put forth by the carrier.

[14] TWA has calculated the ratio of leased to owned plus leased aircraft value for domestic trunkline and local services carriers as of December 31, 1973, to be 27.1 percent. Accepting the carrier's figures, we do not find the difference in the return allowed by use of the MAC carriers' ratio of 25.5 percent as of December 31, 1973 to be significant.

are not persuaded that such a result is necessary to achieve a fair and equitable minimum MAC rate.[15]

TWA cost data. The rates proposed in the notice did not reflect TWA's MAC operating results since the carrier submitted no cost data. Both the joint carriers and TWA suggest that the Board derive a cost factor for TWA to avoid skewing the final rates toward the costs of stretched jets which are less expensive to operate than the standard jets TWA operates in MAC service. We will not attempt to derive a cost factor for TWA. To begin with, there is no reason to believe that the preponderance of MAC's airlift requirements cannot be met through use of the more efficient stretched jets. However, in order to permit broader participation in the MAC procurement program by operators of both standard and stretched jets, the Board has established the minimum rates on the basis of a weighted average of participating carriers' costs of operating both equipment types. This permits operators of standard equipment to compete for MAC business at rates that more closely approximate their operating costs than would rates established solely on the basis of operating costs for stretched equipment. However, there is nothing sacrosanct about the weighting technique, and, under the circumstances, the use of costs skewed in favor of the more efficient equipment does not appear unreasonable. In view of the foregoing, and the fact that the carrier has provided no cost data, and indeed had expressed its willingness to accept rates established on the basis of other carriers' submissions,[16] we are not persuaded to derive costs for TWA's standard jet operations.

Investment. Since, as discussed above, the cost data have been adjusted to reflect certain fiscal year 1975 cost increases, the investment data has also been updated to January 1, 1975 the mid point of the latest forecast year.

Determination of rate. The following table shows the total economic costs (Appendices A and B) recognized for each carrier and aircraft for round-trip passenger and cargo charters:

[15] Appendix L has been updated, however, to reflect the carriers' investment as of December 31, 1973, the latest available information.

[16] Letter from the carrier dated September 13, 1973.

	Per passenger-mile		Per cargo ton-mile	
	Standard	Stretched	Standard	Stretched
Airlift, DC–8–63		2.316		9.913
Capitol, DC–8–55	2.811		10.784	
DC–8–63		2.490		10.061
Northwest, B–707	3.098		12.526	
ONA, DC–8–61		2.444		9.734
DC–8–63		2.466		10.066
Pan American, B–707	3.231		12.164	
Saturn, DC–8–54	3.276		12.647	
DC–8–61		2.881		11.876
Seaboard, DC–8–63		2.444		10.658
Flying Tiger, DC–8–63		2.453		10.512
TIA, DC–8–61		2.511		10.279
DC–8–63		2.429		9.796
World, DC–8–63		2.481		9.959

Since the total economic costs have been updated to fiscal year 1975, we have weighted these unit costs by the current year (1975) MAC contract fixed-buy revenues, as opposed to the weighting used in the Notice (1974 contract fixed-buy revenues). In our judgment, the average costs thus produced take into consideration, on an equitable basis, the range of individual carrier costs. As set out in Appendix G, the weighted unit costs for regular jet aircraft are 3.182 cents per passenger-mile and 12.164 cents per ton-mile for passenger and cargo Category B round-trip services, respectively. Correspondingly, the respective passenger and cargo unit costs for round-trip services with stretched jet equipment are 2.481 cents per passenger-mile and 10.136 cents per ton-mile.

The mileage absorption factors reflected in the rate determination, which recognize the difference between revenue miles flown used in costing and the standard mileages used for payment purposes, are the same as that used in the Notice, except as provided below, and are derived from experience data furnished by the carriers. Appendix F shows the computation of the average relationship of operating miles and pay miles. We have applied this ratio to the adjusted costs, by classes of aircraft as shown in Appendix H. Regular jets in passenger service were operated on an average of 1.74 percent, and stretched jets an average of 0.68 percent greater distances than represented by the MAC pay mileages. In cargo services, the averages were 1.84 and 2.67 percent greater for regular and stretched jets, respectively. These absorption factors are the same as were developed in the Notice (except for the elimination of Saturn's DC–8–54 experience in passenger service) since more current data was not available.[17] Where applying the absorption factors to the adjusted costs, stretched and regular jets were weighted on the basis of MAC fiscal 1975 contract fixed-buy revenues. As set forth in Appendix H, the proposed round-trip rates so derived are 2.848 cents per passenger-mile and 10.966 cents per cargo ton-mile. These rates are approximately 16 percent above the current passenger rate and 13 percent above the current cargo rate, including the 6.09 percent commercial fuel surcharge effective December 1, 1974 by ER–894. The increase in the unit rates are attributable to the reduction in the volume of MAC services, increases in fuel prices (both commercial and military, now that the military automatic fuel clause has been eliminated) and the annualization of wage and other operating cost increases.

The one-way rates have been derived in the same manner described in the Notice. However, since we have updated other data for fiscal 1975, we have also updated the commercial revenue backhaul data to reflect the latest reported results—the year ended June 30, 1974. Based on our analysis of the Form 243 data (see Appendix I), the commercial backhaul factors are 12.38 percent for passenger trips and 48.99 percent for cargo trips. The derivation of the one-way rates, based on these factors, is shown in Appendix J. The resulting minimum rates are 5.119 cents per passenger-mile for one-way passenger charters and 16.504 cents per ton-mile for one-way cargo charters. These rates represent an increase in the current one-way passenger rates of about 10 percent, including the 6.09 percent commercial fuel surcharge which was effective December 1, 1974 by ER–894 and a decrease in the one-way cargo rate of 12 percent.[18]

We have determined the line-haul rates for convertible and mixed services in the same manner as in previous rate reviews. However, for the mixed Coral Sea operation, in accordance with the Notice, we have set the conversion charge at $207 per pallet.

Category B Minimum Rates for Small Turbine Aircraft

Set forth below are the existing minimum rates for small turbine aircraft, the rates proposed in the notice, and the revised fair and reasonable minimum rates adopted herein, together with the percentage differences between the current rates and the rates adopted.

[17] DOD in its comment took exception to the mileage absorption factor computed for Saturn Airways in its passenger service with the DC–8–54 aircraft which showed a 23.836 percent deviation. DOD claimed that because this factor is almost five times larger than the next highest deviation in passenger service it must be erroneous, and; therefore should not be relied upon in determining the overall absorption factor. The joint carriers' comment suggests that the absorption factor for Saturn shown in Appendix F to EDR–278 was the product of a typographical error in the Appendix. However, the data submitted by the carrier in its information response was as follows: passenger-miles flown 220,265; pay-miles 177,868 (Schedule R for the year ended 6/30/73). This produces an absorption factor of 23.836 percent. We agree with DOD that this factor is unrealistic and have excluded it in our computation. Also, we will not adjust World's absorption factor to reflect its fiscal 1974 experience, as requested by the joint carriers.

[18] Due to the heavier impact for the increased commercial backhauls.

Passengers (cents per passenger-mile):				
Round-trip	3.627	3.718	4.613	27.19
1-way	6.928	7.102	8.810	27.17
Cargo (cents per ton-mile):				
Round-trip	17.999	18.204	23.363	29.80
1-way	35.819	36.226	46.492	29.80

[1] Effective Oct. 29, 1974, ER-879, and also reflects the fuel surcharge imposed by ER-894.

The foregoing rates reflect changes, indicated in the Appendices, which are similar to those made for the large turbine aircraft. As proposed in the notice, we have equated the rates for the L-382/L-100-10/20/30 with the B-727 in both the Pacific interisland operation and the "all other" category of operations. We have also eliminated the rate provisions for piston-powered aircraft.

World's costs have been used in developing the rates for the Pacific interisland classification and Eastern's in the "all other" short-range service category. This is consistent with the fiscal 1975 MAC contracts, and we have followed those classifications in assessing costs for our rate-making determinations.

The adjustments from the costs proposed in the Notice for small turbine aircraft charters are based on the same general principles indicated for the large jets, as shown in Appendices C and D. The major cost revisions involve changes resulting from application of October 1, 1974 fuel prices, the elimination of the automatic fuel adjustment clause for military fuel, an allowance for interrupted-trip expense, and the inclusion of increased labor costs as the result of the contracts signed since the original forecasts were submitted.

As was pointed out in the Notice, since there is only one carrier in each classification, there is no need for weighting, and the carrier's recognized costs represent the proposed round-trip passenger and cargo rates.

As was also set forth in the notice, the Form 243 reports indicate that no adjustment is warranted for commercial backhauls in the short-range classifications. For the empty backhauls, we estimate cost savings of approximately nine percent for passenger trips, the same as for long-range services, and one percent for cargo operations, both as reflected in the Notice.

The convertible and mixed rates for the short-range aircraft were derived on the same basis as their counterpart rates for long-range aircraft. The adjustment factors and computations for the convertible rates are set forth in Appendix K.

Individually Ticketed and Waybilled Services

Category A and Z services. In the notice we did not propose revised rates for either Category A passenger or cargo services or Category Z passenger services because of the need for a thorough re-examination of the economic basis for these rates. We indicated that our proposals for these services would be considered in a separate rule making, and that in the event the proposals were not finalized prior to the completion of the present full-scale review, we would adjust the Category A and Z rates to the level of the Category B one-way rates as determined herein. This was intended to preserve the existing relationship until a definitive determination was made on the Category A and Z proposals. Since our Category A and Z notice of rule making has not yet been issued, we are adjusting the Category A and Z rates to the level of the Category B one-way charter rates.

Pan American in its comments has suggested two adjustments it believes are required to the Category A cargo rates.[19] The first adjustment is to apply the rate to the mileages between military bases rather than the mileages between commercial points. The second adjustment is to restore the minimum pallet weight to 4,500 pounds from its present 3,750 pounds. Since these two adjustments relate to the economics of the rate which is presently under study, we will defer action on both adjustments until our notice of rule making is issued.

Standard Mileage

In the notice, the Board proposed amending § 288.10(b), the standard mileage provisions for Pacific services, by eliminating routings via Wake Island and substituting Guam. The deletion of Wake Island was necessary because the airfield there has been closed to all flights except local support traffic. Both the carriers and DOD concur on this change for flights from Hawaii to Thailand, South Vietnam, and the Philippines, and we have finalized these routing changes as proposed. DOD objects, however, to the Guam substitution on mid-Pacific routings to Japan, Formosa, Okinawa, and Korea. In effect the Department contends that because all aircraft types in use by MAC carriers in passenger operations except the DC-8-61 have sufficient range capability to operate direct from Honolulu to Yokota, application of the per-mile rates to mileage constructed by assuming routings via Guam would require it to pay for considerable circuity which is neither required nor actually flown. DOD contends that substitution of Guam on mid-Pacific cargo flights is also unwarranted because the B-707 and DC-8-50 aircraft, which it alleges perform the bulk of mid-Pacific cargo flights, have sufficient range capability to operate nonstop between Honolulu and Yokota.

The joint carriers, on the other hand, although agreeing as to passenger flights, contend that for mid-Pacific cargo flights substitution of Guam for Wake Island is necessary because neither the DC-8-63 nor the DC-8-61 can be operated nonstop from Honolulu to Yokota carrying the prescribed ACL. Since these aircraft must make a technical stop, the carriers argue that the standard mileage should be based upon routings via Guam if the carrier is to be compensated for the mileage actually flown. The carriers also argue that if the same standard mileages are not adopted for all aircraft types, a competitive imbalance would be created, a situation which in the past they contend the Board has sought to avoid.

Based upon supplemental information obtained from carriers operating MAC flights over mid-Pacific routings, it appears that certain aircraft types are in fact capable of operating nonstop from Honolulu to Yokota. For this reason and considering the significant amount of circuity involved, we agree with DOD that an across-the-board substitution of Guam for Wake Island is not warranted. Instead, we will amend the routing provision in § 288.10(b) to provide for mid-Pacific routings either via Guam or direct thus giving to MAC the option to determine the required routings in the contract specifications.

Convertible Rates

The notice proposed a minimum notification time of 30 days if conversion rates are to apply. Should MAC need to convert a flight on less than 30 days' notice, it was proposed to apply one-way rates to each leg of the converted flight. DOD contends that rather than incorporate a minimum notification time in Part 288, it is prepared to amend the existing MAC contracts to provide a minimum conversion notice of 7 days under all conditions. DOD believes that the 7 days' notice will provide carriers a reasonable opportunity to schedule operations while preserving necessary flexibility for MAC. The joint carriers, on the other hand, argue that the proposed seat-conversion charge fails to adequately compensate carriers for the disruption to commercial operations occasioned by short-notice calls by MAC for convertible trips. The carriers contend that the appropriate way to compensate for these costs is to apply the one-way rates to convertible operations, but that, in any event, they are entitled to a minimum of 30 days' notice to plan for each convertible trip.

Upon review of the comments, including DOD's offer of 7 days' advance notice and the carriers' lack of evidence to support the need for application of one-way rates, we have determined to adopt the increased seat-conversion charge proposed in the notice, but to provide for application of convertible rates where 10 days' notice is provided as opposed to the 30 days proposed. In its comment, the DOD urges provision of convertible services on terms which preserve for it necessary operational flexibility. We now believe the proposed 30 days' notice requirement would not provide DOD the flexibility it seeks. Accordingly, we find a reasonable balancing of the conflicting interests is struck by adopting the proposed $75 seat-conversion charge and providing for application of convertible rates where 10 days' advance notice is provided.

Amendment of § 288.8. DOD points out in its comments that the proviso in this section refers to 12 loaded pallets for all DC-8 aircraft, although stretched DC-8 jets can accommodate 16 loaded pallets. The Department believes the section should be amended to include the correct number of pallets. We agree and have amended the section accordingly.

The joint carriers request an amendment of this section to reduce the passenger-ACL for the DC-8-63 on convertible flights from 219 to 201 passengers. The reduction is said to be necessary to accommodate cargo nets and other equipment which must be carried on the passenger leg without the possibility of an airlift deficit. The present ACL for convertible stretched jet services was adopted in ER-786 based upon a test program conducted by MAC. The test results did not indicate any need for a reduction of the passenger-ACL. The carriers have offered no basis to depart from the findings in the MAC study, and we are therefore not persuaded to adopt the proposed change.

In consideration of the foregoing, the Board hereby amends Part 288 of the economic regulations (14 CFR Part 288), effective January 17, 1975, as follows:

1. Amend paragraphs (a) and (d) of § 288.7 to read as follows:

§ 288.7 Reasonable level of compensation.

It shall be a condition on the exemption granted by this part that the level of compensation for transportation provided shall not be uneconomically low. In the absence of specific Board approval, the compensation for such services shall not be less than the following:

(a) For charter service in foreign and overseas transportation, and in transportation between the 48 contiguous States, on the one hand, and Alaska or Hawaii, on the other hand, other than specified in paragraph (c) of this section:

Amended rates effective

Aircraft type	Passenger rates, per passenger-mile		Cargo, per ton-mile		Convertible rates [1]		Mixed passenger-cargo rates, per revenue plane-mile [1] [2]	
	Round trip	1 way	Round trip	1 way	Passenger leg, per passenger-mile	Cargo leg, per ton-mile	Round trip	1 way

46 and 4							4.485	8.755
0 and 7							4.205	8.369

[1] Conversion rates shall apply only for flights that are converted a minimum of 10 days in advance of the performance of the service. Conversion charges for convertible flights or variable mixed flights shall be at the rate of $75 per seat changed on each segment. If a flight is converted with less than 10 days' notice, the 1-way rates shall apply to each leg of the converted round trip.

[2] For the Coral Sea variable mixed operation the conversion charge shall be $207 per cargo pallet in lieu of a seat charge.

[3] Also applies to wide-bodied (B-747, DC-10, and L-1011) equipment.

[4] Shall also apply to the L-382/L-100-10/20/30 and CV-990 aircraft.

Provided, That subject to the provisions of § 288.8, the minimum rates set forth above shall not be applicable to passengers or cargo carried on a particular trip in excess of the amount that the contract calls for DOD to supply and the carrier to provide space: *And provided further*, That if a carrier performs a one-way charter flight carrying nonmilitary traffic for a nonmilitary user, the carrier may charter the return flight of that aircraft to DOD at a published one-way charter tariff rate that is in fact available to the general public for equivalent services: *Provided, however*, That effective January 17, 1975, the total minimum compensation pursuant to the rates set forth above for (1) services performed with regular jet, wide-bodied jet and DC-8F-61/63 aircraft, (2) Pacific interisland services performed with B-727 aircraft, and (3) all other services performed with B-727 aircraft shall be increased by surcharges of 1.30 percent, 1.66 percent and 1.59 percent, respectively.[20]

• • • • •

(d) For Category A transportation services performed on and after January 17, 1975:

[19] The carrier also renews its request for the inclusion within Part 288 of a so-called Category Y or blocked-space rate. Our most recent views on this subject are set forth in Order 74-10-132, October 25, 1974, and further discussion of the matter is unnecessary.

[20] The surcharge provisions for services performed with B-727 aircraft will be applied to all other common-rated aircraft types.

V 4 0 1 6 JAN 23 75 XUM

(1) *Passengers.* 5.119 cents per passenger-mile.

(2) *Cargo.* 16.504 cents per ton-mile.

Provided, That effective January 17, 1975, the total minimum compensation pursuant to the rates specified in paragraphs (d)(1) and (2) of this section shall be increased by a surcharge of 1.30 percent.

(3) The foregoing rates per passenger-mile and per ton-mile shall be applied to the shortest mileage between the commercial air carrier points as set forth in the latest IATA Mileage Manual used to compute point-to-point passenger fares and cargo rates per pound.

(4) For cargo services to/from military bases outside the United States, the rates per pound shall not be less than the rates to/from the nearest commercial point, computed in accordance with paragraphs (d)(2) and (3) of this section.

(5) The cargo charges determined in accordance with paragraphs (d)(2) through (4) of this section shall be applied on the basis of a standard weight per pallet of 3,750 pounds: *Provided,* That it is not required that cargo be tendered in pallets.

• • • • •

2. Amend § 288.8 to read as follows:

§ 288.8 Minimum aircraft loads.

The minimum charges established in § 288.7(a) shall be deemed economic only when the resulting revenues are at least the equivalent of such charges applied to the following minimum loads:

Aircraft type	Number of passengers, all-passenger and convertible flights	Tons of cargo: All-cargo flights	Tons of cargo: Convertible flights
B–747	375	90.0	90.0
DC–10–40	280	----	----
DC–10–30	303	75.0	75.0
L–1011	272	----	----
B–707–320B/C	165	36.5	31.7
B–707–300 series	159	----	----
B–707–138	137	----	----
B–707–100 series (other)	149	----	----
DC–8F–61, 63	219	45.0	39.0
DC–8–62	165	39.2	----
DC–8F	165	36.5	31.7
DC–8 (50 series)	149	----	----
DC–8 (other)	147	----	----
DC–9–30	95	----	----
B–727	105	18.0	15.0
CV–990	105	----	----
L–382	----	20.7	----
L–100–10/20/30	----	20.7	----

Provided, That for the purpose of this section, compensation equal to the minimum rate applied to the load that actually can be accommodated shall be considered economic whenever a carrier is prevented from accommodating a load equal to the minimum specified above, for reasons other than adverse weather, off-loading by DOD, or the bulk of the cargo supplied by DOD, but in no event less than 90 percent of the above minimum loads. For purpose of this proviso, failure by the carrier to accommodate more than 12 loaded pallets on the B–707–320/B/C and DC–8F aircraft, and 16 loaded pallets on the DC–8–61/63 aircraft, irrespective of the total weight thereof, on the all-cargo segment of any convertible charter flight, due to the presence of galley equipment and/or crew facilities on the main deck of the aircraft for use on that convertible charter flight, is deemed to be due to the bulk of the cargo supplied by DOD.

3. Amend paragraph (b) of § 288.10 to read as follows:

§ 288.10 Computation of passenger-miles and cargo ton-miles.

• • • • •

(b) *Pacific services.* In the case of Pacific services between points specified in the following table, the mileage shall be computed via the indicated routings:

Between	Thailand	South Vietnam	Philippine Islands	Guam	Korea	Hawaii	Formosa	Okinawa	Japan	Alaska
U.S. West Coast [A]	4 or 6	4 or 6	4 or 6	5	4 or 8 [B]	1	4 or 8 [B]	4 or 8 [B]	2 or 5 [B]	1
Alaska	3	3	3	3	3	----	3	3	1	
Japan	1	1	1	1	1	[B] 1	1	1		
Okinawa	1	1	1	1	1	[B] 3	1			
Formosa	1	1	1	1	1	[B] 3				
Hawaii	7	7	7	1	[B] 3					
Korea	9	9	1	1						
Guam	1	1	1							
Philippine Islands	1	1								
South Vietnam	1									

ROUTINGS

[A] Any place in the States of California, Oregon, or Washington.
[B] Honolulu-Yokota AB, Japan either direct or via Guam as specified in the MAC contract.

1. Direct.
2. Via Anchorage.
3. Via Yokota AB, Japan.
4. Via Anchorage-Yokota AB, Japan.
5. Via Honolulu.
6. Via Honolulu-Guam.
7. Via Guam.
8. Via Honolulu-Yokota AB, Japan.
9. Via Taipei.

(Secs. 204, 403 and 416, Federal Aviation Act of 1958 as amended: 72 Stat. 743, 758 and 771, as amended; (49 U.S.C. 1324, 1373 and 1386))

Effective: January 17, 1975.

Adopted: January 17, 1975.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

PART 656—CARPOOL DEMONSTRATION PROJECTS

Extension of Termination Date

The Federal Highway Administrator is amending the regulations of the Federal Highway Administration relating to carpool demonstration projects to reflect the fact that the statutory termination date for the Federal program of funding carpool demonstration projects has been extended for 1 year. In section 3 of the Emergency Highway Energy Conservation Act, Pub. L. 93–239, Congress specified that a carpool demonstration project could not be approved after December 31, 1974. That termination date was changed to December 31, 1975 by virtue of the enactment of section 120 of the Federal-Aid Highway Amendments of 1974.

Since this amendment relates to administration of a program of Federal grants for carpool demonstration projects, notice and public procedure thereon are unnecessary, and it is effective on the date of issuance set forth below.

In consideration of the foregoing, § 656.11 in Part 656 of Chapter I of title 23, CFR is revised to read as follows:

§ 656.11 Termination.

A carpool demonstration project may not be approved after December 31, 1975.

This amendment is issued under the authority of 23 U.S.C. 315, section 120 of the Federal-Aid Highway Amendments of 1974, and the delegation of authority by the Secretary of Transportation at 49 CFR 1.48.

Issued on January 15, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 448]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

[Docket No. FI-310]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Deletion of Certain Iowa Communities From List of Eligibles, Correction

On July 12, 1974, in 39 FR 25649, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Davenport, Iowa, as an eligible community and included Map No. H 190242 11 which indicates that Lots No. 1 through 11 of Peaceful Valley, Third Addition, Scott County, Davenport, Iowa, as recorded in Deed Book Volume D, pages 5 and 12 of the records of the Recorder of Scott County, Iowa, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in view of additional, recently acquired, flood information that the above property is not within the Special Flood Hazard Area. Accordingly, effective June 21, 1974, Map No. H 190242 11 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (secs. 408-410, Pub. L. 91-152, December 24, 1969), (42 U.S.C. 4001-4127); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: January 13, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75-2174 Filed 1-22-75;8:45 am]

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER I—CREDIT ACTIVITIES

PART 91—LOANS TO INDIANS FROM THE REVOLVING LOAN FUND

Revision of Part

JANUARY 16, 1975.

This notice is published in exercise of rulemaking authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 31986 of the September 3, 1974, Federal Register (39 FR 31986), there was published a notice of proposed rulemaking to revise Part 91, Subchapter I, Chapter I, of Title 25 of the Code of Federal Regulations. This revision is made pursuant to the authority contained in section 109 of the Act of April 12, 1974 (88 Stat. 77).

The purpose of this revision of Part 91 is to update the regulations to reflect the provisions of the Indian Financing Act of 1974 (Pub. L. 93-262, 88 Stat. 77) which provides for financing the economic development of Indians, Indian organizations and Indian tribe.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed revision. During this period, comments and suggestions were submitted by interested persons. All comments and suggestions received were analyzed and considered in revising the proposed regulations. Some of the comments and suggestions pertained to changes which would require legislative action to change the Indian Financing Act of 1974.

The following major revisions were made to the proposed regulations as a result of the comments received:

1. § 91.1 *Definitions.* Several changes were made to the definitions in § 91.1. Unterminated California rancherias were added in the definition of "reservation" in paragraph (h). Agricultural was added to the definition of "economic enterprise" in paragraph (i). "Relending organization" was defined in a new paragraph (n). "Default" was defined in a new paragraph (o). "Mortgage" was defined in a new paragraph (p). "Financing Statement" was defined in a new paragraph (q). "Applicant" was defined in a new paragraph (r). "Cooperative association" was defined in a new paragraph (s). "Corporation" was defined in a new paragraph (t). "Partnership" was defined in a new paragraph (u).

2. § 91.2 *Kinds of loans.* This section was revised to clarify the intent and to differentiate between United States direct loans and loans made by relending organizations.

3. § 91.3 *Eligible borrowers under United States direct loan program.* This section was formerly entitled "Eligible borrowers". The title was changed to show that it relates to United States direct loans only.

4. § 91.4 *Applications.* This section was expanded to provide for submittal of additional financial information on economic enterprises.

5. § 91.5 *Approval of loans.* This section was revised to differentiate between approvals of United States direct loans and loans made by a relending organization. A provision was added that economic enterprises which are or will be operated on a reservation must comply with the requirement of applicable rules, resolutions and ordinances enacted by the governing body of the tribe, if applicable.

6. § 91.6 *Modification of loans.* This section was revised and expanded to clarify and separate modification of United States direct loans and loans made by relending organizations.

7. § 91.9 *Preservation of historical and archaeological data.* This section was expanded to include procedures to be followed by relending organizations in considering loan applications and modifications, where the use of funds might require archaeological clearance.

8. § 91.10 *Federal Reserve Regulation Z and Fair Credit Reporting Act.* This is a new section to call attention to the need for compliance with the applicable provisions of these Acts.

9. § 91.11 *Interest.* Paragraph (e) of this section was revised to provide that the interest rate on advances made before April 12, 1974 will remain in effect until the loan is paid in full, refinanced or modified to extend the repayment terms.

10. § 91.13 *Security.* This section was revised to provide more details on the kinds of property and income which may be given as security for both United States direct loans and loans made by relending organizations. A provision was added requiring written notice to the tribe of a reservation in advance of a foreclosure which involves the sale of individually owned trust or restricted land which is mortgaged as security for a loan.

11. § 91.16 *Default on loans made by relending organizations.* This is a new section which provides that the procedures to be followed by relending organizations in correcting defaults on loans will be included in their declarations of policy and plans of operation.

12. § 91.18 *Uncollectible loans made by relending organizations.* This is a new section and was added to prescribe the procedures to be followed by relending organizations in taking action on uncollectible loans as compared to cancellation of United States direct loans as prescribed in § 91.17.

13. § 91.19 *Assignment of loans.* This section was revised and expanded to include both United States direct loans and loans made by relending organizations.

14. § 91.22 *Repayments on United States direct loans.* This section was formerly titled "Repayments". Procedures were added for collecting, applying and processing of payments made by borrowers on loans made by a relending organization which loans have been declared in default and the assets, including loans and securities, taken over by the United States.

15. § 91.23 *Repayments on loans made by relending organizations.* This new section was added to differentiate between collection and deposit procedures on United States direct loans and loans made by relending organizations.

16. § 91.25 *Loans for expert assistance for preparation and trial of Indian claims.* The title of this section was expanded to avoid misunderstandings regarding the purpose. Paragraph (a) was expanded to clearly identify the source of funds for making loans under this section. Paragraph (c) on approvals of contracts for expert assistance was added. Paragraph (d) was added to prescribe the procedures and requirements in processing vouchers or claims submitted by experts for payment of expenses and services pursuant to the terms of the contract. Paragraph (e) includes a requirement that a copy of the expert's voucher or claim will accompany requests for advance of funds.

Other revisions were made for the purpose of clarification and understanding.

It is necessary that this program be initiated as soon as possible in order to prevent eligible Indians and Indian organizations from losing the business and educational opportunities for which they immediately need the loans authorized by these regulations. Therefore, good cause is found for dispensing with the 30-day deferred effective date of these regulations under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective January 23, 1975.

As revised, Part 91 of Subchapter I, Chapter I, Title 25 of the Code of Federal Regulations reads as follows:

PART 91—LOANS TO INDIANS FROM THE REVOLVING LOAN FUND

Sec.
91.1 Definitions.
91.2 Kinds of loans.
91.3 Eligible borrowers under United States direct loan program.
91.4 Applications.
91.5 Approval of loans.
91.6 Modification of loans.
91.7 Management and technical assistance.
91.8 Environmental and Flood Disaster Acts.
91.9 Preservation of historical and archaeological data.
91.10 Federal Reserve Regulation Z and Fair Credit Reporting Act.
91.11 Interest.
91.12 Records and reports.
91.13 Security.
91.14 Maturity.
91.15 Penalties on default.
91.16 Default on loans made by relending organizations.
91.17 Uncollectible loans made by the United States.
91.18 Uncollectible loans made by relending organizations.
91.19 Assignment of loans.
91.20 Tribal funds.
91.21 Relending by borrower.
91.22 Repayments on United States direct loans.
91.23 Repayments on loans made by relending organizations.
91.24 Approval of articles of association and bylaws.
91.25 Loans for expert assistance for preparation and trial of Indian claims.

AUTHORITY: Sec. 109, 88 Stat. 77.

§ 91.1 Definitions.

Wherever used in the regulations in this Part, the terms defined in this section shall have the meanings stated:

(a) "Secretary" means the Secretary of the Interior.

(b) "Commissioner" means the Commissioner of Indian Affairs or his authorized representative.

(c) "Indian" means any person who is a member of any Indian tribe, band, group, pueblo or community which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs and any "Native" as defined in paragraph (d) of this section.

(d) "Native" means a citizen of the United States who is a person of one-fourth degree or more Alaskan Indian (including Tsimshian Indians not enrolled in the Metlakatla Indian Community), Eskimo, or Aleut blood, or combination thereof. The term includes any Native as so defined either or both of whose adoptive parents are not Natives. It also includes, in the absence of proof of a minimum blood quantum, any citizen of the United States who is regarded as an Alaska Native by the Native village or Native group of which he claims to be a member and whose father or mother is (or, if deceased, was) regarded as Native by any village or group.

(e) "Tribe" means any Indian tribe, band, group, pueblo, or community, including Native villages and Native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in paragraphs (f) and (g) of this section, which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs.

(f) "Native village" means any tribe, band, clan, group, village, community, or association in Alaska listed in sections 11 and 16 of the Alaska Native Claims Settlement Act (85 Stat. 688) or which meets the requirements of this Act, and which the Secretary determines was, on the 1970 census enumeration date (as shown by the census or other evidence satisfactory to the Secretary, who

V 40 16 JAN 23 75 XUM

shall make findings of fact in each instance), composed of twenty-five or more Natives.

(g) "Native group" means any tribe, band, clan, village, community, or village association of Natives in Alaska composed of less than twenty-five Natives, who comprise a majority of the residents of the locality.

(h) "Reservation" means Indian reservations, unterminated California rancherias, public domain Indian allotments, former Indian reservations in Oklahoma, and land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act (85 Stat. 688).

(i) "Economic enterprise" means any Indian-owned, commercial, industrial, agricultural or business activity established or organized for the purpose of profit, provided that eligible Indian ownership constitutes not less than 51 percent of the enterprise.

(j) "Organization" means the governing body of any Indian tribe, as defined in paragraph (e) of this section, or entity established or recognized by such governing body for the purpose of this Act.

(k) "Other organizations" means any non-Indian individual, firm, corporation, partnership, or association.

(l) "Profits" mean the net income earned after deducting operating expenses from operating revenues.

(m) "Revolving loan fund" means all funds that are now or hereafter a part of the revolving fund authorized by the Act of June 18, 1934 (48 Stat. 986), the Act of June 26, 1936 (49 Stat. 1968), and the Act of April 19, 1950 (64 Stat. 44), as amended and supplemented including sums received in settlement of debts for livestock pursuant to the Act of May 24, 1950 (64 Stat. 190) and sums collected in repayment of loans made including interest or other charges on loans and any funds appropriated pursuant to Section 108 of the Indian Financing Act of 1974 (88 Stat. 77).

(n) "Relending Organization" means tribes as defined in paragraph (e) of this section, Indian credit associations and associations whose members have a common bond of occupation and/or residence which are organized for the purpose of borrowing from the revolving loan fund in order to conduct a relending program.

(o) "Default" means failure of a borrower to make scheduled payments on a loan, failure to obtain the lender's approval for disposal of assets mortgaged as security for a loan, or failure to comply with the covenants, obligations or other provisions of a loan agreement.

(p) "Mortgages" mean mortgages and deeds of trust evidencing an encumbrance of trust or restricted land, mortgages and security agreements executed as evidence of liens against crops and chattels, and mortgages and deeds of trust evidencing a lien on leasehold interests.

(q) "Financing statement" means the document filed or recorded in county or state offices pursuant to the provisions of the Uniform Commercial Code notifying third parties that a lender has a lien on the chattels and/or crops of a borrower.

(r) "Applicant" means an applicant for a United States direct loan from the revolving loan fund or a loan from a relending organization.

(s) "Cooperative Association" means an association of individuals organized pursuant to state, federal or tribal law, for the purpose of owning and operating an economic enterprise for profit, with profits distributed or allocated to patrons who are members of the organization.

(t) "Corporation" means an entity organized pursuant to state, federal or tribal law, with or without stock, for the purpose of owning and operating an economic enterprise.

(u) "Partnership" means two or more persons engaged in the same business, sharing its profits and risks, and organized pursuant to state, federal, or tribal law.

§ 91.2 Kinds of loans.

Loans from the Indian Revolving Loan Fund shall be made for purposes which will improve and promote the economic development on Indian reservations.

(a) Loans may be made by the United States to eligible relending organizations for relending to members for economic enterprises and to eligible tribes for relending to members, eligible corporations, cooperative associations, partnerships and subordinate bands and for financing tribal economic enterprises, which will promote the economic development of a reservation and/or the group or members thereon. Loans made by tribes or relending organizations may be for the following purposes:

(1) To individual Indians or Natives, cooperative associations, corporations and partnerships, to finance economic enterprises operated for profit, the operation of which will contribute to the improvement of the economy of a reservation and/or the members thereon.

(2) To individual Indians or Natives for purposes of purchasing, constructing or improving housing on a reservation and to be occupied by the borrower.

(3) To individual Indians and Natives for purposes of obtaining a college or graduate education and degree in a field which will provide employment opportunities, provided that adequate funds are not available from sources such as grants, scholarships or other loan sources.

(4) To individual Indians and Natives for purposes of attending vocational schools which provide training in desired skills in a field in which there are employment opportunities, provided that adequate funds and/or training are not available from grant or scholarship sources or federal or state training programs.

Loans may also be made by the United States to tribes for loaning to or investing in other organizations subject to the provisions in paragraph (d) of this section.

(b) Direct loans may be made by the United States to eligible tribes, individual Indians and Natives, corporations, partnerships or cooperative associations. Direct loans from the United States will be made for the following purposes:

(1) To eligible tribes, individual Indians, Natives, or associations thereof, corporations and partnerships, to finance economic enterprises operated for profit, the operation of which will contribute to the improvement of the economy of a reservation and/or the members thereon.

(2) To individual Indians and Natives for purposes of purchasing, constructing or improving housing on a reservation and to be occupied by the borrower.

(3) To individual Indians and Natives for purposes of obtaining a college or graduate education and degree in a field which will provide employment opportunities, provided that adequate funds are not available from sources such as grants, scholarships or other loan sources.

(4) To individual Indians and Natives for purposes of attending vocational schools which provide training in desired skills in a field in which there are employment opportunities, provided that adequate funds and/or training are not available from grants or scholarship sources or federal or state training programs.

(c) Before a United State direct loan is approved, the Commisioner may require the applicants to prepare a market and capacity report on existing or proposed economic enterprises for which financing is requested if the operation involves manufacturing, selling or providing services.

(d) Loans may be made to eligible tribes and Indian organizations for use in attracting industries and economic enterprises, the operation of which will contribute to the economy of a reservation. Tribes and Indian organizations may receive loans from the revolving loan fund for investment in or lending to other organizations regardless of whether they are organizations of Indians. However, not more than 50 percent of the loan made to an Indian organization may be used for the purpose of making a loan to or investing in other organizations. Applications for loans to provide funds for lending to or investing in other organizations already in operation will be accompanied by: (1) audited balance sheets and operating statements of the other organization for the immediate three preceding years; (2) pro forma operating statement and balance sheets for the succeeding three years reflecting the results of operations after injection of the additional funds; (3) names of owners or if a corporation and stock has been issued, names of major stockholders and shares of stock owned by each; (4) a copy of the articles of incorporation and bylaws, if incorporated, or other organization papers if not incorporated; (5) names of members of the board of directors and officers with

a resume of education and experience, and the number of shares of stock owned by each in the corporation; (6) purposes for which loan or investment will be used; and (7) if for manufacturing, selling or providing services, a market and capacity report will be prepared. If a proposed operation is to be established, the information in subparagraphs (2) through (7) of this paragraph will be furnished. The Commissioner may require additional information on the other organization, if needed, to adequately evaluate the benefits which the Indian organization will receive and the economic benefits which will accrue to a reservation. If the loan is for relending to another organization, the application must show what security is being offered. If the loan is for investment in another organization, the equity to be obtained must be shown. Copies of all agreements, contracts or other documents to be executed by the Indian organization and the other organization in connection with a loan or investment shall be submitted with the application for a loan and will require Commissioner approval prior to disbursement of loan funds to the Indian organization.

§ 91.3 Eligible borrowers under United States direct loan program.

(a) Loans may be made from the revolving loan fund to eligible tribes and relending organizations, and corporations, cooperative associations and partnerships, having a form of organization satisfactory to the Commissioner. Individual Indians and Natives who are members of tribes which are not making loans to its members and are not members of or eligible for membership in an organization which is making loans to its members, are eligible for United States direct loans. Loans may be made to applicants only when, in the judgment of the Commissioner, there is a reasonable prospect of repayment. Loans may be made only to an applicant who, in the opinion of the Commissioner, is unable to obtain financing on reasonable terms and conditions from other sources such as banks, Farmers Home Administration, Small Business Administration, Production Credit Associations, Federal Land Banks, and is also unable to obtain a guaranteed or insured loan pursuant to Title II of the Indian Financing Act of 1974 (88 Stat. 77).

(b) The establishment of a United States direct revolving loan program on a reservation(s) for making direct loans will require the approval of the Commissioner. All requests for establishing a United States direct revolving loan program on a reservation will be accompanied by reasons for need, estimate of financing needs, and other sources of financing available to meet the needs. The Commissioner, in approving a United States direct loan program, may require the preparation and approval of a plan of operation for conducting the program.

(c) If local lending conditions and/or the information in an application for a loan indicate a probability that an applicant may be able to obtain the loan from other sources, the Commissioner, before approving a United States direct loan, will require the applicant to furnish letters from two customary lenders in the area who are making loans for similar purposes, stating whether or not they are willing to make a loan to the applicant for the same purposes and amount. If a customary lender will make the loan on reasonable terms and conditions, the Commissioner will not approve a United States direct loan.

§ 91.4 Applications.

An applicant for a United States direct loan or a loan from a relending organization conducting a relending program under this Part will submit an application on a form approved by the Commissioner. Applications will indicate the amount of the loan requested, purposes for which loan funds will be used, security to be offered, the period of the loan, assets and liabilities of the applicant, procedures to be followed in handling loan proceeds, repayment of the loan, budgets reflecting income and expenditures of the applicant, and any other information required to adequately evaluate the application. In addition, applications for loans to finance economic enterprises already in operation will be accompanied by: (a) a copy of operating statements, balance sheets and budgets for the prior two operating years or applicable period thereof preceding submittal of the application; (b) current budget, balance sheet and operating statements; and (c) pro forma budgets, operating statements and balance sheets showing the estimated results for operating the enterprise for two years after injection of the loan funds into the operation. A résumé of the applicant's management experience will be submitted with the application. Applications for loans and requests for advance of tribal trust funds for relending under the provisions of this Part shall be accompanied by a declaration of policy and plan of operation or other acceptable plan for conducting the program. Applications for loans or modifications thereof, to establish, acquire, operate, or expand an economic enterprise shall be accompanied by a plan of operation. Declarations of policy or other plans for conducting a relending program and plans of operation for economic enterprises require the approval of the Commissioner before becoming effective. An application from a corporation, partnership or cooperative association, for a United States direct loan or a loan under a relending program for financing an economic enterprise must, in addition to financial statements and budgets, include a copy of documents establishing the entity, or the proposed documents to be used in establishing it.

§ 91.5 Approval of loans.

(a) Loan agreements, including those used by relending organizations in operating a relending program, must be executed on a form approved by the Commissioner. On direct United States loans, the Commissioner will approve the loan by issuing a commitment order covering the terms and conditions for making the loan.

(b) Applications for loans from relending organizations must be approved, if a tribe, by the governing body or designated committee, or other approving committee or body authorized to act on credit matters for a relending organization, before the Commissioner takes action on the application. This designated governing body of the tribe or committee must be authorized to act on behalf of the relending organization as evidenced in the organization's declaration of policy and plan of operation.

(c) Corporations, partnerships and cooperative associations organized for the purpose of establishing, acquiring, expanding, and operating an economic enterprise shall be organized pursuant to federal, state or tribal law. The form of organization shall be acceptable to the Commissioner. Economic enterprises which are or will be operated on a reservation(s) must comply with the requirements of applicable rules, resolutions and ordinances enacted by the governing body of the tribe.

§ 91.6 Modification of loans.

(a) *United States direct loans.* Any modification of the terms and provisions of a United States direct loan agreement must be requested in writing by the borrower and approved by the Commissioner. The borrower will submit the request for modification and will indicate the section(s) of the loan agreement to be modified together with a justification for the modification. Requests for modifications of loan agreements will include an agreement to abide by the provisions of the regulations in this Part and future amendments and modifications thereof.

(b) *Relending program.* Any modification of the terms and provisions of a loan agreement of a borrower from an organization conducting a relending program must be in writing, agreed to by the borrower, and must be approved by the body authorized to act on loans and modifications thereof as provided in an approved declaration of policy and plan of operation or other plan. If a request for modification of a loan has been disapproved by the body authorized to act on the request, the rejected borrower may request the Commissioner to make a direct loan from the revolving loan fund if the Commissioner determines that the rejection is unwarranted.

§ 91.7 Management and technical assistance.

Concurrent with the approval of a United States direct loan to finance an economic enterprise, the Commissioner will assure under Title V of the Indian Financing Act of 1974 that competent management and technical assistance is available to the borrower consistent with the borrower's knowledge and experience and the nature and complexity of the

V 4 0 1 6 JAN 23 75 XUM

economic enterprise being financed. Assistance may be provided by available Bureau of Indian Affairs staff, other government agencies, including states, the tribe or other sources which the Commissioner considers competent to provide needed assistance. Contracting for management and technical assistance may be used only when adequate assistance is not available without additional cost. Contracts for providing borrowers with competent management and technical assistance shall be in accordance with applicable Federal Procurement Regulations and the Buy Indian Act of April 30, 1908, chapter 153 (35 Stat. 71), as amended June 25, 1910, chapter 431, section 25 (36 Stat. 861).

§ 91.8 Environmental and Flood Disaster Acts.

Loans will not be approved until there is assurance of compliance with any applicable provisions of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234, 87 Stat. 975), the National Environmental Policy Act of 1969 (Pub. L. 91-190), (42 U.S.C. 4321) and Executive Order 11514.

§ 91.9 Preservation of historical and archaeological data.

(a) On United States direct loans from the revolving loan fund and modifications thereof to provide additional loan funds which will involve excavations, road or street construction, land development or disturbance of land on known or reported historical or archaeological sites, the Commissioner will take or require appropriate action to assure compliance with the applicable provisions of the Act of June 27, 1960 (74 Stat. 220; (16 U.S.C. 469)), as amended by the Act of May 24, 1974 (Pub. L. 93-291, 88 Stat. 174).

(b) On loans made by relending organizations conducting a relending program using revolving loan funds, the body authorized to act on loan applications and modifications thereof will, at the time of taking action on a loan or request for modification, inform the applicant of the applicability of this Act to the loan and advise the Commissioner of compliance or the need to obtain compliance.

§ 91.10 Federal Reserve Regulation Z and Fair Credit Reporting Act.

(a) United States direct loans and loans made by a relending organization are subject to the provisions of Federal Reserve Regulation Z (Truth In Lending, 12 CFR Part 226; Pub. L. 91-508, 84 Stat. 1127). Economic enterprises which extend credit and require payment of finance charges on unpaid balances will determine the applicability of Regulation Z and comply with the requirements thereof. The Commissioner will issue any necessary instructions to assure compliance with Regulation Z on United States direct loans.

(b) Relending organizations, through their committee or other body authorized to act on loan matters on its behalf, will assure compliance with the applicable provisions of this Act.

(c) The Commissioner will require adherence to the provisions and requirements of Title VI of the Fair Credit Reporting Act in making United States direct loans. Relending organizations, through the body authorized to act on credit matters, will require compliance with the requirements of the Fair Credit Reporting Act.

§ 91.11 Interest.

(a) The interest to be charged on loans by the United States shall be at a rate determined by the Secretary of the Treasury in accordance with section 104, Title I, of the Indian Financing Act of 1974 (Pub.L. 93-262, 88 Stat. 77). The interest rate shall be determined monthly and shall be effective on advances made on loans during the current calendar month. The interest rate shall be stated in the promissory note(s) executed by the borrower(s) evidencing the advance(s).

(b) Additional charges to cover loan administration costs may be determined and charged borrowers.

(c) Educational loans may provide for waiver of interest accruals while the borrower is in school or in military service. Interest shall start on the first day of the month following one year from the date of completion of the educational course or receipt of a degree for which the loan was made. If the course is not completed, interest shall start on the first day of the month following the date the borrower drops out of school. For borrowers in the military service, interest will start on the first day of the month following discharge from service, or following completion of his or her initial enlistment term or four years, whichever is less. Military service for the purpose of this paragraph does not include activities or service in a reserve unit or National Guard which is intermittent or of a duration of less than six months.

(d) The interest rate on loans made by relending organizations which are conducting relending programs shall not be less than the rate the organization pays on its loan(s) from the United States. Relending organizations which adopt and follow the same procedure in calculating interest on educational loans as is followed on educational loans made by the United States, will not be charged interest on loans from the United States on the amount outstanding on educational loans during the period the organization is not charging its borrowers interest.

(e) Interest rates on loan advances made by the United States as shown on promissory notes dated before April 12, 1974, will remain in effect until the loan is paid in full, refinanced, or modified to extend the repayment terms. Unless otherwise specifically provided in a loan contract, the interest rate on advances made after April 12, 1974, will be at a rate determined pursuant to section 104 of Title I of the Indian Financing Act of 1974. The interest rate on loans for expert assistance will be at a rate established in § 91.25 herein.

§ 91.12 Records and reports.

Loan agreements between the United States and tribes, corporations, partnerships, cooperative associations and individual Indians for financing economic enterprises, and to relending organizations, will require that borrowers establish and maintain accounting and operating records that are satisfactory to the Commissioner and submit written reports as required by the Commissioner. The records, accounts, and loan files shall be available for examination and audit by the Commissioner at any reasonable time. Unless an exception is approved by the Commissioner, borrowers will be required to have an annual audit made of the records of relending programs and economic enterprises financed with revolving loan funds, by a certified public accountant or a firm of certified public accountants or other qualified public accountants satisfactory to the Commissioner.

§ 91.13 Security.

(a) United States direct loans shall be secured by such security as the Commissioner may require. A lack of security will not preclude the making of a loan if the proposed use of the funds is sound and the information in the application and supporting papers correctly show that expected income will be adequate to pay all expenses and the loan principal and interest payments, indicating reasonable assurance that the loan will be repaid. Loans made by relending organizations conducting a relending program using revolving loan funds will require borrowers to give security for loans, if available, but the absence of security will not preclude the making of a loan if the proposed use of the funds is sound and the information in the application and supporting papers correctly show that expected income will be adequate to pay all expenses and the loan principal and interest payments, indicating reasonable assurance that the loan will be repaid. The declaration of policy and plan of operation of relending organizations conducting relending programs will include provisions covering the type and amount of security to be taken to secure loans made.

(b) Land purchased by an individual Indian with the proceeds of a loan and land already held in trust or restricted status by the individual Indian may be mortgaged as security for a loan in accordance with 25 CFR 121.34 and the Act of March 29, 1956 (70 Stat. 62; (25 U.S.C. 483a)). Mortgages of individually held trust or restricted land will include only an acreage of the borrower's land which the Commissioner determines is necessary to protect the loan in case of default. On proposed foreclosures which involve the sale of individually held trust or restricted land given as security for a loan, the tribe of the reservation on which the land is located will be notified in writing at least thirty calendar days

in advance of the anticipated date of sale. Land purchased by a tribe with the proceeds of a loan from the revolving loan fund with title taken in a trust or restricted status, and land already held in a trust or restricted status by a tribe may not be mortgaged as security for a loan.

(1) Title to any land purchased by a tribe or by an individual Indian with revolving loan funds may be taken in trust or restricted status unless the land is located outside the boundaries of a reservation or a tribal consolidation area approved by the Secretary. Title to any land purchased by a tribe or an individual Indian which is outside the boundaries of a reservation or approved consolidation area may be taken in trust if the purchaser was the owner of trust or restricted interests in the land before the purchase. Otherwise, title shall be taken in the name of the purchaser without any restrictions on alienation, control, or use.

(c) Mortgages of leasehold interests in land held in trust or restricted status by an individual Indian, may be taken for the purpose of borrowing capital for the development and improvement of the leased premises when permitted in the lease or lease modification agreement. Such mortgages must be approved by the lessor and Commissioner. (70 Stat. 62 (25 U.S.C. 483a)).

(d) Individuals may give assignments of income from trust property as security for loans. Tribes may give assignments of trust income as security for loans provided that the assignment shall be specific as to the source(s) of income being assigned. All assignments of trust income require approval by the Commissioner before becoming effective.

(e) Chattels may be given as security for a loan. A mortgage on chattels, the title to which is known to be in trust, requires Commissioner approval. Non-trust chattels may be mortgaged without approval of any federal official.

(f) Crops grown on lands held in trust or restricted status for the benefit of an individual Indian may be given as security for a loan when approved by the Commissioner. Crops grown on leased, trust or restricted land may be given as security for a loan when permitted by the provisions of a lease or when the owner gives written consent. Approval of the lien document by the Commissioner is required. Crops grown on trust or restricted land held by a tribe which has been assigned to an individual for use may be given as security for a loan, provided the terms of the assignment permit the assignee to give the crops as security for a loan or the tribe's governing body specifically gives consent. The lien document requires Commissioner approval. Crops grown on non-trust or nonrestricted land may be mortgaged without the approval of any federal official.

(g) Title to any personal property purchased with a loan shall be taken in the name of the purchaser and mortgaged to secure the loan unless the loan is otherwise adequately secured. Tribes must adhere to the provisions of their constitutions and bylaws, corporate charters, or other organizational documents when mortgaging tribal property and assigning trust income as security for loans.

(h) Relending organizations receiving a loan from the United States for relending shall be required to assign to the United States as security for the loan all securities acquired in connection with loans made to its members, sub-organizations, or associations from such funds, unless the Commissioner determines that repayment of the loan to the United States is otherwise reasonably assured. Funds advanced to finance a tribal economic enterprise shall be secured by an assignment of net income and net assets of the economic enterprise, unless the Commissioner determines that it is not feasible to require an assignment or that repayment of the loan to the United States is otherwise reasonably assured.

(i) Securing documents or financing statements shall be filed or recorded in accordance with applicable state or federal laws except for those customarily filed in Bureau of Indian Affairs offices. Mortgages on documented vessels will be filed at the customs house designated as the home port of the vessel as shown on the marine document.

§ 91.14 Maturity.

The maturity of any United States direct loan shall not exceed thirty years. Loans made will be scheduled for repayment at the earliest possible date consistent with the purpose of the loan and the repayment capacity of the borrower.

§ 91.15 Penalties on default.

Unless otherwise provided in the loan agreement between the United States and a borrower, failure on the part of a borrower to conform to the terms of the loan agreement will be deemed grounds for the taking of any one or all of the following steps by the Commissioner:

(a) Discontinue any further advance of funds contemplated by the loan agreement.

(b) Take possession of any or all collateral given as security and in the case of individuals, corporations, partnerships or cooperative associations, the property purchased with the borrowed funds.

(c) Prosecute legal action against the borrower or against officers of corporations, tribes, bands, credit associations, cooperative associations, and other organizations.

(d) Declare the entire amount advanced immediately due and payable.

(e) Prevent further disbursement of credit funds under the control of the borrower.

(f) Withdraw any unobligated funds from the borrower.

(g) Require relending organizations conducting a relending program to apply all collections on loans to liquidate the debt to the United States.

(h) Take possession of the assets of a relending organization conducting a relending program and exercise or arrange to exercise its powers until the Commissioner has received acceptable assurance of its repayment of the revolving loan and compliance with the provisions of the terms of the loan agreement.

(i) Liquidate, operate or arrange for the operation of economic enterprises financed with revolving loans made to individuals, tribes, corporations, partnerships and cooperative associations until the indebtedness is paid or until the Commissioner has received acceptable assurance of its repayment and compliance with the terms of the loan agreement.

§ 91.16 Default on loans made by relending organizations.

Relending organizations conducting relending programs using revolving loan funds will follow prudent lending practices in making and servicing loans and take appropriate actions to protect their interests in the security given to secure repayment of loans. Declarations of policy and plans of operation shall include procedures which will be followed in acting to correct a default, such as modification of loan agreement or foreclosure and liquidation of security. Relending organizations employing a general counsel will refer legal questions on foreclosure procedures and sale of security to their counsel.

§ 91.17 Uncollectible loans made by the United States.

If the Secretary determines that a United States direct loan is uncollectible in whole or in part or is collectible only at an unreasonable cost or when such actions would in his judgment be in the best interest of the United States, he may cancel, adjust, compromise, or reduce the amount of any loan or any portion of any loan made from the revolving loan fund. The Commissioner may adjust, comprise, subordinate or modify the terms of any mortgage, lease, assignment, contract, agreement or other document taken as security for loans. The cancellation of all or part of a loan shall be effective only after the following steps have been taken:

(a) The Secretary submits to the Congress a report on adjustments made during the preceding fiscal year with recommendations for cancellations for the current fiscal year.

(b) Congress by concurrent resolution approves the cancellation within sixty legislative days after receipt of the report and recommendations or,

(c) Congress does not take action approving or disapproving the cancellation within sixty legislative days after receipt of the report.

(47 Stat. 564 (25 U.S.C. 386a))

§ 91.18 Uncollectible loans made by relending organizations.

(a) Relending organizations conducting relending programs using revolving loan funds may, when approved by the Commissioner, charge off as uncollectible all or part of the balance of principal and interest owing on loans which are considered to be uncollectible. Usually a charge off includes both principal and interest and provides for cessation of in-

V 40 16 JAN 23 75 XUM

terest accruals on the principal balance owing as of the date of the charge off.

(b) Action to charge off a loan will be in the form of a resolution enacted by the committee or body authorized and responsible for actions on loan matters for the relending organization. Before action is taken to charge off a loan as uncollectible, the lender will make an effort, to the extent feasible, to liquidate the security given for a loan and apply the net proceeds as a repayment on the balance of principal and interest owed. The charge off of a loan by a relending organization as uncollectible will not reduce the principal balance owed to the United States. A charge off will not release the borrower of the obligation or the responsibility to make payments when his or her financial situation will permit. Charge off action will not release the lender of responsibility to continue its efforts to collect the loan.

§ 91.19 Assignment of loans.

A borrower of a direct loan from the United States may not assign the loan agreement or any interest in it to a third party without the consent of the Commissioner. Relending organizations which are conducting relending programs may not assign the loan agreements of borrowers, or any interest therein, to third parties without the approval of the Commissioner and the borrower.

§ 91.20 Tribal funds.

(a) Tribal trust funds may be advanced to tribes when authorized by Congress, requested by the governing body, and approved by the Commissioner for the establishment, operation or expansion of economic enterprises and for relending in accordance with paragraphs (b) and (c) of this section and § 91.21 herein. No interest shall be paid to the United States on such funds. The Commissioner may require the tribe to prepare a plan of operation for the enterprise and a plan establishing the policies and procedures for making loans to members from tribal funds.

(b) Support loans may be made to old, indigent or disabled members and loans may be made to cover burial expenses of members when there is reasonable assurance that the loans will be repaid. Interest may be waived on such loans. These loans, unless otherwise authorized by the Commissioner, shall be accounted for separately by the tribe and administered under a separate plan of operation from the plans governing housing, business, education and agricultural loans.

(c) In order for individuals to be eligible for loans from tribal funds, they must be members of the tribe to which the funds belong.

(d) Failure of a tribe to use tribal funds advanced under paragraph (a) of this section in accordance with the regulations and purposes for which requested shall be grounds for any or all of the following steps to be taken by the Commissioner:

(1) Discontinue further advance of funds requested.

(2) Require that the entire amount advanced be returned to the Treasury.

(3) Prevent further disbursement of tribal funds in the account of an economic enterprise or tribal relending program under the control of the tribe.

(4) Withdraw any unobligated funds from the tribe and deposit the same in the Treasury.

(5) Require that all repayments on loans made by the tribe be used to replace funds advanced to the tribe from the Treasury.

(6) In the case of tribal economic enterprises operated with tribal funds, liquidate, operate or arrange for the operation of the enterprise until all tribal trust funds advanced to the tribe have been replaced in the tribe's United States Treasury account, or until the Commissioner has received acceptable assurance that the funds will be replaced or that the enterprise will be operated in a manner satisfactory to him.

§ 91.21 Relending by borrower.

(a) A relending organization may reloan funds loaned to it by the United States with the approval of the Commissioner. The Commissioner may authorize such lenders to approve applications for particular types of loans up to a specified amount.

(b) Loans shall be secured by such securities as the lender and the Commissioner may require. With the Commissioner's approval, mortgages of individually held trust or restricted land, leasehold interests, chattels, crops grown on trust or restricted land, and assignments of trust income may all be taken as security for loans.

(c) Title to personal property purchased with loans received from relending organizations using revolving loan funds in its relending program shall be taken in the name of the borrower.

(d) The term of a loan made by a relending organization conducting a relending program shall not extend beyond the maturity date of its loan from the United States, unless an exception is approved by the Commissioner and the organization has funds available from which to make scheduled repayment on its loan from the United States. Loans made will be scheduled for repayment at the earliest possible date consistent with the purpose for which a loan is made and the indicated repayment capacity of the borrower.

(e) When a relending organization making loans to its members from moneys borrowed from the United States rejects a loan application from an eligible member, the Commissioner may, in his discretion, make a direct loan from the revolving fund to the applicant if he determines the rejection is unwarranted. In making this determination, the Commissioner will review in detail the reasons why the organization rejected the application; the soundness and feasibility of the applicant's proposal; the applicant's repayment ability, industry and work habits; whether the applicant can obtain licenses or permits required by the tribe; and assurance that the applicant has or can obtain the use of land required, if a loan is approved.

(f) Securing documents or financing statements shall be filed or recorded in accordance with federal or state law except those customarily filed in Bureau of Indian Affairs offices. Mortgages on documented vessels will be filed at the custom house designated as the home port of the vessel as shown on the marine document.

§ 91.22 Repayments on United States direct loans.

Repayments on United States direct loans shall be made to the authorized collection officer of the Bureau of Indian Affairs who shall issue an official receipt for the repayment and deposit the collection into the revolving loan fund. Collections will first be applied to pay interest to date of payment and the balance applied on the principal installment due. Collections on loans made by relending organizations which have been declared in default in which the Commissioner has taken control of the assets of the program (including loans made with balances owing) will be made to an authorized collection officer of the Bureau of Indian Affairs who shall issue a receipt to the payor and deposit the collection in the United States revolving loan fund. The relending organization's loan from the United States will be credited with the amounts collected from its borrowers, with the collections applied first on interest accrued and the balance applied to the principal. Payments on United States direct loans may be made in advance of due dates without penalty.

§ 91.23 Repayments on loans made by relending organizations.

Repayments on loans made by a relending organization conducting a relending program will be made to the officers of the lending organization or individuals designated and authorized in a declaration of policy and plan of operation. Collections on loans and other income to a relending program will be deposited in the lender's revolving loan account as designated in a declaration of policy and plan of operation. Collections on loans will be first applied to pay interest to date of payment with the balance applied to the principal.

§ 91.24 Approval of articles of association and bylaws.

Articles of association and bylaws of relending organizations and cooperative associations require approval of the Commissioner if they make application for a revolving credit loan.

§ 91.25 Loans for expert assistance for preparation and trial of Indian claims.

(a) Loans may be made to Indian tribes, bands and other identifiable groups of Indians from funds authorized and appropriated under the provisions of section 1 of the Act of November 4, 1963 (Pub. L. 88–168, 77 Stat. 301; 25 U.S.C. 70n–1), as amended by the Act of September 19, 1966 (Pub. L. 89–592, 80 Stat. 814) and section 2 of the Act of May 24, 1973 (Pub. L. 93–37, 87 Stat. 73). Loan proceeds may only be used for the employment of expert assistance, other than the assistance of counsel, for the preparation and trial of claims pending before the Indian Claims Commission. Applications for loans will be submitted on forms approved by the Commissioner and shall include a justification of the need for a loan. The justification shall include a statement from the applicant's claims attorney regarding the need for a loan. The application will be accompanied by a statement signed by an authorized officer of the applicant certifying that the applicant does not have adequate funds available to obtain and pay for the expert assistance needed. The Superintendent and the Area Director will attest to the accuracy of the statement or point out any inaccuracies. Loans will be approved by issuance of a commitment order by the Commissioner.

(b) No loan shall be approved if the applicant has funds available on deposit in the United States Treasury or elsewhere in an amount adequate to obtain the expert assistance needed or if, in the opinion of the Commissioner, the fees to be paid the experts are unreasonable on the basis of the services to be performed by them.

(c) Contracts for the employment of experts are subject to the provisions of 25 U.S.C. 81 and require approval by the Commissioner.

(d) Vouchers or claims submitted by experts for payment for services rendered and reimbursment for expenses will be in accordance with the provisions of the expert assistance contract and shall be sufficiently detailed and itemized to permit an audit to determine that the amounts are in accordance with the contract. Vouchers or claims shall be reviewed by the borrower's claims attorney who will certify on the last page of the voucher or by attachment thereto, that the services have been rendered and payment is due the expert and that expenses and charges for work performed are in accordance with the provisions of the contract.

(e) Requests for advances under the loan agreement shall be accompanied by a certificate signed by an authorized officer of the borrower certifying that the borrower does not have adequate funds available from its own financial resources with which to pay the expert. The Superintendent and Area Director will attest to the accuracy of the statement or point out inaccuracies. A copy of the voucher or claim from the expert will accompany the request for advance.

(f) Loan funds will be advanced only as needed to pay obligations incurred under approved contracts for expert assistance. The funds will be deposited in a separate account, shall not be commingled with other funds of the borrower, and shall not be disbursed for any other purpose.

(g) Loans shall bear interest at the rate of 5½ percent per annum from the date funds are advanced until the loan is repaid.

(h) The principal amount of the loan advanced plus interest shall be repayable from the proceeds of any judgment received by the borrower at the time funds from the award become available to make the payment.

(77 Stat. 301 (25 U.S.C. 70n–1 to 70n–7))

MORRIS THOMPSON,
Commissioner of Indian Affairs.

[FR Doc.75–2106 Filed 1–22–75;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

PART 1925—SAFETY AND HEALTH STANDARDS FOR FEDERAL SERVICE CONTRACTS

Recordkeeping Requirements

Pursuant to authority in the Service Contract Act of 1965 (41 U.S.C. 351 et seq.) and in Secretary of Labor's Order No. 12–71 (36 FR 8754), § 1925.3 of Title 29, Code of Federal Regulations, is revised in order to provide uniformity in the recordkeeping requirements of both the McNamara-O'Hara Service Contract Act (41 U.S.C. 351 et seq.) and the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.).

Good cause is found for not providing notice and public procedure concerning this amendment. Notice and public procedure are found unnecessary because Federal Service contractors who were already required to comply with the recordkeeping requirements of the Occupational Safety and Health Act, are by this amendment relieved of maintaining duplicative records. For the above reason also, this amendment does not increase the obligation of persons affected thereby and accordingly shall become effective January 23, 1975.

Section 1925.3 of Title 29, Code of Federal Regulations, is revised to read as follows:

§ 1925.3 Records.

Every contractor or subcontractor shall comply with the recordkeeping requirements of 29 CFR Part 1904.

(Sec. 4, 79 Stat. 1034, 86 Stat. 789 (41 U.S.C. 351 et seq.))

Signed at Washington, D.C. this 16th day of January, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75–2126 Filed 1–22–75;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Colorado Plan—Approval of Revised Developmental Schedule

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, provides procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On September 12, 1973, a notice was published in the FEDERAL REGISTER (38 FR 25172) of the approval of the Colorado plan and of the adoption of Subpart M of Part 1952 containing the decision. On April 10, 1974, the State of Colorado submitted a supplement to its plan which contained a revised developmental schedule. On July 2, 1974, a notice was published in the FEDERAL REGISTER (39 FR 24376) concerning the submission of the supplement to the Assistant Secretary for Occupational Safety and Health and the fact that the question of approval was in issue before him. On December 11, 1974, the State submitted a further revision and clarification of the developmental schedule which differed in some respects from the one submitted on April 10, 1974, and published in the FEDERAL REGISTER in July.

2. *Issues.* Section 1952.193 of Subpart M sets forth the developmental schedule under which the plan will meet the criteria of section 18(c) of the Act and Part 1902 within three years following commencement of the plan's operations. The supplement to the plan concerns a developmental schedule which has been revised because standards and regulations were not promulgated by the State as soon as anticipated. The Colorado Occupational Safety and Health Standards Board which is responsible for the development of standards, regulations concerning variances and rules of procedure for review of appeals and citations was not appointed by the Governor until December 1973.

In addition the proposed Colorado standards had not received approval by the Assistant Secretary. Fifty days after its first meeting, the Board temporarily adopted all Federal standards in effect as of March 1, 1974. Accordingly, enforcement operations under the Colorado plan did not commence until that date.

As approved, the Colorado plan contained a clarification dated February 16, 1973, that a decision concerning a Management Information System would be made by June 30, 1974. The State had advised that the delay in the commencement of enforcement operations has shortened the reporting experience upon which to develop the Management Information System and requested an extension of the time for implementation of the system to December 31, 1974. The State also advised this Department that it would submit a public employee plan by June 1, 1974, and begin implementation of the plan within 45 days after approval. The State further requested a revision of its developmental schedule to delay assuming jurisdiction over agriculture until after extensive State-wide hearings on a complete set of standards for agriculture and ranching operations.

No public comments were submitted concerning the plan change. The December revision of the developmental schedule eliminates the contingent date for the implementation of the public em-

V40 016 JAN 23 75 XUM

ployee program and the promulgation and implementation of agricultural standards. It also provides for adoption of all Federal standards contained in 29 CFR Part 1910 (except for the maritime standards in §§ 1910.13 through 1910.16) and 29 CFR Part 1926, instead of the promulgation of permanent State standards, and extends the date to June 30, 1975, for development and implementation of a Management Information System. These revisions and clarifications do not substantively affect the State's commitments as proposed in the notice of July 2, 1974. (39 FR 24376).

3. *Location of the plan and its supplement for inspection and copying.* A copy of the supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street, NW., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 15010, Post Office Box 3588, 1961 Stout Street, Denver, Colorado 80202; and the Office of the Director of Labor, Department of Labor and Employment, 200 East Ninth Avenue, Denver, Colorado 80203.

4. *Decision.* After careful consideration, the revised developmental schedule for Colorado is approved under Part 1953. It has been determined that there are reasonable assurances that the State will complete the steps contained in the schedule within the three year development period. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. Accordingly, § 1952.193 in Subpart M of Part 1952 is amended as follows:

§ 1952.193 Developmental schedule.

The Colorado State plan is developmental. The following is the developmental schedule as amended and provided by the plan:

(a) Adoption of all Federal standards contained in 29 CFR Part 1910 (except for the maritime standards in §§ 1910.13 through 1910.16) and 29 CFR Part 1926 by August 1974.

• • • • •

(c) A public employee occupational safety and health program will be implemented in two stages: (1) Education and Technical Assistance Activities by January 1, 1975; and (2) Enforcement and Inspection Activities by February 1, 1975.

• • • • •

(f) Development and implementation of a Management Information System by June 30, 1975.

(g) Promulgation and enforcement of agricultural standards by July 1, 1975.

(h) Submission of amendments to the Colorado enabling legislation to the 1975 Session of the Colorado General Assembly.

(Secs. 8(g)(2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2), 667))

Signed at Washington, D.C. this 16th day of January 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-2127 Filed 1-22-75;8:45 am]

CHAPTER XX—OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

PART 2200—RULES OF PROCEDURE

Deletion of Existing § 2200.34 and Substitution of a New § 2200.34

The Occupational Safety and Health Review Commission has determined that it is appropriate to delete the existing § 2200.34 dealing with petitions for modification of abatement period and to substitute therefor a new section with the same number dealing with the same topic. Since notice and public procedure are not required under 5 U.S.C. 553 with respect to the amendment or change of procedural rules of the Occupational Safety and Health Review Commission, public comments are not being solicited on this change.

The practical effect of the change is to shift the responsibility of processing uncontested petitions for modification of the abatement requirements of a citation (29 U.S.C. § 659(c)) from this Commission to the Secretary of Labor. Contested cases will continue to be filed, docketed and processed by the Commission.

The hereinafter described changes to the Rules of Procedure shall become effective on February 18, 1975, and shall apply to all P.M.A.'s filed thereafter.

The action of the Commission is as follows: (1) Section 2200.34 as previously adopted on September 28, 1972, and published in the FEDERAL REGISTER of that date at 37 FR 20240, is hereby deleted in its entirety and the following is substituted in place thereof.

§ 2200.34 Petitions for modification of abatement period.

(a) An employer may file a petition for modification of abatement date when such employer has made a good faith effort to comply with the abatement requirements of a citation, but such abatement has not been completed because of factors beyond the employer's reasonable control.

(b) A petition for modification of abatement date shall be in writing and shall include the following information:

(1) All steps taken by the employer, and the dates of such action, in an effort to achieve compliance during the prescribed abatement period.

(2) The specific additional abatement time necessary in order to achieve compliance.

(3) The reasons such additional time is necessary including the unavailability of professional or technical personnel or of materials and equipment, or because necessary construction or alteration of facilities cannot be completed by the original abatement date.

(4) All available interim steps being taken to safeguard the employees against the cited hazard during the abatement period.

(c) A petition for modification of abatement date shall be filed with the Area Director of the United States Department of Labor who issued the citation no later than the close of the next working day following the date on which abatement was originally required. A later-filed petition shall be accompanied by the employer's statement of exceptional circumstances explaining the delay.

(1) A copy of such petition shall be posted in a conspicuous place where all affected employees will have notice thereof or near each location where the violation occurred. The petition shall remain posted for a period of ten (10) days.

(2) Affected employees or their representatives may file an objection in writing to such petition with the aforesaid Area Director. Failure to file such objection within ten (10) working days of the date of posting of such petition shall constitute a waiver of any further right to object to said petition.

(3) The Secretary or his duly authorized agent shall have the authority to approve any petition for modification of abatement date filed pursuant to subparagraphs (b) and (c). Such uncontested petitions shall become final orders pursuant to sections 10 (a) and (c) of the Act.

(4) The Secretary or his authorized representative shall not exercise his approval power until the expiration of fifteen (15) working days from the date the petition was posted pursuant to paragraphs (c) (1) and (2) by the employer.

(d) Where any petition is objected to by the Secretary or affected employees, such petition shall be processed as follows:

(1) The petition, citation and any objections shall be forwarded to the Commission within three (3) working days after the expiration of the fifteen (15) day period set out in paragraph (c) (4).

(2) The Commission shall docket and process such petition in the same manner as any other contested case, except that all hearings on such petitions shall be handled in an expeditious fashion.

(3) An employer petitioning for a modification of abatement period shall have the burden of proving in accordance with the requirements of 29 U.S.C. § 659 (c), that such employer has made a good faith effort to comply with the abatement requirements of the citation and that abatement has not been completed because of factors beyond the employer's control.

(4) Within ten (10) working days after the receipt of notice of the docketing by the Commission of any petition for modification of abatement date, each objecting party shall file a response setting forth the reasons for opposing the granting of a modification date different from that requested in the petition.

(Sec. 12(g), Pub. L. 91-596, 84 Stat. 1604 (29 U.S.C. § 661(f)))

For the Commission.

Dated: January 20, 1975.

[SEAL] WILLIAM S. MCLAUGHLIN,
Executive Secretary.

[FR Doc.75-2146 Filed 1-22-75;8:45 am]

Title 35—Panama Canal

CHAPTER I—CANAL ZONE REGULATIONS

PART 67—POSTAL SERVICE

Revision of Postal Regulation

This document provides for the continuation of mailing list correction services without charge to Government agencies in the Canal Zone. This revision will eliminate the fee for such services that is necessitated by the United States Postal Service Notice published in the FEDERAL REGISTER on January 19, 1973 (38 FR 1931). The fee established by the said notice applies to the Canal Zone due to its incorporation by reference pursuant to 35 CFR 67.46. The services in question are considered desirable and in the public interest; however, the revenue derived from the prescribed fee is minimal in the Canal Zone.

In 35 CFR Part 67, § 67.46 is revised to read as follows:

§ 67.46 Mailing List Services.

The provisions of 39 CFR relating to mailing list services are applicable to and within the Canal Zone, and to the Canal Zone Postal Service, with the exception that mailing lists submitted by Government agencies within the Canal Zone shall be corrected without charge.

Effective date: This revision is effective October 1, 1973.

(2 C.Z.C. 1131-1143, 76A Stat. 38-40)

Dated: January 9, 1975.

[SEAL] RICHARD L. HUNT,
Acting Governor of the Canal Zone.

[FR Doc.75-2114 Filed 1-22-75;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 15—ENVIRONMENTAL PROTECTION AGENCY

[FRL 313-6]

PART 15-7—CONTRACT CLAUSES

Subpart 15-7.2—Cost Reimbursement Type Supply Contracts

Part 15-7, Contract Clauses, and Subpart 15-7.2, Cost Reimbursement Type Supply Contracts, are hereby added to Chapter 15, Title 41, of the Code of Federal Regulations.

On November 8, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 39584-39585) stating that the Environmental Protection Agency was considering adding paragraph (e) to § 15-7.202-22, Insurance—Liability to Third Persons. Interested parties were invited to submit written data, views, or objections. Comments were considered and we are adopting the regulation without change.

Effective date: This addition shall become effective January 23, 1975.

Dated: JANUARY 15, 1975.

JOHN QUARLES,
Acting Administrator.

1. Part 15-7, Contract Clauses, and Subpart 15-7.2, Cost reimbursement type supply contracts, are added to Title 41, Chapter 15 of the Code of Federal Regulations.

2. The following paragraph (e) is added to the clause entitled "Insurance—Liability to Third Persons" (FPR 1-7.202-22) and the clause with added paragraph (e) is made applicable to all cost reimbursement type research and development contracts.

§ 15-7.202-22 Insurance liability to third persons.

Insert the following clause in cost-reimbursement type supply contracts pursuant to the general policies set forth in Subpart 1-10.5. The clause may be supplemented to provide other types of coverage required by agency procedures.

INSURANCE—LIABILITY TO THIRD PERSONS

(e) The Contractor shall procure and maintain the following insurance: (1) When aircraft are used in the performance of the contract, aircraft public and passenger liability insurance, in such form, in such amounts, and for such periods of time as the Contracting Officer may require or approve; (2) at a minimum public liability insurance, on the comprehensive form of policy, in the amount of $200,000 per claimant and $500,000 per accident; (3) in jurisdictions where all occupational diseases are not compensable under applicable Workmen's Compensation Laws, insurance for occupational diseases is required under the employers' liability section of the insurance policy.

(40 U.S.C. 486(c), 63 Stat. 377 as amended)

[FR Doc.75-2060 Filed 1-22-75;8:45 am]

[FRL 310-4]

PART 15-12, LABOR

Chapter 15, Title 41, Code of Federal Regulations, is amended to add a new Part 15-12, Labor, and a new Subpart 15-12.6, Walsh-Healey Public Contracts Act. This new subpart provides contracting officers with a procedure for processing protests pertaining to the provisions of the Walsh-Healey Act.

It is the general policy of the Environmental Protection Agency to allow time for interested parties to participate in the rulemaking process. However, the public rulemaking process is deemed unnecessary in this instance, as the amendment herein contains administrative matters.

Effective date: This procedure will be effective on January 23, 1975.

Dated: January 13, 1975.

JOHN QUARLES,
Acting Administrator.

Title 41, Chapter 15 of the Code of Federal Regulations is amended by adding new Part 15-12 with Subpart 15-12.6 to read as follows:

Subpart 15-12.6—Walsh-Healey Public Contracts Act

Sec.
15-12.604 Responsibilities of contracting officers.
15-12.604-50 Determinations of eligibility of bidders and offerors.

AUTHORITY: The provisions of this Part 15-12 issued under 40 U.S.C. 486(c), sec. 205(c) 63 Stat. 390, as amended.

§ 15-12.604 Responsibilities of contracting officers.

§ 15-12.604-50 Determinations of eligibility of bidders and offerors.

(a) *Initial determination of eligibility.* The responsibility for applying the eligibility requirements set forth in § 1-12.601 of this title rests with the contracting officer. The Department of Labor does not conduct preaward investigations, nor render final determinations of eligiblity until the contracting officer has gathered all the necessary evidence and initially determined whether the eligibility requirements have been met. When a contracting officer has determined that an apparently successful bidder or offeror is ineligible, he shall notify the bidder or offeror promptly in writing and inform it:

(1) That it does not meet the eligibility requirements and provide the reason(s) for ineligibility;

(2) That it may protest the determination and submit evidence of eligibility to the contracting officer; and

(3) That if after review of the evidence submitted, the contracting officer still deems the bidder or offeror ineligible, he will forward the protest, together with pertinent material to the Wage and Hour Division, U.S. Department of Labor, Washington, D.C. 20210 for a final determination.

(b) *Protests by other bidders or offerors.* (1) *Before award.* (i) When another bidder or offeror challenges the eligibility of the apparently successful bidder or offeror prior to award, the contracting officer shall:

(A) Notify the protestant in writing that it may submit written evidence concerning the alleged ineligibility of the apparently successful bidder or offeror.

(B) Provide the apparently successful bidder or offeror with the written allegations of the protestant and inform it that it may submit evidence supporting its eligibility.

(C) Notify both the protestant and the apparently successful bidder or offeror that after reviewing all evidence submitted, the contracting officer shall make a decision and if that decision is adverse to the protestant, the protest to-

V40-16 JAN 23 75 XUM

gether with all pertinent material will be forwarded to the Administrator, Wage and Hour Division, U.S. Department of Labor, Washington, D.C. 20210 for a final determination.

(D) Other bidders or offerors whose bids or offers might become eligible for award shall be notified when award is being withheld pending the disposition of a protest. Such bidders or offerors shall be requested to extend the acceptance period of their bids or offers.

(ii) Where a protest against award has been lodged no award shall be made unless the contracting officer determines that:

(A) The items to be procured are urgently required; or

(B) Delivery or performance will be unduly delayed by failure to make award promptly; or

(C) A prompt award will otherwise be advantageous to the Government. If award under paragraph (b)(1)(ii)(A), (B), or (C) of this section is contemplated, the contracting officer shall obtain the approval of the Director, Contracts Management, before proceeding with the award; the file shall be documented to explain the need for making an award prior to the receipt of a determination from the Department of Labor; and written notice of the decision to proceed shall be given to the Administrator, Wage and Hour Division, U.S. Department of Labor, the protestant, and to others concerned when appropriate.

(2) *After award.* A protest received after award shall be forwarded to the Wage and Hour Division, U.S. Department of Labor, Washington, D.C. 20210, if the contract has not been completed. The protestant shall be notified of the submission to the Department of Labor. If the contract has been completed, the protestant shall be notified that no action shall be taken on the protest.

(c) *Protests involving other matters.* Protests involving other matters are covered by EPPR 15–2.407–8.

[FR Doc.75–2061 Filed 1–22–75;8:45 am]

CHAPTER 114—DEPARTMENT OF THE INTERIOR

PART 114–25—GENERAL

Subpart 114–25.48—Reports

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), Subpart 114–25.48 of Chapter 114, Title 41 of the Code of Federal Regulations, is amended as set forth below.

This amendment relates only to matters of internal Department practice. It is, therefore, determined that the public rulemaking procedure is unnecessary and this amendment shall become effective on February 7, 1975.

Dated: January 15, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

Subpart 114–25.48 is amended as set forth below:

§ 114–25.4801 Supply Activity Report.

(a) Each bureau and office shall use GSA Form 1473 to submit the Supply Activity Report, except that negative reports may be submitted in memorandum form. Each report shall be submitted, in an original and two copies, to the Office of Management Services (PM) for transmittal to the General Services Administration.

(b) (1) Each bureau and office shall submit one set of reports;

(2) Each set of reports shall consist of a consolidated report for each bureau or office, together with

(3) Separate reports for each office which maintains an account for, or a record of, items which are received, stored, and issued from warehouses, depots, or other types of storage facilities.

(c) A Supply Activity Report is not required for any exceptions listed in FPMR 101–25.4801(c).

(d) Requests for approval of exceptions shall be submitted to the Director of Management Services (PM) for transmittal to the General Services Administration.

§ 114–25.4801–50 Responsibility for review.

Reports submitted by field offices shall be reviewed at the headquarters level of each bureau and office, and appropriate corrective action shall be initiated promptly in those instances where the review discloses a need for improvement in supply activities.

[FR Doc.75–2111 Filed 1–22–75;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20118; FCC 75–71]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 95—CITIZENS RADIO SERVICE

Memorandum Opinion and Order

In the matter of amendment of Parts 2 and 95 of the Commission's rules to prohibit external radio frequency power amplifiers at Class D Citizens Radio Service stations and to prohibit marketing of external radio frequency power amplifiers capable of operation in the band 26.96–27.26 MHz.

1. On January 3, 1975 (40 FR 1243), the Commission released a Report and Order which amended Parts 2 and 95 of the Commission's rules to prohibit external radio frequency power amplifiers at Class D Citizens Radio Service stations and to prohibit marketing of external radio frequency power amplifiers capable of operation in the band 26.96–27.26 MHz. Information which recently came to the Commission's attention establishes that one manufacturer of the amplifiers, in a bulletin to its retail outlets, has offered linear amplifiers "at a price intended to move them into the CB'ers hands prior to the February 12 deadline." The manufacturer states that its offer should "create good profits and give you a supply for the CB'ers last minute rush to buy."

2. This action and the possibility of similar actions by other manufacturers of linear amplifiers threaten to undermine the effectiveness of the amendments in Docket No. 20118. We stated in our Report and Order of January 3, 1975, that these proceedings were instituted because the rapidly increasing number of operators using external radio frequency power amplifiers to boost the power of their Citizens radio transmitters beyond the permissible limit posed a significant interference potential to Class D Citizens radio operations and to radio and television reception. Attempts under the existing rules have been ineffective in stopping the rising incidence of overpower operation in the Citizens Radio Service. Last minute sales of devices which may be used only for illegal purposes can only compound the problem which caused the institution of this proceeding.

3. In view of the foregoing, and pursuant to Section 553(d)(3) of the Administrative Procedure Act and § 1.427(b) of the Commission's rules, we find that good cause exists for amending the effective date of this rule (see paragraph 25) to make its provisions effective January 23, 1975, instead of February 12, 1975.

4. *Accordingly, it is ordered,* That paragraph 25 of Docket No. 20118 is amended to make the effective date January 23, 1975.

Adopted: January 21, 1975.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 164, 303)

Released: January 23, 1975.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75–2226 Filed 1–22–75;8:45 am]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1–105]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation to the Commandant of the Coast Guard

The purpose of this amendment is to delegate to the Commandant of the Coast Guard the functions vested in the Secretary by 14 U.S.C. 657, as amended by Pub. L. 93–430, October 1, 1974 (88 Stat. 1180). Those statutes authorize the Secretary to provide transportation to schools serving the area of a Coast Guard facility for dependents of Coast Guard personnel and to provide schooling for dependents of Coast Guard personnel stationed outside the continental United States when it is determined that schools available in the locality are inadequate.

Since this amendment relates solely to Departmental management, procedures and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, in Part 1 of Title 49, Code of Federal Regulations, § 1.46, *Delegations to Commandant of the Coast Guard,* is amended by adding a new paragraph (s), to read as follows:

§ 1.46 Delegations to Commandant of the Coast Guard.

• • • • •

(s) Carry out the functions vested in the Secretary by 14 U.S.C. 657, relating to schooling and transportation to schools for dependents of Coast Guard personnel.

Effective date: This amendment is effective January 23, 1975.

(Sec. 9(e), Department of Transportation Act 49 U.S.C. 1657(e)))

Issued in Washington, D.C., on January 17, 1975.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75–1; Notice 1]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires, Tire Selection and Rims for Passenger Cars

This amendment adds certain tire size designations to 49 CFR 571.109 (Federal Motor Vehicle Safety Standard No. 109) and adds alternative and test rim sizes to 49 CFR 571.110 (Federal Motor Vehicle Safety Standard No. 110).

Guidelines were published in the FEDERAL REGISTER October 5, 1968 (33 FR 14964), and amended August 13, 1974 (39 28980), specifying procedures by which routine additions are made to Appendix A, § 571.109 and to Appendix A, § 571.110. Under these guidelines the additions become effective 30 days from publication in the FEDERAL REGISTER, if no objections are received. If objections are received, rulemaking procedures for the issuance of motor vehicle safety standards (49 CFR Part 553) are followed.

Accordingly, Appendix A of 49 CFR 571.109 and Appendix A of 49 CFR 571.110 are amended, subject to the 30-day provision indicated above, as specified below.

Effective date: February 24, 1975, if objections are not received.

§ 571.109 [Amended]

A. The following changes are made to Appendix A of § 571.109, Standard No. 109; New Pneumatic Tires.

Amendments requested by the European Tyre and Rim Technical Organisation:

1. In Table I–S, the following new tire size designation and corresponding values are added.

TABLE I–S.—*Tire load ratings, test rims, minimum size factors, and section widths for "60 Series" radial ply tires*

Tire size designation	Maximum tire loads (pounds) at various cold inflation pressures (lb/in²)												Test rim width (inches)	Minimum size factor (inches)	Section width (inches)
	16	18	20	22	24	26	28	30	32	34	36	38	40			
205/60R13	735	785	835	880	925	965	1,005	1,045	1,085	1,120	1,160	1,195	1,230	6	30.41	8.19

2. A new Table I–X, Millimetric "50 Series" Radial Ply Tires, incorporating the following new tire size designations and corresponding values, is added.

TABLE I–X.—*Tire load ratings, test rims, minimum size factors, and section widths for millimetric "50 Series" radial ply tires*

Tire size designation[1]	Maximum tire loads (pounds) at various cold inflation pressures (lb/in²)												Test rim width (inches)	Minimum size factor (inches)	Section width[2] (inches)
	16	18	20	22	24	26	28	30	32	34	36	38	40			
205/50R15	720	770	810	860	900	940	980	1,020	1,060	1,090	1,130	1,160	1,200	6	30.82	8.19
225/50R15	840	890	950	1,000	1,050	1,100	1,140	1,190	1,230	1,270	1,320	1,360	1,400	6½	32.37	8.98

[1] The letters "H", "S" or "V" may be included in any specific tire size designation adjacent to the "R".
[2] Actual section width and overall width shall not exceed the specified section width by more than 7 percent.

§ 571.110 [Amended]

B. The following changes are made to Appendix A of § 571.110, Standard No. 110; Tire Selection and Rims.

Amendments requested by the European Tyre and Rim Technical Organisation.

1. In Table I–N, the 7–JJ alternative rim size is added for the 185/70R15 tire size designation.

2. In Table I–S, the 6–JJ test rim size is added for the 205/60R13 tire size designation.

3. In Table I–S, the 8–JJ alternative rim size is added for the 215/60R15 tire size designation.

4. In new Table I–X, the J–JJ test rim size and the 7–JJ alternative rim size are added for the 205/50R15 tire size designation.

5. In new Table I–X the 6½–JJ test rim size and the 8–JJ alternative rim size are added for the 225/50R15 tire size designation.

FMVSS No. 110—APPENDIX A

TABLE I

(Following is a tabulation of changes made by this amendment.)

Tire Size	*Rims*
TABLE I–S	
205/60R13	6–JJ.
215/60R15	8–JJ.
TABLE I–N	
185/70R15	7–JJ.
TABLE I–X	
205/50R15	6–JJ, 7–JJ.
225/50R15	6½–JJ, 8–JJ.

Italic designations denote test rims. Where JJ rims are specified in the above Table J and JK rim contours are permissible. Table designations refer to tables listed in Appendix A of Standard No. 109 (§ 571.109).

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1207]

PART 1033—CAR SERVICE

Lehigh Valley Railroad Co. (Robert C. Haldeman, Trustee) Directed To Operate Certain Portions of Lehigh and New England Railway Co.

At a Session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D.C., on the 17th day of January 1975.

It appearing, That the Lehigh and New England Railway Company (LNE)

V40N16 JAN23 75 XUM

has notified the Commission that, on or before January 24, 1975, it will be unable to transport the traffic offered it because its cash position makes continued operation impossible; and that, accordingly, the LNE has placed its embargo No. 1–75 against all traffic, effective January 7, 1975;

It further appearing, That the imminent cessation of all transportation services by the LNE constitutes an emergency situation such as that contemplated by section 1(16)(b) of the Interstate Commerce Act (49 U.S.C. 1(16)), as amended, by section 601(e) of the Regional Rail Reorganization Act of 1973 (Pub. L. 93–236); and that section authorizes the Commission under certain prescribed conditions, to direct a carrier or carriers by railroad to perform essential transportation services which another carrier is no longer able to perform;

It further appearing, That the legislative history to section 1(16)(b) indicates that its purpose is to assure the continuance of essential rail service for a period of sixty days, or in extraordinary circumstances for an extended period not to exceed 240 days, in the event that a railroad is required to cease operation under conditions described in the Act; and that such authority was intended as an interim emergency measure and not as a permanent solution;

It further appearing, That in determining whether the LNE should be operated pursuant to the authority of section 1(16)(b) and in its planning therefor, the Commission, consistent with Congressional intent and the provisions of the Emergency Rail Services Act of 1970 (45 U.S.C. 661), has coordinated its activities with the Department of Transportation and has been in consultation with respresentatives of the United States Railway Association, among others:

It further appearing, That the Commission has determined that based upon the statute and the directives contained in the legislative history of section 1(16)(b) of the Act, the operation of the lines of the LNE is necessary and such operation is in the public interest; that the Commission considered many factors, including but not limited to: the transportation requirements of the patrons of the LNE, the economic impact of a discontinuance of service, the amount of originating and terminating traffic on individual lines, transportation requirements of connecting carriers, condition of track, alternative carriers and transportation modes, and net operating revenues attributable to individual lines; and that, the Commission should direct a carrier to operate over the lines of the LNE;

It further appearing, That the Lehigh Valley Railroad Company (Robert C. Haldeman, Trustee) (LV) should be directed to provide the services herein determined to be essential in the public interest, which were formerly performed by the LNE, because, among other things, the LV's proximity to the lines of the LNE, the volume of the traffic LNE interchanges with the LV, its familiarity with the operation of the LNE and its willingness and ability to perform the services required for shippers;

It further appearing, That the performance of the operations directed herein will not substantially impair the LV's ability adequately to serve its own patrons or to meet its outstanding common carrier obligations; that the performance of the directed operation should not violate the provisions of the Federal Railroad Safety Act of 1970 (45 U.S.C. 421);

It further appearing, That in light of the emergency situation which would result from a cessation of all transportation service by the LNE, public notice and hearings are impractical and not required by the procedures set forth in section 1(15) of the Act; that the public interest requires the continuation of operation over certain lines of the LNE by the LV for a period of operation of 60 days as provided by section 1(16)(b) of the Act; and that good cause exists for making this order effective upon the date served;

It further appearing, That the LV is presently a railroad in reorganization under section 77 of the Bankruptcy Act (11 U.S.C. 205) subject to the jurisdiction of the United States District Court for the Eastern District of Pennsylvania; and that, accordingly, approval of said court may be necessary for the implementation of this order; and

It further appearing, and the Division so finds, that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969;

It further appearing, and the Division so finds, that cessation of service by the LNE would have serious economic consequences not only to the patrons of the LNE but also to the communities located within the area; and for good cause appearing therefor:

§ 1033.1207 Service Order 1207.

Lehigh Railroad Company (Robert C. Haldeman, Trustee) directed to operate certain portions of Lehigh and New England Railway Company.

(a) *It is ordered,* That Lehigh Valley Railroad Company, debtor (Robert C. Haldeman, Trustee), be, and it is hereby directed to enter upon the railroad properties presently operated by the Lehigh and New England Railway Company, except the Tamaqua branch, extending between Tamaqua, Pennsylvania, and Hauto, Pennsylvania, and to operate such railroad and facilities subject to any necessary approval of the reorganization court of the United States District Court for the Eastern District of Pennsylvania, for the purpose of handling, routing, and moving the traffic of the Lehigh and New England Railway Company in accordance with the lawful instructions of shippers and consignees and in compliance with the rules and regulations of the Commission, and subject to the rates and charges prescribed in tariffs lawfully published and filed in accordance with law and applicable to freight traffic transported over the lines of the Lehigh and New England Railway Company; that such entry and operations shall commence on or before 12:01 a.m., January 24, 1975, and shall continue for a period of 60 days, unless such period is reduced by order of the Commission or unless further extended by order of the Commission, for cause shown, for an additional designated period; and that a certified copy of the order of the court authorizing the Lehigh Valley Railroad Company, debtor, to perform the directed service pursuant to the order of the Commission shall be filed with this Commission, with appropriate reference to this proceeding;

(b) *It is further ordered,* That the Lehigh and New England Railway Company shall, on the date of service of this order inform all persons who were given notice of its embargo, No. 1–75, that said embargo shall no longer be applicable to service over its lines;

(c) *It is further ordered,* That the Lehigh Valley Railroad Company, debtor, shall (1) collect all revenues attributable to the handling, routing, and movement of freight traffic including all agents' and conductors' accounts and all payments from other carriers collected after the commencement of directed operations; (2) distribute such revenues in accordance with divisional agreements presently applicable, collecting and paying to the Lehigh and New England Railway Company the divisions of joint revenues payable to the Lehigh and New England Railway Company pursuant to such division agreements which are derived from services performed and events occurring prior to January 24, 1975, and collecting and retaining for the Lehigh Valley Railroad Company, debtor, on a segregated basis all such divisions of joint revenues payable to the Lehigh and New England Railway Company pursuant to such division agreements which are derived from services performed by the Lehigh Valley Railroad Company, debtor, in the place and stead of the Lehigh and New England Railway Company and from events occurring on or after January 23, 1974;

(d) *It is further ordered,* That all carriers are hereby directed to pay to the Lehigh Valley Railroad Company, debtor, such sums as otherwise would be payable to the Lehigh and New England Railway Company including interline freight revenues, per diem, and all other interline accounts of whatsoever kind and nature coming due under normal accounting rules and procedures for the settlement of interline transactions and accounts between carriers during the period this order is in effect and thereafter coming due for services performed and events occurring during the period of directed service;

(e) *It is further ordered,* That the Lehigh Valley Railroad Company, debtor, shall pay to all carriers amounts received by it but due to them for services performed by them, for per diem, and for events occurring either prior to the commencement of operations directed herein or during the period this order is in effect, all in accordance with established procedures for the settlement of interline transactions and accounts between carriers;

(f) *It is further ordered,* That in executing the directions of this Commission as provided for in this order, all carriers involved in the movement of traffic to the lines of the Lehigh and New England Railway Company shall proceed even though in some instances, no contracts, agreements or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; that in the event reroutings are necessary pursuant to the directives of this and subsequent orders, the divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers, or upon failure of the carriers to so agree said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act;

(g) *It is further ordered,* That, in carrying out the operations directed herein, the Lehigh Valley Railroad Company, debtor, shall hire employees of the Lehigh and New England Railway Company to the extent such employees had previously performed the directed service and shall assume all existing employment obligations and practices of the Lehigh and New England Railway Company relating thereto, including, but not limited to, agreements governing rates of pay, rules, working conditions, and all current employee protective conditions, for the duration of the directed service;

(h) *It is further ordered,* That the Lehigh Valley Railroad Company, debtor, and the Lehigh and New England Railway Company shall, if possible, negotiate an agreement (hereinafter called the agreement) on all aspects of the directed operation subject to their determination, including, but not limited to use of and rental for equipment, use of, and compensation for, existing inventories of fuel, materials, and supplies, and rental for the use of rights-of-way and other rail facilities; that the Commission shall be represented at all such discussions; that the agreement shall be subject to approval by the Commission upon such procedure as the Commission shall later specify; and that in the event the Lehigh Valley Railroad Company, debtor, and the Lehigh and New England Railway Company fail to agree upon the terms for such use and compensation, the directed service shall continue pending a Commission determination to establish such terms as it may find to be just and reasonable;

(i) *It is further ordered,* That in the event the parties achieve agreement, any funds to be paid the Lehigh and New England Railway Company thereunder shall be paid into an escrow account until the agreement is given approval by the Commission; and that in the event the parties are unable to reach agreement, any monies the Lehigh Valley Railroad Company, debtor, holds for the account of the Lehigh and New England Railway Company to compensate it to the use of its equipment and facilities and properties, in lieu of a final agreement, shall be paid into an escrow account until a determination has been made by the Commission as to what terms are just and reasonable;

(j) *It is further ordered,* That the Lehigh Valley Railroad Company, debtor, shall record the revenues earned and the costs incurred in and for the performance of the operations directed herein over the lines of the Lehigh and New England Railway Company, in a manner to be prescribed by the Commission, that the information so recorded, and supporting data where specifically required, shall be submitted by the Lehigh Valley Railroad Company, debtor, to the Commission for audit and evaluation immediately upon completion of the directed operation, or at such intervals, during the period of the directed operation, as the Commission may request; and that, if, for the period during which this order shall be effective, the cost to the Lehigh Valley Railroad Company, debtor, of handling, routing, and moving the traffic over the lines of the Lehigh and New England Railway Company shall exceed the direct revenues therefor, payment shall be made to the Lehigh Valley Railroad Company, debtor, in the manner provided by section 1(16)(b) of the Act;

(k) *It is further ordered,* That the Commission shall retain jurisdiction to modify, supplement or reconsider this order at any time and for such purposes as it may consider necessary consistent with the legislative intent and the express provision of section 1(16)(b) of the Interstate Commerce Act, as amended;

(l) *It is further ordered,* That this order shall be served upon the United States Department of Transportation, the United States Railway Association, the Rail Planning Services Office of the Interstate Commerce Commission, the governor of the State of Pennsylvania, Pennsylvania Public Utilities Commission, the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

(m) *It is further ordered,* That this order shall be effective upon the date of service; that the operations which the Lehigh Valley Railroad Company, debtor, is herein directed to perform shall commence on or before 12:01 a.m., January 24, 1975; and that such operations shall cease 60 days from the date the directed service shall be instituted by the Lehigh Valley Railroad Company, debtor, at 11:59 p.m., unless otherwise extended, modified, changed, or suspended by subsequent order of the Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), and 17(2)).)

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-2165 Filed 1-22-75;8:45 am]

Title 50—Wildlife

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Mark Twain National Wildlife Refuge—Illinois-Iowa-Missouri

The following special regulation is issued and is effective on January 23, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ILLINOIS-IOWA-MISSOURI

MARK TWAIN NATIONAL WILDLIFE REFUGE

Sport fishing on the Mark Twain National Wildlife Refuge, Illinois, Iowa, and Missouri, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 10,257 acres, are delineated on maps available at the refuge headquarters and from the office of the Regional Director, United States Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

ILLINOIS

(1) The open season for sport fishing on the Batchtown and Calhoun Divisions of the Mark Twain National Wildlife Refuge extends from January 1, 1975, through October 15, 1975, with the exception of certain designated areas which are open until December 31, 1975.

(2) The open season for sport fishing on the Keithsburg Division of the Mark Twain National Wildlife Refuge extends from January 1, 1975, through October 15, 1975.

(3) The open season for sport fishing on the Gardner Division of the Mark Twain National Wildlife Refuge extends from January 1, 1975, through October 15, 1975.

(4) (a) The open season for sport fishing on the Chautauqua National Wildlife Refuge extends from December 15, 1974, through October 15, 1975, with the exception of certain designated areas in Chautauqua Lake, Goofy Ridge Ditch, and all water areas of the public hunting area which are open until December 14, 1975.

(b) The use of boats, powered by motors of ten (10) horsepower or less, is permitted in the waters of Lake Chautauqua.

(c) No person shall enter upon or fish from any dike, water control structure

V 40 16 JAN 23 75 XUM

or shoreline within the refuge except at the Recreation Area, Boatyard No. 3, or along the cross dike.

IOWA

(1) The open season for sport fishing on the Louisa Division of the Mark Twain National Wildlife Refuge extends from January 1, 1975, through September 30, 1975, with the exception of certain areas adacent to the Port Louisa Road which are open until December 31, 1975.

(2) The open season for sport fishing on the Big Timber Division of the Mark Twain National Wildlife Refuge extends from January 1, 1975, through December 31, 1975.

MISSOURI

(1) The open season for sport fishing on the Clarence Cannon National Wildlife Refuge extends from April 1, 1975, through September 30, 1975, with the exception of Bryants Creek and certain designated areas which are open from January 1, 1975, through December 31, 1975.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through December 31, 1975.

Dated: January 15, 1975.

HOWARD A. LIPKE,
Refuge Manager, Mark Twain National Wildlife Refuge, Box 225, Quincy, Illinois 62301.

[FR Doc.75-2110 Filed 1-22-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF DEFENSE

Engineers Corps

[33 CFR Part 207]

ST. MARYS FALLS CANAL AND LOCKS, MICHIGAN

Proposed Navigation Regulations

Notice is hereby given that pursuant to section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) the regulations set forth in tentative form below are proposed by the Secretary of the Army (acting through the Chief of Engineers) to govern the use, administration and navigation of the St. Marys Falls Canal and Locks, Michigan. It is proposed to amend the present regulations with respect only to paragraph (c) in 33 CFR, 207.440 to provide a more effective means of vessel dispatch.

Prior to the adoption of the proposed regulations consideration will be given to any comments, suggestions or objections thereto which are submitted in writing to the Office of the Chief of Engineers, Forrestal Building, Washington, D.C. 20314, Attention: DAEN–CWO–N on or before February 24, 1975.

§ 207.440 St. Marys Falls Canal and Locks, Mich.; use, administration and navigation.

• • • • • •

(c) Upon approaching the canal, vessel masters shall request lock dispatch by radiotelephone to the Corps of Engineers Chief Lockmaster at St. Marys Falls canal dispatch tower (Radio Call WUD–31). Every upbound vessel shall call when abeam of Bayfield Rock Pile Dike which is approximately one and one-eighth miles downstream from East Center Pier end. Every downbound vessel shall call when approximately one-half mile downstream from Big Point.

• • • • • •

Dated: January 9, 1975.

J. W. MORRIS,
Major General, U.S.A.
Director of Civil Works.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[7 CFR Part 1427]

UPLAND AND EXTRA LONG STAPLE COTTON

Proposed Determinations Regarding 1975 Crops

The Commodity Credit Corporation is preparing to make certain determinations with respect to the loan programs for the 1975 crops of upland and extra long staple (ELS) cotton:

a. Schedule of premiums and discounts for grade and staple length of upland cotton.

b. Schedule of micronaire differentials for upland cotton.

c. Schedule of base loan rates by warehouse location for upland cotton.

d. Schedule of loan rates by location for eligible qualities of ELS cotton.

e. Schedule of micronaire differentials for ELS cotton.

The above determinations are to be made pursuant to the Agricultural Act of 1949, as amended (63 Stat. 1051, as amended; (7 U.S.C. 1421 et seq.)).

Section 403 of the act (7 U.S.C. 1423) provides in part that appropriate adjustments may be made in the support price for any commodity for difference in grade, type, staple, quality, location, and other factors. Such adjustments shall, so far as practicable, be made in such manner that the average support price for such commodity will, on the basis of the anticipated incidence of such factors, be equal to the level of support determined as provided in this act. Under section 103(e) of the act (7 U.S.C. 1444(e)), however, the base loan rate determined for 1075-crop upland cotton is applicable to Middling 1-inch cotton (micronaire 3.5 through 4.9) at average location in the United States.

a. *Schedule of premiums and discounts for grade and staple length of upland cotton.* This schedule would reflect the differences in loan value between SLM 1 1/16 inches cotton and the various other grade and staple length combinations for upland cotton.

Since 1959, Commodity Credit Corporation (CCC) has established loan rates and made loans available on 532 different qualities (grade and staple length combinations) of upland cotton. These consist of 38 grades in 7 color groups and 14 individual staple lengths or groups (see exhibit 1 for schedule of premiums and discounts applicable under the 1974 loan program), and parallel closely USDA's standards for grade and staple length of upland cotton.

CCC proposes to reduce the number of qualities available for loans since many qualities are no longer produced in sufficient quantity to warrant an individual loan rate (see exhibit 2 for quality distribution of 1973 crop). In 1973, for example, 208 qualities—concentrated in the color groups "White," "Light Spotted," and "Spotted"—accounted for 99.4 percent of production. On the other hand, 251 qualities had no production at all, as compared with 158 qualities as recent as 1966. This reflects the general trend of upland cotton produced during the past 10 years—larger percentages of the crop concentrated in fewer quality designations.

Proposed modifications in the schedule of premiums and discounts for eligible qualities of upland cotton under the 1975 cotton loan program follow:

1. Eliminate the color group "Yellow Stained"; only 62 such bales were produced in 1973, representing 3 qualities. Such action would eliminate from the schedule discounts applicable to 42 qualities in that color group. However, any cotton classed as "Yellow Stained" (Middling and Better) would be eligible for loan at a discount 200 points greater than the discount applicable to the comparable quality in the "Tinged" color group.

2. Eliminate the grade "GM" (Good Middling) in each of the remaining 6 color groups and change the grade "SM" (Strict Middling) to "SM and better" in each color group. Such action would eliminate premiums and discounts for 84 additional qualities. Less than 100 bales of GM cotton were produced in 1973. Also, the official standards for U.S. grade of American upland cotton have been revised, effective July 1, 1975, to revoke the GM standards for Tinged and Stained cotton.

3. On the short end of the staple length range, combine the staple lengths "13/16," "7/8," and "29/32," and redesignate the grouping "13/16 through 29/32." Such action would eliminate discounts for 58 additional qualities and, in effect, raise the value of the lower qualities involved.

4. On the long end of the staple length range, combine the staple lengths "1–5/32," "1–3/16," "1–7/32," and "1–1/4 and longer," and redesignate the grouping "1–5/32 and longer." Only about 1/100 of 1 percent of the crop falls in those staple lengths longer than 1–5/32 inches (see staple ctdes 38, 39, and 40 in Exhibit 2). Such action would eliminate individual premiums and discounts for 87 additional qualities, and have a negligible effect, value-wise, upon that minute fraction of the crop (1/100 of one percent) involved.

The net effect of the action proposed above would reduce the schedule of premiums and discounts for upland cotton for CCC loans in 1975 and subsequent crops to 261 qualities as compared with 532 in 1974. The 271 qualities which would lose their individual identity under the proposed schedule would remain eligible for loans under a more compact schedule, better paralleling concentrations of production.

The problem of determining premiums and discounts in the designated spot

V40 16 JAN 23 75 XUM

markets for those qualities representing minor or insignificant production has become increasingly difficult as production of these qualities continues to dwindle. For many of these qualities there has been no production in recent years. Thus, the concentration of attention on those qualities produced and merchandised in significant quantities would appear to be the best course for CCC to follow in developing its schedule of premiums and discounts applicable to upland cotton loans.

b. *Schedule of micronaire differentials for upland cotton.* A schedule will reflect differences in loan value between micronaire group 3.5 through 4.9 (the statutory base group) and the various other micronaire groups.

(c) *Schedule of base loan rates by warehouse location for upland cotton.* This schedule will establish base loan rates for upland cotton stored at various warehouse locations.

(d) *Schedule of loan rates by location for eligible qualities of ELS cotton.* In accordance with the act, the loan rate for 1975-crop ELS cotton was announced at a national average rate. That rate is 67.74 cents per pound, announced by press release (USDA 3105–74) dated October 31, 1974. The schdeule of rates would reflect differences in loan value by location for each eligible quality. The staple length group "1⅛ and longer" would be eliminated from the schedule, and the staple length "1 7/16" redesignated "1 7/16 and longer." No ELS cotton 1⅛ inches and longer has been produced in the United States in the last 10 years.

(e) *Schedule of micronaire differentials for ELS cotton.* A schedule will reflect differences in loan value between micronaire group 3.5 and above (the base group) and the various other micronaire groups.

Prior to making the foregoing determinations, consideration will be given to any data, views, and recommendations which are submitted in writing to the Director, Cotton, Rice and Oilseeds Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions should be received not later than February 21, 1975. All written submissions made pursuant to this notice will be made available for public inspection from 8:15 a.m. to 4:45 p.m., Monday through Friday, in Room 5725, South Building, 14th and Independence Avenue SW., Washington, D.C.

Signed at Washington, D.C., on January 16, 1975.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

Office of the Secretary

[7 CFR Part 1]

IMPLEMENTATION OF FREEDOM OF INFORMATION ACT

Proposed Fee Schedule

The Department of Agriculture solicits public comment on the following proposed regulations implementing the 1974 Freedom of Information Act amendments as they affect the fees which may be charged requesters for services performed under that Act. The proposed regulations also cover fees for services performed under other authority.

Interested persons are invited to submit comments in writing regarding the proposed fee schedule. Comments in single copy should be addressed to: Director, Office of Operations, U.S. Department of Agriculture, Washington, D.C. 20250.

Copies of comments received will be available for public inspection in Room 131-W, Agriculture Administration Building, 14th Street and Jefferson Drive SW., Washington, D.C., from 8:30 A.M. until 5:00 P.M., Monday–Friday. (7 CFR 1.27(b)).

Comments must be received not later than February 7, 1975, in order to insure consideration.

When issued in final form the Fee Schedule will appear as an Appendix to 7 CFR Part 1, Subpart A.

The proposed Fee Schedule is as follows:

Sec. 1. *General.* This schedule sets forth fees to be charged for providing copies of records, including photographic reproductions, microfilm, maps and mosaics, and related services. The fees set forth in this schedule are applicable to all agencies and constituent units of the Department of Agriculture.

Sec. 2. *Facilities.* Records and related services are available at the locations specified by the agencies in their statements of organization and services. Each agency is responsible for promulgating procedures to facilitate public inspection and copying of its records. Any materials offered for sale by the Government Printing Office should be purchased from that source. Departmental agencies will not stock such materials for public sale.

Agencies do not stock copies of forms and publications or maintain records at any facility which does not require these materials in its operations.

Sec. 3. *Fees for materials and services.* All agencies of the Department shall be guided by the fees set forth herein. Any changes or additions to this fee schedule shall be made by amendment to or revision of this schedule.

Sec. 4. *Circumstances governing exceptions to the charging of fees for records and related services.* (For photographic reproductions, see Sec. 12.)

a. *Waiver of fees for records and related services.* Fees may be waived in whole or in part under the following conditions:

(1) Where individual collections are $3.00 or less.

(2) Where the furnishing of the service without charge is an appropriate courtesy to a foreign country or international organization; or comparable fees are set on a reciprocal basis with a foreign country or an international organization.

(3) Where the recipient is engaged in a nonprofit activity designed for the public safety, health, or welfare.

(4) Where the agency determines that payment of the full fee by a State, local government, or nonprofit group would not be in the interest of the program involved.

b. *Fees not to be charged for records and related services.* Fees shall not be charged under the following conditions:

(1) When the furnishing of records and related services is determined by the agency to be in the public interest as primarily benefiting the general public.

(2) When filing requests from other Departments or Government agencies for official use, provided quantities requested are reasonable in number.

(3) When members of the public provide their own copying equipment, in which case no copying fee will be charged.

(4) When any notices, decisions, orders, or other material are required by law to be served on a party in any proceedings or matter before any Department agency.

c. Where both a and b above apply to a matter, b shall be controlling.

Sec. 5. *Limitations of copies.* Agencies may restrict numbers of photocopies and directives furnished the public to one copy of each page. Copies of forms provided the public shall also be held to the minimum practical. Persons requiring any large quantities should be encouraged to take single copies to commercial sources for further appropriate reproduction.

Sec. 6. *Search Services.* Search services are services of agency personnel-clerical, supervisory or professional salary level-used in trying to find the records sought by the requester. They include time spent examining records for the purpose of finding records which are within the scope of the request. They also include services to transport personnel to places of record storage, or records to the location of personnel for the purpose of the search, if such services are reasonably necessary.

Because of the nature of the Department's business and records, the normal location of a record in a file or other facility will not be considered a search. This would be the same as quickly locating a piece of material for purposes of answering a letter or telephone inquiry, and is based on the Department's obligation to respond to requests furnishing a reasonably specific description of the record.

Sec. 7. *Payments of fees and charges.* Payments will be collected to the fullest extent possible in advance or at the time the requested materials are furnished.

Except as otherwise stipulated by agency procedures, payment shall be made by check, draft, or money order made payable to Treasurer of the United Sttaes, but small amounts may be paid in cash, particularly where services are performed in response to a visit to a Department office.

Unless the request contains an agreement to pay an amount which at least equals the agency's estimated fees, no action will be taken to fulfill the request, when the estimate exceeds $20.00, until the requester has agreed in writing to pay the estimated fees.

Where the estimated fees exceed $150.00, a deposit of 50 percent of the estimated amount shall be collected from the requester before action is taken to fulfill the request, or before any of the requested materials are reproduced, depending on the circumstances.

Upon fair prior notice of the possibility of an unproductive search, agencies shall charge requesters an applicable search fee even when no records responsive to the request or no records not exempt from disclosure are found, except when such charges are waived or reduced pursuant to Section 4. However, if a requester has not been given fair prior notice and no records are found, no search fee shall be charged.

Sec. 8. *Fees for records and related services.*

a. Photocopies, 8½" x 14" or smaller; $0.10 for the first copy and $0.05 for each additional copy of the same page.

b. Photocopies in excess of 8½" x 14"; $0.25 per linear foot.

c. Manual searches will be charged for at the rate of $4.00 per hour for clerical time and $9.00 per hour for supervisory or professional time. Charges will be computed to the nearest quarter hour required for the search. A search may involve both clerical and supervisory or professional time.

d. Other direct costs incurred will be assessed the requester at the actual cost to the Government, e.g., where records are required to be shipped from one office to another by commercial carrier in order to timely answer the request, the actual freight charges will be assessed the requester.

e. Computer searches will be charged for at the rates established in the Users Manual or Handbook published by the computer center at which the work will be performed. A listing follows showing where those rates are published and the office from which copies may be obtained or at which the rates may be examined.

Fort Collins Computer Center Users Manual Section 3.4—Administrative Policies and Procedures—Rates. pp. 3–4 through 3–7.

Room S–100, South Building
12th Street and Independence Ave., S.W.
Washington, D.C. 20250.

f. The fees do not include and no charge shall be made for (a) time spent examining records to determine whether an exemption can and should be asserted, (b) time spent deleting exempt matter being withheld from records to be furnished, or (c) time spent in monitoring a requester's inspection of agency records.

g. Certifications, $1.00 each; Authentications under Department Seal (including aerial photographs), $2.00 each.

h. For requests not subject to the Freedom of Information Act, agencies may set their own fees on specialized materials, such as printouts, magnetic tapes, directives, handbooks, building plans, and other material unique to any one agency. Where a fee has not been established in this schedule, an appropriate fee will be set by the individual agency.

i. The fees specified in a through f to this Section apply to all requests for services under the Freedom of Information Act, as amended (5 U.S.C. 552), unless the agency has determined to waive or reduce those fees pursuant to Section 4. No higher fees nor charges in addition to those provided for in this schedule may be charged a party requesting search or duplication services under the Freedom of Information Act.

j. The fees specified in g and h of this Section and in Sections 9 through 16 of this schedule apply to all requests for services other than those subject to the Freedom of Information Act. The authority for establishment of these fees is 31 U.S.C. 483a.

Sec. 9. *Photographic reproduction, microfilm, mosaic and maps.* Reproduction of such aerial or other photographic microfilm, mosaic and maps as have been obtained in connection with the authorized work of the Department may be sold at the estimated cost of furnishing such reproductions as prescribed in this schedule.

Sec. 10. *Agencies which furnish photographic reproductions.*—a. *Aerial photographic reproductions.* The following agencies of the Department furnish aerial photographic reproductions:

Agricultural Stabilization and Conservation Service (ASCS), Room 3405, Auditor's Building, Washington, D.C. 20250.
Forest Service (FS), 24 LOB RP–E, Arlington, Virginia 22209, or nearest Forest Service Regional Office
Soil Conservation Service (SCS), Information Division, Audio Visual Branch, Room 6112–S, Washington, D.C. 20250 (Satellite Mosaics), Reproduction Branch, FCB, Hyattsville, Maryland 20782.

b. *Other photographic reproductions.* Other types of photographic reproductions may be obtained from the following agencies of the Department:

Agricultural Stabilization and Conservation Service (ASCS) (Address above).
Forest Service (Address above).
Office of Communication, Photographic Division, Room 536A, Washington, D.C. 20250.
Soil Conservation Service (Address above).
National Agricultural Library, Information Officer, Room 204, Beltsville, Maryland 20705.

Sec. 11. *Photographic Sales Committee.* The Photographic Sales Committee consists of representatives designated by Department agencies principally concerned with the sale of photographic reproductions. The Committee recommends prices at which photographic and mosaic reproductions, except library material, shall be sold, and other matters related to photographic reproductions.

Sec. 12. *Circumstances under which photographic reproductions may be provided free.* Reproductions may be furnished free at the discretion of the agency, if it determines this action to be in the public interest, to:

a. Press, radio, television, and newsreel representatives for dissemination to the general public.

b. Agencies of State and local governments carrying on a function related to that of the Department when it will help to accomplish an objective of the Department.

c. Cooperators and others furthering agricultural programs. Generally, only one print of each photograph should be provided free.

Sec. 13. *Loans.* Aerial photographic film negatives or reproductions may not be loaned outside the Federal Government.

Sec. 14. *Sales of positive prints under Government contracts.* The annual contract for furnishing single and double frame slide film negatives and positive prints to agencies of the Department, County Extension Agents, and others cooperating with the Department, carries a stipulation that the successful bidder must agree to furnish slide film positive prints to such persons, organizations, and associations as may be authorized by the Department to purchase them.

Sec. 15. *Procedure for handling orders.* In order to expedite handling, all orders should contain adequate identifying information. Agencies furnishing aerial photographic reproductions require that all such orders identify the photographs. Each agency has its own procedure and order forms.

Sec. 16. *Photographic reproduction prices.* The prices for photographic reproductions listed here are for the most generally requested items.

a. *National Agricultural Library.* The following prices are applicable to National Agricultural Library items only: Microfilm—$1.00 for each 30 pages or fraction thereof. Photoreproduction—$1.00 for each 10 pages or fraction thereof.

b. *General photographic reproductions.* Minimum charge $1.00 per order. All sizes are approximate. An extra charge may be necessary for excessive laboratory time caused by any special instructions from the purchaser.

Class of work	Unit	Price
1. Black and white copy negatives and film positives:		
4 x 5	Each	$3.60
5 x 7	do	3.90
8 x 10	do	4.50
11 x 14	do	7.00
2. Black and white enlargements:		
Up to 8 x 10	do	2.70
11 x 14	do	4.20
Over 11 x 14	Per square foot	3.60
3. Reductions (from any size negative).		3.60
4. Mounting	Per square foot	2.20
5. Slides: Black and white (from copy negative):		
2 x 2 cardboard mounted	Each	2.40
3¼ x 3¼	do	3.60
Original color (from flat copy)	do	1.80
Duplicate color (2 x 2 cardboard mounted). (Duplicate color slides are slides copied from 35MM color slides only). Slides made from black and white material, or from transparencies larger or smaller than 35MM, will be charged at the same rates shown for black and white and original color slides.	do	.80
6. Color transparencies (4 x 5)	do	8.00
7. Color prints		(1)
8. Current USDA slide sets in stock:		
1 to 50 frames		13.00
51 to 60 frames		14.00
61 to 75 frames		15.00
76 to 95 frames		17.50
96 to 105 frames		18.50
106 to 130 frames		21.00
(Prices include printed narrative guide)		
The following can be purchased for the corresponding slide sets above:		
Cassettes		8.00
Records		3.00
Audio-tape		1.50
9. Milk sedimentation standards (5 x 7 Black and white photograph).	Each	1.25
10. Seeds and seedlings (any size)	do	2.40

[1] By quotation.

c. *Aerial photographic reproductions.* No minimum charge on aerial photographic reproductions. All prints are furnished unmounted and untrimmed.

1. *Contact prints.* The prices for contact prints are set forth below. The size refers to the approximate size of the contact print.

Size:	Each
Size 9 x 9 on commercial grade parer	$2.00

For polyester base paper, and $0.75 per contact print (Available from ASCS only).

Size:	Each
Size 70 mm contact prints	$1.25
Size 70 mm contact transparents	2.00

2. *Enlargements* (projection prints). The prices for enlargements of various sizes are set forth below. The size in each case refers to the approximate size of paper required to produce the enlargement ordered.

Size:	Price each
9 x 9 in. (from 70 mm)	$2.00
13 x 13 in	4.00
17 x 17 in	5.00
24 x 24 in	6.00
38 x 38 in	12.00

For larger size reproductions, add $2.00 for each additional 12 inches or fraction thereof, linear measurement.

3. *Aerial photo-index sheets.*

SIZE 20 X 24 INCHES

Quantity:	Price each
Any quantity	$5.00

4. *Film positives.* Contact printed from aerial negatives, size 9 x 9 inches.

Quantity:	Price each
Any quantity	$3.00

5. *Copy negatives.* On film, aerial exposures, size 9 x 9 inches.

Quantity:	Price each
Any quantity	$3.00

6. *Diapositives.* Prints on glass, size 9 x 9 inches, thickness 0.06 inch.

Quantity:	Price each
Any quantity	$10.00

7. *Aperture Cards and Printouts.*

	First unit	Each additional unit
Duplicate of an aperture card	$1.00	$0.10
Aperture card from photoindex sheet	1.00	.25
Printout from aperture card	1.00	.50

8. *Color Photography.* Furnished only by the Regional Forest Service Aerial Photography Laboratories at Ogden, Utah and San Francisco, California, and the Agricultural Stabilization and Conservation Service Aerial Photography Laboratory in Salt Lake City, Utah.

Positive contact print made from negative	$7.00
Enlargements 9x9 inches (from 70 mm)	7.00
Enlargements 13x13 inches	12.00
Enlargements 17x17 inches	15.00
Enlargements 24x24 inches	20.00
Enlargements 38x38 inches	30.00
Color film transparencies (positives or negatives)	
Contacts 70 mm	5.00
Contacts 9x9 inches	12.00
Enlargements 9x9 inches (from 70 mm)	12.00

9. *Special Needs.* For special needs not covered above, persons desiring aerial photographic reproductions should contact the agencies listed in Section 10a or the Coordinator, Aerial Photographic Work of the Department of Agriculture, ASCS, Room 3405, Auditors Building, 14th Street and Independence Avenue SW., Washington, D.C. 20250.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1952]

SOUTH CAROLINA

Advanced Notice of Proposed Supplements To Approved Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) (29 U.S.C. 667) for the review of changes and progress in State plans which have been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On December 6, 1972, a notice was published in the FEDERAL REGISTER (37 FR 25932) of the approval of the South Carolina Plan and the adoption of Subpart C of Part 1952 containing the decision and describing the plan. On May 23, May 28, July 16, August 19, November 4, and November 8, 1974, the State of South Carolina submitted supplements to the plan involving developmental changes and State initiated changes to the Atlanta Regional Office of the Occupational Safety and Health Administration. Following regional review, the supplements were forwarded to the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) for his determination as to whether they should be approved. The supplements are described below.

2. *Description of the supplements.* (a) Legislation. In accordance with the commitment expressed in 29 CFR 1952.103 (a), the State submitted amendments to its enabling legislation (§§ 40-261 through 40-274, South Carolina Code of Laws, 1962) which were designed to bring the plan into conformity with the requirements of 29 CFR Part 1902. The legislation was enacted by the South Carolina Legislature during its 1973 session and became effective on June 12, 1973. The legislation provides for the following:

(1) Employer and employee duties;

(2) Provision for informing employees of their protections and obligations under the State Act;

(3) Provision for public participation in the promulgation, modification or revision of rules and regulations;

(4) Procedures for the granting or denial of temporary variances;

(5) Procedures for the granting or denial of permanent variances;

(6) Provision for the right of entry of inspectors to workplaces;

(7) Provision for the posting of citations;

(8) Procedures governing imminent danger situations;

(9) Procedures for the review of citations, penalties, abatement periods or other actions of the Commissioner of Labor by employers and employees;

(10) Sanctions for violations of rules and regulations;

(11) Monitoring and measuring employee exposure to potentially toxic materials or harmful physical agents;

(12) Provision for employee participation in inspections by accompanying the inspector, and prohibition against loss of wages because of such participation; and

(13) Prohibition against employee discrimination because of the exercise of rights under the State Act.

(b) Regulations. In addition the State has submitted supplements and revisions concerning various other aspects of its plan. Regulations concerning procedures for temporary variances, permanent variances, employee complaints about violations, employee right to participate in inspections, informal conferences following inspections, recordkeeping by small employers, and advance notice of inspections have been revised and are included in the supplements.

(c) Voluntary compliance program. The State has submitted a proposal for a voluntary compliance program which is to be known as a "Taxpayers Assistance Program." The purpose of this program is to provide, through voluntary compliance, safe and healthful places of employment. The program includes onsite consultation and will be staffed initially by three Safety and Health Assistance Officers who will be under the direction of the Chief Standards Officer.

(d) Public employee program. The supplements also include a proposal for a public employee program which will be known as the "Public Sector Assistance Program." This program will provide coverage for employees of State and local governments except that the penalty provisions of the Act will not be applicable to public employers. However, penalties may be assessed where there is a failure to abate an imminent danger or a serious violation. This program will be staffed initially with three Public Sector Assistance Officers who will be responsible to the Chief Standards Officer.

(e) Standards and delegations of authority. The plan has also been revised in a number of areas. As approved, the plan provided for the establishment of a Standards Advisory Council. This council will be eliminated under the revised plan since the State has adopted and will continue to adopt standards promulgated by the Secretary of Labor. However, if it is determined that the State should promulgate its own standards, ad hoc committees may be convened. The plan has been further revised in that the designee, the South Carolina Department of Labor, will assume responsibilities which it had originaly intended to delegate to the South Carolina Liquefied Petroleum Gas Board, the State Fire Marshal and the South Carolina Department of Agriculture.

(f) Reduction in staffing projections. The State also proposes to revise its plan by reducing its staffing projections. As now proposed, the State intends to reduce its ultimate compliance force to 29 safety officers and 6 health officers from the staff of 49 safety officers and 9 health officers originally proposed upon plan approval. The State contends that the proposed staff will provide total coverage of all workplaces at least once every three years.

(g) Occupational health. The designee and the South Carolina Department of Health and Environmental Control have entered into an agreement delegating certain responsibilities for occupational health enforcement activities and laboratory analysis and establishing methods of coordination between the two Departments. A copy of the agreement along with a description of the South Carolina Occupational Health Program are included in the supplements.

(h) Compliance Manual. The State has also submitted a Compliance Operations Manual which is modeled after the Federal manual. Certain sections of the manual have been reserved pending further revisions.

(i) Developmental schedule. The State further proposes to amend its developmental schedule for the completion of its Management Information System from June 30, 1974, to July 1975. The State has completed a manual system and proposes the change in the developmental schedule to convert and expand its system to an automated one by July 1975.

3. *Location of the plan and its supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 850, 1726 M Street NW., Washington, D.C. 20210; Regional Office, Occupational Safety and Health Administration, Suite 587, 1375 Peachtree Street NE., Atlanta, Georgia 30309; and the South Carolina Department of Labor, 1710 Gervais Street, Columbia, South Carolina.

4. *Public participation.* Interested persons are hereby given until February 24, 1975, in which to submit written data, views, and arguments concerning whether the supplements should be approved. Such submissions are to be addressed to the Associate Assistant Secretary for Regional Programs at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements by filing particularized written objections with respect thereto within the time allowed for comments with the Associate Assistant Secretary for Regional Programs. If in the opinion of the Assistant Secretary, substantial objections are filed which warrant further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all relevant comments, arguments, and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart C of Part 1952, and initiate further proceedings, if necessary.

Signed at Washington, D.C. this 16th day of January, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-2128 Filed 1-22-75;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 100a]

GENERAL PROVISIONS FOR DISCRETIONARY PROGRAMS

Copyrightable Materials Developed Under Office of Education Programs

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92-318), and pursuant to the authority contained in section 403(b)(1) of the General Education Provisions Act, as amended (20 U.S.C. 1221c(b)(1)), the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Part 100a of Title 45 of the Code of Federal Regulations and Appendix A to Subchapter A, Chapter I, Subtitle B of Title 45 CFR as set forth below. These amendments would codify the Office of Education's copyright guidelines, and supersede the document appearing at 35 FR 7317 (May 9, 1970).

1. *Rules governing copyrights.* The regulations set forth below govern the use of copyrightable material developed under Office of Education programs, including provision for obtaining a limited copyright on such materials. The purpose of the regulations is to facilitate the commercial dissemination of materials after they are developed. The regulations are a codification of the current Office of Education copyright guidelines (35 FR 7317, May 9, 1970), and no major change in the substantive rules is intended.

If the regulations set forth in this document are adopted as proposed, the rules governing copyrights would be located in the General Provisions Regulations as follows:

a. The rules governing copyrights by State and local governments (unless an agreement is entered into with the Commissioner under proposed § 100a.221-1) would be set forth in Subpart L (Property Management Requirements) of Part 100a (45 CFR Part 100a), § 100a.217.

b. The rules governing copyrights by recipients other than State and local governments would be set forth in Subpart L-1 (Copyrights-Recipients other than State and Local Governments) of Part 100a (45 CFR Part 100a), §§ 100a.221-100a.226.

c. The rules governing copyright royalties of all recipients, including State and local governments, would be set forth in Subpart M (Program Income) of Part 100a (45 CFR Part 100a), § 100a.234.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commisioner to study all the rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations proposed below reflect the results of this study as it pertains to the U.S. Office of Education copyright policies. Effective 30 days following the publication of these regulations in final form, after comments and public hearing, all preceding rules, regulations, guidelines, and other published interpretations and orders issued in connection with or affecting the Office of Education's copyright policies (except those set forth in the Office of Education General Provisions Regulations (45 CFR Subtitle B, Chapter I, Subchapter A), as amended by this document) will be superseded.

3. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232 (a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

4. *Opportunity for public hearing.* Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations, as follows:

A hearing will take place at the U.S. Office of Education on March 26, 1975 in the Auditorium of Regional Office Building Three (ROB-3), 7th and D Streets, SW., Washington, D.C., beginning at 10 a.m.

The purpose of the hearing is to receive comments and suggestions on the published materials.

Parties interested in attending the hearing should notify the Office of Education, 400 Maryland Avenue, SW., Room 2085, Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on section 503, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his presentation to a maximum of fifteen minutes.

Written comments and recommendations may also be sent to the above address. All relevant materials received prior to the date of the hearing will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 9 a.m. and 4:30 p.m., Monday through Friday of each week.

(Catalog of Federal Domestic Assistance Programs Nos. 13.400-13.524, Office of Education)

Dated: August 8, 1974.

DUANE J. MATTHEIS,
Commissioner of Education.

Approved: January 15, 1975.

CASPAR W. WEINBERGER,
Secretary of Health,
Education, and Welfare.

Subchapter A of Chapter I, Subtitle B of Title 45 of the Code of Federal Regulations is amended as follows:

1. Section 100a.217 is amended by revising the section heading, to read as follows:

§ 100a.217 Copyrights—State and local governments.

* * * * * *

2. Section 100a.219 is amended by deleting paragraph (a) and by revising the section heading to read as follows:

§ 100a.219 Patents.

(a) [Deleted]

* * * * * *

3. A new subpart L-1 is added to read as follows:

Subpart L-1—Copyrights—Recipients Other Than State and Local Governments

Sec.

100a.221	Purpose.
100a.221-1	Scope.
100a.221-2	Copyright policy.
100a.221-3	Definitions.
100a.222	Content of material.
100a.222-1	Publication.
100a.222-2	Copyright authorization.
100a.222-3	Requests for copyright authorization.
100a.223	Scholarly and professional journals and periodicals.
100a.223-1	"Thin market" materials.
100a.223-2	Involvement of producers in development.
100a.224	Decision of the Commissioner.
100a.224-1	Selection of producer.
100a.224-2	Dissemination by recipient.
100a.224-3	General conditions.
100a.224-4	Publications arranged by the Commissioner.
100a.225	Waiver of requirement for limited copyright.
100a.226	Copyright protection during development.

Subpart L-1—Copyrights—Recipients Other Than State and Local Governments

§ 100a.221 Purpose.

The purpose of this subpart is to promote the effective dissemination and use of material in a manner which is fair and equitable to all interested parties—developers, producers, and users.

(20 U.S.C. 1221c(b)(1))

V40N16 JAN 23 75 XUM

§ 100a.221–1 Scope.

(a) Except as provided in paragraph (b) of this section, this subpart applies only to recipients other than State and local governments.

(b) (1) The Commissioner and a State and local government recipient may, by mutual agreement, make this subpart applicable to one or more awards to that recipient.

(2) If an agreement is entered into under this paragraph: (i) § 100a.217 (Copyrights-State and local governments) shall not apply to those awards, (ii) royalties received during the grant period shall be governed by § 100a.234 (b), and (iii) royalties received after the grant period shall be governed by § 100a.-234(d).

(c) Notwithstanding § 100a.10(b), this subpart shall apply to procurement contracts awarded pursuant to Title 41 of the Code of Federal Regulations as well as awards for assistance.

(20 U.S.C. 1221c(b) (1))

§ 100a.221–2 Copyright policy.

(a) It is the policy of the Office of Education that material resulting from Federally-assisted activities should be used in a manner which will best serve the public interest. This can be accomplished in some situations by distribution of the material without copyright. However, it is recognized that copyright protection may be desirable during development, as an incentive to promote effective dissemination, or otherwise in serving the public interest.

(b) Material which is subject to the provisions of this subpart shall not be copyrighted except as provided under this subpart.

(c) Arrangements for copyright of material for a limited period of time may be authorized by the Commission under appropriate conditions upon a showing satisfactory to the Commissioner that copyright protection will result in more effective development or dissemination of the material or would otherwise be in the public interest.

(20 U.S.C. 1221c(b) (1))

§ 100a.221–3 Definitions.

As used in this subpart:

"Cosponsor" is any person, agency, institution, or organization which contributed materially to a project for developing material. A grantee or contractor may be a cosponsor.

"Development" is the act or process of writing, creating, generating, testing, evaluating, or revising material, as distinguished from the act or process of publishing and disseminating material.

"Dissemination" includes the acts of stocking, selling, delivering, distributing, and installing material.

"Experimental material" is material which is being tested and evaluated under a grant or contract.

"Final material" is material which has been developed to the extent intended under the grant or contract.

"Material" means any copyrightable work resulting from a federally-funded grant or contract.

"Producer" means any publishing or disseminating organization other than the U.S. Government.

"Publication", in addition to the conventional meaning, includes all acts of preparing final material (in any media) for dissemination, and the further acts of disseminating that material (by any method).

"Recipient" (notwithstanding the definition of that term in § 100.1 of this chapter) includes parties who enter into procurement contracts with the Office of Education under Title 41 of the Code of Federal Regulations as well as parties who receive awards of assistance.

"Thin market material" is material for which a limited market and insubstantial publication revenues are anticipated.

(20 U.S.C. 1221c(b) (1))

§ 100a.222 Content of material.

Recipients are free to exercise their best judgments as to the format and intellectual content of material being developed under a project.

(20 U.S.C. 1221c(b) (1))

§ 100a.222–1 Publication.

(a) Recipients may publish or have published material without copyright, may seek authorization for publication under copyright, or may elect not to publish.

(b) (1) If the recipient elects to publish material (or to have it published) without copyright, the recipient may do so, subject to the limitation in § 100a.224–4. Such publication should not be undertaken unless educational objectives will be adequately served by that approach.

(2) Neither the recipient nor any of its employees who were involved in the development of material may publish or have published a copyrighted version within twelve (12) months after the publication date of the uncopyrighted version.

(c) If the recipient decides that it is unable or unwilling to publish the material, or to have it published, the recipient shall inform the Commissioner immediately after such decision is made so that other publication arrangements can be made.

(20 U.S.C. 1221c(b) (1))

§ 100a.222–2 Copyright authorization.

(a) The Commissioner may authorize a recipient to obtain publication under copyright and to claim the copyright for a specific period, generally not to exceed five (5) years, upon a showing that the material can best be disseminated under copyright.

(b) If the recipient elects to seek authorization for publication under copyright pursuant to the procedures of this subpart it shall do so at the earliest feasible time, preferably at an early stage in the development of the material.

(20 U.S.C. 1221c(b) (1))

§ 100a.222–3 Requests for copyright authorization.

(a) A request for authorization to secure copyright under § 100a.222–2 shall be submitted to the Commissioner in sufficient time for action before the expiration of the award.

(b) Each request under paragraph (a) of this section shall include:

(1) An identification, by number, of the grant or contract involved, a description of the type or class of material for which request for authorization to secure copyright is being made, and a copy of the material, if available;

(2) The reasons why the material should be disseminated under copyright;

(3) The proposed copyright period and the reasons therefor;

(4) A "Request for Proposals" which the recipient proposes to use should the request for authorization to secure copyright be approved;

(5) A list of prospective producers to be solicited;

(6) The best available indication of the size and nature of the estimated market for the material;

(7) The criteria that will be used to select the successful producer, including the proposed publication and dissemination timetable, approximate price to be charged, experience and capability in the field, royalties to be paid, and other appropriate factors; and

(8) A statement of any other factors which the recipient considers to be pertinent to its request.

(20 U.S.C. 1221c(b) (1))

§ 100a.223 Scholarly and professional journals and periodicals.

In the interest of rapid dissemination of educational information, no restriction is placed upon the publication of educational articles in scholarly or professional journals, or in other periodicals.

(20 U.S.C. 1221c(b) (1))

§ 100a.223–1 "Thin market" materials.

Notwithstanding the requirements of § 100a.222–3, the obligation to obtain competition for publication of thin market materials will be satisfied by the following procedure:

(a) The recipient shall write to those producers (a minimum of three) which would most likely be interested in publishing the material. Each shall be informed that the others are receiving comparable letters. Each letter shall request the producer to specify the terms under which that producer would be willing to publish the material.

(b) The recipient shall furnish copies of the letters to the producers and each response, together with a recommendation for selection and the rationale therefor, with the copyright authorization request to the Commissioner.

(c) The Commissioner will act on the request in accordance with the provisions of § 100a.224.

(d) The Commissioner reserves the right to require the use of the procedure under § 100a.222–3 if he determines that the material is not thin market material.

(20 U.S.C. 1221c(b) (1))

§ 100a.223–2 Involvement of producers in development.

(a) Nothing contained in this subpart shall be interpreted as precluding the involvement of producers in the development of material, provided their involvement is accomplished on a competitive basis so that one producer is not given an undue advantage over other potentially interested producers.

(b) In order to involve producers in the development of material, the "Request for Proposals" specified in § 100a.-222–3(b)(4) shall, if desirable, require that the producer perform, in addition to normal publishing and disseminating functions, some additional functions which would normally be identified as development functions. Such additional functions might include, for example, the printing of experimental material and its distribution to a specified audience, the design of equipment, or the production of films.

(c) Involvement of producers in the development phase may be undertaken to:

(1) Attract private investment,

(2) Utilize unique facilities and expertise,

(3) Promote the development of a viable and salable product, where unique installation and use problems are anticipated,

(4) Promote the transition from the development phase to the publication phase, and

(5) Meet other considerations consistent with the purposes of this subpart.

(20 U.S.C. 1221c(b) (1))

§ 100a.224 Decision of the Commissioner.

(a) All requests for authorization to secure copyright will be considered by the Commissioner. The recipient will be notified of the Commissioner's decision.

(b) If the request is denied, the recipient will be advised of the reasons for the denial. In such case, the recipient may request reconsideration within thirty (30) days after receipt of the Commissioner's decision.

(c) If the request is approved, an agreement setting forth the conditions under which the recipient is authorized to secure publication under copyright, including the conditions set forth in § 100a.224–3 and any other conditions deemed appropriate by the Commissioner, will be sent to the recipient for signature. The agreement will authorize the recipient to issue the Request for Proposals to prospective producers, to select a producer, and to prepare a publication and dissemination contract.

(20 U.S.C. 1221c(b) (1))

§ 100a.224–1 Selection of producer.

After receipt and evaluation of the proposals, the recipient shall submit the name of the producer selected and the rationale for selection to the Commissioner for approval of the selection, prior to negotiating final terms of a publication and dissemination contract with the producer selected. The publication and dissemination contract will not be executed until it has been approved by the Commissioner.

(20 U.S.C. 1221c(b) (1))

§ 100a.224–2 Dissemination by recipient.

A recipient which has a dissemination capability may be authorized to disseminate material it has developed, under copyright, subject to appropriate conditions, upon a showing that such dissemination would be in the public interest.

(20 U.S.C. 1221c(b) (1))

§ 100a.224–3 General conditions.

Authorization to publish under copyright shall be subject to such conditions as the Commissioner may deem appropriate, including the following:

(a) The copyright will normally be in the name of the recipient.

(b) Neither the recipient, nor any of its employees, without prior written approval of the Commissioner, shall publish or have published any revision or adaptation of the copyrighted material during such period of time as the Commissioner shall determine, but not to exceed the authorized copyright period.

(c) In addition to the clause required under § 100a.218, a legend which will provide notice of the time limitation imposed by the copyright authorization agreement, in such form as may be designated by the Commissioner, will be placed in a prominent position on the copyrighted work.

(d) Within six (6) months after publication of the copyrighted material, the copyright claim will be registered in the U.S. Copyright Office by the recipient or by the producer for the recipient. The application for registration will state the date after which the copyright may no longer be claimed

(e) With respect to any material for which the securing of copyright protection is authorized pursuant to this subpart, the U.S. Government shall be granted an irrevocable, nonexclusive, and royalty-free license to publish, translate, reproduce, deliver, perform, use, and dispose of all such material for government purposes.

(f) In the event that the Commissioner finds that the recipient has not complied or is unwilling or unable to comply with the terms of the copyright authorization agreement, the Commissioner shall have the right: (1) To publish and disseminate the material or to have the material published and disseminated, either with or without copyright protection, and (2) to take such other action as may be allowable under the copyright authorization agreement or under law or regulations; *Provided*, That the recipient shall be given notice of any action proposed to be taken by the Commissioner and afforded an opportunity to be heard.

(g) In the event that the Commissioner finds that the producer has failed to comply with the terms of the publication and dissemination contract with the recipient, the Commissioner shall have the right: (1) to license others to publish the material covered by the copyright, and (2) to take such other action as may be authorized under the publication and dissemination contract; *Provided*, That the recipient and the producer shall be given written notice of any action proposed to be taken by the Commissioner and afforded an opportunity to be heard.

(h) If the material for which copyright is sought is a product of a project which is funded jointly with another party, the Commissioner may negotiate with the other party with respect to the terms and conditions by which publication under copyright will be authorized. The purpose of the negotiation will be to reach an accommodation in the event such other party has copyright policies which differ from this subpart.

(20 U.S.C. 1221c(b) (1))

§ 100a.224–4 Publications arranged by the Commissioner.

In the event that the recipient is unwilling or unable to undertake the task of obtaining effective dissemination of material in accordance with §§ 100a.222–100a.222–3 or § 100a.223–1, and the Commissioner determines that publication under copyright will promote effective dissemination and use of the material, the Commissioner may undertake the task of arranging for such dissemination. All royalties which are generated will be paid by the publisher to the Commissioner, and the recipient will not share in those royalties.

(20 U.S.C. 1221c(b) (1))

§ 100a.225 Waiver of requirement for limited copyright.

The Commissioner may permit a recipient to secure and claim statutory full term copyright in material, subject only to the requirement that the U.S. Government be granted a royalty free, nonexclusive and irrevocable license to publish, translate, reproduce, deliver, perform, use and dispose of all such material for government purposes, in those situations where the financial support by organizations other than the Federal Government is so great, as compared with the contribution of the Federal Government, that it would be inequitable to require more than this license.

(20 U.S.C. 1221c(b) (1))

§ 100a.226 Copyright protection during development.

(a) There may be occasions where it will be in the public interest to prevent curriculum and other material from falling into the public domain prematurely while it is being developed, tested, and evaluated. Grantees and contractors may take the necessary steps to protect that material during development, testing, or evaluation; *Provided*, That the material shall not be copyrighted without the express approval of the Commissioner.

V40 16 JAN 23 75 XUM

(b) The Commissioner may approve requests submitted to him in writing to secure copyright and to claim copyright for a limited period of time during development, testing, and evaluation, where it can be demonstrated that such protection is necessary for the effective development of the material. The request shall set forth the reasons why copyright is needed.

(20 U.S.C. 1221c(b)(1))

4. Section 100a.234 is revised to read as follows:

§ 100a.234 Royalties.

(a) *Applicability*—(1) *Copyrights.* This section applies to royalties received by recipients from copyrights on publications or other works developed under a Federally-assisted grant or contract.

(2) *Patents.* This section also applies to royalties received by recipients from patents on inventions conceived or first actually reduced to practice in the course of or under a Federally-assisted grant or contract.

(b) *During the grant period—State and local governments—copyrights and patents.* (1) If the recipient is a State or local government, all royalties received during the grant period shall be retained by the recipient. The terms and conditions of the grant or contract will provide either:

(i) That such royalties shall be used by the recipient for any purposes which further the objectives of the legislation under which the award was made, or

(ii) That such royalties shall be deducted from total project costs for the purpose of determining the net costs on which the Federal share of costs shall be based.

(2) When the recipient is a State or local government, the recipient shall elect either of the alternatives specified in subparagraph (1) of this paragraph if the terms and conditions of the grant or contract do not specify which is to be followed.

(c) *During the grant-period—other recipients—patents.* If the recipient is not a State or local government, disposition of patent royalties received during the grant period shall be governed by § 100a.219(b).

(d) *During and after the grant period—other recipients—copyrights.* (1) This paragraph applies only to copyright royalties (whether received during or after the grant period) of recipients other than State and local governments (except as provided in § 100a.221–1(b).

(2) Each co-sponsor of a project is entitled to share in any royalties from published material (as defined in § 100a.221–3) in proportion to the financial or equivalent contribution to the Federally-assisted project by the co-sponsor.

(3)(i) Except as provided in paragraph (d)(3)(ii) of this section, the recipient shall remit royalties from the sale or rental of copyrighted material to the Commissioner for transmittal to the U.S. Treasury.

(ii) The recipient may retain a portion of the royalty income equal to one of the following amounts, whichever is greater:

(*a*) Fifty percent of the net royalty ("Net royalty" is defined as that amount remaining after deducting any share or shares due to a cosponsor or cosponsors, other than the Federal Government or the recipient); or

(*b*) The percentage which corresponds with the financial contribution to the project by the recipient. (If the recipient elects this alternative, the burden of showing such contribution shall be on the recipient. The Commissioner reserves the right to accept or reject such a showing and to specify the share, not less than 50 percent of the net royalty, to be retained by the recipient.)

(4) Contractors other than nonprofit organizations or agencies are not permitted to share in royalties under paragraph (d)(3) of this section. However, arrangements may be made to allow such contractors to retain royalties to defray administrative expenses, not otherwise recoupable under the contract, which are incurred in obtaining publication of material under copyright in accordance with this subpart.

(20 U.S.C. 1221c(b)(1))

(e) *After the grant period—State and local governments—copyrights.* Except as provided in § 100a.221–1(b)(2), if the recipient is a State or local government, the Federal share of copyright royalties in excess of $200 received annually shall be paid by the recipient to the Federal Government. In such cases, the Federal share of the royalties shall be computed on same ratio basis as the percentage of Federal participation in the cost of the project or program. This percentage of participation shall be determined in accordance with § 100a.220.

(f) *After the grant period—all recipients—patents.* Disposition of patent royalties received after the termination or completion of the period for obligation shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the recipient, pursuant to the Department's patent regulations (Parts 8 and 8 of this title).

(20 U.S.C. 1221c(b)(1); OMB Circular No. A–102, Attachment E)

5. Appendix A to Subchapter A of Chapter I, subtitle B, is amended by revising paragraphs 10–a and 11–b to read as follows:

10. *Copyrights.* (a) Any material of a copyrightable nature produced under the grant shall be subject to the applicable provisions of 45 CFR Part 100a, including, as appropriate, Section 100a.217 (copyrights—State and local governments), subpart L–I (copyrights—recipients other than State and local governments), and/or the provisions of subpart M (program income). Material produced by trainees or fellows are not considered to be produced under the grant unless they are produced at the direction of the grantee.

* * * * *

11. *Publications.* (a) * * *

(b) Material produced as a result of the grant may be published without prior review by the Commissioner. Five copies of such material shall be furnished to the grants officer. If such material are published for sale, disposition of the proceeds from such sale shall be governed by the applicable provisions in 45 CFR Part 100a, Subpart M (Program Income).

(20 U.S.C. 1221c(b)(1))

DEPARTMENT OF TRANSPORTATION

Coast Guard

[46 CFR Parts 10 and 12]

[CGD 74–226]

LICENSING AND CERTIFICATING OF MERCHANT MARINE PERSONNEL

Notice of Proposed Rulemaking

The Coast Guard is considering amending the regulations concerned with the licensing of deck officers to provide a seaman's entry rating of "apprentice mate," and to accept an approved training program as qualifying experience for a license as Third Mate of ocean steam or motor vessels.

Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments to the Executive Secretary, Marine Safety Council (G–CMC/82), Room 8234, 400 Seventh Street SW., Washington, D.C. 20591 (Phone 202–426–1477). Written comments should include the docket number of this notice, the name and address of the person submitting the comments, the specific section of the proposal to which comment is addressed, and the reason for suggested change, if any.

All relevant communications received before March 9, 1975, will be fully considered before final action is taken on this proposal. Copies of comments received will be available for examination in Room 8234. This proposal may be changed in the light of comments received.

The proposed changes will provide a new method of qualification for a license as Third Mate of ocean steam or motor vessels. These provisions will parallel those amendments concerning apprentice engineer which were promulgated in the FEDERAL REGISTER, vol. 31, No. 240 on Tuesday, December 13, 1966, and which are contained in 46 CFR 10.10–21, 11.10–50, and 12.25–35.

The Coast Guard is becoming increasingly aware of the problem of obtaining junior officers, Third Mates and Third Assistant Engineers, who are motivated to follow a career as professional mariners. This situation has created a shortage of shipboard personnel in some segments of the marine industry, particularly in the intermediate officer grades of Chief/Second Mates and First/Second Assistant Engineers.

The analysis contained in a recent U.S. Maritime Administration study, "Deck and Engine Officers in the U.S. Merchant Marine, Supply and Demand, 1974–1984," shows a shortage of deck and engineering officers by the end of the decade and possibly earlier. This shortage was predicated on a U.S. Flag Vessel Forecast, the output of new ship's officers available to the work force, and the attrition rate of these officers. An influencing factor on this shortage is the increasing number of officers who will be required to fill one billet. This increase in manpower requirements is due to recent liberalization of vacation provisions in the industry. Among other things, this study recommended a new supply of officers from industry schools.

Therefore, to assure that vessels of the U.S. Merchant Marine are adequately manned by qualified, trained, and efficient citizen personnel, the Coast Guard is proposing these regulations to provide another source of supply for deck officers.

In June 1974, Southern Maine Vocational Technical Institute at South Portland, Maine, proposed that it could adequately provide the educational part of a proposed curriculum if interested corporations could provide the experience opportunity and lend financial support to the total program. Southern Maine Vocational Technical Institute is one of five such schools operated by the State of Maine, and has been recommended for accreditation by the New England Association of Schools and Colleges. The first formal meeting of representatives of the Institute, Gulf Oil Trading Corporation, the U.S. Maritime Administration, and the Ceast Guard was held in South Portland on 26 June 1974. The facilities, including waterfront and training vessels, were considered sufficient to accommodate a new program. As a result, a formal request for approval was prepared and forwarded to the Commandant. In view of the present facilities and equipment, the program to train apprentice mates and apprentice engineers was begun in September 1974 with interim Coast Guard approval.

The program is based on a 3-year course of directed study and practical experience which will be supervised by ships' officers and instructors who will accompany the apprentices on some voyages. Each student accepted as an apprentice must meet the State requirements concerning educational background and must meet the Coast Guard physical standards for an original license. The program will alternate 8 months of academic training with 4 months of underway experience for a total of 36 months, including 12 months aboard ship.

Contingent upon final notice of rule making, interim approval of the program has been given. Longer approval will be granted upon completion of the new building for the Department of Marine Science and Technology, the obtaining of simulator training aids, and continued interest by all parties concerned.

In consideration of the foregoing, it is proposed that Parts 10 and 12 of Title 46 of the Code of Federal Regulations be amended as follows:

1. In § 10.05–33, by amending paragraph (a)(7) by striking "." and inserting "; or ," in place thereof and by adding a new paragraph (a)(8) to read as follows:

§ 10.05–33 Third Mate of ocean steam or motor vessels.

(a) * * *

(8) Satisfactory completion of a three year apprentice mate training program approved by the Commandant.

2. By adding a new § 12.25–40 to read as follows:

§ 12.25–40 Apprentice Mate.

A person enrolled in an apprentice mate training program approved by the Commandant who presents a letter or other documentary evidence that he is so enrolled may be issued a merchant mariner's document as apprentice mate and may be signed on ships as apprentice mate. The endorsement "apprentice mate" may be in addition to other endorsements. However, this endorsement as apprentice mate does not authorize the holder to fill any of the regular ratings.

(R.S. 4405, as amended (46 U.S.C. 375), R.S. 4462, as amended (46 U.S.C. 416), RS. 4438, as amended (46 U.S.C. 224), R.S. 4438a, as amended (46 U.S.C. 224a), R.S. 4440, as amended (46 U.S.C. 228), R.S. 4551, as amended (46 U.S.C. 643); 46 U.S.C. 672, 689; 49 U.S.C. 1655(b)(1); 49 CFR 1.46 (b)).

Dated: January 16, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74–NE–60]

PROPOSED DESIGNATION OF TRANSITION AREA

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Rochester, New Hampshire, 700-foot Transition Area.

A review of airspace requirements for the Standard Instrument Approach Procedure serving Sky Haven Airport, Rochester, New Hampshire, has determined the need of a 700-foot Transition Area in order to provide controlled airspace protection for aircraft executing the Standard Instrument Approach Procedure at Sky Haven Airport, Rochester, New Hampshire.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or before February 24, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Rochester, New Hampshire, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to add the following transition area:

ROCHESTER, NEW HAMPSHIRE

That airspace extending upward from 700-feet above the surface within a 7 mile radius of the Center (Lat. 43°17'00" N., Long. 70°57'00" W.) of the Sky Haven Airport, Rochester, New Hampshire, excluding those portions that coincide with the Sanford, Maine and Portsmouth, New Hampshire 700-foot Transition Areas.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; (49 U.S.C. 1348)] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Burlington, Massachusetts, on January 10, 1975.

WILLIAM E. CROSBY,
Acting Director, New England Region.

[FR Doc.75–2070 Filed 1–22–75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75–SO–3]

DESIGNATION OF TRANSITION AREA

Notice of Proposed Rule Making

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Kingstree, S.C., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before February 24, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

V40-16 JAN 23 75 XUM

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Kingstree transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Williamsburg County Airport (Lat. 33°43'01" N., Long. 79°51'26" W.); within 3 miles each side of the 307° bearing from Kingstree RBN (Lat. 33°43'04" N., Long. 79°52'23" W.), extending from the 6.5-mile radius area to 8.5 miles northwest of the RBN.

The proposed designation is required to provide controlled airspace protection for IFR operations at Williamsburg County Airport. A prescribed instrument approach procedure to this airport, utilizing the Kingstree (private) Nondirectional Radio Beacon, is proposed in conjunction with the designation of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on January 14, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

NATIONAL SECURITY COUNCIL

[32 CFR Ch. XXI]

FREEDOM OF INFORMATION FEES

Notice of Proposed Rule Making

The National Security Council Staff is considering publishing the following regulations concerning the schedule of fees and method of payment for services rendered under the Freedom of Information Act, as amended (5 U.S.C. 552).

Interested persons may comment by submitting such written data, views, or arguments as they may desire. Communications should be submitted to the Staff Secretary, Room 374, Old Executive Office Building, National Security Council, Washington, D.C. 20506. All communications received on or before February 16, 1975, will be considered before action is taken on the proposed regulations. No public hearing will be held. The proposal contained in this notice may be changed in the light of the comments received.

Comments received will be available for examination by contacting the Staff Secretary at the address cited above.

SCHEDULES OF FEES AND METHOD OF PAYMENT FOR SERVICES RENDERED

A. Fees schedule for the search and reproduction of information available under the Freedom of Information Act (5 U.S.C. 552), as amended.

1. Search for records—$5.00 per hour when the search is conducted by a clerical employee. $8.00 per hour when the search is conducted by a professional employee. No charge for searches of less than 1 hour.

2. Duplication of records—Records will be duplicated at a rate of $.25 per page for all copying of 4 pages or more. There is no charge for duplicating 3 or less pages.

3. Other—When no specific fee has been established for a service, or the request for a service does not fall under one of the above categories due to the amount or type thereof, the Staff Secretary is authorized to established an appropriate fee based on "direct costs" as provided in the Freedom of Information Act. Examples of services covered by this provision include searches involving computer time or special travel, transportation, or communications costs.

B. If records requested under the Act are stored elsewhere than the headquarters of the National Security Council Staff at Washington, D.C., the special costs of returning such records to the headquarters for review will be added to the search costs. Search costs are due and payable even if the record which was requested cannot be located after all reasonable efforts have been made, or if the NSC Staff determines that a record which has been requested, but which is exempt from disclosure under the Act, is to be withheld. Processing of a request for records will not be undertaken until a requestor has paid in full for search and duplication charges for any previous document request under the Act.

C. Where is it anticipated that the fees chargeable under this section will amount to more than $25, and the requester has not indicated in advance his willingness to pay fees as high as are anticipated, the requester shall be promptly notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In instances where the estimated fees will greatly exceed $25, an advance deposit may be required. The notice or request for an advance deposit shall extend an offer to the requester to consult with knowledgeable NSC Staff personnel—designated by the Staff Secretary—in an attempt to reformulate the request in a manner which will reduce the fees and meet the needs of the requester. Dispatch of such a notice or request shall suspend the running of the period for response by the NSC Staff until a reply is received from the requester.

D. Fees must be paid in full prior to issuance of requested copies.

E. Remittances shall be in the form either of a personal check or bank draft drawn on a bank in the United States, or a postal money order. Remittances shall be made payable to the order of the Treasurer of the United States and mailed to the Staff Secretary, National Security Council, Washington, D.C. 20506.

F. A receipt for fees paid will be given only upon request. Refund of fees paid for services actually rendered will not be made.

G. The Staff Secretary, National Security Council, may in accordance with the Freedom of Information Act, as amended, waive all or part of any fee provided for in this section when it is deemed to be in either the interest of the NSC Staff or of the general public.

These regulations are proposed under the authority of 5 U.S.C. 552 as amended by Public Law 93-502.

JEANNE W. DAVIS,
Staff Secretary.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[ATF O 1100.11]

CHIEF, ADMINISTRATIVE PROGRAMS DIVISION

Delegation Order

Settlement of tort claims and claims made by an employee of the Bureau of Alcohol, Tobacco and Firearms for Damage to or Loss of Personal Property Incident to Service.

Pursuant to Treasury Department Order No. 145 (Rev. 3), dated February 13, 1967, and Treasury Department Order No. 177-22 (Rev. 2), dated December 27, 1968, there is hereby delegated to the official listed below the authority to handle the claims as specified:

(a) Chief, Administrative Programs Division.

(1) The authority, under 28 U.S.C. 2672 to consider, ascertain, adjust, determine, compromise, settle, and pay or transmit for payment claims for money damages for injury or loss of property or wrongful act or omission of any employee of the Bureau of Alcohol, Tobacco and Firearms.

(2) The authority to consider, ascertain, adjust, and determine claims under the Act of December 28, 1922, 42 Stat. 1066.

(3) The authority under the Military Personnel and Civilian Employees' Claims Act of 1964, as amended, to settle and pay claims made by an employee of the Bureau of Alcohol, Tobacco, and Firearms for damage to or loss of personal property incident to his service.

2. The authorities delegated herein may be redelegated but not below the Protective Programs Officer.

3. This order supersedes ATF Delegation Order No. 8, issued July 1, 1972.

Dated: January 7, 1975.

REX R. DAVIS,
Director.

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF SCIENTIFIC ADVISORY BOARD; AIR FORCE SYSTEMS COMMAND ARMAMENT DEVELOPMENT AND TEST CENTER ADVISORY MEETING

Closed Meeting

JANUARY 17, 1975.

The Air Force Systems Command Armament Development and Test Center Advisory Group will hold a meeting in room 118, building 1, Eglin Air Force Base, Florida, on February 19 and 20, 1975, from 8:30 a.m. to 4:00 p.m.

The meeting will be closed to the public. The agenda will consist of classified discussions and briefings on matters listed in 5 U.S.C. 552(b)(1) concerning Air Force munitions development programs.

For further information, contact the Scientific Advisory Board Secretariat on 202-697-4648.

STANLEY L. ROBERTS,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc.75-2096 Filed 1-22-75;8:45 am]

Department of the Navy

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE—POLITICO-MILITARY SUB-PANEL

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Politico-Military Sub-Panel of the Chief of Naval Operations Executive Panel Advisory Committee will hold a closed meeting on February 21, 1975, at the Pentagon, Washington, D.C. The session will commence at 9:00 a.m. and terminate at 5:30 p.m.

The agenda will consist of matters which are classified in the interest of national security, including current intelligence, military capabilities, influence of sea power on international policies, and long-range Navy plans. The Secretary of the Navy for that reason has determined in writing that meetings of the Chief of Naval Operations Executive Panel Advisory Committee should be closed to the public because they are concerned with matters listed in section 552(b) of Title 5, United States Code.

Dated: January 16, 1975.

H. B. ROBERTSON, Jr.,
Rear Admiral, JAGC, U.S. Navy, Acting Judge Advocate General.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration

NATIONAL PRIVATE SECURITY ADVISORY COUNCIL

Meeting

Notice is hereby given that the National Private Security Advisory Council to the Law Enforcement Assistance Administration will meet February 19 and 20, 1975, at the State Capitol Building, Austin, Texas. The Advisory Council will, in conjunction with this meeting, hold a public hearing on a report containing a proposed model statute for the regulation of security guard services.

The meeting will be open to the public. Any interested person may file a written statement with the Council for its consideration or may appear in person to make a statement on the model statute that will be reviewed by the Council. A copy of the draft model statute will be made available on request.

Statements or requests to make personal appearances should be addressed to: Irving Slott, LEAA, U.S. Department of Justice, Room 1144, 633 Indiana Avenue, NW., Washington, D.C. 20530.

GERALD YAMADA,
Attorney-Advisor, Office of General Counsel.

ENDANGERED SPECIES PERMIT

Receipt of Application

Correction

In FR Doc. 75-1677 appearing at pg. 3019 in the issue for Friday, January 17, 1975, make the following change:

In the last paragraph, the last sentence beginning, "All relevant comments . . ." the date that now reads "January 18, 1975," should be changed to read, "February 18, 1975,".

Bureau of Land Management

[NM 24243]

NEW MEXICO

Application

JANUARY 15, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Llano, Inc. has applied for a 4 inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 20 S., R. 28 E.
Sec. 14, N½SW¼, SE¼SW¼;
Sec. 15, S½NE¼, NE¼SE¼;
Sec. 22, SE¼SW¼, SW¼SE¼;
Sec. 23, E½NW¼ and NE¼SW¼.

This pipeline will convey natural gas across 1.962 miles of national resource lands in Eddy County, New Mexico.

V40-16 JAN 23 75 XUM

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, PO Box 1397, 1717 West Second Street, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 49110]

WYOMING

Proposed Withdrawal and Reservation of Lands

JANUARY 16, 1975.

The Forest Service, United States Department of Agriculture, has filed an application, Serial Number Wyoming 49110, for the withdrawal of lands described below, from location and entry under the general mining laws, but not the mineral leasing laws, subject to valid existing rights.

The applicant wishes to assure tenure of the described lands for the protection of identified wildlife, watershed, historical and scenic values.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing no later than February 28, 1975, to the undersigned official of the Bureau of Land Management, Department of the Interior, P.O. Box 1828, Cheyenne, Wyoming 82001.

The Department's regulations, 43 CFR 2351.4(c), provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

BIGHORN NATIONAL FOREST

T. 51 N., R. 84 W.,
Sec. 13, NE¼, E½NW¼, and NE¼SE¼.
T. 52 N., R. 84 W.,
Sec. 23, S½NE¼, E½SW¼, and SE¼;
Sec. 26, NE¼, NE¼NW¼, N½SE¼, and SE¼SE¼.
T. 53 N., R. 84 W.,
Sec. 14, All;
Sec. 15, NE¼NE¼;
Sec. 22, E½;
Sec. 28, NE¼.

The areas described aggregate 2,080 acres.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

[FR Doc.75-2109 Filed 1-22-75;8:45 am]

[Wyoming 49329]

WYOMING

Application

JANUARY 16, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Colorado Interstate Corporation has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 12 N., R. 99 W.,
Sec. 17, E½E½ and SW¼SE¼;
Sec. 20, lot 3.

The pipeline will convey natural gas from the Burch Federal #13-9 well in sec. 9, T. 12 N., R. 99 W. to an existing pipeline in sec. 13, T. 12 N., R. 100 W., 6th P.M., Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, WY 82901.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

National Park Service

NATIONAL CAPITAL MEMORIAL ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the National Capital Memorial Advisory Committee will be held at 1:30 p.m. on Monday, February 10, 1975, in Room 234 at the National Capital Parks Headquarters, 1100 Ohio Drive, SW., Washington, D.C.

The committee was established for the purpose of preparing and recommending to the Secretary broad criteria, guidelines, and policies for memorializing persons and events on Federal lands in the National Capital region (as defined in the National Capital Planning Act of 1952, as amended) through the media of monuments, memorials, and statues. It is to examine each memorial proposal for adequacy and appropriateness, make recommendations to the Secretary with respect to site location on Federal land in the National Capital region and to serve as an information focal point for those seeking to erect memorials on Federal land in the National Capital region.

The members of the committee are as follows:

Director, National Park Service, Chairman
Washington, D.C.

Mr. George M. White
Architect of the Capitol
Washington, D.C.

General Mark W. Clark
Chairman, American Battle
Monuments Commission
Washington, D.C.

Mr. J. Carter Brown
Chairman, Fine Arts Commission
Washington, D.C.

Mr. William H. Press
Chairman, National Capital
Planning Commission
Washington, D.C.

Honorable Walter E. Washington
Mayor of the District of Columbia
Washington, D.C.

Mr. Larry F. Roush
Commissioner, Public Buildings Service
Washington, D.C.

The purpose of this meeting is to discuss a proposed memorial to be erected in the District of Columbia or its environs. The proposed memorial to be considered is:

S. 4141—Authorizing the erection of a statue to commemorate Founding of Marine Barracks, Washington, District of Columbia, by President Thomas Jefferson.

Also to be considered is the relocation of the Major General George C. Meade Memorial.

The meeting will be open to the public. Any person may file with the committee a written statement concerning the matters to be discussed. Persons who wish to file a written statement or who want further information concerning the meeting may contact Mr. Richard L. Stanton, Associate Director, Cooperative Activities, National Capital Parks, at area code 202-426-6715. Minutes of the meeting will be available for public inspection two weeks after the meeting at the Office of National Capital Parks, Room 208, 1100 Ohio Drive, SW., Washington, D.C.

Date: January 8, 1975.

MANUS J. FISH, JR.,
Director, National Capital Parks.

[FR Doc. 75-2084 Filed 1-22-75;8:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

NATIONAL PEANUT ADVISORY COMMITTEE

Notice of Public Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the National Peanut Advisory Committee on February 14, 1975, beginning at 9 a.m., in Room 218-A, U.S. Department of Agriculture, Washington, D.C. 20250.

The purpose of the meeting is to advise the Secretary of Agriculture and other officials on domestic and export requirements for peanuts, production adjustment and stabilization programs, and other matters relating to this commodity. The meeting will be open to the public. Any member of the public may file a written statement with the Committee before or within one week following the meeting.

The names of the members of the Committee, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Mr. William L. Lanier, Director, Tobacco and Peanut Division, Room 6741-S, U.S. Department of Agriculture, Washington, D.C. 20250.

Signed at Washington, D.C. on January 20, 1975.

WILLIAM L. LANIER,
Executive Secretary, National Peanut Advisory Committee.

Farmers Home Administration

[Designation No. A125]

GEORGIA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following county in Georgia:

WILCOX

The Secretary has found that this need exists as a result of a natural disaster consisting of drought June 1 to July 20 and excessive rainfall July 21 to August 30, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendations of former Governor Jimmy Carter that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 17, 1975, for physical losses and October 15, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 17th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-2118 Filed 1-22-75;8:45 am]

[Designation No. A126]

ILLINOIS

Designation of Emergency Areas

The Secreary of Agriculture has found that a general need for agricultural credit exists in the following counties in Illinois:

Douglas Marion

The Secretary has found that this need exists as a result of a natural disaster consisting of excessive rainfall and flooding from May 1 to June 22, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Daniel Walker that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 17, 1975, for physical losses and October 15, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 17th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-2119 Filed 1-22-75;8:45 am]

[Designation No. A127]

MISSISSIPPI

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Mississippi:

De Soto Lafayette Sunflower

The Secretary has found that this need exists as a result of a natural disaster consisting of excessive rainfall April 22 to June 30, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor William L. Waller that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 15, 1975, for physical losses and October 17, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 17th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Forest Service

ENVIRONMENTAL STATEMENTS UNDER PREPARATION AS OF DECEMBER 15, 1974

A list of environmental statements is here published to provide timely public information on the status of Forest Service environmental statements under preparation as of December 15, 1974. Persons interested in a particular action and environmental statement should contact the responsible official directly.

For ease in use of this list, statements are grouped by Forest Service organizational units proposing the action. Statements marked with an asterisk indicate, in total or in part, land use planning, developments, or activities within inventoried roadless areas. National Forest inventoried roadless areas are defined as roadless and undeveloped areas 5,000 acres or larger, except that smaller areas adjoining existing Wilderness and Primitive Areas could be included. Existing Wilderness and Primitive Areas are excluded from this definition.

Forest Service field addresses are given at the end of the listing of environmental statements.

Dated: January 14, 1975.

R. MAX PETERSON,
Deputy Chief, Forest Service.

DESCHUTES NATIONAL FOREST ADVISORY COMMITTEE

Meeting

The Deschutes National Forest Advisory Committee will meet at 6:30 p.m., February 13, 1975, for a no-host dinner at Elmer's Pancake & Steak House, Bend, Oregon. The program will follow at 8:00 p.m.

The subject to be discussed at this meeting will be "Environmental Impact Reporting—Past, Present and Future." This will be presented by Earl E. Nichols, Forest Supervisor.

The meeting will be open to the public.

Dated: January 17, 1975.

EARL E. NICHOLS,
Forest Supervisor.

[FR Doc.75-2093 Filed 1-22-75;8:45 am]

ROCK CREEK ADVISORY COMMITTEE

Meeting

The Rock Creek Advisory Committee will meet at 7:00 p.m. on February 18, 1975. Meeting place will be in Drummond, Montana, in the Catholic Church basement.

The purpose of this meeting is to continue Committee review of the planning processes and the critique of management options in Upper Rock Creek.

The meeting will be open to the public. Any member of the public who wishes to do so shall be permitted to file a written statement with the Committee before or after the meeting. To the extent that time permits, the Committee Chairman may permit interested persons to present oral statements at the meeting.

General participation by members of the public, or questioning of Committee members or other participants shall not be permitted unless approved by the majority of Committee members.

Dated: January 16, 1975.

ROBERT W. DAMON,
Forest Supervisor,
Deerlodge National Forest.

Soil Conservation Service

NORTH AND SOUTH MILL CREEK WATERSHED PROJECT, WEST VIRGINIA

Availability of Draft Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the North and South Mill Creek Watershed Project, Grant, Pendleton, and Hardy Counties, West Virginia, USDA-SCS-EIS-FP-(ADM)-75-1-(D)-WV.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and recreation. The planned works of improvement include conservation land treatment, supplemented by five single-purpose floodwater retarding structures, and one multiple-purpose structure for flood prevention and recreation. The recreational development will provide 53,000 visitor-days of recreation annually.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, P.O. Box 865, Morgantown, West Virginia 26505.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of, or special expertise on, environmental impacts.

Comments concerning the proposed action or requests for additional information should be adressed to James S. Bennett, State Conservationist, Soil Conservation Service, P.O. Box 865, Morgantown, West Virginia 26505.

Comments must be received on or before March 18, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: January 15, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

DEPARTMENT OF COMMERCE

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS TASK GROUP 15 COMPUTER SYSTEMS SECURITY

Notice of Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that the Federal Information Processing Standards Task Group 15 (FIPS TG-15), "Computer Systems Security," will hold a meeting from 10 a.m. to 4 p.m. on Tuesday and Wednesday, March 4 and 5, 1975, in Room B-27, Building 225, of the National Bureau of Standards at Gaithersburg, Maryland.

The purpose of this meeting is to prepare draft guidelines in four areas of computer systems security: information management; internatl systems security; teleprocessing and network control; and security requirements and metrics.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify Dr. Dennis K. Branstad, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234 (Phone 301-921-3861).

Dated: January 17, 1975.

RICHARD W. ROBERTS,
Director.

[FR Doc.75-2077 Filed 1-22-75;8:45 am]

Office of the Secretary

[DOO 10-2]

ASSISTANT SECRETARY FOR ECONOMIC AFFAIRS

Authority and Functions

This order, effective December 27, 1974, supersedes the material appearing at 38 FR 9450 of April 16, 1973.

SECTION 1. *Purpose*—.01 This order prescribes the scope of authority and functions of the Assistant Secretary for Economic Affairs.

.02 This revision provides for an Environmental Economics Staff in the Office of the Assistant Secretary for Economic Affairs.

SEC. 2. *Administrative designation*—The position of Assistant Secretary of Commerce heretofore designated as the Assistant Secretary for Economic Affairs shall continue to be so designated. The Assistant Secretary is appointed by the President, by and with the advice and consent of the Senate.

SEC. 3. *Authority and functions*—.01 The Assistant Secretary for Economic Affairs shall serve as the principal economic adviser to the Secretary and as the Chief Economist of the Department. He shall serve as adviser to other Commerce officials with respect to economic matters and the economic impact of environmental matters, review relevant policy positions and recommendations, and serve as the Department's liaison with the Council of Economic Advisers and with other high-level economic officials of the Government.

.02 The Assistant Secretary shall also exercise policy direction and general supervision over the Social and Economic Statistics Administration.

SEC. 4. *Office of the Assistant Secretary for Economic Affairs*—In carrying out the functions in section 3. above, the Assistant Secretary shall be assisted by:

a. The *Deputy Assistant Secretary for Economic Affairs*, who shall be the principal assistant to the Assistant Secretary and shall assume the latter's full duties during his absence; and

b. The *Environmental Economics Staff*, which shall analyze the micro/macro economic impact of proposed or existing environmental laws, regulations and related actions on U.S. industry and business, including economic aspects of Environmental Impact Statements. The Staff shall perform this function on a Department-wide basis and provide economic analysis support to the Office of Environmental Affairs under the Assistant Secretary for Science and Technology, the Office of General Counsel, and other components of the Department.

JOHN K. TABOR,
Acting Secretary of Commerce.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[FR Doc.75-2085 Filed 1-22-75;8:45 am]

[DOO 30-7B]

NATIONAL TECHNICAL INFORMATION SERVICE

Organization and Assignment of Functions

This order, effective December 31, 1974, supersedes the material appearing at 38 FR 5277 of February 27, 1973.

SECTION 1. *Purpose*—.01 This order prescribes the organization and assignment of functions within the National Technical Information Service (NTIS).

.02 This revision establishes an Office of Government Inventions and Patents (paragraph 4.02) and makes certain other changes, including abolition of the former Office of Analysis and Evaluation.

SEC. 2. *Organization structure*—The principal organization structure and line of authority shall be as depicted in the attached organization chart. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

SEC. 3. *Office of the Director*—.01 The *Director*, as the head of NTIS, directs and is responsible for all activities of the organization.

.02 The *Deputy Director* assists the Director in managing NTIS and performs the functions of the Director during his absence.

SEC. 4. *Staff offices reporting to the director*—.01 The *Office of Program and Product Management* shall be responsible for planning the development of, and implementing the production of new and improved information products and services. The office will also be responsible for the successful, ongoing production of products and services in accord with agency objectives.

.02 The *Office of Government Inventions and Patents* shall develop and operate programs to promote wider private sector use of government inventions. It shall administer a program for the foreign filing and licensing of government inventions under Executive Order 9865, as amended. It shall also provide Executive Secretariat functions for the Committee on Government Patent Policy (of the Federal Council for Science and Technology) and assist in the development and formulation, to the extent appropriate, of a uniform government-wide patent policy.

SEC. 5. *Office of Market Development*—The Office shall be headed by an *Assistant Director, Market Development*, who shall be responsible for the conduct of all functions relating to marketing, promotion, speakers, exhibits, and seminars. It shall advise the Office of Program and Product Management with respect to the design, format and presentation of all NTIS products and services, and in the planning of new products. It shall recommend, develop, and implement methods and procedures for identifying, locating and refining potential markets for NTIS products and services; design and use professional promotional vehicles for stimulating NTIS sales in such markets; and conceive, initiate, and design graphic and illustrative material for all publications and services, sales promotion and seminars, presentations, plant tours, and employee information. It shall also maintain a central photographic and illustrations file and serve as a liaison with the Department's graphic arts group.

SEC. 6. *Office of Production*—The Office shall be headed by an *Assistant Director, Production*, who shall provide operating policy direction to and overall administration of the acquisition, cataloging, indexing, filming, copying, order processing, warehousing, distribution, and automatic data processing operations. The functions of the Office shall be carried out through its principal organizational elements as prescribed below.

.01 The *Input Processing Division* will be responsible for acquisitioning, accessioning, evaluating, scheduling, routing, descriptive cataloging, indexing, and subject analysis of all material entering the NTIS collection. The Division will produce abstract journals, indexes, and other printed materials in accordance with objectives set by the Office of Program and Product Management.

.02 The *Distribution and Reproduction Division* will store and ship documents and other NTIS products being offered for sale; directly or indirectly print or film copies of NTIS products; handle customer requests and inquiries for NTIS products and services, and will satisfy NTIS customers by alleviating complaints.

.03 The *Automated Data Processing Division* shall plan and operate the agency's automatic data processing systems used to process the bibliographic data file, publications and edit programs, inventory management programs, and sales order processing files; develop procedural adaptations of automatic data programs; participate in studies and analyses; and recommend the applicability of automated processing.

SEC. 7. *Office of Administration*—The Office shall be headed by the *Assistant Director, Administration*, who shall be responsible for providing administrative and resources management support to NTIS, including the development and operation of programs to maintain and increase the size and scope of the NTIS collection, and to provide contract preparation and monitoring support related to the sales of NTIS products and services. The functions of the Office shall be carried out through its principal organizational elements as prescribed below.

.01 The *Accounting Control Division* shall account for and record all income received at NTIS, and shall establish, maintain, and otherwise service customer accounts. The Division shall provide financial systems development, account for and oversee the recording of all NTIS cost and production information that will permit both process and product accountability, and shall provide product and program pricing support. In addition, the Division shall perform management analysis functions for NTIS.

.02 The *Budget Division* shall develop resource utilization plans, including providing assistance of the Office of Program and Product Management, preparing the overall NTIS budgets, comprehensive forecasting and reporting of cost and income, profit and loss analysis, and productivity and effectiveness analysis.

.03 The *Administrative Services Division* shall plan for, develop, and provide facilities management, procurement, administrative, and office services support to the activity. These services include telephone, travel, motor pool, safety and security services, and supply management.

WILLIAM T. KNOX,
Director, National Technical Information Service.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Approved:

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[FR Doc.75-2087 Filed 1-22-75;8:45 am]

[DOO 30-3B]

PATENT OFFICE

Authority and Functions

This order, effective December 31, 1974, supersedes the material appearing at 38 FR 1068 of January 8, 1973; and 38 FR 25213 of September 12, 1973.

SECTION 1. *Purpose*—.01 This order prescribes the organization and assignment of functions within the Patent Office. Department Organization Order 30-3A prescribes the scope of authority and functions.

0.2 This revision of the order involves numerous changes in the offices reporting directly to the Commissioner (section 4), the Assistant Commissioner for Patents (section 5), and the Solicitor (section 7).

SEC. 2. *Organization Structure*—The principal organization structure and line of authority shall be as depicted in the

V40N23 75 JAN 16 XUM

attached organization chart. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

SEC. 3. *Office of the Commissioner*—The Commissioner determines the policies and directs the programs of the Patent Office and is responsible for the conduct of all activities of the Patent Office. He is principally assisted by a Deputy Commissioner, three Assistant Commissioners and a Solicitor whose main duties shall be as specified below.

a. The *Deputy Commissioner* (First Assistant Commissioner under 35 U.S.C. 3) shall assist the Commissioner in the direction of the Patent Office and shall perform the duties of the Commissioner in the latter's absence.

b. The *Assistant Commissioner for Patents* (an Assistant Commissioner under 35 U.S.C. 3) shall provide administrative and policy direction for the patent examining and documentation operations which consist of the organizational elements enumerated in section 5 of this order. He is assisted by a Deputy Assistant Commissioner. The Deputy Assistant Commissioner shall, among other duties as assigned, have immediate responsibility for patent examination and for the organizational elements enumerated in section 5.01, and shall perform the duties of the Assistant Commissioner during the latter's absence. There shall also be an Administrator for Documentation who shall have immediate responsibility for domestic and foreign patent documentation and the organization elements enumerated in section 5.02.

c. *The Assistant Commissioner for Trademarks* (an Assistant Commissioner under 35 U.S.C. 3) shall provide administrative and policy direction to the trademark registration and related operations which consist of the organizational elements enumerated in section 6 of this order.

d. The *Solicitor* shall be the chief law officer of the Patent Office and shall provide administrative and policy direction to the organizational elements enumerated in section 7 of this order. Pursuant to Department Organization Order 10–6, he shall be subject to the overall authority of the Department's General Counsel with respect to legal matters involving the Patent Office, other than in connection with the issuance of patents or the registration of trademarks. He shall be assisted by a Deputy Solicitor who shall perform the duties of the Solicitor during the latter's absence.

e. The *Assistant Commissioner for Administration* shall be the principal advisor to the Commissioner on the formulation and application of management policies and shall provide administrative, management, budgeting and operational support services to components of the Patent Office. In addition, he shall provide administrative and policy direction to the organizational elements enumerated in section 8 of this order. He shall be assisted by a Deputy Assistant Commissioner who shall perform the duties of the Assistant Commissioner during the latter's absence.

SEC. 4. *Offices reporting to the Commissioner*—.01 The *Board of Appeals* shall be responsible for hearing and deciding appeals from adverse decisions of examiners upon applications for patent.

.02 The *Board of Patent Interferences* shall conduct interference proceedings and make final determinations in the Patent Office as to priority of invention. The Board shall also hear and decide questions concerning property rights in inventions in the atomic energy and space fields brought before it under the provisions of Sections 2182 and 2456 (d) and (e) of Title 42, U.S.C.

.03 The *Office of Legislation and International Affairs* shall, subject to Department Organization Order 10–6, make studies and advise the Commissioner on policy and actions concerning matters which may require legislation or which involve international patent and trademark (intellectual property) matters; draft proposed legislation relating to patents and trademarks and advise on pending legislation affecting the Patent Office; represent the Commissioner in the negotiation or renegotiation of treaties and the negotiation of other new major international initiatives; assist in the development and implementation of related programs; coordinate or conduct in cooperation with other appropriate Patent Office organizations, negotiations in matters relating to existing international programs; and maintain liaison with the Office of the Secretary, the General Counsel, other agencies, international and foreign bodies, members of the public, and appropriate congressional committees in such matters.

.04 The *Office of Information Services* shall advise and represent the Commissioner on information matters; conduct programs fostering public understanding of the American patent system and of the functions, services and administrative publications of the Patent Office; and develop publication policies.

SEC. 5. *Offices reporting to the Assistant Commissioner for Patents*—.01 Patent Examination Organizations—a. The *Office of Patent Program Control* shall develop procedures for and establish quality, quantity and other performance standards relating to the conduct of the patent examination functions; establish program activity targets and continually evaluate status against program objectives; provide training to examiners in patent practices and procedures; monitor compliance with examination standards and procedures; and provide planning evaluation and budget support to the examination organizations and such other duties as assigned.

b. The *Examining Groups* shall examine applications for patents to ascertain if the applicants are entitled to patents under the law and grant patents to those so entitled. Each examining group shall perform this function for patent applications falling within the generic category assigned to it. The number of examining groups and the coverage of the generic categories shall be determined by the Commissioner.

.02 Patent Documentation Organizations. a. The *Office of Documentation Planning, Support and Control* shall analyze the examiner and public patent search files and all proposed programs concerning them; coordinate efforts in regard to numerical files; develop and maintain overall documentation plans relating to these files; define the form, content and accessibility of these files and insure such definition through periodic checks; initiate the acquisition and provision of patent documentation for these files; coordinate the development of an overall system, and the efforts of related implementing activities, to insure the accuracy and effective utilization of patent data; provide budgetary and other services for the documentation organizations; and establish performance standards and evaluation criteria for, and monitor and evaluate, the activities of the documentation organizations.

b. The *Classification Groups* shall develop, implement and maintain subject matter classification systems for the organization of patent search files of prior art including the preparation of definitions, indexes, schedules, and related documentations. Each classification group shall perform this function for subject matter falling within the generic category (chemical, electrical, mechanical) assigned to it.

c. The *Office of Search Systems* shall maintain a state-of-the-art awareness of machine-assisted information storage, access, retrieval, and display systems useful or potentially useful in searching patent documentation; participate with parties in the private and government sectors in cooperative programs designed to develop systems for Patent Office utilization; evaluate the potential of existing and cooperatively developed systems; initiate the acquisition and adaptation of selected systems and direct the maintenance of all non-operational search and display systems (equipment and materials); conduct and evaluate pilot tests in Patent Office operating environments; recommend operational establishment or discontinuance of evaluated systems; and monitor and evaluate the performance of operational systems.

d. The *Office of Technology Assessment and Forecast* shall continually assess the status of technological activities in all countries; compare inventive activity in the United States relative to other nations; and forecast development on a worldwide basis.

SEC. 6. *Offices reporting to the assistant Commissioner for Trademarks*—.01 The *Office of Trademark Program Control* shall develop guidelines governing trademark examining procedures; establish program activity targets and continually evaluate status against program objectives; and provide instruction in trademark practice and procedures and coordinate trademark administrative support activities.

.02 The *Trademark Trial and Appeal Board* shall be responsible for hearing and deciding adversary proceedings involving interfering applications, oppositions to registration, cancellations, and concurrent use proceedings; and for hearing and deciding appeals from final refusals of the trademark examiners to allow the registration of trademarks.

.03 The *Trademark Examining Operation* shall be responsible for the classification of trademark applications into classes of goods and services, the examination and processing of these applications, and the registration of trademarks, service marks, and certification marks; and maintain the principal and supplemental registers of trademarks. The Trademark Examining Operation shall be composed of examining divisions, the number and coverage of such divisions to be determined by the Commissioner.

SEC. 7. *Offices reporting to the solicitor*—.01 The *Office of the Solicitor* shall handle all litigation to which the Commissioner is a party and provide other legal services, including advice and assistance on legislative matters, and maintenance of the law library.

.02 *The Office of Government Employee Inventions* shall review questions of ownership of patents and rights to inventions made by Government employees in issues brought before it under Executive Order 10096 and shall make appropriate recommendations to the Commissioner for action on such questions.

SEC. 8. *Offices reporting to the assistant Commissioner for Administration*—.01 Management Planning Organizations—a. The *Office of Budget* shall formulate, interpret, and execute budgetary and fiscal policies; establish and maintain a comprehensive budget program collaborating with cost center officials in developing budget and fiscal plans; develop and present budget requests; allocate and maintain budgetary accountability of available funds; maintain external liaison in budgetary matters; and review and evaluate the fulfillment of budget-based program commitments.

b. The *Office of Management and Organization* shall plan and conduct studies designed to improve organization, methods, procedures, workflow, work measurement, management techniques, and resource utilization, or otherwise increase efficiency, effectiveness and economy of operations; develop and manage a system for the issuance of internal administrative orders and instructions; promote development of the Patent Office management improvement program and coordinate the collection, review and submission of reportable plans and accomplishments thereon; develop and coordinate a program for the management and control of external reports; and make special studies as required.

c. The *Office of Program Planning and Evaluation* shall formulate plans for and coordinate the development of Patent Office-wide long and short range program objectives within the framework of budgetary, policy, and other constraints; define, project, and allocate the manpower and other resources required to achieve those objectives; develop and monitor the operation of a comprehensive, integrated management information system to provide data required for administrative and policy decision-making, for measurement of performance in the attainment of objectives, and for other purposes; and develop and disseminate to Patent Office managers analytical and interpretive reports concerning their operations.

.02 Public Service Organizations—a. The *Office of Patent and Trademark Services* shall provide the materials and services of the Patent Office, many of which are offered to the public on a fee basis, and such services and facilities which are maintained for public access and use as governmental functions. It shall also be the responsibility of this Office to provide these same materials, services, and facilities as required by examiners and other personnel for internal operations of the Patent Office. These shall include but are not necessarily limited to recording instruments that transfer property rights to patents and trademarks; furnishing copies of patents, trademark registrations, and office records; providing drafting services; maintaining collections of technical and scientific information such as U.S. and foreign patents, periodicals, books, and other publications, whether in printed or microfilm form, and providing related services in regard to these collections. It shall also conduct an initial examination of patent applications for compliance with law and regulations as to form and certain matters of factual content; grant or deny a filing date based on such examination and forward to the Examining Groups those granted a filing date; acknowledge the acceptance or rejection of applications for examination; originate documentation of pending applications; initially assign accepted applications to units of the Examining Groups for examination, and maintain records on the status and location of all applications.

b. The *Office of Publications* shall schedule and manage the processing and movement of allowed patent application files in procuring the creation of full patent text machine language data base and the composition and printing of weekly patent issues and related announcements in the Official Gazette; provide requisition and scheduling services for trademark publications; monitor the quality or performance by contributing sources and maintain close liaison with U.S. Government Printing Office; and prepare and issue patent grants and periodic publications of patent indexes.

.03 Administrative Service Organizations—a. The *Office of Computer Services* shall provide data processing services to other elements of the Patent Office, which shall include coordinating the formulation and execution of Patent Office ADP resource planning and policy; conducting feasibility studies and other studies directly related to the design and development of ADP systems; designing, implementing and maintaining approved ADP systems responsive to functional requirements; providing technical assistance to Patent Office components in determining ADP system definitions and in planning for ADP services and equipment; reviewing and analyzing the feasibility of ADP and punch card accounting machine (PCAM) services and equipment proposed for use in another organizational unit as an integral part of its operation and, if approved, coordinating procurement and installation of such services and equipment; monitoring and evaluating the utilization of all ADP and PCAM equipment; coordinating and monitoring the Patent Office-wide ADP budget; maintaining liaison with the Department and other Federal agencies on ADP matters; and, operating all ADP and PCAM equipment in the Office of Computer Services.

b. The *Office of Finance* shall develop and maintain the financial accounting system of the Patent Office, perform accounting operations for the revenue, trust funds, and appropriation of the Patent Office, including maintenance of general accounts and related fiscal records, preparation of financial statements and reports, audit and certification of vouchers for payment, issuance of deposit account statements, initiation of action to collect amounts due the Patent Office, and administration of the payroll system and related employee accounts; and provide financial advice.

c. The *Office of General Services* shall plan and administer a broad Office-wide program of general services, including procurement control; property, space, and facilities management; communications, files, mail and correspondence, and forms management; administrative printing; and clearance of all requirements involving contractual procurements, including liaison with the Department, in connection therewith.

d. The *Office of Personnel* shall administer activities relating to recruitment, placement, employee relations, equal opportunity program for employees, training and career development, incentive awards, performance rating, position classification and wage administration, group-management relations, and various employee benefit programs.

C. MARSHALL DANN,
Commissioner of Patents.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Approved:

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

NEW VOCATIONAL EDUCATION RESEARCH GRANTS

Extension of Deadline for Receipt of State Board Approval of Local Educational Agency Applications

Notice is hereby given that the U.S. Commissioner of Education has extended

V40N16 JAN23 75 XUM

the forty-nine day period allowed for receipt of the State board approval or disapproval of local educational agency applications for new Vocational Education Research grants under section 131 (a) of Part C of the Vocational Education Act of 1963, as amended (20 U.S.C. 1281(a)) previously published in the FEDERAL REGISTER on October 11, 1974 at 39 FR 36626.

The closing date for receipt of notice of State board approval or disapproval of applications from local educational agencies that were received by the Office of Education's Application Control Center by November 29, 1974 is extended to January 13, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.498; Vocational Education-Research)

Dated: January 13, 1975.

SCHOOL CONSTRUCTION ASSISTANCE

Notice of Cutoff Date for Receipt of Applications

Pursuant to the authority contained in section 3 of Pub. L. 81-815 (school construction in areas affected by Federal activities; 72 Stat. 548; (20 U.S.C. 633)) notice is hereby given that the U.S. Commissioner of Education has established a cutoff date for the receipt of Fiscal Year 1975 applications for assistance under sections 5, 8, 9, and 14 of Pub. L. 81-815. Such applications must be received from the State educational agencies in the appropriate Regional Offices of Education on or before April 25, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed to the respective Regional Office. An application sent by mail will be considered to be received on time by the appropriate Regional Office if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

B. *Hand delivered applications.* An application to be hand delivered must be taken to the appropriate Regional Office, School Assistance in Federally Affected Areas, of the Office of Education. Hand delivered applications will be accepted daily during the regular working hours of the appropriate Regional Office. Applications will not be accepted after close of business on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the appropriate Regional Office, School Assistance in Federally Affected Areas, of the Office of Education.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education general provisions regulations (45 CFR Parts 100 and 100a) and the school construction assistance regulations (45 CFR Part 114). A notice of proposed rulemaking which would revise these regulations was published in the FEDERAL REGISTER on July 25, 1974 at 39 FR 27232, proposed 45 CFR Part 114. When republished in final form, the proposed regulations will supersede the current 45 CFR Part 114.

CHILD AND FAMILY DEVELOPMENT RESEARCH REVIEW COMMITTEE

Meeting

The Child and Family Development Research Review Committee will meet on Monday, February 10, 1975 through Wednesday, February 12. The meeting will be held daily from 9 a.m. to 5 p.m. in Room 5030, Office of Child Development, 400 Sixth Street, NW, Washington, D.C., and will be closed to the public except for the opening remarks. The purpose of the Committee is to review applications for research and demonstration projects in the areas of child development and child welfare and to make recommendations to the Director, Office of Child Development, as to which projects should be funded. The agenda of this meeting will consist of opening remarks by the Acting Director, Office of Child Development, followed by the review of research proposals concerned with child abuse and neglect which have been submitted to the Office of Child Development for the award of grants. These applications are exempt from mandatory disclosure under 5 U.S.C. 552(b)(4) and (6) in that they contain trade secrets, commercial and financial information obtained from a person and privileged or confidential, and other personnel records, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. A list of Committee members and a summary of the meeting may be obtained from:

Barbara Rosengard
Research and Evaluation Division
Office of Child Development
P.O. Box 1182
Washington, D.C. 20013

HEARING AID HEALTH CARE; AVAILABILITY OF TASK FORCE REPORTS

Extension of Time for Additional Comments

A notice of availability of the Report on Hearing Aid Health Care and Supplementary Report prepared by the Department of Health, Education, and Welfare Intradepartmental Task Force on Hearing Aids was published in the FEDERAL REGISTER of October 29, 1974, (39 FR 38123). In this notice, the Secretary of the Department of Health, Education, and Welfare invited written comment on the Report and Supplementary Report, such comments to be filed, on or before December 30, 1974, with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Maryland 20852.

The Secretary has received numerous comments expressing interest in the reports and in the problem of hearing aid health care from consumer and industry representatives, and other interested groups. These groups have also expressed an interest in an extension of time for comment on the reports. The additional time was requested to provide the consumer organizations with a better opportunity to contact constituents, provide them with a copy of the report and receive their comment on the report and the supplementary report.

Therefore, taking notice of the widespread interest in this matter and to afford more time for all concerned parties to make their views known, the Secretary has extended the time for public comments to February 24, 1975.

Written comments as well as requests for copies of the report and the supplementary report (preferably in quintuplicate) should be directed to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Maryland 20852. Received comments may be reviewed in the office of the Hearing Clerk during working hours, Monday through Friday.

The time for filing comments on the report and the supplementary report is extended to February 24, 1975.

Dated: January 17, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

PUBLIC HEALTH SERVICE

Statement of Organization, Functions, and Delegations of Authority

Notice is hereby given that the following delegation and redelegation of authority, with authority for further redelegation, have been made to assist in controlling violations of law at Saint Elizabeths Hospital, a Department of Health, Education, and Welfare facility, located in Washington, D.C.

1. Delegation from the Secretary of Health, Education, and Welfare, to the Assistant Secretary for Health, to exercise authorities vested in the Secretary by the Administrator of General Services on June 4, 1974 (39 FR 20650), to appoint uniformed guards as special policemen for the protection of the buildings and other areas of Saint Elizabeths Hospital in the District of Columbia and under the charge and control of the Department of Health, Education, and Welfare, and over which the Federal Government has acquired exclusive or concurrent jurisdiction under 24 U.S.C. 161, and authority to make all necessary rules and regulations for the government of the said Federal property. This authority shall be exercised in accordance with the limitations and requirements imposed by the Administrator of General Services in the original delegation.

These authorities may be redelegated.

2. Part C of the statement of organization, function, and delegations of authority for the Department of Health, Education, and Welfare entitled Alcohol, Drug Abuse, and Mental Health Administration (COOO) (38 FR 27316 as amended by 39 FR 1654-1658) is renumbered Part 13. Renumber section headings C-A "Mission" through C-D "Delegations of Authorities" to read 13-A through 13-D. Section 13-D, Delegations of Authorities, is hereby amended as follows:

a. After the words "DELEGATIONS OF AUTHORITIES." add "(1)".

b. Add the following paragraph:

(2) Redelegation from the Assistant Secretary for Health to the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, to exercise authorities delegated to the Assistant Secretary for Health by the Secretary of Health, Education, and Welfare, to appoint uniformed guards as special policemen for the protection of the buildings and other areas of Saint Elizabeths Hospital in the District of Columbia and under the charge and control of the Department of Health, Education, and Welfare, and over which the Federal Government has acquired exclusive or concurrent jurisdiction under 24 U.S.C. 161, and authority to make all necessary rules and regulations for the government of the said Federal property. This authority shall be exercised in accordance with the limitations and requirements imposed by the Administrator of General Services in the original delegation.

These authorities may be redelegated.

Dated: January 7, 1975.

CONSUMER INFORMATION REGULATIONS

Response to Petition To Amend

This notice responds to the petition of General Motors Corporation (GM) to amend 49 CFR 575.6 to allow the consumer information document provided with a vehicle to refer the reader to the vehicle certification label for information on which table applies to the vehicle, as an alternative to providing the information on the document itself as is presently required.

In its petition of March 20, 1974, GM stated that using the certification label as a referral device would simplify placing the appropriate document in the vehicle on the assembly line and thereby lessen the opportunity for error. GM also suggested that using the vehicle certification label in this way would aid prospective purchasers in dealers' showrooms as each vehicle would itself indicate which tables were applicable.

The NHTSA disagrees with GM's contention that its proposal would aid prospective purchasers, and for that reason denies the petition. While a prospective purchaser might find it simpler under GM's proposal to find consumer information concerning the vehicles already in the dealer's showroom, he would find it exceedingly difficult to compare these vehicles' performance with that for vehicles not in the dealer's inventory. Further, he would be required to visit a dealer's showroom and examine a vehicle before determining which tables applied to it. Thus, his ability to make useful comparisons—a purpose of the regulation—would be severely restricted.

For the reasons cited above, the petition of General Motors Corporation is denied.

(Secs. 103, 112, 119, Pub. L. 80-563, 80 Stat. 718 (15 U.S.C. 1392, 1401, 1407); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on January 17, 1975.

[Order 75-1-80; Dockets 27291, 27325, 27328, 26838]

UNITED AIR LINES, INC.

Order of Suspension, Investigation, and Consolidation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 20th day of January, 1975.

By tariff revisions generally posted on December 13, 1974, and marked to become effective February 1, 1975, United Air Lines, Inc. (United) proposes to establish premium rates for a new on-line priority service for shipments for which the carrier has confirmed reserved space on specific flights.

United's proposal provides for (1) minimum charges per shipment equal to United's current small-package charges; (2) per-pound and 100-pound rates amounting to 130 percent of the carrier's current rates for westbound general commodity air freight in various markets (no weight-break rates above the 100-pound level are offered); and (3) premium rates which are constructed by applying the same premuim percentages as those in the regular freight tariffs to the priority reserved air freight rate applicable to the weight of the shipment.

Under the proposal, a reservation for a shipment must be requested of the carrier not less than 6 hours nor more than 48 hours prior to the scheduled departure of the flight on which such space is requested. The shipment must be tendered to the carrier at its air freight terminal at least 90 minutes prior to the scheduled departure of the flight on which space was reserved. In addition, a request by the shipper to cancel or amend a reservation must be received by the carrier not less than 6 hours prior to scheduled departure of such flight from the origin of the shipment.

If a shipment is not delivered on the specified flight on which reservation is

V 40 16 JAN 23 75 XUM

made, the airport-to-airport charge otherwise provided for in the tariff shall be reduced to 76 percent of such otherwise applicable charge, provided, however, that such reduction shall not be less than 50 percent of the specifically published minimum charge.[1]

The proposal bears an expiry date of June 30, 1975.

Complaints requesting suspension and investigation of United's proposal have been filed by the Hawaii Air Cargo Shippers Association, Inc. (HACSA), The National Small Shipments Traffic Conference, Inc. (NSSTC), and the Pet Industry Parties (PIP).

HACSA contends, inter alia, that the proposed service would replace regular air freight to Hawaii; it would drive consolidators, such as HACSA, out of business; it would suppress competition and create a monopoly in the air freight industry in Hawaii and would have long-term adverse economic effects on the State of Hawaii; the proposal is a rate increase in disguise, whereby shippers will have no choice but to use the priority service and pay the required premium; and it allows the carrier unilaterally to impose rate increases without a public hearing and with inadequate notice to interested parties.

NSSTC states, among other things, that increases in excess of 100 percent in minimum charges and of 30 percent per hundred-weight are truly extravagant for the service proposed; the proposal contains several inequities such as a refund provision which penalizes shipper through no fault of his own; and the proposal contains a reservation and cancellation procedure that is extremely restricted in distribution planning.

In its complaint PIP asserts, inter alia, that (1) the assessment of a 10 percent premium on top of a priority rate which is 30 percent higher than the applicable general commodity rate results in an assessment to the live-animal shipper in excess of 40 percent; (2) the live-animal shipper is being assessed a proportionally higher portion of the alleged increased costs associated with rendering priority freight services, which is contrary to the decision in the Investigation of Premium Rates for Live Animals and Birds, Docket 21474, which grants a carrier a maximum 10 percent premium on live-animal carriage, and is thus discriminatory; (3) United's cost justification is totally inadequate in that it fails to quantify or estimate the costs of its proposed priority service versus regular air freight service; and (4) United's justification relies heavily on findings involving services of air express—a service which has many characteristics which significantly differ from the single-carrier on-line service proposed.

[1] The proposed tariff provides that the reservation may be canceled by the carrier, at any time prior to arrival, for the purpose of using the reserved space to transport (1) replacement parts for the repair of United's disabled aircraft; (2) passenger baggage; or (3) priority mail. If the foregoing cancellation occurs, however, the carrier will reserve space on the next flight on which sufficient space is available.

In support of its proposal and in answer to the complaints, United contends, among other things, that the rate level for the proposed service is based on existing rates for similar services; the tariff does not provide for any developmental or volume-related rate reductions; the additional cost of providing a positive space freight system with boarding priority; and the value of the service relative to space-available service.

United also asserts that its proposed priority service cannot validly be compared to a space-available freight service, but rather must be compared to services of like character, such as its "Small Package Dispatch" (SPD) service in that both services will be virtually the same for the low weight shipments to which the minimum charges apply; NSSTC's conclusion, that under United's proposed refund provision the shipper would be penalized through no fault of his own, is without merit, since the shipper actually receives a slight discount from the westbound space-available air freight rates in addition to having his shipment move via reserved freight on the next flight on which there is unreserved space available; and the proposed service is being offered to meet priority or emergency air freight needs and is not designed to supplant space-available air freight, and hence, shippers' time requirements for routine distribution planning are not a relevant consideration.

United further declares that (1) it has clearly justified a premium charge of 30 percent per hundred-weight for the proposed priority service, based on the additional costs which will be incurred; (2) HACSA's complaint that proposed service would drive consolidators out of business is entirely unfounded, since the proposal will provide these consolidators more revenue potential from consolidations up to 100 pounds than is possible from the existing regular air freight tariff; (3) to retain the priority "smaller shipment" nature of the service, the proposed rate structure does not have volume weight-breaks; (4) high-volume shipments will not be precluded from using this service, but the pricing structure proposed should insure that proposed priority service does not replace regular air freight as the carrier's primary freight product; (5) the proposed rate differential for live-animal shipments is much less than claimed by PIP and is appropriate; and (6) the proposal will produce $8.8 million additional annual revenue in 1975.

United finally contends that it has been striving to fulfill its obligation to provide a coordinated inter-line priority service, as required by the Board in its decision in the Express Service Investigation, Order 73-12-36, by participating in the inter-carrier discussions to decide on the procedures and details of how best to provide that service. However, the carrier believes that, until individual carrier tariffs are filed and approved, it it difficult to negotiate a coordinated inter-line priority service.

Upon consideration of all relevant factors, the Board finds that the instant tariff proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the tariff should be suspended pending investigation.

There are significant questions as to the level of the proposed rates, whether the proposed service is subject to unreasonable and discriminatory limitations, and whether it is consistent with the Board's finding that the carrier is under an obligation to offer highly expedited inter-carrier priority service as a replacement for air express service (Order 73-12-36). Among other things, the Board is concerned with (1) the high premiums at weight-breaks above 100 pounds, which vary to almost 200 percent above regular rates; (2) the application of minimum charges equal to small-package charges which result in rate increases as high as 250 percent above current minimum charges for regular freight; (3) the application of premium ratings on top of a priority rate which is at least 30 percent above the applicable general commodity rates; and (4) the adequacy of the cost justification in support of the proposed priority freight rates and charges.

In its regular bulk freight general commodity rate structure, United offers substantial rate discounts for shipments with weight-breaks of 1,000, 2,000, and 3,000 pounds. For example, the current rates per 100 pounds for a 1,000-, 2,000-, and 3,000-pound shipment in the New York to Los Angeles market amount to 10.0, 12.8, and 13.0 percent, respectively, below the rate for the 100-pound shipment. Under its proposed priority reserved freight rate structure, however, United does not offer any rate discounts for shipments at higher weight-breaks and accordingly, the proposed rate increases for the larger-sized shipments are much higher than 30 percent.[2] In some instances, as indicated, the increases amount to as much as 200 percent above current levels. United has not presented cost data to support rate increases of this magnitude, and we believe that they may be unreasonable and unjustly discriminatory against the large-volume shipper who may want to use the priority reserved service.

[2] By Orders 74-6-136 and 74-9-4, the Board set for investigation but permitted to become effective similar priority reserved rates proposed by Western Air Lines, Inc. (Western) and Continental Air Lines, Inc. (Continental), respectively. Those rates amounted to 130 percent of the applicable general commodity rates at all weight-breaks at 100 pounds and over. (It should be noted, however, that the foregoing rates were subject to a minimum weight of 100 pounds and a minimum density of 10 pounds per cubic foot.) Thus, United's proposal, in containing significant increases in excess of 30 percent in both weight-breaks above 100 pounds and in minimum charges, results in numerous rates above those in the rate basis permitted to become effective for Continental and Western. Inasmuch as it is practicable to deal with United's proposal only as a single unit, we have concluded to suspend all of it.

United's cost data do not purport to cover those situations where the premiums would be well in excess of 30 percent and have serious limitations even in support of a 30 percent premium.[3]

United contends that a number of its proposed rates are below the rates currently in effect for REA Express, Inc. (REA). The carrier presents data showing lower rates than REA for shipments between 50 and 100 pounds. We note, however, that many of the proposed rates for shipments of 10 and 25 pounds are higher than existing REA rates. In any event, we cannot find that this comparison supports the premiums proposed by United. The rate structure upon which United's priority rates are based is significantly different from REA's, with the REA rate structure reflecting a different operation and involving interline carriage.

United's support of its proposed minimum charges consists essentially of their equivalence to the carrier's current small-package charges, since they purportedly involve similar services. We do not believe, however, that such equivalence alone adequately justifies the lawfulness of United's proposed charges. The carrier makes no effort to support the lawfulness of its small-package charge by costs or by any other element. The Board has not issued any decision or other orders approving those rates. In the foregoing circumstances, we are reluctant to permit the increases proposed, amounting to from 50 to 250 percent above the current minimum charges, without investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That: 1. An investigation is instituted to determine whether the rates, charges, and provisions described in Appendix A hereto, and rules, regulations, or practices affecting such rates, charges, and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudical, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful charges and provisions, and rules, regulations, or practices affecting such charges and provisions;[4]

2. Pending hearing and decision by the Board, the rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including May 1, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension, except by order or special permission of the Board;

3. The investigation instituted herein is hereby consolidated into the Priority Reserved Air Freight Rates Investigation, Docket 26838;

4. Except to the extent granted herein, the complaints of the Hawaii Air Cargo Shippers Association, Inc. in Docket 27328, The National Small Shipments Traffic Conference, Inc. in Docket 27291, and the Pet Industry Parties in Docket 27325, are hereby dismissed; and

5. Copies of this order shall be filed with the tariffs and served upon United Air Lines, Inc., the Hawaii Air Cargo Shippers Association, Inc., and the Pet Industry Parties, which are hereby made parties to Docket 26838.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-2149 Filed 1-23-75;8:45 am]

[3] In computing capacity costs, United utilizes priority weightings of 1.00 for priority freight as compared with .75 for regular freight, a 33.3 percent additional cost for priority service because the Board has in the past used those factors. Priority weighting, however, is a controversial issue in the Domestic Air Freight Investigation, Docket 22859, and we are reluctant to accept United's data prior to our decision in that investigation.

[4] Appendix A filed as part of the original.

COMMISSION ON CIVIL RIGHTS

DELAWARE STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Delaware State Advisory Committee will convene at 12 noon on February 14, 1975, at the YMCA, 11th & Washington Streets, Wilmington, Delaware.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Mid-Atlantic Regional Office of the Commission, Room 510, 2120 L Street NW., Washington, D.C. 20037.

The purpose of this meeting is to plan for a one-day conference in early March, 1975 on equal employment opportunity.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 17, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

ILLINOIS STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Illinois State Advisory Committee (SAC) to this Commission will convene at 1 p.m. on February 19, 1975, at 230 S. Dearborn Street, Chicago, Illinois 60604.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Midwestern Regional Office of the Commission, Room 1428, 230 South Dearborn Street, Chicago, Illinois 60604.

The purpose of this meeting is to plan program priorities for the chartered period.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 20, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

MASSACHUSETTS STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Massachusetts State Advisory Committee (SAC) to this Commission will convene at 12 noon on March 3, 1975, at the Jewish Labor Committee, 27 School Street, Boston, Massachusetts 02108.

Persons wishing to attend this meeting should contact the Committee Chairman or the Northeastern Regional Office of the Commission, Room 1639, 26 Federal Plaza, New York, New York 10007.

The purpose of this meeting is to discuss the education and school desegregation project and to discuss new business for the Committee.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C. January 20, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

MICHIGAN STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Michigan State Advisory Committee (SAC) to this Commission will convene at 12:30 p.m. on February 13, 1975, at Genesee County Administration Building, 3rd floor, 1101 Beach Street, Flint, Michigan.

Persons wishing to attend this meeting should contact the Committee Chairman or the Midwestern Regional Office of the Commission, Room 1428, 230 South Dearborn Street, Chicago, Illinois 60604.

The purpose of this meeting shall be to develop projects chosen in the Advisory Committee's January planning meeting affecting Civil Rights in Michigan, and to further discuss Advisory Committee Membership.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 17, 1975.

ISAIAH T. CRESTWELL, Jr.,
Advisory Committee Management Officer.

[FR Doc.75-2156 Filed 1-22-75;8:45 am]

MONTANA STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Montana State Advisory Committee (SAC) to this Commission will convene at 2:15 p.m. on February 22, 1975, at 202 Second Street, YMCA-Reading Room, Great Falls, Montana.

Persons wishing to attend this meeting should contact the Committee Chairman or the Mountain States Regional Office of the Commission, Room 216, 1726 Champa Street, Denver, Colorado 80202.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 20, 1975.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

[FR Doc.75-2157 Filed 1-22-75;8:45 am]

NEW JERSEY STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the New Jersey State Advisory Committee (SAC) to this Commission will convene at p.m. on February 11, 1975, in Newark College of Medicine and Dentistry, 100 Bergen Street, Newark, New Jersey.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Northeastern Regional Office of the Commission, Room 1639, 26 Federal Plaza, New York, New York 10007.

The purpose of this meeting is to discuss program on data collection for Hispanic CETA project.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 20, 1975.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

[FR Doc.75-2158 Filed 1-22-75;8:45 am]

NEW YORK STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a Factfinding meeting of the New York State Advisory Committee (SAC) to this Commission will convene at 8:45 a.m., on February 20, 1975, at Dutchess County Board of Representatives, 22 Market Street, Poughkeepsie, New York.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Northeastern Regional Office of the Commission, Room 1639, 26 Federal Plaza, New York, New York 10007.

The purpose of this meeting is to hold hearings on Equal Opportunity in Public Employment.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., January 20, 1975.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 324-8; OPP-32000/175 & 176]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington, DC 20460.

On or before March 24, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after March 24, 1975.

APPLICATIONS RECEIVED (OPP-32000/175)

EPA File Symbol 4169-O. Aborn Chem. Industries, Inc., 168 "A" St., S. Boston MA 02210. ARK GENERAL PURPOSE INSECTICIDE SPRAY #5. Active Ingredients: Pyrethrins 0.500 percent; Piperonyl butoxide, technical 1.000 percent; N-octyl bicycloheptene dicarboximide 1.670 percent; Petroleum distillate 96.830 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4169-I. Aborn Chem. Industries, Inc., 168 "A" St., S. Boston MA 02210. ARK GENERAL PURPOSE INSECTICIDE SPRAY #3. Active Ingredients: Pyrethrins 0.300 percent; Piperonyl butoxide, technical 0.600 percent; N-octyl bicycloheptene dicarboximide 1.000 percent; Petroleum distillate 98.100 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8590-UAR. Agway Inc., PO Box 1333, Syracuse NY 13201. (((AGWAY))) DICHLONE—SULFUR 1.5-30D. Active Ingredients: Dichlone (2,3-dichloro-1,4-naphthoquinone) 1.5 percent; Sulfur 30.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 255-99. American Fluoride Corp., 17 Huntington Pl., New Rochelle NY 10801. FORMULATION 120 AN INDUSTRIAL AND HOUSEHOLD RESIDUAL INSECTICIDE. Active Ingredients: 0,0-diethyl 0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 0.500 percent; Pyrethrins 0.050 percent; Technical Piperonyl Butoxide 0.100 percent; N-Octyl Bicycloheptene Dicarboximide 0.166 percent; Aromatic Petroleum Distillate 0.406 percent; Petroleum Distillate 98.778 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 1526-LNR. Chemical Distributors DBA Arizona Agrochemical Co., PO Box 21537, Phoeniz AZ 85036. AGRO-CHEM BRAND DISULFOTON 10 percent GRANULAR SYSTEMIC INSECTICIDE. Active Ingredients: O,O-Diethyl S-[2-ethylthio)ethyl] phosphorodithioate 10 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8612-IR. B & G Co., PO Box 20372, Dallas TX 75220. B & G LARVA—LUR. Active Ingredients: Dimethyl (2,2,2-Trichloro-1-Hydroxyethyl) phosphonate 5.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5185-EIE. Bio-Lab, Inc., PO Box 1489, Decatur GA 30031. BIO-GUARD BQ-25 HOSPITAL SPRAY DISINFECTANT & DEODORANT. Active Ingredients: Alkyl (C14 58 percent, C16 28 percent, C12 14 percent) dimethyl benzyl ammonium chloride 0.25 percent; Essential oils 0.50 percent; Isopropanol 43.22 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4-EUN. Bonide Chem. Co., Inc., 2 Wurz Ave., Yorkville NY 13495. BONIDE ZINC PHOSPHIDE BAIT. Active Ingredients: Zinc Phosphide 1.95 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 1660-TE. Chemical Specialties Co., Inc., 51-55 Nassau Ave., Brookyln NY 11222. DRO ROACH & ANT KILLER. Active Ingredients: Pyrethrins 0.052 percent; Piperonyl Butoxide, Technical 0.260 percent; Chlorpyrifos [O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate] 0.500 percent; Petroleum Distillate 95.737 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 7273-RUT. Crown Chem., 4995 N. Main St., Rockford IL 61101. CROWN CYPONA CONCENTRATE EMULSIFIABLE. Active Ingredients: Dimethyl phosphate of alpha-methylbenzyl 3-hydroxy-cis-crotonate 10.0 percent; 2,2-dichlorovinyl dimethyl phosphate 2.3 percent; Related compounds 0.2 percent; Petroleum Hydrocarbons 77.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

FEDERAL MARITIME COMMISSION

AMERICAN PRESIDENT LINES, LTD., ET AL.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, (46 U.S.C. 814)).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, NY, New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before February 12, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

AMERICAN PRESIDENT LINES, LTD., SEATRAIN TERMINALS OF CALIFORNIA, INC., SEATRAIN LINES, INC. AND THE CITY OF OAKLAND

Notice of Agreement Filed by:

James H. Seymour, Esq.
American President Lines
International Building
601 California Street
San Francisco, California 94108

Agreement No. T-3038, among American President Lines, Ltd. (APL), Seatrain Terminals of California, Inc. (Terminals), Seatrain Lines, Inc. (Seatrain), and the City of Oakland (City) succeeds Agreement No. T-3013 (an agreement among the same parties temporarily permitting APL's use of certain terminal facilities prior to formalization of Agreement No. T-3038) and modifies Agreements Nos. T-2480, as amended, (an agreement between the City and Terminals providing for the lease of certain terminal facilities and the nonexclusive prefefential assignment of berthing areas to Terminals) and T-2605 (an agreement between the City and Terminals providing for the nonexclusive preferential assignment to Terminals of land adjoining the facility leased under Agreement No. T-2480, above). The purpose of Agreement No. T-3038 is to provide for (1) the joint use by Terminals and APL until August 1, 2001, of a marine terminal in the Middle Harbor Terminal of the Port of Oakland, (2) the assignment to APL of all the rights, duties, liabilities and obligations of Terminals under Agreements Nos. T-2480, as amended and T-2605, with the exception of certain Construction Fund payment obligations, (3) the Port's designation of Terminals as a secondary user and not as a sublessee of the premises (exclusive of office space) and cranes, and (4) Terminals' lease from APL of an undivided 10 percent interest in the office space. Under this agreement, the office space rental of $85,000 shall be shared 90 percent by APL and 10 percent by Terminals. Also, until the commencement of the third lease year, the total rental compensation, exclusive of office space rental, shall be shared 55 percent by APL and 45 percent by Terminals, and thereafter, during the term of the designation of secondary use, said total rental compensation shall be shared 65 percent by APL and 35 percent by Terminals. Terminals' payments for its use of APL's facility will be in lieu of any charges under the City's Port Tariffs.

By Order of the Federal Maritime Commission.

Dated: January 20, 1975.

FRANCIS C. HURNEY,
Secretary.

CITY OF LONG BEACH AND BUILDING MATERIALS TERMINAL, INC.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, (46 U.S.C. 814)).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before February 12, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Leslie E. Still, Jr., Esq.
Deputy City Attorney of Long Beach
Suite 600—City Hall
Long Beach, California 90802

Agreement No. T-3047, between City of Long Beach (City) and Building Materials Terminal, Inc. (BMT) provides for a nonexclusive preferential assignment to BMT of Berth 6, Pier A located at the Port of Long Beach, California. Provision is also made for an exclusive assignment to BMT of land areas including improvements thereon and transit shed offices known as Parcels I, II, and III as further described in the agreement. The term of this agreement is for a period of 5 years, with renewal options. The leased premises are to be used for the operation of a marine terminal and other activities incidental thereto. As compensation for the use of Parcel I BMT will pay to City all applicable tariff charges arising out of its operations subject to an annual minimum of $227,713.00 which may be adjusted according to the provisions of the agreement. For the use of Parcels II and III BMT will pay to City a monthly amount totaling $5,335.00. BMT may elect to conduct its operations pursuant to the current tariff issued by the Port of Long Beach or it may publish its own tariff subject to review by City.

By Order of the Federal Maritime Commission.

V40016 JAN2375 XUM

FEDERAL POWER COMMISSION

[Docket No. G-3287]

ATLANTIC RICHFIELD CO.

Notice of Petition To Amend

JANUARY 16, 1975.

Take notice that on December 30, 1974, Atlantic Richfield Company (Petitioner), P.O. Box 2819, Dallas, Texas 75221, filed in Docket No. G-3287 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing the sale of natural gas to Natural Gas Pipeline Company of America (Natural) in accordance with the settlement agreement certified to the Commission in Hilda B. Weinert and Jane W. Blumberg, et al., Docket No. G-2730, et al., all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

In the initial order issued in the instant docket on August 5, 1963, Petitioner was authorized to sell gas to Natural from certain acreage in the La Gloria Field, Brooks and Jim Wells Counties, Texas, pursuant to a gas sales contract dated January 25, 1950, as amended. Petitioner states that on March 1, 1971 it filed an application which requested, inter alia, authorization to sell to Natural additional volumes from the La Gloria Field previously sold under an expired contract with Transcontinental Gas Pipe Line Corporation (Transco) and that said application was consolidated for hearing, with those of other producers seeking similar authority, in Docket No. G-2730, et al. On March 21, 1973, the Commission in the order accompanying Opinion No. 655 (49 FPC 738) authorized Petitioner and others to increase deliveries to Natural in the amounts set forth in the applications. On November 12, 1973, the United States Court of Appeals for the District of Columbia Circuit reversed Opinion No. 655 and remanded it to the Commission for further proceedings. Transcontinental Gas Pipe Line Corporation v. FPC, 488 F.2d 1325 (D.C. Cir 1973).

Petitioner states that as a result of settlement negotiations an amendment dated August 31, 1974, to the January 25, 1950, contract has been entered into which, among other things, revises the dedication and quantity provisions of said contract to provide for various volumes to be delivered to Natural during certain periods which are different from the volumes committed under the contract under which sales were authorized in the instant docket. Petitioner further states that said amendment is proposed to become effective upon the Commission's issuing an order approving the settlement in the proceeding in Docket No. G-2730, et al. Petitioner proposes to sell gas at a change in the contractual rate level to the applicable rate prescribed in Section 2.56a of the Commission's rules of practice and procedure (18 CFR 2.56a) for that portion of the gas produced from wells commenced on or after January 1, 1973. Petitioner, accordingly, requests that in the event the Commission issues an order approving the settlement proposal an order be issued amending the certificate issued in the instant docket to authorize Petitioner to perform all acts and obligations provided for in the August 31, 1974, amendment with Natural.

Petitioner states that the August 31, 1974, amendment provides for delivery to Natural, on and after April 1, 1975, of volumes that will vary during prescribed periods so that over the remaining life of the reserves. Natural will receive 40 percent thereof. Petitioner proposes to sell the gas for 25.0 cents per Mcf and 54.16 cents per Mcf at 14.65 psia, as applicable.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 5, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-149]

CENTRAL FLORIDA GAS CORP.

Notice of Motion To Amend Order Directing Physical Connection of Facilities and Sale of Natural Gas

JANUARY 17, 1975.

Take notice that on January 9, 1975, Central Florida Gas Corporation (Central Florida) filed a motion to amend the Commission's order issued July 25, 1973, in Docket Nos. RP66-4, et al., which include the above-docketed proceeding, to (1) direct Florida Gas Transmission Company (Florida Gas) to connect its facilities and to sell and deliver to Central Florida for resale to the City of St. Cloud, Florida, the annual quantity of 500,000 therms of natural gas authorized by the aforesaid order at an existing or relocated delivery point instead of the two authorized delivery points, one between Kissimmee and St. Cloud in Osceola County, Florida and another west and south of Orlando in Polk County, Florida; and (2) allow Central Florida a period of six months from the date of the Commission's order herein in which to prepare for the receipt of such natural gas deliveries.

In support of its motion, Central Florida alleges that most of the motels and commercial establishments that had signed Letters of Intent to purchase natural gas from it have temporarily shut down because of an over-supply of motels in the Orlando-Disney World area and delays in the completion of the proposed Circus World project. Central Florida claims that consequently, it could take delivery only of limited volumes of natural gas at the authorized delivery points. Central Florida further alleges that it has received an urgent request from the City of St. Cloud for the purchase of the authorized natural gas volumes and that reallocation of such volumes to the City of St. Cloud delivery point would enable Florida Gas to reduce the pipeline which it proposes to construct pursuant to its application in Docket No. CP74-192.

Central Florida asserts that several months will be required to construct a new distribution line if the City of St. Cloud's request is approved, and alternatively, additional time to proceed with original plans for the Florida Gas connection in the event that the City's request is denied.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before January 28, 1975. The notices and petitions for intervention previously filed in this proceeding will not operate to make those parties interveners or protestants with respect to the instant filing. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's Rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2134 Filed 1-22-75;8:45 am]

[Docket Nos. RP72-142, PGA75-3]

CITIES SERVICE GAS CO.

Notice of Proposed Changes in FPC Gas Tariff

JANUARY 17, 1975.

Take notice that Cities Service Gas Company (Cities) on January 8, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. Cities states that pursuant to the Purchased Gas Cost Rate Adjustment provision contained in Article 21 of its FPC Gas Tariff, it proposes to increase its rates effective February 23, 1975, to reflect an increase in the cost of gas purchased from Oklahoma Natural Gas Gathering Corporation, one of Cities' pipeline suppliers.

Cities states that the Third Alternate Substitute Ninth Revised Sheet PGA-1 here filed is proposed should the Commission act on Cities' December 2, 1974 filing in Docket No. RP72-142, by accepting Substitute Ninth Revised Sheet PGA-1 in Appendix B. Alternatively, Cities states that the Fourth Alternate Substitute Ninth Revised Sheet PGA-1 here filed is proposed should the Commission accept the Substitute Ninth Revised Sheet PGA-1 in Appendix A filed December 2, 1974.

Copies of the Company's filing were served on all jurisdictional customers, interested state commissions and all parties to the proceedings in RP72-142, PGA75-3, and RP74-4.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9207]

DUKE POWER CO.

Notice of Proposed Change in FPC Electric Rate Schedule

JANUARY 17, 1975.

Take notice that on January 6, 1975, Duke Power Company (Duke) tendered for filing a proposed change in Duke Power Company Rate Schedule FPC No. 233. Duke states that this rate schedule is the contract between itself and the Town of Davidson (Town). Duke states that the change increases the contract demand from 2,800 kw to 4,500 kw and is made at the request of the Town. Duke further states that the requisite agreement has been obtained as shown by the signature of both parties on the Exhibit A-1 which accompanied the tendered filing. The proposed effective date is February 19, 1975.

A copy of the filing has been mailed to the Mayor of the Town.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2137 Filed 1-22-75;8:45 am]

[Docket No. RP75-39]

EL PASO NATURAL GAS CO.

Order Accepting for Filing and Suspending Tendered Tariff Sheets, Granting Request for Waiver, Denying Motion To Phase and Consolidate Rate of Return Issue, Permitting Interventions, Providing for Hearing and Establishing Procedures

JANUARY 15, 1975.

Before Commissioners: John N. Nassikas, Chairman; Albert B. Brooke, Jr., Rush Moody, Jr., William L. Springer, and Don S. Smith.

On December 16, 1974, El Paso Natural Gas Company (El Paso) tendered for filing revised tariff sheets [1] which would increase rates to jurisdictional customers by approximately $70 million annually. El Paso states that the proposed rate change would increase its overall rate of return to 9.8 per cent. El Paso proposes that the increase be permitted to become effective on January 16, 1975.

In support of its filing, El Paso states that the instant request for increased rates is necessitated by its declining gas supply, increases in the costs of labor, capital, materials and supplies, and increases in overriding royalty payments.

El Paso has requested waiver of § 154.63(e)(2)(i) of the Commission's regulations to permit the Company to include, in the proposed rates, the effect of an increase in special overriding royalty costs. According to El Paso, increases in such royalty costs will be incurred by the Company on June 1, 1975, as a result of issuance of Commission Opinion No. 699-H.[2] El Paso, in support of its request for waiver, contends that this cost is significant, is known and measureable, and will be incurred only one day after the close of the test period used for the instant filing. El Paso has tendered an alternative set of revised tariff sheets should its request be denied.

Our review of El Paso's request for waiver of the Regulations to permit inclusion of such special overriding royalty costs indicates that good cause exists to grant such request. Accordingly, we shall grant waiver of § 154.63(e)(2)(i) of the Regulations, as hereinafter ordered.

Concurrently with its instant rate increase filing, El Paso filed a motion to phase the rate of return issue raised by the instant filing and to consolidate for immediate hearing and decision said issue with the rate of return issue raised by El Paso's filings in Docket Nos. RP73-104 and RP74-57. In support of its motion, El Paso states that the Company "has recently been seriously hampered in its attempts to raise additional debt capital in the money market * * *." Therefore, El Paso contends, the procedural relief requested and a timely decision upon the rate of return issue are needed for the Company to attract additional capital at reasonable costs and maintain investor confidence.[3]

Our review of El Paso's motion to phase and consolidate the rate of return issue indicates that said motion should not be granted. Past experience in proceedings wherein we have permitted phasing of certain issues has shown that such procedure does not necessarily result in an expeditious resolution of those issues. Moreover, our experience indicates that such procedure may actually lengthen the time period required to resolve all the issues in a given docket. For these reasons, we believe that the public interest requires that we deny El Paso's motion.

Public notice of El Paso's filing was issued with comments, protests and petitions to intervene due on or before January 6, 1975. Petitions to intervene were timely filed by Citizens Utilities Company, Arizona Public Service Company, the Navajo Tribal Utility Authority, Tucson Gas and Electric Company, Pacific Gas and Electric Company, Southern Union Gas Company, and Southern California Gas Company. Southwest Gas Corporation filed its petition to intervene on January 7, 1975, one day after the period for timely interventions had ended. On January 8, 1975, San Diego Gas and Electric Company and the Salt River Project Agricultural Improvement and Power District filed their respective petitions to intervene. Upon review of all of these petitions to intervene, we believe that good cause exists to grant intervention to each petitioner.

Based on our review of El Paso's proposed rate increase, including the documents, information and studies submitted therewith as required by the Commission's Regulations, and the aforementioned petitions to intervene, we find that the requested increase may be excessive or otherwise unlawful under the Natural Gas Act. Accordingly, the proposed increase shall be accepted for filing, suspended for the full statutory period, and set for hearing.

We note that in the instant filing, El Paso uses the modified Seaboard method of cost classification for allocation of costs between jurisdictional and non-jurisdictional customers. El Paso's rate design is based upon several methods, including historical zone differentials, direct assignment of costs and uniform cost increases to existing rate levels.

In Opinion No. 671 we expressed our concern over the worsening gas supply situation and particularly as it existed on United's system. Based upon the record in that case we concluded that more weight should be given to annual use of United's pipeline system than is characteristic of the unmodified Seaboard

[1] Fifteenth Revised Sheet No. 3-B and Second Revised Sheet No. 63-C.3 to Original Volume No. 1; Fifth Revised Sheet No. 1-D and Second Revised Sheet No. 1-M.3 to Third Revised Volume No. 2; and Seventh Revised Sheet No. 1-C, Second Revised Sheet No. 1-D, and Second Revised Sheet No. 7-MM.3 to Original Volume No. 2-A, FPC Gas Tariff.

[2] Opinion No. 699-H, issued December 4, 1974, in Docket No. R-389-B.

[3] The Navajo Tribal Utility Authority and Southern Union Gas Company filed, together with their respective petitions to intervene, statements supporting El Paso's motion to phase and consolidate the rate of return issue. Pacific Gas and Electric Company and Southern California Gas Company stated in their petitions to intervene that they do not oppose El Paso's motion.

V40N16 JAN23 75 XUM

methodology. Therefore, we assigned 75 percent of fixed costs to the commodity component of two-part rates and to the straight-line rates. Part of our rationale was that in view of the gas supply shortage, low priority usage should be discouraged and the price gap between natural gas and alternative fuels in the interruptible industrial market should, at the minimum, be narrowed.

In light of our policy of considering competitive fuel prices in setting commodity rate levels and of the present supply and market conditions on the El Paso system, all parties to this proceeding should direct their attention, and file any evidence they wish to submit, as to the propriety of the continued use of the Seaboard method of cost classification and allocation, as well as to the propriety of El Paso's rate design proposed herein. Further, we urge all parties to suggest alternative methods of cost classification, allocation and rate design which they believe may more closely reflect or implement the Commission's objectives in this area.[1]

As previously noted, El Paso's request for increased rates is based in part upon the fact that its deliverability of gas from connected sources is declining. The present gas shortage in this country, to which this Commission has often called attention, is a problem which is shared by most if not all major interstate transmission pipelines in varying degrees of magnitude. The effect upon the risk of capital invested in gas pipeline operations resulting from inadequate and declining gas supplies as well as the uncertainties and contingencies inherent in possible supplemental sources of supply are of direct and primary concern to us. It also seems clear that the gas shortage may result in situations where the useful or economic life of gas pipeline facilities may be substantially less than their physical life. Accordingly, we request that the evidence in this proceeding, including that to be filed by our Staff, give full and careful consideration to these factors in the development of recommendations on the issue of rate of return so as to enable this Commission to formulate sound regulatory policies in this area.

The Commission finds:

(1) The revised tariff sheets listed in footnote "1" at page 1 of this order, as tendered by El Paso on December 16, 1974, should be accepted for filing and suspended as hereinafter ordered.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in El Paso's FPC Gas Tariff, as proposed to be amended in Docket No. RP75–39.

(3) Good cause exists to grant El Paso's request for waiver of Section 154.63(e)(2)(i) of the Commission's Regulations, as said request is discussed herein.

(4) Good cause does not exist to grant El Paso's motion to phase and consolidate the rate of return issue raised in the instant filing.

(5) Participation of the above-named petitioners to intervene may be in the public interest, provided that such participation is limited as hereinafter ordered.

The Commission orders:

(A) El Paso's tariff sheets proffered in Docket No. RP75–39 are accepted for filing and suspended for the full statutory period of five months until June 16, 1975, or until such time as they are made effective in the manner provided by the Natural Gas Act, subject to refund.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 8 and 15 thereof, and the Commission's rules and regulations, a hearing shall be held to determine the justness and reasonableness of the rates proposed in El Paso's December 16, 1974, filing.

(C) On or before July 14, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Prepared testimony and exhibits of intervenors shall be served on or before July 28, 1975. Company rebuttal shall be served August 13, 1975. Cross-examination of the evidence shall commence on August 25, 1975, at 10:00 A.M., EDT in a hearing room at the Federal Power Commission, Washington, D.C. 20426.

(D) El Paso's request for waiver of § 154.63(e)(2)(i) of the Commission's regulations is hereby granted.

(E) El Paso's motion to phase and consolidate the rate of return issue raised in the instant filing is hereby denied.

(F) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and *Provided, further*, That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe necessary procedures not provided for by this order, and shall otherwise conduct the hearing in accordance with the terms of this order and the Commission's rules and regulations.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75–2138 Filed 1–22–75;8:45 am]

[1] See: Footnote 3 in our order of May 31, 1974, in Columbia Gas Transmission, et al., Docket Nos. RP74–82 and RP74–81.

[Docket Nos. RP69–6, et al.]

EL PASO NATURAL GAS CO.

Notice of Substitute Tariff Sheets Tender

JANUARY 16, 1975.

Take notice that on December 9, 1974, El Paso Natural Gas Company (El Paso) tendered for filing certain substitute revised tariff sheets to its FPC Gas Tariff, Original Volume Nos. 1 and 2A, and a Report of Refunds Due which El Paso claims to be in accordance with the Stipulation and Agreement in Settlement of Rate Proceedings dated May 31, 1973, and ordering Paragraph (D) of the Commission's Order Approving Settlement, Reserving Issue for Hearing and Consolidating Proceedings, issued February 14, 1974, at Docket Nos. RP69–6, et al.

El Paso further states that the tendered tariff sheets are applicable to all rate schedules contained in said Original Volume No. 1 tariff and those special rate schedules contained in El Paso's Original Volume No. 2A tariff, under which the applicable rate is keyed to, and identical with, the rate in effect from time to time under a designated rate schedule, contained in Original Volume No. 1 of El Paso's FPC Gas Tariff. Similarly, special Rate Schedules X–7, X–14, X–25 and X–30 of El Paso's FPC Gas Tariff, Third Revised Volume No. 2 are also keyed to rates in effect from time to time under a designated rate schedule contained in the Original Volume No. 1 tariff; however, such rate schedules do not contain a tariff sheet specifically identifying the effective rate during the refund periods of Docket Nos. RP69–6, RP70–11, RP71–13 and RP72–150, and therefore El Paso alleges that substitute tariff sheets for said rate schedules need not be filed. El Paso also states that the tendered tariff sheets reflect the reduced rate levels provided by the said Stipulation and Agreement for the term of the cumulative locked-in period March 7, 1969, through November 1, 1973, of the subject dockets.

Further, El Paso states the principal refund resulting from the settlement aggregates $50,523,679.23, of which $47,066,165.30, are jurisdictional refunds. El Paso submitted as a part of the instant filing computations supporting said principal refund, reflecting the amount of principal refund due under each rate schedule and to each customer affected by said settlement. El Paso proposes to make the subject refund, together with the appropriate interest thereon, within thirty (30) days of Commission approval of the tendered tariff sheets and refund amount.

El Paso states that copies of the filing were served on all of El Paso's affected Southern Division System customers and all parties of record to the proceedings at Dockets Nos. RP69–6, RP69–20, RP70–11, RP71–13 and RP72–150 and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with § 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–2139 Filed 1–22–75;8:45 am]

[Docket No. RP75–53]

FLORIDA GAS TRANSMISSION CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 16, 1975.

Take notice that on January 10, 1975, Florida Gas Transmission Company (Florida Gas) tendered for filing proposed changes in its FPC Gas Tariff, Original Volume Nos. 1 and 2.

The proposed rate changes would increase Florida Gas' revenues from jurisdictional sales and transportation services by $5,495,725, based on the twelve months ended September 30, 1974 as adjusted. Florida Gas proposes to make the increased rates effective February 10, 1975.

Florida Gas states that the increased rates are required to reflect the effect on its cost of service and revenue requirements of reduced deliveries of natural gas because of declining deliverability from connected gas supplies, increases in operating expenses, depreciation expense and taxes, costs related to an advance payment of $20 million, and increases in cost of capital including an overall rate of return of 10.25%.

Florida Gas states that copies of its rate filing were served on all the Company's jurisdictional customers and the Florida Public Service Commission. Also, Florida Gas states that Statement P will be filed within fifteen days of its filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with § 1.8 and § 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10).

All such petitions or protests should be filed on or before February 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 75–2140 Filed 1–22–75; 8:45 a.m.]

[Docket No. E–8987]

INDIANA AND MICHIGAN ELECTRIC CO.

Order Accepting for Filing Proposed Service Agreement, Granting Request for Waiver, and Denying Motion To Reject and Request for Hearing

Issued JANUARY 17, 1975.

On August 21, 1974, Indiana and Michigan Electric Company (I&M) tendered for filing an unsigned agreement with the City of Auburn, Indiana (Auburn), which would provide service for Auburn under I&M's FPC Tariff WS. The new rate schedule would cancel and supersede I&M's FPC Rate Schedule No. 29, under which service is presently being rendered to Auburn. I&M asserted that the reason for the proposed change is to modify the applicable rate for service to Auburn from Tariff IP to the Company's Tariff WS, the applicable rate to municipal wholesale customers. The proposed change would increase I&M's revenues from jurisdictional sales and service to Auburn by approximately $114,375 or 9.1%, based on the twelve-month period ended October 31, 1974.

I&M requested waiver of § 35.13 of the Commission's regulations to the extent that the provisions would require I&M to prepare and file an entirely new cost-of-service study. I&M asserted that a full cost of service study was filed in its initial filing of Tariff WS, in Docket No. E–7740, and that the cost of preparing a new study would be prohibitive, relative to the increased revenues to be derived from the proposed rate schedule change.

Notice of I&M's filing was issued on September 4, 1974, with comments, protests, or petitions to intervene due on or before September 20, 1974. On September 20, 1974, Auburn filed a "Petition to Intervene, Formal Protest, and Request for Rejection" of I&M's filing. Auburn requested the Commission to reject I&M's filing alleging (1) that the filing is in violation of the contract between I&M and Auburn signed on November 16, 1964; (2) that the filing is in violation of the anti-discrimination provisions of the Federal Power Act and Clayton Act; and (3) that even if I&M's filing did not violate its contract with Auburn, the earliest date the changes could be made effective would be November 17, 1974.

On October 7, 1974, I&M filed with the Commission a response to Auburn's petition submitting that Auburn's request for rejection of the August 21, 1974 filing is totally unsupportable. I&M stated, however, that it had no objection to the request of Auburn to intervene in these proceedings.

By order dated October 18, 1974, we conditionally accepted for filing the proposed service agreement and granted intervention to Auburn. We also stated our opinion that "a finding by this Commission that Auburn has the contractual right to continue to receive service under I&M's IP rate schedule would render unnecessary a determination of Auburn's other allegations * * *" (mimeo at 4). We therefore first directed ourselves to the issue of whether Auburn has the contractual right to continue to receive service under Tariff IP. Because we felt it would aid us in a proper determination of Auburn's contractual rights we requested, in our October 18, 1974 order, that briefs be filed on the limited issue of interpreting and reconciling seemingly inconsistent provisions in the 1964 I&M-Auburn service agreement, Tariff IP, and the Terms and Conditions of Service. Pursuant to our directive, both I&M and Auburn filed initial and reply briefs.

THE I&M-AUBURN SERVICE AGREEMENT

The 1964 I&M-Auburn Service Agreement provides that:

> The Company is to furnish and the Customer is to take electric energy under the terms of this Agreement for a period of ten (10) years from the time such service is commenced, and thereafter in successive periods of not less than two (2) years each, *until either party shall give the other not less than 12 months notice in writing of his or its election to discontinue the services at the expiration of any said periods.* (Italics supplied)

The Agreement further incorporated the provisions of Company Tariff IP which provided, in part, as follows:

> Contracts under this tariff will be made for a term of years taking into consideration the size of the load, the location of the load, and the amount of facilities to be furnished by the company in serving the load, but contracts will not be made for initial periods of less than 3 years with self-renewal provisions for successive periods of at least 2 years each. *Contracts may be cancelled or reduced in capacity by either party at the end of initial or renewal periods on a minimum of 12 months' prior written notice to the other party.* (Italics supplied)

The provisions of Tariff IP additionally incorporated the "Terms and Conditions of Service". Section 11 of the Terms and Conditions of Service provides as follows:

> With particular reference to power customers it shall be understood that upon the expiration of a contract the customer may elect to renew the contract upon the same or another tariff published by the Company * * *

Auburn maintains that, notwithstanding I&M's notice of termination and the filing of an unsigned service agreement placing Auburn under the WS Tariff, it has the contractual right to elect to continue to receive service under Tariff IP. Auburn's position is that the contract, at the end of the initial term of ten years, would be automatically renewed for seven consecutive two-year terms as provided in the service agreement. Auburn alleges that upon a notification of termination prior to the expiration of this twenty-four year period Section 11 of the Terms and Conditions comes into play and gives Auburn, and only Auburn, the right to elect to continue to receive service under the same tariff for the full twenty-four year term.[1] Auburn alleges that any other

[1] City of Auburn, Indiana's Petition to Intervene, Formal Protest and Request for Rejection of Rate Schedules Submitted for Filing, filed September 20, 1974, at p. 13.

V40 016 JAN 23 75 XUM

interpretation would render Section 11 meaningless. Auburn further points out that its contract right of election does not force I&M to serve it in perpetuity but only so long as I&M maintains a Tariff IP.[3]

I&M, on the other hand, maintains that Auburn has no right to elect to continue to receive service under Tariff IP. In support of its position I&M points out that at an earlier point in time Auburn itself acknowledged that I&M had the right to impose a new rate schedule upon Auburn at the conclusion of the first ten year term under the 1964 Agreement.[4] I&M further alleges that since the Agreement itself and Tariff IP provide for a right of termination and cancellation by either party, that section 11 of the Terms and Conditions comes into play only at the expiration of the 24 year term of contract. I&M therefore argues that there is a legal distinction between the expiration of a contract by its own terms and the termination of a contract during its term under provisions bestowing the right of termination. I&M asserts that its interpretation of the interrelationship of the provisions in the 1964 Agreement and the Terms and Conditions of Service gives meaning to all of the provisions and that Auburn's interpretation of section 11 of the Terms and Conditions would completely negate the clear and unambiguous provisions in both the Service Agreement and Tariff IP providing either party with termination rights.

Upon review of the 1964 Service Agreement, Tariff IP, the Terms and Conditons of Service, the pleadings and the briefs filed herein we are compelled to find that Auburn's contention that it has the right to elect to continue service under Tariff IP for the duration of the twenty-four year contract term is without merit. We have closely scrutinized the specific provisions in the Service Agreement, Tariff IP and the General Terms and Conditions of Service and have applied the rules of contract interpretation to reach our finding. The contractual provision in the Service Agreement and the provision in Tariff IP which provide either party with the right to terminate service at the conclusion of any of the periods are clear and unambiguous. These provisions, provide both parties with the right to terminate service. Section 11 does not speak to termination but to expiration of the contract. While it is true that each period provided for in the contract (the ten-year term and seven two-year terms) does expire, the contract itself does not expire until a minimum of twenty-four years after the commencement of its initial term. Reading all the provisions together to give meaning to each provision, we conclude that I&M, as well as Auburn, with proper notice, has the contractual right to terminate service at the conclusion of any of the terms provided by the Service Agreement. Section 11 of the Terms and Conditions, rather than giving Auburn the right to nullify the right to terminate by I&M, provides the customer, Auburn, with the right to elect to continue service under Tariff IP or another tariff at the expiration of all the terms of the contract if neither party has yet exercised its right to terminate service.

After close scrutiny of the provisions here involved and the arguments advanced by both parties, we find that Auburn's interpretation of the provisions has the effect of rendering useless and meaningless the termination provisions. Since it is a primary rule of contract interpretation to read and interpret a contract so as to give meaning to all of its terms,[6] we must reject Auburn's interpretation.

The contractual interpretation which we have adopted places each provision in question in harmony with the others and provides a totally consistent application. Moreover, our reading is supported by the principles of contractual interpretation. Even though Auburn argues that its previous statements are irrelevant to this present proceeding, the fact remains that it has previously stated that I&M had termination rights under the Service Agreement.[7] This action calls to our attention the rule that the interpretation of contracts given by the parties themselves should be favored.[8] Secondly, the provisions of the Service Agreement should be given precedence if they conflict with provisions in Tariff IP and the Terms and Conditions since the Service Agreement was the bargain struck by the two parties, while Tariff IP and the Terms and Conditions are intended for general use of all customers served thereunder.[9] Finally, the rule of contract interpretation requiring that effectiveness be given to the intention appearing in the principal or most important clause[10] demands we give effect to the Service Agreement's provision bestowing the right of termination.

We find therefore, that Section 11 of the Terms and Conditions of Service does not preclude I&M from terminating service to Auburn under Tariff IP and filing an unsigned service agreement providing for service to Auburn under Tariff WS. Because we do not reject I&M's filing as being inconsistent with the 1964 Service Agreement with Auburn, we now turn to a disposition of the other issues presented by this proceeding.

Auburn's Claim of Discrimination

Auburn argues in its protest that I&M's filing violates the anti-discrimination provisions in the Federal Power Act and Clayton Act because it discriminates against Auburn both by placing it in an inferior competitive position for industrial customers with regard to I&M and by giving it discriminatory rate treatment vis-a-vis the City of Richmond. With regard to Auburn's allegation of being placed in an inferior competitive position to I&M, we have previously held that it is beyond our statutory authority to tie wholesale rates to the rates charged to direct industrial customers.[9] Auburn's allegation of discrimination vis-a-vis the City of Richmond is an issue in the proceeding in Docket No. E-7740. In that proceeding we permitted the parties to introduce evidence to determine whether I&M was discriminating among its municipal customers.[10] Since the testimony on that point concerned the same WS Rate Schedule presently at issue, Auburn, which was a participant in the proceeding, has been afforded the opportunity to submit evidence on this point. The decision to be rendered in the proceeding in Docket No. E-7740 will therefore be dispositive of the discrimination issue and no additional hearing is required.

Request for Suspension and Hearing

In the event I&M's filing is not rejected, Auburn, in its Protest and Petition to Intervene, requested the Commission act in the alternative by suspending the filing for the full 5-month statutory period and set the matter for hearing. The present filing by I&M would place Auburn under the WS tariff which is the subject of the proceeding in Docket No. E-7740. The effectiveness of I&M's initial WS Tariff filing was therein suspended for five months and set for hearing subject to refunds.[11] Auburn was afforded the opportunity to participate, and indeed did participate in those lengthy proceedings. In view of the fact that the effectiveness of the WS Tariff has already been suspended[12] and Auburn has had full opportunity to challenge the justness and reasonableness of the WS Tariff and the increased rates and charges thereunder, there is nothing to be served by providing a suspension and hearing in the present proceeding on the justness and reasonableness of the identical tariff. A recognition of Auburn's position would result in substituting many rate proceedings for one. If we permitted each customer whose contract had expired to challenge the newly effective rates it would result in a "plethora of individual filings".[13] Redundant filings on a common issue would be "wasteful not only of the time and resources of FPC members and staff, but also of the resources of the parties—costs that must in the last analysis be borne by the customer."[14]

The denial of Auburn's request for suspension and a hearing will not affect I&M's refund obligation toward Auburn if the WS Rate Schedule is found to be unjust and unreasonable.

Waiver of Section 35.13

I&M's request for waiver of Section 35.13 of the Commission's Regulations insofar as it would require the filing of a new cost-of-service study is reasonable. I&M's orginal filing of the new WS Rate Schedule in Docket No. E-7740 was accompanied by full cost-of-service data. Because I&M's present filing does not attempt to increase the rates and charges under the WS Rate Schedule but only to place Auburn under the schedule, a new cost-of-service study is not required.

I&M's original filing of the WS Rate Schedule and the accompanying cost-of-service study, which contemplated eventually serving Auburn, was not too premature to encompass customers under later expiring contracts. It is within our authority to refer to the data submitted in the proceeding in Docket No. E-7740 and make our determination thereunder.[15] Auburn is protected by the refund obligation imposed upon I&M by the Court of Appeals for the District of Columbia Circuit in reinstating the suspension and refund of I&M's WS Tariff filing.[16] Because that refund obligation extends to all customers served under the WS Rate Schedule it would apply to rates charged Auburn under a new service agreement.

The Effective Date of I&M's Filing

In our order of October 18, 1974, we permitted I&M's filing, for purposes of conditionally accepting it, to become effective October 21, 1974. Our decision was premised on the language in the contract providing that "the Company is to furnish and the customer is to take electric energy under the terms of this Agreement for a period of ten (10) years from the time such service is commenced * * *" (emphasis supplied). Since I&M's billing records indicate I&M commenced service to Auburn on October 21, 1964, we found in our order of October 18, 1974 and our order denying a petition for rehearing of December 13, 1974, that the ten year contract term began on that date. We therefore conclude that the appropriate effective date for I&M's tendered filing was October 21, 1974.

For the reasons stated above, we find no merit in the arguments advanced by Auburn and we will therefore accept I&M's August 21, 1974 filing to be effective October 21, 1974. We will further consolidate the present proceeding with the proceeding in Docket No. E-7740 for purposes of our final disposition on the justness and reasonableness of the WS Rate Schedule.

The Commission Finds:

(1) It is necessary and appropriate in the public interest, and to aid in the enforcement of the provisions of the Federal Power Act that the Commission accept for filing I&M's August 21, 1974 tendered unsigned service agreement to be effective October 21, 1974.

(2) Good cause exists to grant I&M's request for waiver from filing a new cost-of-service study under § 35.13 of our Regulations.

(3) Good cause does not exist to grant Auburn's request for rejection of I&M's filing, or to grant its alternative request for suspension of a hearing concerning I&M's filing.

(4) Good cause exists to consolidate the present proceeding with the pending proceeding in Docket No. E-7740 for the purpose of final disposition.

The Commission Orders:

(A) I&M's August 21, 1974, filing in Docket No. E-8987, submitting an unsigned service agreement with Auburn, is hereby accepted for filing, approved, and made effective as of October 21, 1974.

(B) I&M's request for waiver of the requirements of Section 35.13 insofar as that Section would require filing of a cost-of-service study is hereby granted.

(C) Auburn's request for rejection of or in the alternative, suspension of and a hearing concerning I&M's August 21, 1974 filing is hereby denied.

(D) The present proceeding in Docket No. E-8987 is hereby consolidated with the proceeding in Docket No. E-7740 for the purpose of final disposition.

(E) The Secretary shall cause prompt publication of this order in the Federal Register.

By the Commission.

Kenneth F. Plumb,
Secretary.

[FR Doc.75-2141 Filed 1-22-75;8:45 am]

[Docket No. RP73-23 PGA 75-2B]

LAWRENCEBURG GAS TRANSMISSION CORP.

Notice of Filing of Substitute Gas Tariff Sheets

January 17, 1975.

Take notice that on January 14, 1975, Lawrenceburg Gas Transmission Corporation (Lawrenceburg) tendered for filing two substitute gas tariff sheets to its FPC Gas Tariff, Original Volume No. 1 designated as Second Substitute Eighth Revised Sheet No. 3–A (superseding Seventh Revised Sheet No. 3–A) and Second Substitute Eighth Revised Sheet No. 18–B, superseding Seventh Revised Sheet No. 18–B).

The proposed changes contained therein would increase revenues from jurisdictional sales by $236,208 as compared to revenues at the current rates in effect since August 1, 1974, based on the 12 months ending November 30, 1974.

Lawrenceburg states that, pursuant to the purchased gas adjustment (PGA) provision in its FPC Gas Tariff, Original Volume No. 1, it filed by letters dated December 19, 1974 and December 30, 1974, Eighth Revised Sheets Nos. 3–A and 18–B, and Substitute Eighth Revised Sheets Nos. 3–A and 18–B, respectively, in order to track proposed changes in its cost of gas purchased from Texas Gas Transmission Corporation (Texas Gas), both of which were to become effective February 1, 1975. By letter dated December 23, 1974, Texas Gas again filed revised gas tariff sheets effective February 1, 1975, pursuant to Commission Order issued December 20, 1974 approving the Stipulation and Agreement in Texas Gas' Docket No. RP74–25, said revision causing Lawrenceburg to again file revised tariff sheets as noticed herein in order that its February 1, 1975 PGA might reflect the latest Texas Gas tariff rates on file with the Commission.

Lawrenceburg requests waiver of the Commission's regulations to permit its substitute tariff sheets to become effective February 1, 1975; and Lawrenceburg states that copies of its filing have been mailed to its two wholesale customers, Lawrenceburg Gas Company and The Cincinnati Gas & Electric Company, and also to the two interested state commissions, Public Service Commission of Indiana and The Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 31, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

NATURAL GAS PIPE LINE CO. OF AMERICA

Notice of Further Extension of Procedural Dates

JANUARY 16, 1975.

On January 10, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued June 28, 1974, as most recently modified by notice issued November 7, 1974, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, February 28, 1975.
Service of Intervenor's Testimony, March 28, 1975.
Service of Company Rebuttal, April 11, 1975.
Hearing, April 29, 1975 (10 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2143 Filed 1-22-75;8:45 am]

[Docket No. RP71-107 (Phase II) PGA75-2]

NORTHERN NATURAL GAS CO.

Notice of Purchased Gas Cost Adjustment Rate Change

JANUARY 16, 1975.

Take notice that on January 9, 1975, Northern Natural Gas Company (Northern) tendered for filing, as a part of Northern's FPC Gas Tariff to become effective January 9, 1975, Seventh Revised Sheet No. 4a to Third Revised Volume No. 1 and Third Revised Sheet No. 502 and Sixth Revised Sheet No. 1c to Original Volume No. 2.

This rate increase is being filed pursuant to § 154.38(d)(4) of the Regulations under the Natural Gas Act and Ordering paragraph (D) of Opinion No. 699–H issued December 4, 1974, to track the increased rates occasioned by the revised Opinion No. 699–H national rate pursuant to filings made by natural gas producers on or before January 31, 1975 pursuant to § 2.5a(j).

Seventh Revised Sheet No. 4a, Third Revised Sheet No. 502 and Sixth Revised Sheet No. 1c provide for an increase of one and ninety-six hundredths cents (1.96¢) per Mcf in the Commodity portion of Northern's jurisdictional rates. This amount will result in an increase in annual jurisdictional gas sales revenues of approximately $11,657,000 for Volume No. 1 sales and $508,000 for Volume No. 2 sales.

Northern also tendered for filing, to become effective as of the states dates, the following alternative tariff sheets:

December 27, 1974:

Third Substitute Fifth Revised Sheet No. 4a to Third Revised Volume No. 1.
Second Substitute First Revised Sheet No. 502 and Second Substitute Fourth Revised Sheet No. 1c to Original Volume No. 2.

December 28, 1974:

First Substitute Sixth Revised Sheet No. 4a to Third Revised Volume No. 1.
First Substitute Second Revised Sheet No. 503 and First Substitute Fifth Revised Sheet No. 1c to Original Volume No. 2.

According to Northern, these tariff sheets are part of an alternative proposal to effectuate a portion of the PGA increase at this time and to defer the remainder for inclusion in its next PGA filing in order to accommodate to the needs of its customer utilities. Northern stated that the Commission has recently rejected 1.62¢[1] of a total 6.34¢ per Mcf rate increase filed by Northern on October 25, 1974 to become effective some sixty days later on December 27, 1974. This rate increase filing was the annual rate adjustment provided by Northern's approved PGA and R&D cost adjustment clauses. The Commission did approve 4.72¢ per Mcf of the total increase[2] and, pursuant thereto, Northern has tendered for filing substitute tariff sheets, concurrently herewith, to be effective as of December 27 and 28, 1974.[3] Northern proposes, in this alternative, to: (a) effectuate, for the present, only 1.62¢ of the 1.96¢ per Mcf increase occasioned by the Opinion No. 699–H national rate, (b) defer .34¢ per Mcf of the 1.96¢ increase for inclusion in the next PGA rate filing and (c) withdraw Seventh Revised Sheet No. 4a to Third Revised Volume No. 1 and Third Revised Sheet No. 502 and Sixth Revised Sheet No. 1c to Original Volume No. 2, if the Commission grants Northern the authority to:

(1) effectuate 1.62¢ of the 1.96¢ increase as of December 27, 1974 in substitution for the recently rejected 1.62¢ increase,

(2) defer interest expense at the rate of nine percent (9%) annually on the deferred increase in cost of purchased gas represented by the .34¢ per Mcf deferred rate increase,

(3) include in Northern's next PGA filing the deferred interest expense in (2) above, and

(4) effectuate, as of the stated dates, the above alternative tariff sheets.

Northern states its alternative proposal would: (1) avoid an additional rate adjustment occasioned by Opinion No. 699–H, (2) allow Northern's customer utilities to coordinate their required pass-along rate increases with those of Northern and (3) enable Northern to recover interest costs related to deferred costs of purchased gas.

The Company states that copies of the filing have been mailed to each of the Gas Utility customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 31, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2135 Filed 1-22-75;8:45 am]

[Docket No. RM 74-3]

POLICY WITH RESPECT TO ESTABLISHMENT OF MEASURES TO BE TAKEN FOR THE PROTECTION OF RELIABLE AND ADEQUATE SERVICE FOR 1975

Order Directing Solicitor To Seek an Expedited Decision in the Appeal of Orders No. 491, et seq.

JANUARY 16, 1975.

In response to the severe supply shortage threatening gas consumers during the 1973–74 winter season, the Commission, on September 14, 1973, promulgated Order No. 491[1] which extended from 60 to 180 days the term under which a pipeline experiencing a supply shortage on its system could make emergency purchases of natural gas without Commission certification.[2]

Such action was taken by the Commission pursuant to section 7(c) of the Natural Gas Act, 15 U.S.C. § 717f(c) which provides in pertinent part that the Commission:

> • • • may by regulation exempt from the requirements of this section temporary acts or operations from which the issuance of a certificate will not be required in the public interest.

Pursuant to this statutory authority, the Commission had previously adopted regulations allowing pipelines to make emergency purchases of gas for a period of up to 60 days without obtaining a certificate for the purchases.[3]

Responding to requests for rehearing and reconsideration, the Commission, on September 25, 1973, issued Order No. 491–A. The Commission there reaffirmed and further documented its judgment regarding the acute gas shortage and the resulting economic injury and stated it was necessary to extend the emergency purchase period from 60 days to 180 days in order to make the interstate market more attractive to sellers of gas and thereby to make interstate sales more attractive. In Order No. 491–A we further stated that the rate at which emergency volumes were committed to interstate pipelines would be subject to regulatory review subject to sections 4 and 5 of the Natural Gas Act. Finally, the order provided that interested persons could promptly file written comments concerning these emergency measures, and the Commission would issue a further order in light of those comments.

On October 3, 1973, the United States Court of Appeals for the District of Columbia Circuit stayed Order No. 491 pending final action by the Commission after receipt of the public comments invited by Order No. 491–A.[4]

On November 2,1973, we issued Order No. 491–B, reaffirming the extension of the emergency purchase period to 180 days. In such order we observed that in our judgment "an enlargement of the exemption period from 60 days to 180 days will elicit new gas supplies that would not otherwise be available to interstate consumers for the 1973–74 winter heating season." We, therefore, concluded that the public interest required the implementation of the exempted procedures of section 7(c) of the Natural Gas Act.

Consumers Federation of America sought rehearing of this order and a stay of its effectiveness pending judicial review. On November 21, 1973, we issued Order No. 491–C, denying the requested rehearing and stay. Consumers Federation of America also sought a stay of Order No. 491–B from the U.S. Court of Appeals for the District of Columbia Circuit which was granted December 10, 1973. On December 20, 1973, the Supreme Court of the United States vacated this stay.[5]

Following briefing on the merits of Order Nos. 491, et seq., the United States Court of Appeals for the District of Columbia Circuit heard oral arguments on November 26, 1974. As of this date no decision by such court has been reached regarding the legality of the orders in question.

The Commission is currently faced with a drastic increase in curtailments. A report issued by our Bureau of Natural Gas on November 15, 1974,[6] projects that natural gas supply deficiencies for major interstate natural gas pipeline companies will be 107 percent greater this winter than they were last winter. Regarding firm curtailments, the anticipated supply deficiencies for September 1974 through August 1975, exceed the actual curtailments for the preceding year by 996,234,000 Mcf or 73.15% with 19 pipelines reporting actual firm curtailments.[7] Regarding curtailment of interruptible sales, the anticipated supply deficiencies for September 1974 through August 1975 will result in anticipted curtailment of over 58% of interruptible loads during that time period. Thus, it is readily apparent that the gas supply deficiency has grown in magnitude and now threatens immediate harm to the entire consuming public. These supply deficiencies with the resulting curtailments presently threaten many segments of our economy. Judging by the numerous requests we constantly receive requesting extraordinary relief from curtailment on numerous pipeline systems, curtailments of gas are forcing industrial plant closings and layoffs, reduced production, denial of utility service to new customers, and utilization by industry and electric utilities of alternate fuels which impact upon ambient air quality standards.[8] Petitions for extraordinary relief have been filed to forestall layoffs, plant shutdowns, and production cutbacks involving such products as steel (see *e.g.* Initial Decision On Petition For Extraordinary Relief, Texas Eastern Transmission Corporation (Penn Fuel Gas, Inc.), Docket No. RP74–39–13, issued January 3, 1975); anhydrous ammonia used in the production of fertilizer (see *e.g.* Order Denying Interim Relief, Setting Hearing Procedures, And Granting Interventions, Northwest Pipeline Corporation (Reinchhold Chemicals, Inc.), Docket No. RP75–31–1, issued December 23, 1974, Initial Decision On Petition For Extraordinary Relief, United Gas Pipeline Company, Docket No RP74–37–11, issued December 27, 1974); and Order Granting Intervention, Denying Motion For Stay, Granting Application For Rehearing, And Reopening The Record, Texas Eastern Transmission Corporation (North Alabama Gas District), Docket No. RP74–39–9, issued December 20, 1974); glass (see *e.g.* Notice Of Petition For Extraordinary Relief, Transcontinental Gas Pipe Line Corporation (City of Laurens, South Carolina), Docket No. RP75–16–7, issued January 8, 1975); electrical components and electronic equipment (see *e.g.* Order Granting Extraordinary Relief And Setting Matter For Formal Hearing, Alabama-Tennessee Natural Gas Company, Docket No. RP75–44–1, issued December 26, 1974); aluminum (see *e.g.* Notice of Petition For Extraordinary Relief, Tennessee Gas Pipeline Company (Humphreys County Utility District), Docket No. RP74–91–16, issued January 8, 1975); and other products which are essential to the nation's economy. As can be seen, the total effect of the supply deficiency may seriously jeopardize our entire economy with catastrophic results.[9]

As a result the Commission would like to give serious consideration to reinstatement of emergency sales for a period of up to 180 days. Our reason for this consideration is the fact that our Order Nos. 491, et seq. were very successful in bringing supplies of natural gas to the interstate market that would otherwise not have been available during the 1973–1974 winter heating season. Under these orders there were over 500 sales made and over 172,000,000 Mcf committed to the interstate market between September 1973 and September 1974.[10] In the period between September 1972 and September 1973 the 60 day emergency sales only accounted for 89,000,000 Mcf of gas. Thus, the extension from 60 to 180 days for emergency sales accounted for over 80,000,000 Mcf of additional sales. Such additional volumes this winter would be of tremendous aid in eliminating at least a portion of the existing supply deficiencies and the resulting economic problems related to such deficiency.

Nevertheless, we believe that in view of the uncertainty over the legality of our past procedures which has been generated by the appeal of Order Nos. 491, et seq., an extension from 60 to 180 days for emergency sales at this juncture would be of questionable value in the elicitation of these needed additional supplies of gas.

We, therefore, shall request the Solicitor of the Commission to file a motion in the above-docketed proceeding requesting an expedited decision in this case.

The Commission finds:

Good cause exists to request the Solicitor to file a motion for an expedited deci-

[1] Paragraph (B) of Order issued December 26, 1974, in Docket Nos. RP71–107 (Phase II), PGA 75–1, RP72–127, RP74–9 and R&D 75–1. (1.56¢ reflected estimate PGA costs related to the proposed new flowing gas rates in Docket No. R–478 and .06 reflected costs associated with the Dallas Center Project, as proposed in Docket No. RP74–9)

[2] Paragraph (A) of Order issued December 26, 1974, in Docket Nos. RP71–107 (Phase II), PGA 75–1, RP72–127, RP74–9 and R&D 75–1.

[3] Second Substitute Fifth Revised Sheet No. 4a to Third Revised Volume No. 1 and First Substitute First Revised Sheet No. 502 and First Substitute Fourth Revised Sheet No. 1c to Original Volume No. 2 are to be effective December 27, 1974. Sixth Revised Sheet No. 4a to Third Revised Volume No. 1 and Second Revised Sheet No. 502 and Fifth Revised Sheet No. 1c to Original Volume No. 2 are to be effective December 28, 1974.

[1] Order No. 491, *et seq.* amended sections 2.68 and 2.70 of our General Policy and Interpretations and §§ 157.22 and 157.27 of our regulations under the Natural Gas Act.

[2] Such action was taken to encourage temporary sales by producers to interstate pipelines, thereby increasing the total gas available to the vital interstate market during the time of acute shortage.

[3] FPC Order No. 418, 44 F.P.C. 1574 (1970).

[4] *Consumer Federation of America, et al.* v. *F.P.C.*, No. 73–2009.

[5] *F.P.C.* v. *Consumer Federation of America, et al.*, No. A–608, December 20, 1973.

[6] See FPC Release No. 30849. This report was prepared on the basis of responses filed by 44 pipelines pursuant to Form No. 16, Report of Gas Supply Requirements. This report provides requirements and curtailment data for the period September 1973 through August 1974 and supply deficiency data for the period September 1974 through August 1975.

[7] The actual net firm curtailments for the 12 months period ending August 31, 1974, totalled 1,361,871,000 Mcf and the projected net firm curtailments from September 1974 through August 1975 total 2,358,105,000 Mcf.

[8] *See generally* Order Consolidating Proceedings, Modifying Previously Issued Orders, Granting Rehearing, Setting Hearings On Request For Interim Extraordinary Relief And For Permanent Extraordinary Relief, And Prescribing Procedures, *Transcontinental Gas Pipe Line Corporation* (Eastern Shore Natural Gas Company and Stauffer Chemical Company, Docket Nos. RP75–16–1 and RP75–17–1; Penn Fuel Gas, Inc. and New Jersey Zinc Company, Docket No. RP75–16–4; City of Linden, Alabama, Marengo Corporation, and Gulf States Paper Corporation, Docket No. RP75–16–5; City of Danville, Virginia, Docket No. RP75–16–6; The Commission of Public Works of the City of Laurens, South Carolina, Docket No. RP75–16–7; North Carolina Natural Gas Company and Farmers Chemical Association, Inc., Docket No. RP75–16–8), issued January 9, 1975; Order Granting Intervention, Denying Extraordinary Relief Pendente Lite, Providing For Hearing And Establishing Procedures, *Transcontinental Gas Pipe Line Corporation* (South Jersey Gas Company), Docket No. RP75–16–3, issued December 23, 1974.

[9] This is especially true when considering that natural gas now represents almost one third of the total energy consumed by the nation with one half of the gas being used for residential and commercial purposes, one-sixth for the generation of electricity, and one-third for industrial uses. See Project Independence Report, Federal Energy Administration, November 1974.

[10] This includes approximately 25,000,000 Mcf of sales made by intrastate pipelines to interstate pipelines.

V 40 16 JAN 23 75 XUM

sion in Consumer Federation of America, et al. v. F.P.C., D.C. Cir. No. 73-2009

The Commission orders:

The Solicitor shall file a motion for an expedited decision in Consumer Federation of America, et al. v. F.P.C., D.C. Cir. No. 73-2009.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9209]

WESTERN MASSACHUSETTS ELECTRIC CO.

Notice of Rate Schedule Amendment

JANUARY 17, 1975.

Take notice that Western Massachusetts Electric Company (WMECO) on January 6, 1975, tendered for filing a proposed amendment to its rate schedule designated FPC Electric Tariff Volume No. 1. The proposed amendment is intended to recognize that, effective December 1, 1974, the City of Westfield, Massachusetts Gas and Electric Department, a wholesale customer of WMECO, became entitled to purchase a portion of its electric requirements out of Boston Edison Company's nuclear generating unit, known as Pilgrim No. 1. In order that WMECO's rate schedule properly recognizes that Westfield's purchase out of Pilgrim No. 1 commenced on December 1, 1974, WMECO has requested waiver of the Commission's customary notice period to permit the amendment to take effect as of December 21, 1974, the date on which WMECO's Electric Tariff became effective, subject to refund.

Copies of the filing were served upon the City of Westfield, Massachusetts Gas and Electric Department.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

TEXAS COMMERCE BANCSHARES, INC.

Order Amending Requirement for Divestiture of Interest in Permian Bank & Trust

By Order dated Novemebr 28, 1972 (37 FEDERAL REGISTER 25884), the Board approved an application of Texas Commerce Bancshares, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, to acquire all of the voting shares of American Bank of Commerce, Odessa, Texas. The Board Order required divestiture of Applicant's interest in Permian Bank & Trust, Odessa, Texas, within two years from the effective date of the acquisition of shares of American Bank of Commerce. The acquisition of American Bank by Applicant was consummated on January 8, 1973.

By letter dated December 30, 1974, Applicant requested that the Board grant an extension of time during which shares held in Permian Bank & Trust may be divested. Applicant has indicated that active efforts to sell the shares are continuing.

On the basis of the information presented, the Board has concluded that the request should be granted. Accordingly, the Board's Order of November 28, 1972, is hereby amended to authorize retention of the shares held in Permian Bank & Trust subject to the condition that Applicant divest such shares at the earliest possible date but in no event later than April 8, 1975.

By order of the Board of Governors,[1] effective January 13, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-2)]

AEROSPACE SAFETY ADVISORY PANEL

Meeting

Meeting of Aerospace Safety Advisory Panel, February 5, 1975, NASA Headquarters, Room 7002, capacity—60, 400 Maryland Avenue, SW, Washington, D.C.

The Panel is to review safety studies and operations plans referred to it and shall make reports thereon, shall advise the Administrator with respect to the hazards of proposed or existing facilities and proposed operations and with respect to the adequacy of proposed or existing safety standards, and shall perform such other duties as the Administrator may request.

Pursuant to carrying out its statutory duties, the Panel will review, evaluate and advise on those program management policies, management systems, procedures and practices that contribute to risk identification and assessment by management. Priority shall be given to those programs that involve the safety of manned flight.

The chairman of the Panel is Mr. Howard K. Nason. The other members are: Hon. Frank C. Di Luzio, Mr. Herbert E. Grier, Lt. Gen. Warren D. Johnson, USAF, Dr. Henry Reining, Jr., Dr. Ian M. Ross, Mr. Lee R. Scherer, and Dr. Charles D. Harrington.

The contact for further information is Carl R. Praktish, Executive Secretary, Aerospace Safety Advisory Panel, 400 Maryland Avenue, SW., Washington, D.C. 20546 (Phone: Area Code 202, 755-8436).

The Panel will convene at 2:30 p.m. to discuss with the Deputy Administrator a summary of its fact-finding activities to date and the resultant conclusions and recommndations on the ASTP program. At that time, the Panel will present its written report to the Administrator for further detailed consideration. The meeting will continue as long as necessary to accomplish its purpose.

This announcement is late because of the unanticipated delays in the data collection and the need to submit the report as early as possible.

Dated: January 21, 1975.

BOYD C. MYERS II,
Assistant Associate Administrator for Organization and Management.

[Notice (75-1)]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL

Panel on Aeronautical Operating Systems, Ad Hoc Panel on Terminal Configured Vehicles

The NASA Research and Technology Advisory Council, Panel on Aeronautical Operating Systems, Ad Hoc Pancl on Terminal Configured Vehicles will meet on February 11-12, 1975, at the NASA Langley Research Center, Hampton, Virginia 23665. The meeting will be held in Room 247 of Building 1202, Visitor Center. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room, which is about 50 persons. All visitors must report to the Receptionist in Building 1202.

The NASA Research and Technology Advisory Council Ad Hoc Panel on Terminal Configured Vehicles serves in an advisory capacity only. The current Chairman is Mr. Ralph L. Erwin, Jr., and there are 10 members. The following list sets forth the approved agenda and schedule for the February 11-12, 1975, meeting of the Ad Hoc Panel on Terminal Configured Vehicles.

For further information, please contact Mr. Kenneth E. Hodge, Area Code 202, 755-2375.

FEBRUARY 11, 1975

Time	*Topic*
8:30 a.m.	Reports of Chairman and Executive Secretary (Purpose: To summarize action taken at the October 1974 meeting of the Research and Technology Advisory Council Panel on Aeronautical Operating Systems and at the November 1974 meeting of the Research and Technology Advisory Council.)
9:30 a.m.	NASA's Long-Range Aeronautical Planning Activities (Purpose: To brief the Panel on NASA's "Outlook for Aeronautics" study and to obtain comments on participation by members in this study.)
10:30 a.m.	Progress Report on Implementation of Recommendations Made at Last Meeting (Purpose: To brief the Panel on NASA's progress in implementing previous recommendations and to afford an opportunity to discuss these actions.)
11 a.m.	Project "Speckled Trout" (Purpose: To inform the Panel of the nature and scope of the Air Force's research program designed to advance the technology for low-visibility terminal-area operations of military aircraft.)
1:30 p.m.	NASA Short-Takeoff-and-Landing (STOL) Aircraft Operating Systems Experiments (Purpose: To provide elaboration on a related NASA program which was discussed briefly at a previous meeting and to discuss coordination efforts.)
2:30 p.m.	Members' Reports (Purpose: To provide an opportunity for Panel members to report on items which are of interest to NASA and relate to the responsibilities of this Panel.)
3 p.m.	MITRE Corporation Report (Purpose: To report what medium-term and long-term improvements can be expected from the Federal Aviation Administration's research, engineering, and development programs to produce the needed air traffic control capacity and productivity at major terminals.)
4 p.m.	Terminal-Area Research and Development (Purpose: To report on terminal-area research and development activities at the Massachusetts Institute of Technology.)

FEBRUARY 12, 1975

Time	*Topic*
8 a.m.	Report on Flight Experiments to Date (Purpose: To report results and to obtain Panel comments on the flight experiments which have been conducted since the last Panel meeting.)
9 a.m.	Landing Display Research and Simulation Results (Purpose: To describe landing display simulation experiments, report results, and obtain Panel comments on this effort.)
10:30 a.m.	Near-Term Program Objectives (Purpose: To obtain Panel comments on the content and priorities of simulation and flight experiments planned for the near future.)
11:30 a.m.	Formulation of Panel Recommendations (Purpose: To document recommendations and observations to be reported to the Research and Technology Advisory Council and NASA officials.)
1:30 p.m.	General Discussions (Purpose: To afford the Panel and other attendees an opportunity to discuss matters relating to the Panel's responsibilities.)
2:30 p.m.	Inspection of the NASA B-737 Aircraft and Simulation Facilities.
4:30 p.m.	Adjournment.

BOYD C. MYERS, II,
Assistant Associate Administrator for Organization and Management.

JANUARY 16, 1975.

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

NOTICE OF MEETING

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will

V40 16 JAN 23 75 XUM

be held on February 14, 1975 from 9 a.m.–5 p.m. and February 15, 1975 from 9 a.m.–4 p.m. The meeting will be held at 425 Thirteenth Street, NW., Suite 1012, Washington, D.C. 20004.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The meeting will include Subcommittee hearings and a reviewing of the Council's 1975 Annual Report draft.

Because of limited space, all persons wishing to attend should call for reservations by February 7, 1975, Area Code 202/382–6945.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425 Thirteenth Street, NW., Suite 1012, Washington, D.C.

Signed at Washington, D.C. on January 17, 1975.

ROBERTA LOVENHEIM,
Executive Director.

U.S. NUCLEAR REGULATORY COMMISSION

[Docket No. P–527–A]

LOUISIANA POWER AND LIGHT CO.

Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

The Louisiana Power and Light Company, pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated December 20, 1974, in connection with their plans to construct and operate two generating units utilizing two high temperature gas-cooled reactors. Each reactor will be designed for initial operation at approximately 3000 megawatts (thermal), with a net electrical output of approximately 1160 megawatts. The facility, designated as the St. Rosalie Generating Station, Units 1 and 2, will be located on the west bank of the Mississippi River at Alliance in Plaquemines Parish, Louisiana. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed in April 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Docket No. P–527–A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 17, 1975.

Dated at Bethesda, Maryland, this 10th day of January 1975.

For the Atomic Energy Commission.

ROBERT A. CLARK,
Chief, Gas Cooled Reactors Branch, Directorate of Licensing.

[Docket No. P–556–A]

OMAHA PUBLIC POWER DISTRICT

Partial Application for Construction Permit and Facility License: Time for Submission of Views on Antitrust Matters

Omaha Public Power District (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated November 15, 1974, in connection with their plans to construct and operate a pressurized water nuclear reactor to be located at a site near Blair, Nebraska, in Washington County. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report pursuant to § 2.101 of Part 2, is expected to be filed during July 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., 20545. Docket No. P–556–A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing on or before March 17, 1975.

Dated at Bethesda, Maryland, this 9th day of January 1975.

For the Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Project Branch 1–2, Directorate of Licensing.

[FR Doc.75–1302 Filed 1–15–75;8:45 am]

[Docket No. P–537–A]

TENNESSEE VALLEY AUTHORITY

Notice of Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

Tennessee Valley Authority (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated December 20, 1974, in connection with its plans to construct and operate two nuclear reactors at a site to be selected in the near future. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed during October 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., 20545. Docket No. P–537–A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 24, 1975.

Dated at Bethesda, Maryland, this 13th day of January, 1975.

For The Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1–2, Directorate of Licensing.

[FR Doc.75–1823 Filed 1–22–75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Notice of Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards will hold a meeting on February 6–8, 1975, in Room 1046, 1717 H Street NW., Washington, D.C.

[NOTE: Pursuant to the Energy Reorganization Act of 1974 (Pub. L. 93–438) and Executive Order 11834, dated January 15, 1975, the Atomic Energy Commission is abolished, effective January 19, 1975, and the Advisory Committee on Reactor Safeguards is transferred to the Nuclear Regulatory Commission (NRC)].

The following constitutes that portion of the Committee's agenda for the above meeting which will be open to the public:

Thursday, February 6, 1975, 3:30 p.m.–7:00 p.m.: Atlantic Nuclear Generating Station and Floating Nuclear Plant Units 1–8—The Committee will hear presentation by and hold discussions with representatives of the Nuclear Regulatory Commission, and the applicants (Public Service Electric and Gas Company of New Jersey and Offshore Power Systems) pertinent to the issuance of a Construction Permit for the Atlantic Generating Station and a Manufacturing Permit for the Floating Nuclear Plant Units 1–8. Portions of this session will be closed if required to discuss proprietary information related to the design, construction and/or operation of these plants. Closed sessions will also be held if necessary to discuss security arrangements for these facilities and for Committee deliberative sessions.

Friday, February 7, 1975, 9:30 a.m.–1:00 p.m.: Salem Nuclear Generating Station—The Committee will hear presentations by and hold discussions with representatives of the Public Service Gas & Electric Company related to the request for an Operating License for this station.

Portions of this session will be closed if required to discuss proprietary information related to the design, construction and/or operation of this station and to discuss security arrangements for this plant. Closed portions will also be held for Committee deliberative sessions.

2:00 p.m.–3:00 p.m.: Meeting with NRC Staff—The Committee will meet with representatives of the NRC Staff to discuss recent reactor operating experience, recent licensing actions and operator retraining programs.

3:30 p.m.–7:00 p.m.: Bryan/Braidwood Stations—The Committee will hear presentations by and hold discussions with representatives of the Commonwealth Edison Company and the Nuclear Regulatory Commission Staff pertinent to the request for construction permits for these stations.

Portions of this session will be closed if required to discuss proprietary information related to the design, construction, and/or operation of these stations, and the security arrangements for these plants.

Closed sessions will also be held for Committee deliberative sessions.

It should be noted that, in addition to the closed portions of the agenda items noted above, the Committee will hold other sessions not open to the public under the authority of section 10(d) of Pub. L. 92–463 (the Federal Advisory Committee Act), to consider the above applications and other matters. I have determined in accordance with subsection 10 (d) of Pub. L. 92–463 that it is necessary to close such portions of the meeting to protect proprietary data (5 U.S.C. 552 (b)(4)), and to protect the free interchange of internal views to avoid undue interference with agency or Committee operation (5 U.S.C. 552(b)(5)). Any nonexempt material that may be discussed during the closed portions of the meeting will be inextricably intertwined with discussion of exempt material and no further separation is practical. Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Committee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than January 29, 1975, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Such written comments shall be based on documents related to the agenda items noted above, and related documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and as follows:

Salem Station
Miss Elizabeth Fogg, Librarian
Salem Free Public Library
112 West Broadway
Salem, New Jersey 08079

Atlantic Generating Station/Floating Nuclear Plant
Stockton State College Library
Pomona, New Jersey

Jacksonville Public Library
122 North Ocean Street
Jacksonville, Florida 32204

Business and Science Division
New Orleans Public Library
219 Loyola Avenue
New Orleans, Louisiana 70140

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Committee. To the extent that the time available for the meeting permits, the Committee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Committee.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Committee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting or portions of the meeting have been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on February 5, 1975, to the Office of the Executive Secretary of the Committee (Telephone: 202–634–1371) between 8:30 a.m. and 5:15 p.m., Eastern Time. It should be noted that the schedule noted above is tentative, based on the anticipated availability of related information, etc. It may be necessary to reschedule items during the same day to accommodate required changes. The ACRS Executive Secretary will be prepared to describe these changes on February 5, 1975.

(e) Questions may be propounded only by members of the Committee and its consultants.

(f) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(g) Persons desiring to attend portions of the meeting where proprietry information is being discussed may do so by providing to the Executive Secretary 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information providing for access to this information.

(h) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. on or after May 10, 1975. Copies may be obtained upon payment of appropriate charges.

JOHN C. HOYLE,
Acting Secretary of the Commission.

[811–1198]

PLICO FUND, INC.

Filing of Application; Order Declaring That Company Has Ceased To Be an Investment Company

JANUARY 16, 1975.

Notice is hereby given that Plico Fund, Inc., Provident Life Building, 316 North Fifth Street, Bismarck, North Dakota ("Applicant") registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, has filed an application on December 11, 1974, pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that pursuant to a Plan and Agreement of Reorganization adopted by shareholders on July 2, 1974, substantially all of the assets of the Fund were transferred on July 10, 1974, to Charter Fund, Inc. ("Charter") in exchange for shares of common stock of Charter. Applicant no longer has any assets, all of its former shareholders have become shareholders of Charter, and Articles of Dissolution of the Fund were filed with the Maryland Department of Assessments and Taxation on September 19, 1974.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 10, 1975, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, and the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 10, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75–2083 Filed 1–22–75;8:45 am]

[811–1928]

RINFRET FUND, INC.

Proposal To Terminate Registration

JANUARY 16, 1975.

Notice is hereby given that the Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 ("Act"), to declare by order on its own motion that The Rinfret Fund, Inc. c/o Phoenix Capital Fund, Inc., one American Row, Hartford, Connecticut, 06115 ("Fund"), registered under the Act as an open-end, diversified, management investment company has ceased to be an investment company as defined in the Act.

Information in the Commission's files indicates that Fund was organized as a Delaware corporation on August 1, 1969, and registered under the Act by filing a Form N–8A Notification of Registration on August 22, 1969. At a special meeting of Fund's shareholders held on December 19, 1973, and adjourned to January 11, 1974, a resolution was adopted which provided that Fund be merged with and into Phoenix Capital Fund, Inc. ("Phoenix") a Maryland corporation registered under the Act as an open-end investment company. The effective date of the merger was January 21, 1974, at which time Phoenix exchanged certain of its shares for all of the assets of Fund. Such shares were distributed to Fund's shareholders. Fund filed the Articles and Agreement of Merger with the Office of the Secretary of State of Delaware on January 21, 1974. Fund presently has no assets, no liabilities and no stockholders.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 10, 1975, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, and the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Fund at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

PACIFIC VENTURE CAPITAL, LTD.

Application for a License as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Pacific Venture Capital, Ltd. (applicant) with the Small Business Administration (SBA) pursuant to 13 CFR 107.102 (1974).

The officers and directors of the applicant are as follows:

Wilfred W. S. Young,
1650 Liliha Street,
Honolulu, Hawaii 96817, Chairman and Director.

Michael J. Coy,
741 Pahumele Place,
Kailua, Hawaii 96734, President.

Dexter J. Taniguchi,
94-1153 Hinaea Street,
Waipahu, Hawaii 96797, Vice President and Treasurer.

Arleen A. Tanita,
47-281E Hui Iwa Street,
Kaneohe, Hawaii 96744, Secretary.

James L. Swenson,
94-361 Noholoa Loop,
Wahiawa, Hawaii 96789, Director.

Kenneth N. Sumimoto,
1544 Ulupuni Street,
Kailua, Hawaii 96734, Director.

The applicant will maintain its principal place of business at 1427 Dillingham Boulevard, Suite 210, Honolulu, Hawaii 96817.

It will begin operations with $700,000 of paid-in capital and surplus consisting of $500,000 of Model Cities grant funds and $200,000 of private funds. All of the applicant's outstanding stock consisting of 700,000 shares of common stock will be owned by the Hawaii Economic Development Corporation (HEDCO). HEDCO is a nonprofit corporation funded by Model Cities funds.

As a small business investment company under section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Any persons may, on or before February 7, 1975, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Honolulu, Hawaii.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

Dated: January 15, 1975.

U.S. INFORMATION AGENCY

U.S. ADVISORY COMMISSION ON INFORMATION

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting to be held on February 3, 1975. The session will commence at 9:15 a.m. in Room 660 at 1776 Pennsylvania Avenue, NW., Washington, D.C., and will be devoted to a presentation by USIA's Information Center Service of its major programs. A summary of the agenda follows:

1. Philosophy and purpose of the programs.
2. Exhibits.
3. Book publication and promotion.
4. Information center support and management including English teaching, libraries, and American studies.
5. Change in emphasis from technique to subject in:
   a. Science and technology.
   b. Political and security affairs.
   c. Arts and humanities.
   d. Political and social processes.
   e. Economics.
6. Bicentennial plans.

This session will be open to the general public. Persons wishing to attend the Commission's meeting should contact Mr. Louis T. Olom, Staff Director, U.S. Advisory Commission on Information, Room 1008, 1750 Pennsylvania Ave, NW., Washington, D.C. 20547, so that adequate space will be assured. Written statements concerning topics set forth in the agenda should also be submitted to Mr. Olom.

MARGARET J. MILLER,
Federal Register Liaison Officer.

PRESIDENTIAL CLEMENCY BOARD

NOTICE OF MEETINGS

JANUARY 21, 1975.

Notice is hereby given, pursuant to the provisions of the Federal Advisory Committee Act of 1972, that meetings of the Presidential Clemency Board will be held on February 6-8 and February 20-22, 1975, at 9:00 a.m., in Room 459, Old Executive Office Building, Washington, D.C.

These meetings will not be open to the public since (1) the Board will discuss matters related solely to its internal personnel and practices under 5 U.S.C. 522 (b)(2), and (2) will examine personnel and similar files, disclosure of which would constitute an unwarranted invasion of privacy under (b)(6) of the same section.

CHARLES E. GOODELL,
Chairman.

DETERMINATION PURSUANT TO SECTION 10(d) OF THE FEDERAL ADVISORY COMMITTEE ACT CONCERNING MEETINGS OF THE PRESIDENTIAL CLEMENCY BOARD

JANUARY 21, 1975.

By authority of section 10(d) of Pub. L. 92-463, the Federal Advisory Committee Act, as delegated by section 3 of Executive Order 11769, it is hereby determined that for the reasons set forth in the attached Presidential Clemency Board Notice of Meetings, the meetings ascribed therein will concern matters within section 552 (b)(2) and (b)(6) of Title 5, United States Code, and therefore shall not be open to the public.

ROY L. ASH,
Director, Office of Management and Budget.

INTERSTATE COMMERCE COMMISSION

[Notice 680]

ASSIGNMENT OF HEARINGS

JANUARY 20, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after January 23, 1975.

Correction:

MC 61562 Sub 320, Jenkins Truckline, Inc., now assigned February 19, 1975, at Chicago, Ill., will be held in Room 1086A, Everett McKinley Dirksen Building, 219 S. Dearborn St., instead of January 19, 1975.

MC 107515 Sub 892, Refrigerated Transport Co., now assigned February 20, 1975, at Chicago, Ill., will be held in Room 1986A, Everett McKinley Dirksen Building, 219 S. Dearborn St., instead of January 20, 1975.

MC 124170 Sub 38, Frostway, Inc., MC 124170 Sub 41, now assigned February 24, 1975, at Chicago, Ill., will be held in Room 1086A, Everett McKinley Dirksen Building, 219 S. Dearborn St., instead of January 24, 1975.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

JANUARY 20, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's gateway elimination rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 3, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 1197 (Sub-No. E1), filed May 13, 1974. Applicant: NORTHWEST TRANSPORT SERVICE, INC., 5231 Monroe, Denver, Colo. 80216. Applicant's representative: Ira E. Neal (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between Denver, Colo., on the one hand, and, on the other, Salt Lake City, Utah. The purpose of this filing is to eliminate the gateway of Montrose, Colo.

No. MC 31462 (Sub-No. E21), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Arkansas on and north of a line beginning at the Mississippi River, thence along U.S. Highway 49 to junction U.S. Highway 79, thence along U.S. Highway 79 to Pine Bluff, Ark., thence along U.S. Highway 270 to Hot Springs, Ark., thence along U.S. Highway 70 to junction Arkansas Highway 8, thence along Arkansas Highway 8 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to the Arkansas-Oklahoma State line, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line, thence along Texas Highway 79 to junction U.S. Highway

V40 16 JAN 23 75 XUM

380, thence along U.S. Highway 380 to junction Highway 277, thence along U.S. Highway 277 to junction U.S. Highway 180, thence along U.S. Highway 180 to junction Texas Highway 70, thence along Texas Highway 70 to junction Interstate Highway 20, thence along Interstate Highway 20 to Big Springs, Tex., thence along U.S. Highway 87 to junction Texas Highway 33, thence along Texas Highway 33 to junction U.S. Highway 67, thence along U.S. Highway 67 to the International Boundary line between the United States and Mexico. The purpose of this filing is to eliminate the gateway of any point in Okmulgee County, Okla.

No. MC 31462 (Sub-No. E25), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Arkansas, on the one hand, and, on the other, points in Iowa. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any point within 50 miles thereof; and (2) Kansas City, Mo., or any point within 30 miles thereof.

No. MC 31462 (Sub-No. E128), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in North Dakota. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, or any points in Iowa within 50 miles thereof; and (2) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E129), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission between points in Indiana on the one hand, and, on the other, points in that part of Iowa on and west of a line beginning at the Iowa-Minnesota State line, thence along Iowa Highway 150 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction Iowa Highway 13, thence along Iowa Highway 13 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction Iowa Highway 1, thence along Iowa Highway 1 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Illinois State line. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, or any point within 50 miles thereof.

No. MC 31462 (Sub-No. E130), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line, thence along Texas Highway 24 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Texas Highway 90, thence along Texas Highway 90 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of (1) any point in Missouri within 25 miles of Cairo, Ill., and (2) any point in Okmulgee County, Okla.

No. MC 31462 (Sub-No. E132), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateway of any point in Missouri within 25 miles of Cairo, Ill.

No. MC 31462 (Sub-No. E133), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line, thence along Texas Highway 24 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Texas Highway 90, thence along Texas Highway 90 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of (1) any point in Missouri within 25 miles of Cairo, Ill., and (2) any point in Okmulgee County, Okla.

No. MC 31462 (Sub-No. E134), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, on the one hand, and, on the other, points in Kansas. The purpose of this filing is to eliminate the gateway of Kansas City, Mo., or any points within 30 miles thereof.

No. MC 31462 (Sub-No. E135), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Indiana on and north of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Indiana-Illinois State line, on the one hand, and, on the other, points in that part of Missouri on and north of a line beginning at the Missouri-Kansas State line, thence along U.S. Highway 54 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Missouri Highway 15, thence along Missouri Highway 15 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Missouri-Illinois State line. The purpose of this filing is to eliminate the gateway of any point in Missouri within 50 miles of Burlington, Iowa.

No. MC 31462 (Sub-No. E136), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Household goods, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the International Boundary line, between the United States and Canada, thence along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in Indiana. The purpose of this filing is to eliminate the gateway of (1) any point in North Dakota within 200 miles of Williston, N. Dak., and (2) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 123407 (Sub-No. E175), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor

vehicle, over irregular routes, transporting: *composition board, ceiling tile, materials*, and *accessories* used in the installation of composition board and ceiling tile (except lumber and commodities in bulk, and iron and steel commodities which because of their size or weight require the use of special equipment), from the facilities of Certain-Teed Corporation in Scott County, Minn., to points in Georgia, Virginia, West Virginia, Maryland, Delaware, New Jersey, Connecticut, Massachusetts, New Hampshire, Maine, New York, Jefferson, Love, Carter, Marshall, Bryan, Choctow, and McCurtain Counties, Okla., points in Texas except the Counties of Dallam, Sherman, Hansford, Ochiltree, Lipsoome, Hartley, Moore, Hutchingon, Roberts, Hemphill, Oldham, Potter, Carson, Gray, Wheeler, Deaf Smith, Randall, Armstrong, Donley, Collinsworth, Parmer, Castro, Swisher, Briscoe, Hall, Childress, Lamb, Hale, Floyd, Motley, Cottle, and Hardeman, and points in New Mexico except the Counties of San Juan, Rio Arriba, Taos, Colfax, Union, Harding, Mora, O'Day, San Miguel, and Sandoval. The purpose of this filing is to eliminate the gateway of that part of the Commercial Zone of Dubuque, Iowa, in Wisconsin.

No. MC 123407 (Sub-No. E179), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *composition board, ceiling tile, materials*, and *accessories* used in the installation of composition board, and ceiling tiles (except lumber and commodities in bulk), from Port Clinton, Ohio, to points in Colorado, New Mexico, and points in Texas, except the Counties of Red River, Bowie, Franklin, Titus, Cass, Morris, Camp, Wood, Upshur, Marion, Smith, Gregg, Harrison, Cherokee, Rusk, Panola, Shelby, Nacogdoches, Houston, San Augustine, Angelina, Sabine, Walker, Trinity, Polk, Tyler, Jasper, Newton, Orange, Jefferson, Chambers, Liberty, Hardin, San Jacinto, Montgomery, Harris, Fort Bend, Galveston, and Brazoria. The purpose of this filing is to eliminate the gateway of East Dubuque, Ill., and that part of the Commercial Zone of Dubuque, Iowa, within Illinois.

No. MC 31462 (Sub-No. E185), filed May 13 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Iowa on and east of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 65 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line, on the one hand, and, on the other, points in that part of Louisiana on and east of a line beginning at the Louisiana-Mississippi State line, thence along U.S. Highway 61 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 167, thence along U.S. Highway 167 to Abbeville, La., thence along Louisiana Highway 82 to Pecan Island, La. The purpose of this filing is to eliminate the gateway of (1) Cairo, Ill., or any point in Illinois within 25 miles thereof; (2) Gulfport, Miss., or any point in Mississippi within 35 miles thereof.

No. MC 31462 (Sub-No. E186), filed May 13 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in that part of Texas, on and south of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 62 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Texas Highway 86, thence along Texas Highway 86 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of (1) Kansas City, Mo., or any point within 30 miles thereof, and (2) any point in Okmulgee County, Okla.

No. MC 31462 (Sub-No. E187), filed May 13 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateway of Kansas City, Mo., or any point within 30 miles thereof.

No. MC 31462 (Sub-No. E189), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, from points in New York City, N.Y., to points in New Hampshire. The purpose of this filing is to eliminate the gateway of Lowell, Mass.

No. MC 113459 (Sub-No. E68), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (1) *Machinery, equipment, materials, and supplies* incidental to or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in Texas, on the one hand, and, on the other, points in Illinois (points in Oklahoma)*;

(B) (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Parts of commodities*, which, by reason of size or weight, require the use of special equipment, either when incidental to the transportation of such commodities, or when transported as separate and unrestricted shipments; (3) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; (4) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products (except the stringing and picking up of pipe in connection with main or trunk pipelines); (5) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (6) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in Kansas on and south of U.S. Highway 160, on the one hand, and, on the other, points in Nebraska (points in Oklahoma)*;

(C) (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Parts of commodities*, which, by reason of size or weight, require the use of special equipment, either when incidental to the transportation of such commodities, or when transported as separate and unrestricted shipments; (3) *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies when moving in connection therewith; between points in that part of Nebraska on and west of U.S. Highway 83, on the one hand, and, on the other, points in that part of New Mexico on and south of a line beginning at the New Mexico-Oklahoma State line and extending along U.S. Highway 56 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with New Mexico Highway 90, thence along New Mexico Highway

90 to its junction with Interstate Highway 10, thence along Interstate Highway 10 to the New Mexico-Arizona State line (points in Oklahoma)*; and (D) (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (2) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in Nebraska on and west of U.S. Highway 83, on the one hand, and, on the other, points in Lea and Eddy Counties, N. Mex. (points in Oklahoma)*. Restriction: The operations authorized in (B) (1) and (2), and (C) (1) and (2) above are restricted against the transportation of those commodities used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of main or trunk pipelines and against the transportation of farm machinery, and the operations authorized in (B) (3) and (C) (3) above are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113459 (Sub-No. E69), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Metal tubing and pipe* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products (except the stringing and picking up of pipe in connection with main or trunk pipelines; (2) *Metal tubing and pipe*, incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; and (3) *Metal tubing and pipe*, the transportation of which, by reason of size or weight, require the use of special equipment; from points in Nebraska to points in Georgia; from points in North Dakota to points in Alabama and Mississippi; and from points in Montana to points in Alabama, Georgia, and Mississippi. Restriction: The operations authorized in (3) above are restricted against the transportation of those commodities used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe or trunk pipelines and against the transportation of farm machinery. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 113459 (Sub-No. E70), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (1) *Metal tubing and pipe*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products (except the stringing and picking up of pipe in main or trunk pipelines); (2) *Metal tubing and pipe*, incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; and (3) *Metal tubing and pipe*, the transportation of which, by reason of size or weight, require the use of special equipment; from points in South Dakota to points in Alabama, Georgia, and Mississippi (points in Oklahoma)*; (B) (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Parts of commodities*, which, by reason of size or weight require the use of special equipment, either when incidental to the transportation of such commodities, or when transported as separated and unrestricted shipments; and (3) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in South Dakota, on the one hand, and, on the other, points in that part of New Mexico on and south of a line beginning at the New Mexico-Colorado State line and extending along Interstate Highway 25 to its junction with U.S. Highway 64, thence along U.S. Highway 64 to its junction with New Mexico Highway 30, thence along New Mexico Highway 30 to its junction with New Mexico Highway 4, thence along New Mexico Highway 4 to its junction with New Mexico Highway 44, thence along New Mexico Highway 44 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to the New Mexico-Arizona State line (points in Oklahoma)*;

(C) (1) *Machinery, equipment, materials and supplies* incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *Earth drilling machinery and equipment*, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in South Dakota, on the one hand, and, on the other, points in Lean Eddy County, N. Mex. (points in Oklahoma)*; (D) (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Parts of commodities*, which, by reason of size or weight, require the use of special equipment, either when incidental to the transportation of such commodities, or when transported as separate and unrestricted shipments; and (3) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in North Dakota, on the one hand, and, on the other, points in that part of New Mexico on and south of a line beginning at the New Mexico-Arizona State line and extending along Interstate Highway 40 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with U.S. Highway 64, thence along U.S. Highway 64 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to the New Mexico-Colorado State line (points in Oklahoma)*;

(E) (1) *Machinery, equipment, materials, and supplies* incidental to or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for

V40I16 JAN23 75 XUM

the transmission of natural gas, petroleum, their products, and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in North Dakota, on the one hand, and, on the other, points in Lea and Eddy Counties, N. Mex. (points in Oklahoma)*; (F) (1) *Commodities*, the transportation of which, by reason or size or weight, require the use of special equipment; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in Utah, on the one hand, and, on the other, points in the Lower Peninsula of Michigan (points in Oklahoma) and Illinois)*; and

(G) (1) *Machinery, equipment, materials, and supplies* incidental to or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipeline used for the transmission of natural gas, petroleum, their products, and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in Lea and Eddy Counties, N. Mex., on the one hand, and, on the other, points in Illinois (points in Oklahoma)*. Restriction: The operations authorized in (A) (3), (B) (1), and (2), and (D) (1) and (2) above are restricted against the transportation of those commodities used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of main or truck pipelines, and against the transportation of farm machinery; the operations authorized in (B) (3) and (D) (3) above are restricted to commodities which are transported on trailers; and the operations authorized in (F) above are restricted against the transportation of agricultural machinery and agricultural tractors. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113459 (Sub-No. E71), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (A) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; and (B) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products (except the stringing and picking up of pipe in connection with main or trunk pipelines; between points in Colorado, on the one hand, and, on the other, points in Alaska (points in Wyoming)*; (2) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; between points in Alaska, on the one hand, and, on the other, points in Missouri (points in Kansas and Wyoming)*; and (3) *Machinery, equipment, materials, and supplies* used in, or in connection with, discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products (except in connection with main or trunk pipelines), and *machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines (except in connection with main or trunk pipelines); between points in Colorado, on the one hand, and, on the other, points in that part of South Dakota on, north, and west of a line beginning at the Wyoming-South Dakota State line and extending along U.S. Highway 14 to the Missouri River, thence along the Missouri River to the North Dakota-South Dakota State line (points in Colorado east of U.S. Highway 87)*; and between points in Colorado on the one hand, and, on the other, points in that part of North Dakota on and west of North Dakota Highway 30 (points in Colorado east of U.S. Highway 87)*. Restriction: The operations authorized in (2) above are restricted against the transportation of agricultural machinery and agricultural tractors. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 114019 (Sub-No. E271), filed May 24, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware, glass containers, and closures* thereof and *accessories* therefore, and *paper cartons* used in the packing and shipping of glass articles, all of which are used in the retail food or household supply business, from Richmond, Indiana, to points in Atchinson, Brown, Clay, Cloud, Doniphan, Douglas, Jackson, Jefferson, Leavenworth, Marshall, Nemaha, Pottawatomie, Republic, Riley, Shawnee, and Washington Counties, Kans. The purpose of this filing is to eliminate the gateway of St. Joseph, Mo.

No. MC 114019 (Sub-No. E272), filed May 24, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), in mechanically refrigerated vehicles, from the facilities of Wilson & Co., Inc., at Monmouth, Ill., to points in Minnesota, Wisconsin, Virginia, West Virginia, Bowling Green, Ky., and those points in Kentucky on and east of U.S. Highway 127, Nashville, Tenn., Detroit, Grand Rapids, St. Joseph, Benton Harbor, Niles, Buchanan, Sturgis, and Three Rivers, Mich. The purpose of this filing is to eliminate the gateways of Muscatine, Iowa, Evansville, Jeffersonville, and Gary, Ind., and Union City, Ohio.

No. MC 114019 (Sub-No. E273), filed May 24, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared and preserved foodstuffs*, except canned foods, frozen foods, and commodities in bulk, in tank vehicles, (a) from points in Maryland and Delaware to Denver, Colo., and points in that part of Nebraska on and east of a line beginning at the Kansas-Nebraska State line and extending along U.S. Highway 83 to its junction with U.S. Highway 30 to the Missouri River, and points in Kansas on and east of U.S. Highway 281; and (b) from points in Delaware, and those in Maryland on and east of U.S. Highway 15 to points in West Virginia in and west of Hancock, Brooke, Ohio, Marshall, Wetzel, Tyler, Ritchie, Calhoun, Roane, Kanawha, Boone, Logan, and Mingo Counties. The purpose of this filing is to eliminate the gateways of Effingham, Ill., and Bridgeport, Ohio.

No. MC 114211 (Sub-No. E404), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from points in that part of Minnesota on and southeast of a line beginning at the Wisconsin-Minnesota State line, thence along Interstate Highway 94 to junction Interstate Highway 35W, thence along Interstate Highway 35W to junction Interstate Highway 35, thence along Interstate Highway 35 to the Minnesota-Iowa State line to points in Washington, Oregon, California, Nevada, Idaho, Arizona, Utah, Montana, Wyoming, North Dakota, New Mexico, and to points in that part of Maine on and east of a line beginning at Newagen, Maine, thence along Maine Highway 27 to junction U.S. Highway 202, thence along U.S. Highway 202 to junction U.S. Highway 201, thence along U.S. Highway 201 to the Maine-Canada International Boundary line, and to points in Florida-Canada International Boundary line, and to points in Florida on and south of a line beginning at Punta Russa, Fla., thence along Florida Highway 867 to junction Florida Highway 80, thence along Florida Highway 80 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction Florida Turnpike, thence along Florida Turnpike to junction Florida Highway 710, thence along Florida Highway 710 to Riveria Beach, Fla., and to points in that part of Louisiana on and southwest of a line beginning at the Gulf of Mexico, thence along Louisiana Highway 317 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 171, thence along U.S. Highway 171 to junction Interstate Highway 20, thence along Interstate Highway 20 to the Louisiana-Texas State line, and to points in that part of Texas on and south of a line beginning at the Arkansas-Texas State line.

Thence along U.S. Highway 67 to junction U.S. Highway 380, thence along U.S. Highway 380 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Texas-Oklahoma State line and to points in that part of Oklahoma on and west of the Texas-Oklahoma State line, thence along Interstate Highway 35 to junction Oklahoma Highway 7, thence along Oklahoma Highway 7 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Oklahoma Highway 34, thence along Oklahoma Highway 34 to junction U.S. Highway 270, thence along U.S. Highway 270 to the Oklahoma-Kansas State line, and to points in that part of Kansas on and southwest of a line beginning at the Oklahoma-Kansas State line, thence along U.S. Highway 83 to junction Kansas Highway 96, thence along Kansas Highway 96 to the Kansas-Colorado State line, and to points in that part of Colorado southwest of a line beginning at the Nebraska-Colorado State line, thence along Colorado Highway 113 to junction U.S. Highway 138, thence along U.S. Highway 138 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Colorado Highway 63, thence along Colorado Highway 63 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Colorado Highway 59, thence along Colorado Highway 59 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line, and to points in that part of Nebraska on and southwest of a line beginning at the Nebraska-Colorado State line, thence along Nebraska Highway 19 to junction U.S. Highway 30.

Thence along U.S. Highway 30 to junction Nebraska Highway 71, thence along Nebraska Highway 71 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Nebraska-Wyoming State line, and to points in that part of South Dakota on and north of a line beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 85 to junction Alternate U.S. Highway 14, thence along Alternate U.S. Highway 14 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction South Dakota Highway 20, thence along South Dakota Highway 20 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 12, thence along U.S. Highway 12 to the South Dakota-Minnesota State line, with no transportation for compensation on return except as otherwise authorized, restricted against the transportation to points in Maine of agricultural implements and machinery as defined in Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, 292. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E411), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pipe and fittings therefor* when moving with such pipe, from points in that part of Michigan on and north of a line beginning at Muskegon, Mich., thence along Interstate Highway 96 to junction Michigan Highway 21, thence along Michigan Highway 21 to Mackinaw City, Mich., to points in Colorado, New Mexico, Nebraska, and to points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 75 to the Oklahoma-Texas State line, and to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 75 to junction Texas Highway 14, thence along Texas Highway 14 to junction Texas Highway 6, thence along Texas Highway 6 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico, and to points in that part of South Dakota on and south of a line beginning at the Iowa-South Dakota State line, thence along Interstate Highway 29 to junction South Dakota Highway 50, thence along South Dakota Highway 50 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 16, thence along U.S. Highway 16 to the South Dakota-Wyoming State line, and to points in that part of Wyoming on and south of a line beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 16 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Wyoming-Montana State line, and to points in that part of Montana on and south of a line beginning at the Wyoming-Montana State line, thence along U.S. Highway 87 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 10, thence along U.S. Highway 10 to the Montana-Idaho State line, and to points in that part of Kansas on and west of a line beginning at the Missouri-Kansas State line, thence along U.S. Highway 59 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., at Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E416), filed June 4, 1974, Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from points in that part of Minnesota on and southwest of a line beginning at the South Dakota-Minnesota State line, thence along U.S. Highway 12 to junction Interstate Highway 494, thence along Interstate Highway 494 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Minnesota-Iowa State line to points in Florida, Georgia, South Carolina, North Carolina, West Virginia, Ohio, Alabama, and to points in that part of Louisiana on and east of a line beginning at the Gulf of Mexico, thence along Louisiana Highway 317 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Louisiana-Mississippi State line, and to points in that part of Mississippi on and east of a line beginning at the Mississippi-Louisiana State line, thence along U.S. Highway 80 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Natchez Trace Parkway, thence along Natchez Trace Parkway to junction U.S. Highway 45, thence along U.S. Highway

V 40 16 JAN 23 75 XUM

45 to the Mississippi-Tennessee State line, and to points in that part of Kentucky on and east of a line beginning at the Tennessee-Kentucky State line, thence along U.S. Highway 79 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Interstate Highway 65.

Thence along Interstate Highway 65 to the Kentucky-Indiana State line, and to points in that part of Tennessee on and east of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 45 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to junction U.S. Highway 79, thence along U.S. Highway 79 to the Tennessee-Kentucky State line, and to points in that part of Indiana on and east of a line beginning at the Kentucky-Indiana State line, thence along Interstate Highway 65 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Interstate Highway 69, thence along Interstate Highway 69 to the Indiana-Michigan State line, and to points in that part of Michigan on and northeast of a line beginning at the Indiana-Michigan State line, thence along Interstate Highway 69 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction Michigan Highway 37, thence along Michigan Highway 37 to junction Michigan Highway 46, thence along Michigan Highway 46 to Muskegon, Mich., and to points in that part of Washington on and west of a line beginning at the Washington-Canada International Boundary line, thence along Interstate Highway 5 to the Washington-California State line, and to points in that part of Oregon on and west of a line beginning at the Washington-Oregon State line.

Thence along U.S. Highway 197 to junction U.S. Highway 97, thence along U.S. Highway 97 to junction Oregon Highway 31, thence along Oregon Highway 31 to junction U.S. Highway 395, thence along U.S. Highway 395 to the California-Oregon State line, and to points in that part of California on and west of a line beginning at the Oregon-California State line, thence along U.S. Highway 395 to junction California Highway 299, thence along California Highway 299 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction California Highway 99, thence along California Highway 99 to junction California Highway 58, thence along California Highway 58 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction Interstate Highway 10, thence along Interstate Highway 10 to the California-Arizona State line, and to points in that part of Wisconsin on and north of a line beginning at Marinette, Wis., thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Wisconsin-Minnesota State line, with no transportation for compensation on return, except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E419), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), from points in Iowa, Illinois, and from points in that part of South Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence along South Dakota Highway 15 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-South Dakota State line and from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to the Nebraska-Kansas State line, and from points in that part of Minnesota on and south of a line beginning at the North Dakota-Minnesota State line, thence along U.S. Highway 10 to junction Minnesota Highway 32, thence aong Minnesota Highway 32 to junction Minnesota Highway 113, thence along Minnesota Highway 113 to junction U.S. Highway 71, thence along U.S. Highway 71 to International Falls, Minn., to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 10 to junction Montana Highway 200S, thence along Montana Highway 200S to junction Montana Highway 200, thence along Montana Highway 200 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-Idaho State line, and to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line, thence along U.S. Highway 12 to the Washington-Idaho State line, and to points in that part of Oregon on and northwest of a line beginning at the Washington-Oregon State line, thence along Oregon Highway 11 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction Oregon Highway 74, thence along Oregon Highway 74 to junction Oregon Highway 206, thence along Oregon Highway 206 to junction Oregon Highway 19, thence along Oregon Highway 19 to junction Oregon Highway 218, thence along Oregon Highway 218 to junction U.S. Highway 97, thence along U.S. Highway 97 to junction Oregon Highway 126, thence along Oregon Highway 126 to junction U.S. Highway 20, thence along U.S. Highway 20 to Newport, Oreg., and to points in that part of Washington on and northwest of a line beginning at the Idaho-Washington State line, thence along U.S. Highway 12 to junction Washington Highway 11, thence along Washington Highway 11 to the Washington-Oregon State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of that part of the Fargo, N. Dak., commercial zone lying within the State of Minnesota.

No. MC 114211 (Sub-No. E421), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery and contractors' equipment and supplies*, from points in that part of Iowa on and northwest of a line beginning at the South Dakota-Iowa State line, thence along U.S. Highway 20 to junction Iowa Highway 31, thence along Iowa Highway 31 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 4, thence along Iowa Highway 4 to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 35 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 79, thence along Wisconsin Highway 79 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Lake Michigan, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E422), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings* and *accessories* therefor when moving with such pipe the transportation of which, because of size or weight, requires special equipment, from points in that part of Nebraska on and south of a line beginning at the Iowa-Nebraska State line, thence along U.S. Highway 30 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Nebraska-Wyoming State line to points in that part of Illinois on and northeast of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 20 to junction Illinois Highway 84, thence along Illinois Highway 84 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Illinois Highway 9, thence along Illinois Highway 9 to the Illinois-Indiana State line, and to points in that part of Indiana on and northeast of a line beginning at the Illinois-Indiana State line, thence along Indiana Highway 26 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Ohio State line and to points in Wisconsin and Michigan. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E423), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings* and *accessories* therefor when moving with such pipe, the transportation of which, because of size or weight, requires special equipment, from points in that part of Nebraska on and southeast of a line beginning at the Iowa-Nebraska State line, thence along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Nebraska Highway 41, thence along Nebraska Highway 41 to junction Nebraska Highway 50, thence along Nebraska Highway 50 to the Nebraska-Kansas State line to points in Montana, Wyoming, South Dakota, North Dakota, Wisconsin, and the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E424), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings* and *accessories* therefor when moving with such pipe the transportation of which, because of size or weight, requires special equipment, from points in that part of Nebraska on and southeast of a line beginning at the Iowa-Nebraska State line, thence along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line to points in Minnesota. The purpose of this filing is to elminate the gateway of the plant site of Griffin Pipe Products Co., of Minneapolis, Minn.

No. MC 114211 (Sub-No. E432), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, the transportation of which, because of size or weight, requires special equipment, between points in Missouri, on the one hand, and, on the other, points in Minnesota and North Dakota (except points in the Fargo, N. Dak., commercial zone, as defined by the Commission, on the one hand, and, on the other, points in the Minneapolis-St. Paul, Minn., commercial zone, as defined by the Commission). The purpose of this filing is to eliminate the gateway of Cedar Rapids, Iowa.

No. MC 114211 (Sub-No. E1243), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, except commodities, the transportation of which, because of size or weight, requires the use of special equipment, from points in South Dakota to points in that part of Texas on and east of a line beginning at the Oklahoma-Texas State line, thence along Texas Highway 79 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction Texas Highway 42, thence along Texas Highway 42 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Texas-Mexico Interpational Boundary line restricted against the transportation of those described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459 and further restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 119934 (Sub-No. E1), filed May 12, 1974. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Loser II, 320 N. Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except silicate of soda), in bulk, in tank vehicles, from Anderson, Ind., to points in Missouri and Iowa, restricted against the transportation of any traffic destined to points in Canada. The purpose of this filing is to eliminate the gateway of the facilities of National Distillers Products Corporation near Ficklin, Ill.

No. MC 119934 (Sub-No. E4), filed May 12, 1974. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Loser II, 320 N. Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Acids* (except soda ash and chemicals derived from petroleum), in bulk, in tank vehicles, from East Chicago, Ind., to points in Arkansas, Iowa, Kansas, Louisiana, Minnesota, Oklahoma, and to points in that part of Kentucky on and west of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 41 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of the plant site of the Central Inc., near Elwood, Ill. (B) *Phosphoric Chemical Co., Division of Wilson & Co., acid*, in bulk, in tank vehicles, from East Chicago, Ind., to points in Arkansas, Iowa, Minnesota, Missouri, and Nebraska, restricted against serving the site of any glass manufacturing plant. The purpose of this filing is to eliminate the gateway of the plant site of the National Phosphate Corporation, at or near Marseilles, Ill.

No. MC 119934 (Sub-No. E7), filed May 12, 1974. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Loser, 320 N. Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from the facilities of National Distillers Products Corporation, near Ficklin, Ill., to points in Minnesota. The purpose of this filing is to eliminate the gateway of the plant site of Hawkeye Chemical Company, at or near Clinton, Iowa.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75-2168 Filed 1-22-75;8:45 am]

[Notice No. 6]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JANUARY 17, 1975.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V40N23 JAN 75 XUM

by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 200 (Sub-No. 270), filed December 30, 1974. Applicant: RISS INTERNATIONAL CORPORATION, 903 Grand Avenue, Kansas City, Mo. 64106. Applicant's representative: Ivan E. Moody, Suite 1200 Temple Building, 903 Grand Avenue, Kansas City, Mo. 64106. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the site of Western Electric Company at the junction of New York Highway 422 and Maple Street in Elma Township (Erie County), N.Y., in connection with applicant's authorized regular route operations to and from Buffalo, N.Y.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo. or New York, N.Y.

No. MC 2401, (Sub-No. 55), filed Dec. 16, 1974. Applicant: MOTOR FREIGHT CORPORATION, 114 Fifth Avenue, New York, N.Y. 10011. Applicant's representative: (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods, commodities in bulk and those requiring special equipment): Serving the plantsite of Bata Shoe Co., Inc., at or near Salem, Ind., as an off-route point in connection with carriers authorized regular route authority to Louisville, Ky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 2900 (Sub-No. 268), filed Dec. 9, 1974. Applicant: RYDER TRUCK LINES, INC., P.O. Box 2408, Jacksonville, Fla. 32203. Applicant's representative: S. E. Somers, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Serving the plantsite of Rigo Co., a Subsidiary of Central Soya Co., Inc., at or near Buckner, Ky., as an off-route point in connection with applicant's presently authorized regular routes; and (2) Serving the Kearney Industrial Park, at or near Flora, Miss., as an off-route point in connection with applicant's presently authorized regular route.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., Louisville, Ky., or Washington, D.C.

No. MC 2900 (Sub-No. 269), filed Dec. 19, 1974. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, P.O. Box 2408, Jacksonville, Fla. 32203. Applicant's representative: John Carter (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe and fittings*; and (2) *air coolers and air conditioning equipment*, from Faribault, Minn., to points in Texas.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 6461 (Sub-No. 14) (Amendment), filed October 25, 1974, published in the FEDERAL REGISTER issue of November 27, 1974, and republished as amended, this issue. Applicant: B-LINE TRANSPORT CO., INC., East 7100 Broadway, Spokane, Wash. 99206. Applicant's representative: Max Gray (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulating materials*, from the plantsite of the United States Gypsum Company at or near Tacoma, Wash., to points in Oregon and Washington, and Beaverhead, Broadwater, Cascade, Chouteau, Deer Lodge, Flathead, Gallatin, Glacier, Granite, Hill Jefferson, Judith Basin, Lake, Lewis and Clark, Liberty, Lincoln, Madison, Meagher, Mineral, Missoula, Ponders, Powell, Ravalli, Sanders, Silverbow, Teton, and Toole Counties, Mont., and points in Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Nez Perce, Clearwater, Lewis, Idaho, Adams, Washington, Valley, Payette, Gem, Boise, Custer, Ada, Canyon and Elmore Counties, Idaho, restricted against tacking or interlining from the plantsite named above.

NOTE.—The purposes of this republication are (1) change the authority requested above from non-radial movements, to from and to authority; and (2) add the restriction stated above. If a hearing is deemed necessary, applicant requests it be held at Spokane, Wash.

No. MC 13123 (Sub-No. 78), filed Dec. 9, 1974. Applicant: WILSON FREIGHT COMPANY, a corporation, 3636 Follett Avenue, Cincinnati, Ohio 45223. Applicant's representative: Milton H. Bortz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): Serving the plantsite of Anchor Coupling Company, at or near Newark, Del., as an off-route point in connection with applicant's presently authorized regular routes.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 21060 (Sub-No. 17), filed December 16, 1974. Applicant: IOWA PARCEL SERVICE, INC., 3123 Delaware Avenue, Des Moines, Iowa 50313. Applicant's representative: Cecil L. Goettsch, 1100 Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) between points in Rock Island, Ill. and Scott County, Iowa, restricted to the transportation of parcels, packages and articles weighing 100 pounds or less, and further restricted against the transportation of parcels, packages, and articles weighing in the aggregate more than 500 pounds from one consignor to one consignee on any one day.

NOTE.—Common control may be involved. Applicant states that it intends to tack the authority requested above with all its existing authority, and its authority pending in MC 21060 (Sub-No. 15), at Scott County, Iowa to provide service between Rock Island County, Ill., on the one hand, and, on the other, points in Iowa, and points in Harrison, Worth, and Mercer Counties, Mo., subject to the applicable weight restrictions. The authority will be tacked at Scott County, Iowa with applicant's existing authority to provide service between Rock Island County, Ill., and Omaha, Nebr., on air freight shipments, motion picture film, and magazines and periodicals. If a hearing is deemed necessary, applicant requests it be held at Des Moines or Davenport, Iowa, or Washington, D.C.

No. MC 28060 (Sub-No. 29), filed Dec. 16, 1974. Applicant: WILLERS, INC., 1400 North Cliff Avenue, Sioux Falls, S. Dak. 57101. Applicant's representative: Bruce E. Mitchell, 3379 Peachtree Road, N.E., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat by-products*, in bulk, in tank vehicles, from Sioux, City, Iowa, to Sioux, Falls, S. Dak.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 29886 (Sub-No. 320), filed Dec. 19, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paving, road construction and maintenance machinery and equipment;* and (2) *attachments and parts*, for commodities described in (1) above, when moving in mixed shipments with (1) above, from the plant site and warehouse facilities of Blaw-Knox Construction Equipment, Inc., at or near Mattoon, Ill., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 31389 (Sub-No. 193), filed December 23, 1974. Applicant: McLEAN TRUCKING COMPANY, a corporation, 617 Waughtown Street, P.O. Box 213, Winston-Salem, N.C. 27102. Applicant's representative: David F. Eshelman, P.O. Box 213, Winston-Salem, N.C. 27102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) serving the plantsite of PPG Industries at or near Cheswold, Del. as an off-route point in conjunction with applicant's regular route operations to and from Baltimore, Md. and West Chester, Pa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Pittsburgh, Pa. or Washington, D.C.

No. MC 31389 (Sub-No. 194), filed December 23, 1974. Applicant: McLEAN TRUCKING COMPANY, a corporation, 617 Waughtown Street, P.O. Box 213, Winston-Salem, N.C. 27102. Applicant's representative: David F. Eshelman (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse of Franchise Mailing, Inc. at or near Montgomery, Minn., as an off-route point in connection with applicant's authorized regular route operations to and from Minneapolis-St. Paul, Minn.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn. or Washington, D.C.

No. MC 32779 (Sub-No. 11), filed December 23, 1974. Applicant: SILVER EAGLE COMPANY, a corporation, 5949 N. Basin Avenue, Portland, Oreg. 97208. Applicant's representative: Robert R. Hollis, 400 Pacific Bldg., Portland, Oreg. 97204. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined in 17 M.C.C. 467, commodities in bulk, and commodities which because of size or weight require the use of special equipment), between Longview, Wash. and Portland, Oreg.: From Longview over Washington State Highway Route 433 to junction U.S. Highway route 30 to Portland, Oreg., and return over the same route, as an alternate route for operating convenience only, serving no intermediate points, in connection with carrier's authorized regular route operations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Portland, Oreg. or Seattle, Wash.

No. MC 35320 (Sub-No. 144), filed November 19, 1974. Applicant: T.I.M.E.-DC, INC., P.O. Box 2550, Lubbock, Tex. 79408. Applicant's representative: Kenneth G. Thomas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *General commodities* (except those of unusual value, livestock household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); (A) Between Winchester, Va. and St. Louis, Mo.: From Winchester, Va., over U.S. Highway 50 to St. Louis, Mo., and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently-authorized regular-route operations, serving no intermediate points, and serving Winchester, Va., for purposes of joinder only; (B) Between Hagerstown, Md., and St. Louis, Mo.: From Hagerstown, Md., over Interstate Highway 70 to junction Interstate Highways 70 and 76, near Breezewood, Pa., thence over Interstate Highway 70 to St. Louis, Mo., and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently-authorized regular-route operations, serving no intermediate points, and serving Hagerstown, Md., for purposes of joinder only; (2) *general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, and those requiring special equipment); (A) Between Cincinnati, Ohio, and Evansville, Ind.: From Cincinnati, Ohio, over Interstate Highway 71 to Louisville, Ohio, thence over Interstate Highway 64 to junction Interstate Highway 64 and Indiana Highway 57, thence over Indiana Highway 57 to junction Indiana Highway 57 and U.S. Highway 41, thence over U.S. Highway 41 to Evansville, Ind., and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently-authorized regular route operations, serving no intermediate points, restricted against the transportation of local traffic moving between Cincinnati, Ohio, on the one hand, and, on the other, Evansville, Ind.

(B) Between Chicago, Ill., and St. Louis, Mo.: From Chicago, Ill. over Interstate Highway 55 to St. Louis, Mo., and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently authorized regular-route operations, serving no intermediate points, restricted against the transportation of strictly local traffic moving between Chicago, Ill. and points within its Commercial Zone as defined by the Commission, on the one hand, and, on the other, St. Louis, Mo. and points in its Commercial Zone as defined by the Commission; (C) Between the International Boundary line between the United States and Canada at Port Huron, Mich. and Detroit, Mich.: From the International Boundary line between the United States and Canada at Port Huron, Mich. over Interstate Highway 94 to Detroit, Mich. and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently authorized regular-route operations, serving no intermediate points and serving the International Boundary line at Port Huron, Mich. for purposes of joinder only; and (D) Between Chicago, Ill. and Kansas City, Mo.: From Chicago, Ill. over Interstate Highway 55 to junction Interstate Highway 55 and U.S. Highway 36, at or near Springfield, Ill., thence over U.S. Highway 36 to junction of U.S. Highway 36 and U.S. Highway 54 at or near Pittsfield, Ill., thence over U.S. Highway 54 to junction U.S. Highway 54 and Interstate Highway 70, at or near Kingdom City, Mo., thence over Interstate Highway 70 to Kansas City, Mo. and return over the same route as an alternate route for operating convenience only in connection with carrier's authorized regular-route operations, serving no intermediate points, restricted against the transportation of local traffic moving between Chicago, Ill. and points within its Commercial Zone as defined by the Commission, on the one hand, and, on the other, Kansas City, Mo. and points in its Commercial Zone as defined by the Commission;

(3) *General commodities* (except sand, gravel, coal, livestock and articles not suitable for transportation in standard equipment) Between Cincinnati, Ohio, and Atlanta, Ga.: From Cincinnati, Ohio over Interstate Highway 75 to Atlanta, Ga. and return over the same route, as an alternate route for operating conven-

V 4016 JAN 23 75 XUM

ience only, in connection with carrier's presently authorized regular-route operations, serving the intermediate point of Knoxville, Tenn. for purposes of joinder only with carrier's presently authorized regular-routes; (4) *general commodities* (except those of unusual value, Classes A and B explosives, and ammunition and component parts of ammunition, however classified, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); (A) Between Dallas, Tex. and Oklahoma City, Okla.: From Dallas, Tex. over Interstate Highway 35–E to junction of Interstate Highway 35–E and Interstate Highway 35, thence over Interstate Highway 35 to Oklahoma City, Okla. and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently authorized regular-route operations, serving no intermediate points; and (B) Between San Antonio and Dallas, Tex.: From San Antonio, Tex. over Interstate Highway 35 to Dallas, Tex. and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently authorized regular-route operations, serving no intermediate points and serving Dallas, Tex. for the purpose of joinder only with carrier's presently authorized routes; (C) Between Warner, Okla. and Dallas, Tex.:

(1) From Warner, Okla. over Interstate Highway 40 to junction Interstate Highway 40 and U.S. Highway 69, thence over U.S. Highway 69 and combined U.S. Highway 69 and 75 to Dallas, Tex. and return over the same route; and (2) From Warner, Okla. over U.S. Highway 266 to junction U.S. Highways 266 and 69 thence over U.S. Highway 69 and combined U.S. Highways 69 and 75 to Dallas, Tex. and return over the same route, as alternate routes for operating convenience only, in connection with carrier's presently authorized regular-route operations, serving no intermediate points and serving Warner, Okla. for purposes of joinder only; (5) *general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); (A) Between Chicago, Ill. and Seattle, Wash.: (a) From Chicago, Ill. over Interstate Highway 90 to junction Interstate Highway 90 and U.S. Highway 16 at or near Alden, Minn., thence over U.S. Highway 16 and/or Interstate Highway 90 to Rapid City, S. Dak. thence over U.S. Highway 14 and/or Interstate Highway 90 to junction of Interstate Highway 90 and U.S. Highway 87 at or near Sheridan, Wyo., thence over U.S. Highway 87 and/or Interstate Highway 90 to junction U.S. Highway 87, Interstate Highway 90 and Interstate Highway 94 at or near Billings, Mont., thence over U.S. Highway 10 and/or Interstate Highway 90 to Spokane, Wash. thence over Interstate Highway 90 to Seattle, Wash. and return over the same route; and (b) From Chicago, Ill. over Interstate Highway 90, as it is completed, to Seattle, Wash. and return over the same route;

(B) Between Evansville, Ind. and Louisville, Ky.: From Evansville, Ind. over U.S. Highway 41 to junction U.S. Highway 41 and Indiana Highway 57, thence over Indiana Highway 57 to junction Indiana Highway 57 and Interstate Highway 64, thence over Interstate Highway 64 to Louisville, Ky. and return over the same route, 5 (a) and (b) as alternate routes for operating convenience only, in connection with carrier's presently authorized regular-route operations, serving no intermediate points; (6) *general commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); Between El Paso, Tex. and Kansas City, Mo.: From El Paso, Tex. over U.S. Highway 54 to Wichita, Kans., thence over Interstate Highway 35 to Kansas City, Mo. and return over the same route, as an alternate route for operating convenience only, in connection with carrier's presently authorized regular-route operations, serving no intermediate points; (7) *general commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission commodities in bulk, automobiles, coal, sand, gravel, portland cement, and commodities requiring special equipment); Between Kansas City, Mo. and Chicago, Ill.: From Kansas City over Interstate Highway 70 to junction Interstate Highway 70 and Interstate Highway 270 at or near Wentzville, Mo., thence over Interstate Highway 270 to junction Interstate Highway 270 and Interstate Highway 70, east of St. Louis, Mo., thence over Interstate Highway 70 to junction of Interstate Highway 70 and Interstate Highway 57, thence over Interstate Highway 57 to Chicago, Ill. and return over the same route, as an alternate route for operating convenience only in connection with carrier's presently authorized regular-route operations, serving no intermediate points and serving Kansas City, Mo. for purposes of joinder only; and

(8) *General commodities* (except those of unusual value, household goods as defined by the Commission, explosives, inflammable articles, livestock and commodities in bulk); Between Chicago, Ill. and Evansville, Ind.: From Evansville, Ind. over U.S. Highway 41 to junction of U.S. Highway 41 and Indiana Highway 63, at or near Clinton, Ind., thence over Indiana Highway 63 to junction Indiana Highway 63 and U.S. Highway 41, at or near Carbondale, Ind., thence over U.S. Highway 41 to Chicago, Ill. and return over the same route, as an alternate route for operating convenience only in connection with carrier's presently authorized regular-route operations, serving no intermediate points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Lubbock or Dallas, Tex.

No. MC 41404 (Sub-No. 119), filed November 18, 1974. Applicant: ARGO-COLLIER TRUCK LINES CORPORATION, P.O. Box 440, Fulton Highway, Martin, Tenn. 38237. Applicant's representative: Mark L. Horne (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the facilities of Green Giant Company at Tucker, Ga., to points in Alabama, Georgia, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee, restricted to shipments originating at the named origin and destined to the named destinations.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Minneapolis, Minn. or Chicago, Ill.

No. MC 51146 (Sub-No. 409), filed December 18, 1974. Applicant: SCHNEIDER TRANSPORT, INC., 2661 S. Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Waste paper and scrap paper*, from points in Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Ohio, Kentucky, Indiana, Illinois, those in that part of Alabama on and north of U.S. Highway 78, those in Michigan on and south of Michigan Highway 21, Mississippi, Louisiana, Arkansas, Missouri, Texas, Oklahoma, Kansas, Nebraska, North Dakota, South Dakota, New Mexico, Arizona, Colorado, Wyoming, Utah, New York on and east of U.S. Highway 11, Memphis, Tenn., Mobile, Ala., and points in the District of Columbia, to West Carrollton, Ohio; (2) *paper and paper products*, from West Carrollton, Ohio, to East St. Louis, Ill. and points in Illinois on and south of U.S. Highway 460, Georgia and Florida; and (3) *materials and supplies* used in the manufacture or distribution of paper and paper products, from Memphis, Tenn., Mobile, Ala., Baltimore, Md., East St. Louis, Ill. and points in Illinois on and south of U.S. Highway 460, those in Alabama on and north of U.S. Highway 78, North Carolina, South Carolina, Georgia and Florida, to West Carrollton, Ohio.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 411), filed December 23, 1974, Applicant: SCHNEIDER TRANSPORT, INC., 2661 S. Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. No. MC 117940 (Sub-No. 155), filed December 18, 1974. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representatives: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by retail department stores, and *equipment, utensils, and supplies* used in the conduct of such business (except commodities in bulk and foodstuffs), from the facilities of J. C. Penney Company, Inc., at or near Ridgefield, N.J., to Minneapolis, Minn., Milwaukee, Wis., Chicago, Ill., St. Louis, Mo., Kansas City, Mo., and Denver, Colo.

NOTE.—Applicant holds contract carrier authority in MC 114789 Sub 1 and Subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary applicant requests it be held at either New York, N.Y., or Minneapolis, Minn.

No. MC 118142 (Sub-No. 85), filed December 12, 1974. Applicant: M. BRUENGER & CO., INC., 6250 N. Broadway, Wichita, Kans. 67219. Applicant's representative: M. Bruenger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas and commodities*, exempt from economic regulation under Section 203 (b)(6) of the Act, when transported in mixed loads with bananas, from New Orleans, La., to points in Arizona, California, Colorado, Kansas, Missouri, Nevada, New Mexico, Oklahoma, Texas, and Utah.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Wichita, Kans., or New Orleans, La.

No. MC 118159 (Sub-No. 155), filed November 27, 1974. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1925 National Plaza, Tulsa, Okla. 74151. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cooking oil, animal litter, and chopped alfalfa*, (1) from Atlanta, Ga., to points in Alabama, points in those parts of Kentucky and Tennessee west of U.S. Highway 431, points in that part of Louisiana east of the Mississippi River, points in that part of Arkansas on and east of a line beginning at the Arkansas-Missouri State line near Corning, Ark., and extending southwesterly along U.S. Highway 67 to junction U.S. Highway 65 at or near North Little Rock, Ark., thence along U.S. Highway 65 southeasterly to the Arkansas-Louisiana State line near Readland, Ark. (except Little Rock, Ark., and points in its commercial zone as defined by the Commission), authorized; and (2) from Houston, Tex., to points in Arkansas, Louisiana, and Mississippi. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 118159 (Sub-No. 156), filed December 24, 1974. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1931 N. Sheridan Road, Tulsa, Okla. 74151. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by retail department stores, and *equipment, utensils, and supplies* used in the conduct of such business (except commodities in bulk and foodstuffs), from the facilities of J. C. Penney Company, Inc., at or near Ridgefield, N.J., to Minneapolis, Minn., Milwaukee, Wis., Chicago, Ill., St. Louis, Mo., Kansas City, Mo., and Denver, Colo.

NOTE.—Applicant holds contract carrier authority in MC 114789 Sub 1 and Subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary applicant requests it be held at either New York, N.Y., or Minneapolis, Minn.

No. MC 118142 (Sub-No. 85), filed December 12, 1974. Applicant: M. BRUENGER & CO., INC., 6250 N. Broadway, Wichita, Kans. 67219. Applicant's representative: M. Bruenger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas and commodities*, exempt from economic regulation under Section 203 (b)(6) of the Act, when transported in mixed loads with bananas, from New Orleans, La., to points in Arizona, California, Colorado, Kansas, Missouri, Nevada, New Mexico, Oklahoma, Texas, and Utah.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Wichita, Kans., or New Orleans, La.

No. MC 118159 (Sub-No. 155), filed November 27, 1974. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1925 National Plaza, Tulsa, Okla. 74151. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cooking oil, animal litter, and chopped alfalfa*, (1) from Atlanta, Ga., to points in Alabama, points in those parts of Kentucky and Tennessee west of U.S. Highway 431, points in that part of Louisiana east of the Mississippi River, points in that part of Arkansas on and east of a line beginning at the Arkansas-Missouri State line near Corning, Ark., and extending southwesterly along U.S. Highway 67 to junction U.S. Highway 65 at or near North Little Rock, Ark., thence along U.S. Highway 65 southeasterly to the Arkansas-Louisiana State line near Readland, Ark. (except Little Rock, Ark., and points in its commercial zone as defined by the Commission), authorized; and (2) from Houston, Tex., to points in Arkansas, Louisiana, and Mississippi. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 118159 (Sub-No. 156), filed December 24, 1974. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1931 N. Sheridan Road, Tulsa, Okla. 74151. Applicant's representative: Charles W. Singer, 2440 E. Commercial Blvd., Fort Lauderdale, Fla. 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cellulose materials and products, and paper and paper products* (except commodities in bulk), and *materials and supplies* (except commodities in bulk) used in the manufacture or distribution of cellulose materials and products and paper and paper products, between Oppelo, Ark. and Fort Worth, Tex., on the one hand, and, on the other, points in Nebraska, Kansas, Oklahoma, Texas, Louisiana, Arkansas, Missouri, Kentucky, Tennessee, Georgia, Florida, Alabama, Mississippi, and those points in Illinois and Indiana south of U.S. Highway 36.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 119226 (Sub-No. 90), filed December 30, 1974. Applicant: LIQUID TRANSPORT CORP., 3901 Madison Avenue, Indianapolis, Ind. 46227. Applicant's representative: Robert W. Loser, 1009 Chamber of Commerce Bldg., 320 North Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Weed killing compounds*, liquid, in bulk, in tank vehicles, from Lafayette, Ind., to points in Illinois and Iowa.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Indianapolis, Ind., Chicago, Ill., or Washington, D.C.

No. MC 119390 (Sub-No. 16), filed November 20, 1974. Applicant: MAIRS TRANSPORT LTD., 976 Adair Avenue, Coquitlam, British Columbia, Canada. Applicant's representative: George R. LaBissoniere, P.O. Box 88968, Tukwila Branch, Suite 101, 130 Andover Park East, Seattle, Wash. 98188. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plasterboard, joint compound material*, in sacks or cans, between Seattle, Wash. and the port of entry on the International Boundary line between the United States and Canada at or near Blaine, Wash.; and *empty cans* on return; (2) *roofing granules*, in bulk, between Bellingham and Tacoma, Wash., on the one hand, and, on the other, the port of entry on the International Boundary line between the United States and Canada at or near Blaine, Wash.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 119630 (Sub-No. 13), filed December 23, 1974. Applicant: VAN TASSEL, INCORPORATED, 5th and Grand, Pittsburg, Kans. 66762. Applicant's representative: Dean Williamson, 280 National Foundation Life Building, 3535 Northwest 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pre-fabricated buildings*, complete, knocked down, or in sections, from

Oswego, Kans., to points in the United States (except Alaska and Hawaii); and (2) *materials and supplies* used in the manufacture of the commodities in (1) above (except commodities in bulk), from points in Illinois, Indiana, Maryland, Missouri, Ohio, and Pennsylvania, to Oswego, Kans.

NOTE.—Applicant holds contract carrier authority in MC 115036 and Subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 119726 (Sub-No. 48), filed December 19, 1974. Applicant: N. A. B. TRUCKING CO., INC., 3220 Bluff Road, Indianapolis, Ind. 46217. Applicant's representative: James L. Beattey, 130 East Washington Street. Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shower bath stalls, plastic, with or without frames or door, with or without receptors, set up, and plastic bath tubs and accessories*, from the plantsite and facilities of Powers Fiat Corporation located at or near Monroe, Ohio, to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Iowa, Missouri, Arkansas, Louisiana, Wisconsin, Illinois, Michigan, Indiana, Pennsylvania, Kentucky, West Virginia, Maryland, Virginia, Tennessee, North Carolina, Mississippi, Alabama, Georgia, South Carolina, and Florida.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Indianapolis, Ind.

No. MC 119777 (Sub-No. 312), filed December 12, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Louis J. Amato, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay products and jointing compounds* (except those moving in bulk in tank vehicles), (1) from Cannelton, Ind., and Owensboro, Ky., to points in West Virginia; (2) from Des Moines, Ottumwa, Mason City, and Redfield, Iowa, to points in Wisconsin, Ohio, Kentucky, Arkansas, Missouri, Illinois, Indiana, and the Lower Peninsula of Michigan, Tennessee, and Texas; (3) from Mineral Wells, Tex., to points in Alabama, Louisiana, Oklahoma, Arkansas, Mississippi, Missouri, Iowa, Indiana, Illinois, Kentucky, Tennessee, and Ohio; and (4) from Uhrichsville, Ohio, to points in Indiana, Kentucky, Illinois, Iowa, Wisconsin, Tennessee, the Lower Peninsula of Michigan, Texas, and Missouri.

NOTE.—Applicant holds contract carrier authority in MC 126970 Sub 1 and 2 therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Louisville, Ky. or Nashville, Tenn.

No. MC 119988 (Sub-No. 73), filed December 13, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, Tex. 75901. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products*, from the plantsite and storage facilities of Field's, Inc., located at Pauls Valley, Okla., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at the named plantsite and storage facilities.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 121630 (Sub-No. 3), filed December 16, 1974. Applicant: LEMORE TRANSPORTATION, INC., 1420 Industrial Park, P.O. Box 6085, Concord, Calif. 94524. Applicant's representative: Daniel W. Baker, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dry general commodities*, in bulk, in dump, hopper or similar type of equipment (except earth, sand, loam, gravel, stone, cement, asphalt, cement or asphalt mixes), between points in Solano, Contra Costa, and Alameda Counties, Calif., on the one hand, and, on the other, Pittsburg, Benicia, Selby, Richmond, Oakland, and Alameda, Calif.; and (2) *general commodities*, (except (a) used household goods and personal effects not packed in accordance with the crated property requirements; (b) livestock; (c) commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment; (d) liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles; (e) earth, sand, loam, gravel, stone, cement, asphalt or cement or asphaltic mixes when transported in bulk in dump trucks or in hopper-type trucks; (f) commodities when transported in motor vehicles equipped for mechanical mixing in transit; (g) logs; and (h) fresh fruits and vegetables), between points in San Francisco, Alameda, and Contra Costa Counties, Calif.; San Mateo County, Calif., on and east of California Highway 82; Santa Clara County, Calif., on and north and west of California Highways 17 and 82; and Solano County, Calif., on and south of Interstate Highway 680, restricted to the transportation of shipments having a prior or subsequent movement by water to or from San Francisco, Calif.

NOTE.—By instant application, applicant seeks to convert its Certificates of Registration No. MC 121630 Sub-No. 1 to a Certificate of Public Convenience and Necessity. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 123061 (Sub-No. 73), filed December 9, 1974. Applicant: LEATHAM BROTHERS, INC., 46 Orange Street, Salt Lake City, Utah 84104. Applicant's representative: Harry D. Pugsley, 400 El Paso Bldg., Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feeds and feed ingredients*, in bags and in bulk, from points in Idaho, to points in Nevada, Wyoming, Montana, and Oregon.

NOTE.—Applicant intends to tack the above route extension to its existing authority in MC 123061 (Sub-No. 60), at Pendleton, Oreg. to provide a through service from points in Idaho, to points in Washington. If a hearing is deemed necessary, the applicant requests it be held at either Pocatello, Idaho or Salt Lake City, Utah.

No. MC 123407 (Sub-No. 215), filed December 12, 1974. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed and poultry feed* (except in bulk, in tank or hopper-type vehicle), from Chicago Heights, Ill., to points in Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Washington, D.C.

No. MC 123407 (Sub-No. 216), filed December 13, 1974. Applicant: SAWYER TRANSPORT, INC., South Haven Squart, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass*, from the plantsite and warehouse facilities of Guardian Industries, located at Carleton, Mich., to points in Washington, Oregon, California, Nevada, Arizona, Utah, and Idaho.

NOTE.—Common control may be involved. If a hearing is deemed necessary the applicant requests it be held at either Detroit, Mich., or Washington, D.C.

No. MC 123407 (Sub-No. 217), filed December 23, 1974. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Treated and untreated posts, poles and lumber, and materials* used in the manufacture of wood products and paper products, from points in Sheridan County, Wyo., to points in South Dakota, North Dakota, Montana, Nebraska, Utah, Colorado, Kansas, Arizona, New Mexico, Oklahoma, Texas, Missouri, Iowa, Minnesota, Wisconsin, Illinois, Indiana, Kentucky, and Tennessee.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 123407 (Sub-No. 218), filed December 23, 1974. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind.

V40N16 JAN23 75 XUM

46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from points in Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington Counties, Minn., to points in the United States (except Alaska and Hawaii).

No. MC 140516, filed December 20, 1974. Applicant: CYCLE'S TRANSPORT, INC., 4213 Wilson Boulevard, Arlington, Va. 22203. Applicant's representative: Kim D. Mann, 702 World Center Building, 918 16th St. NW., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Motorcycles, and motorcycle parts and accessories*, from Newark, Norwood, and Cherry Hill, N.J.; Norfolk, Va., and Baltimore, Md., to Arlington, Va., under a continuing contract or contracts with Cycle's, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 140517, filed December 16, 1974. Applicant: ROBERT L. NORRIS AND JOHN G. SHOCKLEY, a Partnership, doing business as TRANSPORT STEEL, 1721 27th Street, Greeley, Colo. 80631. Applicant's representative: Truman A. Stockton, Jr., The 1650 Grant St. Bldg., Denver, Colo. 80203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel fence posts, rebars, barbed and baling wire, angles, smooth bars, T-bar stock, fence, nails, and welded fabric*, from the plantsite of Colorado Steel and Wire Company at or near Loveland, Colo., to points in Arizona, Idaho, Iowa, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, and Wyoming; and (2) *raw materials* used in the manufacture of the above named commodities, from the destination states named above, to the plantsite at or near Loveland, Colo., under a continuing contract or contracts with Colorado Steel and Wire Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 140520, filed December 18, 1974. Applicant: HEFLIN INDUSTRIES, INC., 1111 West Maricopa Freeway, Phoenix, Ariz. 85001. Applicant's representative: Donald E. Fernaays, Suite 312, 4040 East McCowell Road, Phoenix, Ariz. 85008. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (A) *Floor tile, linoleum, adhesives, carpet, and carpet padding*, from Lancaster and Marietta, Pa., and Ringgold, Ga., to Phoenix, Ariz.; and (B) *textiles*, from Prattville, Ala., Shoemakersville, Pa., and Jefferson, S.C., to Casa Grande, Ariz., under a continuing contract or contracts with Arizona Textile Corp., and Black and Ryan Distributors.

NOTE.—Applicant holds common carrier authority in MC 138178 (Sub-No. 2) therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 140521, filed December 23, 1974. Applicant: RAU CARTAGE, INC., 1107 East Noble Street, Monroe, Mich. 48080. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products*, from Monroe, Mich., and Baltimore, Ohio, to points in Ohio and Michigan; (2) *scrap paper and waste paper*, from points in Ohio and Michigan to Monroe, Mich., and Baltimore, Ohio; (3) *shop handling equipment, skids, wood and metal platforms and stock boxes, lawn rollers, and steel castings*, from Monroe, Mich., to points in Ohio; (4) *foundry supplies, brick, carbide, and stone*, from points in Ohio to Monroe, Mich.; (5) *waste and scrap paper, and waste and scrap pulpboard*, from Monroe, Mich., to points in Ohio (except Circleville, Hamilton, Lockland, Middletown, and Rittman, Ohio, and their respective commercial zones as defined by the Commission); (6) *fertilizer*,

V40 0116 JAN 23 75 XUM

from Lockland and Columbus, Ohio, to points in that part of Michigan on and south of Michigan Highway 55; (7) *starch* (except in bulk), from Harbor Beach, Mich., to Sharonville and Solon, Ohio, and Washington, Pa.; and (8) *agricultural pesticides* (except in bulk) from Columbus, Ohio, to points in that part of Michigan south of Michigan Highway 55.

NOTE.—Common control may be involved. Applicant states that the purpose of this application is to convert its contract carrier authority in MC 53321 and subs thereunder to a Certificate of Public Convenience and Necessity. If a hearing is deemed necessary, the applicant requests it be held at either Detroit or Lansing, Mich., or Chicago, Ill.

No. MC 140522, filed December 23, 1974. Applicant: LUMBER TRANSPORT, INC., 1785 East US–23, East Tawas, Mich. 48730. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber, prefabricated buildings, and components* thereof, and *roof trusses*, from East Tawas, Mich., to points in Illinois, Indiana, Ohio, and Pennsylvania; (2) *lumber*, from points on the International Boundary line between the United States and Canada located on the St. Mary's, St. Clair, and Detroit Rivers, to points in Michigan, Illinois, Indiana, Ohio, and Pennsylvania; and (3) *lumber*, from points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, and Texas, to points in Michigan, Illinois, Indiana, Ohio, and Pennsylvania, under a continuing contract or contracts with Schaaf Lumber Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Lansing or Detroit, Mich., or Chicago, Ill.

No. MC 140523, filed December 30, 1974. Applicant: DELCHER MOVING OF SOUTH FLORIDA, INC., 451 Redland Road, Homestead, Fla. 33030. Applicant's representative: Sol H. Proctor, 1107 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in Florida.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Miami, Fla.

No. MC 140539, filed December 23, 1974. Applicant: TENNESSEE EXPRESS, INC., 22 Stanley Street, Nashville, Tenn. 37210. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and telephone equipment, materials, and supplies), between the plantsite of The Firestone Tire & Rubber Company in Rutherford County, Tenn., on the one hand, and, on the other, points in Davidson County, Tenn.

NOTE.—Applicant holds motor contract carrier authority in MC 136714 (Sub-No. 1), therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

APPLICATIONS OF PASSENGER(S)

No. MC 107815 (Sub-No. 7) (amendment), filed August 5, 1974, published in the FEDERAL REGISTER issue of September 12, 1974, and republished as amended, this issue. Applicant: IOWA COACHES, INCORPORATED, 442 8th Avenue, Dubuque, Iowa 52001. Applicant's representative: M. M. Cooney, 705 Dubuque Building, Dubuque, Iowa 52001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle as passengers, in special operations, in round-trip sightseeing and pleasure tours, beginning and ending at Dubuque, Farley, Dyersville, Manchester, Independence, Waterloo, Cedar Falls, Ackley, Iowa Falls, Webster City, Fort Dodge, Storm Lake, Sac City, Rockwell City, Cherokee, LeMars, Sioux City, Elkader, Strawberry Point, McGregor, and Cedar Rapids, Iowa, and Prairie du Chien, Wis., and extending to points in the United States (except Alaska and Hawaii).

NOTE.—The purpose of this republication is to amend the authority originally requested. If a hearing is deemed necessary, applicant requests it be held at Des Moine, Iowa, or Omaha, Nebr.

FREIGHT FORWARDER APPLICATION(S)

No. FF 464 (Correction), filed December 3, 1974, published in the FEDERAL REGISTER issue of December 27, 1974, and republished as corrected this issue. Applicant: PARAMOUNT FORWARDERS, INC., 2164 Springfield Road, P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water, and express, in the transportation of (a) *Used household goods*, (b) *unaccompanied baggage*, and (c) *used automobiles*, between points in the United States, including Hawaii but excluding Alaska, restricted in (c) above to the transportation of import-export traffic.

NOTE.—The purposes of this republication are (1) change FF 377 (Sub. No. 1) to FF 464; and (2) correct the restriction above. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75-2042 Filed 1-22-75;8:45 am]

[Notice 220]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before February 12, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

Finance Docket No. 27735. By order of January 8, 1975, the Motor Carrier Board approved the transfer to Air Land Freight Consolidators, Inc., San Francisco, Calif., of that portion of the operating rights in Permit and Order No. 387 issued October 22, 1971, to Trans-Air Freight System, Inc., Jamaica, N.Y., authorizing operations as a freight forwarder, in interstate commerce, through the use of the facilities of common carriers of express by motor vehicle, in the transportation of general commodities (except Classes A and B explosives, household goods as defined by the Commission, commodities which because of size and weight require special equipment, commodities in bulk, unaccompanied baggage, and motor vehicles), between points in the United States, including Alaska and Hawaii, restricted to the transportation of traffic having an immediately prior or subsequent movement by air in the domestic air forwarder service of Air Land Freight Consolidators, Inc., and subject further to the interpretation made in the report at 339 I.C.C. 17. Hylan Cooper, 450 Seventh Avenue, New York, N.Y. 10001, attorney for applicants.

No. MC–FC–35459. By order entered January 16, 1974, the Motor Carrier Board approved for a period of one year to Route Messenger Services, a corporation, Long Island City, New York, of that portion of the operating rights set forth in Certificate No. MC 1668, issued January 16, 1941, to Riteway Express, Inc., Westwood, N.J., authorizing transportation of general commodities, with the usual exceptions between points and places in the New York, N.Y., Commercial Zone, as defined by the Commission in 1 M.C.C. 665, on the one hand, and, on the other, Bloomingdale, Butler, Clifton, Haskell, Hawthorne, Midvale, Passaic, Pequannock, Pompton Plains, Pompton Lakes, Ringwood Manor, Riverdale, Wanaque, N.J., and points and places in Bergen County, N.J. Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904, practitioner for lessee, and Edward M. Alfano, 550 Mamaroneck Avenue, Harrison, N.Y. 10528, attorney for lessor.

No. MC–FC–75412. By order of 1–17–75, the Motor Carrier Board on reconsideration approved the transfer to Anderson Suburban Delivery, Inc., Youngstown, Ohio, of the operating rights in Certificate No. MC 119742 issued March 9, 1961, as corrected April 3, 1964, to United Parcel Delivery, Inc., Youngstown, Ohio, authorizing the transportation of such commodities as are dealt in by ladies' ready-to-wear stores, from Youngstown, Ohio, to points in Lawrence and Mercer Counties, Pa.; such commodities as are dealt in by wholesale and retail paper houses, from Youngstown, Ohio, to Sharon, Farrell, Sharpsville, and Wheatland, Pa.; such commodities as are dealt in by wholesale and retail hardware stores, from Youngstown, Ohio, to points in Lawrence, Mercer, Beaver, Butler, Crawford, Erie, and Venango Counties, Pa.; such commodities as are dealt in by mill supply houses and by wholesale and retail hardware houses, from Warren, Ohio, to points in Beaver, Butler, Crawford, Erie, Lawrence, Mercer, and Venango Counties, Pa.; agricultural limestone, from Bessemer, Pa., to Youngstown, Ohio, and flour, grains, feeds, salt, macaroni, soap, soap powders, vegetable shortening, paint, and chemicals, from Youngstown, Ohio, to points in Pennsylvania and Ohio within 90 miles of Youngstown. David H. Beaver, 8 East Broad Street, Columbus, Ohio 43215, attorney for applicants.

No. MC–FC–75567. By order of January 6, 1975, the Motor Carrier Board approved the transfer to Louis G. Hannum, Jr., Pitman, N.J., of that portion of Certificate No. MC 49392 Sub 5 issued July 28, 1972, to Campbell's Moving Company, Inc., Trevose, Pa., authorizing the transportation of such merchandise as is dealt in by wholesale and retail department stores between Philadelphia, Pa., on the one hand, and, on the other, Camden, N.J., and points in that part of New Jersey within 30 miles of Camden. Franklin A. Wurman, Esq., 1400 Two Girard Plaza, Philadelphia, Pa. 19102.

[Notice 221]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's General Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before February 12, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–75399. By order entered 1–14–74, Division 3, acting as an Appellate Division, approved the transfer to Citizen Express, Inc., Asheville, N.C., of that portion of the operating rights set forth in Certificate No. MC 62824, issued by the Commission December 13, 1940, to Carolina Delivery Service Company, Inc., Charlotte, N.C., authorizing the transportation of motion picture film, supplies, and commodities used in the operations of motion picture theatres when moving to or from places of exhibition, between a specified area in North Carolina; and that portion of the operating rights set forth in said Certificate to Media Express, Inc., authorizing the transportation of motion picture film, supplies, and commodities used in the operation of motion picture theatres when moving to or from places of exhibition, between points in South Carolina, points in a specified area in North Carolina, Danville, Va., and Augusta, Ga., Warren A. Goff, 2008 Clark Tower, Memphis, Tenn. 38137, attorney for applicants.

[Notice 6 TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 531 (Sub-No. 304TA), filed January 9, 1975. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). [Notice 8]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 17, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 13900 (Sub-No. 24TA), filed January 13, 1975. Applicant: MIDWEST HAULERS, INC., 228 Superior Street, Toledo, Ohio 43604. Applicant's representative: William E. Gibbs (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, which at the time are moving on bills of lading of freight forwarders, as defined in Section 402(a) of the Act. COMMITTEE MANAGEMENT

Notice of Proposed Rulemaking

V4016 JAN23 75 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

[45 CFR Part 11]

COMMITTEE MANAGEMENT

Notice of Proposed Rule Making

Notice is hereby given of proposed Department regulations implementing the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770, 5 U.S.C. App. I et seq. and Office of Management and Budget Circular No. A-63, 39 FR 12389, April 5, 1974. The regulations will govern the formation and utilization of all advisory committees within the Department's administrative jurisdiction.

Section 11.2 contains definitions of words and terms used in later sections of the regulations and § 11.3 expresses the general policies underlying the regulation. Section 11.4 specifies procedures which must be met in establishing, terminating, and continuing advisory committees including provisions governing the chartering and reporting of all such bodies.

Section 11.5 provides rules governing meetings, public participation therein, the keeping of minutes and other records of meetings, and public access to committee records and § 11.6 establishes remedy in the event of denial of access.

Section 11.7 requires the Department to provide necessary staff and other resources for committees within its administrative jurisdiction; appropriate Department officials to maintain records fully disclosing the disposition of all funds at the disposal of a committee; and establishes guidelines for compensating committee members and staff for their services and expenses.

Section 11.8 provides a method for the submission of advisory committee reports and other documents to the Library of Congress; § 11.9 places responsibility for the conduct of an annual review and report thereon of all advisory committees on the Department Committee Management Officer; and § 11.10 provides for the designation by the Secretary of a Department employee to implement this regulation.

Prior to the final adoption of these proposed rules, consideration will be given to any data, views, or arguments, pertaining thereto which are submitted in writing on or before March 10, 1975.

Comments should be addressed to:

Department Committee Management Officer, Department of Health, Education, and Welfare, Room 4036 North Building, 330 Independence Avenue, SW., Washington, D.C. 20201.

Comments received will be available for inspection at the Department's Information Center, Room 5319 at the above address.

Dated: January 17, 1975.

CASPAR W. WEINBERGER,
Secretary.

PART 11—COMMITTEE MANAGEMENT

Sec.
11.1 Scope.
11.2 Definitions.
11.3 General policies.
11.4 Guidelines for the creation and renewal of advisory committees.
11.5 Operation of advisory committees.
11.6 Administrative remedies.
11.7 Administration of advisory committees.
11.8 Submission of reports to the Library of Congress.
11.9 Annual review; periodic reports.
11.10 Department committee management officer.

AUTHORITY: 86 Stat. 770, 5 U.S.C. App. I et seq. and Office of Management and Budget Circular A-63, 39 FR 12389, April 5, 1974.

§ 11.1 Scope.

(a) This part contains the Department's regulations implementing the Federal Advisory Committee Act.

(b) The regulations provided under this part apply to all advisory committees providing advice to the Department or any of its officials except to the extent that statutory provisions governing an advisory committee may specifically provide otherwise.

§ 11.2 Definitions.

(a) "Act" means the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770, 5 U.S.C. App. I et seq.).

(b) "Advisory committee," subject to exclusions described in paragraph (b)(3) of this section means any committee, board, commission, council, conference, panel, task force, or other similar group or any subcommittee or other subgroup thereof which is established by statute or reorganization plan; or established or utilized by the Department in the interest of obtaining advice or recommendations for the President or one or more agencies or officers of the Federal Government.

(1) In determining whether a group is an advisory committee, the following factors will be utilized:

(i) Fixed membership including at least one person who is not a full-time Federal employee;

(ii) Establishment by a Federal official or law; or if not Federally established, the initiative for its use as an advisory body for the Federal Government comes from a Federal official rather than from a private group;

(iii) A purpose of providing advice regarding a particular subject or particular subjects;

(iv) An organizational structure (e.g., officers and a staff;

(v) Regular or periodic meetings.

(2) The functions of an advisory committee are to be solely advisory. Where a group provides some advice to the Department, but the group's advisory function is incidental and inseparable from other (e.g., operational) functions, the provisions of this part do not apply. However, if the advisory function is separable, the group is subject to this part to the extent that the group operates as an advisory committee.

(3) Groups excluded from the effect of the provisions of this part include:

(i) Any committee which is composed wholly of full-time officers or employees of the Federal Government;

(ii) Any committee which is exclusively operational in nature (e.g., has functions which include making or implementing decisions, as opposed to the offerings of advice or recommendations);

(iii) Any local civic group whose primary function is that of rendering a public service with respect to a Federal program;

(iv) Any State or local committee or similar group established to advise State or local officials or agencies;

(v) The term "advisory committee" is not intended to include persons or organizations which have contractual relationships with the Department except in those cases where the criteria described in paragraph (b)(1) of this section are present.

(c) "Department" means the Department of Health, Education, and Welfare.

(d) "Secretary" means the Secretary of Health, Education, and Welfare, or his designee.

(e) "OMB Secretariat" is the office within the Office of Management and Budget to administer the provisions of OMB Circular A-63.

(f) "Presidential advisory committee" means an advisory committee which advises the President.

(g) "Statutory advisory committee" is one established by the Congress or required to be established by the Congress.

(h) "Non-statutory advisory committee" is one established by the President or other Federal officer, including a committee which was authorized by, but not established by or required to be established by statute.

§ 11.3 General policies.

(a) In interpreting this part, Department officials will be guided by the Act and the intent of Congress in enacting the Act. These considerations include:

(1) Limiting the number of advisory committees to those that are essential and terminating any committee not fulfilling its purpose;

(2) Insuring effective use of advisory committees and their recommendations, while assuring that decisionmaking authority is retained by the responsible Department officers;

(3) Providing clear goals, standards and uniform procedures with respect to creation, operation, and duration of committees;

(4) Insuring that adequate information is provided to the President, the Congress and the public regarding advisory committees, and

(5) Insuring adequate opportunities for access by the public to advisory committee meetings.

(b) Department officials will be guided by the HEW Standards of Conduct (45 CFR 73.735), the Federal Personnel Manual, and the Federal Conflict of Interest statutes (18 U.S.C. 201 et seq.), in preventing conflicts of interest or appearance of conflicts of interest on the part of Department employees concerned with advisory committees, advisory committee members and staff, and consultants and experts concerned with advisory committees.

§ 11.4 Guidelines for the creation and renewal of advisory committees.

(a) Advisory committees will be established by the Department only when they are determined to be essential. Their number will be kept to the minimum necessary. They will be terminated when they are no longer carrying out the purposes for which they were established or such purposes are no longer regarded as necessary to the operation of the Department.

(b) No advisory committee shall be established or renewed unless such establishment or renewal is specifically authorized by statute, or established by statute or the President, or determined as a matter of formal record by the Secretary (after written consultation with the OMB Secretariat) to be in the public interest in connection with the performance of duties imposed on the Department by law. In seeking such determination by the Secretary, the responsible official requesting establishment or continuance of an advisory committee will make a request in writing to the Secretary. The request shall describe the nature or purpose of the proposed committee and the reasons why it is needed, including an explanation of why the functions of the proposed committee cannot be performed by Department employees, by an existing committee, or by some other means.

(c) No advisory committee shall meet or take any action until:

(1) The establishment or renewal of the committee, in appropriate instances, has been approved by the OMB Secretariat;

(2) A formal charter has been approved by the Secretary;

(3) Public announcement of its establishment or renewal has been made in the FEDERAL REGISTER, at least fifteen days prior to the filing of the committee's charter with the Congress;

(d) Copies of the charter will be provided by the Department Committee Management Officer to the appropriate standing committees of the Senate and House of Representatives and to the Library of Congress. In the case of Presidential Committees a copy of the charter will also be provided to the Office of Management and Budget. The charter shall be in a form prescribed by the Department Committee Management Officer and shall contain the following information:

(1) The committee's official designation;

(2) The committee's objectives and the scope of its activity;

(3) The period of time necessary for the committee to carry out its purpose;

(4) The official to whom the committee reports;

(5) The person responsible for providing the necessary support for the committee;

(6) A description of the duties for which the committee is responsible, and, if such duties are not solely advisory, a specification of the authority for such functions;

(7) The estimated annual operating costs in dollars and man-years for such committee;

(8) The estimated number and frequency of committee meetings;

(9) The committee's termination date, if less than two years from the date of the committee's establishment; and

(10) The date the charter is approved by the Secretary.

(e) With regard to subgroups, if all of its members are members of the parent committee, requisite information may be set forth in the charter of the parent committee. In the event a subgroup includes members who are not all drawn from the parent committee, it must be separately chartered. In addition, if not incorporated in the charter of the parent committee, subgroups must be separately chartered.

(f) No advisory committee will be created if its functions could otherwise be performed effectively within the Department or by an existing committee.

(g) The membership of an advisory committee shall be fairly balanced in terms of the points of view represented and the committee's functions.

(h) No strict rule of proportional representation of the various types of groups is applicable. However, in regard to the selection of committee members, there shall be no discrimination on the basis of race, color, national origin, religion, age or sex.

(i) Appropriate safeguards shall be taken to assure that an advisory committee's advice and recommendations will not be inappropriately influenced by any special interest, but will instead be the result of the advisory committee's independent judgment.

(j) Each advisory committee shall prepare an annual report describing its membership, functions, recommendations and other actions. A copy of the report shall be submitted to the Department Committee Management Officer. This report will be made available by the Department Committee Management Officer to the public upon request.

(k) Unless specifically provided otherwise by statute or Presidential directive, advisory committees shall be utilized solely for advisory functions. For purposes of this provision, "Presidential directive" refers to an executive order, executive memorandum or an OMB directive.

(l) When an advisory committee has both advisory and operating functions and the two types of functions are separable, this part shall apply only to the advisory functions.

(m) Decisions regarding actions or policies relating to matters dealt with by a Department advisory committee shall be made solely by Department officials.

(n) No Department advisory committee which was in existence on January 5, 1973 will continue to exist after January 5, 1975 unless renewed prior to that date by action of the Congress, the President, or the Secretary, as appropriate. In the case of a committee continued by the Congress or the President beyond its scheduled termination date, a charter must be approved by the Secretary and the requirements set forth in paragraph (c) of this section complied with before any meeting is held. To renew a committee the Secretary shall determine that such renewal is necessary and inform the OMB Secretariat of his determination and the reasons for it. Renewal determinations shall be made not more than sixty days before the scheduled date of termination. If the OMB Secretariat concurs, the Department Committee Management Officer shall notify the responsible Department officials who shall publish notice of the renewal in the FEDERAL REGISTER. A new charter shall also be approved by the Secretary.

(o) Any advisory committee which is renewed may continue for no more than a two-year period unless prior to the expiration of that period it is renewed for another two-year period in accord with the above provisions.

(p) Each advisory committee established by the President or the Secretary after January 5, 1973, shall terminate not later than two years after its establishment unless prior to that time it is renewed by appropriate action.

§ 11.5 Operation of advisory committees.

(a) *Meetings.* The provisions of this section shall apply to meetings of all Department advisory committees and all subgroups.

(1) *Calling of meetings and agenda.* (i) No advisory committee shall hold any meetings except at the call of or with the advance approval of the designated Department official.

(ii) No meeting shall be held in the absence of a quorum. Unless otherwise established in the charter of the committee, a quorum shall consist of a majority of the committee's authorized membership.

(iii) Each meeting of an advisory committee shall be conducted in accordance with an agenda approved by the designated Department official. Ordinarily, copies of the agenda shall be distributed to the members of the committee prior to the date of the meeting. The agenda shall list the matters to be considered at the meeting and shall indicate whether any part of the meeting is concerned with matters which are within the exemptions of the Freedom of Information Act, 5 U.S.C. 552(b).

(2) *Notice of meeting.* (i) Except when the Director of the Office of Management and Budget determines otherwise for reasons of national security, or except as otherwise provided herein, no-

V 40 16 JAN 23 75 XUM

tice of each advisory committee meeting shall be published in the FEDERAL REGISTER at least fifteen days prior to the meeting. The fact that a meeting is closed to the public pursuant to paragraph 10(d) of Pub. L. 92–463 does not affect the foregoing requirement.

(*a*) The notice shall state the name of the advisory committee, the time and place of the meeting, and the purposes of the meeting and shall include a summary of the agenda.

(*b*) The notice shall state the extent to which the public will be permitted to attend or participate in the meeting. If the meeting will be closed to the public, the notice shall also state the reasons for closing, including appropriate citation to the Freedom of Information Act.

(*c*) This notice shall be provided by the Department official, or his designee, to whom the advisory committee reports. In the case of a Presidential advisory committee this notice shall be provided by the Executive Secretary of the committee.

(ii) In addition to notice in the FEDERAL REGISTER, other forms of notice shall be used to the extent practicable.

(iii) When a meeting must be called without fifteen days notice being given, the following steps shall be taken, to the extent possible:

(*a*) Advance notice shall be published in the FEDERAL REGISTER.

(*b*) Other forms of notice should be utilized whenever practicable.

(*c*) In the case of meeting notices published in accordance with paragraphs (a)(2)(iii) and (*a*) and (*b*) of this section, the notice must contain an explanation for the failure to give fifteen days notice.

(3) *Public participation at meetings.* (i) Subject to the exceptions described in paragraph (a)(6) of this section each advisory committee meeting shall be open to the public, and interested persons shall be permitted to attend, appear before, or file statements with any advisory committee.

(ii) The Executive Secretary of each committee shall, with respect to any advisory committee meeting, all or part of which is open to the public, assure compliance with the following rules:

(*a*) Meetings shall be held at reasonable times and places that are reasonably accessible to members of the public. Whenever feasible, Government facilities shall be used and meetings held in places involving the least expense to the Department.

(*b*) The size of the meeting room shall be reasonable, considering such factors as the size of the advisory committee, the number of members of the public expected to seek to attend, and the resources and facilities available to the Department.

(*c*) Any member of the public who wishes to do so shall be permitted to file a written statement with the committee, before or after a meeting.

(*d*) To the extent that the time available for a meeting permits, interested persons may be permitted to present oral statements. Any person seeking to present an oral statement to a committee may be required to obtain advance approval for such participation from the committee chairman or the committee's Executive Secretary.

(*e*) Participation by members of the public at committee meetings or questioning of committee members or other participants shall not be permitted except with the authorization of the committee chairman.

(4) *Minutes and transcripts of meetings.* (i) Detailed minutes shall be kept of each meeting of each advisory committee, including meetings of formal and informal subgroups. The Executive Secretary of each advisory committee shall keep the minutes or designate some person to keep the minutes. Minutes need not be kept if a verbatim transcript is made.

(ii) The minutes shall include at least the following: The time and place of the meeting; a list of advisory committee members and staff and Department employees present at the meeting; a detailed summary of matters discussed, including different positions advanced by members and conclusions reached by the committee; copies of all reports received, issued, or approved by the advisory committee; an explanation of the extent to which the meeting was open to the public; an explanation of the extent of public participation, including a list of members of the public who presented oral or written statements; and an estimate of the number of members of the public who attended the meeting.

(iii) Within a reasonable time after the meeting the minutes shall be completed and submitted to the chairman of the advisory committee.

(iv) Within a reasonable time after receipt of the minutes the chairman of the advisory committee shall certify to the accuracy of the minutes and submit them to the Department official advised by the committee.

(5) *Designated Department employee.* (i) Each advisory committee meeting will be attended by a Department employee designated by the Department official responsible for the Committee. Ordinarily, the employee so designated will serve the advisory committee on a continuing basis.

(ii) No advisory committee shall conduct a meeting in the absence of the designated Department employee. If simultaneous subgroup meetings are to be held, each subgroup shall have a designated Department employee in attendance.

(iii) The designated Department employee is authorized to adjourn any advisory committee meeting, whenever he determines adjournment to be in the public interest. Inter alia, the designated Department employee shall adjourn the meeting in the event of unwarranted departure from a meeting's agenda.

(6) *Closing advisory committee meetings.* (i) Subsection 10(d) of the Act provides that the provisions concerning open meetings and public participation shall not apply to any advisory committee which the President, or the head of the department to which the advisory committee reports, determines is concerned with matters listed in 5 U.S.C. 552(b). The Department's regulation implementing that Act is found at 45 CFR 5. Department officials shall be guided by the policies set forth in that regulation in making determinations to close meetings. In applying the provisions of 5 U.S.C. 552(b) to advisory committee meetings, liberal interpretations shall be assumed with respect to the openness of such meetings. Any determination to close a meeting (or portion) shall restrict such closing to the shortest reasonable time.

(ii) In applying the Freedom of Information Act exemptions to advisory committee meetings, the following rules shall be followed:

(*a*) If a meeting (or portion) will have the express purposes of discussing an existing document which is within one of the exemptions set forth in 5 U.S.C. 552(b), the meeting (or portion) may be closed to the public.

(*b*) Meetings closed solely on the basis that a document exempt from mandatory disclosure under exemption (5) (concerning intra-agency and inter-agency memoranda and letters) is to be discussed, may only be closed if the Secretary determines that it is essential to close such meeting (or portion) to protect the free exchange of internal views of committee members and avoid undue interference with Department or committee operation.

(*c*) A meeting (or portion) involving solely the internal expression of views and judgments of committee members, and not the discussion of an exempt document may be closed if a finding is made that it is essential to close the meeting (or portion) to protect the free exchange of members' views and avoid undue interference with Department or committee operations, and such views if reduced to writing would be protected from mandatory disclosure under section 552(b)(5) of Title 5 U.S.C. When feasible, the public shall be given an opportunity to present relevant information and views to the committee. Concurrence for closing such a meeting shall be obtained from the Office of the General Counsel and the Office of Public Affairs.

(*d*) If a meeting (or portion of a meeting) will have the express purpose of discussing a matter which is within one of the exemptions set forth in 5 U.S.C. 552(b), other than exemption (5), the meeting (or portion) may be closed to the public even though no specific exempt document is to be discussed.

(*e*) If the subject of a meeting will be such that paragraphs (a)(6)(ii) (*a*) through (*d*) inclusive above do not furnish a basis for closing it, the meeting shall be open to the public.

(*f*) When an advisory committee seeks to have a meeting (or portion) closed, the Executive Secretary shall make a request in writing for a determination by the Secretary. Such a request shall set forth the reasons why the meeting (or portion) should be closed. Whenever practical, the request shall be

submitted at least thirty days before the scheduled date of the meeting.

(*g*) If the Secretary finds the request to be warranted and in accord with the policy of the Act and the Freedom of Information Act, the request shall be granted. The determination made by the Secretary shall be in writing and contain specific reasons for closing the meeting (or portion). Determinations made by authorized designees must be reviewed and approved by the Office of the General Counsel and the Office of Public Affairs.

(*h*) If a meeting is to be held for the consideration of several separable matters, not all of which are within the exemptions of 5 U.S.C. 552(b), only the portion of the meeting dealing with exempt matters may be closed.

(*i*) When part of a meeting is to be closed, the agenda shall be arranged to facilitate attendance by the public at the open portion of the meeting.

(*j*) When a meeting (or portion) is closed, only members of the committee, its staff, and Federal employees shall be permitted to attend.

(*k*) When a meeting (or portion) is closed, members of the advisory committee shall not disclose the matters discussed except to other members of the advisory committee, the staff of the advisory committee or Department employees.

(*l*) The Department Committee Management Officer may review, after the meeting, the appropriateness of any determination to close a meeting (or portion) and require that corrective action be taken with respect to the particular advisory committee or general procedures concerning the closing of meetings.

(*m*) When a meeting (or portion) is closed, and detailed minutes are not to be made available in their entirety to the public, the advisory committee shall prepare and make available to the public within 14 days of the close of the meeting a summary of its activities and related matters which are informative to the public consistent with the policy of 5 U.S.C. 552(b). Notice of the availability of such a summary shall be incorporated in the notice of the meeting published in the FEDERAL REGISTER.

(b) *Access to records.* (1) All records, reports, and other documents of each advisory committee shall be available for public inspection and copying pursuant to the Department's public information regulation. Documents referred to herein include the records, reports, transcripts, minutes, appendices, working papers, drafts, studies, agenda or other documents which were made available to or prepared for or by each advisory committee.

(2) Advisory committee records determined to be available for public inspection are to be made available for inspection and copying at a single location in the offices of the advisory committee or the Department organizational component to which the advisory committee reports. The advisory committee or appropriate Department organizational component shall make available to any person copies of transcripts of committee proceedings or meetings at cost determined in accordance with the appropriate fee schedule.

(3) Advisory committee records will be made available until the advisory committee ceases to exist. Disposition of advisory committee records after the termination of the committee shall be determined by the Department in accordance with applicable regulations.

§ 11.6 Administrative remedies.

(a) Any person whose request for access to an advisory committee document is denied may seek administrative review in accord with the Department's Freedom of Information Act regulation.

(b) Any person whose request for access to an advisory committee meeting is denied after publication of the notice of the meeting in the FEDERAL REGISTER may appeal to the appropriate official designated at 45 CFR 5.82. If the decision on appeal is adverse to the requestor concurrence of the Assistant Secretary for Public Affairs or his designee, shall be obtained.

§ 11.7 Administration of advisory committees.

(a) The Department shall provide support services, staff, quarters, supplies, funds (including, where appropriate, funds for the publication of reports), for each advisory committee within its administrative jurisdiction unless the establishing authority provides otherwise.

(b) Maintenance of financial records and uniform pay and expense guidelines.

(1) *Maintenance of records.* The Department official to whom a committee reports will be responsible for the maintenance of records fully disclosing disposition of all funds at the disposal of the committee and the nature and extent of its activities. The Comptroller General of the United States, or any of his authorized representatives, shall have access, for the purpose of audit and examination, to any such records.

(2) *Rates of pay.* (i) Members of all advisory committees shall be paid at rates fixed by the Secretary. In establishing the rate of pay, consideration will be given to the significance, scope and technical complexity of the matters with which the advisory committee is concerned and the qualifications required of the members of such a committee.

(ii) Staff members of an advisory committee shall be paid at an appropriate rate in the general schedule.

(iii) The pay for consultants and experts utilized by advisory committees shall be fixed after giving consideration to the qualifications required of the consultant or expert and the significance, scope, and technical complexity of the work to be undertaken by the consultant or expert. In no case shall the rate of pay to such a consultant or expert exceed the maximum rate of pay which the Department may generally pay experts and consultants under 5 U.S.C. 3109, or other law, including the statute establishing a committee.

(3) *Expenses.* The members of an advisory committee, or the staff of an advisory committee, while engaged in the performance of their duties away from their homes or regular places of business, may be allowed travel expenses including per diem in lieu of subsistence as authorized by 5 U.S.C. 5703 for persons employed intermittently in the government service.

§ 11.8 Submission of reports to Library of Congress.

(a) Subject to the provisions of the Freedom of Information Act, each advisory committee, through the Department Committee Management Officer, shall file eight copies of each of its reports with the Library of Congress.

(b) When the Department Committee Management Officer determines that it would be appropriate, background papers prepared by consultants for an advisory committee and other advisory committee documents may also be filed with the Library of Congress.

§ 11.9 Annual review; periodic reports.

(a) The Department shall conduct an annual review of all advisory committees within its administrative jurisdiction. The Department Committee Management Officer will be responsible for coordinating this review on behalf of the Secretary and for preparing a report on it for submission to the Office of Management and Budget in accordance with OMB Circular A–63.

(b) The Department Committee Management Officer shall coordinate the preparation of the Department's Annual Report on its advisory committees which shall be submitted annually to the General Services Administration as required by Executive Order 11769 dated February 21, 1974.

(c) The OMB Secretariat or the Department Committee Management Officer may, from time to time, require any Department advisory committee to submit periodic reports regarding its operations, including such matters as might be related to public access to committee meetings and committee records and the handling of any administrative complaints concerning such matters.

§ 11.10 Department committee management officer.

The Secretary shall designate a Department employee to implement this part and consult with the Office of Management and Budget on his behalf.

ENVIRONMENTAL PROTECTION AGENCY

■

PLASTICS AND SYNTHETICS MANUFACTURING POINT SOURCE CATEGORY

V40-16 JAN23 75 XUM

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 324-5]

PART 416—PLASTICS AND SYNTHETICS POINT SOURCE CATEGORY

On September 20, 1974, notice was published in the FEDERAL REGISTER (39 FR 33889), that the Environmental Protection Agency (EPA or Agency) was proposing effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources within the ethylene vinyl acetate copolymers subcategory, the fluorocarbons subcategory, the polypropylene fiber subcategory, the alkyds and unsaturated polyester resins subcategory, the cellulose nitrate subcategory, the polyamides (Nylon 6/12) subcategory, the polyester resins (thermoplastic) subcategory, the silicones subcategory, the epoxy resins subcategory, the phenolic resins subcategory, and the urea and melamine resins subcategory of the plastics and synthetics category of point sources.

The purpose of this notice is to establish final effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources in the plastics and synthetics category of point sources by amending 40 CFR Chapter I, Subchapter N, Part 416 by adding thereto the ethylene vinyl acetate copolymers subcategory (Subpart N), the polytetrafluoroethylene subcategory (Subpart O), the polypropylene fiber subcategory (Subpart P), the alkyds and unsaturated polyester resins subcategory (Subpart Q), the cellulose nitrate subcategory (Subpart R), the polyamides (Nylon 6/12) subcategory (Subpart S), the polyester resins (thermoplastic) subcategory (Subpart T), and the silicones subcategory (Subpart U). This final rulemaking is promulgated pursuant to sections 301, 304 (b) and (c), 306 (b) and (c) and 307(c) of the Federal Water Pollution Control Act, as amended, (the Act); (33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316 (b) and (c) and 1317(c)); 86 Stat. 816 et seq.; Pub. L. 92-500. A regulation regarding cooling water intake structures for all categories of point sources under section 316(b) of the Act will be promulgated in 40 CFR 402.

In addition, the EPA is simultaneously proposing a separate provision which appears in the proposed rules section of the FEDERAL REGISTER, stating the application of the limitations and standards set forth below to users of publicly owned treatment works which are subject to pretreatment standards under section 307(b) of the Act. The basis of that proposed regulation is set forth in the associated notice of proposed rulemaking.

The legal basis, methodology and factual conclusions which support promulgation of this regulation were set forth in substantial detail in the notice of public review procedures published August 6, 1973 (38 FR 21202) and in the notice of proposed rulemaking for the ethylene vinyl acetate copolymers subcategory, the fluorocarbons subcategory, the polypropylene fiber subcategory, the alkyds and unsaturated polyester resins subcategory, the cellulose nitrate subcategory, the polyamides (Nylon 6/12) subcategory, the polyester resins (thermoplastic) subcategory, the silicones subcategory, the epoxy resins subcategory, the phenolic resins subcategory, and the urea and melamine resins subcategory. In addition, the regulation as proposed was supported by two other documents: (1) The Document entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Synthetic Polymers Segment of the Plastics and Synthetics Manufacturing Point Source Category" (September, 1974) and (2) the document entitled "Economic Analysis of Proposed Effluent Guidelines, The Plastics and Synthetics Industry, Phase II" (September, 1974). These documents were made available to the public and circulated to interested persons shortly after the time of publication of the notice of proposed rulemaking.

Interested persons were invited to participate in the rulemaking by submitting written comments within 30 days from the date of publication. Prior public participation in the form of solicited comments and responses from the States, Federal agencies, and other interested parties were described in the preamble to the proposed regulation. The EPA has considered carefully all of the comments received and a discussion of these comments with the Agency's response thereto follows.

(a) *Summary of comments.* The following responded to the request for written comments contained in the preamble to the proposed regulation: Rohm and Haas Company, Manufacturing Chemists Association, Exxon Chemical Company, Union Carbide Corporation, Shell Oil Company, Stauffer Chemical Company, U.S. Department of Interior, U.S. Department of Commerce, Arco/Polymers Incorporated, State of New York Department of Environmental Conservation, Allied Chemical Corporation, Dow Corning Corporation, Monsanto Polymers and Petrochemicals Company, U.S. Industrial Chemicals Company, Dow Chemical Company, and the Effluent Standards and Water Quality Information Advisory Committee.

Each of the comments received was carefully reviewed and analyzed. The following is a summary of the significant comments and the Agency's response to them.

(1) Several commenters requested that the comment period be extended 30 days due to the delay of the Development Document after the proposed regulations appeared in the FEDERAL REGISTER.

Each commenter who requested an extension was sent a letter from the General Counsel's office explaining the EPA position on this matter. The Agency could not formally extend the public comment period in view of the court order requiring promulgation of final regulations. However, the commenters were informed that while the formal comment period had ended, the Agency would continue to accept comments and additional information and would make sincere efforts to give such comments and information the most attention and consideration possible. It is the policy of the Agency to encourage maximum public participation in its rulemaking and to this end opportunity is afforded to comment on the contractor's report and again on the proposed regulations. In addition, information received at any time is utilized to the maximum extent possible.

(2) Several commenters stated that the title of the proposed rules and the reference to "effluent limitations and guidelines" in the preamble implies authority beyond that stipulated in section 304(b) of Pub. L. 92-500. The commenters recommended that the title correctly refer to "effluent guidelines and standards" and that the promulgated rules not imply or assume authority other than that specified in the Act.

These regulations constitute effluent limitations pursuant to section 301 of the Act, as well as guidelines under section 304. They are, therefore, correctly referred to as effluent limitations and guidelines.

(3) Several commenters stated that the EPA "variance procedure", such as that set forth in § 416.152 (39 FR 33898), is not a workable and satisfactory mechanism.

This comment is a general one concerning the best practicable control technology currently available "variance procedure" and is applicable to all industries. The "variance procedure" is currently under public comment and judicial review (39 FR 28927), and will be answered in due course.

(4) Some commenters stated that the preamble indicates that the 10 mg/l basis for best available technology economically achievable (BATEA) TSS levels is derived from other industries and is, therefore, not applicable to the plastics industry. The commenter recommended that the BATEA limitation be based upon operating data on effluents from the industry subcategories affected.

For BATEA and for new source performance standards (NSPS) EPA set its limitations and standards based upon an effluent TSS concentration of 10 mg/1. This concentration is achievable by use of filtration techniques—including mixed media filtration. Mixed media filtration is a pollution control technique which is well established and is currently used with considerable success in a number of treatment works—including municipal systems and waste treatment systems used in the petroleum industry. The wastes from biochemical treatment systems consists mostly of microbial cells regardless of the original source of the raw wastes. Microbial cells have similar

solids removal characteristics. While it has not been demonstrated in the plastics and synthetics industry, the success shown in other uses convinces the Agency that mixed media filtration is fully adaptable to this industry and will achieve the effluent concentration required.

(5) Several commenters recommended that COD be deleted from proposed best practicable control technology currently available (BPCTCA) and NSPS rulemakings. The commenters stated that comment 16 of the preamble to the proposed regulations implies that no independent COD limit is intended.

The COD limitations were included in the proposed regulation because COD is a measure of the chemical byproduct waste of the manufacturing process and falls under the definition of pollutant contained in the Act [section 502(6)]. All of the 1977 COD limitations were non-controlling as to technology. That is, the COD limitations were such that adequate removal of BOD5 will usually result in adequate removal of COD. The numbers were derived from data showing the removal of COD which accompanies reduction of BOD5 to the levels set in the effluent limitations for each subcategory. A plant which is achieving the BOD5 removal required by the regulations need not use any additional technology to meet the proposed COD levels for BPCTCA. The presence of COD limitation nonetheless fulfills an important function by requiring adequate handling and treatment of discarded (bad) batches of reactants and products, so as to avoid shock or peak COD loadings which would be inadequately treated but would not be discovered by a BOD5 analysis. Also, the COD test is a much quicker and more convenient test for the presence of oxygen demanding pollutants than is the BOD5 test. However, since the BPCTCA (1977) COD limits are liberal and would be easily attainable if the BOD5 limits are met, they are being dropped as a limitation parameter for BPCTCA (1977). In order to promote the collection of data on the oxygen demanding parameters of BOD5, COD and TOC (total organic carbon), the Agency is planning to require that a majority of the plants in each subcategory monitor their raw waste loads and treated effluents for BOD5, COD and TOC. This date will be collected for a reasonable period at which time the Agency will consider revising the limitations and standards. The requirement for a COD limit for NSPS will remain unchanged where the standards were based on demonstrated (or rationally transferable) attainable COD concentrations using NSPS technology. The NSPS COD limits for any subcategory that was based on an estimated COD/BOD5 ratio will be dropped from the regulation. (See revision 5)

(6) Several commenters stated that the proposed effluent limitations guidelines being proposed for ethylene-vinyl acetate (EVA) copolymer are significantly more rigid than those already promulgated for polyethylene homopolymer. The commenters suggested that EPA establish effluent limitations guidelines for the copolymer no more rigid than that promulgated for low density polyethylene. The commenters stated that the raw waste would be higher for copolymer rather than lower as suggested in the proposed regulations. Other comments on EVA were made in support of the commenters' suggestion.

The EVA comments were reviewed with respect to the EPA data base and the guidelines have been revised. (see revision 1).

(7) One commenter stated that provisions should be made in the regulations for alternate test procedures that will allow the Regional Administrator flexibility in setting parameter limits on individual point sources.

If a plant can show a direct relationship over a long period of time between BOD5, and COD, TOC or TOD, the parameter measurement of the COD, TOC, or TOD could be substituted for BOD5 if the COD, TOC, or TOD limitations are set such that the BOD5 limitation is not exceeded. This in no way negates the requirement of meeting an independent COD limitation where required.

(8) A commenter stated that a calendar month basis for the time period for compliance would be more reasonable than "thirty consecutive days."

The thirty consecutive days is a flexible requirement allowing the permit writer to set permit conditions that may run on a calendar month basis or, for example, from the 15th of one month to the 15th of the next.

(9) A commenter suggested that the 1983 guidelines should include the variance procedure appearing in 1977 guidelines.

The 1983 guidelines are subject to continuing review as required by the law. The need for a variance procedure for 1983 guidelines has not been demonstrated or established at this time. Also, see section 301(c) of the Act.

(10) A commenter stated that sales should not be a criteria for determining if a plant is meeting daily effluent limitations for the silicones subcategory.

Sales are not the criteria for determining a particular plant's limitations. Actual production is the basis for the limitations on the permit. Sales data were used only as part of the data base for determining effluent limitations guidelines and standards for the silicones industry.

(11) Several commenters stated that guidelines should be issued in the form of a range, not single numbers.

The plastics manufacturing industry has been categorized and subcategorized in such a manner as to take differences within the industry into account.

In total, four broad process oriented subcategories have been established for the plastics industry in which over twenty-four known product-process segments have been classified. Thirteen of the more significant of these segments were covered by the Phase I effluent limitations guidlines with twenty-seven different sets of values. Phase II covers eleven additional segments with fourteen different sets of limitations guidelines.

In establishing the various segments and sub-segments mentioned above and the associated effluent limitations guidelines, factors such as process, raw waste load, size, location, and age of plant were considered.

In addition, an individual may, in the case of the 1977 requirements, submit proper evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) requesting that the requirements be adjusted on the basis that factors related to such discharger are fundamentally different from those given consideration in the regulations and would adversely affect the ability of the particular facility to meet the established effluent limitations.

(12) Several commenters stated that allowances should be made for sources of wastes other than process effluent, e.g., housekeeping, stormwater runoff, once-through cooling water and spills.

In the case of all subcategories except EVA, the effluent limitations guidelines and standards represent process related wastes only such as direct contact process waste water, reaction waste water, housekeeping, spills, etc. It does not include once-through cooling water, cooling tower blowdown, and storm water runoff wastes. If stormwater is required to be collected and treated by state and local agencies, then allowances should be made for stormwater by such agency. The EVA subcategory includes cooling tower blowdown wastes.

(13) One commenter has suggested that EPA postpone promulgation of pretreatment standards for new sources until pretreatment standards for existing sources are published.

Section 307(c) of the Act requires the Agency to promulgate pretreatment standards for new sources at the same time that it promulgates new source performance standards under section 306. Therefore, EPA lacks authority to postpone promulgation of the new source pretreatment standards.

(14) A commenter stated that by incineration of materials containing silicone, silicone dioxide (SiO_2) is produced. Because the quantity of SiO_2 produced will vary with the quantity of silicone containing material incinerated, it is recommended the daily maximum allowance for total suspended solids (TSS) be 2.5 times the proposed 30 day average values.

The EPA data base supports the TSS limitations and includes variability factors of 2.2 for monthly and 4.0 for daily limits based on a long term attainable TSS wasteload. The daily maximum is not a function or multiple of the 30 day average maximum values. Both values are based on a multiple of a long term attainable TSS wasteload. (DD pp. 225-227).

(15) A commenter stated that the regulations for manufacturers of silicones should include limitations for oil and grease.

V40N23 JAN 23 75 XUM

The EPA data base does not support a limitation on oil and grease for the silicones industry at this time.

(16) A commenter stated that the definition of the term fluorocarbons should be more precise. The commenter said that it is not clear what exactly is included in the subcategory. The commenter's suggested change in Subpart O is to "Fluoropolymers Subcategory."

A detailed review of the information available on the fluorocarbons subcategory indicated that the commenter was correct regarding the definition of fluorocarbons and as to the clarity of the application of the guidelines. Changes have been made to correct this. (see revision 2).

(17) Commenters stated that guidelines for silicone manufacturers must reflect the major processes at individual plants. The commenters stated that silicone plants have been subcategorized into "multi-product" plants and "fluid products" plants. One commenter stated that their plant had been subcategorized wrongly as a fluid products plant and presented data to support the fact that the plant is a multi-product plant.

These comments were considered and changes were made to the effluent limitations guidelines and standards as supported by the data base. (see revision 3).

(18) Questions have been raised concerning the availability of standards or guidelines applicable to the disposal of solid wastes resulting from the operation of pollution control systems.

The principles set forth in "Land Disposal of Solid Wastes Guidelines" (40 CFR Part 241) may be used as guidance for acceptable land disposal techniques. Potentially hazardous wastes may require special considerations to ensure their proper disposal. Additionally, state and local guidelines and regulations should be considered wherever applicable.

(b) Revision of the proposed regulations prior to promulgation. As a result of public comments and continuing review and evaluation of the proposed regulation by the EPA, the following changes have been made in the regulation.

(1) The ethylene vinyl acetate (EVA) copolymer subcategory effluent limitations and guidelines were changed to be consistent with the low density polyethylene (LDPE) effluent limitation and guidelines of subpart E of §§ 416.52(a), 416.53(a), and 416.54. These changes were based on additional review of the industry data base and the fact that EVA copolymers are manufactured in the same equipment as LDPE and in most cases make up only a small percentage of the plant's total production of LDPE and EVA.

(2) The fluorocarbons subcategory was changed to the polytetrafluoroethylene subcategory and the description of applicability for this subcategory was changed in order to provide additional clarity as to the applicability of the subpart.

(3) The subdivisions in the silicones subcategory were changed from fluid products and multi-products to one silicones subcategory with wasteload allocations for different products or product mixes. This change was made based on new data supplied by a company that had been classified as a fluid products plant. The new data reclassified the company as a multi-product plant and changed the data basis for the original fluid and multi-product subdivision. The waste allocations for the different product mixes is the best description of the industry based on the current data base.

(4) Economic impact review has not been completed for the phenolic resins subcategory, epoxy resins subcategory, and melamine and urea resins subcategory. These three subcategories will be promulgated at a later date.

(5) The requirement for a COD limit for BPCTCA (1977) has been removed from the regulation. The COD standard for new sources for the polytetrafluoroethylene and polyamide (nylon 6/12) subcategories has been removed from the regulation. (See comment 5.)

(c) Economic impact. The changes that were made to the proposed regulations for the plastics and synthetics manufacturing category do not substantially affect the economic analysis. The changes detailed above result in the effluent limitations and standards being less stringent. These revisions would tend to make the costs slightly less for those affected subcategories. However, these changes would not affect the conclusions of the economic impact study.

(d) Cost-benefit analysis. The detrimental effects of the constituents of waste waters now discharged by point sources within the synthetic polymers segment of the plastics and synthetics manufacturing point source category are discussed in Section VI of the report entitled "Development Document for Effluent Limitations Guidelines for the Synthetic Polymers Manufacturing Segment of the Plastics and Synthetics Point Source Category" (December, 1974). It is not feasible to quantify in economic terms, particularly on a national basis, the costs resulting from the discharge of these pollutants to our Nation's waterways. Nevertheless, as indicated in Section VI, the pollutants discharged have substantial and damaging impacts on the quality of water and therefore on its capacity to support healthy populations of wildlife, fish and other aquatic wildlife and on its suitability for industrial, recreational and drinking water supply uses.

The total cost of implementing the effluent limitations includes the direct capital and operating costs of the pollution control technology employed to achieve compliance and the indirect economic and environmental costs identified in Section VIII and in the supplementary report entitled "Economic Analysis of Proposed Effluent Guidelines Plastics and Synthetics Industry, Phase II" (September 1974). Implementing the limitations will substantially reduce the environmental harm which would otherwise be attributable to the continued discharge of polluted waste waters from existing and newly constructed plants in the plastics and synthetics industry. The Agency believes that the benefits of thus reducing the pollutants discharged justify the associated costs which, though substantial in absolute terms, represent a relatively small percentage of the total capital investment in the industry.

(e) Publication of information on processes, procedures, or operating methods which result in the elimination or reduction of the discharge of pollutants. In conformance with the requirements of Section 304(c) of the Act, a manual entitled, "Development Document for Effluent Limitations Guidelines and New Source Performance Standards for the Synthetic Polymers Manufacturing Segment of the Plastics and Synthetics Point Source Category," will be published and will be available for purchase from the Government Printing Office, Washington, D.C. 20402 for a nominal fee.

Copies of the final economic analysis document will be available from the National Technical Information Service, Springfield, VA 22151.

(f) Final rulemaking. In consideration of the foregoing, 40 CFR Chapter I, Subchapter N, Part 416, Plastics and Synthetics Manufacturing Point Source Category, is hereby amended by adding additional subparts N, O, P, Q, R, S, T and U to read as set forth below. This regulation is being promulgated pursuant to an order of the Federal District Court for the District of Columbia entered in Natural Resources Defense Council, Inc. v. Train (Cv. No. 1609–73). That order requires that effluent limitations requiring the application of best practicable control technology currently available for this industry be effective upon publication. Accordingly, good cause is found for the final regulation promulgated below establishing best practicable control technology currently available for each subpart to be effective on January 23, 1975.

The final regulation promulgated below establishing the best available technology economically achievable, the standards of performance for new sources and the new source pretreatment standards shall become effective February 24, 1975.

Date: January 9, 1975.

RUSSELL E. TRAIN,
Administrator.

Subpart N—Ethylene-Vinyl Acetate Copolymers Subcategory

Sec.
416.140 Applicability; description of the ethylene-vinyl acetate copolymers subcategory.
416.141 Specialized definitions.
416.142 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
416.143 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.144 [Reserved]
416.145 Standards of performance for new sources.
416.146 Pretreatment standards for new sources.

Subpart O—Polytetrafluoroethylene Subcategory

416.150 Applicability; description of the polytetrafluoroethylene subcategory.
416.151 Specialized definitions.
416.152 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
416.153 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.154 [Reserved]
416.155 Standards of performance for new sources.
416.156 Pretreatment standards for new sources.

Subpart P—Polypropylene Fiber Subcategory

416.160 Applicability; description of the polypropylene fiber subcategory.
416.161 Specialized definitions.
416.162 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
416.163 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.164 [Reserved]
416.165 Standards of performance for new sources.
416.166 Pretreatment standards for new sources.

Subpart Q—Alkyds and Unsaturated Polyester Resins Subcategory

416.170 Applicability; description of the alkyds and unsaturated polyester resins subcategory.
416.171 Specialized definitions.
416.172 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
416.173 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.174 [Reserved]
416.175 Standards of performance for new sources.
416.176 Pretreatment standards for new sources.

Subpart R—Cellulose Nitrate Subcategory

416.180 Applicability; description of the cellulose nitrate subcategory.
416.181 Specialized definitions.
416.182 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

Sec.
416.183 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.184 [Reserved]
416.185 Standards of performance for new sources.
416.186 Pretreatment standards for new sources.

Subpart S—Polyamide (Nylon 6/12) Subcategory

416.190 Applicability; description of the polyamide (nylon 6/12) subcategory.
416.191 Specialized definitions.
416.192 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
416.193 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.194 [Reserved]
416.195 Standards of performance for new sources.
416.196 Pretreatment standards for new sources.

Subpart T—Polyester Resins (Thermoplastic) Subcategory

416.200 Applicability; description of the polyester resins (thermoplastic) subcategory.
416.201 Specialized definitions.
416.202 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
416.203 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.204 [Reserved]
416.205 Standards of performance for new sources.
416.206 Pretreatment standards for new sources.

Subpart U—Silicones Subcategory

416.210 Applicability; description of the silicones subcategory.
416.211 Specialized definitions.
416.212 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
416.213 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
416.214 [Reserved]
416.215 Standards of performance for new sources.
416.216 Pretreatment standards for new sources.

Subpart N—Ethylene-Vinyl Acetate Copolymers Subcategory

§ 416.140 Applicability; description of the ethylene-vinyl acetate copolymers subcategory.

The provisions of this subpart are applicable to discharges resulting from the reaction of vinyl acetate and ethylene and associated processing to manufacture ethylene vinyl acetate copolymers.

§ 416.141 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.142 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations specify other limitations, or initiate proceedings to revise these regulations.

V 4 0 1 6 JAN 23 75 XUM

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily value for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.39	.20
TSS	1.0	.55
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.39	.20
TSS	1.0	.55
pH	Within the range 6.0 to 9.0.	

§ 416.143 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.20	.19
COD	2.48	1.65
TSS	.16	.14
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.20	.19
COD	2.48	1.65
TSS	.16	.14
pH	Within the range 6.0 to 9.0.	

§ 416.144 [Reserved]

§ 416.145 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.35	.18
COD	3.5	1.8
TSS	.19	.13
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.35	.18
COD	3.5	1.8
TSS	.19	.13
pH	Within the range 6.0 to 9.0.	

§ 416.146 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the ethylene vinyl acetate copolymers subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.145: *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

Subpart O—Polytetrafluoroethylene Subcategory

§ 416.150 Applicability; description of the polytetrafluoroethylene subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of granular and fine powder grades of polytetrafluoroethylene, including manufacture of monomer from precursor chlorodifluoromethane, and associated processing.

§ 416.151 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.152 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	7.0	3.6
TSS	18	9.9
Fluorides	1.2	.6
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	7.0	3.6
TSS	18	9.9
Fluorides	1.2	.6
pH	Within the range 6.0 to 9.0.	

§ 416.153 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	3.3	2.2
COD	5.9	4.0
TSS	1.8	1.6
Fluorides	1.2	.6
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	3.3	2.2
COD	5.9	4.0
TSS	1.8	1.6
Fluorides	1.2	.6
pH	Within the range 6.0 to 9.0.	

§ 416.154 [Reserved]

§ 416.155 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	1.6	.80
TSS	.83	.57
Fluorides	1.2	.6
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	1.6	.80
TSS	.83	.57
Fluorides	1.3	.67
pH	Within the range 6.0 to 9.0.	

§ 416.156 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the polytetrafluoroethylene subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128–133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.155; *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

Subpart P—Polypropylene Fiber Subcategory

§ 416.160 Applicability; description of the polypropylene fiber subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of polypropylene fibers from polypropylene and associated processing.

§ 416.161 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.162 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.78	.40
TSS	2.0	1.1
O&G	1.0	.5
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.78	.40
TSS	2.0	1.1
O&G	1.0	.5
pH	Within the range 6.0 to 9.0.	

§ 416.163 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.33	.22
COD	.59	.40
TSS	.18	.16
O&G	.18	.092
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.33	.22
COD	.59	.40
TSS	.18	.16
O&G	.18	.092
pH	Within the range 6.0 to 9.0.	

V 40 16 JAN 23 75 XUM

§ 416.164 [Reserved]

§ 416.165 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.08	.04
COD	.14	.07
TSS	.04	.03
O&G	.033	.017
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.08	.04
COD	.14	.07
TSS	.04	.03
O&G	.033	.017
pH	Within the range 6.0 to 9.0.	

§ 416.166 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the polypropylene fiber subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.165; *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

Subpart Q—Alkyds and Unsaturated Polyester Resins Subcategory

§ 416.170 Applicability; description of the alkyds and unsaturated polyester resins subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of alkyds and unsaturated polyester resins and associated processing.

§ 416.171 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.172 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharge effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.60	.33
TSS	.40	.22
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.60	.33
TSS	.40	.22
pH	Within the range 6.0 to 9.0.	

§ 416.173 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.14	.10
COD	.74	.52
TSS	.04	.03
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.14	.10
COD	.74	.52
TSS	.04	.03
pH	Within the range 6.0 to 9.0.	

§ 416.174 [Reserved]

§ 416.175 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent Characteristic	Effluent Limitations: Maximum for any one day	Effluent Limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.03	.02
COD	.20	.11
TSS	.008	.006
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.03	.02
COD	.20	.11
TSS	.008	.006
pH	Within the range 6.0 to 9.0.	

§ 416.176 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the alkyds and unsaturated polyester resins subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the

purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.175; *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

Subpart R—Cellulose Nitrate Subcategory

§ 416.180 Applicability; description of the cellulose nitrate subcategory.

The provisions of this subpart are applicable to discharges resulting from the reaction of fibrous cellulose and a mixture of sulfuric and nitric acids and associated processing to manufacture cellulose nitrate.

§ 416.181 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.182 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	26	14
TSS	17	9.4
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	26	14
TSS	17	9.4
pH	Within the range 6.0 to 9.0.	

§ 416.183 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily value for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	9.4	6.9
COD	47	34
TSS	2.5	2.1
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	9.4	6.9
COD	47	34
TSS	2.5	2.1
pH	Within the range 6.0 to 9.0.	

§ 416.184 [Reserved]

§ 416.185 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	11	6.0
COD	54	30
TSS	2.7	1.8
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	11	6.0
COD	54	30
TSS	2.7	1.8
pH	Within the range 6.0 to 9.0.	

§ 416.186 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the cellulose nitrate subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.185; *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

Subpart S—Polyamide (Nylon 6/12) Subcategory

§ 416.190 Applicability; description of the polyamide (nylon 6/12) subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of Nylon 6/12 and associated processing.

§ 416.191 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.192 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to col-

V 40 16 JAN 23 75 XUM

lect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	1.2	.66
TSS	.80	.44
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	1.2	.66
TSS	.80	.44
pH	Within the range 6.0 to 9.0.	

§ 416.193 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.50	.37
COD	2.6	1.9
TSS	.13	.11
pH	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
BOD5	.50	.37
COD	2.6	1.9
TSS	.13	.11
pH	Within the range 6.0 to 9.0.	

§ 416.194 [Reserved]

§ 416.195 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent Characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.67	.37
TSS	.17	.11
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.67	.37
TSS	.17	.11
pH	Within the range 6.0 to 9.0.	

§ 416.196 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the polyamides (nylon 6/12) subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.195; *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

Subpart T—Polyester Resins (Thermoplastic) Subcategory

§ 416.200 Applicability; description of the polyester resins (thermoplastic) subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of the saturated polyester polymers based on poly (ethylene terephthalate) and poly (butylene terephthalate) and associated processing.

§ 416.201 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.202 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared

to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	1.4	.78
TSS	.95	.52
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	1.4	.78
TSS	.95	.52
pH	Within the range 6.0 to 9.0.	

§ 416.203 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for 30 consecutive days shall not exceed—
(English units) lb/1000 lb of product		
BOD5	.59	.44
COD	3.1	2.3
TSS	.16	.14
pH	Within the range 6.0 to 9.0.	

§ 416.204 [Reserved]

§ 416.205 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	.80	.44
COD	12	6.5
TSS	.20	.14
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	.80	.44
COD	12	6.5
TSS	.20	.14
pH	Within the range 6.0 to 9.0.	

§ 416.206 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the polyester resins (thermoplastic) subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.205; *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

Subpart U—Silicones Subcategory

§ 416.210 Applicability; description of the silicones subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of silicone fluids, greases, emulsions, rubber and resins and associated processing.

§ 416.211 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 416.212 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(1) Except as provided in subparagraphs (2) and (3) of this paragraph, the following limitations establish the

V 40 16 JAN 23 75 XUM

quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged from the manufacture of silicone fluids by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily value for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD_5	1.9	1.0
TSS	1.25	.69
Cu	.010	.005
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD_5	1.9	1.0
TSS	1.25	.69
Cu	.010	.005
pH	Within the range 6.0 to 9.0.	

(2) An additional allocation for silicone plants which manufacture silicone greases, emulsions, rubbers and resins, the following quantity or quality of pollutant parameter may be discharged in addition to the limitation set forth in subparagraph (1) of this paragraph:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD_5	24	13.2
TSS	16	8.8
cu	.13	.067
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD_5	24	13.2
TSS	16	8.8
cu	.13	.067
pH	Within the range 6.0 to 9.0.	

(3) An additional allocation for silicone plants who manufacture silicone coupling agents, the following quantity or quality of pollutant parameters may be discharged in addition to the limitation set forth in subparagraphs (1) and (2) of this paragraph:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD_5	15	8.2
TSS	10	5.4
Cu	.084	.042
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD_5	15	8.2
TSS	10	5.4
Cu	.084	.042
pH	Within the range 6.0 to 9.0.	

§ 416.213 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(1) Except as provided in subparagraph (2) of this paragraph, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged by the manufacture of silicone fluids by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD_5	.78	.57
COD	4	3
TSS	.21	.18
Cu	.0062	.0026
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD_5	.74	.57
COD	4	3
TSS	.21	.18
Cu	.0052	.0026
pH	Within the range 6.0 to 9.0.	

(2) An additional allocation for silicone plants which manufacture silicone greases, emulsions, rubbers, resins and coupling agents, the following quantity or quality of pollutant parameter may be discharged in addition to the limitation set forth in subparagraph (1) of this paragraph:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD_5	8.8	6.4
COD	45.5	33.4
TSS	2.8	2.0
Cu	.058	.029
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD_5	8.8	6.4
COD	45.5	33.4
TSS	2.8	2.0
Cu	.058	.029
pH	Within the range 6.0 to 9.0.	

§ 416.214 [Reserved]

§ 416.215 Standards of performance for new sources.

(1) Except as provided in subparagraph (2) of this paragraph, the following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged by the manufacture of silicone fluids by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD_5	1.0	.57
COD	8.5	4.7
TSS	.26	.18
Cu	.0032	.0026
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD_5	1.0	.57
COD	8.5	4.7
TSS	.26	.18
Cu	.0032	.0026
pH	Within the range 6.0 to 9.0.	

(2) An additional allocation for silicone plants who manufacture silicone greases, emulsions, rubbers, resins, and coupling agents, the following quantity

or quality of pollutant parameter may be discharged in addition to the limitation set forth in subparagraph (1) of this paragraph:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD_5	10	5.5
COD	82	45
TSS	2.5	1.7
Cu	.050	.025
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD_5	10	5.5
COD	82	45
TSS	2.5	1.7
Cu	.050	.025
pH	Within the range 6.0 to 9.0.	

§ 416.216 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the silicones subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

"In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 416.215: *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 416]

[FRL 324-6]

PLASTICS AND SYNTHETICS MANUFACTURING POINT SOURCE CATEGORY

Pretreatment Standards for Existing Sources

Notice is hereby given that pretreatment standards for existing sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA or Agency). On April 5, 1974, EPA promulgated a regulation adding Part 416 to Chapter 40 of the Code of Federal Regulations (39 FR 12502). That regulation with subsequent amendments established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the plastics and synthetics manufacturing point source category. The regulation proposed below will amend 40 CFR Part 416—plastics and synthetics manufacturing point source category by adding § 416.144 the ethylene vinyl acetate copolymers subcategory (Subpart N), § 416.154 the polytetrafluoroethylene subcategory (Subpart O), § 416.164 the polypropylene fiber subcategory (Subpart P), § 416.174 the alkyds and unsaturated polyester resins subcategory (Subpart Q), § 416.184 the cellulose nitrate subcategory (Subpart R), § 416.194 the polyamides (nylon 6/12) subcategory (Subpart S), § 416.204 the polyester resins (thermoplastic) subcategory (Subpart T), and § 416.214 the silicones subcategory (Subpart U) pursuant to section 307(b) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1316(b) and 1317(b) and (c), 1251, 1317(b)), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act). Simultaneously with this proposed rule making EPA is promulgating final regulations which establish the above listed subparts.

(a) *Legal authority.* Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR Part 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. Sections 416.144, 416.154, 416.164, 416.174, 416.184, 416.194, 416.204, and 416.214 proposed below establish pretreatment standards for existing sources within the ethylene vinyl acetate copolymers subcategory (Subpart N), the polytetrafluoroethylene subcategory (Subpart O), the polypropylene fiber subcategory (Subpart P), the alkyds and unsaturated polyester resins subcategory (Subpart Q), the cellulose nitrate subcategory (Subpart R), the polyamides (nylon 6/12) subcategory (Subpart S), the polyester resins (thermoplastic) subcategory (Subpart T), and the silicones subcategory (Subpart U) of the plastics and synthetics manufacturing point source category.

(b) *Summary and basis of proposed pretreatment standard for existing sources.* The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the final regulation for the ethylene vinyl acetate copolymers subcategory (Subpart N), the polytetrafluoroethylene subcategory (Subpart O), the polypropylene fiber subcategory (Subpart P), the alkyds and unsaturated polyester resins subcategory (Subpart Q), the cellulose nitrate subcategory (Subpart R), the polyamides (nylon 6/12) subcategory (Subpart S), the polyester resins (thermoplastic) subcategory (Subpart T), and the silicones subcategory (Subpart U) which is promulgated by EPA simultaneously with publication of this proposed regulation. The information contained in the preamble to the final regulation is incorporated herein by reference. The proposed regulation set forth below proposes pretreatment standards for pollutants introduced into the publicly owned treatment works. The proposal will establish for each subpart the extent of application of effluent limitations to existing sources which discharge to publicly owned treatment works. The regulation is intended to be complementary to the general regulation for pretreatment standards for existing sources set forth at 40 CFR Part 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982). The regulation proposed below applies to users of publicly owned treatment works which fall within the description of the point source category to which the limitations and standards apply. However, the proposed pretreatment regulation applies to the introduction of pollutants which are directed into a publicly owned treatment works, rather than to discharges of pollutants to navigable waters.

The general pretreatment standard divides pollutants discharged by users of publicly owned treatment works into two broad categories; "compatible" and "incompatible." Compatible pollutants are generally not subject to pretreatment standards. However, 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (See 40 CFR 128.110). Incompatible pollutants are subject generally to pretreatment standards as provided in 40 CFR 128.133.

Sections 416.144, 416.154, 416.164, 416.174, 416.184, 416.194, 416.204, and 416.214 of the regulation proposed below are intended to implement the concepts of 40 CFR 128.133, by stating specific limitations for pollutants which may be discharged to publicly owned treatment plants based upon best practicable control technology currently available. This is accomplished by setting § 128.133 aside and substituting the specific limitation.

Operators of publicly owned treatment works and other interested persons should refer to the Federal Guidelines: Pretreatment of Pollutants Introduced into Publicly Owned Treatment Works, published pursuant to section 304(f) of the Act, for guidance on local pretreatment requirements and information on those aspects of pretreatment not amenable to a Federal standard.

Questions were raised during the public comment period on the proposed general pretreatment standard (40 CFR Part 128) about the propriety of applying a standard based upon best practicable control technology currently available to all plants subject to pretreatment standards. In general, EPA believes the analysis supporting the effluent limitations and guidelines is adequate to make a determination regarding the application of those standards to users of publicly owned treatment works. However, to ensure that those standards are appropriate in all cases, EPA now seeks additional comments focusing upon the application of effluent limitations guidelines to users of publicly owned treatment works.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Synthetic Polymers Segment of the Plastics and Synthetics Manufacturing Point Source Category" details the analysis undertaken in support of the regulation being proposed herein and is available for inspection in the EPA Information Center, Room 227, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's advance notice of public review procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman.

(c) *Summary of public participation.* As described in the "Development Document," the process wastes from the ethylene vinyl acetate copolymers subcategory, the polytetrafluoroethylene subcategory, and the polypropylene fibers subcategory have waste loads which are generally compatible with joint treatment works. The alkyds and unsaturated polyester resins subcategory, the cellulose nitrate subcategory, the polyamide (nylon 6/12) subcategory, the polyester resins (thermoplastic) subcategory, and the silicones subcategory have high process waste loads of BOD5 and COD. Since joint treatment works are designed to treat BOD5 and the BOD5 portion of the COD, these wastes are considered compatible. However, if a joint treatment works has difficulty in meeting its NPDES permit conditions for BOD5 and COD, the operator may require, at their option, pretreatment in the high process waste load product subcategories of the plastics and synthetics category in order to assist them in meeting their NPDES permit conditions. The silicones subcategory requires pretreatment for the removal of copper.

A full listing of participants and discussion of comments and responses is included in the preamble of the final regulation for Subpart N through U being simultaneously promulgated by EPA and are incorporated herein by reference.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing a standard of performance or pretreatment standard, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of section 307(b) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Information Center, Room 227, West Tower, Waterside Mall, 401 M Street, SW., Washington, D.C. A copy of preliminary draft contractor reports, the development document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before February 24, 1975 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: January 9, 1975.

RUSSELL E. TRAIN,
Administrator.

Part 416 is proposed to be amended as follows:

* * * * *

1. Subpart N is amended by adding § 416.144 as follows:

§ 416.144 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the ethylene vinyl acetate copolymers subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
COD	Do.

2. Subpart O is amended by adding § 416.154 as follows:

§ 416.154 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the polytetrafluoroethylene subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
COD	Do.
Fluorides	Do.

3. Subpart P is amended by adding § 416.164 as follows:

§ 416.164 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the polypropylene fiber subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD 5	Do.
TSS	Do.
COD	Do.

4. Subpart Q is amended by adding § 416.174 as follows:

§ 416.174 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the alkyds and unsaturated polyester resins subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD 5	Do.
TSS	Do.
COD	Do.

5. Subpart R is amended by adding § 416.184 as follows:

§ 416.184 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the cellulose nitrate subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD 5	Do.
TSS	Do.
COD	Do.

6. Subpart S is amended by adding § 416.194 as follows:

§ 416.194 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source

V 4 0 1 6 JAN 23 75 XUM

within the polyamide (nylon 6/12) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
COD	Do.

7. Subpart T is amended by adding § 416.204 as follows:

§ 416.204 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the polyester resins (thermoplastic) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
COD	Do.
Copper	1 mg/l.

[FR Doc.75-2058 Filed 1-22-75;8:45 am]

8. Subpart U is amended by adding § 416.214 as follows:

§ 416.214 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the silicones subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
COD	Do.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Low-Income Housing

■

Section 8 Housing Assistance Payments Program—Existing Housing

V40-16 JAN23 75 XUM

Title 24—Housing and Urban Development

CHAPTER VIII—LOW-INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-308]

PART 1275—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—EXISTING HOUSING

Notice was given on December 10, 1974, at 39 FR 43179 that the Department of Housing and Urban Development (HUD) was proposing to amend Title 24 of the Code of Federal Regulations by adding a new Part 1275 to Chapter VIII.

The purpose of Part 1275 is to set forth the essential elements of the Section 8 Housing Assistance Payments Program—Existing Housing, including, among other things, the roles and responsibilities of HUD, public housing agencies (PHAs), Owners, and Eligible Lower- and Very Low-Income Families (Families); the basis for determining the amount of housing assistance payments; and the prescribed forms and procedures.

HUD has received more than 50 responses to the December 10, 1974 publication. All of these comments were seriously considered and many changes have been incorporated in these regulations, as a result. The principal changes are set forth below.

1. Section 1275.101(b) has been revised to clarify the relationship between Part 1275 and housing under Annual Contribution Contracts (ACCs) on January 1, 1975.

2. The definition of "Eligible Family," as set forth in § 1275.102(g), has been modified to clarify that disabled persons are included within this term.

3. The definition of "Gross Family Contribution," as set forth in § 1275.102 (j), has been modified to clarify that this is the amount payable by the Family before deduction of the shopping incentive credit, where applicable.

4. A definition of the term "HUD" has been added in a new § 1275.102(o) to include HUD's designee.

5. Section 1275.103(a), which sets forth the "finders-keepers" policy, has been modified to require (rather than only to authorize) the PHA to provide assistance in finding units to Families who are unable to locate approvable units because of discrimination.

6. Section 1275.103(b), which sets forth provisions respecting the ACC, has been modified by adding a new § 1275.103 (b)(3) stating that HUD, in addition to providing for a project reserve, will take additional steps authorized by section 8(c)(6) of the U.S. Housing Act of 1937 to assure the availability of funds to cover increases in housing assistance payments. (See also § 1.4(c)(2) of Appendix I.)

7. Section 1275.103(c)(2)(i) has been modified to increase the percent of Contract Rent payable in the event a family vacates its unit in violation of the lease from 70 to 80 percent. (See section 1.3c (1) of Appendix II.)

8. Section 1275.103(d)(1)(i), which sets forth the procedures under which Fair Market Rents may be exceeded by up to 20 percent, has been clarified.

9. Section 1275.103(d)(2), regarding subsequent adjustments in Contract Rents, has been modified to require that each Owner's request for such adjustments be accompanied by a certification signed by the owner and the family that the unit is in decent, safe, and sanitary condition and that the owner is otherwise in compliance with the lease. (See section 1.8a of Appendix II.)

10. Section 1275.103(d)(2)(ii), the provision authorizing special additional adjustments under limited circumstances, has been clarified. (See section 1.8a(2) of Appendix II.)

11. Section 1275.103(h), which sets forth provisions relating to the types of housing which may be utilized under this part, has been modified by (a) explicitly providing that owner-occupied units may not receive section 8 assistance, and (b) revising and clarifying the procedures under which assistance under Part 1275 may be provided with respect to units in a section 221(d)(3) below market interest rate (BMIR), section 202, or section 236 project.

12. Section 1275.103(i), which sets forth equal opportunity requirements, has been revised to clarify that the provisions of section 3 of the Housing and Urban Development Act of 1968 are applicable only to the PHA.

13. Section 1275.103(j) has been modified to permit the owner to require each family to make a security deposit in an amount equal to the amount payable by the family toward one month's gross rent. (See section 1.7 of Appendix II.)

14. Section 1275.103(l), which sets forth the provisions relating to the requirement that the PHA administer the program so that at least 30 percent of the families for whom leases are approved are very low-income families, has been clarified.

15. The definitions of "large family" and "very large family," as used in § 1275.103(m) for purposes of identifying those families for whom housing assistance payments will equal the difference between 15% of gross income and the gross rent, have been modified as follows:

(1) The term "large family" means a family which includes six or more minors (other than the head of the family or the spouse), and

(2) The term "very large family" means a family which includes eight or more such family members.

16. Section 1275.103(n), which sets forth the provisions relating to the shopping incentive credit, has been modified to eliminate the provisions that (1) the credit be limited to the initial term of the lease and (2) the dollar amount of the credit not be changed with subsequent changes in the gross family contribution.

17. Section 1275.103(q), which sets forth the responsibilities of the owner, has been modified by, among other things, the elimination of the requirement for HUD approval of a contract with another entity for the performance of owner services.

18. Section 1275.103(r)(2), respecting amendment to ACCs to provide for additional units, has been clarified as to the manner by which the maximum annual contribution of the revised project will be calculated.

19. A new § 1275.105 has been added to provide procedures and policies (including special fair market rents) for utilization under this part of certain recently constructed or substantially rehabilitated housing.

20. Section 1275.207(a)(1), respecting public notice to lower-income families, has been clarified and modified so that, among other things, (1) notice to occupants of housing assisted under the United States Housing Act of 1937, applicants on waiting lists for any such housing, and holders of Certificates of Family Participation for such housing will be accomplished through the public notice and (2) such public notice will state that all such families must apply specifically if they wish to be considered for a certificate under Part 1275.

21. The contents of the certificate holder's packet, as described in § 1275.207 (d), have been expanded to include equal opportunity complaint forms, information as to the gross family contribution, appropriate fair market rents and shopping incentive credit, the PHA's schedule of allowances for utilities and other services, and information as to recently completed housing, if any.

22. Section 1275.207(g), which sets forth the policies and procedures respecting continued participation when an assisted family moves, has been clarified.

23. Section 1275.207(o), respecting evictions, has been clarified with regard to minimizing PHA delay in making its determination on whether or not to authorize an eviction. (See section 1.5 of Appendix II.)

24. The provisions respecting required maintenance and security services by the owner have been clarified by deleting the proposed Appendix VIII and revising sections 1.6(c) of Appendix II and c of Appendix VI.

In view of the necessity for having limited the original comment period to fifteen days because of the statutory requirement that these regulations be made effective as of January 1, 1975, comments on these regulations will be received until February 24, 1975. Promptly thereafter, HUD will make such modifications in these regulations as it deems appropriate. Comments should be addressed to the Rules Docket Clerk, Office of the General Counsel, Room 10245, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. A copy of each communication will be available for public inspection during regular business hours at the above address.

In order to comply with the aforementioned statutory requirement, the Assistant Secretary for Housing Production and Mortgage Credit/FHA Commissioner has determined that these regulations be made effective as of January 1, 1975.

Effective date. These regulations are effective as of January 1, 1975. Accordingly, Title 24 is amended as follows:

A new Part 1275, Section 8 Housing Assistance Payments—Existing Housing, is added to Chapter VIII to read as set forth below.

Subpart A—Applicability, Scope and Basic Policies

Sec.
1275.101. Applicability and scope.
1275.102. Definitions.
1275.103. Basic policies.
1275.104. Direct HUD administration of programs under this part.
1275.105. Recently completed housing.

Subpart B—Project Development and Operation

Sec.
1275.201. Allocations of contract authority to field offices.
1275.202. Program mix (new construction, substantial rehabilitation, existing housing).
1275.203. Invitations for existing housing program applications.
1275.204. Submission of application.
1275.205. Evaluation of application.
1275.206. Annual contributions contract.
1275.207. Project operation.
1275.208. HUD review of contract compliance.
1275.209. PHA reporting requirements. [Reserved].

Appendices

NOTE.—Various prescribed forms which relate to internal HUD processing procedures are not included herein, but will appear in the HUD Existing Housing Handbook.

I. Annual contributions contract.
II. Housing Assistance Payments Contract.
III. Certificate of Family Participation.
IV. Request for lease approval.
V. Agency determination with respect to request for lease approval.

VIII. Family's dwelling unit inspection report.
IX. Owner's dwelling unit inspection report.

AUTHORITY: Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)); section 5(b) of the U.S. Housing Act of 1937 (42 U.S.C. 1437c(b)); section 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f).

Subpart A—Applicability, Scope and Basic Policies

§ 1275.101 Applicability and scope.

(a) *General.*

(1) The policies and procedures contained herein are applicable to the making of Housing Assistance Payments on Behalf of Eligible Families leasing Existing Housing pursuant to the provisions of section 8 of the U.S. Housing Act of 1937 ("Act").

(2) For the purpose of this part, "Existing Housing" means housing that is in decent, safe, and sanitary condition except that it does not include housing: (i) Which is covered by an Agreement to Enter into Housing Assistance Payments Contract or by a Housing Assistance Payments Contract under 24 CFR Part 1272, 1273, 1276, or 1277, or (2) which is owned by the PHA administering the ACC under this part, or (3) which is subsidized under other provisions of the Act. Occupancy of housing which requires repairs in order to be made decent, safe, and sanitary may be assisted under this part only after such repairs have been made. (See also Sec. 1275.207(j)(4).)

(b) *ACCs in Effect on January 1, 1975.* With respect to all housing under ACCs (including uncommitted leasing authorizations) in effect on January 1, 1975, other than newly constructed or substantially rehabilitated section 23 housing and PHA-owned housing in existence or committed by that date:

(1) The PHA shall submit by June 30, 1975, or in any event in connection with any request for an amendment to an ACC, (i) a recommendation for continuing such housing under the previous ACC authorization with a justification that it is in the Government's interest to do so, or (ii) a schedule for orderly conversion of such housing to housing assisted under this Part. If an amendment to an ACC is requested by the PHA, the request will not be considered unless it is accompanied by the submission.

(2) Until the PHA's submission required by this paragraph (b) is approved by HUD:

(i) No leases for additional units shall be entered into;

(ii) Leases for unoccupied units shall be terminated as quickly as possible consistent with the legal rights of Owners; and

(iii) Leases for occupied units shall not be extended or modified for a term exceeding one year unless the Owner has the right to renew the lease without concurrence of the PHA.

(3) The provisions of this paragraph (b) shall not apply to ACCs implementing the HUD Experimental Housing Allowance Program.

§ 1275.102 Definitions.

(a) *Allowance for Utilities and Other Services ("Allowance").* An amount determined by the PHA as an allowance for the cost of utilities (except telephone) and charges for other services payable directly by the Family. Where the Family pays directly for one or more utilities or services, the amount of the Allowance is deducted from the Gross Rent in determining the Contract Rent and is included in the Gross Family Contribution.

(b) *Annual Contributions Contract ("ACC").* A written agreement between HUD and a PHA to provide annual contributions to the PHA to cover housing assistance payments and other expenses pursuant to the Act. (See Appendix I.)

(c) *Certificate of Family Participation.* A certificate issued by the PHA declaring a Family to be eligible for participation in this program and stating the terms and conditions for such participation.

(d) *Congregate Housing.* Housing in which some or all of the dwelling units do not have kitchen facilities and connected with which there is a central dining facility to provide meals for the occupants.

(e) *Contract Rent.* The rent payable to the Owner under his Contract including the portion of the rent payable by the Family. In the case of a cooperative, the term "Contract Rent" means charges under the occupancy agreements between the members and the cooperative.

(f) *Decent, Safe, and Sanitary.* Housing is Decent, Safe, and Sanitary if the performance requirements outlined in § 1275.103(g) are met.

(g) *Eligible Family ("Family").* A family which qualifies as a Lower-Income Family and which meets the other requirements of the Act and this part. The term Family includes an elderly, handicapped, disabled, or displaced person and the remaining member of a tenant family as defined in section 3(2) of the Act. A Family's eligibility for housing assistance payments continues until the amount payable by the Family toward the Gross Rent equals the Gross Rent for the dwelling unit it occupies, but the termination of eligibility at such point shall not affect the family's other rights under its Lease nor shall such termination preclude resumption of payments as a result of subsequent changes in income or rents or other relevant circumstances during the term of the Contract.

(h) *Existing Housing.* See Sec. 1275.101(a)(2).

(i) *Fair Market Rent.* The rent, including utilities (except telephone), ranges and refrigerators, and all maintenance, management, and other services, which, as determined at least annually by HUD, would be required to be paid in order to obtain privately owned, existing, Decent, Safe, and Sanitary rental housing of modest (non-luxury) nature with suitable amenities. Separate Fair Market Rents shall be established for dwelling units of varying sizes (number of bedrooms) and types (e.g., elevator, non-elevator).

(j) *Gross Family Contribution.* The portion of the Gross Rent payable by an Eligible Family (i.e., the difference between the amount of the Housing Assistance Payment payable on Behalf of the Family and the Gross Rent), before deduction of shopping incentive credit, where applicable.

(k) *Gross Rent.* The Contract Rent plus any Allowance for Utilities and Other Services.

(l) *HCD Act.* The Housing and Community Development Act of 1974.

(m) *Housing Assistance Payments Contract ("Contract").* A written contract between a PHA and an Owner for the purpose of providing housing assistance payments to the Owner on behalf of an Eligible Family. (See Appendix II.)

(n) *Housing Assistance Payment on Behalf of Eligible Family.* The amount of housing assistance payment on behalf of an Eligible Family determined in accordance with schedules and criteria established by HUD. (See § 1275.103(m).)

(o) *HUD.* The Department of Housing and Urban Development or its designee.

(p) *Income.* Income from all sources of each member of the household as determined in accordance with criteria established by HUD.

(q) *Lease.* A written agreement between an Owner and an Eligible Family

V 40 16 JAN 23 75 XUM

for the leasing of an Existing Housing unit in accordance with the Contract, which agreement is in compliance with the provisions of this part.

(r) *Local Housing Assistance Plan.* A housing assistance plan submitted by a unit of general local government and approved by HUD under section 104 of the HCD Act or, in the case of a unit of general local government not participating under Title I of the HCD Act, a housing plan which contains the elements set forth in section 104(a)(4) of the HCD Act and which is approved by the Secretary as meeting the requirements of section 213 of that Act.

(s) *Lower-Income Family.* A Family whose income does not exceed 80 percent of the median income for the area as determined by HUD with adjustments for smaller or larger Families, except that HUD may establish income limits higher or lower than 80 percent on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs, unusually high or low incomes, or other factors.

(t) *Owner.* Any person or entity, including a cooperative, having the legal right to lease or sublease Existing Housing.

(u) *Public Housing Agency ("PHA").* Any State, county, municipality or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for low-income Families.

(v) *Secretary.* The Secretary of Housing and Urban Development.

(w) *Very Low-Income Family.* A Family whose income does not exceed 50 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger Families.

§ 1275.103 Basic policies.

(a) *"Finders-Keepers" Policy.* A holder of a Certificate of Family Participation shall be responsible for finding an Existing Housing unit suitable to the holder's needs and desires in any area within the PHA's jurisdiction. A holder of a Certificate may select the dwelling unit which the holder already occupies if the unit qualifies as Existing Housing. A PHA may provide assistance in finding units for those Families who, because of age, handicap, or other reasons, are unable to locate approvable units and shall provide such assistance where the Family alleges that discrimination is preventing it from finding a suitable unit, any such assistance to be in accordance with the PHA's approved equal opportunity housing plan.

(b) *Annual Contributions.*

(1) The maximum total annual contributions that may be contracted for in the ACC for Existing Housing shall not exceed: (i) the total of the Fair Market Rents for all the units plus (ii) a fee for the regular costs of PHA administration. HUD-approved preliminary costs shall be payable out of this total.

(2) A project account will be established and maintained, in an amount as determined by the Secretary consistent with his responsibilities under section 8(c)(6) of the Act. This account shall be established and maintained by HUD as a specifically identified and segregated account, and payment shall be made therefrom only for the following purposes:

(i) Housing assistance payments;

(ii) The amount of the fee for regular PHA costs of administration; and

(iii) Other costs specifically authorized or approved by the Secretary.

(3) In addition, the ACC will provide that HUD will take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to assure availability of funds to cover increases in housing assistance payments payments on a timely basis as a result of increases in Contract Rents or decreases in Family incomes.

(c) *Housing Assistance Payments to Owners*—(1) *General.* Housing assistance payments shall be paid to an Owner in accordance with his Contract for the dwelling unit under lease by an Eligible Family. These housing assistance payments will cover the difference between the Contract Rent and the portion of said rent payable by the Family as determined in accordance with HUD-established schedules and criteria.

(2) *Vacated Units.*

(i) If an Eligible Family vacates its unit in violation of the provisions of the Lease or tenancy agreement, the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days or the expiration or other termination of the Lease or tenancy agreement, whichever comes first; provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to HUD or as HUD may direct; and provided further, that if the vacancy is the result of action by the Owner, the Owner shall not receive any payment under this paragraph if his action was in violation of the Lease or the Contract or any applicable law or if the Owner failed to comply with § 1275.207(o).

(ii) The Owner shall not be entitled to any payment under this paragraph (c)(2) unless he: (A) Immediately upon learning of the vacancy, has notified the PHA of the vacancy or prospective vacancy, (B) has taken and continues to take all feasible actions to fill the vacancy including, but not limited to, contacting applicants on his waiting list, if any, requesting the PHA and other appropriate sources to refer eligible applicants, and advertising the availability of the unit and (C) has not rejected any eligible applicant, except for good cause acceptable to the PHA.

(iii) The Owner shall not be entitled to housing assistance payments with respect to vacant units under this paragraph (c)(2) to the extent he is entitled to payments from other sources (for example, payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the HCD Act or payments under §1275.103(j)).

(d) *Maximum Rents to Owner.*—(1) *Initial Maximum Rents.* (i) For any Existing Housing unit, the sum of the Contract Rent and any Allowance for Utilities and Other Services shall not exceed the applicable Fair Market Rent except that such Fair Market Rent may be exceeded by up to 10 percent if the PHA certifies that such higher rent meets the test of reasonableness in paragraph (d)(1)(ii), specifies the factor(s) on which the certification is based, and HUD approves. Upon request by the PHA, the Fair Market Rent may be exceeded by up to 20 percent in a designated area, where the Assistant Secretary for Housing-Production and Mortgage Credit determines that special circumstances, such as prevailing rents for modest housing, in a designated area, warrant such higher rents or determines that such higher rents are necessary to the implementation of a Local Housing Assistance Plan.

(ii) In addition, the PHA shall determine and so certify that the Contract Rent does not exceed a rent that is reasonable in relation to the location, quality, amenities, facilities, and management and maintenance services of the dwelling unit.

(2) *Subsequent Adjustments.* Contract Rents shall be adjusted as provided in paragraphs (d)(2)(i) and (ii) upon request to the PHA by the Owner, provided that such request is accompanied by a certification signed by the Owner and the Family that the unit is in Decent, Safe, and Sanitary condition and that the Owner is otherwise in compliance with the terms of the Lease.

(i) An adjustment as of any anniversary date of the Lease not to exceed the percentage of change in the applicable published Fair Market Rent (with appropriate reduction in the adjustment where utilities are paid directly by the Family), provided that the Owner has the legal right to terminate the tenancy as of such anniversary date.

(ii) A special adjustment, subject to HUD approval, effective as of the date when the Owner has the legal right to terminate the tenancy, to reflect increases in the actual and necessary expenses of owning and maintaining the unit which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by the annual adjustments provided for in paragraph (d)(2)(i). The Owner shall submit financial statements to the PHA which clearly support the increase.

(iii) Notwithstanding any other provisions of this Part, adjustments as provided in this paragraph (d)(2) shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the PHA (and approved by HUD, in

the case of adjustments under paragraph (d)(2)(ii)).

(e) *Term of ACC.* The term of the ACC shall be for five years, as provided in Appendix I.

(f) *Term of Lease and of Housing Assistance Payments Contract.* The Lease shall be for not less than one year nor more than three years but may contain a provision permitting termination upon 30 days advance written notice by either party. The term of the Contract shall be for the term of the Lease, provided that if a Family continues in occupancy after the expiration of the term on the same terms and conditions as the original Lease (or changes thereto which have been approved by the PHA and incorporated in the Contract where appropriate), the Contract shall continue in effect for the duration of such tenancy subject to the limitations in the next sentence. The specified Contract and Lease term, including specified renewal options, if any, and any continuation of tenancy beyond the Lease term shall in no case exceed three years or extend beyond the term of the ACC pertaining to the Contract and the Lease. This limitation shall not preclude the execution of a new Lease and Contract for the dwelling unit.

(g) *Housing Quality Standards.* Housing used in this program shall meet the Performance Requirements set forth in this paragraph (g). In addition, the housing must meet the Acceptability Criteria (set forth in this paragraph (g)) except for such variations as are proposed by the PHA and approved by HUD. Local climatic or geological conditions or local codes are examples which may justify such variations.

(1) *Sanitary Facilities*—(i) *Performance Requirement.* The dwelling unit shall include its own sanitary facilities which are in proper operating condition, can be used in privacy, and are adequate for personal cleanliness and the disposal of human waste.

(ii) *Acceptability Criteria.* A flush toilet in a separate, private room, a fixed basin with hot and cold running water, and a shower or tub with hot and cold running water shall be present in the dwelling unit, all in proper operating condition. These facilities shall utilize an approved public or private disposal system.

(2) *Food Preparation and Refuse Disposal*—(i) *Performance Requirement.* The dwelling unit shall contain suitable space and equipment to store, prepare, and serve foods in a sanitary manner. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage where necessary.

(ii) *Acceptability Criteria.* A cooking stove or range, a refrigerator of appropriate size for the unit, and a kitchen sink with hot and cold running water shall be present in proper operating condition within the unit. The sink shall drain into an approved public or private system. Adequate space for the storage, preparation and serving of food shall be provided. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage where necessary (e.g., garbage cans).

(3) *Space and Security*—(i) *Performance Requirement.* The dwelling unit shall afford the Family adequate space and security.

(ii) *Acceptability Criteria.* A living room, kitchen area, and bathroom shall be present; and the dwelling unit shall contain at least one sleeping room or living/sleeping room of appropriate size for each two persons. Exterior doors and windows accessible from outside the unit shall be lockable.

(4) *Thermal Environment.*—(i) *Performance Requirement.* The dwelling unit shall have and be capable of maintaining a thermal environment healthy for the human body.

(ii) *Acceptability Criteria.* The dwelling unit shall contain safe heating and/or cooling facilities which are in proper operating condition and can provide adequate heat and/or cooling to each room in the dwelling unit appropriate for the climate to assure a healthy living environment. Unvented room heaters which burn gas, oil or kerosene are unacceptable.

(5) *Illumination and Electricity.*—(i) *Performance Requirement.* Each room shall have adequate natural or artificial illumination to permit normal indoor activities and to support the health and safety of occupants. Sufficient electrical sources shall be provided to permit use of essential electrical appliances while assuring safety from fire.

(ii) *Acceptability Criteria.* Living and sleeping rooms shall include at least one window. A ceiling or wall type light fixture shall be present and working in the bathroom and kitchen area. At least two electric outlets, one of which may be an overhead light, shall be present and operable in the living area, kitchen area, and each bedroom area.

(6) *Structure and Materials*—(i) *Performance Requirement.* The dwelling unit shall be structurally sound so as not to pose any threat to the health and safety of the occupants and so as to protect the occupants from the environment.

(ii) *Acceptability Criteria.* Ceilings, walls and floors shall not have any serious defects such as severe bulging or leaning, large holes, loose surface materials, severe buckling or noticeable movement under walking stress, missing parts or other serious damage. The roof structure shall be firm and the roof shall be weathertight. The exterior wall structure and exterior wall surface shall not have any serious defects such as serious leaning, buckling, sagging, cracks or holes, loose siding, or other serious damage. The condition and equipment of interior and exterior stairways, halls, porches, walkways, etc., shall be such as not to present a danger of tripping or falling. Elevators shall be maintained in safe and operating condition.

(7) *Interior Air Quality*—(i) *Performance Requirement.* The dwelling unit shall be free of pollutants in the air at levels which threaten the health of the occupants.

(ii) *Acceptability Criteria.* The dwelling unit shall be free from dangerous levels of air pollution from carbon monoxide, sewer gas, fuel gas, dust, and other harmful air pollutants. Air circulation shall be adequate throughout the unit. Bathroom areas shall have at least one openable window or other adequate exhaust ventilation.

(8) *Water Supply*—(i) *Performance Requirement.* The water supply shall be free from contamination.

(ii) *Acceptability Criteria.* The unit shall be served by an approved public or private sanitary water supply.

(9) *Lead Based Paint*—(i) *Performance Requirement.*

(A) The dwelling unit shall be in compliance with HUD Lead Based Paint regulations, 24 CFR Part 35, issued pursuant to the Lead Based Paint Poisoning Prevention Act, 42 U.S.C. 4801, and the Owner shall provide a certification that the dwelling has been treated in accordance with such HUD regulations.

(B) If the property was constructed prior to 1950, the Owner shall provide a certification that the Family upon occupancy will receive the notice required by HUD Lead Based Paint regulations and procedures regarding the hazards of lead based paint poisoning, the symptons and treatment of lead poisoning and the precautions to be taken against lead poisoning and a certification that records showing receipt of such notice by each tenant will be maintained for at least three years.

(ii) *Acceptability Criteria.* Same as Performance Requirement.

(10) *Access*—(i) *Performance Requirement.* The dwelling unit shall be useable and capable of being maintained without unauthorized use of other private properties, and the building shall provide an alternate means of egress in case of fire.

(ii) *Acceptability Criteria.* The dwelling unit shall be useable and capable of being maintained without unauthorized use of other private properties. The building shall provide an alternate means of egress in case of fire (such as fire stairs or egress through windows).

(11) *Site and Neighborhood*—(i) *Performance Requirement.* The site and neighborhood shall be reasonably free from disturbing noises and reverberations and other hazards to the health, safety, and general welfare of the occupants.
